PORTUGAL MONARCHY FALLS BEFORE INSURRECTIONISTS.

FLAG OF REPUBLIC FLOATS IN PUBLIC PLACES.

Army and Navy Deserts and Joins Insurrectionists—Many Dead and Wounded.

By Cable to The Reflector.

Paris, Oct. 5.—The Portugal monarchy has fallen, and the green and blue flag of the republic floats over the palace of Barganzas. Information that a short and bitter revolution in Portugal has resulted in victory for the insurrectionists, and that the Portuguese army and navy had deserted the royal standard and joined the uprising, was brought here today by automobile from the frontier. All telegraphic communication with Lisbon was cut off. Many are reported dead, not only in Lisbon, but in other cities where outbreaks of violence occurred.

A wireless report from Santander said the warships had hauled down their own colors and raised the flag of the republic, and then bombarded the city. The same wireless message also says the flag of the republic floats above the arsenal barracks and other public buildings in Lisbon. The fate of King Manuel and the Queen mother is unknown. Apparently the insurrection was a direct result of the murder of Prof. Bombarda. He died yesterday after being shot by a lieutenant in the army. The revolutionists became frenzied and swept the city, soldiers joining them when they saw the strength of the movement.

Paris, Oct. 5.—Lisbon, the capital of Portugal, fell into the hands of the revolutionists at 3 p. m. yesterday. King Manuel, according to the latest reports, fled from his palace and took refuge on the Brazilian gunboat San Paola. The revolution today is sweeping the nation like wild fire and the conflagration threatens any minute to sweep over the border and engulf the neighboring kingdom of Spain.

TWO LARGE DOCUMENTS.

To Be Recorded in Pitt County—Several Days Work.

Register of Deeds W. M. Moore, has just received two large documents to be registered, that will require several days to get them properly entered upon the records of the county.

One of these is a mortgage covering 80 printed pages, and is from the Norfolk Southern Railroad to the Central Trust Company of New York as trustee, and is to secure \$12,000,000 of 5 per cent bonds payable in January, 1960.

The other is a deed of 13 printed pages from the United States Trust Company of New York to the Farmers Loan & Trust Company. The Atlantic Coast Line being a party to this deed and the conveyance covering property of the latter, it had to be recorded in this county.

THE BOYS MUST HUSTLE.

Here is a Corn Contest Record Hard to Beat.

Mr. T. R. Moore, one of the committee for measuring one acre crops in the boys' corn growing contest in this county, tells us that he went out in Beaver Dam township, Monday, to measure an acre for G. T. Tyson, Jr. An accurate measurement of an acre cultivated by young Tyson showed a yield of 69 bushels. This is a record that is going to be hard to beat.

THE MIGHTY HAAG SHOWS.

Will Give Two Performances in Greenville Friday, Oct. 7th.

Although the weather was very unsettled yesterday, the Mighty Haag Shows gave two performances, afternoon and evening, and at each performance the shows received a large and well deserved patronage. The acrobatic performances were of a high class, there being stunts not usually seen in these shows. The show also has a fine lot of ponies and monkeys to please the children besides the herd of performing elephants, tigers, hyenas, bears and several other animals, including the horned horse. In fact that show is one of the cleanest and best ever exhibited here.

Mr. Haag the owner of the show, is a very pleasant southern gentleman, his home being in Shreveport, La., and he is connected with several enterprises in that city.

If any show deserves patronage in the south, it is owned by southern people, and those visiting the Haag Shows may rest assured that they will receive fair treatment and get their money's worth.

The show leaves the city this morning for Mockville, where two performances will be given tomorrow.—Winston-Salem Journal.

FIRST ANNIVERSARY OF TRAINING SCHOOL.

APPROPRIATE ADDRESSES ON THE OCCASION.

Growth of Institution Requires Additions to Faculty—All Instructors of First Rank.

Today was the first anniversary of East Carolina Teachers' Training School, the institution being first opened to students October 5th, 1909. While there was no special pre-arrangement for celebrating the anniversary, the chapel exercises this morning bore reminders of the event and were in keeping with the occasion.

After the usual devotional exercises had been conducted by President Wright, an interesting talk was made by Prof. W. H. Ragsdale on "Educational Progress in Eastern North Carolina for Ten Years." He showed the wonderful progress that had been made not only in the schools of Pitt county, but also throughout all the eastern section of the state.

Ex-Governor T. J. Jarvis was also present, and gave a history of the establishment of the Training school that was both interesting and amusing. He referred to the hard and faithful work done in getting the school located in Greenville, and pointed numerous obstacles that were overcome.

This school grows better all the time, and its excellent work is inspiring. Mention was made at the opening of this, the second session, of the faculty at that time, but the student body has so grown in numbers that additions had to be made to the faculty, and the new ones, like those coming before them, are instructors of the very highest rank in their respective lines.

Miss May R. E. Huffly, of Baltimore, a graduate of Peabody Institute, has arrived to take charge of the department of public school music and voice culture. She was here during the summer school, and her work then charmed all who saw it.

Miss Elizabeth Pugh, of Galion, La., has come to take charge of the domestic science department. She is a graduate of Stout Institute, at Menomonee, Wisconsin.

Miss Orpah Dabney, a graduate of the teachers' college of Columbia University, New York, will have charge of the department of primary methods and give special training in this work.

There is not an institution anywhere that has a better equipped faculty than East Carolina Teachers' Training School, and it is sure to rank as North Carolina's leading school.

LIEUT. COTTEN AND BRIDE.

Arrive in New York on Lapland—Will Go to Their Home in Baltimore.

New York, Oct. 4.—Among the passengers on the Lapland, arriving in New York harbor today, were Lieut. tenant Bruce Cotten and his bride, who was Mrs. Edith Johns Tyson.

Lieutenant Cotten is wealthy but likes the army. He was stationed in the coast artillery at Fort McHenry, near Baltimore, when he met the beautiful and rich Mrs. Tyson. Last July Mrs. Tyson sailed for England. There was no engagement between them. Lieutenant Cotten got leave of absence and followed her in a week. He courted her so ardently in England that she finally consented to marry him. They were married at Tunbridge Wells. Lieutenant and Mrs. Cotten will go immediately to their home in Baltimore.

PULLEY & BOWEN'S OPENING.

Exquisite Display of the Season's Styles.

There are hats and hats, but they alone do not make up the beauty of woman's adornment. So at Pulley & Bowen's opening fall display today there were not alone the very newest designs in trimmed hats of all shapes but also an array of elegant silk dresses and tailor-made suits that would do credit to a city store. This enterprising firm knows the needs of their trade, and in selections have an eye to get the very best that the fashion centres can produce.

Smith, of Smithtown, met the misfortune of getting his left foot cut off by a mowing machine last Wednesday, while his brother, Leslie, was cutting hay. MRS. L. F. LEE & CO'S. OPENING

One That has Never Been Surpassed in Greenville.

Those who visited the fall millinery opening of Mrs. L. F. Lee & Co., today, saw marvels of beauty in the milliner's art. There was the largest and most attractive display of hats that have been shown here in any season, and they are of the very latest models and styles. The opera caps, Hindu caps, feather turbans, white beavers, and the Persian and tapestry trimmings were certainly beautiful, and the various varieties of children's headwear were dreams. Mrs. Lee certainly chose well in selecting styles for the season, and is to be congratulated upon this excellent display.

Frost.

The great shows will be here Friday. Take notice and govern your hay operations accordingly. A light frost will follow the show in less than a week. Just wait and see.

Love starts a family; it takes cash to keep it going.

FORTY KILLED IN COLLISION OF TRAINS.

DUE TO EMPLOYMENT OF GREEN CREWS.

Old Employees Apprehended Accident and Refused to Take Out Trains While the Green Crews Were On.

By Wire to The Reflector.

Stanton, Ills., Oct. 5.—From the meagre information that has oozed out of Illinois Traction Co's office at Springfield it appears that a crash, which occurred between two trains near here late yesterday, in which forty people were killed, was due to the employment of green crew, which either did not know the signal system or disregarded it. The crew failed to wait at the siding as ordered for another car. It is said the old employees have been expecting an accident for several days and some of them had refused to take out cars while the green crews due to handling fair traffic were on.

SEPTEMBER TOBACCO SALES.

Small Decrease in Pounds but Large Increase in Price Over Last Year.

Secretary C. W. Harvey of the Greenville tobacco board of trade, gives us the following figures of the sales of leaf tobacco on the Greenville market:

For the month of September 3,415,031 pounds, at an average price of \$10.06 per hundred pounds.

For August and September combined 3,742,144 pounds at an average price of \$9.77 per hundred pounds.

For the months of August and September last year the sales were 4,423,011 pounds, at an average price of \$7.65 per hundred pounds.

These figures show a decrease in pounds from last year of 680,867, but an increase in average price of \$2.12 per hundred pounds. The smaller quantity of pounds sold this year than last is due to the fact that last year the market opened on the 3rd of August, while this year it did not open until the 18th, two weeks later.

Advance Sale of Dixon Play.

There is every indication of a record breaking advance sale for the new Thomas Dixon play, "The Sins of His Father," which will be seen at the Lyceum Theatre, Wilson, N. C., on Wednesday, October 12. Already there is a heap of mail orders stacked up in the manager's office, which will be filled in order of their receipt directly the line at the box office has been served. Many playgoers have hired messengers to secure early places in the line, and very many others will go in person in order to pick out the best reservations. So great a rush is anticipated that the management has felt obliged to put on an extra force for the sale, which opens on Thursday, October 6th, at 9 o'clock. Judging by the enormous crowds that attended the first presentation of Thomas Dixon's previous work, "The Clansman," the house will be packed to the doors at all the performances.

NORTH CAROLINA NEWS.

Gathered From Our Exchanges Today of Events Just Happened.

Within sight of his home, J. S. Lyda, a prosperous farmer of the Fruitland section of Henderson county, and a man of about fifty-four years of age, was shot and instantly killed yesterday morning by his son Meredith Lyda. The young man fired three shots at his father, two of these taking effect. One entered the head of the old man just above the left eye, and the other at the outer corner of the right eye.—Asheville Citizen.

Waynesville, Oct. 3.—Last evening about 6 o'clock a very brutal homicide occurred on Main street, almost in front of the Bank of Waynesville, where Green killed Browning last January. The killing last evening was done by Mary Lenoir, a negress, and her victim was Henry Wright, a negro brick mason. Five shots were fired from a Smith and Wesson 32-calibre pistol by the enraged negress, each one taking effect in the neck and chest of Wright.

Mr. Elias Carr, of the State department of agriculture, returned from Cincinnati, O. Sunday night, where he had been packing the North Carolina exhibits which were shown at the recent Ohio valley exposition. North Carolina had the largest exhibit of any of the South Atlantic States and was most highly complimented by the thousands of visitors, and will doubtless attract many home-seekers to this state.—Raleigh Times.

High Point, Oct. 4.—The town was shocked this morning to learn that Col. D. F. Maddox was dead, his own hand having inflicted the wound which proved fatal while he was sitting in a rocking chair on the veranda of his residence on Virginia avenue. At 9.45 o'clock boarders at the Payne boarding house, just around the corner, heard the report of a pistol and rushed to the scene, reaching the spot about the time members of the family did and finding the colonel lying across the porch in a pool of his own blood, which was flowing freely from the mouth. His head was banging off the porch. He breathed only a few times.

Heard of Bluebird?

Of course you have—the old legendary fellow that had so many wives and treated them so dreadfully?

Well, there's another "Bluebird"—one made famous by Helen Ware in the military drama, "The Deserters" now playing at the Hudson Theatre in New York city. This "Mr. Bluebird" is a song and the song is a "dandy." The words are great and the music has a "swing" that makes the listener feel he has heard "real music."

By special arrangement the words and score of "Mr. Bluebird" will go forth as a free feature of next Sunday's New York World. Order from your newsdealer in advance.

WEDNESDAY, OCTOBER 5 1910

While some cotton is being sold, much of it is being held for a higher price.

They are now at work trying to invent slot machines that will dispense groceries and lunches.

It makes little difference what the census report says about it—every one in Greenville is here.

If Greenville even had a near-factory feeling there would be more to brag about.

It does not take much to provoke a bad negro. One stepped on another's toe in Charlotte, and bang went the gun.

If the government keeps up the scrubbing it may succeed in cleaning out the bucket shops.

We see no use of Mr. Hearst entering a denial that he is a Republican. The general public cares little about what he is.

The Reflector is of the opinion that Greenville is making better progress today than any town in Eastern North Carolina.

The Charlotte News uttered this in one breath: "Today we have cloudy weather, mosquitoes bill collectors and Marion Butler to contend with."

Mr. Roosevelt is about to embark on a trip through the South. Just watch and see if it don't mean Roosevelt delegates to the next Republican national convention.

The president of Tufts College, in Massachusetts, has come out with the assertion that unmarried women teachers should be barred from girls' colleges because their influence is harmful. Wonder if he is an old bachelor.

What Atlanta cannot figure in is hardly worth noting. It is claimed that one of the recent battleship victims had relatives living in that city. If the Los Angeles dynamiters are ever captured, it may develop that once upon a time they passed through or near Atlanta.

If men have so little judgment as to drive an automobile in a race with death for no other reason than to make a speed record and get the plaudits of a gaping crowd, their friends left behind need not be surprised if death wins.

There has been no more infamous act of anarchism in this country than the recent wrecking with dynamite of the building of the Los Angeles Times, in which a score of people lost their

lives. Rewards aggregating one hundred thousand dollars have been offered for the perpetrators of these crimes, and police and detectives are making every effort to find them.

Democrats who voted for Roosevelt wish they had voted for Bryan. Democrats who voted for Taft wish they hadn't. The Democrats who voted for Senator Lorimer wish they hadn't been caught at it. The best way to do is to keep your politics straight and have fewer regrets as the result of inconsistency. Fewer men will want to kick themselves if they remain true to their political principles—if they have any. If they haven't got any they ought to get some and keep them. —Wilmington Star.

An Appeal.

Last week the secretary of the State board of health received a letter in which the following facts were set forth: The writer was an orphan girl and judging from neatness, arrangement, and the general tone of the letter, she is a lady of refinement and culture. She is a daughter by birth and a true residence of North Carolina. A little over a year ago a relative with whom she was living fell a victim of consumption. The young lady, then forced to earn her own living, moved to another state. She is now, herself, in the early or curable stage of the disease, which she undoubtedly contracted while nursing her relative.

Why does she write? What does she want? Simply to live. She has a dollar a day which it is necessary for her to pay in order to enter the State sanatorium for the treatment of tuberculosis.

But why write the secretary of the State board of health for this vitally necessary help? Because that official is commanded to discharge to public health obligations of something like 200,000 able-bodied men. In this capacity, he is personal representative of each of them, and his orphan girl's appeal is, therefore, to every North Carolina man. Then it is to you, able-bodied man, that the North Carolina woman comes for help.

Woman appealing to man to save her life! A man, too, who claims the inspiration of a noble parentage, a man who considers himself a pure-blooded patriot, ready to die if necessary, for North Carolina or for North Carolina womanhood. All that is asked is a mere pittance, in the form of a health appropriation. Five or ten cents to the average man would be enough. But oh, the horror of that word tax! Is it more horrible than the unnecessary death of a helpless woman?

So far, North Carolina manhood speaking through their representatives, has seen fit to make so small a public health appropriation that our State, which is fourteenth in population, stands about thirty in public health appropriation. At present we are spending only six mills per capita which means a tax of only one-fourth of a cent on every one hundred dollars worth of the State's property. Our appropriation to the State sanatorium for the treatment of tuberculosis is so small that it is necessary for the few who enter to pay a dollar a day for treatment. The appeal of this woman is only one of many such appeals; she simply represents a class. It is hoped that the State press will bring this vital matter to the attention of those whom it concerns. It is really every man's business whose heart is warmed with a real sympathy for suffering, helpless humanity.

What will you have your State do? If it is your duty to help save these lives, tell your representative in the next legislature to assist in making adequate provision for the public health.—State Board of Health Bulletin.

Young people can have a very good time by not following old people's advice.

Good Way to Use Hyomei for Catarrh.

Besides breathing through the inhaler a few times a day, many catarrh sufferers write that they find inhaling HYOMEI (pronounce it High-o-me) from a bowl of steaming water each night before retiring a great aid in curing stubborn cases.

Try it; it's very simple; gives quick relief and makes you breathe easier. Fill a bowl half full of boiling water; pour into the water a teaspoonful of HYOMEI, cover head and bowl with a towel, and breathe through nose and mouth the pleasant, medicated, antiseptic and healing vapor that arises.

This method relieves that stiffness at once, and makes your head feel fine. You can get a bottle of HYOMEI at druggists everywhere or at Coward & Wooten's for only 50 cents. Ask for extra bottle HYOMEI Inhaler.

But bear in mind that a HYOMEI outfit which includes inhaler and bottle of HYOMEI costs \$1.00.

But, as stated before, if you already own an inhaler a bottle of HYOMEI costs but 50 cents.

HYOMEI is guaranteed by Coward & Wooten and druggists everywhere, to cure catarrh, sore throat, coughs, colds, asthma and croup, or money back. Try it on that generous basis.

And Now the Fall Stove Question

And it is a question, isn't it? You've heard of so many stoves and read so many advertisements that you wonder what to believe. We don't want to try and tell you here about our splendid line of "Buck's"—we couldn't if we would; space would not permit. But, we know you want the best stove or range that your money can buy, one that will last you a lifetime and give you the best of service and that's why we want you to call and see our "Buck's"—we know they are best and that is why they are on our floors.

PRIVACY OF THE HOME NO BAR TO THE FARRAUCHING AUTHORITY.

To a foreigner no feature of German
life is more striking than the promi-
nence and almost unlimited authority
of the police. Many of its functions
are such as in the United States would
be intrusted only to a court of law.

What seems almost equally strange,
the greater part of these functions are
exercised quite independently of the
local government.

The minuteness and thoroughness of
the work of the German police are a
constant surprise to the foreigner. The
policeman not only preserves order in
the streets, but exercises a farreaching
authority in private houses. For
instance, he undertakes the nightly
locking of one's street door at a suffi-
ciently early hour. He sees that one
has his chimney regularly cleaned. He
inspects at stated times one's stoves
and heating apparatus, and while he
is about it he will look into a few
other matters of domestic economy.

One feature of his activity strikes a
good many American visitors with fa-
vor. In some places singing and piano
playing with open windows are for-
bidden, and it is a common house regu-
lation in large towns that no piano
may be played after 10 o'clock in the
evening. The German policeman is
also something of a food inspector in
his way, and he keeps a sharp eye on
venders of food and of medicines. It
is not an uncommon sight to see a Ger-
man policeman halt a milkman's wag-
on and on the spot make an inspection
of his wares. Should there prove to
be anything wrong with them they
are promptly seized and destroyed and
the matter is immediately taken in
hand by the higher authorities.—New
York Press.

A BATHLESS AGE.

For a Thousand Years the People of
Europe Went Unwashed.

When Egypt, Greece and Rome were
at the height of their ancient power
their citizens made bathing a social
function, a municipal duty and a re-
ligious observance. The public baths
of these nations were magnificent ar-
chitecturally and important as centers
of hygienic and municipal sentiment.

With the decadence of these coun-
tries the world seems to have reverted
to a period of mental sloth and phys-
ical uncleanness. As an authority on
the matter puts it:

"For 1000 years there was not a
man or woman in Europe that ever
took a bath. If the historian of these
times, Michelet, is to be believed. The
ancient love of the bath seemed to
have disappeared from off the land.

"There was no Greece or Rome to
hold up the ensign of cleanliness to
the nations of Europe. Small wonder
that the people of the continent be-
came physical decadents, as indeed
they were in spite of tradition to the
contrary.

"It is not strange that there came
the awful epidemics that cut off one-
fourth of the population of Europe—
the spotted plague, the black death,
the sweating sickness and the terrible
mental epidemics that followed in their
train—the dancing mania, the mewing
mania and the biting mania.

"The bath was banished and filth
was almost defied. Indeed, it was
then thought that the sanctification
of the body was only accomplished when
that body was indescribably dirty."—
Physical Culture.

An Island of Black Cats.

"The Island of Black Cats" is a name
often applied to Chatham island, one
of the Galapagos. It is in the Pacific
ocean, about 730 miles west of the
coast of Ecuador. It is overrun with
black cats, and cats of no other color
are seen there. These animals live in
the crevices of the lava foundation
near the coast and subsist by catching
fish and crabs instead of rats and mice.
Other animals found on this island are
horses, cattle, dogs, goats and chick-
ens, all of which are perfectly wild.

A Startling Reply.

"It is very detrimental to the con-
versation if you play bridge while
talking. A gentleman once entered a
room and walked up to a lady who
was deeply engrossed in correcting her
score. 'How d'ye do, Mrs. So-and-so?'
he exclaimed. 'I have just met your
children with the nurse. By the way,
how many have you got?'"

"The lady looked up and replied.

low.'—From 'The Confessions of a
Bridge Player,' by Quillon.

How Stupid!

Mrs. Jones (reading)—It says here
that a nautical mile is 6,080 feet and
a statute mile is only 5,280 feet. Why
is that? I thought a mile was a mile.

Mr. Jones (without looking up from
his paper)—Well, a mile is a mile, but
a statute mile is measured on dry
land, while a nautical mile is measured
on the water, and you know most
things swell when in water.

Mrs. Jones (resuming her reading)—
Why, of course! How stupid!—Ladies'
Home Journal.

How It Looked.

"Why don't you eat your caviare?"
asked the host.

"Didn't know it was to eat," replied
Broncho Bob. "I thought there had
been an accident and the cook spilled
the bird shot."—Washington Star.

Domestic Bliss.

Mrs. Henpeck (with newspaper)—It
says here that buttermilk will extend
one's life to over a hundred. Henpeck
(wearily)—If I was a bachelor, I'd take
to drinking it.—Boston Transcript.

Greenville cotton 13 5-8.

By Wire to The Reflector.

New York, Oct. 5.—Cotton opened
4 to 9 points lower, reflecting the
heaviness in cables. Despite the
break in Liverpool, prices here held
up. Opening: October 13.85 bid;
December 14.03; January 14.18; March
14.32.

New York, Oct. 5.—Northern Pacific
was a bright feature during early
trading today. It opened at 118 3/4,
and moved up to 119 1/2. The mar-
ket was fairly strong at the opening,
with standard railroads and low price
industrials quoting fractional gains
in most instances. Bullish sentiment
prevailed throughout early trading.

Chicago, Oct. 5.—Firmness in Liver-
pool and light northwest arrivals
caused little higher wheat market at
opening, but market eased off later.
Corn opened a little higher but turned
weak later. Oats opened firm but fol-
lowed wheat and corn in their slumps.
Provisions were a shade higher. Open-
ing: Wheat, December 97 3-8; corn
50 3-8; oats 33 5-8.

Meal Better Than Cash.

One would think that with the high
prices of cotton seed, the farmer
would want nothing better for his
seed than cash, but The Carolina
Union Farmer is advising that meal
in exchange for seed is better than
cash paid for it. Some of the cotton
oil mills have been offering 2,200
pounds of cotton seed meal for a ton
of seed. The Carolina Union Farmer
advises the farmers to take the meal
in preference to the cash. Its ex-
planation is interesting. It says that the
only way to get commercial fertilizers
at reasonable prices is to adopt the
Union policy of home-mixing. If the
farmer provides cotton seed meal as
the source of nitrogen he will have
no difficulty in getting the phosphate
and potash. The fertilizer trust has
adopted the plan of buying up the
tankage, dried blood, etc., to defeat
the farmers in their determination to
adopt the business method of home-
mixing and last year those who sold
their cotton seed for cash were put to
a great deal of trouble in getting a
good ingredient as a source of nitro-
gen and many were compelled to
choose either between the expensive
ready-mixed brands of fertilizers or
the abandonment of the use of fertil-
izers containing nitrogen. Speaking
to the farmer, it says: "You have the
control of the cotton seed now. If
you sell that for cash the trust gets
control of the meal. When you get a
ton or more of meal for a ton of
seed, by all means make the exchange
if you get more meal on hand than
you need, you can sell it at a big pro-
fit next spring. Get ready for home-
mixing by getting possession of some
cotton seed meal. This is the only
safe and sensible course to take. It's
the only way to fortify yourself
against the trust method of covering
the ingredients from which nitrogen
is obtained in commercial fertilizers.
After you get the meal you'll be inde-
pendent then. If you find later on
that tankage or dried blood can be
used more economically in your mix-
ture than cotton seed meal you can
easily make the change with a sure
profit on your cotton seed meal. Again
we urge strongly upon Union men
the importance of getting possession
of some cotton seed meal by exchang-
ing seed for it."—Charlotte Chronicle.

Turkestan Lovers.

In Turkestan every wedding engage-
ment begins with the payment of a
substantial consideration to the girl's
parents. If the girl jilts her lover the
engagement gift has to be returned
unless the parents have another daugh-
ter to give as a substitute.
