HAPPENINGS WITHIN THE OLD NORTH STATE GATHERED FROM OUR EXCHANGES TODAY

Laurinburg, Feb. 28.—The town of Laurinburg was thrown into excitement this evening shortly before seven o'clock, when it was learned that Mr. W. H. Neal, the son of ex Judge Walter H. Neal, now division counsel for the Seaboard Air Line, had accidentally shot and killed himself while returning from a hunting trip.

Clinton, N. C., Feb. 28.—As a result of a fight here in a back lot Saturday afternoon, which assumed the proportions of a riot and which the mayor and police were called out to quell, George Jones, a white man of Upper Sampson, is dead, being shot by a policeman, death resulting immediately.

Solomon Shepard, the negro who was sentenced to serve a term of thirty years in the State's prison for the murder of Engineer Holt at Durham, and who jumped from a moving work train at the convict camp near Laurinburg last Tuesday, was captured in the woods near Gibsonville in Guilford county yesterday morning by Mr. John R. Shepard, a farmer of that section, his active assistant being Chief of Police J. L. Patillo, of Durham. He was brought to Raleigh on the noon train and is in irons at the penitentiary.—Raleigh News and Observer.

New Bern, Feb. 28.—Governor Kitchin has ordered a special one week's term of the superior court for this county, to convene on Monday, March 21. The term will be for criminal cases only, and there is a large docket. The term was called mainly on account of the indictment of the mayor of the city and a number of the board of aldermen for buying and selling to the city. They insisted on being tried at the last term of court but the court could not get to the cases and so this term is called to try them. The situation here is much the same as in Greensboro, except that instead of one member of the board there are a half dozen in all indicted.

Financial Statement.

Today we begin publishing the financial statement of the county for the fiscal year ending the first of last December. The statement will be run in installments through our daily edition and appear as a whole in the weekly edition. It is of interest to every tax payer of the county, as the statement shows every item, and to whom paid, for which the public money has been expended, and also the financial condition of the county.

Good Colored Fire Fighters.

Speaking of the work done in saving property at the recent fire, the colored people are also entitled to praise for what they did. For many years Willis Clark has been captain of one of the colored fire companies, and he always handles his men well when there is fire fighting to be done. Willis is himself an indefatigable worker, and goes in for the hottest of the fight. His good work at the fire last week was noticed and commented upon by many people.

The Ladies Aid Society of the Christian church will meet with Mrs. E. L. Daughtridge Wednesday afternoon at 3 o'clock.

AYDEN ITEMS.

Newsy Notes From a Husting Town Briefly Told

Ayden, N. C., Mar. 1. We are representing the oldest and strongest Life and Fire Insurance Co. in the world. Call us and let us consult with you. Ayden Loan & Insurance Co. Phone 28.

F. C. Teopleman, superintendent of the Telephone Co., was in town Monday inspecting the new home for the exchange, and expressed himself as highly pleased with the new arrangement.

G. W. Prescott, our clever post master, has been re-appointed for the ensuing four years. Mr. Prescott was appointed to fill the unexpired term of Mr. E. V. Cox who died while in office.

This scribe has been credited with writing the Old Maid Convention sometime ago, and received an anonymous letter asking for a reproduction of same, or call another meeting of the old fair ones.

For Sale—A lot of improved Spanish peanuts at \$1 per bushel. J. M. C. Nelson, R. F. D., Ayden, N. C. 31 1st Stw

The painters are putting the finishing touch on our new post office building. Our people seem well pleased at the new quarters.

F. C. Harding, of Greenville, was attending court here Monday.

For Sale—One second hand 6-h. p. Cooper engine and boiler, mounted, one 40-saw Brown cotton gin, condenser, hand press, belts, etc. J. M. C. Nelson, R. F. D., Ayden, N. C. 31 1st Stw

We regret to learn of the sad death of Mr. N. T. Cox. This makes two vacancies caused by death on the present Board of County Commissioners. This is a double loss to our county—death, and court house and jail by fire.

Lime, cement, plaster paris and full line of hardware at J. R. Smith Co's

C. K. Johnson is confined to his room with boils.

People are going to and from Pitch Kettle seine for fish like the Israelites did to Egypt for corn in olden times. Fish are more plentiful this year, owing to the removal of set nets which allow shad to come futher up.

We hear there is some probability of a three story brick hotel being built in our town in the near future.

R. Shakeen, our Assyrian merchant, has had the interior of his store painted, which makes quite an improvement.

Guy Taylor has moved his livery business to Wingate's stables near the depot.

Jesse Cannon is suffering with a sprained knee.

A hot box at the electric plant caused the lights to wink a little Sunday night.

Call us, phone 28. Let us rent your houses and collect for you. Will sell your personal property, land, stocks, bonds, or lend you money on reasonable terms. Ayden Loan & Insurance Co.

Tripp, Hart Co. have installed some very neat floor show cases.

If you have news items, tell this scribe and help us to make this column a creditable one. Don't treat him like you do a book agent, and then wonder at the feeble effort he is making. We are not all like Josephus Daniels, we need your co-operation. R. W. Smith.

Odd Fellows meet tonight in Red Men's Hall.

KING'S CROSS ROADS ITEMS.

King's Cross Roads, Feb. 28.—H. T. Smith, of Greenville, spent Sunday with his mother, Mrs. W. S. E. Smith.

W. M. Smith went to Greenville Sunday after his wife, where she spent last week with her son, W. L. Smith.

We are glad to know that Mrs. Marcellus Smith is improving.

We are glad to say that there are several others in our section who are working for the prize in the corn club besides C. A. Tyson.

The farmers are up with their work, but we are having much rain this week.

Putting Out a Fifty-Year-Old Fire.

A mine fire that has already destroyed \$25,000,000 worth of good anthracite, and that has been burning for fifty-one years, has just been checked. This fire in the Mammoth vein of the Summit Hill basin in Northeastern Pennsylvania, was discovered on February 15, 1859. The basin according to the New York Times, is like the thumb on a man's hand, "The fire started near the end of the 'thumb,' which is 600 feet wide at the narrowest and 1,500 feet wide at its broadest point, and worked its way toward the main part of the 'hand,' where there would be almost no chance of conquering it. As the years passed the fire kept gaining, while the increased consumption of anthracite and the greater cost of mining by deep shafts made it essential that every ton near the surface be saved. Early attempts to put out the fire or block its course proved futile.

Greenville Fleeced by Picture Shows.

The changing of the old post office corner in the Proctor building for the use of the county officers, which since being vacated by the post office was, until recently, used for a moving picture show, does away with the prospect of Greenville having another moving picture show any time soon. There will be no tears shed over this, unless there was some surety of such shows being run by more honest people. With just one exception, every man who has been here to run such a show has skipped the town with unpaid bills behind, and the last one was about the worst of the bunch.

Right in the Midst of it.

There is also a good joke told on "Central" in connection with the recent fire. When there is an alarm, people in various parts of the town call "Central" to ask about the location of the fire. Being about 1 o'clock in the morning when people were aroused by the last fire, the usual calls began going to "Central." Time was taken to answer only one of them, and that was "Good Lord! Don't ask me where the fire is. I am right in the middle of it and getting out as fast as possible." It was time to be getting out, sure enough.

Greenville Tobacco Sales.

The figures furnished by Secretary E. B. Ferguson, of the Tobacco Board of Trade, of sales of tobacco on the Greenville market, are as follows:

For the month of February 439,510 pounds for \$34,891.83, average \$7.82.

Sales for the season, August 1st, to February 28th, 11,181,920 pounds for \$1,001,991.57 average \$8.96.

SAVED NEGROE'S LIFE.

From the Burning Masonic Temple Offices.

There were so many heroic deeds during the recent fire it was impossible to learn of and chronicle them all up to the minute, and every day we hear of something worthy of mention. We heard last night that while the fire was at its height in the court house and Masonic temple Mr. Roy Hearn probably saved the life of an unknown negro who had been overcome by smoke and heat and had closed himself in the law office of Mr. S. C. Wooten, it is supposed for protection. Mr. Hearne says he saw the negro go in there and after waiting a reasonable length of time he ran over at the risk of his life to see why he did not come out and to warn him of the danger, when he found him crouched close to the wall almost smothered. Just after the negro was taken out the office was enveloped in a sheet of flame which would have annihilated him in a few seconds more. Mr. Hearne did lots of cool headed fire fighting on the buildings also.

An Exhaustive Publication.

The twenty-third annual report of the Department of Labor and Printing of the State of North Carolina has been issued from the office of Commissioner M. L. L. Shipman.

The chapters of the report cover, as usual, farms and farm labor, wages of farm hands and cost of production of farm products, condition of the trades, miscellaneous factories and industries, cotton, woolen and silk mills, furniture factories, newspaper statistics and railroad employes and wages.

In addition to this, there has been added a classified list of factories, the labor laws of the state, and a resume of the reports issued for the past ten years, and other interesting information.

Taken all in all, the publication represents a deal of crystalized information, evidencing a lot of patient and careful work.

All Smiling Again.

Central being in working order again after several days hard work, causes smiles to play on the genial countenance of Mr. J. W. Stricklen and the others of the construction force of the Home Telephone and Telegraph Co. The boys say the reparation of the 'change in so short time was record work.

Not a Spring Poem.

The Reflector came near catching a poet this morning. While the editor was out at the post office, some one slipped into his arm chair, left the following verse on his desk and departed without disclosing his identity: Hark, hark, the dogs do bark, The drummers come to town; Some with jags, some with bags, And some with golden crowns.

J. B. Cherry has moved into one of the houses of the Sutton heirs on Sutton lane, and W. M. Pugh has moved to the Swindell house, corner Greene and Fourth streets, vacated by the former.

Odd Fellows will meet in Red Men's hall tonight at 8 o'clock, sharp. All members are requested to be present as there will be business of importance to come up. A. C. Honaman, N. G.

Since the fire Mrs. W. R. Smith has moved her boarding house to one of Miss Leila Cherry's houses, on Greene street.

Owing to sickness in his family Mr. R. C. Deal will not preach at the Presbyterian church tonight as previously announced.

Instead of the C. W. B. M. of the Christian church meeting on Wednesday afternoon as announced in Monday's paper, it will meet Friday afternoon.

C. C. Pierce now has his law office in the room with J. W. Ferrell, adjoining Carolina Club rooms in second story of Phoenix building.

Quite a number of insurance adjusters were here today looking after losses. The promptness with which losses are being adjusted helps out the fire sufferers.

Mrs. Jenkins, who lives on the corner of Evans and Second streets, requests The Reflector to express her thanks to all who helped to save her home from the recent fire.

I would like to find two heavy oak chairs that were removed from my office during the fire.

Spiders as Aeronauts.

Spiders cannot actually fly, but the young of many species are expert aeronauts. When on some autumn day these little adventurers prepare to start they stand on some high point of vantage, facing the wind. Then the tip of the tail is raised, and little spinnerets emit threads, which are caught and carried by the breeze. These vary in length with the weight of the spiders and are buoyant enough to bear their owners aloft for a considerable distance. The glittering filaments which are thus spun and ultimately settle on the ground and bushes are familiar to us all as "gossamer" and are produced by many species of these most interesting insects. Some spiders again are expert leapers. A beautiful example of this sort has been found at Sydney, New South Wales. It has a curious flap on either side of its body, which can be extended like a kite or parachute. Aided by this, it can readily cover short distances, though we cannot speak of this method of motion as real flight.

Stolen Joke.

The shade of the ice baron had introduced himself to Charon on the river trip.

"Quite a roomy bit of water, this Styx," he commented. "Never freezes over, does it?"

"Not so's to interfere with navigation," said Charon smilingly, "and, by the way, that very fact gave Mephisto the idea for his favorite joke."

"You don't say! What's the gag?" "Why, when a guest in hades complains of the scarcity of ice the old boy explains that it's due to the unprecedented perversity of the past winter!"—Buffalo Times.

Obedient Bobby.

"Bobby, my son," exclaimed the dismayed mother as she saw all her boy's belongings stacked in a corner of the closet, "haven't I tried over and over to teach you that you should have a place for everything?"

"Yes, mother," said the boy cheerfully, "and this is the place."—Ladies' Home Journal.

TUESDAY, MARCH 1, 1910.

The rains now are making up for what we did not get last fall.

If March does like it ought to, it will give us the last of winter and the first of spring.

What Greenville has lost by fire early in the year, she must more than regain before the year is gone.

Nevada has refused to accept those old North Carolina bonds that were tendered on condition that suit be brought against this State to recover them.

The Durham Sun has just celebrated the completion of its twenty-first year. While all those years The Sun has been under the leadership of J. A. Robinson, who made it one of the State's most creditable afternoon papers, it has recently been turned into a stock company, and an order placed for a new press and linotype machine. When these are installed The Sun will shine more brightly than ever.

The thing that Pitt county ought to do now is issue bonds sufficient to purchase the entire block adjoining the county property and erect a handsome modern court house in the centre of the square surrounded by a beautiful lawn. We hear of people from various parts of the county expressing themselves favorable to this step. The county is well able to make ample provision for carrying on its business and to provide proper protection for records.

Tobacco.

The Chronicle is situated in the cotton fields, but a little further north of it, and in its territory, the cotton fields give way to tobacco fields. Jump on any northbound train and by the time one reaches Greensboro, the cotton fields will have been left behind—the gin houses will have given place to the tobacco barns. Cotton and tobacco are the two great money crops and city-builders of the State. Both cotton and tobacco are peculiar to the South. Some tobacco is grown in eastern States. All cotton is grown in the South. Winston will this year coin \$17,000,000 in cash from the manufacture of plug tobacco. The tobacco business of this country is enormous. The tobacco crop of the United States in 1908 was seven hundred and eighteen million pounds, valued at seventy-four million dollars; the value of domestic manufacturers, according to the census of 1905, three hundred and thirty-one million; the revenue derived from domestic tobacco in 1908, fifty million and the total duties collected on imported tobacco in the fiscal year 1909, twenty-three and one-

fourth million. The United States leads the world as an exporter of tobacco, having supplied over forty-one million dollars in a total of approximately one hundred and fifty million dollars worth of tobacco and manufactures which entered international markets last year. Of this big exportation, it would be interesting to know what Winston has furnished in the way of plug tobacco and Durham and other leaf markets, in the way of smoking tobacco. It is safe to say that the export business in this State will figure into the millions.—Charlotte Chronicle.

I'm makin' er dollar er minute keepin' the crowds out o'n Bre'r Fox's field." This, you remember, was how the roguish Bre'r Rabbit explained to Bre'r Bear for being caught up in a snare at the end of hickory sapling. We have no plan for making a dollar a minute, but there are thousands of farmers who could make a dollar an hour by determined study and effort to master the simple facts about fertilizers. Why not do it? It's just as much a disgrace to be lazy-minded as to be lazy-bodied. You drive your body to work whether it is willing or not; now try driving your brain as well.—Progressive Farmer.

Duncan is in the saddle again if he ever was dethroned. He and Hitchcock are running the North Carolina end of the Federal patronage business. It is said that both Attorney-General Wickersham and the president told Skinner to rest easy and go home, that he would be reappointed, yet Duncan landed his man Seawell as district attorney and W. W. Rollins goes back as postmaster at Asheville. Looks like Hitchcock is a bigger man than Taft.—Greensboro Record.

Catarrhal Asthma and Hay Fever.

Tens of thousands of sufferers from hay fever and catarrhal asthma find great comfort and quick relief by breathing Hyomei.
 Of course where asthma is not caused by a catarrhal condition, but by nervous contraction of the bronchial tubes, Hyomei is not recommended.
 But in a case of asthma where there is a discharge of mucous, breathing Hyomei gives most wonderful relief by soothing the irritated and highly inflamed membrane.
 Mr. W. A. White, R. F. D. No. 1, Evansport, writes: "I have been bothered with asthma for over five years but could not get any relief until I tried Hyomei. I have spent lots of money on remedies for asthma and if I could not get another bottle I would not be without Hyomei for \$50. I recommend it."
 A complete Hyomei outfit, including hard rubber pocket haler, costs \$1.00 with instructions for use in hay fever and asthma. Extra bottles of Hyomei cost 50 cents at druggists everywhere and at Coward & Wooten.
