PRESENT UNREST AMONG WOMEN

Gertrude Alberton says the Edict That Man Alone Shall Woo Affects the Mental and Moral Tone.

I think there is little doubt that this world-old statute that the man alone shall woo has more to do with keeping down the mental and moral tone of woman, with cultivating her ignoble talents for deceit and intrigue, than any of the other forces which she finds arrayed against her, says Gertrude Alberton in The Delineator for August. It is not the softening influence of the matrimonial and maternal states that works so many miracles, but the abrupt removal of the necessity to practise a demoralizing self-control, to appear something that she is not, to still much ugly anger and resentment. I have known many girls, plentifully endowed with good looks and charm, to confess that they have "lain awake nights scheming how to get that man," only, in nine cases out of ten, to find him, later on, quite unworth the trouble.

We are all familiar with the selfishness, the slyness, the lack of real frankness, in what might be called the Threshold Girl—anywhere between seventeen and nineteen. This is nothing worse than the mating instinct driving her blindly until she has learned to play her part with taste and tact. During that period she gropes about in her still childish brain for those qualities that will enable her to hold at least her own in the great game, and she is the more befuddled because of that curious tradition that a girl must seem other than she is.

Of course, with only this old standard of femininity, and being still fluid and plastic, the poor things more often than not model themselves upon some favorite heroine of romance, and are only knocked into shape by those indefatigable partners, Life and Time. Some of our Western girls, it is true, have a disposition to rush at a man with both arms out-stretched—one sees it constantly among the second-class hordes traveling in Europe; and this, I infer, is the primitive impulse of almost primitive tribes to get what they want in the shortest possible time. But even these girls, when they are walking more thoughtfully in their twenties, when they are "young ladies," evolve a far finer set of tactics; they lose the savagery of adolescence, and cultivate those qualities which, when persisted in long enough, make them more than a match for any men.

Good Order Was the Cause of it All.

The excursion run by the colored of Greenville July 13, to the capital, reflected much credit upon the managers. It showed that they have the ability to perform creditably. The people of Raleigh said it was one among the best excursions ever run in that city. Every one that went was well pleased with the trip, and would like to go again.

Card of Thanks.

I wish to extend heartfelt thanks to the people of Greenville and elsewhere who were so kind to me during the illness and death of my husband. I shall ever be grateful to, and hold all in dear remembrance.

Mrs. J. T. Abrams.

ENJOYABLE DANCE.

Young People Have a Delightful Evening.

A very enjoyable subscription dance was given Monday night in Perkins' opera house in honor of the visiting young ladies. "Paul Jones" was indulged in frequently and added greatly to the pleasure of the occasion. The dance was very informal and was enjoyed by the following:

Miss Kathleen Long, of Graham, with Frank Skinner, of New York.

Miss Clara Hampton, of Pl-mouth, with Frank Wilson.

Miss Ruth Coltrain, of Concord, with R. C. Bagby.

Miss Rosa Wells, of Wilson, with W. B. Wilson, Jr.

Miss Bettie Russ, of Raleigh, with Judson Blount, of Bethel.

Miss Josey, of Scotland Neck, with Earle Harrington.

Miss Margaret Blow, with W. R. Wilson.

Miss Nellie Pender with C. J. O'H. Horne.

Miss Jamie Bryan with Alex. Blow.

Miss Mary Smith with Bill Patrick.

Miss Mary Shelburn with Paul Jones, of Bethel.

Miss Lee Brown with Bob Howard.

Miss Lot Skinner with L. Ames Brown.

Miss Lillian Burch with Norman Warren.

Miss Janie Brown with John Boushall, of Raleigh.

Miss Helen Forbes with Sam White.

Miss Ward Moore with Jesse Harrington.

Stags—Carey Warren, John Shelburn, Will Lipscomb, Walter Barnhill and Willis Jones.

Excessive Taxation.

A great deal of the bank stock in North Carolina is owned by women and children who depend upon it for their livelihood. The average dividend on bank stock in this State has been brought down to 4 per cent by reason of the tax levied upon the stock. The State Corporation Commission has this year increased the tax on bank stock from 15 to 20 per cent., which will bring the dividends below 4 per cent. The dividends on bank stock ought to be at least 6 per cent. The increased tax on this class of securities will make bank stock an unprofitable investment. It is being taxed to the extent that it does not pay to own bank stock. The Chronicle thinks that the Corporation Commission is making a mistake in increasing the tax on bank stock, and is working a hardship upon a large class of the people of the State that ought to be protected. This heavy burden of taxation will drive capital out of the State, besides cutting down a source of revenue upon which so many people are dependent. The tax was high enough in the first place. Bank stock has been carrying its full share of the burden of taxation. It is in the class of "visible securities" and cannot escape. It would be better instead of taxing it to the point where it will bring less than 4 per cent. to look about for some hitherto invisible taxable property and draw money from that source. It is a suicidal policy to impose such a burden of taxation on securities that so greatly affect the welfare of the people of the State.—Charlotte Chronicle.

On the ice wagon would be a good place to ride.

STATE NEWS.

Happenings of Interest in North Carolina.

Durham, N. C., July 14.—Durham has two cases of pellagra and two deaths have occurred within the past week.

From all sections of Lenoir and Jones and Onslow counties come reports of unusually good crop conditions and prospects are brighter than they have been in several years. People in Jones county say that their outlook is brighter than in the past ten years.—Kinston Free Press.

Asheville, N. C., July 14.—W. A. Leonard, a lineman in the employ of the W. T. Weaver Power Company, and working on the Biltmore line this afternoon, near the Hans Rees tannery, was instantly killed by coming into contact with a live wire. He was on a pole at the time he touched the live wire.

Raleigh, N. C., July 14.—Courtney Jeffries, colored charged with attempting to assault Miss Marie Curtice, of this city, about a month ago, was found guilty and sentenced to fifteen years, today. Miss Curtice is the daughter of Dr. Cooper Curtice, who is connected with the United States department of agriculture, and has only been living in Raleigh a short time, coming here from the north.

The First Baptist church of Fayetteville has written Rev. J. R. Carroll, of Winterville, Pitt county, to supply Dr. Hall's pulpit during August. Mr. Carroll is a Wake Forest student, and is said to be a young man of fine parts.—Fayetteville Index.

Wadesboro, July 14.—The hydroelectric power plant at Blewitt's Falls was sold by W. H. Browne and W. A. Leland, commissioners, under order of the United States Court at noon today. D. H. Thomas, representing bondholders, was the only bidder, securing the property for \$1,000,000. The sale is subject to the confirmation of the court.

General J. S. Carr is spending the week at Oconeechee farm looking after the threshing of wheat. Last week from twenty-three acres, he got 980 bushels, or nearly 43½ bushels to the acre. He has also 107 acres yet to go through the machine and with such a ratio, may expect something like 5,000 bushels. This is an unusual yield for North Carolina farms and in barrels of "Peerless" flour, means about \$10,000. This is just one instance of Oconeechee farming.—Durham Sun.

At Centre Brick.

Instead of taking the Sunday school of the Christian church out in the country for a picnic as first planned, it was decided to have it at Centre Brick warehouse tonight. All pupils, their parents and friends are invited to attend.

Another Strike at Pittsburg.

Pittsburg Pa., July 15.—Another strike occurred this morning when 14,000 miners in the employ of the Pittsburg Coal Company quit work. A meeting of leaders has been called in the hope of settling the trouble.

J. R. & J. G. Moye are offering their entire stock of Oxfords at greatly reduced prices. See their ad, page 4. Go quick and secure a bargain. 7 10 tdf

WORK THE GARDEN NEEDS NOW.

Soil Should Be Kept Porous and Dying Flowers Removed.

By the middle of July you should commence the practice of going over the beds and borders of your flower garden at least twice a week, and, in addition, as soon after a rain as the soil can be worked, make the soil fine and porous. This keeps the roots in good condition and makes the so-called "dust-mulch," which conserves the moisture in the soil, so that it will matter less how much rain you get. Every plant should be gone over as frequently as need be and the dying flowers removed in the case of such flowers as are grown for their beauty on the stalk. In the case of those grown for showing in the vase, see to it that when they are cut there will be root-stalk enough left to stimulate them to further bloom. This applies to such flowers as the annual phlox, sweet-william, petunias and similar ones. Cull out the flowers for the vase in such a manner that the remaining ones will still be placed symmetrically on the stalks.

At least once a week every plant should be gone over for the purpose of picking off every dead leaf and bloom, and pinching out the stems of such plants as do not grow as symmetrically as they should, in order to keep them in line with their fellows.

The matter of watering gardens in August, during the hot, dry spell which usually comes at that time, is a serious one. Watering is an injury unless done deeply, so as to reach the deep-feeding roots. Try the plan of allowing the spray nozzle to run half a day in one spot before moving it. A spot thus soaked will need no water for a week, in which time the whole garden will have had a refreshing drink.—The Designer for August.

The Independent Farmer.

The Free Press is glad to learn that many of our Lenoir county farmers propose to raise wheat next fall. We believe that farmers have raised oats more largely this year than heretofore for a great help; and the more attention we give to raising corn and small grain, with home-made fertilizer, the more independent we will become.

The basis of our agriculture should be—not cotton and not tobacco, crops that are raised at great expense and are largely at the mercy of speculators after that they are raised—but corn and wheat and oats wherein is the very staff of life for man and beast. If we have a sufficiency of corn and wheat and oats with only a small fertilizer bill to pay, if any at all, we needn't concern ourselves so much about what gamblers and speculators and trusts do with cotton and tobacco. Then when the staff of life is provided we can raise hogs and live stock at comparatively little trouble and expense. And that will mean a degree of independence unknown to us now.

May the time soon come when Lenoir county farmers—the bone and sinew of our citizenship—will farm in such a way as to become independent! And the indications are that such a time is not so very far off.—Kinston Free Press.

This is a time when a pavilion and bath houses on the river front would afford much comfort,

Stop Running Around With so Many Subscription Papers.

Objects of real charity always meet a ready response from the people of Wadesboro and Anson county generally, but there is a growing disposition among some people to rush out with a subscription blank every time a neighbor loses a mule by death or accident or has a slight fire. Many people give something to these causes in order to get rid of them, and in some instances, the person for whom the money is being made up, could buy a dozen of those who contribute to the fund. This is not fair and has a demoralizing effect upon real charity. Suppose a mill owner loses a few hundred dollars by an accident in his mill or a fire; who thinks of giving him money to make the loss good? Now very few mill owners, or merchants either, make more than a living out of the businesses they operate. It looks so much like putting a premium on poverty which, in so many cases, is due to downright slothfulness and bad management.—Wadesboro Ansonian.

GOOD ROADS.

Nobody has ever yet heard of a case where a county has voted bonds for good roads, or has built good roads out of tax money, as has been the case in Mecklenburg, regretting the action. There is not a case where good roads have ever been built, where the people would give up the roads and accept the return of the money. An investment that nobody ever rues, must be a pretty good investment. The cost of Mecklenburg good roads would aggregate a very pretty sum, possibly between three and four hundred thousand dollars. Yet if today any sort of offer was made to the county authorities to give up these good roads, go back to the condition of mud highways before the time of good roads, accompanied by the return of all the money, the vote on the question would be lost ten to one. People who have never had good roads may doubt the investment, but those who have them, know that the investment is a good one.—Charlotte Chronicle.

This is a good indication of the value of good roads and the estimation in which they are held by the counties having them. The Reflector longs for the day when good roads enthusiasm so takes hold of the people of Pitt county that they will not stop until every section of the county will enjoy the benefits of such highways. It will not cost near so much to build good roads in Pitt as it did in Mecklenburg, owing to our more level country, and when our people make up their minds to bond the county to build good roads they will find it the best investment they ever made.

Congressman Cowles, of the eighth North Carolina district, is trying to revive the notorious force bill in congress. Pretty attitude for a North Carolinian to take, even if he is a Republican.

Those towns that have been getting up directory reports of population, may have to move the figures down a few pegs when the census enumerators get through counting noses.

If a tariff reform plank gets in the next Democratic platform, there ought to be enough explanation with it to show the people what it means.

They are going to keep hammering at it until they turn Harry Thaw loose, and let him have another "brain storm" and shoot somebody else if he wants to.

Unconscious Worry.

A great many people worry unconsciously. They don't understand why they are so tired in the morning, why their sleep was so disturbed and troubled.

This mental disturbance is often caused by the habit of taking things too seriously, carrying too great a weight of responsibility. Everywhere we see people who take life too seriously. Most of us are like the motorman, who not only starts and stops the car and tries to keep from running over people, but also feels tremendous anxiety and responsibility about the motive power.

One of the most helpful lessons life can impart is that which shows us how to do our work as well as it can be done and let principle take care of the result. How often have we been amazed to find things come out much better than we anticipated; to find that the great unseen power that governs our lives through a wilderness of trial and tribulation into the open has guided our life ship through the fogs of difficulties and of sorrow, through storms of hardships and losses, safely into port.

The pilot does not lose heart when he cannot see his way. He turns to that mysterious compass which sees as plainly in the fog, and guides as faithfully in the tempests, as when the sea is like glass. We are in touch with a Power greater than any compass, greater than any pilot, a Power than can extricate us from the most desperate situation.—Success Magazine.

HAVE YOU KIDNEY TROUBLE? HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand twenty-four hours; and a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

Go to J. W. Bryan and get a 50c box of Bloodine Blood and Kidney Tablets and if they do not help you J. W. Bryan will give you your money back.

There is comfort in the knowledge so often expressed, that Bloodine Blood and Kidney Tablets the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. They correct inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcome that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Bloodine Blood and Kidney Tablets is soon realized. They stand the highest for their wonderful cures of the most distressing cases. By mail 50c. The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these. Spurring the stomach and brain

to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

CLEVER FORETHOUGHT.

A Bit of "Mind Reading" by the Famous Herrmann.

"The late Alexander Herrmann always went fixed for an impromptu exhibition," said a man who was once associated with the famous magician, "and in the early part of his career he would go to extraordinary pains to lay his fences' long in advance for startling effects. In that way he was frequently able to do things that seemed next door to supernatural, and the result was no end of valuable advertising. In later years, when he became celebrated, and systematic booming was no longer necessary, the old man, as we used to call him, would often refer to these exploits and laugh heartily over the mystification they had occasioned.

"On one occasion, to give you an illustration of his patient and forethought, he was in a popular resort in a big city and chanced to notice a bank book lying on a desk behind the cigar counter. The cover bore a printed number, which was in plain sight, and when he got outside Herrmann made a memorandum of it in his notebook, together with the address of the place. There was not more than one chance in a hundred that the information would ever be of any service to him, and he simply filed it away, so to speak, for possible future reference.

"Well, fully six months afterward, when he was playing a return date in the city, he piloted a party of friends one day into this identical resort, and the proprietor, who was present, was called up and introduced. All hands sat down at a table, and, as usual, Herrmann was urged to give an example of his skill. He performed several neat tricks and, remarking that he would wind up with a little exhibition of mind reading, asked the proprietor to think of some number that could afterward be verified.

"Take the number of your bank book," he suggested, "if you remember what it is." "I don't recall it off-hand, but I can easily find out," said the proprietor, and, going over to his safe, he unlocked an inside compartment and privately inspected the book. "All right," he said when he returned to the table; "I am thinking of the number now."

"Herrmann took him by the hand, looked him in the eyes in his peculiarly impressive fashion and said, 'The number is 129,068.' 'That's right!' gasped the safe proprietor in an awestruck voice. He was absolutely stupefied with amazement, and so, for that matter, were the others in the party. The fact that the book had been locked in the safe and the apparent impossibility of Herrmann knowing anything about it in advance made the feat seem almost miraculous."—Exchange

DELIGHTFUL NORTHERN TOUR

Personally conducted to Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, four days in New York City, at very attractive rates, via SEABOARD AIR LINE.

Mr. C. H. Gattis, D. P. A., and Mr. Jas. Ker, Jr., C. P. A., SEABOARD AIR LINE, are arranging what will certainly be the most popular and delightful Tour of the season, especially in this so as the party leave the Carolinas on September 1, 1909, the most delightful time in the whole year to go on your Summer trip, and they will visit all of the principal points of interest of the North: Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, Saratoga, Ausable Chasm four days in New York City, and Philadelphia, and all the New York Theatres will be open for the fall. An attractive feature of this Tour will be the Historic Potomac, Passing the Grand Old Palatial home of "The Father of His Country."

The trip is to be made at the lowest possible figure consistent with the first-class hotels and other things connected with the Tour, which will include railroad fare, pullman, hotel accommodations, meals, sight-seeing trips, transfers and in fact everything, with the exception of meals in New York, and a few other minor expenses, nearly all the sight-seeing trips are included. This last feature is a very good one as it will enable the party to spend their time seeing the sights without the bother of the details, which will be looked after by Mr. Gattis and Mr. Ker, both of whom have had wide experience in this branch of the passenger service. Time will be spent in Toronto during the Canadian Exposition and stops will be made at all points of sufficient length to enable the party to see all points of interest without hurrying. Mrs. Gattis and Mrs. Ker will chaperone the Tour, and ladies should not hesitate to go alone. The Tour will prove a most interesting one. A very attractive illustrated booklet containing detailed information can be had upon application by letter or in person to the undersigned, and those interested should write at once, as the party will positively be limited, and those applying first will get the lower berths, so it will be to your advantage to book early. Every detail has been arranged with the view to making this a most delightful and comfortable tour for all.
