EX-PRESIDENT CLEVELAND DEAD.

PASSED AWAY WEDNESDAY MORNING AT PRINCETON.

Death Was Very Unexpected—Had Been Gaining Flesh and He Was Thought to be Out of Danger—Gov. Glenn Sends Telegram.

Princeton, N. J., June 24.—Ex President Grover Cleveland, died this morning at eight-forty. The news of the death of Mr. Cleveland came as a great shock and surprise to the many friends about the city and throughout the State as it was thought Mr. Cleveland was improving rapidly and the sudden turn was unexpected. Since reaching home more than a fortnight ago from Lakewood, where he lay sick at the hotel from Easter to June, Mr. Cleveland had been gaining flesh and the brightest hopes were entertained for him. He frequently took carriage rides and although Dr. Bryant came occasionally from New York to see him, the doctor considered him on the road to complete recovery.

Heart failure complicated with prombosys was the direct cause of his death.

So elated at the improvement in Mr. Cleveland's health it was only last night that Mrs. Cleveland, in her delight, said "Mr. Cleveland will soon be a well man and we will go on July 1st to join our children at Tamworth, N. H. Today Mrs. Cleveland is prostrated by grief. Her husband, whom she expected to go with her to see the children, who she had thought to be well along the way of complete recovery only yesterday, is today dead and the children who were at the summer farm, among the New Hampshire hills, have been ordered to come home—"Father is dead."

Messages of sympathy are pouring into the Cleveland home from all over the country. A tribute to patriotism and the public services of Cleveland came from Secretary Taft, Secretary Cortelyou, vice-president Fairbanks and Governor Hoke Smith of Georgia.

As soon as Secretary Loeb can find President Roosevelt, who is in the hayfields at Oyster Bay today, helping the hands to get in the crop, the president will sign a proclamation to the American people announcing the death of Mr. Cleveland.

Assistant Secretary of State Bacon drew up the proclamation at a temporary office at Oyster Bay, as soon as the long distance telephone brought the news of his death.

Lincoln, Neb., June 24.—When told this morning by a reporter that Mr. Cleveland was dead William J. Bryan said: "I will wire my condolence to Mrs. Cleveland and later issue a statement and also write something for my paper, The Commoner."

Raleigh N. C., June 24.—On being informed of Mr. Cleveland's death, Gov. Glenn sent the following telegram:

Mrs. Grover Cleveland Princeton, N. J. "As governor of North Carolina and a friend of Mr. Cleveland, I extend to you my heartfelt sympathy in your great loss. R. B. GLENN."

D. M. Clark Hurt.

D. M. Clark, of the civil engineering firm of Dresbach and Clark, who is employed at the bridge, had his foot mashed very badly a few days ago by a piece of steel falling on his left foot, but he is now able to move about with the aid of crutches.

Dissent From Newspaper View of "News."

In a communication setting forth the success of the National Biscuit Company's profit-sharing plan with its employes, the high standard of business today and the restoration of public confidence, Messrs. N. W. Ayer & Son, advertising agents, propound the query, "What is news?" In the ensuing comment the communication says: "It is fair to say that if a man leads a clean life, is a good citizen, helpful to the community in which he lives and in every way a benefit to his neighbors, nothing that he does is news. If however, some worthless vagabond does serious damage to this man's property, that is news, and the vagabond is entitled to scare heads and limitless newspaper space.

"If a corporation so conducts its business that it is an honor to the country, a blessing to its people and an inspiring model of corporate integrity, nothing that concerns the welfare or success of that corporation is news, and all reference to it must be omitted; but if a concern without capital, credit or honor starts in the same business, with the avowed purpose of tearing down that which the other has well built, that is news, and under the guise of news the wrecking concern must be advertised without cost to them.

"We confess we are not yet convinced that only 'badness' is news, and that 'goodness' is always uninteresting to newspaper readers."—Newspaperdom

Harper's Palm Garden.

J. V. Harper has opened for the public a palm garden. The name is well deserved. Every effort for the comfort of patrons has been well completed. We feel quite sure every one should appreciate the advanced ideas which Mr. Harper has displayed and hopes to carry out. At present everything is on the move to complete the electric ice cream plant, which is to be installed. The family trade will then be solicited and parties wishing to place orders for cream will then find it possible. Every necessity for an affair at home will be supplied.

Greenville has longed for just such an establishment and as a patron I trust Mr. Harper will meet with much success, which is well deserved. Patron.

John Teel Caught.

John Teel, who escaped jail Tuesday night, was recaptured yesterday afternoon down by the river below the ferry in a clump of bushes. The supposition that he was released by parties from the outside proved to be true, as he has disclosed the names of five negroes: Peter Teel, his brother, Willie Fleming, Bud Wooten, Sam Short, and one other who has not been caught.

The four negroes have been placed in jail with Teel, under the charge of aiding and abetting.

It seems to us the county commissioners should provide stronger locks for the county jail. The prisoners escape with apparently very little effort.

THE CONVENTION AT CHARLOTTE

MET IN GREAT AUDITORIUM AT 11 O'CLOCK.

Great Demonstrations for the Three Candidates—Honors Equally Divided. Charlotte Entertaining Well—Standing of Candidates for Governor.

Special to Reflector:

Charlotte, N. C., June 24th.—All last night and this morning delegates and visitors kept pouring into Charlotte, and though on the streets it had almost the appearance of a town run over with folks, no one was heard to complain that Charlotte was not taking care of them all right. Some rooters were so enthusiastic that they seemed not to sleep at all, but throughout the night the streets resounded with cries of "Kitchin," "Craig," "Horne." Everything was good humored.

This morning the Pitt county delegates held a caucus, in the Manufacturer's Club rooms and elected H. W. Whedbee spokesman. J. L. Fleming was recommended to the first district caucus as member of the committee on credentials.

The first district caucus soon followed in caucus with E. F. Aydtlet as chairman. This caucus made the following selections: District vice-president of convention, S. B. Spruill, of Washington county.

Member credentials committee on organization, William Badham, of Chowan.

Committee on platform, W. L. Cohoon, of Pasquotank.

Members State executive committee, W. G. Lamb, of Martin; L. L. Smith, of Gates; E. A. Daniels, of Beaufort; Everett Thompson, of Pasquotank.

Delegates to national convention, Walter Jones, of Hyde; S. C. Bragaw, of Beaufort Alternates, L. F. Wright, of Camden; W. K. Jackson, of Beaufort.

At 11 o'clock the doors of the immense auditorium were thrown open and delegates began pouring in for the greatest convention the State has known. The auditorium is ideal for such a gathering, and Charlotte certainly did herself proud in constructing it. The building seats 4,800 people and is admirably arranged.

The assembling delegates showed that they had their enthusiasm and their lungs with them. Some men would give vent to a shout for either of the three candidates for governor and instantly the friends of the others would raise their voices for their man, and it was a contest to see which could drown the others.

Ex-Gov. T. J. Jarvis was given an ovation when he entered about a quarter to 12 and took his seat on the speakers stand. Near him was Chairman Chatham of the State executive committee, Elder P. D. Gold, State officers, senators, congressmen, and other distinguished visitors. Quite a number of ladies had seats in the galleries and on the stage and showed much interest in what was going on.

An Edgecombe county Kitchin banner that was brought into the hall lifted every Kitchin man to his feet waving hats, fans, handkerchiefs, and there was cheering that lasted several minutes. Above this roar horns could be heard tooting for Horne. The band struck up "Carolina" in an effort to drown the noise but it kept right on while the banner was paraded

around the hall. The banner disappeared the crowd sang the chorus to "Carolina," and just as Chairman Chatham at 12:20 o'clock rapped with his gavel for order, some one cried out "Craig" and the demonstration to him was as great as the previous one for Kitchin. The honors and the crowd seemed pretty evenly divided.

A large Horne banner then made its appearance and there was another demonstration, winding up in all the factions yelling at once. These demonstrations kept the chairman waiting until 1:45 o'clock to call the convention to order. By this time three-fourths of those in the hall had shed their coats.

Immediately after the convention was called to order Elder P. D. Gold, of Wilson, led in a fervent prayer.

Chairman Chatham then spoke a few minutes and after declaring the convention ready for business called ex-Gov. T. J. Jarvis temporary chairman. Gov. Jarvis spoke for fifteen minutes such words as brought great applause. He urged harmony in all that be done in the convention. Districts were called for vice-presidents and members of credential, platform and organization.

Gov. R. B. Glenn not being able to attend the convention, a letter from him was read.

R. P. Buxton, of Winston, read a resolution expressing regret at the death of ex President Grover Cleveland which was adopted by rising vote, the convention standing with bowed heads as the band played "Rock of Ages."

The convention then adjourned until 4 p. m.

Charlotte, June 24.—W. L. Parsons, of Richmond county, was made permanent chairman of the convention.

Charlotte, June 25.—The first ballot for the nomination of governor was completed at 1 o'clock this morning. The result omitting fraction, is Kitchin 375, Craig 334, Horne 147. Three more ballots were taken but there was very little change. Convention was up all night and adjourned at 6.30 to meet again at noon. The sessions are entirely too wild and noisy for business.

Charlotte, June 25.—The fifth ballot was completed this afternoon at 2 o'clock and the result is Kitchin 377, Craig 327, Horne 151, fractions omitted.

Charlotte, June 25.—Sixth ballot gives Kitchin 377, Craig 334, Horne 145.

Seventh ballot gives Kitchin 377, Craig 324, Horne 154.

Fell From Tree.

Wednesday afternoon Lemuel Whitehurst started up a tree in his father's yard, on Pitt street, to gather some fruit. In going up he had to pass an electric light wire, which is fastened to the tree and to help himself over Lemuel placed his bare foot on it near the fastening, which broke, causing his foot to come in contact with the live wire. While the wire did not contain enough power to hurt him it had enough to cause him to turn loose and fall. In the fall he fractured his collar bone and was knocked senseless for awhile.

The Busy Bee Cafe.

W. C. Hines has opened one of the nicest cafes in North Carolina here. It is located in the Brady building and is handsomely fitted up with the most modern furniture for the business. He is going to make a specialty of boarding small families and individuals by the week. It is certainly a handsome place and we hope it will be a success, as it is a valuable addition to Greenville.

Trade Report.

Bradstreet's Saturday, will say for Richmond and vicinity—Slight improvement is noted in some lines of trade this week.

Wholesale of dry goods and notions have their travelers out with fall samples, and fair orders are being received.

Dealers in hardware are builders material report fair sales. Retail trade is fair and in some instances has been stimulated by cut-price sales.

Produce is plentiful but prices a downward tendency. Continued shipments of vegetables to northern markets are noted. Conservative buying and the smallness of orders are a feature in present trade, conditions in practically all lines.

A strong demand for leaf tobacco is noted the 1907 crop having been below the average in quantity and quality and where a fair quality is offered the prices average well.

The tobacco crop is reported in good condition throughout Virginia and North Carolina and with continued favorable weather more than an average crop is expected. The same is true of the cotton.

Farm labor is reported more easily obtained than for a number of years, this is attributable to continued business depression in commercial centres.

The wheat crop has been harvested and small quantities of the new crop have been offered on the local markets.

Collections continue slow.

Greenville Wins.

The game between Greenville and Farmville Wednesday afternoon in White's park was one of the fastest and prettiest games ever played on home grounds. The game resulted in a victory for the locals to the tune of 5 to 4. Batteries for Greenville Lanier C. and Haskett C., for Farmville Bynum D. and Joynr R. Time of game 1.30. Umpire Lanier G.

Must Be Consistent.

In one of the police courts the other day there appeared before the magistrate a certain old Irishwoman who has been a continual offender for years, her besetting sin being the flowing bowl. The court failed to treat her as an old acquaintance until she calmly announced her age at thirty; then he stopped her.

"See here, Mary," he said, "you've been coming here for ten years, and all that time you have given your age as thirty years. I won't stand it any longer. Why do you do it?" "Sure, your honor," was the quick reply, "I wouldn't be after telling you one story at one time and another next time. 'Twouldn't sound right."—New York Globe.

It is unfortunate that a name should have anything to do with it, but the people of the South cannot love the name Sherman.

Pitt has good crops thus far. It is certainly encouraging after two poor years, and good prices are expected for market crops.

Do not forget that Greenville is growing. There are several new homes near completion now. Let the good work go on.

Mothers, be careful about letting your boys go to the river alone. So many sad deaths have occurred of late in our State.

Denver is expecting 100,000 people at the Democratic convention. The city has made ample provision for the convention.

Some are basing their hope of a Democratic victory this year on the fact that history repeats itself. Democrats can make history, whether it repeats itself or not.

In the death of Ex-president Cleveland the world loses one of its greatest men. Cleveland was a real statesman, but circumstances kept the people from giving him much praise.

Some of our people are going off to spend the summer. They will come back to Greenville for a good time after learning that this is a better place to spend the summer than many to which hundreds go.

Just think of the time, money and energy spent in the race for governor. If there had been any real issue, something that should have been brought before the people, then such a course might have been justifiable. But the campaign was largely a quarrel between two men, and has added nothing to the real knowledge of the people. The State should not have another such campaign.

RANDOM REFLECTIONS.

(By Contributor.)

The Republicans want a "new deal" now instead of a square deal.

In Pennsylvania the grafters ought to be compelled to take out licenses, at least, if they cannot be sent to jail.

Tammany braves are going to carry \$100,000 to Denver as pocket change. Will it take about that much to attract the attention of a Denver waiter?

David B. Hill has gone abroad for the first time but he should prove a good sailor after being so often at sea in the ocean of politics.

Hoke Smith declined to be a candidate for the United States senate from Georgia because he thought it his duty to serve the state another term as governor. The joke is on Hoke.

THE FREAKISH WIND.

Pranks It Has Played With Smoke, Dust and Grain.

During a volcanic eruption in the Hawaiian Islands the smoke rose to a height of between five and six miles and then drifted away to the northeast. At a distance of 600 miles it settled on the surface of the sea and was then carried back by the northeast wind to its place of origin, where it arrived a fortnight after its original departure and covered the entire group of islands with its heavy pall.

Not long ago a steamer was on her way along the north African coast from Asia to England and had entered the Galita channel between the island of that name and the coast of Tunis when a fine dust began to darken the air and soon afterward to fall on deck. Some of this dust was collected and subjected to chemical analysis in Europe. Its constituents proved that it had been carried high in the air from the Sahara desert and had finally dropped into the Mediterranean.

More extraordinary still was a dust shower that fell in Hungary some years ago. Analysis showed that this dust was identical with the sediment of the Nile. The dust was believed to have been brought by the wind all the way from Egypt, a pretty long journey for a shower of that description to accomplish.

It must have been a high wind indeed that brought a shower of wheat on one occasion to the villagers in a place on the southern coast of Spain. The wheat fell like rain. There were so many witnesses of the occurrence that it was impossible to doubt that it had appeared. But for some months it could not be accounted for.

Then came the other side of the story. It was learned that shortly before this fall of wheat some farmers near the northern coast of Morocco had been thrashing wheat with flails when suddenly a tornado swept over the ground and carried all the wheat and chaff on the thrashing cloth into the air. The cloth was swept away by the storm, and the farmers fell to the ground, but were not injured. When the storm had passed they were horrified at discovering that the result of their labors had totally disappeared. There seemed little doubt that the wheat that fell in Spain was that which belonged to the Moroccan farmers. It had been blown clear across the Mediterranean.

Rising Post.

Overworked.

Mr. Rose of Melrose came home from business. Mrs. Rose lay on a couch. He sat down by her side and said:

"What did the doctor say, dear?"

"He asked me to put out my tongue," murmured Mrs. Rose.

"Yes."

"And he looked at it and said, 'Overworked!'"

Mr. Rose heaved a sigh of relief.

"Then, my dear," he said grimly, "you'll have to give it a rest. I have perfect confidence in that doctor."—Washington Star.

Advertising For Federal Building Sites.

Treasury Department, Office of the Secretary.
 Washington, D. C., June 3.
 Proposals will be received, to be opened at 2 o'clock p. m. July 2, 1908 for the sale or donation to the United States of a suitable site, centrally and conveniently located for the Federal building to be erected in Greenville, North Carolina. A corner lot, of (approximately) 120x130 feet, is required. Each proposal must give the price, the character of foundations obtainable, the proximity to street cars, sewer, gas, and water mains, etc., and must be accompanied by a diagram indicating the principal street, the north point, the dimensions and grades of the land, the widths and paving of adjacent streets and alleys, whether the alleys are public or private, and whether or not the city owns land occupied by sidewalks. The vendor must pay all expenses connected with furnishing evidences of title and deeds of conveyance. Improvements on property must be reserved by the vendor; but pending the commencement of the Federal building they may remain on the land upon payment of a reasonable ground rent. The grantor must, however, remove all improvements on thirty days' notice so to do. The right to reject any proposal is reserved. Each proposal must be sealed, marked "Proposal for Federal building site at Greenville, North Carolina," and mailed to the Secretary of the Treasury "(Supervising Architect), Washington, D. C. No special form of proposal is required or provided. GEO. B. CORTELYOU, Secretary.

Big Trees.

The tallest tree in the world is the Australian eucalyptus, reaching a total altitude of 480 feet. The biggest are the mammoth trees of California, some of which are 276 to 376 feet in height and 108 feet in circumference at the base. From measurements of the rings it is believed that some of these trees are from 2,000 to 2,500 years old. The oldest tree in the world is said to be on the island of Kos, off the coast of Asia Minor. It is several thousand years old, but just how many no one has dared to say. The tree is carefully preserved by a wall of masonry around it, and the trunk is thirty feet in circumference.—Minneapolis Journal.

The Pyramids.

Two principal theories have been advanced for the erection of the pyramids of Egypt. One is that each king on ascending the throne began to build a pyramid as a tomb and monument to himself. This was usually laid out upon a comparatively small scale, so that if the builder had but a short reign his tomb might be complete. As time passed successive layers were added, and the size of the monument was thus proportioned to the length of the builder's reign. This theory is combated by Petrie, who believed that each pyramid was begun and carried out upon a definite design of size and arrangement.

Gentlemen:—In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything. I bought a fifty cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a machinist, and in three months I was well and hearty. COME TO GREENVILLE

The Place for Home Seekers.
The Place for Business.
The Place for Health, Happiness and Prosperity

No town in Eastern North Carolina can offer better advantages to all classes. GREENVILLE has twelve passenger trains and a number of freight trains daily. GREENVILLE has five large leaf tobacco warehouses and is one of the best markets in the entire tobacco belt and is surrounded by the best farming lands in the country. GREENVILLE owns and operates her electric light and power plant, water works and sewerage systems. Current for motive power can be had at all hours both day and night. GREENVILLE has a graded school not surpassed by any town its size, 12 churches with large memberships, and no barrooms. Its citizens are neighborly, social and enterprising. Work is about to begin on the buildings for the Eastern Training School for teachers and the school will be ready to open next year. The government anticipating Greenville's needs to meet her rapid growth has made an appropriation for a site for public building. The home seeker and investor could not do better than to come to Greenville.

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tunnelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

Ralston's are Different.

From Any Other Shoes We Know

You'll say the same if you will drop in and look over our Spring Styles—they're beauties. You may not be able to tell by looking at them that they're different from shoes costing one or two dollars a pair more. But try on a pair and you'll FEEL the difference. Owing the fact that they are foot moulded while being made Ralston shoes need no "breaking in." This is a FACT, not merely a claim. Make us "show you."

DAWSON & SUTTON PROPRIETORS.

The occasion was the annual reunion of the survivors of the 4th regiment, volunteer infantry, and it took place in a thriving city in one of the western states. Among the veterans in attendance was a soldierly, erect old man with the fire of youth still in his eye, who had journeyed across half a dozen or more states in order to meet once again his comrades of the long ago. It came his turn to address them. He rose and began: "I have traveled 1,700 miles"— Here the memories of the old days overcame him, and his voice broke. Recovering himself with an effort, he tried again: "My dear old friends and comrades, I have traveled 1,700 miles"— Once more his emotions mastered him. Dashing the tears from his eyes, he made a third attempt: "I have traveled 1,700 miles," he blubbered, "to do the crying for this whole regiment!"

Fruit and Sugar For Horses. Grain is not the only food on which the horse thrives. In Egypt the khedive's best mares are fed largely on currants, and these fruit fed animals are noted for their endurance and speed. Figs during the fig harvest form the food of the horses in Smyrna. They turn to it from oats or hay. The green tops of the sugar cane are fed to the horses of the West Indies, and for long weeks in many parts of Canada windfall apples form the horse's only food. In Tasmania peaches and in Arabia dates take the place of the usual hay and oats, corn and bran.
