HAPPENINGS WITHIN THE OLD NORTH STATE GATHERED FROM OUR EXCHANGES TODAY

Newsy Items of Interest Condensed for
Busy Readers.

The Democratic State Executive Committee has been called to meet in Raleigh on Friday, March 11, at 8 o'clock, in the Senate chamber, the call having been issued by chairman A. H. Eiler, of Winston-Salem. At this meeting there will be settled the place and time of holding the next Democratic State Convention. At this meeting of the committee there will also be submitted the revised rules of the party as to uniform time of State primaries and conventions in the various counties of the State.

The Wilkesboro Patriot learns that a baby boy without arms was recently born to Mr. and Mrs. Solomon Sparks, who live in Edwards township, Wilkes county. The child is well formed every other way, but the body is perfectly smooth where arms should be.

Information secured this morning practically corroborates the statement that the government, in all probability, will make a national reservation of Fort Fisher. This proposition has been in abeyance pending an investigation of the matter, and subsequent report, by Captain Earl I. Brown, in charge of the United States engineers office here. Rev. J. A. Smith, of Wilmington, and Mr. B. F. Seelye, of Uica, N. Y., the former a Confederate veteran and the latter a survivor of the Union army, were seen this morning. They stated that Captain Brown had informed them that he had virtually completed his report and that it will be favorable to the proposition—Wilmington Dispatch.

Winston-Salem, N. C., March 9.—Luther Petree, a young Stokes county farmer, has entered into a contract to walk a slack wire across the Yadkin river Donnaba, Easter Monday. Petree has been practicing wire walking for several months and will win a big prize if he is successful Easter Monday.

New Bern, N. C., March 9.—The New Bern district conference will convene at Snow Hill, on Monday evening, March 14th, at 7:30 p. m. The opening sermon will be preached by Rev. J. B. Hurley, of New Bern.

New Bern, N. C., March 9.—This morning at the Clay Pit, three miles from New Bern, V. R. Wood, a guard was struck with a brick and knocked senseless by one of the county convicts, his gun was taken from him and four out of the nine convicts at work made their escape, taking the gun with them. Wood soon recovered, took the five remaining convicts back to the main force and reported the escape. The convicts were all colored, most of them having long terms to serve. The officers have made every effort to recapture them but at a late hour it is reported that they are making toward Wilmington. Wood was only slightly hurt and was on duty this afternoon.

Charlotte has placed a force of detectives in plain clothes on her streets to break up purse snatching from women and children, which has gotten to be so common there it is dangerous for them to go out unattended.

MR. SMALL WINS A VICTORY.

Amendment to the Post Office Bill
Increasing the Appropriation.

Washington, March 8.—Representative Small introduced an amendment to the post office appropriation bill providing \$1,500,000 instead of \$285,000 over the regular annual sum. This afternoon he had the good fortune to have it passed regardless of the opposition of the house organization.

Mr. Small contended that the amount recommended by the committee was inadequate and the increase necessary in order to properly maintain the service and meet the normal demands for extension, and the establishment of new routes. He made an appeal for the rural delivery service. Among other things he showed that in 1897 there were 82 rural routes while today there are 41,150, and the demand is growing, and that on January 1 there were 977 approved routes ready for installation, not one of which has been established. Mr. Small argued that the amount called for in his amendment was the very least sum which ought to be appropriated. He charged that the post office department had discriminated against rural routes. Mr. Small was the only member of the post office committee that joined in the fight for the maintenance of the rural service. He won quite a victory.—Charlotte Observer.

Bethel Has B. & L. Association. Superior Court Clerk D. C. Moore has received papers to be recorded of the incorporation of the Pitt Building and Loan Association at Bethel. The charter prescribes the limit of shares in the association of 2,000, business to begin when 75 shares are subscribed. The 75 shares are subscribed and business will begin at once. We are glad to note this evidence of prosperity in Bethel, and such an association there will promote the advancement of the town.

J. M. Ruess & Co. Phone No. 113. See ad of J. M. Ruess & Co., on 4th page and cut out coupon and paste on your telephone directory for future use in ordering fancy groceries, bread, cakes, fruits, etc. Their phone is No. 113—which is not in the directory as it was put in yesterday.

School Invitations. The Reflector Printing House has a beautiful line of samples for school commencement invitations, and will be glad to quote prices to schools wanting them. The samples cannot be sent out, but may be seen at this office.

Mr. C. C. Shores, deputy sheriff of Richmond county, arrived in the city this morning, having in charge three boys who had escaped from the Stonewall Jackson Training school, near Concord. The boys were being taken back to school. They escaped several days ago, and were arrested yesterday in Rockingham. John Russ, Frank Pate and Coleman Caudle are the names of the runaways. They were found at the home of the Caudle boy's father, arriving there yesterday morning, tired and hungry. The father of Caudle told the boys to come in, and he gave them something to eat. While the boys were resting he went out and reported the matter to the officers who came and placed the boys under arrest.—Charlotte News.

Trade Report.

Richmond, Va., March 10.—Bradstreet's Saturday will say for Richmond and vicinity: Conditions in general trade are good, however, a tendency toward dullness is noted in some lines. The manufacturing and jobbing paper trade report larger orders and active inquiries. Manufacturers of trunks, bags and leather novelties report active sales. Produce is quiet, apples are scarce and high. Sales of leaf tobacco continue large and prices ranging up to forty cents per pound are reported. The dry goods market is fairly active. Dealers in hats and caps report increased sales. An active demand for scrap iron and metals is noted. Fertilizers are reported moving more satisfactorily, however, the season is late. Retail trade is quiet. Collections are fair to good.

MONEY IN HOGS.

Invested \$200 in Hogs and Pasture and
Made \$600 Clear Profit.

The Groover Brothers, of Bullock county, Georgia, have been growing pork for several years at a cost of 1½ cents to 3 cents per pound on a free wood range and pastures of velvet beans, soy beans, ground peas, field peas and sweet potatoes. Their stock of hogs is a mixture between Berkshire and the common breeds. They run at large in the swamps during the spring and early winter, feeding on herbs and grasses. In August they are turned into the potato fields and transferred to the peanuts and cowpeas as these crops ripen. The porkers are sold from September to December in the city of Savannah at from 7 cents to 11 cents per pound. The breeding hogs are kept throughout the winter on the velvet bean pods which are very hardy and do not decay for several months. Nothing is harvested—the hogs being allowed to graze on all the crops.

The peanuts, cowpeas, velvet beans and soy beans for fall and winter pastures are usually planted in rows in the corn middles and after the corn is harvested the hogs graze off the remainder. Potatoes are planted in a separate field early in the spring and are ready for grazing in July and August.

By following this system for the last eight years these farmers have found that pork can be raised at from 1½ cents to 3 cents per pound. In 1907 they invested \$200 in hogs and pastures and received a return of \$800, a profit of \$600.

Most of these hogs were pastured in a field of seven acres, which was grown in corn, cowpeas and velvet beans. The profit on the hogs, however, was not all the profit, as the improvement of the land in this field increased the yield of cotton in 1908 one half bale per acre over what the same field produced in 1906 with the same seed, method of cultivation and fertilization.—Raleigh (N. C.) Progressive Farmer and Gazette.

Supreme Court Decisions.

In the State Supreme court yesterday the following cases of interest to Pitt countians as reported by the News and Observer were handed down:
Ford vs. Manning, Pitt county. No error. Hoke, J.

1. Proceedings to lay off a cartway. Held, that there is a right to award a cartway over the lands of another, in favor of an individual citizen, when the necessity for it exists and in a manner reasonable and just.

2. Held, that the order not being made at one of the public meetings provided for in section 2712 Revisal, but at a special meeting does not render it invalid and void.

3. Defendant also assigned as error that the township had not its full quota of qualified justices of the peace of the township duly qualified and not of all the justices of the peace the township may be entitled to.
Henderson vs. Lumber Co, Pitt. Affirmed.

NO REWARD FOR PEARY.

Congress So Decides—At Least, Not Until He Provides the Evidence.

Washington, D. C., March 9.—Until Commander Robert E. Peary furnishes proofs that he discovered the North Pole no reward will be bestowed upon him as the result of a practically unanimous vote of the sub-committee on Naval Affairs today. A speech in opposition to the proposition of honoring Peary was made by Representative Macon, of Arkansas, before the committee.

Representative Macon declared to the committee that the explorer could not have made the distance he said he did in the dash for the pole. Mr. Macon said he was "indignant at the thought of being called upon as a representative of the American people to confer a high honor upon any one of its citizens in the dark." All legislation by congress, he said, ought to be open and above board.

"I confess that I am exceedingly skeptical about Mr. Peary's ever having discovered the pole," declared Mr. Macon, "and I am going to protest against any honor being conferred upon him by congress until he has established beyond reasonable doubt that he did discover it, and it must be established in the open court and not in the dark."

Another Bank at Farmville.

Here is more evidence of Pitt county going forward. Wednesday's charters issued by the secretary of State embraced one for the Citizens Bank of Farmville, with authorized stock of \$25,000, business to begin with \$11,000. This makes the second bank for Farmville, and the ninth in the county. Pitt county is certainly coming to the front, and that Farmville has business enough to support two banks speaks well for the town.

THURSDAY, MAR. 10, 1910.

There are too many crazy people at large.

Watch Pitt county and you will hear more from it.

Looks like the strike situation will keep growing until much of the country gets involved.

The announcement that cotton seed oil is a good substitute for meat, may hit the trust a lick.

When the new court house and the public buildings are erected, there will be two pretty squares opposite each other.

Mr. Rockefeller can give away as much as he wants to, and then have many more times as much left as the rest of us have.

The Pope has added his blessing to John D., but the latter has not given out any statement as to how much it measured his assets.

The inequalities of land values in the various counties of the State brings to mind the fact that a State board of equalization would not be a bad thing.

It will be well for the Board of Aldermen to co-operate with the Woman's Civic Club, and a good way to begin is by placing metal garbage cans on the streets for public use.

They are not always particular about the entitlement of a man when it comes to a lynching. The last victim in Mississippi was a negro preacher. His offense was shooting an officer who went to collect a bill from him.

The Woman's Civic Club is just making a start in Greenville and you may expect great things to be accomplished for the beautification of our little city through it. Similar organizations have done great work for other towns and our women can't be surpassed when it comes to doing things.

They are coming right out now and charging that Peary never reached the North Pole. Just what we have thought all the time. About all the report Peary got is what he purloined from Cook's papers, and as the latter did not pass examination Peary sees that his will be less likely to do so, hence they are not submitted.

In charging the Henderson county grand jury, Judge J. L. Webb said that the payment of poll tax for one man by another,

IF YOU ARE A TRIFLE SENSITIVE About the size of your shoes, it's some satisfaction to know that many people can wear shoes a size smaller by shaking Allen's Foot-Ease, the antiseptic powder, into them. Just the thing for dancing parties, patent leather shoes, and for breaking in new shoes. When rubbers or overshoes become necessary and your shoes pinch, Allen's Foot-Ease gives instant relief. Sold everywhere, 25c. Sample free. Address, Allen S. Olmsted, Le Roy, N. Y. Don't accept any substitute.

for the purpose of securing the right of the one to vote, subjects both parties to indictment for bribery. Commenting on this the Wilmington Star says:

Any one who has anything has to pay poll tax. If he can't pay, he does not benefit by having it paid for him. Where, then, is he guilty of accepting a bribe?

Who Would Get It?

A correspondent asks the New York Times the following question:

"I observe that Senator Aldrich says if he could run this government on business principles he could save \$300,000,000 a year. Possibly, but if he did, who would get the money?"

No prize is offered for the best answer but almost anyone may gain profit for himself if he will study the question for a little while.—Raleigh Evening Times.

Health experts are somewhat like the Dutchman who said—"Vat I says day after tomorrow I forgets day before yesterday." In a noted trial in court here some years ago they all declared that running water would purify itself every four hundred feet or may be four hundred yards; the difference is immaterial, yet the State Board of Health sends out a notice that the water supply of a certain town is in danger of contamination from another small town over twenty miles away.—Greensboro Record.

Stomach Misery for Over 6 Years.

Read what Mr. Hoffman, landlord of the Webster Hotel, writes: "I suffered misery and intense pains from stomach trouble for over six years, and all the doctoring that I did or medicines I used were of no avail until about two years ago, when I used a treatment of Mi-o-na. The first few days' treatment helped me greatly and upon using it a while I was made entirely free from any stomach trouble or complaint whatever. Since the cure by Mi-o-na I have regained my weight, I eat and sleep well, am never nervous, and my entire general health is much better.—Max M. Hoffman, Webster, N. Y., Aug. 2, 1909.

Mi-o-na stomach tablets relieve distress in five minutes. They act like magic. They are guaranteed to cure sour stomach, gas eructations, heartburn, dizziness, biliousness and nervousness, or money back. For sale by druggists everywhere and by Coward & Wooten for 50c a large box. Try Booth's Pills for constipation; they never disappoint, 25c.

Salvage Fire Extinguisher

Fire Department statistics show that some eighty per cent. of all fires are extinguished by chemical apparatus.

Nearly all fires are discovered at the start and are readily put out if means are at once available.

A stream is thrown to a distance of about fifty feet, carrying a large amount of carbonic acid gas, which excludes the oxygen and prevents combustion.

A fire cannot live if a small per cent. of carbonic acid gas is in the air.

It is forty times as efficient as water and will extinguish fires of oil, naphtha, gasoline, etc., which water only spreads.

Protect your home and property before it is too late.

LIFE'S UPS AND DOWNS.

The Magnificent Revenge of a Governor of Missouri.

While Robert Stewart was governor of Missouri a steamboat man was brought in from the penitentiary as an applicant for a pardon. He was a large, powerful fellow, and when the governor looked at him he seemed strangely affected. He scrutinized the man long and closely. Finally he signed the document that restored the prisoner to liberty. Before he handed it to him he said, "You will commit some other crime and be in the penitentiary again, I fear."

The man solemnly promised that he would not. The governor looked doubtful, mused a few minutes and said:

"You will go back on the river and be a mate again, I suppose?" The man replied that he would.

"Well, I want you to promise me one thing," resumed the governor. "I want you to pledge your word that when you are mate again you will never take a billet of wood in your hand and drive a sick boy out of a bunk to help you load your boat on a stormy night."

The steamboat man said he would not and inquired what the governor meant by asking him such a question.

The governor replied: "Because some day that boy may become a governor, and you may want him to pardon you for a crime. One dark, stormy night, many years ago, you stopped your boat on the Mississippi river to take on a load of wood. There was a boy on board who was working his passage from New Orleans to St. Louis, but he was very sick of fever and was lying in a bunk. You had plenty of men to do the work, but you went to that boy with a stick of wood in your hand and drove him with blows and curses out into the wretched night and kept him toiling like a slave until the load was completed. I was that boy. Here is your pardon. Never again be guilty of such brutality."

The man, cowering and hiding his face, went out without a word. —Exchange.

Same Way. "How did you find dear old Broadway?" "That way yet."

"What way?" "Old and dear."—Cleveland Leader.

SPOILED ITS EFFECT.

A Speech to the Jury That Was Effectively Answered.

A well-known English barrister whom we will call Mr. K., was a most eloquent speaker, and his voice, particularly in its pathetic tones, was melody itself. His power over a jury was astonishing, and it was very seldom that he failed to secure a verdict for his client.

On one occasion, however, he was beaten and in such a ridiculous manner that a crowded court and even the grave judge were convulsed with laughter at the burlesque of the result.

The case was a charge of murder. Mr. K. was for the defense. His peroration was exceedingly touching and beautiful.

"Gentlemen of the jury," said he, "If you can find this unhappy prisoner at the bar guilty of the crime with which he is charged after the arguments to the contrary which I have laid before you, pronounce your fatal verdict. Send him to the dungeon, awaiting the death which he is to receive at your hands. Then go to your families, lay your heads on your pillows—and sleep, if you can!"

The effect of the closing words was really thrilling. But presently the counsel for the prosecution rose and said:

"Gentlemen of the jury, I should despair, after the affecting speech which has been made to you by my learned brother, of saying anything to do away with his eloquence. I never heard Mr. K. speak that better than when he spoke it now. Once I heard him speak it in a case of stealing at Leeds and again in a case at Manchester, and the last time I heard it was when two men were tried for pocket picking. But I never knew him to speak it so affectingly as just now."

This was a poser. The jury looked at one another, whispered together, and the speaker saw instinctively that he had them. He stopped at once, closing with a single remark:

"If you can't see, gentlemen of the jury, that this speech fits all cases then there's no use my saying anything more."

And there wasn't. He had made his case and got his verdict.—Exchange.

Don't Neglect Headache.

"In young children headache should never be neglected," says the Hospital. "It is a more significant sign in them than in older persons and may indicate the onset of acute or dangerous disease. In some instances it is the result of educational pressure. Many an adult suffers from headaches as the result of premature strain on the brain during school life."
