ELEVEN INNING GAME.

Greenville's Team Wins Her Fourth Victory.

In one of the prettiest games ever played here the local team won from Farmville Tuesday by the score 2 to 1. It took eleven innings of hard work during which no one could vouch as to who would win. Farmville scored in the second inning when by errors Joyner took first and second, scoring on furnace's hit to center. Until the sixth it looked as if there would be no more scoring but Lanier got first on an error, stole second and scored on Haskett's double. In the eighth Farmville filled the bases with no one out, but the good head work of Lanier saved the game.

Again in the ninth the visitors had a good chance to score but the boys succeeded in keeping them off the rubber and let it go into extra innings. In the tenth neither side scored. Farmville went out in the one, two three style in the eleventh. Lanier was walked, stole second and third, Haskett H. fanned. Bryan was safe at first on an error, took second and the winning run was made by Lanier on a sacrifice hit to second.

Both pitchers did steady work, each allowing only five hits. The feature of the game was the heavy hitting of Turnage, H., who swatted the sphere for three doubles.

This is four victories out of five games played. The boys will have a game here with the Tarboro team Friday and expect to add one more nest egg on that day. Just now they are a few dollars in the hole and are especially anxious for a good attendance at the game in order to defray the expenses.

Automobile Owners and Drivers Take Notice.

At a recent meeting of the Board of Aldermen of the town of Greenville, the chief of police was instructed to rigidly enforce the following ordinance in respect to bicycles, motorcycles or automobiles, to-wit:

Chapter 2, Section 15: That any persons who shall ride or drive bicycles, motorcycles or automobiles over the streets of the town at a greater speed than ten miles per hour, or in a reckless manner, shall be fined \$5.00 for each and every offence.

Attention is called to the fact that the town's limits on the sand clay road is as far as the T. R. Moore place on said road.

By order of the Board of Aldermen.
J. T. Smith, Chief of Police.

MUNICIPAL MATTERS.

Aldermen Begin a New Fiscal Year.

July first marking the beginning of a new fiscal year in the municipal administration of Greenville, the Board of Aldermen were in session to close up matters for the old year and begin the work of the new term. There were no changes in the personnel of the board, all the members whose terms expired having been re-elected.

The first work of organizing was administering the official oath to Mayor H. W. Whedbee, who had been elected for two years, which was done by Superior Court Clerk D. C. Moore. He also administered the oath to the aldermen-elect.

The following constitute the board:

First ward—J. B. White.
Second ward—W. A. Bowen and C. S. Carr.

Third ward—D. W. Hardee and E. B. Higgs.

Fourth ward—E. A. Moye, Sr. and E. G. Flanagan.

Fifth ward—W. S. Moye.

In the election to fill the offices at the disposal of the board the following was the result:

Treasurer—H. L. Carr.

Clerk and Tax Collector—J. C. Tyson.

Assistant Clerk and Tax Collector—Robert Howard.

Chief Police—J. T. Smith.

Assistant Police—G. A. Clark.

Night Police—W. H. McGowan.

Salaries for the several officers were fixed as follows:

Mayor, \$600 per year.

Treasurer, \$25 per month.

Clerk and tax collector and assistant, \$50 per month each, an ordinance to be drawn by the mayor defining the duties of each.

Chief Police, \$55 per month.

Assistant and Night Police each \$47.50 per month.

Something New in Weddings.

A Wisconsin couple on the eve of their marriage the other day made announcement of a novel departure from the ordinary procedure on such occasions. They let it be known that no invitations to the wedding would be sent out and no presents expected, but that an admission fee would be collected at the church door from all who wished to witness the ceremony. This was done, as stated in the announcement, for the purpose of raising a fund upon which the couple might begin their married life. So, instead of getting a lot of useless presents, they received a nice little sum in cash, and with it they were able to purchase such articles as they needed. Of course this was horrible, disgusting, etc., but there was a good deal of common sense in it. Did you ever look over a bride's display of wedding presents without being struck with the number of useless things there were in the lot and thinking of how much money had been wasted by friends in the purchase of gifts for which there would never be any use? Besides, this Wisconsin girl will be saved the trouble of taking care of a lot of extra pickle forks, butter knives, glass bowls, oyster forks, jelly spoons, ladles and the like.—Charlotte Observer.

THE McIVER LOAN FUND.

Its Purpose and Value as a Movement to Aid in Woman's Education.

There are two things about the McIver loan fund that of themselves are sufficient endorsement of the movement: the name and the purpose.

The purpose of the movement is to raise a fund that may be to aid young women of small means, who would not otherwise be able to do so, to complete their education. It is not intended that the fund shall be a charity, for those who receive assistance from it will be expected to repay it; but the loans will be made on easy terms so that those who receive them can by earnest endeavor repay them without great sacrifice. It is not intended that the benefits shall go primarily to the State Normal College; whatever benefits the college receives will be indirect, the direct benefits will go to those who are helped by it. The women who are pushing the movement have in view, not the college, but their less fortunate sisters throughout the State. The movement, therefore, is worthy the endorsement and help of all, who are interested in the manhood of North Carolina regardless of any interest they may have in the State Normal, or any other college.

The name of the movement endorses it. It is useless to speak of the work and services of Dr. Charles D. McIver,

Notice.

I hereby recommend that anybody can trade for or buy or sell the horses that I traded to Clayton Turnage, also to Joe S. Pittman. I purchased the said horses from Winslow with the same horse note that he told me every man signed who bought a horse from him. I traded said horses by his consent. I want everybody to know that the notes are not due until next fall, and I shall meet them promptly and settle them. But the one note I have forbidden anyone to buy, I will not pay until the court says I must pay it.

A Feast of Music.

The recital in the opera house, Wednesday evening by Misses Helen Marie and Harriette Day, of the music faculty of Meredith College, Raleigh, and Miss Phyllis Woodall, a post graduate pupil of that institution, was the most delightful musical event Greenville people have had the pleasure of attending. Owing to the rain through the day the audience was small, but those present thoroughly enjoyed every moment of it. The Misses Day have excellent voices, and both in solos and duets their singing was charming. Miss Woodall is an accomplished violinist and plays with great sweetness and grace. So pleased was the audience with the program that several encores were given. We hope these ladies can be induced to make a return engagement here on a concert tour they contemplate next winter.

BLUEMONT.

On the homeward trip from the press convention at Hendersonville last week the editor of The Reflector stopped over at Blumont for a few hours Saturday afternoon. We had heard much of this place and had a desire to see it. Blumont is to be known as the Baptist summer retreat. It is located on the Southern Railway at the west end of Swanannoa tunnel and 18 miles below Asheville. About two square miles, or some over 1200 acres, of land was procured and laid off in half acre lots which are being sold at \$100. A large number of lots have been sold and already more than twenty cottages have been built and others are going up as fast as material can be collected. Work has begun on a large open air tabernacle for assembly purposes, as a number of meetings are arranged to be held there this summer. By next summer an immense auditorium will be provided, also a hotel large enough to accommodate several hundred people. While many people are waiting for cottages they occupy tents on the site.

It is intended that Blumont shall be a retreat to which people may go for the summer at little cost, and a place for assemblies and conventions. Rev. B. W. Spillman is in charge of the property and has an office there for looking after the sale of lots and superintending the erection of buildings. He is very enthusiastic over the future of Blumont and expects it to become a popular retreat. There is every prospect that his expectations will be fully realized, for the location is a beautiful one. It is right at the summit of the Blue Ridge with a much higher altitude than Asheville. The plan of laying off the lots provides for wide streets and parks. Blumont is an ideal place for rest and recreation.

Mr. E. E. Hilliard, who last fall was forced by ill health to give up the active editorship of his paper, the Scotland Neck Commonwealth, has now sold it to Mr. J. C. Hardy, former editor of the Warrenton Record. Mr. Hilliard was an able editor and made The Commonwealth an excellent paper. We regret that the journalism of the State has lost him. Mr. Hardy, who has had much newspaper experience, will take charge at once and we feel sure he will keep The Commonwealth up to its high standard.

Prohibition went into effect in the State of Tennessee on the night of June 30th. At the hour of midnight there was a ringing of bells in the cities and towns marking the passing of saloons. The law in that State makes it illegal to sell any alcoholic bev-

erages within two miles of a school house, and only two points about twelve miles from Memphis escape this restriction.

We have not yet noticed a single paper express the opinion that the recent Biggers verdict in Charlott was right.

Maintain the High Standard.

It is true that owing to the frailty of human nature very few of us maintain the high standard which many of us preach, still if there is one set of people who more than all others should endeavor to maintain that high standard it is the members of the Press. They demand much from others, from them much should be demanded.

Some days ago we received a letter from a man in another part of the country who offered to sell to this paper the exclusive right to publish in Halifax county editorial matter that he proposed to furnish from week to week. His offer and his letter were both ignored. Some days later in a paper published in this section of our State the same editorial matter that this man proposed to sell us, appeared, and no credit was given to any one for the article, except the credit that a paper always receives for editorial matter that appears in its columns.

We deplore this willingness on the part of some to receive credit for the product of another's brain, whether bought for publication or clipped and taken for publication.

Lets maintain the high standard.—Scotland Neck Commonwealth.

The New York Journal of Commerce prints a column of reports from the condition of the cotton crop in North Carolina and it strikes us that the summary is about right. It is to the effect that cotton in the State is about two weeks late, owing to the continued rains, and is badly in need of cultivation. Grass pervades practically all fields and a number of correspondents report red and yellow leaves. Stands are generally poor and the plant small, but with a continuance of the fine weather now prevailing it is thought that conditions will rapidly improve. Some scarcity of labor is reported and lice are damaging cotton in a few sections, but a few more days will put farmers ahead. Compared with last month, when condition was 86.4 cotton show a considerable deterioration from incomplete reports. A year ago at this time percentage condition was 89.4.—Charlotte Chronicle.

Nearly every paper in the United States, in publishing the accounts of the trip of the scout cars from Atlanta to New York, contained the report of the scouts giving Mecklenburg county the credit for having the best roads between Atlanta and Washington. This shows that when a county is progressive the world will find it out in some way. Mecklenburg's good roads are a big advertisement for her.—Wilmington Star.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Their Own Lookout.

There was an Irishman who after reaching America was full of homesick brag, in which nothing in America even approached things of a similar variety in Ireland. In speaking of the bees of the old sod he grew especially rosy and said: "Why, the baze in that country is twice as big as in this, bedad. Indade, they're bigger than that—they're as big as the sheep ye have in this country!"

"Bees as big as sheep!" said his incredulous listener. "Why, what kind of hives do they have to keep them in?"

"No bigger than the ones in this country," was the reply.

"Then how do the bees get into the hives?" he was asked.

"Well," replied the Irishman, "that's their own lookout!"—Exchange.

The Picture and the Frame.

A well known artist used to tell a good story concerning his first academy picture. He was favored by many visitors to see it, his framemaker among the number. This good fellow took his stand before the work and seemed buried in profound admiration.

"Well," said the painter, "what do you think of it, John?"

"Think of it, sir? Why, it's perfect. You won't see one better, I know. Mr. — has got one just like it."

"What!" said the amazed artist. "A picture just like that?"

"Oh," replied the framemaker, "I wasn't talking about pictures. I was speaking of the frame. You may believe me, sir, it's the frames as gets 'em in, and that is just a beauty!"

His Feelings While Falling.

The Swiss Alpine climber, Sigrist, who once fell from the top of the Karpfstock, in Switzerland, described his sensations while falling as follows:

"The plunge, which was taken backward, was in nowise accompanied by the anxiety such as one has when one dreams of falling. I seemed to be borne in the most pleasant manner gently downward and had complete consciousness during the entire fall. Free from all pain or fear, I contemplated my position and the future of my family, which I knew was assured by the insurance I carried. And this contemplation was accomplished with a rapidity which I had never before known. Of the losing of my breath, of which people talk, there was no suggestion, and only the heavy fall on to the snow covered ground caused me to lose suddenly and painlessly all consciousness. The bruising of my head and limbs on the rocks as I fell caused me no pain. In fact, I did not feel it. I cannot conceive of an easier, pleasanter death. The reawakening, however, brought with it entirely different and far less agreeable sensations."

The Beautiful.

Every article of commerce for man's use should show the handiwork of the artist. The mission of art in the industries is to make the artisan artistic. Modern life is actually losing something of its bareness of aspect through both interior decorations of the things of use about the house and exterior beautification of the natural surroundings. Woodwork, ironwork, bronze work, weaving, basketry, pottery, printing, stamping, drawing, landscape gardening, architecture and public parks and the many other ways of beautifying the objects of utility to man are gradually making industrial life and its products attractive. A railway station, a factory, an advertisement, the dining table, are none the less useful for being aesthetic and far more pleasurable. From beauty in the industrial arts there thus irradiates a life influence that elevates.—Printing Art.
