## MUCH EXCITEMENT IN MEXICO

### AMERICAN TROOPS ON FRONTIER CREATE SENSATION

### STRONG ANTI-AMERICAN FEELING

The Tarnoll is Greater Than at Any Time Since the Revolution Started—Americans Warned to Remain Indoors—United States Troops Moving.

By Wire to The Reflector.  
Mexico City, March 8.—If American soldiers had actually invaded Mexico and were now marching on the capital, no greater excitement could be apparent than that shown today over the massing of the United States army upon the Mexican frontier. Coupled with highly censured reports of insurrection success in the north, and unofficial reports that President Diaz is ill, all elements prevail to make a situation of turmoil greater than at any other time since the revolution started last year. Anti American feeling ran strong. Knots of excited men gathered in the streets and denounced Americans. Americans were warned by police to remain indoors.

Washington, March 8.—The troop movement to the Mexican border continues with unabated vigor. From different sections of the country trains of troops are now headed towards Mexico.

Great activity is also displayed at the navy yards. At the Brooklyn yard the cruiser Tennessee, Montana and North Carolina are coaling rapidly preparatory for sailing for Galveston. The war department still says movement is only for maneuvers

### WITH MRS. E. G. FLANAGAN.

### Entertains in Honor of Mrs. T. M. Hooker.

On Tuesday evening at her home on Evans street Mrs. E. G. Flanagan gave a reception in honor of Mrs. T. M. Hooker, the recent bride.

The hostess and guest of honor met the guests at the door, and after wraps were removed, they were served with punch by Mrs. T. M. Washington, of Wilson, and Mrs. J. L. Wooten.

Mrs. R. C. Flanagan and Mrs. W. L. Hall received at the sitting room door, and Mrs. H. L. Coward and Mrs. T. E. Hooker at the library door.

The color scheme of the home was a suggestion of spring, having a profusion of johnquills and violets, with ferns and potted plants. The punch bowl was decorated with lace ferns and johnquills and rested in a bank of violets.

A game of heart dice was enjoyed by all present, the prize, a handsome picture, being won by Miss Vernessa Smith. The guest of honor's prize was a bunch of carnations, and the booby, also a picture, was awarded to Mrs. C. C. Skinner, of New York. Score cards ornamented with Christy pictures were used, these being distributed from a yellow basket by Miss Viola Keeter.

The refreshments, served by Misses Lila May Willis, of New Bern, Mary Smith and Nannie Bowling, were in keeping with the color scheme, the ices in yellow, and each guest received a souvenir bunch of violets and ferns.

### For Larger Yields.

The oat crop can be increased in yield by early sowing, thorough preparation of the soil before sowing and very little work afterward. Good seed is of the greatest importance. Plow the ground in the fall, then put the oats in with a drill as early as the season and condition of the soil will permit. The oats should be well fanned and separated, so that nothing but the heaviest and plumpest are put in the ground, as they have the greatest vitality.

We have plowed deep just before planting with good results, but I do not believe deep plowing is very necessary to light soil or new soil. Nor is it necessary to plow deep every year. Once every two or three years is all that is necessary.—L. W. Still, Mont Ida, Kan.

Rochdale, N. C., March 7.—Miss Maud Lassiter and little brother, of Snow Hill, were visiting at Mr. Ivey Smith's Friday night.

Mrs. Ellen McLawhorn, of Ayden, is spending some time here with relatives.

Messrs. R. E. Willoughby and J. R. Smith went to Ayden Saturday.

Mrs. C. L. Tyson and children, of Renston, visited relatives here Saturday and Sunday.

Mr. Guy Lassiter, of Snow Hill, visited Mr. Mark Smith Saturday and Sunday.

Mr. and Mrs. Walter Gay, of Farmville, were here Sunday.

Miss Agnes Smith, of E. C. T. T. S., came home Saturday and returned Monday.

Mr. John Flanagan and wife spent Friday night at Mr. Ivey Smith's.

Miss Emma Joyner, of Greenville, spent Saturday night and Sunday here with relatives.

Mr. W. F. Walters, of Ayden, filled his regular appointment at Arthur Sunday.

Mrs. Lloyd Smith and Miss Gertie spent Saturday and Sunday in Farmville.

Little Melton McLawhorn happened to a bad accident Monday. He chopped his thumb with a hatchet and amputation was necessary.

Chicago, March 8.—After weeks of wage negotiations, a settlement has been reached between the Wabash railroad officials and employees in the train service. An increase of wages was granted.

### HALIFAX COUNTY DOES SOME RECORD BREAKING

### THINGS "UNCLE TOMMY" FINDS.

#### County Pensions to Old Soldiers—A Remarkable Blind Couple.

Scotland Neck, N. C., March 7.—Mr. Editor: I have been here just a month and a week, and I have made many friends and have found the people generally very congenial and nice to me. It is beginning to seem like home and I am enjoying myself here fine. I have been well ever since coming here. They have a nice little town of about 1,700 inhabitants.

The Buck Kitchen Camp of Confederate veterans meet once a month and they are served with a nice dinner every time they meet by the good ladies of Scotland Neck.

Scotland Neck has two record-breakers and Halifax county one. (They are record-breakers so far as my knowledge goes). The county pays all the old soldiers a pension every month of three, some four and some five dollars. I had thought that Pitt was about as liberal and friendly toward the old soldiers as any county in the State, but I find that Halifax beats her in pensioning of her veterans.

Scotland Neck beats all records that I have ever heard of in three old soldiers, father and two sons. Mr. Duke Allsbrook, the father, 91 years old. Mr. Bennett and Mr. Wilson Allsbrook, sons, 71 and 69, respectively, were all in the war together.

Another record-breaker is a blind couple living together here. It is a Mr. Lasiter and his wife, both blind, and the most strange part of it is the wife does her own housework, such as cooking, sewing, cleaning, etc., and they have an adopted daughter of about eight years. Mr. Lasiter walks up town to his place of business where he makes mattresses and does upholstery and repairs chairs and puts up very good jobs. By using a stick to feel his way he can go to any place in town that he wants to go to.

It is now 3:20 p. m. and it is snowing thick and fast, and its been raining some since 1 o'clock, but the rain has ceased.

### MRS. POE DEAD.

#### Mother of Mr. Clarence H. Poe Died Yesterday.

Mrs. William Baxter Poe, of Chatham county, died yesterday at the home of relatives in Georgia. Mrs. Poe was the mother of Clarence H. Poe, of this city and since Mr. Poe has been abroad had together with her daughter, Miss Daisy Poe, been staying with relatives in Georgia.

Her only son, Mr. Clarence H. Poe, went abroad last summer. He arrived in New York City yesterday enroute home and there found a telegram telling him of his mother's death. His boat was two days overdue, having been delayed by rough weather. He left New York last night and will pass through Raleigh tonight. He will be joined here by friends and they will meet his mother's remains at Sanford. From Sanford the remains will be taken to the old home in Chatham county for burial.

Mrs. Poe was a most estimable lady and had hosts of friends in this section who will learn of her death with regret. Her husband died September 4th, 1907.

Much sympathy is felt for the only son, whose home-coming has been deprived of all its joy. There were only the two children.—Raleigh Times, 7th inst.

### LECTURE AT TRAINING SCHOOL.

#### By Doctor A. A. Kent, of Caldwell County.

Dr. A. A. Kent, a member of the legislature from Caldwell county, made an excellent talk in the assembly hall of the East Carolina Teachers' Training school this morning on "Relation of the Teacher to Public Health." Public questions pass over the country in waves. The question of health and the prevention of sickness and disease is now of supreme importance. The doctors realize that they alone cannot work this problem out. They look to the teacher, who comes in direct contact with the people and who can impress the children for co-operation. This legislature placed the superintendent of each county on the board of health because they deemed this the best way to get the teachers interested in the subject.

He closed with an appeal to the student-teacher to co-operate with the doctor in the work against disease.

### HON. JOHN H. SMALL HURT.

#### Struck and Dragged by Trolley Car.

Trenton, N. J., March 7.—Congressman John H. Small, of North Carolina, who spoke at tonight's dinner of the chamber of commerce in Trenton was struck by a trolley car here this afternoon while alighting from an automobile. He was dragged about fifteen feet on the fender of the car but when examined by a physician was thought not to be seriously injured. The congressman in alighting from the automobile which brought him from the railroad station to the chamber of commerce building got out on the wrong side and did not notice the approaching trolley car.

### SOUTHERN CONGRESS.

#### Gen. J. S. Carr Responds to Address of Welcome.

By Wire to The Reflector.

Atlanta, Ga., March 8.—The third annual convention of the Southern Commercial Congress opened today. Senator Fletcher, of Florida and Secretary Wilson, of the department of agriculture, were the principal speakers today. Governor Brown extended welcome and General Julian S. Carr, of North Carolina, responded: Several other speeches by prominent business men were made.

#### Fire in Lake View—Convict Shot by Guard at Wilson—Woman Burned to Death at Fayetteville—Contract Let for Link in Interurban From Charlotte to Kings Mountain.

Lake View, N. C., March 6.—Two persons lost their lives and two others received serious injuries and burns in a fire which occurred early today, destroyed the Lech Crystal Hotel, a tourist resort, just open this season.

This morning while the county conducts were working on the Santonsburg road, a few miles from Wilson Tom Simms, colored, attempted to escape and was shot through the body by Mr. Speight McKeel, one of the guards. The ball entered behind the left shoulder.—Wilson Times.

Fayetteville, March 7.—Mrs. Celia Utley Mackethan, wife of Major A. A. Mackethan, clerk of the court of Cumberland county, died shortly before noon today as the result of burns received yesterday morning through the accidental catching afire of her clothing from an open fireplace in her home while preparing to attend church. As she was alone in the house at the time of the accident, Mrs. Mackethan was enveloped in flames before help could reach her. Her clothing was entirely consumed and severe injuries received, which, combined with the shock of the terrible happening proved fatal.

Weldon, March 7.—Work of tearing down the old Atlantic Coast Line hotel began here yesterday. A Rocky Mount firm has taken the contract to remove the famous old landmark, and all the timbers in the building will be taken to Rocky Mount. This is one of the largest frame hotel buildings in North Carolina and was erected long before the war between the States.

Miss Blandye Berry and Mrs. Mel. Pope narrowly escaped death Monday evening about 6:30 when a Southern railway shifting engine and a draft of cars run them down at the Chapel Hill street crossing, completely demolishing their vehicle and badly injuring Miss Berry. The buggy was carried some distance, and that Mrs. Pope escaped without injury is considered miraculous. Miss Berry was thrown from the buggy and received bruises about her body and face.—Durham Sun.

The contract for the first link in the big interurban line to be constructed by the Southern Power Company has been let to Stewart & Jones of Baltimore. The link will run from Charlotte to Kings Mountain a distance of 35 miles, and the contract calls for its completion in 120 working days. The bid was \$400,000. There will be a 1 per cent. compensated grade, and 80-pound rails will be used. The link will run via Mount Holly and Gastonia. The contract for the next link, from Greenwood to Greenville, S. C., a distance of 90 miles, will be let in Greenville the latter part of the week. There are some local matters to adjust before the contract for the link between Greenville and Kings Mountain is let.

### His Golden Wedding.

Uncle Ephriam had put on a clean collar and his best coat and was walking majestically up and down the street.

"Aren't you working today, Uncle?" asked somebody.

"No, suh, I'se celebratin' mah golden weddin', suh."

"You were married fifty years ago today, then?"

"Yes, suh."

"Well, why isn't your wife helping you to celebrate it?"

"Mah present wife, suh," replied Uncle Ephriam with dignity, "aint got nothin' to do with it."

### NEW PLAN FOR MILEAGE REFORM

#### Traveling Men Submit Entirely New Idea to Railroad Officials.

The representatives of the leading traveling men's organizations in Georgia believe they have found a plan for mileage rule reform which will satisfy them and the general public and at the same time meet the approval of the railway traffic officials.

At a meeting of the central committee held at the office of H. M. Ashe Thursday afternoon, at which Messrs. W. P. Anderson, J. H. Andrews, W. S. Lounsbury and H. M. Ashe were present, it was decided to submit this proposition to the interested railroad officials, and a meeting with them has been asked for.

The new mileage idea is radically different, it is stated, both from the system now in vogue in Georgia, and from the improvement as originally demanded by the traveling men. In fact, it is a scheme newly invented, which, if it proves to be as practical as its advocates hope, will revolutionize the mileage system.—Atlanta Journal.

### A Safe Harbor.

The home that possesses a cheerful wife and mother is not only a veritable haven of rest, but the safe harbor whose beacon light will guide her breadwinners safely past all rocks and shoals with unflinching certainty. The woman whose cheerful spirit can take that "brave attitude toward life" that enables her to bear courageously the inevitable burdens of her life's environment, that strengthens her determination not to fret or worry those who for her sake are fighting the hard battles in the world, has reached that attitude that proclaims her price above rubies, and her influence and examples are not felt only within the limits of the four walls she has made the unassailable bulwark of state and society, a happy home, but reach to those she knows not of.—Durham Sun.

WEDNESDAY, MARCH 8, 1911.

If you are hunting for the best town, come to Greenville.

Maybe the prospect of war on the Mexican border will make Hobson say "I told you so."

The legislature did finally come to the point of locking up the club lockers against the sale of liquor.

Be either a booster of a bouncer. That is if you can't boost, bounce out of the way of the fellow who wants to boost.

There will be no more 'possum and saw dust bills to write about for two years, until the legislature meets again.

Another North Carolina newspaper that is getting old, and better as it grows, is the Smithfield Herald, that recently closed its thirtieth year.

March seems to be trying to do its worse in the way of weather. It may be giving the ground hog some satisfaction, but that's all.

The Texas legislature wanted to adjourn, when full pay stopped, without having completed its work, and Governor Colquit gave them a little rap in quoting the parable of the slothful servant.

Men who have money and do nothing with it, except watch for chances to lend it out at usurious rates, are not worth as much to a town as day laborers who turn loose their earnings into the channels of trade.

They even have cock fighting up in Mecklenburg, and on Sunday at that. Last Sunday officers got wind that a pit was going on a few miles in the country, and they went out to pull it. About fifty spectators were on hand and the officers bagged nineteen of them. Patton should be teaching his folks better.

A Texas judge has refused to serve on a reception committee to greet former President Roosevelt on his approaching visit to that State, the reason for such refusal being Roosevelt's misrepresentations in his writings of Jefferson Davis and ignoring efforts of the latter to get them corrected. A man's deeds will follow him.

One thing is certain, and this is that the Southern farmers must rapidly as possible substitute horse-power and machinery for so much human labor. There are plenty of laborers if their labor was made more effective through the use of machinery as is done in the west.—W. F. Massey, in Progressive Farmer.

**Harrow While You Plow.**  
A subscriber to the Oklahoma Farm Journal writes:

Everyone in the semi-arid country who has tried it has recognized the benefits of following each half-day or day's plowing with the harrow before turning out of the field, but many of us, especially on hot days, hate to get off of the smooth riding plow and take up the toughest of farm work—the following of the harrow over the soft ground. Then again, we get in a hurry and decide to finish this "land" before hitching to the harrow, and a lot of valuable moisture is lost that should have been saved and the ground is not in the tith it should be.

When I first saw advertised a harrow attachment for a plow I exclaimed, "Eureka!" But like most of my brothers, when I began to figure on the cost, added to the large amount already invested in farm machinery that I haven't shed-room to take care of, like them, I paused. But I could not get that idea out of my head. I never hitched to the plow without the idea incessantly revolving in my mind and urging me to "harrow while I plow."

And I solved the problem!  
I made a harrow that will do the work, do it well, and it cost me—all of 10 cents!

I picked up two pieces of 2x6 and one piece 2x4 three feet long, and made them into a-harrow with a three-foot spread, and nailed a 1x4 brace across the back end. Went to the hardware store and bought a dime's worth of 40-penny wire nails and drove half of them into the harrow so they would cut four inches apart, giving them a slight back slope so they would not gather the trash; put a clevis on the front end and ran a stout wire from it to the front of the plow-frame. Then bent a loop in the thread end of an old wagon end-gate rod, ran the clevis bolt and the harrow through the eye of the rod and wired the loop end to the back end of the plow-frame and—harrowed as I plowed!

It is so simple anyone can make it so cheap all can afford it, and does such fine work everyone should have it. It is so light it does not cause a perceptible side-draft on the plow and does not appear to make any more weight for the team.

I use it on a 16-inch plow and as it gives two harrowings to the freshly turned land it leaves it in beautiful shape. Try it.

**A Trick With an Egg.**  
Place two V shaped wineglasses of the same size near the edge of a table. In the right hand one put an egg, just fitting the rim of the glass. Hold the bases of the glasses firmly down, the top rims touching each other. Now, with a quick, sharp breath blow upon the line where the egg and the glass meet. The egg will jump to the other glass. With a little practice this can be done every time. Be careful to blow in a line with the left hand glass, or the egg will jump in the wrong direction and land on the table with disastrous results.

**MOTHER AND DAUGHTER.**

**Both Glad to Recommend Parisian Sage.**

Mrs. J. R. Burgess writes from 514 Plum St., Danville, Va., June 4, 1910, as follows:

"I have used Parisian Sage and find it to be all you claim for it, and cheerfully recommend it to any one who is suffering from any hair dandruff, or scalp trouble."

On the same date Ruth Odille Burgess, the charming little daughter of Mrs. Burgess wrote:

"I am only a little girl, but I want to tell what Parisian Sage has done for me. I had a scalp disease that looked like dandruff and when it was combed up there would be a bloody water under the dandruff. Mamma tried everything in the way of a hair tonic, without results, until she saw the advertisement of Parisian Sage; she got a bottle and it cured me, but kept on using it. Now I have as beautiful a head of hair as any girl."

Men, women and children, in every section of America who are using ordinary commercial hair tonics should give Parisian Sage a trial. It is so far ahead of all others that one application will prove its great superiority.

It is guaranteed by Coward & Wooten to stop falling hair and itching scalp, and to drive out all dandruffs in two weeks or money back. It grows hair in abundance and gives to the hair a lustrous and fascinating appearance. 50 cents a large bottle, at Coward & Wooten's, and druggists everywhere. 2-15,25-3,3

**PUBLIC SALE.**

North Carolina.—Pitt county. In the Superior Court. R. O. Jeffries, R. Williams, J. E. Winslow, and others, vs. The Central Mercantile Company.

By virtue of authority in me vested by an order made by His Honor, G. S. Ferguson, judge holding court in the 3rd district, in the above entitled cause, I shall sell to the highest bidder, for cash, at 11 o'clock, a. m., on the 15th day of March, 1911, the entire stock of goods, consisting of dry goods, shoes, notions, hardware, groceries, fixtures, etc., belonging to the Central Mercantile Company, in Greenville, at their said store, upon the following terms: one-third cash and the remainder in two equal installments and payable six and nine months from date, the plan of said sale being the largest percentage offered for said entire stock an inventory being taken immediately thereafter, to determine the quantity of said stock of goods.

This the 18th day of February, 1911.

**NEWSPAPER PRESS FOR SALE.**

Having placed an order for a new fast newspaper and book press, to be installed the middle of April, we have a newspaper press that will be sold at a bargain for delivery May 1st.

It is a Monona Leverless Press, large enough to print four 6-column pages, or two 9-column pages and has steam fixtures so that it can be run either by hand or power. Been in use six years.

It is a splendid press for a weekly paper and is in good condition to do many years good service. We used a press from the same factory for 17 years before installing this one, printing a daily paper with small circulation about 10 years of that time. Its speed, 800 an hour, is too slow for a daily paper with the present circulation of The Reflector, and for that reason we are having to displace it with a faster press.

Any one interested and wanting a good press for a weekly newspaper, can see this press at work every day in the Reflector building, before our new press is installed. Any one who cannot come to see it at work and examine it, can get particulars by addressing

## DO IT NOW.

### Greenville People Should not Wait Until it is Too Late.

The appalling death rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Brights disease, gravel or some other serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they cure where others fail. Over one hundred thousand people have recommended them.

Here is one of the many cases in this vicinity:

R. S. Butler, 219 Harvey St., Washington, N. C., says: "I am well pleased with the results that followed the use of Doan's Kidney Pills in my case and can highly recommend them to other kidney sufferers. I was subject to dull pains in my back, accompanied by sharp twinges through my loins. Doan's Kidney Pills removed my trouble and benefited me in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Big Timber Deal.

One of the largest timber deals which has been consummated in this section of the state for some time was made yesterday when the Murchison tract of land situated in Yancey county and containing about 12,000 acres was sold by the Murchison Lumber company to Mr. Ward F. Brown of Punxsutawney, Pa., the price paid for the property being \$300,000. This deal has been pending for the past several weeks and while it has been generally understood that the deal would be made, the actual signing of the papers did not take place until yesterday morning, when the deed was signed in the Battery Park bank and the money was paid over.

The Murchison property is undeveloped, it having been situated in such a way that the development of the lumber interest was impossible on account of the inaccessibility to the property by a railroad.—Asheville Citizen.

### Attacks School Principal.

A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness and for new health and vigor. Try them. Only 50c at all druggists.

## Farming, a Business.

It is often said that farming has two sides, the producing and the selling side. Many a man succeeds in producing good crops who fails in marketing them. The importance of price is likely to be overlooked, comments the Youth's Companion. Granted that it costs 40 cents to produce a bushel of onions, and that they can be sold for 50 cents, there is a profit of 25 per cent. on the investment. If the price can be raised to 60 cents, the consumer pays 20 per cent. more for his article; the farmer receives 100 per cent. more profit.

One acre of onions sold at 60 cents a bushel under those conditions is more profitable than two acres sold at 50 cents a bushel, although the farmer receives much less money in the aggregate, because the capital invested and the outlay have been less on the single acre than on the two.

How to get this increased price involves a study of many problems, including those of transportation; methods of selling; the character of market to be sought, or adapting the produce to the one which is available; determining whether to sell in a home market or a distant one; the variety to be grown; the methods of packing grading, and so forth.

Closely connected with the problem of marketing is the one of advertising. As the farmer becomes a business man, he will find it necessary to advertise his business, as other men advertise theirs, although not always by the same methods. His most effective advertising can be done at little expense. It will include such methods as his own personal appearance; the appearance of the farm itself, and the team which he drives; letter-heads, stamped envelopes, shipping cards, exhibits at the fairs, and similar methods. Lastly may come printed circulars and space paid for in advertising columns, when conditions demand.

To conduct a successful business on business principals demands a system of records and account, one that includes besides the business accounts, time cards, which will show the labor cost of the different crops and production by records, which will show the milk produced by each cow, the eggs laid by each pen of fowls, and so forth.

The above enumeration will serve to show that the business problems which confront the farmer are sufficient to warrant his most careful study and attention. Thus far the most important movements which have been put forth to better our agriculture have been chiefly directed toward the increase of production. In the future more attention must be paid to the business problems involved.

### A Fierce Night Alarm.

Is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., (R. R. No. 2.) for their four children were greatly subject to croup. "Sometimes in severe attacks" he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, hay fever, lagrippe, whooping cough, hemorrhages fly before it. 50c and \$1.00. Trial bottle free. Sold by all druggists.

**The Salary System.**  
Guilford county, N. C., pays its officers salaries, and last year the difference between the salaries paid and what the officials would have received under the old fee system was \$10,395.11. Of this amount, \$7,975.77 went to the building of better roads and \$2,419.34 was added to the school fund. Of course, the saving would not be as great in smaller counties; but there are few counties in which a saving could not be effected, and certainly the roads and the schools need the money. More than this, the salary system is a business system and the fee system is not. How many readers know just how much their county officials are getting. The amount is nearly always larger than would be supposed, and the excessive sums received by the officials in many counties certainly have no tendency to promote better government or cleaner politics.—Progressive Farmer.

### DO THE PEOPLE COUNT.

The Time of Reconing Will Come.

When the Cotton Torrens land-title bill called for no appropriation and was not compulsory on anybody but only gave to those who wanted to register their lands under its provisions and have the title guaranteed by the state an opportunity to do so, we are unable to see why the legislature should have had any objections to passing it—Greenville Reflector.

For these particular reasons cited by the Greenville Reflector it is hard to understand why the legislature has refused to enact the "Torrens land system. We have always thought that the legislature represented the people, and yet when the people call for something this legislature fails to respond. There can be no reason, but what is the excuse? No doubt silence alone will have to be sufficient for reply, which makes the matter by far worse. The house enacted the Torrens system Saturday and sent it over to the senate and that body finally turned it down.

Not knowing the exact contents of the bill the senate at first passed it, but quickly reconsidered. And about this the Raleigh News and Observer is lead to the conclusion that the senate did something good unintentionally and then intentionally did something that it should blush for.

Some have charged that lawyers wanted the bill defeated, because it meant that some lawyers would lose in fees for searching records and drawing mortgages. This position was assailed and denied in the senate several days ago, which only served to focus attention on this particular point, and now eyes have turned on the position the lawyers are assuming in the matter. In support of the bill are arrayed the masses, including financiers, business men and farmers and a gigantic amount of reasons has been cited. In opposition has been presented not a single reason and against it are who? Actions speak louder than words. But it is well to keep one's eyes on the record and store-up valuable information for future reference. The people's will may be sandbagged for the time being, but it cannot die. However, those responsible can die—politically—Wilmington Dispatch.

## NEW YORK AND CHICAGO MARKETS

### Stocks.

New York, March 8.—The war scare talk had a depressing effect on the stock market which opened weak with declines in practically all stocks. No definite interpretation could be placed on the situation at Washington. The bear crowd took advantage of the opening to excite pressure but the fact that a majority of shares are in steady hands prevented any great decline. Southern Pacific was down 1-4; Missouri Pacific 1-8; Reading 1-4; Union Pacific 1-8; C. & O. 1-4; New York Central 1-8; Steel 3-8.

### Cotton.

New York, March 8.—Cotton opened firm and steady on good cables, prices ranging above yesterday's close. May was up seven points. July eight and October seven. Futures were firm in Liverpool and good demand for spots was recorded.

Opening—

July.....	14.17
August.....	13.69

### Grain.

Chicago, March 8.—Wheat opened easier, off 3-8. Scattered commission houses sold a little and pit traders were the best buyers. Corn opened easier to 1-4 lower. Oats started easier. Provisions were active.

Opening—	
May wheat.....	90 1-2
Corn.....	48 1-2
Oats.....	30 1-8

### In Advance Legislative Needs.

The argument for a longer constitutional term of the general assembly, in order to accomplish more legislation, would not secure the result. The fact of a flood of local bills consuming the time, to the exclusion of due consideration and passing of needed state wide legislation, would with an extension of the present sixty day period find no abatement of the present situation, of over crowding of local to the detriment of state-wide bills. What is demanded is that local matters throughout the state, be carefully gone over by each community, before the general assembly meets, and these bills find a sufficient local majority to insure their passage without the usual delegation going to Raleigh to protest against their enactment because of not being known at home or not wanted by a majority of the local home folks. Eliminate this source of time consumption, and the bills of state wide importance can receive due attention and be passed or rejected without haste. As the Charlotte Observer says editorially.

"It is not so much lack of time which stands in the way of state-wide measures as lack of crystallized public sentiment behind them. It is only rarely that the legislature feels inclined—as in killing the Torrens system bill—to go contrary to the deliberate and generally expressed opinion of the state. When however, there appears to be about as much interest against a pending measure as exist in its favor, members can scarcely be blamed for differing on the point of the genuine demand. Those who feel disappointed at the failure of any particular measure before the session adjourned have only to maintain their attitude. If by educating their fellow citizens they can create public enthusiasm for it some future legislature will be more than likely to acquire in their desires—New Bern Journal.

### Flowers as Death Lures.

A curious instance of the devices of nature to secure the continued existence of certain forms of life under disadvantageous circumstances has recently attracted attention in discussion of the brilliancy of the colors of Alpine flowers. It is known that insects are most important agents in the fertilization of flowers and this is true of the flowers that bloom along the snows of the Alps as well as of those that cover the meadows far below.

But it has been observed at the same time that the bees and butterflies which ascend the mountains in order to visit the brightly colored flowers growing there perish by the thousands in the sudden cold that envelops the peaks and glaciers at nightfall.

It is only the extraordinary attractiveness of the beautiful mountain flowers that induces their insect admirers to venture into the perilous realm of snow and ice—Harper's Weekly.

What a boy wants from his grandfather is not advice, but hard cash, and you can guess what he usually gets.
