GENERAL NEWS NOTES.

Happenings of Interest Round About the Union.

Because the Georgia rate law reduced the earnings of the Georgia Central Railroad all improvement on the line have been stopped.—In New York Mrs. Laura M. Carter told in court how she returned \$5,000 to Chester Runyan, and had him arrested for robbing a bank to give her money.—Attorney General Bonaparte, in view of the fact that the stock market has been affected, issued a statement that an immunity bath had been promised to the Chicago & Alton Railroad but action is held up because further important evidence is promised.—Developments took a sensational turn yesterday in Cleveland, O., when Mrs. Phillips, widow of John J. Phillips, coal operator, banker and broker, was arrested on suspicion of murdering her husband; it was reported to the police that a burglar entered the house and shot him, but some very peculiar circumstances in the case have arisen.—Shocking irreverence for the marriage ties was exhibited in New York when Ferdinand P. Earl and his wife bade each other farewell on board a steamer on which she sailed to France to secure a divorce so he could marry a young woman whom he considers his affinity; all parties were on good terms and are agreed that the action is all right.—A political sensation has been created in Alleghany City, Pa., by the indictment of four prominent politicians who are charged with conspiracy to procure false registration, issuing false tax receipts and securing fraudulent voting; they were run down by the Voters' Civic League which hired lawyers and detectives to prosecute the corruptors.—In New York city policemen had a sensational chase and desperate fight with an Italian desperado who murderously assaulted a woman who refused to give him \$100 and who in turn had to be protected from men and women lynchers.—Milton Dixon has been arrested at Ashland, Ky., on suspicion of murdering his bride of three months.

Saloon and Dispensaries.

The chairman of the State anti-saloon league, Mr. John A. Oats, will at once take up the work that was so long actively carried on by J. William Bailey, who retired from the chairmanship last evening at the meeting of the executive committee. Mr. Bailey's report is of special value and its most salient features are given below in condensed form for the public convenience: There are sixteen counties in the State in which saloons are licensed. Beaufort, New Hanover, Wayne, Wilson, Lenoir, Greene, Pitt, Martin, Hertford, Edgcombe, Halifax, Caswell, Rockingham, Forsyth, Rowan and Buncombe—11 of these being in the east. Eight counties, Wayne, Beaufort, Wilson, Lenoir, Pitt, Hertford, Caswell and Rockingham, have open dispensaries and saloons. There are 28 dispensaries, in the counties of Hertford, Bertie, Craven, Beaufort, Jones, Lenoir, Wayne, Harnett, Pitt, Vance, Franklin, Granville, Person, Caswell, Rockingham, Alamance, Wake and Haywood. Pitt leads with five dispensaries. Johnston county by vote at Pine Level August 27th returns to the counties having dispensaries.—Ralph correspondent.

Increase Demand for Capital.

The fall in prices is due, primarily, to the absorption of capital the world over. If it were local to the United States, as some of the critics of the Administration would have us believe, it might be attributed to local causes. In fact, however, it affects Great Britain, where the price of consols has fallen as low as 80½, or lower than at any time since 1848; it affects Berlin, where serious banking troubles have been feared; and even affects Paris, where the Bank of France carries a stock of gold which makes the Paris market almost impenetrable.

There is a simple philosophy to the monetary situation in these great markets. It is a philosophy which is simple, at least to the student of political economy, but unfortunately not all our statesmen nor even all our financial writers are trained economists. The explanation of high rates for money all over the world is that the capital sought for the creation of new enterprises, like railway extensions, new rolling mills, new buildings, and the opening up of new countries, does not equal the demand for it. Every civilized community to-day produces annually not only all that is needed for its immediate consumptive wants, but a surplus over for making additions to the existing equipment of production. It is not money which is lacking, in the sense of gold coin and notes. It is a sufficient supply of raw material, labor, and machinery to create all these new works. Men who wish to enter upon such creations seek to borrow the capital of others through the form of banking credits. They find that these credits are exhausted or reduced. They then offer a higher bid for surplus capital by offering new securities cheap. In order to buy these new securities, holders of old securities are willing to sacrifice them in some cases at reduced prices in order to take the new. In other words, the mass of securities, both old and new, competing for a market, is in excess of the combined demand for securities at former prices. Hence the fall in their current quotations.—From "The Progress of the World," in the American Review of Reviews for September.

OVATION TO EARLE.

On His Return Home He Gets Horse-whipped.

New York, Sept. 5.—Ferdinand Penny Earle, the artist, who sent his wife to France, her old home to secure a divorce so that he might marry another woman, received a sorry welcome when he returned to his home in Monroe, N. Y., last night after bidding his wife farewell at the steamer.

Earle was met by a crowd of villagers as he stepped from the train, who at first insulted and hooted him and then pulled him from his carriage and dragged him through the mud of the village streets.

Earle courageously faced his tormentors, exhorted the crowd in an attempt to vindicate himself, and then, goaded for an instant by insults of the people, he seized his carriage whip and slashed at the crowd. A man snatched the whip from his hand, and bystanders state, struck the artist a stinging blow.

Further trouble was prevented by the appearance of officers who forced Earle to drive to his home, though he persistently tried to explain his yfews to the angry crowd.

COME HELP US OUT.

Pritchard Again Requested to Rescue of the Southern.

Asheville, N. C., Sept. 6.—The Southern Railway Company has again hot-footed it to the Federal Court petitioning Judge Pritchard to grant an injunction restraining certain persons residing in Alamance county from prosecuting suits against the North Carolina Company, the road under control of the Southern by virtue of a ninety-nine year lease. Col. Rodman, of Counsel for the Southern Railway, represented to Judge Pritchard that these persons in Alamance county have brought suits against the North Carolina Railroad to enforce certain penalties growing out of the new passenger rate law, also that one suit is brought against the Southern Railway direct.

In the papers filed by Col. Rodman it is set forth that unless such order is granted the Southern will be deprived of the benefit of the interlocutory order of injunction, issued heretofore, and that the road will suffer an irreparable injury, as the road can get no relief except in a court of equity, where matters of this nature are properly cognizable. Judge Pritchard has announced that the persons concerned will be given a hearing September 18, when it will be determined whether the restraining order will be granted.

Fudge Party.

Misses Ethel Skinner and Mary Shelburn gave a "Fudge Party" to a few of their boy friends Thursday evening, at home of Mr. S. M. Schultz on Fourth st. in honor of Miss Mae Schultz, who will leave in a few days for school.

At 8:30 the guests arrived, and were received at the front door by the hostesses, Misses Shelburn and Skinner, who escorted them into the reception room, where they were heartily greeted by the guest of honor, Miss Schultz.

Until ten o'clock the guests were highly entertained by progressive "Uginks" then the chafing dish was brought in, and delicious "Fudge" was made. Mr. Levis Ames Brown was awarded the prize, a cute little lemon, for eating the most fudge, which was presented to him by Miss Mary Shelburn, in very appropriate words.

Those present were: Misses Ethel Skinner, Mary Shelburn, Mae Schultz, Messrs: Norman Warren, Alex Blow, Thurman Moore, Levis Ames Brown, Harry White, Royce Tucker, Luther Bowling, Chas. Horne.

The Leading Market.

Today the tobacco market had the largest break of the season so far. Every warehouse had an immense quantity and prices went through satisfactorily. There is much enthusiasm on the market, every warehouseman and buyer being determined that Greenville shall lead. Farmers are well pleased with sales made here.

MOVEMENTS OF THE PEOPLE

Those Who Come and Go—Some Know You—Some You Know

Miss Helen Brinkley left this morning for Durham.

Mrs. J. F. Kemp, of Wilmington who has been visiting Mrs. J. W. Bryan, left this morning.

Mrs. W. G. Williams and her sister, Mrs. T. C. Bryan, of Goldsboro, left today for Wilson and Goldsboro.

Misses Willie Ragsdale and Essie Whichard went over to Whichard Thursday evening to spend a few days.

John G. Watson, left this morning for an extended trip to several northern cities and will visit the Jamestown Exposition before returning home.

TOWN MATTERS.

Proceedings of the Aldermen's Meeting Last Night

The board of aldermen met Thursday night in regular monthly session with six of the members present.

There was nothing out of the ordinary in the reports of the standing committees. The street committee reported that considerable work had been done on the streets and it was still in progress.

Complaint having been made that a building on Thirteenth street occupies a portion of the street, the mayor and street committee were instructed to investigate matter and report at next meeting of the board.

The several officers made their reports for the past month.

James Brown asked permission to move a building up Dickinson avenue from his lot near the intersection of Greene street to a lot near the depot. This being the busy season of the year when there is much hauling along that street to the tobacco market and depots, permission was not granted for the present.

There was considerable discussion of the action of the board at a recent meeting in electing two extra policemen when one was thought to be sufficient. The matter ended in discussion and no action was taken.

The water and light commission reported that they had gone over the new territory taken in by the last extension of the town limits and were extending the light service in the new territory as fast as the work could be reached.

E. L. Weathington petitioned for permission to sell barbecue in his restaurant. This was granted and subsequently an ordinance was adopted placing a license tax of \$5 per year on all places where barbecue is sold outside of the stalls of the market house.

An application of William Freeman for license to run a pool table in a building on Fifth street was refused.

Plunk Foreman was granted license to run a restaurant in tobacco town.

The tax list for the year was turned over to the board by the list taker and was in turn delivered to the collector with instructions to proceed to collect the same.

Accounts were allowed and orders drawn on the treasurer amounting to \$1,219.41.

The board adjourned to meet in special session on the night of the 16th.

BURNS HERSELF TO DEATH.

Woman Builds Her Own Funeral Pyre and Dies Upon It.

Ottawa, Ont., Sept. 4.—Imagining that the Lord had commanded her to share the fate of Joan of Arc, Mrs. Jos. Lalonde, of St. Lazare, a small French Canadian village near Vaud Euil, burned herself to death on a funeral pyre of her own making. While her relatives were at high mass she built a pyre from fence logs, undressed herself entirely and climbed unto the pile, to which she set fire. People coming out of church saw smoke and the woman's clothes hanging on the branches of nearby trees. Her body, partly consumed, had fallen from the pyre. She left letters explaining why she committed the terrible deed.

Mother Holds Daughter Prisoner.

Norfolk, Sept. 4.—Because she married against her mother's wishes Mrs. Leslie M. Newton, a Jewess, it is alleged, is held a prisoner in the home of her mother, Mrs. Sallie Gholstein, 688 Church street, this city. Newton, a clerk in a store here, and Miss Gholstein were married at Greenville, N. C., last Monday by the Rev. John E. Ayscue, of the Baptist church. They spent one day in the bridegroom's home there and came to Norfolk.

The bride's mother took charge of the bride on her arrival and has her ever since. She is permitted to go on the streets occasionally, but never unaccompanied by member of the family.

Mrs. Gholstein says that Newton must embrace the Jewish faith before she will give up her daughter. He is considering the matter.

The bridegroom is 25 and the bride is 21 years old.

It is said that the rapid increase of the negro population in Philadelphia and New York is making the race question acute in the North. Now our Northern brethren can show us by factual practice just how to handle this knotty proposition. The South will watch the experiment, prepared to profit by any practicable example that may be set by the knowing ones across the Mason & Dixon line.—Greensboro Telegram.

Weather.

Fair tonight, cooler except in extreme western portion, Saturday fair.

Money Lost.

While in Greenville Thursday Mr. S. V. Joyner, of Beaver Dam, lost a small smoking tobacco sack containing between \$30 and \$40 in bills. Any one finding it will confer a favor upon Mr. Joyner, and also be liberally rewarded, by returning it to him.

Chance of a Lifetime.

BE LOYAL OR GET OUT.

If You Don't Like Your Employer Quit, But Don't Take His Money While You Try to Injure His Business.

It may be to some employer or it may be to some cause, but the first prerequisite of decent manhood is loyalty. The man who is crossgrained, or wobbly, is a mighty poor spoke in the business wheel. The fellow who is constantly halting and pulling backward ought to be given a hoe or a sack and put into a cotton patch. Elbert Hubbard, in one of his little preachments, says that if the concern where you are employed is all wrong, and the old Man a curmudgeon, it may be well for you to go to the Old Man and confidently, quietly and kindly tell him that he is a curmudgeon.

"I think if I worked for a man I would work for him," says Mr. Hubbard. "I would not work for him a part of the time and the rest of the time work against him. I would give an undivided service or none. If put to a pinch an ounce of loyalty is worth a pound of cleverness. If you must vilify, condemn and eternally disparage, why, resign your position, and when you are outside damn to your heart's content. But, I pray you, so long as you are a part of an institution, do not condemn it. Not that you will injure the institution—not that—but when you disparage the concern of which you are a part, you disparage yourself.

Explain to him that his policy is absurd and preposterous. Then show him how to reform his ways, and you might offer to take charge of the concern and cleanse it of secret faults. Do this, or if for any reason you should prefer not, then take your choice of these: Get out or get in line. You have got to do one or the other—now make your choice. If you work for a man, in heaven's name work for him. If he pays you wages that supply your bread and butter, work for him, speak well of him, think well of him, stand by him and stand by the institution he represents.

More than that, you are loosening the tendrils that hold you to the institution and the first high wind that comes along you will be uprooted and blown away in the blizzard's track—and you probably will never know why. The letter only says: "Times are dull and we regret that there is not enough work" et cetera. The business man is ever on the lookout for the man who will help him instead of hinder the business. The country is full of those who want to sit and harp to "the old man" about reasons why this or that cannot be done and seldom comes along the man who wants to shoulder the responsibility of troubles, as well as executive authority when things are going easily and pleasantly along. They all want to be boss most of the time, but want to sidestep the troubles.—Charlotte Chronicle.

An air ship would at least be
as safe over Central North Caro-
lina as any mode of travel now
in existence.

We have had a short summer.
Spring and cool weather extend-
ed far into June, and the fall
feeling has come with September.

Bryan's coming to the State in
October will perhaps give those
papers, who have nothing else to
fuss about, a chance to whack at
somebody.

After waiting until a child was
run over and killed, Durham
aldermen are about to adopt an
ordinance regulating the speed
of automobiles on the streets.

That Trenton, N. J., bank
which failed with over \$3,000,-
000 liabilities and only \$300 as-
sets, the latter consisting of
furniture, was certainly making
a clean sweep.

Greensboro is crowing over the
balance of them because the
makers of a new city directory
figure up the largest population
of any other. For Greensboro
and suburbs 42,000 people are
claimed.

It is easier to agree to disagree
than to agree to agree. The
papers cut in New York by F. P.
Earle and his wife, who separa-
ted in order that the former
might marry his supposed affini-
ty, shows less regard for the
marital vows than we had sup-
posed existed. Between the two
it was agreed that the wife
should return to her old home in
France, secure a divorce and free
her erstwhile husband to his own
superstitions. Mr. Earle accom-
panied her and the little 2 1/2
year old son on board the steam-
er, and after posing for a photo-
graph together, they bade a last
farewell in the best of terms.
The husband was hissed, and he
should have been hissed, and it
is hoped that in his second wife
he will get what he does not
want.

Such disregard for the mar-
riage ties should be commanded
to far off Africa. It is disgust-
ing and degrading, and far bet-
ter it would be were the South
Carolina law, or lack of law,
made national.

Now that congressional dele-
gations from Pennsylvania, Dela-
ware and New Jersey have de-
clared themselves unequivocally
in favor of Representative
Small's inland waterway project
that project's chances have been
materially increased. If only
the rusty old autocrat who has
held up the Appalachian park
bill keeps hands off, early con-
gressional action in the matter
may reasonably be expected.—

LANDS ON ITS FEET.

Call of the Cat and the Curiosity
of Scientists.
The curiosity of scientists knows
no bounds. The French Academy
of Sciences once had under exami-
nation and discussion the very in-
teresting question, "Why does a cat
always fall on its feet?" The old
saw, "In order that it shall not
break its back," did not serve in
this investigation. Members of the
Academy were desirous of ascertain-
ing not only the real reason, but the
precise method by which a cat, when
dropped feet upward, manages to
turn over instantly in the air, with
no object to brace itself against in
order to procure the muscular reac-
tion that would seem to be necessary
for the revolution.

To assist its study the distin-
guished members of the academy
had one of its scientists prepare a
series of instantaneous photographs
showing a cat in various stages of a
fall from a considerable height.
These photographs were obtained
under the personal inspection of a
committee, and several successful
"drops," which the unfortunate cats
must have been totally unable to
account for, were necessary.

The photographs, it may be men-
tioned, failed to establish anything,
except that the cat actually turned
over in the air. As to how she did
it, they afforded no clue. And as it
was already known that she did it,
the camera may be said to have con-
tributed nothing toward the solu-
tion of the problem.

The committee next set itself
about settling the matter by discus-
sion. Several members presented
their theories and compared notes.
The laws of mechanics and geome-
try were applied to the known
movements of the cat, with no other
effect than to prove that a cat can-
not possibly turn over in the air,
which, however, it is well establish-
ed that she does.

One academician maintained that
the animal is able to displace its in-
ternal organs in such a way as to
affect its center of gravity while in
the air, causing it to turn, by a new
center of weight, to one side and
then, by another displacement, to
throw the weight so that its back
comes uppermost.

This claim, however, was but an
unproved theory. Another man of
science insisted that at the very in-
stant when the cat is dropped, say,
from the hands of the person who
holds her, feet uppermost, she is
able to make an impulsive move-
ment, using the operator's hands to
push against, as it were. At all
events the cat begins to turn in-
stantly upon being let go.

However, it has against it the
fact that the cat turns successfully
when there are no hands or other
objects to push against—when, for
instance, she is firmly held, back
downward, by threads, which are cut
at the right moment, allowing her to
drop suddenly.—New York Times.

Historical Accuracy.

An American traveler visited
Warwick castle during his tour of
Europe. A tall young soldier took
him through the historic house,
pointing out each object of interest
with a long stick.

"Ere, sir," he said in one of the
state chambers, "ere is an ancient
old portrait of Queen Bess. A fine
work."

The American looked at the por-
trait, and there was a long, impres-
sive silence. To break this silence
more than for any other reason the
visitor finally said:

"Queen Bess, eh? She was a pret-
ty old lady when she died, wasn't
she?"

The guide shook his head.
"Not pretty, sir, but very old," he
said.

An Essential Article.

An artist was talking about Wal-
ter Appleton Clark, who died at the
beginning of his artistic career.
"And Clark," he said, "had a strong
sense of humor. I remember going
through a millionaire's stables with
him one day. You know what a mil-
lionaire's stables nowadays are like
—floors and walls of translucent
white tiles, drinking fountains of
marble, malogany mangers, silver
trimmings, and so forth and so on.
"Well, gentlemen," said the mil-
lionaire proudly, "is anything lack-
ing?"

Where Gas Was Never Used.

According to Mr. Baullie-Groh-
man, an English traveler and au-
thor, many a Tyrolean peasant home
that formerly knew only the flame
of the pitchwood torch or the dim
flame of a tiny lamp consisting of a
pan of tallow with a wick of twisted
thread is now furnished with a
number of eight candlepower elec-
tric lights at a rental of \$1.50 or so
a year for each lamp. Gas and pe-
troleum have never been burned in
these villages; they have gone di-
rect from the ancient to the very
modern. The abundant water pow-
er is the cause of the cheapness of
electricity, and in many of the vil-
lages the lights are not switched off
in the daytime.

Not the Same Growl

A noted woman suffrage leader
was talking in Philadelphia about
divorce. "The temper is at the root
of divorce," she said. "Men and
women are not so vicious as some
people think. Impatience causes
more divorces than immorality."
When I was living in Pittsburgh I
called one day on a certain married
woman. At dinner time my hostess
rang for the maid. She said:
"Mary, is that Mr. Brown down-
stairs? I thought I heard him just
now."
"No'm," Mary answered. "That
wuz the dawg, what wuz growlin'."
—Minneapolis Journal.

Webster's Compliment.

Mr. Webster said one of the
heartiest compliments ever paid him
was by a Maine farmer for whom
when a young man he had gone
into Maine and tried a case. As
they left the courtroom—it is to be
presumed flushed with victory—the
client with flat hand struck him a
blow on the back that made the day,
saying, "Dan, you're a hoss!"

their attendant poisons from the body through
the bladder. Therefore when the kidneys
become diseased and weak they are naturally
unable to perform their work properly, and
pains in the back, inflammation of the bladder
and urinary disorders are the result. It is
imperative that a prompt relief be afforded,
which is impossible unless you remove the
cause.

DeWitt's Kidney and Bladder Pills
promptly eliminate poisons from the system
and at the same time make the kidneys well
and strong.

For Weak Kidneys, Backache, in-
flammation of the bladder and all
urinary troubles DeWitt's Kidney
and Bladder Pills are unsurpassed.

"I have suffered with NERVOUS Dyspepsia for past 10 years
and have received more beneficial and lasting results from the use
of PANACEA MINERAL WATER than from any other remedy of
the many I have had prescribed for me. It gives me great pleas-

Machinery is digging the Panama
canal a thousand times quicker than
the shovel dug the Erie.
Machinery produces the L. & M.
paint at 50 times less cost for labor,
than if made by hand.
The L. & M. gives the best job in the
world, because L. & M. Zinc hardens
L. & M. White lead and makes L. & M.
paint wear like iron for 10 to 15 years.
It only requires 4 gallons of this cele-
brated paint and 3 gallons of Linseed
Oil at 60 cts per gallon, to paint a mod-

JAMES F. DAVENPORT
GENERAL MERCHANDISE

I will mail you free, to prove merit samples of my Dr. Shoop's Restorative and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart & Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves". Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Bryans Drug Store

The wise man looked not at the thermometer during July and August.

When you feel the need of a pill take - DeWitt's Little Early Riser. Small, safe pill, sure pill. Easy to take, pleasant and effective. Drives away headaches. Sold by John L. Wooten's drug store

You can never make another noise with the cracker that has been exploded.

A prompt, pleasant, good remedy for coughs and colds, is Kennedy's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family. It contains no opiates and does not constipate. Contains honey and tar and tastes nearly as good as maple syrup. Children like it. Sold by J. L. Wooten's Drug Store.

Some bargains are expensive.

Get a free sample of Dr. Shoop's "Health Coffee" at our store. If real coffee disturbs your Stomach, your Heart or Kidneys, then try this clever Coffee Imitation. Dr. Shoop has closely matched Old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in a minute. No tedious wait. You will surely like it. Sold by T. E. Hooker & Co

Politics sometime makes strange cellmates.

All stomach trouble are quickly relieved by taking a little Kodol after each meal. Kodol goes directly to the seat of the trouble, strengthens the digestive organs, supplies the natural digestive juices and digests what you eat. It is a simple, clean, pure, harmless remedy. Don't neglect your stomach. Take a little Kodol after each meal and see how good it makes you feel. Money back if it fails. Sold by John L. Wooten.

Worry never completed a task worth while.

Bert Barber, of Elton, Wis., says "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills, which are unequalled for Backache, weak kidneys, inflammation of the bladder and all urinary troubles. A weeks treatment for 25c. Sold by J. L. Wooten's Drug Store.

The vacation earned is the vacation enjoyed.

There is no case of indigestion, no matter how irritable or how obstinate that will not be speedily relieved by the use of Kodol. The main factor in curing the stomach of any disorder is rest, and the only way to get rest is to actually digest the food for the stomach itself. Kodol will do it. It is a scientific preparation of vegetable acids containing the very same juices found in healthy stomach. It conforms to the Pure Food and Drugs Law. Sold by John L. Wooten.

The pies are just as good as ever—your "taster" is out of whack.

For scratches, burns, cuts, insect bites and the many little hurts common to every family, DeWitt's Carbolic Witch Hazel Salve is the best remedy. It is soothing, cooling, clean and healing. Be sure you get DeWitt's. Sold by J. L. Wooten's Drug Store.

The vacation we miss is the one we would have enjoyed the most.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh cure. Send for circulars, free. F. J. GHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

PARKER FOUNTAIN PEN

The Reflector Book Store, which is sole agent in Greenville for the Parker Fountain Pen, is going to give away one of these famous Pens, absolutely free, to the person who guesses exactly or nearest to the number of pounds of tobacco sold on the warehouse floors of the Greenville market during the month of September.

The only condition in this guessing contest is that you come to the Reflector Book Store in person and write your name and guess, with a Parker Fountain Pen, on a list prepared for the guesses. If you have not a Parker pen of your own one will be loaned you with which to write your name and guess. The guessing will close at 9 o'clock p. m. Saturday, Sept 20th.

When Mr. C. W. Harvey, secretary of the Tobacco Board of Trade gives out the figures of the sales for September, the person who has guessed exactly or nearest to the right figure can call at Reflector Book Store and take his choice of pens from the 6 dozen case on display. The prices of these pens are from \$1. to \$6. and the lucky guesser can take his choice absolutely free.

For the information of guessers Secretary Harvey has furnished us the figures of the tobacco sales for the month of September for the last four years, which are as follows

September 1903	1,685,511
September 1904	1,916,468
September 1905	2,841,726
September 1906	2,839,660

Now get to guessing how much tobacco will be sold this September and win a

Parker Fountain Pen

Come in any time and let us talk it over with you and show you these excellent pens

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heat, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label. If poisons are in your Cough Mixture, Good! Very good! Hereafter for this very reason, children and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop's packages with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures indigestion, Dyspepsia, Sour Stomach, Flatulence, Palpitation of the Heart and other ailments. You will like it.

What You Eat

Rebuilds the stomach, rebuilds the tissues and gives a firm flesh.
