## "WARPATH" AT JAMESTOWN

Some of the Interesting Things to be Seen There

Nothing so pleases the public at the Exposition as the collection of new, strange and interesting features which at Chicago and Buffalo was called the Midway, at St. Louis the Pike at Portland the Trail and the Jamestown exposition is known as the "Warpath."

One of the most expensive amusement enterprises on the Warpath is the reproduction of the famous battle between the first ironclads, the Merrimac and Monitor. The building housing this attraction and the scene painting required an expenditure of \$150,000. Large ships, real guns and real men are used in this production, and it is realistic to the finest detail, even to the rolling of the waves and the sound of the splashing upon the shore. The electrical effects producing lightning, sunrise and sunset, are said to be the finest ever perfected. Participants in this famous engagement and other eye witnesses declare this to be a true and realistic representation of the battle.

There are two other reproductions of battles of importance in the history of the civil war, Gettysburg and Manassas. Both of these productions are housed in fine buildings, and they represent the very best work of the scene painter. The realism of the panoramic reproductions of these battles is added to by a plastic foreground built up to meet the eye as to be puzzling, and to cause the observer to really imagine himself a looker-on to these bloody struggles.

Col. Ferrari's wild and trained animal show offers to the lover of this sort of amusement absolute satisfaction. There is a large arena where men and women take their lives in their hands, walk into a steel cage and mingle with the blue blood of animal kingdom giants of the forest, tigers, lions, leopards, jaguar, wolves and bears, and cause them to go through various manoeuvres for the delectation of the audience. The most remarkable exhibition here shown of trained wild animals performing is that of a company of seals and sea lions, animals generally supposed to be of a low order of intelligence, but which here prove themselves on a par with many of those animals long considered the most intelligent. Exposition visitors agree that in every respect, Colonel Ferrari's troupe is without a rival among exhibitions of its kind. LeBelle Selica's lions, for instance, seem endowed with almost human perception and Mille Helene's leopards are scarcely less remarkable in their work. Princess Pauline, the animal queen, too, bends these habitants of the jungle to her veriest wish. Captain Goidie's mixed group in feats astonishing and amusing, attract much attention. Capt. Kuneo's hybrids vie for a first place in favor and Captain Dick Bass, with his performing bear, "Josephine" keep interest on the qui vive every minute. Add to these the dog and monkey circus, a show which eclipses the best that has gone before.

One of the most instructive and novel concessions on the War Path is the baby incubator. This practically recent invention means more to the scientific and medical world than any discovery of the present century, and one should not fail to see the machine containing their tiny specimens of humanity, which have been placed there to be nursed into strong life.

In "Old Jamestown" may be seen a replica of the old church tower, and other landmarks of first English settlement in this country, without traveling forty miles up the James river. Through the streets of this novel village walk men and women representing the first settlers, and Indians walk and talk and trade with them just as they did three hundred years ago. An excellent idea has been carried out here in having the true descendants of that tribe of Indians with which John Smith and his followers had to deal, the Paumunkies, in this reproduction of the old settlement. These Indians, twenty in number, also enact a drama which they themselves have written from the story handed down to them of the incident of John Smith's rescue by Pocahontas, and an Indian maid, a descendant of Powhatan the father of the original Pocahontas, whose name is Pocahontas enacts the part of that noble young Indian.

Hell's Gate is without doubt the most exciting of all amusement devices. It takes one at first by easy gliding boat and then gradually increases to a rush and a whirl through dark tunnels and mysterious caverns where huge reptiles crawl about and spout forth flame, and where his Satanic majesty, and his imps disport.

Hale's tours of the world give an opportunity to visit far distant countries and return within an hour, and a dime will pay all traveling expenses. The cars very much resemble those of any other railroad, and there are the sounds of bells and whistles to add additional touch of realism.

The Congress of National, or the beauty show, contains representative young women from the several civilized countries. In fact an effort was made to secure the most beautiful specimens of young womanhood to be found in America and the European countries.

The famous fainting, The Shadow of the Cross, which has puzzled and mystified, not only the world at large, but the artistic world, for a number of years, is on exhibition on the War Path. It is a painting which has the most peculiar effect upon he who looks upon it, and stamps upon the mind an impression which remains for life.

The Esquimaux village contains a number of these strange little men and women from the frozen arctic, and their daily lives are pictured faithfully. The building itself represents icebergs and mountains of snow, with here and there the snow houses of the inhabitants.

Princess Trixie, the horse with a human brain, crossed the ocean from London, to amuse the visitors at the Jamestown exposition. This beautiful pure white Arabian mare does everything but speak, and this she does by signs almost as intelligently as any dumb animal.

The Philippine reservation, where one hundred and forty one little brown men and women from their far-away island home live and labor just as they do there is always interesting. Represented here are both the civilized and uncivilized tribes, including a nobleman, Prince San Saluna, the ruler over the province of Cattabato valley and its 150,000 inhabitants. An exhibit hall is maintained where the various agricultural products and articles of industry are shown.

Paul Revere, the revolutionary hero, makes his famous midnight ride every hour in the day. This not simply a panoramic production, but real men and a real horse are used, and a splendid idea may be had of this ride of such far-reaching importance. "Pharaoh's Daughter" is an illusion show which perplexes its thousands. Beautiful young women are used in this production founded upon Sacred History, and the show is of such a character as to please the most discriminating.

The streets of Seville and La Gida Theatre are typical of the Spanish dancing girls, brought from the royal opera house of Spain, go through those bewilderingly graceful movements so peculiar to their race. Genuine Spanish bull fights and cock fights are also a part of the program.

Colonial Virginia offers an opportunity to gain a true idea of the life of the Old Dominion of long ago. The marriage of Pocahontas and John Rolfe and the first ball at the capital are among the historical incidents pictured.

The Florida ostrich farm has been moved for the time being from Jacksonville to the exposition and daily on the War Path may be witnessed both harness and riding races between these giant birds.

Aside from these attractions, there is another like number of shows all well worth the time required to see them.

Transactions of the Aldermen at Meeting Thursday Night.

The board of aldermen met in regular monthly session, Thursday night, all the members present.

The finance committee reported that it was not yet prepared to make recommendations for the tax levy, and this was deferred to an adjourned meeting.

The street committee reported that much work had been done cleaning out drainways, etc. The committee recommended that stepping stones be placed at principal street crossings, but no action was taken on it.

The purchase of a mowing machine to cut weeds and grass on the streets was discussed and the matter referred to the street committee.

The cemetery committee reported that contract had been made for cleaning out both white and colored cemeteries.

The ordinance committee made report on the ordinances adopted for the government of the town. There were several changes in the old ordinances which will be published later.

The mayor was instructed to draft an ordinance requiring scales to be used on ice delivery wagons.

The placing of an incandescent light on Seventh street between Evans and Cotanch was referred to the water and light committee.

The clerk was instructed to prepare financial statement for past fiscal year and have same published.

Screens were allowed to remain in front of doors at pool rooms.

The board donated \$25 to Rough & Ready fire company and \$15 to Hope fire company to defray expenses of delegates to State firemen's conventions.

A committee consisting of Aldermen Johnson and Flanagan and Mayor Wooten was appointed to confer with the water and light commission relative to

ordinances governing sewerage. All officers of whom bonds were required tendered their bonds which were accepted. Two policemen were added to the force and M. Fleming and J. W. Tucker were elected to fill the places.

Aldermen Mooring and Flanagan were appointed a committee to have bodies removed from the old grave yard on east side of town and place the property in condition to be sold.

Salaries of officers were fixed as follows:  
Mayor, \$360 per year.  
Clerk, \$75 per month.  
Treasurer, \$360 per year.  
Chief Police, first assistant police and night police, each \$50 per month, two assistant police, \$40 each per month.

Teamster, \$25 per month.  
Dispensary commissioner, \$100 per year each, manager \$75 per month, assistant \$45 per month, laborer \$20 per month.

Alderman Flanagan moved to sell the pair of fire horses and purchase others if necessary. A committee was appointed take this in hand.

Orders were drawn on the treasurer amounting to \$1,063 72.

The board adjourned to meet August 16th.

## AYDEN ITEMS.

News Notes From a Hustling Town Briefly Told

Ayden, N. C. Aug. 2, 1907.  
W. R. Harris, of Marshallville, is here on a visit.

Mrs. J. C. C. Jenkins, of Grifton, has been spending the week with her children here.

The Masons held their regular meeting Thursday.

There was a big entertainment out at Spring Branch last night. Ice cream and other delicacies were served.

Every married man who owns a horse or a buggy should see one of those patent back buggy seats gotten up by Capt. J. M. Dixon. They are of great convenience and benefit to the man of family who has children.

When John Cheek comes to town Will Hemby puts his mule on ice so as to keep until John gets ready to leave.

At the home of Thomas Gaskins, grandfather of the bride, near Vanceboro, Mr. W. B. Tyson, an employe of the mercantile firm of J. W. Quinerly, of this town and Miss Mary Lancaster on Wednesday evening, 31st of July 1907 were united in marriage, Rev. B. E. Stanfield officiating. Immediately after the ceremony the bridal couple left for Ayden where they will make their home. We extend congratulations and welcome them in our midst and wish for them a long and a happy life.

Mrs. Charles Skinner and Miss Margaret Skinner, of Greenville, spent Wednesday here with Dr. L. C. Skinner.

Miss Vernella Bunting of Bethel, who has been visiting Miss Blanche Cannon, has returned to her home.

Miss Olivia Berry came home Wednesday from Morehead.

Henry Staton, of Bethel, has been visiting Clarence Cannon.

The hogs, the goats, the cows and the geese are still in evidence, but oh, those gates are nowhere to be seen.

C. L. Tyson and family have come home from Seven Springs and report themselves very much improved in health and that they had a good time while away.

Misses Helen Quinerly and Blanche Cannon and Leslie Turnage, Clarence Cannon and Johnnie Coward attended a house

party at Joshua L. Tucker's Wednesday evening in Grifton.

R. B. Jarvis, of Greenville, has been here during the week.

Mrs. Tump Harrington came up Tuesday from Kinston to visit her father, W. F. Hart.

F. Lilly and wife have gone to Washington to visit friends and will be away several days.

Mr. Martin, who was an assistant at the depot here, left Wednesday to accept a similar position in Greenville.

We regret to learn Editor J. M. Barfield is confined at his home with rheumatism.

Everett Stroud and family have gone to Seven Springs.

Miss Nina Cannon, who has fever, is much worse and grave apprehensions are felt as to her recovery. Mrs. Jesse Hart, who has fever, also, is some better.

Mrs. E. F. Phillips, wife of the associate editor of the Free Will Baptist, left Wednesday evening to enter a hospital at Kinston for treatment. Mrs. Phillips' friends sincerely hope the operation may prove successful and that she may soon return to Ayden entirely restored to health.

While John Casby and wife, who live in the Swift Creek section, were away from home last Sunday attending church, their home caught fire and was entirely consumed. It is thought the building caught from a stove in the kitchen. The loss was about \$1500, fully covered by insurance.

Miss Letha Burnette, of Farmville, who has been visiting Mrs. W. J. Hemby, left here Monday to visit friends in Greenville.

Echoes of Reflector's Industrial Edition Greensboro, N. C. Aug. 1 1907. Mr. D. J. Whichard:

Greenville, N. C.  
My dear friend:

I have been too busy and it has been too hot for the past two weeks for me to get the time and the resolution to write you how much I was rejoiced to read your splendid special Greenville and Pitt county edition of the Reflector of last week.

It not only showed great enterprise on your part but fine mechanical and mental execution. Of course I enjoyed best of all the valuable historical matter, thus so well collated, of my native and beloved county.

But considering this is the twentieth century, and era of doing things in the material world, the evidence of enterprise and progress on the part of the public spirited citizens and business men of the town and county, which made such an edition possible by "greasing the axles of your conception," was most cause for my satisfaction and admiration.

Not only will those business men reap material reward for their venture in a hundred ways they wot not of, but they will find as the years go by, that 'his initial step will justify many more, for as the Training school grows, their horizon will grow, and they will feel that they must reach for other than local elements to conquer or to influence. I notice you are to have a meeting next Monday of leading citizens of the county to devise means for further consideration of making the scope and plans of the Normal College broader, and to let the outside world, especially the territory which will have to support the institution and give it strength as the years go by, know more of the location and its environment. That is a capital idea, allow me to state, and I certainly hope the same spirit which animated the whole county as well as the town, and which really

secured the enactment of the law, and later the location of the college will continue to animate your people and that there will be a large and enthusiastic attendance Monday. Permit me further to suggest, that it will not do to get idle or indifferent, any more than to feel too well satisfied at having won the first two battles. The real solid, united effort, in order to make the college what it should be, has yet to come. I trust the meeting will be a success in every respect, and that your Chamber of Commerce together with the cooperative aid of the many other towns in the county, will continue manfully to pursue the splendid work of the past, and keep the iron hot. I hope to be able to be in Greenville Monday, if I can possibly arrange my business here, for I could then by a short absence from home, see so many of my dear old friends and relatives in a bunch from all over the county, a pleasure indeed, especially to see them engaged in this great progressive movement.

With kind regards,  
Yours truly,  
Andrew Joyner.

Weather.  
Partly cloudy tonight and Saturday.

Large Crowd Should Come.  
There should be a large number of representative men from all parts of the county here Monday to confer with the Chamber of Commerce relative to taking steps to advance Pitt county.

The rejoicing over the passage of the prohibition law in Georgia extended all the way to Maine.

An Ohio man imagined he was Adam, but the authorities locked him up before he had a chance to raise Cain.

Governor Glenn says the time is not yet ripe for a Southern man to be nominated for president. The frequent mention of his name for the place does not turn his head.

The Durham Herald wants the law changed—one rate for all to ride, and everybody made to pay extra for baggage, at so much a pound. It complains that the roads have to carry children free. Why not require the agents to weigh all passengers and baggage, with boxes, lunch, babies and dogs, and transport the whole business at so much per pound per mile. If you are after making a mess of it, might as well go the limit.—New Bern Sun.

Buck Duke pumped a river dry, cut off the water supply from a woolen mill and stopped the work of a thousand hands for the time being, just to get a big flow of water in the fountains and lakes on his New Jersey estate to please his new bride. There is an example of what a trust magnate can do with his millions just for a bit of amusement. Of course he will not mind such a small thing as paying the damage for stopping the mill.

**RANDOM REFLECTIONS.**

By a Contributor.  
 Dr. Wiley's opinion that American men sleep too much, is being laughed to scorn in neighborhoods where they have a graphophone in the middle of the block.

In view of what has happened recently, it might be well for the managers of the Cannon boom to guard against the danger of a flare-back.

The railroads are forming their usual poor opinion of the man who manages to make himself comfortable at home for the summer months.

A New York woman said to be able to carry on four conversations at the same time. She must enjoy herself immensely at the club meetings or a game of whist.

"What is an optimist?" asks a contemporary. One who can see the home team lose by a scratch and not believe the umpire was a robber.

"The Queen of England is just as fresh as any college graduate" says a Gotham contemporary. We sincerely trust that this is a mistake.

Many are the proverbs relating to trees which are to be heard in India. Among the proverbs that speak of the banyan there is one which says, "As the banyan, so are its hanging shoots; as the father, so the son." This probably means that if the tree be in good soil and well nourished it will be strong and thriving, so will its shoots. Just so the father's health and character will be reflected in his son. Tales of banyans growing on a banyan tree is an expression equivalent to "traveler's tales"—a gentle hint that the narrator is drawing the long bow. The nimb (Azadirachta indica) recalls a saying the appropriateness of which can be understood by those who know its thick shade and who know also what the burning heat of a tropical sun is. "A mother's love is like the shade of the nimb tree."

It is a beautiful thing, this Hindoo mother's love, seldom, if ever, absent, and carried often even to such excess that it becomes weakness. It is so deep and true that it cannot understand—the action is altogether beyond its comprehension—that a mother could part with her young children for them to be educated in another country. The wild fig tree is said not to flower at all, yet people believe that it really does so, only it is at night, and then but for a minute or two, although if procured it is marvelously beneficial; hence it comes to be applied to a visit from a friend after long absence—a great rarity. Another form of it is, "To meet with the flower of the wild fig and to meet you are alike." There is a description of laziness than which it would be difficult to find anything more explicit, "To die from starvation beneath a ripe fig tree."

The teak tree (Tectona grandis) is the one tree of all others in India that is useful and indispensable. It is not, therefore, surprising to find this belief expressed as follows: "Among trees there is only one—the teak. The rest are old women." The same truth is expressed in a different way, "Wood of the teak and the child of a king." But these are the very best of their kind; as is the importance and rank of a prince among subjects, so is the quality of the teak among trees. This saying relating to the mango (Mangifera indica) may be given: "Let us throw a stone in the mango tree and see. If it hit, it will hit. If it doesn't, it won't." It is the equivalent of "having a shot" at a thing—trying to get something out of a good and benevolent man. If it succeed, well. If not, then there is nothing lost.—Times of India.

**A Breakfast, 1738.**  
 Mr. Weddell, in his curious "Voyage Up the Thames," from Somerset Stairs to Windsor, in a sailing barge or boat, in March, 1738, notes that ale was then still served for breakfast. He says: "Having started about 4 o'clock one afternoon, the next morning we arrived safe at Stairs about Ten in the Forenoon, and went to a House of Entertainment, where everything appeared in a very good Taste; Breakfast was brought, consisting of Chocolate, Coffee, Ham, Cheese, Ale and Wine. I mention the Particulars, because it was the first time I remember seeing things brought in this manner, and is what I approve of, since in a Company of six Men, it is natural to expect at least one or two who can breakfast on Beef and Ale. Tho' I think Sippit was the only one among us of that Stamp."—London Notes and Queries.

**The Largest Palace.**  
 The largest royal palace is the Escorial, twenty-five miles north-west of Madrid, Spain, built by Philip II., at a cost of \$50,000,000. It is estimated that the total length of all the rooms and apartments of this wonderful pile is more than 120 miles.

**Classified.**  
 A schoolmaster who happened to have red hair was giving an object lesson to a class on a nut.  
 In his endeavor to draw a distinction between a hazel nut and other nuts he held one up to view, asking: "What kind of a nut is this?" at the same time without a thought putting his pencil to his head while waiting for an answer.  
 Suddenly a young chap who was noted for his witty answers replied: "A ginger nut, sir."—London Tit-Bits.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.  
**DeWitt's Kidney and Bladder Pills** promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment and not the cause. Weak Stomach nerves—the inside nerves—mean stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Bryans Drug Store.

The wise man looked not at the thermometer during July and August.

When you feel the need of a pill take DeWitt's Little Early Riser. Small, safe pill, sure pill. Easy to take, pleasant and effective. Drives away headaches. Sold by John L. Wooten's Drug Store.

You can never make another noise with the cracker that has been exploded.

A prompt, pleasant, good remedy for coughs and colds, is Keenly's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family. It contains no opiates and does not constipate. Contains honey and tar and tastes nearly as good as maple syrup. Children like it. Sold by John L. Wooten's Drug Store.

Some bargains are expensive.

Get a free sample of Dr. Shoop's "Health Coffee" at our store. If real coffee disturbs your Stomach, your Heart or Kidneys, then try this clever Coffee imitation. Dr. Shoop has closely matched Old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in a minute. No tedious wait. You will surely like it. Sold by T. E. Hooker & Co.

Politics sometime makes strange cellmates.

All stomach trouble are quickly relieved by taking a little Kodol after each meal. Kodol goes directly to the seat of the trouble, strengthens the digestive organs, supplies the natural digesting juices and digests what you eat. It is a simple, clean, pure, harmless remedy. Don't neglect your stomach. Take a little Kodol after each meal and see how good it makes you feel. Money back if it fails. Sold by John L. Wooten.

Worry never completed a task worth while.

Bert Barber, of Elton, Wis., says "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking them as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills, which are unequalled for Backache, weak kidneys, inflammation of the bladder and all urinary troubles. A week's treatment for 25c. Sold by J. L. Wooten's Drug Store.

The vacation earned is the vacation enjoyed.

There is no case of indigestion, no matter how irritable or how obstinate it will not be speedily relieved by a dose of Kodol. The main factor in curing a stomach of any disorder is rest, and the only way to get rest is to actually eat the food for the stomach itself. Kodol will do it. It is a scientific preparation of vegetable acids containing the very same juices found in healthy stomach. It conforms to the Pure Food and Drugs Law. Sold by John L. Wooten.

The pies are just as good as your "taster" is out of luck.

For scratches, burns, cuts, insect bites and the many little hurts common every family, DeWitt's Carbolicized Hazel Salve is the best remedy. Soothing, cooling, clean and healing. Be sure you get DeWitt's. Sold by J. L. Wooten's Drug Store.

The vacation we miss is the one we would have enjoyed the most.

Les get quick and certain relief in Dr. Shoop's Magic Ointment. Note it is made alone for Piles. Its action is positive and certain. Itching, painful, protruding or blind hemorrhoids disappear like magic by its use. Be sure you get DeWitt's. Sold by Bryans Drug Store.

Worry causes more perspiration than the heat of the sun.

Parents who give their children Keenly's Laxative Cough Syrup invariably see it. Children like it because it is so pleasant. Contains honey. It is the original laxative. The syrup is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms to the Food and Drug Law. Sold by John L. Wooten's Drug Store.

**CIVILIZATION AND PAPER.**

Our superior civilization is established, and in France, the mother of all nations, that has established it.

The Royal Academy of Paris applies a very simple formula by way of civilization. Every nation is sized according to the amount of paper it uses.

In the matter of paper production this country leads with an annual output of 639,000 tons. Germany follows with 493,000 tons; England, 246,051 tons; France, 190,942 tons; Austria, 147,000 tons; and Italy, 123,026 tons. Naturally the mere production of paper cannot be taken as a correct standard, although it is suggestive, for every country exports more or less paper.

The amount of paper used in this country every year for each inhabitant is 38.6 pounds; in England, 34.3 pounds; Germany, 29.9 pounds; France, 20.5 pounds; Austria, 19 pounds; Italy, 15.4 pounds. The lowest European consumption is found in Serbia, with 11 pounds per capita. China uses the same amount. The lowest paper consumption in the world is in India, with only .22 pound per inhabitant. —Cleveland Plain Dealer.

**The Earth as a Bell.**

Studies of the violent earthquake which occurred in the Balkan peninsula April 4, 1904, made by Dr. Emilio Oddone, professor in the University of Pavia, show that the shocks were transmitted through the entire body of the earth and were reflected from the antipodes back to their place of origin in about thirty-three minutes. Comparing the records of other great earthquakes, Dr. Oddone concludes that the average time required for a vibration to traverse the globe and return by reflection is from thirty-two to thirty-three minutes. The earth thus appears to be not altogether unlike a great bell suspended in space and vibrating throughout its whole mass under strokes, which, comparatively speaking, are no more than the tapping of a finger nail. Dr. Oddone calls attention to the interesting coincidence between the time taken for a vibration to traverse the globe and that required for light to cross the diameter of the earth's orbit.—Youth's Companion.

**Ahead of the Railroad.**

We are apt to think that a great city, containing the comforts and elegancies of modern life, cannot exist without railroads at its gates. Bogota, the capital of the republic of Colombia, is an exception. Having a population of 125,000, fine residences, excellent schools and colleges, literary, artistic and musical societies, clubs, polo, tennis, balls, dinners, elegant society that knows the Parisian fashions, Bogota lies on a plateau which no railroad has yet reached. There is, however, a short railroad on the plateau itself, but to get to it by the most used route one must journey two and a half days on muleback. Another way of approach, reducing the mule ride to seven or eight hours, requires several days of river navigation. But the railroad is coming, although late.—Youth's Companion.

**A Confidential Letter.**

This story is told on Speaker Cannon, who is a very poor writer: One day a member of congress received a letter from him but was only able to make out a word or two. Disliking to annoy Mr. Cannon, the recipient of the letter took it to several of his friends, who together were able to make out all but one word, which was of great importance because it was underscored. Finally in despair the congressman went to Speaker Cannon with the letter to have that one word interpreted. After looking at it and then at the congressman, Cannon said, "Why, you fool, that word is confidential."

**A Monster Belt.**

A Chicago company has made for a sawmill what is believed to be the largest single leather belt in the world. It is of pure oak bark tanned leather, eighty-four inches wide and three ply in thickness, and weighs just 2,300 pounds. The belt is 114 feet long. It took the centers of the hides of 225 steers to make it and each piece of this leather was separately stretched before being placed in the belt. A belt nearly as large has been running for many years at a spinning mill in Ghent.

**Eastern Rugs.**

Eastern rugs challenge machinery to imitate them. The Persian shah's proscription of aniline dyes, which were at one time ruining the industry, is well known. Curiously, excellent Asiatic rugs are now made in the heart of Europe. The Austrian government has in Serajevo a school of oriental carpet making for Christian women, whose reproductions of old rugs are bought by Baron Rothschild and other collectors. —Argonaut.

**Cough Caution**

Never, positively never poison your lungs. If you cough—ever from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for the very reason mentioned, and others, should insist on having Dr. Shoop's label—and none in the medicine, else it must be said to be by those that know it best, a truly remarkable cough remedy. Take no chances then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beat, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

**Kodol Dyspepsia Cure**

Digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would be so very nervous that I got a bottle of Kodol and if you are in a similar state of mind, after using a few bottles I am cured. MRS. LORING N. OHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state, and had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. D. KAUBLE, Nevada, C.

# The Savory Seamless Roaster

Is far superior to any other Roaster made, not an ounce of substance lost. Other roasters waste from 10 to 20 per cent. The Savory seamless roaster needs no water, grease or attention of any kind. It simply asks to be let alone. Retains all juices and flavors, renews the youth of the toughest fowl. One great feature of the Savory roaster is the oval bottom, with the ordinary flat bottom roaster the moisture brought out of the meat by cooking has no chance to accumulate and is burned and drips up the bottom of the pan. In the oval bottom this meat juice flows continuously to the lowest point of the bottom, where it is turned into steam and condensed on the surface of the meat. This condensation continues until the roaster has become heated through to the temperature of the atmosphere in the roaster, when the condensation stops and the browning of the roaster begins.

The Savory roaster is self basting and self browning. The bottom is raised on the oven by the outside heat-retaining jacket, which applies a uniform heat to the roaster from all sides.

The Savory roaster is in a class to itself. It is guaranteed to give satisfaction when used according to directions. Buy one, take it home, go by the directions, use it thirty days, if not all we claim to return to you, we will give you back your money, providing the roaster when returned is in good condition.

See our window display of the Savory roasters. We will be glad to show you. Call and see

Mrs. Bennett was obliged to re-enforce the rather scanty menu with something from her store of preserves.

Hastily seizing a jar of gooseberry jam, the good woman emptied it into a glass dish and placed it on the table.

A little later the guest, who for some moments had been regarding with puzzled interest his saucer of jam, looked up to propound a question.

"I beg your pardon," said he, "but would you mind telling me what fruit this excellent preserve is made of? The flavor is delicious, but I can't call to mind any fruit with seeds like these."

Mrs. Bennett leaned forward to inspect the seven little round objects on the guest's plate.

"For goodness' sake!" she exclaimed. "These are the marbles I put into the kettle to keep the jam from burning. I forgot to take them out!"—Youth's Companion.
