Miss Wynne is a pupil of East Carolina Teachers Training School.

### NOTES FROM THE UNIVERSITY.

#### Election of Team Captain and Awarding Insignias.

Chapel Hill N. C., Dec. 6.—R. W. Winston, Jr., has been elected captain of the varsity football team for the 1911 season. Winston has played on the varsity two seasons. His work at end, although erratic has been brilliant at times. He will graduate next year.

The wearers of the N. C. met Tuesday and awarded the varsity insignias upon Abernethy, Calmes, Young, Parker and Applewhite. Four of these men are freshmen. The veteran star was awarded to Thompson, Garrett, Spahnour, Tillett, Venable, Winston, Ruffin, Porter, McLain, Belk and Brown.

The faculty committee on athletics has decided to establish basketball as a varsity sport in Chapel Hill. Trainer Nat Carumell, one time world's champion runner over 200 yards will coach the team and have charge of the business affairs of the team for the present. A limited schedule will be arranged with the different colleges of the state. The sport will serve as a pleasant bridge across the time between the close of the football season and the opening of the baseball and track season. The team will be backed by the General Athletic Association. It is probable that the varsity monogram will be awarded to basket ball players for the first year or two.

Professor M. C. S. Noble lectured before the Davie County Teachers' Association November 26th, on English grammar and North Carolina history. Professor Noble is in great demand as a public speaker all over the state.

The Thanksgiving dances were given in the college gymnasium on Thursday and Friday nights. The Gorgan's head dance on Thursday night was led by Mr. R. M. Hanes, Jr., of Winston-Salem, the German club dance Friday night by Mr. A. H. Graham. Among the visitors to the dance Thursday night were Hon. F. M. Winston and Mr. Walter Murphy, who were in Chapel Hill in attendance upon a meeting of a special committee of the board of trustees of the University. About thirty-five visiting young ladies were in attendance.

The fourth issue of the North Carolina High School Bulletin is off the press. This number contains various articles on the teaching of different high school subjects by members of the University faculty. It also includes a list of the accredited high schools of the state. The bulletin is issued quarterly by the University and is sent free to high school principals and teachers who desire it. Its purpose is the upbuilding and raising of the standard of the high schools of North Carolina.

#### Estimate of Government Expenses.

By Wire to The Reflector.

Washington, Dec. 6.—The secretary of the treasury in his annual estimates for the year ending June 30, 1912, submitted to congress today, asks for \$548,414,860.81, for government expenses. This is an increase over the estimate for present fiscal year, but less than the amount appropriated by congress.

#### Bicycle Races in New York.

By Wire to The Reflector.

New York, Dec. 6.—At noon today the six-day bicycle races in Madison Square Garden had fallen below the record for the first time since the races began. The 13th team had then covered 733 miles and four laps while the 14th team score was 739 miles and two laps.

#### Trains Crash in Snow.

By Wire to The Reflector.

Wilmington, Del., Dec. 6.—Six persons were seriously hurt when a passenger train on the Delaware division of the P. B. & W. railroad crashed head-on into another train today. The collision was due to the blinding snow storm.

#### South Carolina's Population.

By Wire to The Reflector.

Washington, Dec. 6.—The population of South Carolina is 1,815,400, a gain of 3.1 per cent. over the population in 1900.

It's a great pity the wisdom of experience can't be applied to the thing that brought it to us.

### NORTH CAROLINA ITEMS

#### Of News Happenings Far and Near Within Its Borders.

Chapel Hill, Dec. 6.—Carolina won from Pennsylvania by a unanimous decision in the debate in Philadelphia Saturday night, in which Carolina defended the affirmative of the Central Bank proposition.

Durham, Dec. 5.—Walter Taylor, a young white man, and son of Mr. and Mrs. C. L. Taylor, was found dead this morning in East Durham, his body bruised, legs cut and cold, indicating that he had been dead some hours.

Bendersonville, Dec. 5.—The annual conference of the pastors of the Baptist churches of North Carolina opened here today. Dr. W. R. Cullom, of Wake Forest, is president. This meeting precedes the State Baptist convention which opens tomorrow night. The opening address was by Dr. T. B. Ray, of Richmond, one of the secretaries of the Foreign Mission Board. Dr. Ray told of the Brazilian Mission and the work being accomplished as he found it during his recent trip to that country. The introductory service of the convention proper comes tomorrow and everything is ready.

Raleigh, Dec. 5.—The aggregate resources and liabilities of the State and savings banks in North Carolina in 1910, compared with the aggregate resources and liabilities in 1909, is the subject of a most interesting and significant statement just gotten up in the office of the North Carolina corporation commission. It shows the development of the state and savings banks within ten years from 93 banks, with \$14,617,959 resources, a gain of \$47,813,071. As to deposits, an increase is shown for the ten years from \$9,953,153 to \$43,981,343.

#### BRITISH ELECTIONS.

#### One-Third of the Seats Are Now Filled.

By Cable to The Reflector.

London, Dec. 6.—The first break in the stormy weather that has marked the British elections came today. Forty-one seats were filled today. The first voting took place in the Ireland house. A battle is being waged in Cork between Redmond and O'Brien. Police and soldiers were held in this district to prevent rioting. One-third of the membership had been elected at the opening of the polls today and it is predicted that the government control will be reduced in strength but that the Unionists still will not have enough to embarrass the government.

#### SUPREME COURT MATTERS.

#### President Considering the Appointment of Judges.

By Wire to The Reflector.

Washington, Dec. 6.—Supreme court appointments and the naming of five members of the new commerce court were discussed by President Taft today in cabinet session. The threat of insurgent senators to fight the confirmation of Judges Swayz, of New Jersey, Pollock, of Kansas and Soborn, of Minnesota, if they are named for the Supreme court has stirred the administration. It is said the president is considering Representative Howard, of Georgia Democrat as one of the judges of the commerce court.

#### ORDER IN MEXICO.

#### Reports of Revolution Were Exaggerated.

A card from Mr. John B. Tripp, formerly of Pitt county and well remembered here, sent from Mexico City under date of November 25th, says reports in American newspapers during the preceding two weeks, of revolutionary disturbances in Mexico, have in the main been untrue or gross exaggerations. The card further says the disturbing elements were very promptly suppressed, perfect quiet and safety restored, and the country will go forward with brighter prospects than ever.

#### Barber Shop Improvements.

Business has grown so at Herbold's Central Barber Shop, that he now has five chairs in operation. A large double shoe shine stand with marble base has also been added.

#### FARMING THAT PAYS.

#### Bale of Cotton to Acre on 60 Acres—10 Bales on 5 Acres.

Mr. J. T. Thorne, of Farmville, has just harvested and marketed, we venture to say, the largest cotton crop to the amount of land used that has ever been harvested in Pitt county. The news has been given us that from sixty acres of land he gathered sixty bales of cotton and from five acres ten bales. This is the kind of farming that pays and we believe every farmer in Eastern Carolina can do as well if they will be careful in selection of seed, preparation of soil and cultivation.

Mr. Thorne is one of the few farmers who are taking advantage of the farm demonstration work. In preparing for this remarkable crop, which was demonstration work, he first began by making a very careful selection of seed, deep breaking of the land, with two-horse plows, and consistent fertilization—using 800 pounds of guano to the acre. A disc harrow was also used, and in cultivation he plowed light.

The seed from Mr. Thorne's cotton was sold for \$1 per bushel and they will be used for planting next year.

The farm demonstration work, carried on by the government, is, and will prove the greatest boon to the farmers of anything that has ever set forth for their uplift.

**TWO YOUNG OFFICERS RETIRE.**

Mr. Leon W. Tucker, who on Monday retired from the office of sheriff of the county, goes out with the honors of a faithful steward who has left a faultless record. He has served three terms, being first elected in 1904, and had been deputy sheriff for some years previous. He was only 24 years of age when first elected, and among older officials was called the "kid." Yet no county has had a more faithful sheriff, nor one who conducted the business of his office better.

Another officer who retired on Monday after six years of faithful service, was Mr. S. T. White, county treasurer. He, too is a young man, the youngest the county ever chose for this responsible position. But his sterling business qualities were recognized, and his splendid management of the office has proven him worthy of all the confidence placed in him. In the office he was equally as popular as he was efficient.

Both of these officers retire with the plaudit, "Well done, good and faithful servant."

Their successors, Mr. S. I. Dudley as sheriff and Mr. W. B. Wilson as treasurer, are both men of the truest type, and will make good records.

Senator-elect R. R. Cotten and Representative-elect J. T. Thorne were in town Monday, and both expressed themselves as favoring the suggestion of Representative-elect G. M. Mooring that a mass meeting be held at an early day to give the people an opportunity to discuss such matters as they would like to have their representatives take up in the next legislature. It is now but one month to the meeting of the legislature, and if such a meeting is to be called it should be done quickly. It is a good idea for the people to let their representatives know what they want.

Mr. D. C. Moore, who on Monday afternoon was sworn in as Superior court clerk of Pitt county, then began his fourth term. He has served the county in this capacity for twelve years, being first elected in 1898. He has served most faithfully and acceptably, and enjoys the fullest confidence of the people. No county in the State has a better clerk than Mr. Moore.

And now Dr. Stiles says he did not say it. But the trouble is the reports of what he said about the North Carolina mountaineers got such a start ahead of his denial. People throughout this country will talk about the reports where the denial will never be heard of.

One of the biggest things for the farmers is farm demonstration work. It has certainly done wonders in Pitt

county under the faithful direction of Mr. J. F. Evans. Even more farmers should engage in this work next year.

The Wilmington Dispatch puts us down as the "Greenville News." That's the limit, Jim. We won't play with you any more—till you apologize.

Mr. Roosevelt says that on the 13th he will tell how it happened. Can't see why he should select such an unlucky day on which to break his silence.

Miss Helen Taft has had her coming out party. Her father will have his two years from next March—Wilmington Dispatch.

Raleigh citizens want a new market house, but the officers don't. That is the difference.

**Farmer in the Saddle.**

The word is being freely passed about during these days of piping peace and prosperity that the farmer is in the saddle and for once it seems to be most forcibly true; for not only is he in the saddle but he has hold of the reins, his steed is under control and he is verily the master of the situation. Nor does a person have to go far from Charlotte to receive ample demonstration of this fact. A visitor to the office of The Observer gave the information that he was recently in the eastern portion of Mecklenburg, not a great distance from the town of Matthews and there found farmers owning and tilling the land, with nice, well-painted houses to live in, with conveniences about them, with carpets on their floors and pianos in their parlors. He found land that had offered of \$200 an acre, land that this year produced an average of two bales of cotton an acre as a result of carefully conserving the fertility of the soil and highly fertilizing and thoroughly tilling it. In fact he was informed that one progressive farmer plowed his land deeply, spent \$26 an acre for fertilizers, gave the crop proper attention and achieved the results that enabled him to harvest \$100 worth of cotton an acre with enough remaining to pay all expenses of tillage and harvesting and other costs connected with the production of the crop except the \$26 for fertilizer in other words netting a clear gain of \$124 an acre for the year. Surely these are great times for our agricultural friends and may will be calculated to turn the drift of immigration back countryward.—Charlotte Observer.

**Hogs Still Run at Large.**

The adoption of the stock law in this country has utterly failed in one important essential—it doesn't prevent the hogs from running at large.

Go to church and there you will find the end-seat hog. Get on a railway train and you will find the one-seat hog and often the two-seat hog. He will occupy a whole seat with his luggage and his coat totally indifferent to the rights and comfort of others who have paid the same fare. Or, he may be sprawled out on two seats—gone to bed—and feeling sleepy, while, perchance, a woman carrying a baby in her arms is compelled to stand until the conductor or porter comes and pokes the hog in the ribs. Then he grunts—still a hog—and reluctantly curls up on one seat, actually mad because he is not allowed to have two.

It is natural for a pig to become a hog; but it is passing strange why a man should persist in becoming one.

But so it is—two-legged beasts infest the land and would sooner spit on the floor than in a cuspidor and throw their cigar and cigarette stumps and old quids of tobacco where they are offensive to refinement and respectability. They always leave unmistakable signs of their presence in bath and toilet rooms, without so much as a thought to the fact that a gentleman may be coming to use the place after them.

And it is all so unnecessary and absolutely without excuse. There is no earthly reason why a man

**A WEAK WOMAN AND HER STORY**

In Floral, Ark., Lives a Lady Who Feels That Her Strength Was Restored by Cardui.

Floral, Ark.—"I must speak a good word for Cardui," writes Mrs. Viola Baker, of this place.

"About a month ago I was in very bad health. I was so weak and nervous that I was not able to do my housework.

"My husband bought me one bottle of Cardui, the woman's tonic. I took it according to directions and now I am in good health.

"I think Cardui is a fine tonic for weak women."

And you are not the only lady who thinks so, Mrs. Baker.

Thousands, like you, have written to tell of the wonderful benefit Cardui has been to them.

Cardui contains no minerals, or other powerful drugs. It contains no glycerin or other mawkish-tasting ingredients.

It is just a pure, natural extract, of natural vegetable herbs, that have been found to regulate the womanly functions and strengthen the female system.

All druggists sell Cardui. See yours about it.

estion, and rid yourself of dizziness,

headache, or money back.

out distress, and furnish good, clean,

### Teachers' Salaries.

The subject of teachers' salaries is  
occupying much attention. For those  
who have to live upon their teachers'  
pay the amount is surely little  
enough. Two main causes are re-  
sponsible for this difficulty, to-wit:  
the inadvisability of raising the rate  
to increase teachers' pay and the  
necessity to appropriate the money  
that is raised in a sort of compromise  
way between teachers' compensations  
and some extension of education in  
the State.

The competition is usually severe  
in some grades, for those who have  
to live upon the teachers' pay. Many  
young ladies get teachers' positions  
who live at home and pay neither  
lodging nor board. They are willing to  
work cheap to get money for bet-  
ter clothing and vacation trips. By ac-  
cepting such teachers education may  
be very materially extended and the  
authorities are bound to take advan-  
tage of such opportunities to extend  
the terms of schools or have more of  
them. Teachers' pay and the amount  
of education that can be bought for  
the money available are matters that  
the authorities, State, county and mu-  
nicipal, have to balance up accord-  
ing to the law of supply and demand.

otherwise these same authorities will  
have to reckon with the over-burden-  
ed tax-payer. If it could be made to  
work everybody would favor lower  
taxes and better pay for teachers.  
Meanwhile conditions are improv-  
ing; all over the State, both for the tax-  
payer and the teachers.—Charlotte  
Chronicle.

**Fatal Disease Among Live Stock.**  
A deadly disease, which is evi-  
dently contagious, is playing havoc  
with live stock in various sections  
of the county. A few days ago sev-  
eral head of cattle belonging to Mr.  
Sid. Crawford, of Shiloh township,  
suffered attacks of the disease and  
died within 24 hours and other  
farmers have lost cattle.

Early this week Mr. John Gibson,  
of Bethany township, lost a valuable  
horse, which was affected in the  
same manner, as the cattle. Two  
fine mules belonging to Mr. Gibson  
were attacked by the disease Wed-  
nesday and were not expected to live  
through last night, while several  
farmers throughout the county have  
sick cattle.

The disease affects the bowels and  
seems to be something new in this  
section. The State Department of  
Agriculture was appealed to yester-  
day and a venetian, who arrived  
from Raleigh last night, will begin  
an investigation of the disease today.

By Wire to The Reflector.  
New York, Dec. 6.—The stock mar-  
ket opened strong and active with  
practically the entire list quoting  
gains. Toward the close of the first  
hour standard stocks were the high-  
est touched in several weeks. Lehigh  
Valley and Union Pacific were lead-  
ers in leading, the former moving  
up 1 1/8 and the latter 1 1/4. Steel  
was strong and active.

New York, Dec. 6.—Cotton open-  
ed quiet but steady today with price  
two points higher to two points lower.  
Cables brought word of a rally in  
the Liverpool market. The market  
was induced by large sales and heavy de-  
mand for all offerings. Opening

March 15.05; May 15.21.

Often we wonder if, after all the  
commodity which, and often erro-  
neously, is referred to as "King Cot-  
ton" gives anything like the profitable  
returns for labor and cash invest-  
ment that are credited to it. What  
we do not know about cotton and its  
cultivation would fill a book, but the  
little knowledge acquired here and  
there has led us to believe that, take  
an active cultivation or as a result  
of speculation, cotton has done more  
to pauperize men and women than  
any other product of the soil. Con-  
sidering the exhaustive demands on  
the soil, the care that must be given  
to it, and the total cost of production,  
we venture to assert that there is  
less profit in it for the tenant and  
small cultivator than in almost ev-  
ery other line we could mention.—  
Asheville Citizen.

less investor. "He once gave me five  
minutes of his time when I was look-  
ing for a stock and it cost me several  
thousand dollars."—Washington Star.
