## WHAT THE LAW MAKERS ARE DOING

### PROCEEDINGS OF THE N. C. GENERAL ASSEMBLY

#### NEITHER BRANCH DID MUCH FRIDAY

Session Was Not Long and no Matters of Special Importance Were Considered—Near-Year Discussed in Senate—Committee Reports and Local Bills Occupy the House. Senate—Thursday

The bill that had passed the house a few days previous, to prohibit the sale of near-beer in Macon county, was the principal topic of discussion in the senate, and several members took part in it. An effort was made to postpone action until the state-wide bill came up, but a motion to this effect failed and the bill passed. The bill requesting North Carolina's representation in congress to vote for New Orleans as the place for holding the Panama exposition, passed.

#### House—Thursday.

In the house quite a number of bills were reported on favorably by committee, among them being Senator Cotton's senate bill to increase the pay of court stenographers in Pitt county. There was not a bill nor resolution of much importance introduced.

#### STIMULUS TO CORN GROWING.

#### Southern Boys to Have Exhibit at Columbus Corn Exposition.

Washington, Jan. 14.—The 100 boys in the Southern States who have raised the best corn crop during the past year will be given an opportunity to exhibit ten ears at the National Corn Exposition, to be held at Columbus, Ohio, January 30, to February 11th," said Dr. Clarence J. Owens, commissioner of agriculture and immigration of the Southern Commercial Congress in a recent interview. "There are 46,000 boys belonging to the 'Corn Clubs' in the Southern States, and the Southern Commercial Congress, co-operating with the United States department of agriculture, will pay for the transportation of exhibits of the 100 most successful boy 'corn raisers' to the exposition grounds. The selection of the exhibits will be done by the county and state agents of the farm demonstration work of the department of agriculture. We hope to bring together exhibits from 100 acres whose total output was 12,000 bushels.

"The boys' corn clubs throughout the South had wonderful success last year, and Dr. S. A. Knapp, of the department of agriculture who is directly in charge of farm demonstration work, anticipates even better results next year.

"Believing in the tremendous and wonderful resource of the South, the Southern Commercial Congress is actively co-operating with the United States department of agriculture in disseminating correct information, and is watching very carefully the publication of bulletins which may be of value to the Southern farmer, so that they may be brought to his attention immediately upon publication. The department has recently issued two valuable bulletins, No. 415 'Corn and Corn Raising,' and No. 416, 'Seed Corn,' which may be had upon application to our Washington office.

Dr. Owens is now making a trip through the Southern States, visiting each governor, regarding state committees of fifteen business men to represent the state at the great meeting of the Southern Commercial Congress to be held in Atlanta, March 8, 9 and 10. Governor Mann, of Virginia and Governor Glasscock, of West Virginia and Governor Wilson, of Kentucky, are each heading such committees.

#### Bank Statements.

Today we begin publishing statements of the banks of the county, showing their standing at the close of business on January 7th. The statements are interesting and show just what the banks are doing. You should read them carefully.

## WINTERVILLE ITEMS.

### Notes From Our Hasting Neighbor —What His People are Doing.

Winterville, N. C., Jan. 14.—Mr. H. A. White, of Greenville, was in town Friday evening looking after business.

Mr. A. W. Ange, who has been visiting his father, near Jamesville, returned yesterday.

Prof. F. C. Nye, Miss Elizabeth Boushall and Miss Dora Cox, went to Greenville this morning to attend the teachers' meeting.

The people of Winterville are sorry to learn that Mrs. G. E. Lineberry is in the hospital at Raleigh.

Rev. C. J. Harris who lives near Falkland, is moving to Winterville.

The Vance Literary society of Winterville High School, met Friday night January 6, and elected the following officers: Roy Causey, president; G. H. Cox, vice president; W. H. Sharp, secretary; P. N. Strother, treasurer; F. C. Nye, critic; C. E. Langston, supervisor; J. H. Stallings marshal.

Miss Pearl Hester entertained at her home Friday evening, several of the young people of Winterville from half past seven to half past ten o'clock. Everybody present had a very nice time.

Tobacco cloth and plant bed fertilizers at A. W. Ange & Company's. If you need a good sewing machine you will find a good variety at A. W. Ange & Company's.

The spring term of Winterville High School began January 2, with nearly all the old students back and several new ones. The enrollment now is considerably beyond the 200 mark with several others yet to come. Prof. Nye is arranging for several excellent lectures during the term. Hon. J. W. Bailey, of Raleigh, will deliver the literary address May 19th. He is one of the strongest speakers in the state, and we consider ourselves exceedingly fortunate in securing him.

#### TWAIN'S THREE SHIRTS.

#### His Stay at The Hotel Limited by His Supply of Linen.

"Everybody that knew Mark Twain recognized that in a matter of business he was the veriest child," said the clerk of a hotel where Mr. Clemens used to put up.

"I remember that one day after his wife's death, when her estate was being settled up, he came down stairs one morning to receive an official looking letter from one of the administrators. He opened it slowly and stood for a long time studying the figures on an inclosure.

"'Good Lord!'" he finally exclaimed. 'Do I owe them \$28,000 or do they owe me \$18,000?' He passed the paper over to me, and when I told him the balance was in his favor he seemed greatly relieved.

"Once he was unintentionally instrumental in getting our cashier fired. Mr. Clemens was in the habit of getting \$50 or \$100 a day from the office. Sometimes he would get it without a draft and sometimes his secretary would come down stairs with him and cash a check. After he had gone home on one of his visits we sent him a bill. We got an answer saying the bill was too small, for he had drawn \$100 more than he had been debited with. This made the proprietor angry and he fired the cashier on the spot. It afterwards turned out that on the morning hat Mr. Clemens had drawn this particular \$100 his secretary immediately afterward had given the cashier a check for \$100, so that there was no entry on the book.

"One day when Mr. Clemens walked in and signed his name I asked him how long he expected to stay. 'I'll tell you, he replied, leaning over the counter. 'It depends on the weather and my shirts. I've one shirt on and two in my grip. As soon as they all get dirty I am going back home.—New York Sun.

#### The Reflector is Read.

When a business man advertises he wants to know, and has the right to know, that his advertisement is read. He can rest assured on this point when he places his advertisement in The Reflector. This paper has a circulation to be proud of, and any advertiser can know at any time how many people his advertisement goes to. For the quantity and quality of this circulation the advertising rate is very low, and the advertiser always gets more than the worth of his money.

## THE "BACK HOME" MOVEMENT.

### Names of Southerners in Other States Being Collected.

Altapass, N. C., Jan. 14.—Last night's session of the Immigration Board of Associated Railroads in the South marked the beginning of co-operative action on the most remarkable plan of immigration ever undertaken in this country.

The "Back Home Movement" is simply that of specially inviting each person who has moved from the South into states beyond the Mississippi and Ohio rivers to re-visit his old home country with a view of again living there. With the invitation are given facts concerning the changes and wonderful improvements which have taken place in the South in the last few years. The plan was inaugurated by the industrial department of the Carolina, Clinchfield and Ohio railway last August, and a tender of the methods it has employed was formally made to and accepted by a majority of progressive railroads of the South in a conference which closed here last night.

Throughout the day yesterday, letters and telegrams were received from Southern editors and commercial organizations offering support, and sending long lists of former Southerners in other States. Another conference will be held at Chattanooga, February 15th, when the organization will be perfected, and a permanent press bureau established. Until then W. D. Roberts, assistant industrial agent of the Clinchfield road will continue the press work for the board, and the gathering of names and addresses. The governors of the Southern States will appoint one delegate from each congressional district and two from the State at large to attend the Chattanooga convention, and confer with the railroad representatives, and all newspaper editors are invited to be present.

A number of boards of trade are gathering names and the prospect is that in the next two months two million or more native Southerners will be asked to come "back home" which means that fully five millions of people in other states are going to hear of the South as the best part of the United States in which to live and prosper.

#### BANK OFFICERS FRIGHTENED.

#### Offering to Turn State's Evidence Against Robin.

By Wire to The Reflector.

New York, Jan. 14.—Frightened by the drastic methods of the grand jury in its investigation of the Northern Bank and Washington Savings Bank, four officers who have been indicted and others who are in danger of prosecution, today appealed to the district attorney to allow them to turn State's evidence against Joseph G. Robin. Several bank officials have expressed their willingness to tell all they know concerning Robin's schemes. The district attorney has so far made no reply to these overtures, but it is expected he will take advantage of the offers in one or two cases. This, it is thought, clinches the case against Robin and insures his conviction.

#### THE SCHENCK TRIAL.

#### Nurse Gives Damaging Evidence Against the Defendant.

By Wire to The Reflector.

Wheeling, W. V., Jan. 14.—A terrific blow was struck at the defense of Mrs. Schenck today by Juliette Kline, who nursed Schenck in his illness. She testified that Mrs. Schenck said she felt like killing her husband, and suggested that the nurse give him a pill, offering her \$1,000 to do so. The witness said her real name was Elenor Zoekler, and that she was a detective. Mrs. Schenck also told this witness that as soon as Schenck died to get his keys to his safe deposit box.

#### The Show is Pleasing.

The Amuzu Theatre is now giving our people the best amusement of any moving picture show that has been conducted here. The pictures are good and Dr. Shaffer's orchestra music is fine.

#### Box Party.

There will be a box party at Dillard's Cross Roads school Friday night, January 20th. The public is cordially invited to attend.

#### Farmers' Education and Co-Operative Union in Session at Winston-Salem— Haywood County Woman Burned to Death—Spencer Man Youngest Graduate in State.

Statesville, Jan. 12.—Mr. Lucius Rudisil who lived in lower Iredell, some miles from Elmwood station, was fatally injured at Elmwood last night by stepping from a moving train. Mr. Rudisil had been up the western road, returning on passenger train No. 12, and when the train arrived at Elmwood he attempted to get off before it came to a standstill and landed on his head.

Hayden Clement, Esq., returned yesterday afternoon from Morganton where he has been special master in a suit involving 50,000 acres of land. The suit was brought by Mr. Banninghausen, of Michigan, against Williams, et al., and eleven days were consumed in taking the testimony. This is one of the biggest cases ever tried in western North Carolina. Mr. Clement will return to Morganton on January 30 to hear the argument.—Salisbury Post.

Asheville, Jan. 12.—A Waynesville special to day says: News has been received here of the tragic death, by burning last week, of Miss Alice Price of the Jonathan Creek section of Haywood county. It seems that Miss Price, who was only 18 years of age, was standing near an open fire place when her dress ignited and, before aid reached her, she was burned so terribly that death quickly relieved her sufferings. Miss Price was a popular young woman in her neighborhood. She was a daughter of Tolliver Price of that section.

Dr. H. Q. Alexander, president of the North Carolina division of the Farmers' Union, stopped over in Greensboro last night on his way to Winston-Salem, for the purpose of negotiating with the members of the state executive committee in the matter of letting the contract for the fertilizer to be used by the North Carolina Union this spring. The contract amounts to between \$300,000 and \$400,000 and lively interest has been awakened in the matter. The conference last night in regard to the contract was between the executive committee of the organization and various fertilizer manufacturers.—Charlotte Observer.

Mrs. Walter H. Mendenhall was burned Monday while cleaning a pair of gloves with gasoline. She had the gloves on her hands and had finished washing them in gasoline when the accident occurred. She was near the stove and a few drops of the inflammable fluid happened to reach the blaze and in a moment it flashed into the pan containing the gasoline, catching the gloves immediately. Mrs. Mendenhall had the rare presence of mind to seize some sofa pillows and other articles at hand and smother the flames and she escaped with few injuries. There were some small burns on her hands and a few about her face.—Lexington Dispatch.

Spencer, Jan. 12.—Mr. V. H. Bryson of Spencer, it is believed, holds the record as the youngest grandfather in the world his age being only 33. He was married when 14 years of age his wife being only thirteen and one half. His oldest son was married at the age of 17 and who at the age of 18 years presented to the elder Bryson a grandson, the grandfather being less than 33 years of age. Early marriage appears to run in the family, Mr. R. P. Bryson, father of J. H. Bryson, grandfather of J. W. Bryson, and great-grandfather of the younger generation, having been married when under twenty years of age. The grandfather, who was a Methodist minister, was accidentally killed in the Spencer shops on the 6th inst., his funeral being held Sunday in Spencer Methodist church.

#### Ladies' Aid Society.

There will be a called meeting of the Ladies' Aid Society of the Christian church, at Mrs. E. G. Flanagan's at 3 p. m., Monday.

## THE TEACHERS' ASSOCIATION.

### The January Meeting Largely At- tended and Interesting.

At 10.30 the Pitt County Teachers' Association assembled in the auditorium of the graded school building. The devotional exercises were conducted by Prof. H. B. Smith, president of the association. Prof. H. H. McLean, superintendent of the Farmville graded school, made announcement in regard to the reading course.

The programme was then taken up. Prof. Ray Funderburke, superintendent of the Grifton graded school, made a very interesting talk on the first half of the Sanitary Primer prescribed in the State reading course for teachers for this year. Prof. H. L. Koonce, superintendent of the Ayden graded school also made a strong talk on the second part of the Sanitary Primer. These two addresses were exceedingly interesting and practical.

The next was the lecture of Prof. H. E. Austin of the Training School. He was at his best and showed himself master of his theme.

The weather was fine and a large number of teachers were present.

On account of sickness, Prof. Ragsdale was not able to be present. We missed him so much and truly hope that he will be fully recovered in a few days.

#### Home Enterprises.

When you buy goods in some distant city that could be had as well at home, you miss the chance to make a business ally in your own town who sooner or later may be very useful.

If the mistress of a home on a swell street goes to the metropolis for her fine feathers, soon the wife of the clerk and the laborer will be sending their dollars to build up some congested center.

In college a passion of loyalty creates enthusiasm for athletic teams leads to fervent backing of all common enterprises and binds men together in after life.

Could we but get that feeling of loyalty to our home town, based both on the personal advantages of business reciprocity between individual citizens and on real affection for the institutions and enterprises of the place we call home, our city would advance with the vim of college life.—Concord Tribune.

#### Silver Tea.

The Womens Foreign Missionary Society of the Methodist church will have a silver tea at the residence of Mrs. Chas. Laughinghouse, on Monday afternoon, at 3 o'clock, to which all the ladies of the church are most cordially invited. A silver tea offering will be taken to go toward the pledge money which supports their missionary.

SATURDAY, JANUARY 14, 1911.

In every section of the state good roads is the talk.

Peary has proven as good a right as Cook to membership in the Annanias Club.

This weather is calculated to push the fruit trees forward enough for the crop to get caught in a late freeze.

We hope the farmers will start and cultivate with the view of making a larger corn crop this year than they did last year.

A negro who was put in jail in Charlotte, prayed that the jail door might swing open. But it didn't open until the jailer went to go in.

Asheville, Goldsboro and Washington all profess to much disappointment over what the census gave them.

If the editor of the Siler City Grit does not get the mendacity modal next time, it will not be because he fails to tell some whoppers.

Because November and December both gave steady cold weather, some are claiming that back bone of winter is broken. You had better not pin your faith to that.

The newspaper men of North Carolina are moving to erect a building at the Stonewall Jackson Training school at Concord as a memorial to Bill Nye. It is a laudable step and should have the co-operation of people all over the state.

Democratic Victory Brings A New Era In Maine.

In the World Almanac for 1911 a statement is made as to the progress of the prohibition movement. This statement is printed with the information that it was revised by the Associated Prohibition Press. It is said that the movement "made substantial progress in every section of the United States during the year of 1910." It is added: "On November 8 the question of constitutional prohibition was decided by a direct vote of the people in Florida, Missouri, Oklahoma and Oregon. These are the first States, except Alabama (November, 1909), to consider the constitutional phase of prohibition by referendum, for twenty years."

We do not think this is a fair statement, as one would conclude from it that constitutional prohibition had prevailed in the States named, whereas, the contrary is true, constitutional prohibition being defeated in every one of these States. But, we are told, in spite of the fact that the Federal reports indicate "an increasing consumption of liquor, the last twelve

months have witnessed radical strengthening of organization among the forces opposed to the drink traffic and the year 1910 closes with the liquor question nearer the center of the political stage and a more vital issue in a score of States than for many years past." This would seem to indicate that after all it is a political rather than a temperance question, and we are not at all surprised at the confession.

This, however, only in passing. Our immediate purpose is to say something about the State of Maine, which has had State prohibition since 1854, and of this State, the Associated Prohibition Press says in The World Almanac that the "nullifying Republican State administration" was "defeated September, 1910; first time in thirty years; better enforcement expected." In his inaugural address, Governor Plaisted, the new Democratic governor, after noting that the Democratic party had promised to submit to popular vote the question of constitutional prohibition, remarked: "No fair-minded man can refrain from feelings of disgust at the failure of the Anti-Liquor law. Not only has the purpose failed of accomplishment but hypocrisy, corruption and disrespect for law have been begotten."

This is a fearful arraignment of morality by legislation after fifty-seven years of actual trial and in a State which has always been noted for the law-abiding character of its people.—Richmond Times-Dispatch.

**Changes in The Renting System.**  
The first reform in rent contracts that I would urge is the inclusion of a clause requiring the tenant to sow cowpeas on every acre from which he harvests wheat or oats and to sow cowpeas in all corn grown on upland, as well as in bottom land corn in some localities. There would probably be little difficulty in getting most tenants to consent to this, provided the cowpea seed were on hand at the time when planting should be done. As a matter of fact, most tenants have no cowpea seed at that time even if some has been gathered in the fall. Therefore, the most practical method of enforcing this desirable change is for the landlord to agree to provide the cowpea seed, at the expense of the tenant. However, even if the landlord should have to furnish the cowpeas free, he would be the gainer in the long run by reason of the improved condition of his land.

Any tenant complying fully with this, and with other stipulations intended to make his farming more effective, should be offered inducements for full compliance. The most just one would be to stipulate that as long as such progressive methods were practiced the tenant "should have preference over all other tenants to renew the lease from year to year. Indeed, if the character and financial backing of even the humblest tenant should justify the landlord in entering into a contract for several years, a long lease would in the end be far better for both parties and of great advantage to the public.—J. F. Duggar, in Raleigh Progressive Farmer and Gazette.

**IF WOMEN ONLY KNEW.**  
What a Heap of Happiness It Would Bring to Greenville Homes.

Hard to do housework with an aching back.  
Tired, you hours of misery at night or at work.  
If women only knew the cause—  
Backache pains come from sick kidneys.  
"I would save much needless woe. Doan's Kidney Pills cure sick kidneys."  
Many residents of this vicinity endorse them.  
Mrs. L. Camerson, 117 Payton Ave. Kingston, N. C. says:  
"The great benefit I obtained from Doan's Kidney Pills justifies me in recommending them. A dull, nagging backache, accompanied by sharp twinges through my loins, bothered me for a long time. I had but little energy or ambition and was caused additional annoyance by awakens. Having Doan's Kidney Pills recommended to me, I procured a box and the difficulty with the kidney sections had been corrected.  
For sale by all dealers. Price 50 cents.

**They All Want Good Roads.**  
No more important meeting has been held in the county in years than that which will assemble in Wentworth next Saturday to consider the question of improving our public roads. It is a problem lying at the foundation of social, educational, moral and material betterment. The roads are the avenues of neighborly intercourse, commerce, school attendance, religious gatherings, etc. Rich and poor, white and black, are helped or hindered by them. The motor tax is a tax not only on our horse and wagons, but on our social well-being. There is only one way out of the difficulty and that is to build good roads. They will cost us something they would not be worth having if they didn't cost something. But the benefits will far outweigh the burdens. Rockingham is one of the greatest counties in North Carolina and only needs good roads to prepare the way for greater achievements in the future. Let the meeting at Wentworth adopt a conservative and business like policy and appeal to the good sense of the voters to put it through.—Reidsville Weekly.

Money may not bring happiness, but it will purchase a lot of substitutes.

### WORTH WEIGHT IN GOLD

**Lady Learned About Cardui, The Woman's Tonic and is Now Enthusiastic in its Praise.**

Mount Pleasant, Tenn.—"Cardui is all you claim for it, and more," writes Mrs. A. E. Rail, of this place.  
"I was a great sufferer for 2 years and was very weak, but I learned about Cardui, and decided to try it. Now I am in perfect health."  
"My daughter, when changing into womanhood, got in very bad health. I gave her Cardui and now she enjoys good health."  
"Cardui is worth its weight in gold. I recommend it for young and old."  
Being composed exclusively of harmless vegetable ingredients, with a mild and gentle medicinal action, Cardui is the best medicine for weak, sick girls and women.  
It has no harsh, powerful, near-poisonous action, like some of the strong minerals and drugs, but helps nature to perform a cure in a natural easy way.  
"Try Cardui."

To tip or not to tip the person who  
but does his or her duty is a question  
recalling an incident set down in Wal-  
pole's reminiscences of how a king once  
unwillingly encouraged the custom.  
"This is a strange country," comment  
ed George I. "The first morning after  
my arrival at St. James I looked out  
of the window and saw a park with  
walls, canal, etc., which they told me  
were mine. The next day Lord Chetwynd,  
the ranger of my park, sent me  
a brace of carp out of my canal, and  
I was told that I must give 5 guineas  
to Lord Chetwynd's servant for bring-  
ing me my own carp out of my own  
canal in my own park!"

## NEW YORK AND CHICAGO MARKETS

### Stocks.

New York, Jan. 14.—Continued buy-  
ing, mostly by outsiders, caused the  
stock market to move up price, the  
entire list scoring gains in early  
trading. Railroad stocks ruled strong  
and active throughout, with the ex-  
ception of New York Central, which  
fell off 1-4 after moving up to 111.  
Steel common was exceedingly  
strong. Virginia-Carolina was among  
the strong features.

### Cotton.

New York, Jan. 14.—Firmness but  
light trading, marked the opening of  
the cotton market today. January  
opened four points higher, but other  
months were one point higher to  
two points lower. Despite overnight  
buying orders, heavy selling by bears  
finally ruled and prices weakened.  
Opening: January, 14.65; March,  
14.87; May, 15.03; July, 15.02.

### Grain.

Chicago, Jan. 14.—Trading was  
light in the wheat pit at the opening.  
Outside markets were all lower.  
corn, oats and provisions were all  
lower. Opening: Wheat, May, 101-  
1-2; corn, 60; oats, 34 7-8; pork,  
19.15.

### Drawbacks.

The greatest drawback to progress  
that the people of the world have had  
to contend with through all ages has  
been the inability of men to perceive  
the great opportunities for advance-  
ment that are in plain view all  
around them. Only the most per-  
verse state of wilful blindness can  
account for the fact that so few real-  
ize the vastness of the field which  
opens the way to success to all who  
are willing to labor therein. It is  
this same wilful blindness that  
causes our boys to leave the farm  
and crowd the cities to overflowing.  
It is responsible for the fascination  
of the great West for the Eastern  
bred lad and it causes the cowboy to  
lay his lariat aside, turn his bronco  
a-loose on the plains and drift to the  
cultured and effete East. It fills the  
park benches of the cities with the  
unemployed, and forms the breadline  
that New York City feeds each day.  
For there is plenty of work in the  
world for all, and it seldom becomes  
really necessary for us to leave the  
place of our birth to find it, provided  
we will only keep our eyes open and  
not close our ears to the knocks of  
opportunity on our doors. This afore-  
said lack of clearness of vision  
causes the land owner to ignore the  
great natural resources of his prop-  
erty and allows the stranger to ac-  
quire possession, for a few dollars,  
and make a million out of the coal or  
oil it yields. This blindness caused  
the citizens of Bethlehem to lose  
their chance for everlasting happi-  
ness when they failed to discern the  
divinity of their Saviour. Learn to  
observe; teach your children to see  
things aright; let them know that  
this is a land of opportunity as much  
so as the fruit orchards of Florida or  
the gold filled mountains of Alaska.—  
Greensboro Record.

### The Hoggish Consumption of Hog Meat.

When asked how the health of the  
community was, a few months ago,  
a well known physician of this place  
replied: "It is splendid. Very little  
sickness, but hog killing time is now  
here and there will be something do-  
ing before long." Do you ever stop  
to consider the fact that a large per-  
cent of the disorders of the human  
body are caused by eating meat? Es-  
pecially is this true among children.  
We have seen small boys eat enough  
sausage for two grown people and  
then cry because they didn't have  
enough—and it wasn't long before  
they cried again. This time because  
they had too much. It is a fact that  
hog meat is the most unhealthful ar-  
ticle that we use daily. It might not  
deal so badly with our system if we  
would eat the proper amount and  
quit, but it seems to be the tend-  
ency of too many people, when they  
start to eating hog meat to carry the  
nature of the hog itself. I is claim-  
ed by some that we imbibe into our  
very nature the qualities of animals  
whose flesh we feed upon. If this  
be true, then is it any wonder that  
we so often overrate ourselves when  
we sit down to a dinner of pork?  
These are things for us to think about.  
Certainly parents should see to it  
that children are properly fed,  
whether their food consists of hog  
meat or of something else.—Marsh-  
ville Home.

### TAX NOTICE.

All persons owing taxes for the  
year 1910 are notified that they must  
come forward and settle. I must  
collect these taxes, as I cannot af-  
ford to extend courtesies. The State  
requires me to settle with the treas-  
urer by the first of January, which  
time has already passed, and I must  
insist on prompt settlement from  
those who are yet delinquent.

### Government Against the Printers.

The newspapers of the land are  
being besieged with news articles  
sent out from various departments  
of the state and national government  
and a kind of press bureau service  
is becoming a distinct feature. Usually  
speaking, the matter is so vol-  
uminous that only a few papers can  
handle it, and yet much of it would  
be of value if it were in a more  
condensed form. All of which sug-  
gests to our mind that if the thou-  
sands upon thousands of dollars spent  
each year in printing useless books,  
reports, bulletins and the like, which  
comparatively few people read, were  
diverted and a portion thereof given  
to the newspapers, these papers could  
arrange for such increase and the  
people of the whole country would  
get benefit therefrom. Uncle Sam  
is not "toting fair" with the printers  
generally. The high tariff has placed  
paper at enormous prices: the  
post office department makes strin-  
gent rules on postage; and the gov-  
ernment is a direct competitor with  
every job printing plant in the coun-  
try in the printing of private envel-  
opes. Let some mind devise a  
method whereby both a saving to the  
government and practical benefit to  
the people will result.—Albermarle  
Enterprise.

### NORTH CAROLINA ITEMS.

#### Of News Happenings Far and Near Within Its Borders.

The heaviest hog killed in Chatham  
this winter, so far as we have  
heard, is one killed last week by  
ex-Sheriff Milliken that weighed 315  
pounds and was two years old last  
August. It had a sister that gave  
birth to sixteen pigs on new year's  
day. We think Mr. Milliken can  
justly claim the championship in rais-  
ing hogs.—Pittsboro Record.

High Point, Jan. 13.—Mary Raper,  
aged 18 years, a cook at the residence  
of J. H. Adams, gave birth to a male  
child after which she killed the child  
by smothering it between blankets.  
Dr. Gerran was sent to attend the  
woman. Arriving there the doctor  
found the door locked and the woman  
would not let him in. After much  
persuasion the door was finally  
opened. She denied having the child  
and refused to be touched. Chief  
of Police Ridge was then sent for,  
and upon examination found the  
dead child as above stated.

Winston-Salem, Jan. 13.—Nearly  
every tobacco growing county in the  
state was represented at an executive  
meeting here today of the Farmers'  
Educational and Co-operative Union.  
Following the conference, which was  
held behind closed doors, it was  
stated that the object of the confer-  
ence was to inaugurate a movement for  
the tobacco farmers to pool their  
crops upon the Kentucky plan. It  
was stated that several meetings  
probably would be held before the  
co-operative plan would be made ef-  
fective.

#### The Champion Kicker.

There is some people who are just  
literally kicking their way through  
life. They were born kicking, and  
have never stopped since. A little  
kicking now and then is relished by  
the fellow who wants something  
righted, or a wrong corrected. A  
good kicker, with his feet, however,  
is a valuable adjunct to a foot ball  
team. So there are kickers and  
defers in this world.

But the champion kicker has been  
discovered. He was released from the  
Ohio penitentiary the other day after  
serving a sentence of three years for  
burglary and larceny, having been  
sent up from Cleveland. He kicked  
about everything and anything every  
time he got a chance to kick, and  
when released from the pen he kicked  
about the railway schedule be-  
cause a train didn't leave for an hour  
and he had to wait. He kicked so  
hard that he was finally told to go  
to the station and wait for fear the  
officials might take the notion and lock  
him up.

The happiest moment in the lives  
of some men is when they are making  
others about them miserable by their

### HAIR HEALTH.

If You Have Scalp or Hair Trouble,  
Take Advantage of This Offer.

We could not afford to so strongly  
endorse Rexall "33" Hair Tonic and  
continue to sell it as we do, if it did  
not do all we claim it will. Should  
our enthusiasm carry us away, and  
Rexall "33" Hair Tonic not give entire  
satisfaction to the users, they would  
lose faith in us and our statements,  
and in consequence our business pres-  
tige would suffer.

We assure you that if your hair is  
beginning to unnaturally fall out or if  
you have any scalp trouble, Rexall  
"33" Hair Tonic will promptly erad-  
icate dandruff, stimulate hair growth  
and prevent premature baldness.

Our faith in Rexall "33" Hair  
Tonic is so strong that we ask you  
to try it on our positive guaran-  
tee that your money will be cheer-  
fully refunded if it does not do as we  
claim. Two sizes, 50c. and \$1.00. Sold  
only at our store.—The Rexall Store.

### The Cotton Picker.

A Chicago mechanic named Cam-  
bell, backed and helped by Mr. Theo-  
dore Price, the well-known scotton  
merchant of New York, has invented  
a cotton picking machine known as  
"the Cambell-Price cotton picker,"  
about which those interested are very  
enthusiastic. Long before the event  
this paper predicted the flying ma-  
chine. It has with equal confidence  
predicted a cotton picker. Perhaps  
there are those who think the inven-  
tion of the flying machine the more  
interesting of the two but this is  
scarcely the case. The flying machine  
may be more picturesque but it is at  
present a plaything and will remain  
so for a long time to come.

In the cotton picker the welfare  
of the world in matters of clothing  
is involved. It costs now about  
\$125,000,000 to pick the cotton crop.  
The picking is all done by hand work.  
The picking must be done in a limited  
time, approximately 120 days in each  
year. The power used is finger  
power, somewhat as hand sewing is  
finger power. If man power or horse  
power or engine power could be ap-  
plied to cotton picking as it has been  
to sewing, the economy would be fully  
as great. With a good, economic  
cotton picker and gasoline power to  
operate it the cost of picking the  
American crop of say 12,500,000 bales  
should not exceed \$25,000,000—a sav-  
ing over the present cost of \$100,000,  
000 annually. There are difficulties  
in the way, of course, but the prize  
is too big to call these difficulties in-  
surmountable.

The owners of the Cambell-Price  
machine claim that it will pick 6,000  
pounds of cotton in a day and that  
the cost of hand picking. We have  
not learned how much cotton is left  
behind in the field after the picker  
has done its work. The Cambell-Price  
may be the beginning of the real cot-  
ton picker. Its ultimate form, by  
whomsoever invented, will be a de-  
velopment as was the case with the  
locomotive, the mow and reaper,  
the sewing machine and other similar  
inventions. One word of criticism  
would seem to be conservative—they  
claim too much. The new machine—  
according to the inventor's story—  
is not only a cotton picker but a  
chopper and cultivator. A picker  
that will pick clean and economically  
is enough. There is a possible sav-  
ing of \$100,000,000 a year when it is  
brought to do its work as well as the  
sewing machine does and that ought  
to satisfy.

We are confident that the cotton  
picker will come yet—perhaps the  
beginning has already come. C. T.  
Mason of Sumter, S. C., made a pick-  
er about twenty years ago which gave  
more promise than any we have yet  
seen put out to practical test.—Char-  
lotte Observer.
