## SKETCH OF FARMVILLE.

Farmville, N. C., July 3rd.

A brief sketch of our little town of Farmville may not be out of order, so for the benefit of whom this may concern, I will give the following information:

Farmville is situated on the south side of Little Contentneer creek, being in the western part of Pitt county and latitude 35 and 78 feet above the sea, and nearly two miles from the Pitt and Greene county line, fifteen miles west of Greenville, 12 miles west of Snow Hill, 10 miles of Hookerton, 22 from Wilson, 20 miles from Tarboro, 8 miles from Falkland and Tar river. The East Carolina railroad touches it on the northwest and the Raleigh & Pamlico branch of the Norfolk & Southern on the southwest.

As Farmville is not a historic town, being about 45 or 50 years old, we will not linger long with the memory of the earlier days, except to say that in the time of the civil war there was nothing here save forest, with a cleared spot here and there, nor was there anything to indicate any change in nature's ruling, for only a mile away was the prosperous little town of Marlboro on the plank road from Wilson to Greenville. But alas! what was its destiny? Well it died, and died a suicidal death. And why? one may ask. Simply because the town and all the adjacent land was practically owned by two men. They were of course rich nabobs, so-called in those days, and with a regiment of slaves at their bidding or command, and black postillion in scarlet or white livery as they chose, and carriages and horses ready for all their outdoor pleasures and recreation. Of course people came to Marlboro to buy land or lots to build houses to live in, just as they go to other places for the same purpose; but these men said no, we will build you a house and rent it to you but we cannot give you a deed for any of our land. This did not suit the spirit of the people so the home seekers wended their way northward a little and commenced to hew down the forest. Here they found land for sale, and from that time to the present the little town of Farmville has never gone backward, and while its growth, progress, and development is slow it seems to be on a firm basis and it is the intention of those who live here to see that it does in the future at least keep pace with its past record.

Before leaving the subject of our earlier days it is but fair to say a word in grateful remembrance of those who have lived before us, some of whom have long since while, others have recently laid down their life work and gone to their last resting place, and while the material body is dead and consecrated to the earth the example and deeds of them, our parents and teachers, are still alive among us, and though we do not see their faces nor hear their voices, the spiritual man is still alive and among us and exciting in our minds a desire for better and more efficient citizenship, work and prosperity.

Twenty years ago the town of Farmville was too small and poor to even indulge in the protection of regular police force, and the town with its small revenue could afford to employ a police only on Saturday's or on other occasion of political nature. The revenue at that time was less than \$200, while the treasurer's report of last year shows a revenue \$1500 from town taxes and now with a new assessment ordered, and increase in corporation the amount will be considerably increased.

The first brick building in the town began 7 years ago. Since then 10 large brick buildings have been erected, consuming in their construction 100,000 brick each. But while we call your attention to these facts, we would have you not to overlook the fact that we are all aware that there are lots of other things we are distressingly in need of; such, for example, as lighting facilities, as we are in the dark save the light of the moon and stars and occasionally a fire fly or a stray lantern here and there. Our streets are only fairly well kept, the sidewalks in some places are miserable, while there might be considerable improvement made in the drainage. And several of the finest lots in the heart of the town now used for farming purposes could be utilized for building sites. Farmville has six churches all of which have been repainted or otherwise improved within the past three years, most of them have flourishing Sunday schools and ladies' aid society. Services are conducted by transient and stationed ministers.

Farmville marketed over 2,000,000 pounds of leaf tobacco last year and is making considerable progress in increasing its facilities for handling more in the future by building prize houses, stemmeries, and no doubt we will handle twice the amount this year. Last year's report shows over 6,000 bales of cotton were handled by our merchants, as we have six merchantile firms that buy cotton.

The Bank of Farmville was organized in 1914 with a capital stock of \$10,000, has increased each year its business at a surprising rate, and has proven an institution of great convenience and help to not only the business people of Farmville but likewise to the farmers mechanics and laborers.

The drug business was begun here 6 years ago on a small scale with a capital of only \$1,000, and after changing hands several times, however steadily growing all the time, it was finally purchased by Mr. J. T. Thorne about 3 years ago who is doing a rushing business, employing three salesmen. The fountain which Mr. Thorne runs now cost more than the entire stock and fixtures at the time the business was established and the receipts from his cold drink department more than doubles the entire receipt of the original or original establishment.

Among our merchantile establishments we find the well known firm of R. L. Davis & Bro., who for stability and entirety of purpose stands like a mighty Gibraltar against the increasing waves of the great sea and with a business steadily increasing for the past 25 years, we dare not enquire what the magnitude of the firm in the future may be.

W. M. Lang is another of our pioneer merchants with over 15 years experience and being a son of the well known and highly esteemed W. G. Lang, who completely controlled the entire mercantile business for many years in our town. Mr. Lang's building and complete stock of general merchandise will well compete with almost any to be found in our larger towns or even cities, especially in variety and selection.

**Dr. James Dinwiddie**  
The news of the death of Dr. James Dinwiddie in California will be heard with deep regret. Failing health caused him to recently retire from the presidency of Peace Institute and with his son he had gone to the Pacific hoping to find health. Dr. Dinwiddie was a brave Confederate soldier. Like his hero and leader, General Lee, when the war was ended Dr. Dinwiddie entered the schoolroom. He had scholarship, was a man of affairs, and his success was such as to enable him to retire with a competence. He was a fine type of teacher, disciplinarian, educator and scores of his old pupils will be grieved at his death.—Raleigh News and Observer.

Quite a large crowd went from here on the excursion to New Bern and Morehead today.

## Death Due to Fright.

Heart failure occasioned by excessive fright is believed to have been the cause of the death of Mr. and Mrs. J. H. Merritt's little 8-year-old son, at the home of his parents, near Pineville, Monday afternoon. The little fellow, with several companions, was playing out in the barn yard. One of the cows, a rather vicious brute, doubtless enraged by the children's actions, started towards them, shaking her head and acting as if mad. All ran and scrambled underneath the fence. The little Merritt boy was behind the rest and was the last to escape. He rolled under the fence, but did not get up. The other children, knowing that something was wrong, gave the alarm. A physician was summoned, but the little fellow was dead. There were no bruises on his body and it is believed that he died of fright.—Charlotte Observer.

## Notice.

The Board of Commissioners of Pitt county will meet on Monday the 8th day of July, 1907, it being the second Monday, and revise the tax-list for the year, hear complaints as to valuation, and allow any person to list taxes who has not already done so. All persons interested should be present on that day.

By order of the Board of Commissioners.

R. Williams, Clerk.  
d&w.

## Lost a Foot.

Culley Sessoms, a colored man who worked as a train hand for the Atlantic Coast Line, lost his left foot Wednesday afternoon. Culley was in the act of getting on a moving train at the log siding, two miles below Greenville, when he slipped and the wheels run over his left foot, crushing it to the ankle. Drs. Laughinghouse and Nobles amputated the limb. This morning the injured man was sent to the railroad hospital at Rocky Mount.

## Work Begun

The contractors began this morning laying brick on the new depot for the Norfolk and Southern railroad. Miss Lena King had the honor of placing the first brick in place. The Central Carolina Construction Co. of Greensboro has the contract to build the depot and Mr. H. G. Rodgers is in charge of the work. It will take something like three months to complete the building.

Members of the Baptist choir are requested to meet at the church tonight for practice.

## BLOODHOUND EVIDENCE

Mr. W. C. Hines in Letter to Free Press Tells About the Way His Dogs Worked in Harrington Case.

In a letter to The Free Press Mr. W. C. Hines, of Greenville, comes to the rescue of his bloodhound; employed in the Harrington-Graham case. He writes:

Now, I will tell the only evidence they had against Harrington. On or about June 16th, Mr. Graham's store and contents were burned. The insurance company that carried the policy on it wired me to proceed to the point with dogs. I did so at once and when I arrived there was shown a track going away from the burned store directly from the rear end. This track led across to a field that had just been plowed up and rained on which made it very plain. This track had a peculiar turn to one of the heels, and was running, stepping on a hill of corn about knee high once in a while, showing he went there at night. I put the dogs on this track and they ran it for two or three miles, came to a place of water about half mile wide.

We carried them over and circled around a landing and the dogs picked up the track again and it still had that peculiar shape to the heel I noticed right at the store. They ran a mile or so and came to a house, circled around in the yard, then to a gate and howled, and I let them through when they trailed along a path a few hundred yards, turned off down to where Harrington was plowing. Here I wish to correct some of the elastic assertions of the attorney employed by the said Harrington. When the dogs got in about ten steps of Harrington he remarked "I guess I am the man you are after," and then said "if I had not been so darned scared I would have run."

So far as his mucking up the dogs that was afterwards and when they lay down it was when I carried them back to the road. This track was made by a No. ten or eleven shoe, and Harrington wears about that number. I told the officer that he could not convict without other evidence as superior court had decided that the evidence of a dog should not be taken without being corroborated by other evidence.

Now, I haven't the least feeling against the said Harrington, but I will give you the address, of the man who lost the store and if you like you can ask him what he thinks of the case and who he thinks burned the store. Mr. J. C. Graham, also Mr. H. T. Pratt, Newbern, N. C., as to the alibi, this man Harrington proved that his wife helped him pen his cows at or about eleven o'clock on Saturday night and the store was burned about one o'clock Sunday morning, which gave him one and a half or two hours to have gotten there.

I have only dropped this in so others can see that there was something to justify an investigation. Now the readers of this will remember that I got my fee out of the case, and would have gotten just as much if there had been no arrest made or had not the dogs run a trail.—Kinston Free Press.

## Death of Masonic Lecturer.

Mr. B. W. Hatcher, who for 38 years had been a Masonic Grand Lecturer for North Carolina, and was well known in the State, died at his home in Albermarle Monday afternoon at 4 o'clock. Mr. Hatcher had been in bad health for some months but his death was unexpected.

## COUNTY MATTERS.

## Court House Marriage.

A marriage took place in the office of Register of Deeds Williams in the court house this morning. Application was made for a license for a colored couple, Charles Grimes and Geneva Cox. The couple desiring to get married at once, Justice of the Peace H. Harding was called in and tied the knot with his accustomed grace. The groom saluted the bride and they left happy.

## THE SEDAN CHAIR.

Perhaps some expert in the Siamese language will tell us what is the word for "sedan chair." When the king of Siam's ministers, protesting against his majesty's favor toward motoring, suggested recently that "the royal sedan chair" was always at his disposal it is improbable that they used a word reminiscent of the French town, for it is from the scene of Napoleon III's collapse that the sedan chair takes its name, and perhaps remote posterity will suppose that it had some connection with that event. But Sedan first produced these conveyances centuries ago, and they were seen in England in 1581. (One used by James I's Buckingham provoked a great popular outcry against the employment of men as beasts of burden. Sir S. Duncombe is credited with having introduced them to London in 1634. And Bath knows the Pickwickian sedan chair to this day.—London Chronicle.)

## The Modern Submarine.

The modern submarine is a vessel ranging from 100 to 250 tons displacement, driven by gas engines when running on the surface and by electric storage batteries when submerged, capable of maintaining a speed of nine or ten knots an hour above water for a distance of 500 miles and a speed of seven knots an hour beneath the water for a distance of twenty-five or thirty miles. By the aid of a periscope, a sort of reflecting camera, its occupants can see all that is going on upon the surface without exposing any part of the vessel itself. The vessel can dive to a depth of 100 or 200 feet. It carries a sufficient supply of air to enable its crew of eight men to live under water for at least a week, and its armament of five torpedoes is sufficient to sink a fleet. Of such vessels the United States now has eight and is building four more.—Youth's Companion.

## Feeding the Kaiser.

Feeding the German emperor is no light task. Despite all that is said about the kaiser's Spartan habits there are few monarchs who keep more elaborate tables. He has no less than four chefs, Schliedenstuecker, a German; Harding, an Englishman; an Italian and a Frenchman, so that he can have his meals for the day served in the style of whatever nation he may happen to fancy. Each of these chefs has his staff of assistants, while in addition there is an individual who may safely be described as "sausage maker to the kaiser." His majesty is very fond of the huge white frankfurter sausage and has a supply of them made fresh every day in his own kitchen. When engaged in maneuvering his army on a big field day these frankfurters and bread, washed down with lager beer, invariably form the kaiser's lunch.—Cleveland Leader.

## A Lake of Quicksilver.

A lake of quicksilver, covering an area of more than three acres and having a depth ranging from ten feet to fifty feet, has been discovered in the mountains of the state of Veru Cruz, Mexico. The value of the product is estimated at millions. This lake has been known to the Indians for many generations. It is situated far up in the mountains in an almost inaccessible position. Its surface is partly covered by stones. It is believed that volcanic action in the mountains above smelted the quicksilver out of the cinnabar ore and that it ran down and filled this depression. A tunnel will be driven through the base of the mountain and the quicksilver will be brought down by means of gravity.—Argonaut.

## The Future American Highway.

The "future American highway," according to an inventor whose pamphlet is reviewed in Engineering News, will be a paved roadway 120 feet in total width, divided by longitudinal curbs into eight separate roadways, four for passage in each direction. It provides two sixteen-foot roadways for animal traction vehicles and a four-foot walk at each side for the stray pedestrians who may still indulge in the antiquated method of locomotion that nature furnished. The rest of the width is devoted to automobile roads. The cost of this remarkable highway would amount up to between \$10,000 and \$200,000 per mile. The inventor does well to call it a "highway of the future."

THURSDAY JULY 4th 1907.

Just a week more to wait to know the disposition of the Eastern training school, unless there is another reopening of the bids.

Since the State Board of Education decided to reopen the bids Goldsboro is whooping up for the school.

North Carolina now has 98 counties, the election to establish Lee county out of portions of Moore and Chatham passing by a large majority. Sanford is the county site of the new county.

New Orleans is planning sometime in the future, which, to say the least, is very uncertain. That city wants to hold an exposition in 1915 to commemorate the completion of the Panama canal.

How is this for a slap? Booker Washington's lease of a house at Oyster Bay has been cancelled by the owner because he found out that Booker is a negro.

The State Board of Education certainly has no excuse for getting befuddled over a thing as clear and explicit as the bid Greenville and Pitt county made for the Eastern training school.

One enthusiastic woman went to use a familiar quotation to illustrate the clearness and absence of ambiguity of the bid made by Greenville and Pitt county for the Eastern training school, but in her zeal got the phrase slightly mixed when she exclaimed "a wayfaring fool, though a man, can understand."

If the railroads want a 2 1/2 cent passenger fare, as is claimed in the contest against the 2 cent law, why did they go about to have killed the Laughinghouse bill in the legislature two years ago that fixed the fare at 2 1/2 cents. The railroads might have known then that the next time the matter came to the legislature the fight would be for a lower rate.

SAVED A SCALPING.

A Peculiar Experience in an Indian Uprising.

Indian warfare has produced many weird and unexpected situations, and the mind of the romancer has created more. But the strangest of them all will hardly surpass in novelty an experience which befell a citizen of Wyoming in the late Ute uprising.

One morning James J. Callahan of Arvada went out at day-break with two cow punches to cross the range in order to look at some stock.

With their hands in the air, the three white men faced a serious situation. "Things looked mighty blue," said Mr. Callahan afterward.

As they sat thus the leader of the Utes approached and when he drew near gave a warwhoop which to Mr. Callahan's ears had a certain familiar and civilized twang to it.

"Yah, there, Jimmy Callahan!" cried the warrior. "What are you doing out here? I'm Billy Birdseye."

Billy Birdseye it was sure enough, although hardly recognizable by his old Dartmouth comrade. Son of Chief Kannapap, leader of the Ute uprising, Billy was actively directing the operation of this party of his father's scouts and keeping well in practice to take his father's place in case of need.

But the strangest part of the adventure was still to come. From a pocket Billy Birdseye fished out two slips of pasteboard. They were tickets to the Princeton-Dartmouth football game, to be played in New York a week later.

"Here, Jimmy, take these," he said. "I was going east to see the game myself, but this business has come up to prevent. You may as well go along and see the fun and meet the boys again."

The tickets called for two choice seats in the front row, center of the field, and Mr. Callahan, whose hair had by this time settled firmly into place, went east the next day to use them.

Queer pictures must have been conjured up in his mind as the "rooters" for Princeton and for Dartmouth shattered the air with their college yells.—Youth's Companion.

(INC.), PUBLISHERS, 47 W. 23rd ST., NEW YORK. COLIC AND DIARRHOEA. Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all Druggists and Dealers in Patent Medicines.

It isn't always the cheerful man who does the most cheering.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Bryans Drug Store.

Many a married man is a silent hero.

A prompt, pleasant, good remedy for coughs and colds, is Kennedy's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family. It contains no opiates and does not constipate. Contains honey and tar and tastes nearly as good as maple syrup. Children like it. Sold by J. L. Wooten's Drug Store.

Drivers of delivery wagons are always there with the goods.

Get a free sample of Dr. Shoop's "Health Coffee" at our store. If real coffee disturbs your Stomach, your Heart or Kidneys, then try this clever Coffee imitation. Dr. Shoop has closely matched Old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in a minute. No tedium is wait. You will surely like it. Sold by T. E. Hooker & Co.

It's a pity that poets can't live on food for reflection.

All stomach trouble are quickly relieved by taking a little Kodol after each meal. Kodol goes directly to the seat of the trouble, strengthens the digestive organs, supplies the natural digestive juices and digests what you eat. It is simple, clean, pure, harmless and reliable. Don't neglect your stomach. Take a little Kodol after each meal and see how good it makes you feel. Money back if it fails. Sold by John L. Wooten.

We would never suspect how good some people are if they didn't tell us.

Bert Barber, of Elton, Wis., says "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills, which are unequalled for Backache, weak kidneys, inflammation of the bladder and all urinary troubles. A week's treatment for 25c. Sold by J. L. Wooten's Drug Store.

A man's idea of a close friend is one who will loosen up occasionally.

There is no case of indigestion, no matter how irritable or how obstinate that will not be speedily relieved by the use of Kodol. The main factor in curing the stomach of any disorder is rest, and the only way to get rest is to actually digest the food for the stomach itself. Kodol will do it. It is a scientific preparation of vegetable acids containing the very same juices found in a healthy stomach. It conforms to the Pure Food and Drugs Law. Sold by John L. Wooten.

When you want a letter badly, it's a sure sign it won't come.

For scratches, burns, cuts, insect bites and the many little hurts common to every family, DeWitt's Carbolyzed Witch Hazel Salve is the best remedy. It is soothing, cooling, clean and healing. Be sure you get DeWitt's. Sold by J. L. Wooten's Drug Store.

A pawnshop where we could hock our troubles would fill a long-felt want.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50cents. Sold by Bryans Drug Store.

Music has charms in the country where the houses are a mile apart.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably endorse it. Children like it because the taste is so pleasant. Contains honey and tar. It is the original laxative cough syrup and is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms to the Pure Food and Drug Law. Sold by John L. Wooten.

Whenever you feel the need of a pill, take DeWitt's Little Early Riser. Small, safe pill, sure pill. Easy to take, pleasant and effective. Drives away headaches. Sold by John L. Wooten's drug store.

### THE KING GEORGE.

In the Deadly Wake of the Famous Old West Indian.

If ever you happen to be so fortunate as to take a trip down the west coast of Africa you'll be sure to hear of the famous old West Indian, King George. This yarn is backed up by the records of the British admiralty, so of course it is true. She was wrecked in the year 1789 during a hurricane that devastated the coast of Cuba and the West Indies generally. Every man, woman and child aboard of her was lost, and the ship herself was stripped of her top hamper, masts and spar, and went drifting, a helpless wreck, "bawd to all disaster."

She was first reported by a ship of the same company some hundred miles north of the point where the form is supposed to have struck her. Men were sent aboard her from her sister Indian and reported that she was sinking rapidly. After that she was never completely lost to sight for the best part of five years, when she vanished in a storm off the Grand Canaries. In that time she had drifted upward of 10,000 miles and had been the direct cause of at least four wrecks and the indirect cause of three more.

Her travels were strange enough, especially at that time, when the locations of the ocean currents were but vaguely guessed at by the most speculative of mariners. She journeyed northward and eastward from the gulf of Mexico to the British isles and then, making a long curve, to the west coast of Africa. During all that time she was constantly reported by passing ships, many of which sent men aboard of her. At last the British government dispatched a man-of-war after her, with orders to blow her up. Instead the frigate ran on a reef and was wrecked. Another, the Daphne, was then sent out, but she encountered a slaving dhow and was sunk in the ensuing fight.

By this time the whole English speaking seafaring world was agog over the mystery. When a third warship was dispatched and in her turn ran high and dry on the beach superstition had its way, and the King George was allowed to proceed on her ghostly path in peace. She was reported a few times after that by passing merchantmen, then disappeared for good and all in a tornado that destroyed much beside the derelict. But her name is still a thing to conjure with in some parts of the world.—New York Herald.

### Hello Girl Got It All Down.

"Hello! Is this the Grand hotel?" asked the man at the phone.

"It is," sweetly responded the young woman at the other end.

"Will you please ask Henry Perkins, who is stopping there, to ring me up this afternoon?"

"Yes, sir. Who shall I say he is to ring?"

"D. B. Feely."

"B. D. Greeley?"

"No, no! D. B. Feely."

"P. Beaf Healy?"

"No! Can't you get it? Listen—D. B. Feely. Understand?"

"Spell it, please."

"D—get that? A, B, C, D—get it? B—understand? A, B—all right? F E E L Y—Feely. Got it? All right. Just tell him to ring me up. He'll know what it means."

When Mr. Perkins returned to the hotel he received a memorandum saying, "Please call up Mr. A. B. C. D. A. B. F. E. E. Yelly."—Judge.

### The Canadian Habitant.

The rural population of French Canada is unlike that of any other country. The habitant is the result of peculiar conditions. Transplanted originally from the north of France, the stock has been modified and transformed by the environment of the new world. It retains the simplicity and poetic temperament of the old stock, combined with a measure of the vigor and self reliance of pioneer life. And with it all, remarks a correspondent of the Nation, in an appreciative tribute to the patois story of the late Dr. William Henry Drummond, the habitant remains to this day almost untouched by the influences of modern civilization, living his life in his own sufficient way, oblivious of many things that the rest of us think indispensable.—New York World.

### Essential.

Two fishermen visiting a Scotch village asked one of the inhabitants what kind of fishing was to be had in a small lake near by and were informed there was as much fishing there as anybody could wish for. When the anglers had departed a friend of the villager remarked, "Sandy, hoo could ye tell the gentleman that there was plenty o' fishing when there isna twa fish in the water?" "Man," was the canny Scot's reply, "where's the harm? The gander the fish the mair fishin' for 'em!"—Glasgow Times.

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

## Kodol Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures indigestion, dyspepsia, sour stomach, inflammation of the mucous membranes lining the stomach and digestive tract, nervous dyspepsia and catarrh of the stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured. MRS. LORING N. OHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. D. KAUBLER, Nevada, O.

## Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Restorative, the Constitutional. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

A Pleasant Belief.  
 John Burroughs was talking  
 about the increased interest that  
 the world now takes in nature and  
 her works and ways.

"A modern girl from New York,"  
 he said, "would not be apt to say, as  
 I heard a girl say thirty years ago  
 as she looked at a multitude of tad-  
 poles in a pond:

"Oh, look at the tadpoles! And  
 to think that some day every one  
 of these horrid wriggling things  
 will be a beautiful butterfly!"—  
 Southwestern Book.

Will Build In Secrecy.  
 That strict secrecy which was ob-  
 served in the construction at Fair  
 field, Glasgow, of the cruiser In-  
 domitable will henceforth be en-  
 forced in the case of all ships built  
 for the British navy. The staff will  
 be sworn in before being intrusted  
 with the carrying out of minute de-  
 tails, and no one in the yard will be  
 able to learn anything like com-  
 plete details of warship design.

Setting Him Right.  
 "Could you get more hickory nuts  
 or more lemons into a barrel?"  
 "Hickory nuts, of course."  
 "Wrong. You could squeeze more  
 lemons into it."—Cleveland Plain  
 Dealer.

Distinguishing Marks.  
 "Do you think that man is a nat-  
 ural born orator?"  
 "I am sure he is not," answered  
 Miss Cayenne. "He doesn't look  
 well in a frock coat and a high hat."  
 —Washington Star.

Regal Magnificence.  
 "The Muckroys have a new flat,  
 I believe?"  
 "Yes. It is magnificent too. The  
 bathroom is so spacious that it is  
 possible to have two Turkish towels  
 in it at once."—Judge.

Divided Responsibility.  
 Mrs. Gramercy—She seems to  
 have more leisure since she obtain-  
 ed her divorce.  
 Mrs. Park—Naturally. She has  
 to take care of her children only  
 six months in the year now.—Puck.

Impossible to Forget.  
 "Suppose," said the smitten  
 youth, "I was to drop out of your  
 life—would you remember me?"  
 "Sure!" replied the summer girl.  
 "I didn't take a correspondence  
 in memory culture for nothing."—  
 Houston Post.

Broncho Bob—I hear Dead Eye  
 Pete has been hugged to death by  
 a female grizzly.  
 Hurricane Bill—Well, that's just  
 like Pete. He never could stand  
 being hugged by a female.—Chips.

## The Savory Seemless Roaster.

Is far superior to any other  
 Roaster made. not an ounce of  
 substance lost. Other roasters  
 waste from 10 to 20 per cent.  
 The Savory seamless roaster  
 needs no water, grease or atten-  
 tion of any kind. It simply asks  
 to be let alone. Retains all juices  
 and flavors, renews the youth of  
 the toughest fowl. One great  
 feature of the Savory roaster is  
 the oval bottom, with the ordi-  
 nary flat bottom roaster the  
 moisture brought out of the meat  
 by cooking has no chance to ac-  
 cumulate and is burned and dried  
 up in the bottom of the pan. In  
 the oval bottom this meat juice  
 flows continuously to the lowest  
 point of the bottom, where it is  
 turned into steam and condensed  
 on the surface of the meat. This  
 condensation continues until the  
 roast has become heated through  
 to the temperature of the atmos-  
 phere in the roaster, when the  
 condensation stops and the brown-  
 ing of the roast begins.

The Savory roaster is self bast-  
 ing and self browning. The  
 bottom is raised off the over  
 by the outside heat-retaining  
 jacket, which applies a uniform  
 heat to the roast from all sides

The Savory roaster is in a class  
 to itself. Is guaranteed to give  
 satisfaction when used accord-  
 ing to directions. Buy one, take  
 it home, go by the directions, use  
 it thirty days, if not all we claim  
 forth, return it to us and we will  
 give you back your money, pro-  
 viding the roaster when return-  
 ed, is in good condition.

See our window display of the
