## ACROSS THE STATE.

### Interesting Items Gathered Here, There and Everywhere.

Charles Doane, of Yancey county, a white boy just seventeen years of age, convicted of the killing of his brother, was yesterday granted a pardon by Governor Glenn, this being conditional on good behavior.—News and Observer.

Richmond, Va., July 24.—The State will probably publish the Corporation Commission's two-cent rate order in violation of the Federal Court injunction, and then, ignoring the Federal court, proceed to arrest violators of the State rate law.

Hight Point, N. C., July 24.—The Carolina Valley Railroad Company has made a decided move in the way of building an electric line connecting Hight Point with Winston and Thomasville, with Hight Point and later Greensboro. Yesterday several car loads of ties arrived and ten teams were kept busy hauling them along North Main street in the direction of Winston. Rails are also in the order and these will be followed in a few days by all the ties and rails that are needed as fast as the work progresses.

Winston-Salem, N. C., July 24.—Thomas Giddings, an old man who was arrested about ten days ago on the serious charge of attempting a criminal assault upon his oldest daughter, Jennie, who is a cripple and sixteen years of age, attempted to kill her early today at their home in north Winston, and her life was only spared by the rusty pistol in the hands of the father refusing to fire. Giddings, who claims to be sixty-nine years old, confessed to the officers that it was his intention to kill Jennie and then himself.

### Lots Going.

A good bunch of Greenville Heights lots were sold the first day they were put on the market. This shows that property over there will be worth something and is a good investment.

### His Joke Melted.

Mr. L. D. Wade tried to start a warm proposition, Wednesday afternoon, by asking if we had heard that a man had been found frozen to death down the street. The reporter did not care to chase as cold a trail as that.

### Excursion to Washington.

On Friday, 26th, there will be an excursion on the yacht Eagle from Greenville to Washington. Boat leaves Greenville at 1:30 sharp, reaching Washington at 3:30, returning by moonlight. Fare for round trip 75 cents. Double header ball games that afternoon between Washington and Tarboro clubs. These teams are evenly matched and the games will be good. Ola Forbes. 24 2nd.

## THE EASTERN LEAGUE

### Standing of the Clubs and Record of Yesterday's Games

## A Man to Do Negro.

Seeing New Year Womble on the street yesterday reminded us of the fact that he is one of the best off negroes in the State. It has not been many years since he was a telephone lineman in this city, and during that time and since he has accumulated a great deal of property. He has a good bank account, and among his other possessions are: A large tract of land in Florida, a fine farm in Randolph consisting of 300 acres, a farm on the east side of the Cape Fear in Fca Hill township, 93 acres of land in Pearce's Mill township, and two building lots on Orange street in this city.

He has this year planted 2,000 fruit trees on his Randolph county farm and is about to set out 1,000 pecan trees.

His success is due in a large measure to his sobriety, industry and his attitude towards his white employers.—Fayetteville Observer.

### Weather.

Showers tonight or Friday.

### Own Your Home

When you get a lot the building and loan association will build you a house on it. That is a way to get a home in an easy way, costing you but little more than you have to pay in rents.

## COX MILL ITEMS.

Cox Mills, N. C., July 24.—Albert Moore is quite sick with typhoid fever.

L. F. Everette says he has the finest crop of tobacco he ever raised. He is one of our lucky men.

We lost a fine horse this week that cost \$250.

Miss Latha Moore, daughter of Albert Moore, died last Wednesday morning, after an illness of 52 days with typhoid fever. She was 14 years of age.

Oscar Evans went to Greenville today.

John Moore is right sick now.

### The Eclipse

The eclipse of the moon came along on schedule time Wednesday night, and many people were out watching it. The shadow first appeared on the east side of the moon and passed slowly across its face. The eclipse was not total, a portion of the moon being visible all the time.

## WINTERVILLE ITEMS.

### Notes From Our Hustling Neighbor.

Winterville, N. C., July 24. Rev. Henry Haddock, after having spent several days here visiting relatives, returned to his home in South Carolina Monday morning. He preached at the Baptist church Sunday morning and night.

Miss Mimie Cox and Jeter Jackson attended services at Black Jack Sunday.

Joseph Kinsey, of LaGrange, was here awhile Tuesday.

Rev. W. E. Cox, of Greenville, spent Monday night with his mother, Mrs. E. E. Cox.

Miss Mattie Uzzell returned to Seven Springs Tuesday evening after having spent some time with Miss Olivia Cox.

The Eastern Carolina Supply Co., has moved into the A. D. Cox store across the street.

Rev. B. E. Stanfield filled his regular appointment here at the Methodist church Sunday afternoon and night.

Capt. Johnson, of Ayden, spent the afternoon with Capt. Whitehead.

Miss Carrie Johnson returned to her home in Ayden after having visited Miss Miriam Johnson for several days.

Joseph Cobb, of Coneto, was here awhile Saturday.

## JUDGE PRITCHARD HAS OUTSTEPPED HIMSELF

### The Clash Between State and Federal Courts will Likely be Compromised.

Washington, D. C., July 24.—Constitutional lawyers here, and some of the legal experts connected with the Department of Justice, believe that Judge Pritchard has gone entirely beyond his authority in the Southern Railway case.

It was announced that no conclusion had been reached by the conference, in the governor's office here, and that there was nothing to give out, as the Governor had received a message from Asheville that the United States Assistant Attorney-General Stuart F. Sanford desired to confer with him with regard to the rate and with regard to the State and Federal positions in the matter. An agreement was reached to hold the conference with Mr. Sanford, and until this conference is over Governor Glenn declines to make any statement as to the status of affairs.—News & Observer.

Asheville, N. C., July 24.—The peace propositions submitted by Assistant Attorney General Sanford to Governor Glenn are as follows:

"First—That the injunction suit should be expedited and gotten ready for final hearing at once.

"Second—That the habeas corpus cases decided here should be at once carried to the Supreme court of the United States by appeal.

"Third—That the Green case at Raleigh, in which the Southern railway was fined \$30,000 should be carried by the railway company to the Supreme court of the State at once, and if that court should affirm the judgment of the Superior court the railway company should sue out a writ of error from the Supreme court of the United States and carry the case to the latter court. These three cases present every feature of the controversy which has arisen and is now agitating the public mind with regard to the recent rate law of the legislature.

"Fourth—That all future proceedings under the rate law in the State courts shall be suspended until the Supreme court of the United States can render final judgment settling the controversy."

The State advocates stated tonight that the Federal court cannot escape a violation of the Federal statute which prohibits a Federal court from granting an injunction against a State court. They say that it is too clear now to admit of question that what Judge Pritchard has already done amounts to a violation of the Federal statute.

### Protest Against Editorial.

Rocky Mount, N. C., 24.—The following resolutions were adopted at a mass meeting of the citizens of Rocky Mount:

"We the citizens of Rocky Mount here assembled do hereby enter our protest against an editorial of the Wilmington Messenger of the 18th which in such an uncalled for manner so criticized Governor Glenn's course in the 'Railroad Rate Controversy'—and do hereby enter into the following resolutions;

1. That Governor Glenn in the plain discharge of his duty needs no defense in his attempt

to uphold the laws of our good Old Commonwealth.

2. That when a subsidized press attempts to defame the fair name and actions of our worthy Governor that its petard will be bound to the source from whence it comes and cause the thrower of the bomb infinitely more harm than to him at whom it was hurled.

3. That we fully endorse the course of the News and Observer in its manful fight for the rights of the people—and long may its able standard bearer, Josephus Daniels, stand at its prow as the Palladium of North Carolina liberty—and that we in common with the people of North Carolina so long as our Governor stands for our rights—will ever uphold his hands.

(Signed),  
E. D. Pearsall, W. W. Miller, J. C. Jones, W. A. Brown, Steadman Sparkman, T. E. Hays and many others.

## MOVEMENTS OF THE PEOPLE

### Those Who Come and Go—Some Know You—Some You Know

Jack Brown returned Wednesday evening from Hamilton.

M. R. Turnage and A. J. Moore returned Wednesday evening from Norfolk.

Miss Lena Matthews and little Miss Christine Tyson and Ferrall Burch returned Wednesday from Washington.

Miss Tessie Evans arrived Wednesday evening from Greensboro to visit her mother, Mrs. A. M. Evans.

### A Definition of Success.

How have the hypothetical scientists and the exponents of unbelief benefited themselves or humanity at large by sowing the seeds of doubt broadcast in the world? The real scientists do not fall in this category, for they are believers in the real sense of the word; they know too much, they have seen too many mysterious manifestations of the divine creative power. Now, those who have disposed of the Bible and all evidences of inspiration, have written a great many books, and some of them have won what the world at large lightly calls fame. According to the ordinary measures that are applied in such cases; they have been extremely successful, but real success means the benefit of humanity in some form or other. If no such benefits can be shown as the result of their labors, their success is not equal to that achieved by the direct poverty and the deepest ignorance.—Joel Chandler Harris is in Uncle Remus's Magazine.

### Jewelers Attract Burglars.

The owner of the combination store and flat building in Columbus avenue considered himself in luck when he rented one of his stores to a jeweler. Jewelers, he fancied, were a profitable investment, in as much as they paid a high rental, and followed a calling supposed not to grate on the sensibilities of refined families upstairs. To his surprise, however, he soon received notice of removal.

"It's the jeweler," explained the agent to the perplexed landlord. "The folks are afraid of him—not of him personally, of course, but of the burglars he is apt to attract. Somehow the impression prevails that robbers are much more likely to take place in a building where a jeweler is located than anywhere else. The jewels lure thieves into that neighborhood, so the reasoning runs, and while there they think they might as well make a clean job of it and loot the flats also. I do not know whether or not statistics support that theory, but flat dwellers have firm faith in it."—New York Sun.

## THE MENACE OF DIVORCE

### The Great American Evil That is Undermining Society.

"I believe," says Cardinal Gibbons, in the July Delineator, "that every serious-minded Christian must now bring every effort into service to combat this deplorable condition of American society.

"The reckless facility with which divorce is procured in this country is an evil scarcely less deplorable than Mormonism—indeed, it is in some respects more dangerous than the latter, for divorce has the sanction of the civil law, which Mormonism has not. Is not the law of divorce a virtual toleration of Mormonism in a modified form? Mormonism consists in a simultaneous polygamy, while the law of divorce practically leads to successive polygamy.

Each State has on its statute books a list of causes—or, rather, pretenses—which are recognized as sufficient ground for divorce. There are in all twenty-one or more causes, most of them of a trifling character, and in some States, as in Illinois and Maine, the power of granting a divorce is left to the discretion of the judge.

"It is plainly manifest that the cancer of divorce is rapidly spreading over the community and poisoning the fountains of the nation. Unless the evil is checked by some speedy and heroic remedy the existence of family life is imperiled. How can we call ourselves a Christian people if we violate a fundamental law of Christianity? And if the sanctity and indissolubility of marriage does not constitute a cardinal principle of the Christian religion I am at a loss to know what does.

"This social plague calls for a radical cure and the remedy can be found only in the abolition of our mischievous legislation regarding divorce and in an honest application of the teachings of the Gospel.

"If persons contemplating marriage were persuaded that once united they were legally debarred from entering into second wedlock, they would be more circumspect before marriage in the choice of a life partner, and would be more patient afterward in bearing the yoke and in tolerating each other's infirmities."

## AROUND ABOUT TOWN

### Some of the Things that Happen in Greenville and Hereabouts

Knights of Pythias meet tonight.

Moon gazers were in plenty last night.

The cantelopes this season are of good quality.

Members of the Baptist choir are asked to meet at the church tonight for practice.

Work is progressing well on the handsome depot of the Norfolk & Southern railroad.

The walls of the new factory for the John Flanagan Buggy Co. are up in the third story.

If you don't believe the red bug crop is a large one take a trip in the woods—or ask Mayor Wooten.

We cannot say that the eclipse is responsible for it, but the weather is certainly more pleasant today.

Lost—Somewhere between the Smith house and depot a lady's small watch, U. S. Movement No. 535833. Fahys gold fill case No. 73-1358, with chain doubled and tied in knot to wear as fob, one setting lost out of slide on chain. Suitable reward if returned to Reflector office.

## Social Life in Troy Queered.

It is said that dancing makes girls' feet large. It is also said that ice cream freezies. Doctors are of the opinion that hanging on the front gate produces rheumatism. A few more opinions like these and the girls of Troy won't have any fun left them.—Troy Montgomerian.

Don't miss the excursion to Washington tomorrow on the Eagle. It will be a delightful trip.

## WHAT IT IS DOING.

Norfolk Va. July 23.

Editor Reflector:

Your industrial edition was a most creditable one and I am sure it will result in great good to Greenville. Already one manufacturing enterprise is making further inquiries regarding your town as the result of your work. I want to especially thank you for the manner in which you presented our advertisement and the amount of space you have given us.

We can use to advantage any number of copies you may care to send us for distribution. With best wishes.

Yours very truly,  
Fred L. Merritt.

Land and Industrial Agent N. & S. R. R.

Get away from the heat. Take a refreshing trip down the river on the Eagle tomorrow afternoon, see the ball games, and return by moonlight.

Several of the officials of the Norfolk & Southern railroad were here today going over the road.

The Eagle will take you to Washington tomorrow to see the double header ball game.

The most numerous article met with now is hot air.

A sequel to Emperor William's journey to Munich last fall appears in the form of a curious libel suit. His majesty stopped at a wayside station to get shaved, and a local Socialist newspaper stated that the members of an association of military veterans stormed the barber shop to obtain the lather scraped from the royal face, adding that the delectable mess was distributed among them while a band played the national anthem. The veterans did not like this story and sued the paper for libelous insult. The trial, which has just taken place, convulsed everybody, including the judges, with laughter, but the court decided that the editor must pay a fine for overstepping the bounds of fair comment.

### The Whistling British Boy.

The whistler, oddly enough, is English, though the name has been made famous by an American. Among all the noises you hear in Paris—surely the noisiest city in the world—the whistle is not prominent. In New York, sufficiently noisy, you will seldom hear a whistle, though it sent us the first great siffleuse. But in London the whistle is insistent. It is not only the cab whistle, two for a hansom, one for a growler, with frequent "anchors." It is the boy. This is a fairly quiet flat in a fairly quiet neighborhood, but there is scarcely a waking moment in which you cannot detect the sound of the boy and his whistle.—London Chronicle.

### London's Foodstuffs.

According to a recent estimate of the secretary of the public health committee, London annually consumes nearly 1,800,000 tons of foodstuffs. Of this amount rather more than two-thirds arrives by water and less than one-third by rail. The shipments include 1,000,000 tons of meat, fish and milk, butter, eggs, lard, etc.; 500,000 tons of fruit and vegetables, including sugar and preserved fruits, and 1,400,000 tons of grain and flour. It is pointed out in the committee's report that the system of inspection is inefficient and that oleomargarine is largely sold as butter.

**TO THE PEOPLE OF PITT COUNTY.**

As you know after a sharp contest, we have succeeded in securing the Eastern Training School. There are now great opportunities for the county and therefore for you. There is now an absolute necessity for a forward movement along all lines. We need to let the world know the resources and possibilities of the county. We need to consult with each other and plan together that this may be done. We can move if we will. The only question is will we do it? We can now have a great institution of learning in our very midst from which there will go out an influence, enthusiasm, and spirit that will stir this old county from center to circumference. Coming with this will be general development in every portion and section of the county. With these things in view the Chamber of Commerce of Greenville has decided to request the citizens of Pitt to meet in Greenville on Monday, August 5th, at 12 o'clock m. for the purpose of discussing ways and means and for planning for the further advertisement and advancement of the county. We desire especially that each town and village unite with the country surrounding it and have a large delegation present on the above named day. If we will come together we can accomplish something. Whatever is done for our progress we may expect to be instrumental in its being done. We shall hope for a great meeting on Monday, August 5th, and that results far reaching in their power and tendency towards a greater uplift along all lines will speedily come.

By order Chamber Commerce July 19th, 1907.

**What the Scientists Have to Say About Falling Asleep.**

Boys and girls have all heard of the boy who went to sleep the minute his head touched the pillow, so dead tired was he, but those indefatigable knowledge seekers, the scientists, tell us that even in a case of that kind the falling asleep is a matter of degrees; that the senses do not "drop off" simultaneously. The eyelids begin the work by obscuring sight; the sense of taste follows, and then smell, hearing and touch, in order. Touch sleeps more lightly than any other sense and therefore is more easily aroused. Hearing comes next. Smell is one of the first to fall asleep, but it is the last to wake. Some parts of the body go to sleep before others too. The sleepy influence begins at the feet and works its way upward to the center of the nervous system. That helps to explain why it is so hard to get to sleep when our feet are cold. The scientists find out lots of other things, don't they?—Chicago News.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh cure. Send for circulars, free. F. J. GENEVEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

**Cough Caution**

Never, positively never poison your lungs. If you cough—even from a simple cold—you should cough—heat, soothe, and ease the irritated bronchial tubes. Don't blindly suppose it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—little by little—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good! Hereafter, for the very reason, mothers and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's label—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Bryans Drug Store.

The wise man looked not at the thermometer during July and August.

Bert Barber, of Elton, Wis., says "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. Wooten's Drug Store.

The vacation earned is the vacation enjoyed.

There is no case of indigestion, no matter how irritable or how obstinate that will not be speedily relieved by the use of Kodol. It is a scientific preparation of vegetable acids containing the very same juices found in healthy stomach. It conforms to the Pure Food and Drugs Law. Sold by John L. Wooten.

CONDENSED STORIES.

When the Bride's Settlement Worker Received a Hard Jolt.

Rev. Anna Shaw, president of the American Woman's Suffrage Association, said in an address in Chicago: "An excellent cure for false pride is a little college settlement work. By false pride I mean the belief that the poor regard one as noble and find because one happens to be rich, servants and dependents have to encourage this false pride in us, but a little settlement work soon undoes the mischief."

"I know a Philadelphia woman. She is proud because her great-

"I SUPPOSE THEY ARE VERY INQUISITIVE."

grandfather, a carpenter, happened to own land that is now worth millions. In her haughty way she did some settlement work during her life. "There was an old woman whom she visited every few days. She carried the old woman jellies, tea, olives and such like luxuries. And she was secretly pleased with the attention she attracted as she passed up and down the narrow, squalid street.

"Your neighbors stare at me a good deal," she said complacently one morning.

"I'll be bound for that," said the old woman.

"I suppose they are very inquisitive, eh?"

"They certainly are, the busy-bodies," the old woman grumbled.

"No doubt they question you about me a good deal?"

"Indeed they do, mum."

"The visitor smiled again.

"And what do you tell them?" she asked sweetly.

"Oh," said the old woman, "I just say yer me dressmaker, and let it go at that."

The Modern Builder.

Dr. H. W. Wiley, the chemist and food expert of the department of agriculture, paused in an address in Washington to tell an appropriate story.

"Not in food alone," he said, "has an ugly modern spirit manifested itself. Take, for instance, the building trade.

"A builder the other day was showing a prospective buyer over a row of new houses.

"Talk about walls," the man said, rapping a parlor wall proudly with his knuckles. "John," to his clerk, "just go in next door, and we'll show this here gentleman what these walls is like."

"John ran into the next house. The builder shouted through the wall to him:

"John, can ye hear me?"

"Yes, sir, I can hear ye," John replied.

"The builder, looking disappointed, paused. Then:

"John, can ye see me?" he shouted.

"No, sir," sang out John. "No, sir, I can't see ye."

"The builder turned to the prospective buyer:

"There's walls fur ye," he said."

Up to Them.

"A trust conference—any kind of a conference, for that matter—is a good thing," said Governor Sheldon of Nebraska, "if it is conducted fairly.

"To be unfair, to be prejudiced, to be suspicious, is always to judge wrongly. The suspicious man falls into error and makes a fool of himself.

"There was a very suspicious countryman who went to New York to see the sights. Coming to the Metropolitan museum, he was amazed to find that the admission to this splendid building cost nothing. He mounted the steps and entered.

"Your umbrella, sir," said a uniformed official, extending his hand.

"The countryman jerked back his umbrella, laughed scornfully and turned on his heel.

"I knowed there was some cheat about it when ye got in free," he said."

Weak Kidneys

Weak Kidneys surely point to weak kidney nerves. The kidneys, like the Heart, and the Stomach, and their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is acid, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell.

Dr. Shoop's Restorative

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment strength and health to every organ of the body. Cures indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING N. CHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as to heart palpitate and I took Kodol Dyspepsia Cure for about four months and it cured me.

## The Savory Seemless Roaster

Is far superior to any other Roaster made, not an ounce of substance lost. Other roasters waste from 10 to 20 per cent. The Savory seamless roaster needs no water, grease or attention of any kind. It simply asks to be let alone. Retains all juices and flavors, renews the youth of the toughest fowl. One great feature of the Savory roaster is the oval bottom, with the ordinary flat bottom roaster the moisture brought out of the meat by cooking has no chance to accumulate and is burned and dried up in the bottom of the pan. In the oval bottom this meat juice flows continuously to the lowest point of the bottom, where it is turned into steam and condensed on the surface of the meat. This condensation continues until the roast has become heated through to the temperature of the atmosphere in the roaster, when the condensation stops and the brown ing of the roast begins.

The Savory roaster is self basting and self browning. The bottom is raised off the oven by the outside heat-retaining jacket, which applies a uniform heat to the roast from all sides.

The Savory roaster is in a class to itself. It is guaranteed to give satisfaction when used according to directions. Buy one, take it home, go by the directions, use it thirty days, if not all we claim forth, return it to us and we will give you back your money, providing the roaster when returned, is in good condition.

See our window display of the Savory roasters. We will be glad to show you. Call and see them.

Lament of a Baby Fish.  
I'm just a fish in a brook—  
Ah, and the fish!  
And I'm fearful of a hook—  
A hook that may  
Be in the warm so neat  
That I can't see  
And, wishing for that worm to eat,  
That hook may be

The thing that me will turn to meat  
A tasty job.  
A browned and appetizing treat  
For some small boy.  
Ah, woe it is to be a fish  
And live in brook  
And know that every boy does wish  
You on his hook!

Shoot: Arrows Sidewise.  
Eskimo and Indians and other savage tribes that are skilled in the use of the bow and arrow can shoot an arrow so it will go sidewise. This is their way of shooting when trying to hit a descending arrow or one sticking upright in the ground.

Inexpensive Counterpanes.  
A pretty counterpane for an iron or brass bedstead may be made with little labor and small expense by buying a pair of ruffled curtains and fastening them together with a strip of lace insertion. The ruffled ends will fall over the sides and end of the bed. A cambric cover to harmonize with the color of the room will add to the effect if placed under the muslin one.

Matrimonial Commandments.  
Matrimony has ten commandments.

- These were studied out by Theodore Parker shortly before the day of his wedding. They took the form of ten beautiful resolutions which he inscribed in his journal. They were as follows:
- First.—Never, except for the best reasons, to oppose my wife's will.
- Second.—To discharge all duties for her sake freely.
- Third.—Never to sulk.
- Fourth.—Never to look cross at her.
- Fifth.—Never to worry her with commandments.
- Sixth.—To promote her piety.
- Seventh.—To bear her burdens.
- Eighth.—To overlook her foibles.
- Ninth.—To save, cherish and forever defend her.
- Tenth.—To remember her always in my prayers. Thus, God willing, we shall be blessed.

## LUMBAGO.

Diet and Treatment For This Distressing Affection.

This distressingly painful affection is muscular rheumatism located in the large muscles of the loins. The attack usually comes on quite suddenly, sometimes seizing the sufferer in the middle of a walk without the slightest premonition. The pain is intense and is increased by the slightest motion of the body. The victim of lumbago or any other form of muscular rheumatism becomes painfully aware of the fact, which perhaps he had not before realized, of the great flexibility of the body and of the intimate relation between the different parts of the body, for it seems impossible for him to make any motion whatever of the head or of the arms without feeling a sharp twinge in the back. He dare not turn in bed, lift his head or even raise his arms, for every movement seems to be originated and performed by the sore back muscles. There may be a little swelling of the affected region, but usually there is no external sign of the great well of misery lying just beneath the skin. The pain lasts a few days or a week and may then disappear as rapidly as it came, although there is often considerable soreness or an occasional twinge for a day or two. Lumbago may be distinguished from pain in the back due to other causes by the fact that the agony is extreme whenever the slightest movement is made and is absent or at least bearable when the patient lies perfectly quiet in bed, and also that the muscles are tender when gently squeezed. The affection is more common in men than in women and attacks adults chiefly. Muscular rheumatism of children taking the form usually of wryneck. Why this should be so it is difficult to say. Lumbago occurs more frequently in gouty persons, although that is no explanation, since we do not know why the loins should suffer in gouty individuals more than the muscles of the neck. In mild cases the drinking of an abundance of water to which some baking soda is added may give a measure of relief. Gentle rubbing of the parts with a cloth dipped in ammonia and hot water will often mitigate the suffering, and after the rubbing a cloth wet with this solution may be laid on the parts and covered with a hot water bottle. The diet should be light, without meat or highly seasoned food and especially without beef tea or meat broths of any kind. The bowels should be kept open. One who is subject to lumbago should be careful to avoid a chill and should live frugally, drinking only plain water or milk. Sometimes the attacks are prevented or made less frequent by the wearing of a broad flannel belt over the underclothing.

**Matrimonial Exports.**  
In the early days of Virginia, when the adventurers were mostly unmarried men, it was deemed necessary to export such women as could be prevailed upon to leave England as wives for the planters. A letter accompanying one of the matrimonial ships, dated London, Aug. 12, 1621, says: "We send you in the ship a widow and eleven maids as wives for the people of Virginia. There hath been especial care taken in the choice of them, for there hath not one of them been received but upon good recommendations. There are fifty more that are ready to go. For the reimbursing of charges it is ordered that every man that marries them give 100 pounds of best leaf tobacco for each of them."

**A Japanese Fable.**  
Once upon a time a man discovered the fountain of youth. Thanks to its magic, he returned young, strong and hearty to the land from which but a short time before he had departed an old and feeble man. The first person he met after his return was an old woman, and he told her about the fountain. The woman knew a good thing when she heard it, and she at once set off to seek rejuvenation upon her own account. The next day when the man again repaired to the fountain he found by its side a few days' old babe. It was the woman. She had overdone it.
