## FOR THE PUBLIC BUILDING SITE.

### GOVERNMENT PREFERS MUNFORD LOT.

Two Letters on the Subject That Call For Decision by the 27th of This Month.

Washington, D. C., July 16. Editor Reflector:

I beg that you will publish the letter appended from Hon. C. D. Hilles, Assistant Secretary of the Treasury, regarding the matter of the site for the public building at Greenville. You will note the conclusion of the Department to purchase the Munford site of the area described, provided the purchase money does not exceed \$10,000. It is now incumbent upon the citizens of Greenville and the owners of the property to arrange for this sale, if it is possible to do so, and be prepared to notify Assistant Secretary Hilles on or before the 27th inst. It is not for me to give any advice to the citizens of Greenville regarding their duty in this matter.

In the event the Munford property is not purchased, the Assistant Secretary has not indicated, so far as I am aware, what his second selection will be.

I am adopting this method of giving the greatest publicity to the present status of this matter.

Very respectfully,  
Jno. H. Small.

Washington, July 14 1909.  
Honorable John H. Small,  
House of Representatives.

Referring to the Federal building site to be acquired at Greenville, North Carolina, I have the honor to advise that several delegations of citizens from Greenville have recently visited the Department. They seemed unanimous in the opinion that the so-called "Five Points" (or Munford) property would make an ideal site.

A building on this site would be wedge-shaped, and to secure the necessary floor space to accommodate the service, the walls must be placed on the street lines. To get good results architecturally, the building must be set far enough back from the apex of the lot to permit the front of the building to be at least 25 feet wide. These requirements in conjunction with the 40 feet open space needed for protection from fire necessitate the acquisition of a lot measuring at least 140 feet on Dickinson avenue by 140 feet on Evans street; the rear line to be perpendicular to Evans street.

The Department is willing to purchase the "Five Points" site if a lot of at least the above stated dimensions is offered for the \$10,000 appropriated.

To allow the citizens an opportunity to arrange to make such a proposal, consideration of the Greenville case will be postponed until the 27th instant; but if by that time no offer for a lot of the required dimensions at a price within the appropriation is received, the department feels that the "Five Points" property should be eliminated from further consideration.

Will you be good enough to take the case up with the people of Greenville and urge the gentlemen having the matter in charge to hasten the submission of the desired proposal as much as possible?

Respectfully,  
C. D. Hilles,  
Assistant Secretary.

### Poor Drainage.

The town officials are being besieged with complaints of property owners who are being damaged by overflows every time there is much rain. There is no question about there being good grounds for complaint, for in many instances the damage being done is considerable. The town's system of surface drainage is very inadequate, and something should be done to improve it as quickly as possible.

## STATE NEWS.

### Happenings of Interest in North Carolina.

Lumberton, N. C., July 16.—A unique request was made by a young white man, convicted of larceny at the present term of court and who was sentenced to the chain-gang for three years. He requested the judge to change his sentence to five years in the penitentiary from three on the roads.

Raleigh, N. C., July 16.—United States Marshal Claude Dockery has gone to Wilmington to serve papers on a number of property owners in connection with condemnation proceedings for acquiring adjacent property by the government for the enlargement of the Wilmington custom house. Congress has already provided ample appropriation for the enlargement. Some very valuable adjacent property is to be taken by the government and some of it will have to go through the full condemnation course in the courts and it seems impossible to reach an agreed price without an order of the court for a commission to fix the price the government shall pay.

### Kinston Wins.

In a fast game at Kinston yesterday Greenville was defeated 5 to 2. The locals piled up four runs in the second inning on two bases on balls and three errors, but after that were unable to connect with Lanier's curve and failed to reach the third sack. The feature of the game was a home run by Cozzen.

SATURDAY, JULY 17, 1909.

First thing congress knows the president is going to get riled because there is not a hurrying to get through with it.

The Wilmington Dispatch says it looks like "congressional insanity." That's a good one.

Evelyn Thaw has told her story, and it has weakened Harry's chances of getting his liberty.

Thermometers are also in the high class at present, and even tariff tinkers can do nothing to lower the figures.

Before complaining too much about it, remember it has not been a long time since you were wishing for warm weather to come.

The Californian who married fourteen times in four years and wound up with a seven year jail sentence was certainly following a strenuous time.

If the blind tiger operator knew that real punishment was in store for him in case of a capture, he would be more shy about engaging in the business.

With pellagra frightening people from the use of corn bread, and the high price of flour almost putting biscuits in the prohibition class, the potato should come in for much popularity.

President Taft is threatening to send a special message to congress to get it to hurry tariff consideration to a close. Guess he wants to get off on his summer vacation. The people of Beverley, where the president will make his summer headquarters, are also expressing impatience over congress holding the president in Washington so long.

Notwithstanding the stringency of the national treasury, and its failure to cover current expenses by many million dollars annually, President Taft is willing for congress to appropriate \$25,000 to pay his traveling expenses. Getting a salary of \$50,000 with all the expense of maintaining himself and family at the White House paid by the government, it looks like he could afford to pay his own way when he travels.

Ex-Judge Robinson thinks President Taft is an affliction upon the Republican party.—Greenville Reflector.

Ex-Judge Robinson was an aspirant for United States District judge—the plum that went to Judge Connor. If President Taft had named him wonder if he would have had the same opinion about him or thought his appointment was an affliction upon the Republican party or the people of North Carolina?—Henderson Gold Leaf.

dent Taft the greatest man the country has ever produced.

### The Significance of Tariff Legislation.

We don't know whether our people are interested in the tariff discussion or not. They would be mightily interested if congress were deciding upon a direct tax of \$5 a year for each family, but an indirect tax of more than \$50 a year (including the extra amount collected by the trusts) collected without their knowing it, goes through with less trouble than would a \$5 tax paid personally to the sheriff. This is the evil of all indirect taxation. It breeds extravagance and graft. Our \$140,000,000 pension bill would never have reached half this sum if taxes for paying it were levied direct.

But our chief charge against the excessively high tariff now levied is that it is the exploitation of agriculture for the benefit of manufacturers. It is a continuation of the policy pointed out by Adam Smith more than a century ago—that since the downfall of the Roman Empire, most governments have greater encouragement to the factory than to the farm. The government, acting as the special guardian of those very people who cry most loudly against "paternalism," undertakes to provide such tariff duties as will provide "a reasonable profit to American industries"—meaning manufacturing. The senate of the United States itself has become, as the New York Outlook well expresses it, merely "a kind of bourse, or exchange, where a great number of special interests are trading with each other to secure for themselves, each after its kind, what each wants."—Progressive Farmer.

### The Two Sinners.

She was a woman, worn and thin, whom the world condemned for a single sin. They cast her out of the king's highway, and passed her by as they went to pray. He was a man, and more to blame, but the world spared him a breath of shame. Beneath his feet he saw her lie, but he raised his head and passed her by. They were the people who went to pray, at the temple of God on the holy day. They scorned the woman, forgave the man; 'twas ever thus since the world began.

Time passed on and the woman died; on a cross of shame she was crucified. The world was stern and would not yield, and they buried her in a potter's field. The man died, too, and they buried him in a casket of cloth, with a silver brim, and as they turned from the grave away, said, "We buried a noble man today."

Two mortals knocked at heaven's gate—stood face to face to inquire their fate. He carried a passport with an earthly sign, but the a pardon from love divine. O, ye who judge 'twixt love and vice, which, think ye, entered Paradise? Not he whom the world has said would win, but the woman alone was ushered in.—Ex.

### DELIGHTFUL NORTHERN TOUR

Personally conducted to Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, four days in New York City, at very attractive rates, via SEABOARD AIR LINE.

Mr. C. H. Gattis, D. P. A., and Mr. Jas. Ker, Jr., C. P. A., SEABOARD AIR LINE, are arranging what will certainly be the most popular and delightful Tour of the season, especially in this so as the party leave the Carolinas on September 1, 1909, the most delightful time in the whole year to go on your Summer trip, and they will visit all of the principal points of interest of the North: Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, Saratoga, Ausable Chasm four days in New York City, and Philadelphia, and all the New York Theatres will be open for the fall. An attractive feature of this Tour will be the Historic Potomac, Passing the Grand Old Palatial home of "The Father of His Country."

The tip is to be made at the lowest possible figure consistent with the first-class hotels and other things connected with the Tour, which will include railroad fare, pullman, hotel accommodations, meals, sight-seeing trips, transfers and in fact everything, with the exception of meals in New York, and a few other minor expenses, nearly all the sight-seeing trips are included. This last feature is a very good one as it will enable the party to spend their time seeing the sights without the bother of the details, which will be looked after by Mr. Gattis and Mr. Ker, both of whom have had wide experience in this branch of the passenger service. Time will be spent in Toronto during the Canadian Exposition and stops will be made at all points of sufficient length to enable the party to see all points of interest without hurrying. Mrs. Gattis and Mrs. Ker will chaperone the Tour, and ladies should not hesitate to go alone. The Tour will prove a most interesting one. A very attractive illustrated booklet containing detailed information can be had upon application by letter or in person to the undersigned, and those interested should write at once as the party will positively be limited, and those applying first will get the lower berths, so it will be to your advantage to book early. Every detail has been arranged with the view to making this a most delightful and comfortable tour for all.
