Always speaking words of comfort to those in distress, her long life has been spent for the benefit of others, ever trying to make them happy. She leaves one son, Capt. W. A. Andrews, of Chadburn. We bow down with humble submission to the Great One that doeth all things well, but yet the death of this good woman is a sad shock to all that know her. WEDNESDAY, JULY 7, 1909.

Sending money away from home is not helping your home town.

Another earthquake shock at Messina is enough to give the people of that city the shakes.

The Tennessee convicted night riders have been granted a new trial, which means that they will get off clear next time.

If the comet is responsible for all this rain, we would like for the comet to go back into hiding.

A Boston scientist sends out a warning that a snow will fall before July is gone. A snow in this sort of weather would soon find itself stuck in the mud.

Editor R. N. Ransom, of the Spring Hope Leader, has been elected superintendent of education for Nash county. He has been a teacher for some years and is well qualified for his new duties.

Charlotte is certainly looking higher. Last year it built a 12-story building that was then dubbed a sky scraper, and now there is a plan on foot to double that and build one of 24 stories. "Watch Charlotte grow" upward and outward.

John S. Early, the alleged North Carolina leper who for several months was isolated near Washington City, is now in a New York hospital and will be turned loose in a short while. Physicians there say he did not have the leprosy but only a skin disease, and that he is entirely cured of that.

Some of the oil companies have instituted suit in the Federal court against the Board of Agriculture of North Carolina to restrain the latter from enforcing the act passed by the last legislature providing for the inspection of illuminating oils. The ground of this action by the oil companies is the alleged unconstitutionality of the law. The ten oil inspectors for the State have already been appointed and were supposed to begin their duties July 1st.

The Cotton Outlook.

If the country were only full of cotton at the present time—cotton held in warehouses for 14 and 15 cents—we would all be happy, for the indications are that before the summer is over and Texas begins to send in the new crop, fifteen-cent cotton may not be a novelty. The government's report was sensational, in a measure, but its accuracy has not been challenged. Nothing can be said to be certain in the cotton market, but as far as certainty goes, there will be good prices for cotton from now until harvest and even after the new cotton comes on, the prices will be fairly good—around or over 10 cents. This

assurance is the result of circumstances over which the farmer has no control. He planted for a big crop, but the weather has been against it. A small crop this year followed by a smaller crop and more corn next year will make things pretty solid for the farmer.—Charlotte Chronicle.

When we see a business man asking for patronage on circulars he has had printed out of the city we lose all interest in advocating the purchase of supplies from home merchants. It seems to us, the next best thing to advocating the purchase of all possible supplies from the home merchant, would be to advocate that all good citizens who want to see their town grow, refuse to buy anything from the man whose advertising matter is printed beyond the border of his home town. There is no excuse for such conduct in Salisbury.—Salisbury Watchman.

The Times has very little complaint on this score. The most of our business men have their printing of every kind done at home, as they know they can get it done here as well as anywhere else. There are a few, however, who come under the Watchman's criticism, and these, often, are the first ones to criticize the newspaper for not continually urging the people to patronize home merchants instead of the mail order houses.—Concord Times.

It is said that there is nothing new under the sun, but we saw a thing last week while passing Genoa station on a train that is a new one on us. A farmer had a horse hitched in the shaft of a cart from which the body had been removed, and in addition to this the horse was hitched to a plow and the farmer was comfortably seated on the cart axle, riding and guiding the plow from his position while he sided cotton, the wheels of the cart running in the middle of the rows. As the train stopped at the station, we inquired if the man was not a cripple, but learned that he was not although he was getting along in years. That was plowing 'em some.—Goldsboro Record.

The Greenville Reflector says: "Just as if Raleigh had not had trouble enough along the line, the News and Observer is advising the folks to kill the first man who asks 'Is it hot enough for you?'" That was rather bad advice, but if a man should literally follow it he could escape by establishing a case of confusional insanity.—Raleigh News and Observer.

### THE SOLDIER'S FATHER.

A Story of General Wheeler During the War With Spain.

A story told of General Joseph Wheeler by one who is described in the New York Times as having seen the incident illustrates again the old saying that the great men are the simplest and the kindest. "It was at Montauk during the war with Spain," he began. "With several other officers I was in General Wheeler's tent, and we were busy with details of supplying the hospitals.

"Outside there was a group of civilians. They were waiting to get passes to see friends in the hospital. Most of them carried baskets filled with dainties which had to be inspected so that the soldiers would not be killed with kindness.

"Among the civilians there was one who was burdened by nothing heavier than his stolid sadness. They had all crowded close in their eagerness to get the passes, when one of the officers of the medical corps ordered the sergeant to shove them back and with unnecessary gruffness told them to go about their business, as General Wheeler was too busy to see them for some hours.

"The big man—he looked to be a German, and he was one—was instant in obedience, but the others were moving back slowly when Wheeler threw open the flap of his tent and asked what the trouble was.

"Here are a lot of people," the officer replied, "who want hospital passes. None of us has had anything to eat since breakfast, and so I told them to go away."

"As I have had no luncheon in three days," Wheeler replied, "I think you might miss lunch just once," and then he turned to the group.

"The big German drew himself into as soldierly a position as his age and robustness would permit. He saluted as they do in Europe, palm forward. General Wheeler advanced, answered the salute and asked what he could do for him.

"I know by telegraph mine boy is dead," said the German. "My fra is too much mid sorrow to come, and, respectfully, general, I want his body to bury in the Lutheran cemetery. You will that permit?"

"General Wheeler extended both hands to his visitor and said: 'My heart is with you, sir, and I am at your service. There are horrors and glories in war. You have been a soldier?'"

"Yes. I was hit three times at Sedan."

"Then you are proud that your boy died for his flag?"

"Yes, and God bless you, general."

"Then General Wheeler said, 'I want you to see that this gentleman is given the body of his son and that it is escorted to the train with a guard of honor.'"

### THROW OUT THE LINE.

#### Give the Kinneys Help and Many Greenville People Will be Happier

"Throw Out the Life Line"—The kidneys need help. They're overworked—can't get the poison filtered out of the blood. They're getting worse every minute. Will you help them?

Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Will cure any form of kidney trouble. Mrs. Robert Williams, 317 S. Washington St., Rocky Mount, N. C., says: "I willingly give my name in recommending Doan's Kidney Pills as they benefited me greatly. I suffered for a long time from a dull, nagging backache and rheumatism twinges in my kidneys. I was restless at night and arose in the morning unfit to commence the day's duties. I obtained no relief from the various remedies I used and had about despaired of ever being cured when Doan's Kidney Pills were recommended to me. I began their use and could soon see that they were helping me. They soon disposed of the backache and improved my health in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

#### The Benefit of the Doubt.

A young lady was spending some weeks at a Scotch country house, and just before dinner one evening two cousins of the host—one of them the great man of the family—arrived unexpectedly. Shortly before dinner was announced the butler sought the young lady and said to her confidentially:

"We're puttin' on yesterday's soup, an' for fear there shouldna be enough ye maun decline."

"Decline soup!" exclaimed the young lady, much amused. "But, you know, John, that wouldn't be manners."

"Na," said John coolly, "but they'll think ye ken nae better."—London Tit-Bits.

#### At the Altar.

"Will you have this woman to be your lawful wedded wife?"

"That's what I loved I would."

"Will you love, honor and obey her?"

"Ain't you got that switched around, parson?" said the bridegroom.

"John," said the bride elect, "don't you reckon the parson knows his business? Answer the question!"

"Yes, sir," said the bridegroom meekly; "I reckon I'll have to."—Atlanta Constitution.
