## WHAT THE LAW MAKERS ARE DOING

### PROCEEDINGS OF THE N. C. GENERAL ASSEMBLY

#### WESTERN SCHOOL FOR TEACHERS

**Senate Passes Bill Apportioning School Fund of Greenville Township—The Cotten Torrens Bill Defeated.**

#### Senate—Tuesday.

While several new local bills were introduced, there were three of general importance. They were:

**Boyd:** Provide engineer assistance to counties in the construction of public roads, the State to employ an expert road engineer, who is to give his advice and assistance to any county gratis.

**Pharr:** Provide for auditing books of corporations.

**Johnson:** Provide automatic gates on rural delivery routes in North Carolina.

The bill for the apportionment of the public school fund of Greenville township passed third reading.

The bill to establish a training school for teachers in the western part of the State came up as a special order, and after discussion and amendment passed its second and third readings.

The bill for a primary election for the State also came up as a special order and several speeches were made in its favor.

At the night session the Cotten Torrens land-title bill was defeated on its second reading by a vote of 22 to 18.

#### House—Tuesday.

The house had enough bills already on the calendar for a heavy day, yet something like 25 more local bills were introduced.

Many bills were reported on by the committees.

#### THE MEANING OF VOICES.

##### A Superstition That Carries a Great Truth.

A student explorer in the land of the Ekoi relates, in a recent issue of the London Times, a most charming superstition which this strange people entertain concerning babies.

It is their firm belief that the spirits of little children will not tarry in a home where there is strife. A child so loves gentle voices and kind looks that if these are not to be found in the family to which nature has entrusted it, it will soon close its eyes and forsake the earth until it finds a chance to return again amid grown folk less quarrelsome. And believing this, the Ekoi, it is said, never speak harshly to one another when a child is present or even a mite of a baby is near by.

Civilization has much to learn from the simple people of the wilderness; and what lesson could be more profitable than this from the land of the Ekoi? Beneath the imagery of the so-called superstition lies a deep human truth. How many children's souls are chilled and hardened by the petulant or angry speech of the elders among whom they live!

There is, perhaps, nothing that carries so poignant an impression as the voice. It is by this that we often form our lasting likes or dislikes of men and women. A home is bright or cheerless, sweet-tempered or sour, contented or querulous, according to the sound of the voices that are heard about its firesides.

Of all the influences that affect children and mold their disposition, few, if any, are more subtle or more potent than the voices of its parents.

#### Snow, Rain, Hail, Rain.

March could hardly have made a more disagreeable start in the way of weather than it began with today. Nearly all the morning it snowed, until house tops and dry places on the streets began to look white. Then it rained and melted the snow. Then came hail for a while to be followed by rain again, giving a raw, damp, disagreeable temperature.

Occasionally a man visits his wife's relations—if he has nowhere else to go.

March must certainly mend this lick if it wants to stand in favor.

#### WINTERVILLE ITEMS.

##### Notes From Our Hustling Neighbor—What Its People are Doing.

Winterville, N. C., March 1.—Mr. M. G. Bryan and Jesse Rollins went to Ayden Sunday.

Mr. L. M. Browning, of Kinston, was in town Tuesday evening.

See Harrington, Barber & Company for your patterns and magazines.

Mr. "Pistol" Cannon went to Ayden Monday night on a pleasure trip.

Just received a car load of flour and prices cheap for cash. Harrington, Barber & Company.

Mr. J. R. Smith, of Ayden, was in town Tuesday.

Lime, salt and cement, at A. W. Ange & Company's.

For all kinds of farm supplies, see A. W. Ange & Company.

Mr. Leon McGlohorn and wife, of Snow Hill, were in town Sunday.

Mr. Charles Hart, of Kinston, was in town Tuesday evening.

Miss Laura Hewett, of Shallotte, Brunswick county, entered Winterville High School Wednesday morning.

Don't forget the slippers and straw hats at A. W. Ange & Company's.

Rev. Robert Carroway filled his regular appointment in the Methodist church Sunday and Sunday night. He preached two fine sermons to large congregations.

#### NEW FRENCH CABINET.

##### Three New Members Were Appointed Today.

By Cable to The Reflector.

Paris, March 1.—Three members of the new French cabinet were announced today. They are M. Caillaux, minister of finance, M. Declasse, minister of marine and M. Caillaux, minister of war. The first two have been in the cabinet before, while Beretoux is president of the army commission of the chamber of deputies.

#### BANK ROBBERS ESCAPE.

##### Cornered in A Hay Loft But Got Away.

By Wire to The Reflector.

Chicago, March 1.—Four supposed bank robbers, after exchanging shots with a posse of citizens and farmers at Walnut, Ill., fled from a hay loft in which they had been discovered and escaped. They are suspected of robbing the Walnut bank of \$3,700.

#### Senator Lorimer Retains His Seat.

By Wire to The Reflector.

Washington, March 1.—Senator Lorimer retains his seat by vote of 46 to 40. The vote was taken at 1:30 this afternoon.

#### HOPES HIS HOME COUNTY WILL GET GOOD ROADS

##### INTERESTED IN "DOWN HOME."

##### Don't See How Anybody Can Object To The Place.

A gentleman who was raised on a farm in Pitt county, but is now a prominent business man in another State, writes a letter commending The Reflector for its improvement and progress, and says:

"I am always interested in anything 'down home.' I hope you are going to get the good roads you are working on, too. I don't see how anybody can object to the plan you have, for it seems to me that the man who would get the least benefit from it would be paid many times over for his part of the cost. There are so many people in the world who are not willing to benefit themselves a great deal, or even a little bit, because somebody else gets a share of it; and they are therefore willing to drag along to avoid doing something that some other fellow may be benefitted by a little."

#### CHARRED BODY FOUND.

##### Robbery and Murder Preceded The Burning

By Wire to The Reflector.

Rochester, N. Y., March 1.—The charred body of James Hyatt was found in the ruins of his home today. He was a recluse and said to have much money in the house. Police believe he was robbed and murdered and the house burned.

#### Sunday School Conference.

There will be a conference of the Sunday school in connection with the prayer meeting service to night at the Christian church.

#### A STRANGE COINCIDENCE.

##### Twice Summoned Home by Death Telegrams.

For several years Mr. and Mrs. J. S. Mundy, of Newark, N. J., have been coming South for the winter, and each season have been spending part of the time in Greenville where they have many friends. About four years ago on their annual visit here to Mr. and Mrs. Oia Forbes, they were called back home by a telegram announcing the death of a brother of Mr. Mundy. They have been here sometime during each winter since, and a few days ago came again to visit Mrs. Forbes. Today Mr. Mundy received a telegram advising him of the death of his brother's widow. This is the second time death messages have called him home from Greenville.

#### BEGINNING OF LENT.

##### How The Date of Easter Sunday is Found.

The question is often asked how the date of Easter is determined, and why it does not always, like Christmas, fall on the same day of the year. The rule for determining the date is this: Easter falls on the first Sunday after the full moon on, or after, the 21st day of March. For example: If there should be a full moon on Saturday night, March 21st, the next day (Sunday) would be Easter. On the other hand if there should be a full moon on Saturday night, March 20th, the next day would not be Easter, but we would have to wait until the full moon in April, and Easter would fall on the first Sunday after this full moon. The reader may consult any almanac and see when the full moon after the 21st of March occurs, Easter in any case would be the Sunday after. Or better still, he might consult the Episcopal prayer book, and find the date of Easter for each and every year between A. D. 1786 and 2013. From the above rule it is easy to see that Easter may come as early as March 22 and as late as April 25th.

Lent always begins 40 days (not counting Sundays) before Easter, it commemorates the 40 days' fasting of Jesus in the wilderness, and culminates in Easter, which commemorates the Savior's resurrection. The last week of Lent is devoted to meditation upon His Cross, His Passion, His Death. In all parts of the Christian world, these seasons are observed by many Christians as times of religious revival.

An old family name has a small chance against anybody's new bank account.

#### FALLS IN THE FIRE AND SERIOUSLY BURNED

##### MR. PETERSON, OF WASHINGTON.

##### The Accident May Reach Fatal Result.

A telephone message from Whichard brings information of a serious accident occurring near there Tuesday night. Mr. B. F. Peterson, of Washington, who had been traveling through the country selling eye glasses, stopped at the home of Mr. M. A. Woolard to spend the night. Mrs. Woolard was in the kitchen preparing supper and Mr. Woolard went out to feed his stock, leaving Mr. Peterson in the house alone for a while. Mr. Peterson, who is about 50 years old, was taken with epilepsy or a fit and fell over in the fire, badly burning his head, face and one shoulder and hand. His injury is believed to be serious and may prove fatal. He has been taken back to his home in Washington.

#### Enlightening a Candidate.

A politician who was making a house-to-house canvass came to a farmhouse, when he observed an elderly woman standing at the gate, and the candidate gracefully lifted his hat and politely asked: "No doubt, my dear madam, your husband is at home?"

"Yes," responded the woman.

"Might I have the pleasure of seeing him?" inquired the politician.

"He's down in the pasture a-burying the dog," was the reply from the individual at the gate.

"I am very sorry, indeed, to learn of the death of your dog," came in sympathizing tone from the candidate.

"What killed him?"

"He wore himself out a-barking at the candidates," said the woman.—From Tit-Bits.

##### Minister Challenges Minister in Spencer—Killed by Train Near Sanford—Man Found Dead Near Wilmington—Murder or Suicide in Charlotte Hotel.

Wilmington, Feb. 27.—Lying at the very edge of the water on Middle sound, near Wilmington, the dead body of Eli Herring, a white man, about 55 years of age, was found this afternoon by a relative, who was searching for him. Herring had been working at the farm of his brother-in-law near the sound, but last Sunday came to Wilmington, where his family resides. There was no communication between the two families until yesterday and hence Herring was not missed as those on the sound thought him in Wilmington and his family was under the impression that he had returned where he had been working. It is believed that Herring was intoxicated and laid down on the edge of the sound and froze to death. He was last seen yesterday a week ago. Grass had been twisted into a kind of rope and wrapped around Herring's body.

Spencer, Feb. 28.—In the course of a revival held in Spencer Presbyterian church during the past week Rev. G. W. Belk, Synodical evangelist for North Carolina, preached a sermon on the peculiar doctrine of the church, with particular reference to baptism. He challenged any one of his hearers to show even one passage of Scripture wherein the church is wrong. Rev. J. L. Vipperman, pastor of Spencer Baptist church, has issued a public invitation to Rev. Mr. Belk to set a time and place when the two ministers may meet and have a public discussion of the distinctive doctrines differentiating the Baptist from the Presbyterian church. It is not yet known whether the Presbyterian minister can meet the Baptist minister as the former was called home Sunday night on account of the death of a member of his family.

Sanford, Feb. 28.—John Howard, a white man, was killed and Capt. J. L. Jordan, section foreman on the A. C. L. had his left leg cut off at the knee by being caught under some cars on the A. C. L. yards here at 9 o'clock this morning. During the night a freight train had derailed some cars on the yard near the depot and the section force with Capt. Jordan in charge, were sent here early this morning to replace the derailed cars, and they had just started to work at them when an engine on the west end of the yard hit a long string of cars and backed them upon the men at work. Howard was mangled beyond recognition, his head and the whole left side smashed into shreds. Captain Jordan only had his left leg caught as he jumped from the track and it was almost completely severed at the knee.

A. J. Winn, a traveling salesman of May & Ellis Company, of New Orleans, is dead in the Z. A. Novis undertaking establishment on North Tryon street as a result of a pistol shot through his head. The pistol was fired at 10:17 o'clock this morning in room No. 18 of the Leland Hotel, where the young man was stopping. He arrived in the city Saturday. A woman, known as Louise Stephens, said to be the wife of the 28-year-old man, was thought by Col. H. C. Williams, proprietor of the Leland Hotel, to have been in the room at the time of the tragedy. She, however, stated shortly afterwards, that she was in another room and didn't even remember hearing the shot.—Charlotte Chronicle.

#### Water and Light Report.

The water and light commission of the town has issued in neat pamphlet form the annual report of the superintendent for the year ending December 15th, 1910, together with a statement of assets and liabilities from the auditor's report. In the report is given a comparison of electric current rates in a number of cities showing the cheapness of the rate charged in Greenville.

##### PLEA OF INSANITY ABANDONED.

##### Sentence Will be Passed March 27—Other Indictments Pending.

By Wire to The Reflector.

New York, March 1.—Abandoning the defense of insanity and throwing himself on the mercy of the court, Joseph G. Robin today pleaded guilty to the indictment charging him with the larceny of \$27,000 from the Washington Savings Bank, of which he was formerly president. This action was taken after a conference of lawyers which decided that no adequate defense could be presented. Justice Seabury announced that Robin will be sentenced on March 27th. There are still seven additional indictments against Robin.

#### GREENVILLE WILL HAVE BASEBALL THIS SEASON

##### ENTHUSIASTIC MEETING HELD.

##### Committee to Confer With Other Towns as to Forming League.

Greenville's interest in baseball the coming season was shown by the large attendance of enthusiasts at a meeting in the city hall Tuesday night, something like 75 being present. Mr. J. B. James was asked to preside over the meeting, and Mr. G. J. Woodward acted as secretary.

In calling the meeting to order and stating its object, Mr. James said he had received several letters from Kinston, Grifton and Ayden asking that Greenville join with those towns in establishing a league to be composed of strictly home players, each town to have two games each week, beginning about the middle of June and continuing until September.

It was decided to appoint a committee consisting of Dr. E. A. Moyer and Mr. J. B. James, to meet the representatives of the other towns at an early day and get their proposition for forming the league, and report the result of their conference back to another mass meeting to be held as soon thereafter as possible. The meeting of these representatives will be held next week.

It was also stated with authority at this meeting Tuesday night that parties have all their plans ready to build a baseball park here if the league is organized, and that they will have the park in readiness in ample time for the opening of the ball season.

So it looks like Greenville can enjoy much good ball playing the coming summer. As soon as the conference of representatives of the four towns is held and the result reported, further details can be given.

WEDNESDAY, MARCH 1, 1911.

Charlotte is rejoiced that she has saved the mint.

As the moon has changed, the weather may do likewise.

If Raleigh keeps on it will get a reputation for political rottenness equal to Pittsburg.

Whether you do good or do bad, you do not have to run around and tell it. Folks will find it out.

If the health scientists are yet in doubt as to the cause of pellagra, what can be expected of the rest of the folks?

Just think of the United States senate being filibustered for an all night session and listening to an eight hours' speech.

People go to hospitals for health, but the closing of one in Baltimore, because of an outbreak of diphtheria in it, reverses the order of things.

March will do its own blowing. Greenville should take the cue, or rather the horn, and do likewise. The Reflector stands ready to be the mouthpiece.

Mr. Carnegie expresses pride in having made forty millionaires in his day. Some of the rest of us are left out yet, if he wants to try his hand at making some more.

The Durham Sun calls Congressman Hobson "America's Roman candle." Better, America's Roman punch.—Wilmington Dispatch.

Better still, a Japanese pop cracker.

It is noticeable that the anti-bonds for good roads people have quit pointing out the sand-clay roads as failures. Where sand-clay work has been done the roads now speak for themselves.

"Some of us have no idea what we would get if we really had our deserts," remarks the Greenville Reflector. Maybe so, but we always know what the other fellow would get.—Wilmington Dispatch.

Not always what he would get, but what we would like to see him get.

Long before the Panama canal is completed, they are talking about fortifying. So one thing calls for another. Better do away with the war business, then there will be no need of fortifications.

The senate judiciary committee of the legislature, must have looked with scant favor upon anti-trust leg-

islation. The committee voted unanimously to give the Baggett anti-trust bill an unfavorable report.

We are a bit curious to know what Cowan, Patton, Robinson, and Whichard think of recent rulings that frog legs are poultry, the hen is not a bird and a lobster is not an animal.—Greensboro News.

What we think, is that all the fools are not dead yet.

The "Blue Mouse," said to be a very indecent theatrical play, is headed toward Raleigh, and the News and Observer has set to work to head it off, as was done for "The Girl from Rectors." If words seem to fail, Josephus, call down the Pokeberry juice.

The Durham "Daily Sun" is twenty-three years old. It was founded by Mr. J. A. Robinson, and while he was off a short time amid the changes made by the paper during the past year, he is back at the helm as editor and is making the Sun brighter than ever.

After licking them and taking everything they had away from them, colonizing them off to themselves and making them the prey of government sharks, it is now proposed to erect a monument to the Indians, provided, however, that the people will chip in the money with which to build it.

When you patronize The Reflector you help it that much to become a better paper. It is striving to be a credit to Greenville and Pitt county, and from the frequent commendations received it must be approaching its ambition. It believes in home, is working for home, and tries to create a spirit of home pride in every reader.

Speaking of people moving from one town to another, wouldn't it be a fine thing if all the moss backs, the tight wads, the knockers and the leeches would take a notion to get out and leave the town to those who are willing to do something to help build it up?—Gaffney, S. C., Ledger.

It would for sure. At the same time there should be some pity for the towns to which they might migrate. But if they all could be corralled together in one place out of reach of everybody else, then there would be cause for abundant rejoicing.

**What Makes Mirrors Reflect?**  
Mirrors that are made of glass have metal placed on one side of the glass. The light will pass through the glass, but will not pass through the metal backing. Light has the property of bounding from a surface that it cannot penetrate, the same as a ball would when thrown against a surface that it cannot penetrate. The light passes through the glass of the mirror, meets the metal backing and then bounces from it. This bounding of the light from the metal surface is called reflection, and mirrors are said to reflect.—St. Nicholas.

Puts Life into Faded Hair and Stops Scalp Itch.

If your hair is getting dull and lifeless, is falling out and getting thin on top, then you need Parisian Sage, and the quicker you get it, the sooner you will thank us for selling you such a worthy dependable hair grower, dandruff cure and hair dressing. Read what Mrs. M. A. May of 107 East Elizabeth St., Detroit, Mich., writes on June 6, 1910:

"I have used many hair restorers" but have received no apparent benefit until I tried Parisian Sage. My hair is soft and silky, and while before I commenced using the remedy my hair was falling fast, was dry and harsh, faded, and altogether unlovely, now just within the past few weeks several have remarked how lovely my hair was. It is also fine just for a dressing, leaving the hair soft and fluffy. It removes dandruff, and cures itching of scalp. I certainly take pleasure in recommending Parisian Sage."

Parisian Sage is sold by Coward & Wooten and druggists everywhere. Get a 50 cent bottle to-day, use it for two weeks and if you are not satisfied that it will do all that it is advertised to do you can have your money back. The girl with the Auburn hair is on every package. Feb. 18 to Mch. 1, 1911.

### Wife Got Tip Top Advice.

"My wife wanted me to take our boy to the doctor to cure an ugly boil," writes D. Frankel, of Stroud, Okla. "I said put Bucklen's Arnica Salve on it." She did so, and it cured the boil in a short time. Quickest healer of burns, scalds, cuts, corns, bruises, sprains, swellings. Best Pile cure on earth. Try it. Only 25 cents at all druggists.

### Strength of Mormonism.

It is a fact that in the region where Mormonism had its birth in this country—Salt Lake City—the adherents of other religions have been gradually gaining the ascendancy in political power. It is no longer a cinch that the Mormon can govern Salt Lake City; but the adherents of the Mormon faith are still to be seriously reckoned with.

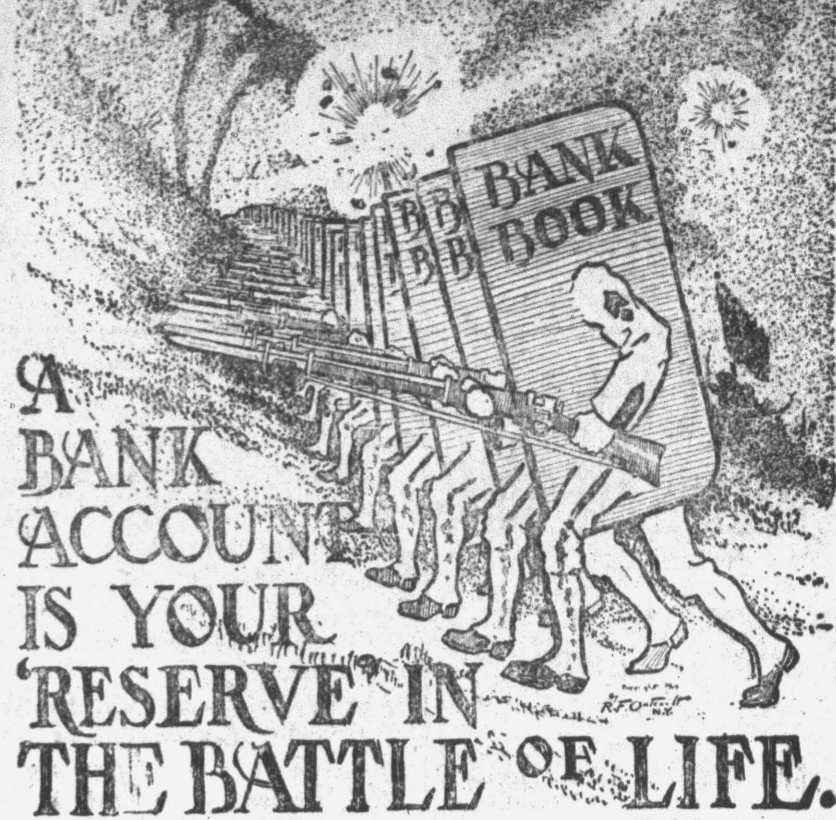

For instance, if any one has gained the impression from the fact that three "modernist" professors in the Brigham Young University at Provo, Utah, are to be tried for heresy, that the faith of the Mormon salutes is speaking through inroads made by modern scientific teachings, he should read the series of articles on Mormonism recently published in one of our popular magazines. The number of professors in Mormon schools who favor advanced thought compared with the number of church leaders and believers among the people is infinitesimal.

The fact is, largely through the mistaken gift of statehood to Utah, Mormonism, including polygamy, is more stongly entrenched and more aggressive today than it ever was before. Polygamy is the corner stone of the whole system. It is not only held as an essential article of faith, but is largely practiced. Professors of biology, psychology and education may come and go, but the rank and file will hold fast to their doctrine and debasing superstitions.—Greensboro News.

## NEWSPAPER PRESS FOR SALE.

Having placed an order for a new fast newspaper and book press, to be installed the middle of April, we have a newspaper press that will be sold at a bargain for delivery May 1st.

It is a Monona Leverless Press, large enough to print four 6-column pages, or two 9-column pages and has steam fixtures so that it can be run either by hand or power. Been in use six years.

It is a splendid press for a weekly paper and is in good condition to do many years good service. We used a press from the same factory for 17 years before installing this one, printing a daily paper with small circulation about 10 years of that time. Its speed, 800 an hour, is too slow for a daily paper with the present circulation of The Reflector, and for that reason we are having to displace it with a faster press.

Any one interested and wanting a good press for a weekly newspaper, can see this press at work every day in the Reflector building, before our new press is installed. Any one who cannot come to see it at work and examine it, can get particulars by addressing

The Reflector Company,  
Greenville, N. C.

#### The Discharged Prisoner.

The man out of work, if he wants work, deserves sympathy; the man lately released from prison is to be pitied; but the case of the man who is both out of work and also just out of prison seems to call for a double portion of the compassion of the good Samaritan. Some of the most valuable agencies of social regeneration are those which are at least able to exhibit tangible results of their beneficence. They do the best they can with the means at their disposal, but, as the Washington Herald says much of the good that they accomplish eludes statistical formulation. It cannot be set down in figures in a report.

It is hard to imagine a more deserving form of philanthropy than that which reclames a man to usefulness. In Philadelphia there is a Home of Industry for discharged prisoners, the annual report of which has just appeared. This document indicates a result which does not appear in the mere tabulation of 24,288 brooms manufactured or 1,272 chair seats caned by these men. The main thing is that they are given work and pay at once, and the chance to find more work so that they can lift up their heads again and look the world in the eyes and feel that they have been restored to the self-respecting status of other men.—Durham Sun.

#### Falls Victim to Thieves.

S. W. Bends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for 12 years. They were a liver and kidney trouble. Then Dr. King's New Life Pills throttled them. He's well now. Unrivaled for constipation, malaria, headache, dyspepsia. 25 cents at all druggists.

#### THE POLICY IS DIFFERENT.

##### German Vs. American Policy in Competition.

Germany, through its paternal form of government, has departed from the system of unbridled competition so conspicuous in the commercial activity of the United States. The Germans assert that it is better for the people as a whole to permit small manufacturing concerns to make price agreements with their larger competitors, as such agreements tend to build up the smaller manufacturers, diffuse the employment of labor and prevent the development of overgrown corporations. In their stead they have enormous trusts, greedy and daring. The various state governments of Germany, through their legislatures and executive department, control, in their interest of the ultimate consumer, the price paid by the Germans. There is, however, no limit to the prices which may be charged the people of other countries.

The policy of the United States is different. Laws have been enacted in this country which stimulate competition between the larger and the smaller companies by forbidding reasonable price agreements. The effect is that the smaller companies are often demoralized and forced out of business or are forced to sell to their larger competitors, thus forcing the various industries into the control of large corporations and defeating the object of the law. In international trade the two systems occasionally clash, and they are now in collision over potash and other articles.—W. C. Jenkins, in National Magazine.

#### FLORIDA SPENDED RECKLESS.

Louis Friedman Squandered \$3.22 in Four Days in New York.

Louis Friedman, the Florida spender, who arrived here last Sunday morning with \$3.90 in cold cash to squander, after having been in a southern railway train hold-up, has left town. Just before the Florida special drew out of the Pennsylvania station on its long flight south, a reporter managed to awake Friedman from a sound sleep. He thought it was another train holdup at first, but did not attempt to use the revolver that he afterward produced from under the pillow. The merchant from Pensacola spent \$3.22 on his 4 days' lark in New York. He had 68 cents of the original \$3.90 left when he reached the station.

"I have seen your town from end to end and back again. I used the subway once on Monday, when I rode to the end of the line. I tried to get in the Zoo in the Bronx, but it was pay day there, so I came back. I never did like animals, anyway.

"I slept in the Mills Hotel in Bleeker street at 25 cents a night. I got enough to eat by buying a sandwich several times a day. I went to Tom Sharkey's once in a while and bought a glass of beer, and then filled up on free lunch.

"I did not go to many moving picture shows, as it was enough fun just to wander around the streets and watch the crowds."

"Did you see any of the fashionable hotel life of the city?" he was asked.

"I spent Monday morning ago-in around the hotels. I went into the Hoffman House as though I was the United States senator from Florida and started to read. Pretty soon a boy dressed up like a real admirable came a-hollerin' down the corridor, Mr. Friedman! Mr. Friedman! You couldn't see me for the dust.

"The women here are good looking—much better than down in my home town—but don't quote me on this, as it might get me into trouble.

"I ran into an easy graft on Tuesday. They were demonstrating a new cracker in a store on Warren street, and I went in and let them feed them to me until the people in charge began to get suspicious."

"How did you like the Bowery?"  
"That sure is an overrated thoroughfare, all right," he answered. "I did not even see a flight all the time I was there."

"Washington's birthday was the best day of my vacation here, and it ought to have been, as it cost more money than the others. There is something in the New York air that makes you loosen up. I got up late that day and got up to Forty-second street and Broadway just as the whole town seemed to be getting ready to go some where. I couldn't resist the temptation, and spent a quarter to go to the theatre.

"Like to live here? Well, I don't know, I think I would get nervous prostration trying to save spending money."—New York American.

#### Tortured for 15 Years.

By a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John M. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. Its surely a grand remedy for stomach troubles." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at all druggists.

#### HIDDEN DANGERS.

Nature Gives Timely Warnings That No Greenville Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of the approach of dropsy, diabetes, and Bright's disease. Doan's Kidney Pills help sick kidneys. Here's Greenville proof:

James Long, Dickinson ave., Greenville, N. C., says: "I am certain that Doan's Kidney Pills are a remedy of merit and I do not hesitate to recommend them. When I was suffering from backache, pains in my kidneys and other symptoms of kidney and bladder trouble, I got a supply of Doan's Kidney Pills from the John L. Wooten Drug Co. It did not take them long to bring me relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—take no other.

#### Punishing Children.

The Mount Airy News is moved to some interesting comment upon a case of cruelty to children which recently attracted police attention in its community. It seems that a father had gone beyond the bounds of decency in the administration of corporal punishment before the law took cognizance of the matter. "The idea that a man can beat a child, no matter how small," says the News, "until that child is permanently injured before the law can say stop, is repulsive to all thinking people. But that is the law of North Carolina and has been for years." The American theory of government wisely leaves the training of children to parents wherever this is at all practicable, and in the vast majority of cases natural affection operate to prevent discipline from degenerating into cruelty. Now and then a vicious parent makes a child's life unbearably miserable. Even were the law to assume much closer supervision of the matter than it does at present, it would be of little value on account of the difficulty of enforcement. Cases are so rare that the machinery would become rusty from disuse between times of need.

One remedy for such situations lies in the pressure which any neighborhood has in its power to exert in the interest of humanity. An inhuman-father could scarcely inflict cruelty upon his child without some of his neighbors becoming aware of it. The brute who would be guilty of such a practice would presumably possess no great amount of moral courage, and firm representations made to him by outraged neighbors backed by intimations of more overt interference to come, would usually have a corrective effect. The weakness of this means of protection for the children lies in the indifference to what's going on around us which absorbed attention to our own affairs has brought in its train. Cases might occur where the neighborhood would fail to act because it would not take time to inform itself of the conditions.—Charlotte Observer.

#### Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Texas, when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due to Dr. King's New Discovery, which completely cured me. Now I weigh 137 pounds and have been well and strong for years." Quick, safe, sure, its the best remedy on earth for coughs, colds, laryngitis, asthma, croup and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

#### The Highest Kite Flight.

The art of flying kites is carried to its greatest perfection at the large aerological observations, and the best records of altitudes up to date have been made at Mount Weather, Va., and Lindenberg, Germany. The former station is 525 metres above sea level, the latter only 120, a circumstance that should be remembered in comparing the records made at the two places.

The following list of highest flights recently published by Dr. Assmann, gives the altitude above the ground, not above sea level: 1. Mount Weather 6,470 metres. 2. Lindenberg, 6,630 metres; 3. Mount Weather, 6,519 metres; 4. Mount Weather, 6,484 metres; 5. Lindenberg, 6,350 metres, and 6. Mount Weather, 6,379.—Scientific American.

### "THE ETERNAL FITNESS."

Legislative Committee's Endorsement of State Prison.

There is an old, old saying about the eternal fitness of things, or expressed in more modern terms, the right man for the right place, and the truth of this saying was probably never more clearly shown than in the selection of the management of the State's prison and farm during the present administration. Governor Kitchin realized the truth of this old saying and selected a man to head this important State institution who was a practical farmer, a man who had made a success of the very work he would be expected to do in handling the state's prison and the state farms. The result is so plain that we feel it is due the people of the State to know how this man, Superintendent J. J. Laughinghouse, is succeeding with this big undertaking and we quote in full the unanimous report of the joint legislative committee. This report is the best proof of the wisdom of filling the State's positions with men who are competent to fill the places, instead of putting men in office who are not capable of handling the trust reposed in them. That the people of the State may see what is being done in this department we herewith give the report of the joint committee: To the Honorable the General Assembly:

We have been to the State farm as your committee, to make an inspection of this valuable state property. We find everything in splendid condition, save one or two necessities that we feel if added will make a model farm, that we will recommend. If the present management continue to make improvement as they have for the past two years, the state will have a farm that will be worth half a million dollars.

The state's superintendent furnished us an inventory of the permanent improvements that had been added to the farm, amounting to \$50,000. Your committee went over each building, carefully inspected them, also the mules and horses, the improved farming implements and machinery, all nicely stored under the new shelters; went over on the dyke work and believe that the estimate made of all these permanent improvements are very conservative. The large two-story stables to accommodate 36 mules at each farm and two shelters, 60x180, with sealed floors to hold any kind of grain, are estimated at \$3,500, could not be built for less than \$5,000 by private contractors. We find all the quarters for sleeping and eating with doors and windows screened and the regulation iron-barred windows, instead of wooden slats, everything is in fine sanitary condition. Prisoners were in good condition, well clothed and fed. All the teams are in fine condition in spite of having worked all the winter in building the dykes, which is the hardest of all work.

Three things are needed to make this a model farm: First, water-works, lighting plants and spur track from Tillery to the farms, four miles. The superintendent tells us they will have to haul over this road this spring, 1,125 bales of cotton, 30,000 bushels of cotton seed, 25,000 bushels of peanuts from the farm, and from the railroad to the farm 600 tons of fertilizer. From what we can learn of the supervisors, who have been at the farm for 12 years or more, there has been more improve-

**AIR PRESSURE WATER SYSTEM**  
Water under pressure for kitchen, laundry, bathroom, sprinkling lawn and garden, watering stock and for fire protection.

An air-tight steel tank in the basement, or in an out house, stores the water as it is pumped by hand or power and forces it through the pipes and faucets by compressed air in the upper portion of the tank. No elevated or attic tank to freeze and become stagnant. Water kept cool, clean and pure.

If you want anything of the kind, see me and I can make you low prices on the complete system installed in your home or farm.
