OTHER EXPRESS EMPLOYEES STRIKE IN SYMPATHY

WITH ADAMS EXPRESS DRIVERS

Two Companies' Employees Refuse to Obey Strike Orders.

By Wire to The Reflector.
New York, March 17.—Drivers of United States and Wells Fargo Express Companies went on strike today at six o'clock in pursuance of a general strike order issued a few hours earlier. The men went out in sympathy with the employees of the Adams Express Company, who are also on a strike. Employees of National and American Express Companies refused to obey the strike order, precipitating a row which may disrupt the teamsters' brotherhood. The strike order extends to 22,000 men.

SENSATION IN COURT.

Prisoner Makes Plea for Release of His Companions.

By Cable to The Reflector.
Viterbo, Italy, March 17.—There was a dramatic halt in Camorists trial of Eurico Alfano, head of Neapolitan Society, and his 33 associates today, when Alfano arose in the steel cage where he is confined and addressed the court. His voice was broken by sobbing as he pleaded for the release of his companions. He said that the allegations that he and his fellow defendants were responsible for the murder of Cuccuolillo and wife were false. So impassioned was his appeal that the court was almost broken up for the day.

BALL PARK DESTROYED.

Washington American League Suffers Heavy Loss.

By Wire to The Reflector.
Washington, March 17.—The Washington American League base ball park was entirely destroyed by fire today. The flames starting from a plumber's blowpipe spread rapidly over the grounds and bleachers and practically all of them were burned. The damage is \$30,000 and the club owners are appalled at the prospect of being compelled to rebuild within the next four weeks in order to start the league season.

FIREMAN KILLED.

Queen and Crescent Strike Sympathizers Rioting.

By Wire to The Reflector.
Lexington, Ky., March 17.—One railroad fireman is dead, another dying and a locomotive guard is also fatally wounded as a result of an attack made upon a Queen and Crescent train by strike sympathizers early today near Kings Mountain. Sympathizers of strikers who were in ambush fired a hundred shots at the train.

New North Carolina Industries.

For the week ending the 15th, the Chattanooga Tradesman reports the following new industries established in North Carolina:

Greensboro—\$125,000 boiler and machine works.

Morehead City—\$25,000 hospital company.

Mt. Pleasant—\$10,000 knitting mills

Oxford—\$25,000 construction company.

Wilmington—\$10,000 motor car company.

Winston-Salem—\$50,000 development company; supply and construction company.

New Spring Suits.

Frank Wilson, the king clothier, announces today that his high grade lines of new spring suits are arriving daily, and extends to all an invitation to call and see them. The new modies for spring are very handsome and stylish and are made up in all the new colors and patterns in cassimeres, chevots, worsteds and serges.

Our prices are reasonable and we guarantee satisfaction with every garment or your money refunded. 317 1/2 dtw FRANK WILSON.

Trial Nearing End.

Two of the negroes, West and Stetson, are being tried in the special term of court at Wilson, this week, for the murder of Deputy Sheriff Mumford. It was thought the evidence would all be in and the case reach the jury some time this afternoon.

AND THEN HE LIVES.

Ate Four Pounds of Cheese, Drank a Quart of Vinegar.

Four pounds of cheese and a quart of vinegar—how is that for a lunch? And all eaten within the space of a very few minutes without a cracker or a particle of bread. And when the last hunk of the cheese had been devoured and the last drop of vinegar swallowed the young man performing the stunt walked out of the store and is living and doing well, although it has been nearly two days since the inroad was made on the big cheese in the store of Mr. W. C. Tise in this city Thursday afternoon.

The young man performing the feat was Gilmer Lakey, a drayman, and the eating was witnessed by four of his companions, who chipped in and paid for the lunch to see Lakey eat the quantity of cheese with the aid of two pint cups of vinegar. Lakey had stated that he would eat four pounds of cheese if somebody would pay for it. And he ate it and when he had finished remarked that he could go some more, but guessed he would wait awhile as he hated for the fellows to pay for so much. —Winston Journal.

SENIOR CLASS PLAYS

To be Repeated Tonight in the Auditorium of E. C. T. S.

The two plays, The Kleptomaniac and A Proposal Under Difficulties to be repeated at the Training school this evening at 8 o'clock are full of humor and interest, the many amusing situations and the snappy dialogues hold the audience from beginning to end. The young ladies of the senior class gave a highly creditable performance Monday evening and there is every reason to believe it will be even better this evening. The town should give them a full house. Tickets are on sale at the following places: Moye's Pharmacy, John L. Wooten's, Coward & Wooten's, Dr. Bryan's Drug Store. Admission, 35 cents.

IN NEW YORK

Where Curtiss Thought Out His Hydro-Aeroplane.

A story is told of Mr. Curtiss and his plan for this hydro-aeroplane, which illustrates the fact that, like other men of note whose energies are given largely to invention and original experiment. Mr. Curtiss is given to complete absorption in his work to the exclusion of all surroundings, no matter what they say may be, for during the period when he was planning these series of experiments, he attended a New York theatre with Mrs. Curtiss to see a popular play. The curtain went up on the first act and the aviator was apparently enjoying the acting, when just as the scene developed one of its most interesting climaxes he turned to Mrs. Curtiss and said, "I've got it." On the theatre program had been sketched what ultimately became the design for the new Curtiss hydro-aeroplane.

The French navy are now building a war vessel especially adapted for carrying aeroplanes, having long flat platforms from which to launch them and having also facilities to bring them on board if they land on the water alongside.

When aeroplanes are equipped like Mr. Curtiss', with hydroplanes and pontoons, they can be launched upon the water as you would launch a life boat from the deck of a vessel, and then start up and fly to the shore and, after returning, land alongside to be raised to the deck of the vessel and stowed away on deck or taken to pieces and placed below until needed again.—Augustus Post, in April Columbian.

Don't Kill Robins.

It is against the law to shoot robins. There was a time when it was not, but in those days so many of these beautiful and valuable birds were killed, it looked as though they might be wiped out, by the wholesale slaughter. Just now the robins are here in great numbers. Many of them will locate in Spartanburg for the summer, while others will go farther north to spend the season. They are beautiful, harmless birds and any community in which they locate and build their nests is fortunate. Don't let the boys kill them—we know the temptation it is to be a healthy sport loving boy—but the birds in this country are entirely too scarce to be made a sacrifice just for the sport of killing them.—Spartanburg Herald.

TRADE REPORT.

Trade Condition in General Is Irregular.

Richmond, Va., March 17.—Bradstreet's tomorrow will say for Richmond and vicinity: Trade in general is irregular, some lines are fairly active, while others are quiet. This condition is partly due to the usual unsettled weather conditions of this period. Shoe dealers and manufacturers are receiving fair orders. Dry goods and notions are fairly active. The majority of 1910 crop of tobacco has been marketed, the average price has been slightly lower than that of last year. Manufacturers and jobbers of farming implements report fair spring sales. Fertilizer manufacturers have had a good spring business. Lumber is quiet. Railroad reports show a goodly number of idle cars. Drugs and chemicals are active. Retail trade is quiet and collections only fair.

THE KNOCKER.

The Men That No Community Needs.

You will find him in every town. He never gets ashamed or discouraged. Movement after movement he opposes and fights with all the earnestness of his nature, but he is run over and arises ready to stand in the pathway of the next improvement. There is this about him, however. He rarely has any influence. Nobody ever thinks of consulting him, for his opinion is entirely worthless. There are a few, however, though, who follow his call. They are naturally against everything but lack the initiative and the nerve to lead; so they follow. It is bad enough to be a knocker; it is a great deal worse to be a knocker's henchman. Whenever this element of people can dominate a community, that community is doomed. The only towns in North Carolina that have made any progress are those in which the progressive citizens band themselves together and run rough shod over those who would obstruct and hinder the advancement of the town. No attention in the world should be paid to people whose stock in trade is to hold back instead of to go forward. Nor do the knockers all live in town. More's the pity. A good proportion of them live in the county. They are the chief opponents of the local tax for education. Now every body knows a local tax for schools is an unmixed blessing. It is never oppressive, never unwise and always helpful, and yet the knockers hang around and whine about heavy taxation and predict the bankruptcy of the world on account of it. Although these flimsy arguments have been exploded a thousand times, the knocker's followers take up the cry, and good men are often deceived into voting against the very thing that would make their neighborhood prosperous, and open the way for all sorts of developments. We have often wondered where the knocker found his fun in the curious course he takes. He cannot be happy, unless he enjoys misery. He is bound to be defeated and discredited sooner or later, for no one man or set of men can forever hold back the tide of progress. His career is never a profitable one. For while he may save a few cents of taxes he loses the increase in property that his policy prevents. The fact is the knocker is always a loser and never a gainer, and he leads a lot of poor dupes after him who suffer without knowing why.—Charity and Children.

Threading a Needle With Tongue.

The News having published an item from The Scout, of Thomasville, about a lady of Alexander county, who threaded a needle with her tongue, a lady friend called attention to the fact that Mrs. John Carter, of Newton, on account of poor sight, had been practicing this for more than 30 years, doing all her family sewing with needles so threaded; so "Little Aleck" is not the only county that can present a skillful seamstress.—Catawba County News.

Services at Presbyterian Church.

Rev. J. S. Wood, pastor of the Presbyterian church at Weldon, will conduct services at the Greenville Presbyterian church next Sunday morning and evening.

A cordial welcome is extended to the public to hear Mr. Wood.

OLD NORTH STATE

NEWSY HAPPENINGS

GATHERED FROM EXCHANGES.

And Briefly Stated for Our Busy Readers.

Raleigh, March 16.—At 4 o'clock this afternoon while the union depot waiting room was crowded with people for outgoing trains, Henry H. Powell, proprietor of the Sanford Inn, Sanford, N. C., committed suicide, after shooting Charles H. Smith in the arm and attempting to kill Duncan E. McIver. All three came here this morning with a delegation from Sanford to appear before the corporation commission asking for additional train service between Raleigh and Sanford. Powell was the proprietor of the Sanford Inn for many years, having previously managed a resort hotel near Southern Pines. He recently heard that Smith and McIver were planning to erect an opposition hotel in Sanford. This had been preying upon his mind, which was warped from brooding over the rumor of a rival hotel.

A new and powerful organization was perfected here yesterday when the Virginia Power Company, chartered under the laws of North Carolina, was organized with a capital of \$1,000,000. This big concern has been forming for some time, the moving spirit behind it being Dr. J. J. Mott, of Statesville. For quite a while Dr. Mott has been busy, quietly, purchasing water power sites on Virginia rivers and when the time arrived for organization he had in his possession and turned over to the new company deeds to sites embracing over one hundred thousand horse power. The majority of this is on New River, in Virginia, and it is said the development of this power will be begun at once by the new company which will generate electricity for both light and power purposes.—Salisbury Post.

In the little town of Leakesville lives a local preacher, Rev. D. E. Field, familiarly known as "Uncle Dan Field," who has a fine record of faithfulness. If he lives till next July he will be eighty years old. He is superintendent of the Sunday school in the Methodist church in that town now and has been continuously without an interval for fifty years, and during that time has been absent eleven times. Two of the eleven Sundays he was absent, were the days on which his last wife was taken sick and buried. She had a stroke of paralysis on one Sunday and died the next. The other nine Sundays absent were spent in church work.—Burlington Dispatch.

Elizabeth City, March 17.—The Gibbs murder is still wrapped in mystery and notwithstanding the coroner's jury has held two sessions, those who have made an investigation into the case are as far at sea as when the body was first found in the sand on the river shore Wednesday afternoon, March 8th.

Senator Simmons has been appointed on the joint Alaskan commission which is to make a trip to Alaska this summer at the expense of the government in a government vessel.

You Will Have Your Automobile.

There are few of us but have a desire to own an automobile. Sooner or later, we will. Everybody, in moderate circumstances, will. At present the use of the automobile is only general, so to speak. In the future; distant, if you will have it so, its use will be universal. Its widespread adoption, while yet in its teens, proves this.

Automobile prices vary, according to efficiency and size, also cost of maintenance. This will always be. The automobile is not different from any other staple product.

The pleasure automobile is a business automobile. The same car that rushes you to your office in the morning, and answers your call during business hours, is the same car that speeds your family to the theatre in the evening and over the suburban roads on Sunday.

Every other automobile you pass on the street is not unlike yours.

On the asphalt of the cities, the earth of the suburbs, everywhere, there is a steady stream of automobiles, chugging for business of pleasure. But there will be rivers, yes, oceans of them. And sooner or later your own automobile will be one of them.—Raymond F. Barnes, in April Columbia.

THE CORPORATION TAX.

The Supreme Court Says It Is Constitutional.

By unanimous opinion the Supreme court of the United States has held the new corporation tax to be constitutional. Facing a growing treasury deficit, the corporation tax was conceived to relieve a treasury shrinkage which a profligate congress, which dawned under the Roosevelt reign, and has been perpetuated under the Taft ministry, made it necessary to find some new source of supplying sufficient revenue to meet rapidly increasing expenditures. The corporation tax law is a portion of the now famous Payne-Aldrich tariff bill.

It imposes a tax of one per cent. on the net earnings of corporations whose business amounts to more than \$5,000 per year.

Strenuous objection was entered from all parts of the country against the new law. On various points it was urged that the measure was unconstitutional. First because it taxed a corporation but excused an individual or partnership, it being urged that since such procedure was in violation of the provision that taxes must be regular, it was unconstitutional.

For instance, here is a partnership engaged in business, whose annual income is one million dollars. Next door is a corporation whose annual income is one million dollars. The corporation is forced to pay one per cent. of its income, and not only this, its books must be under surveillance of inspectors, business secrets must be laid bare, etc., while the partnership neither pays tax nor is its business molested. The Supreme court got around the constitutional objection on this point by declaring that since the corporation shares privileges and advantages which the firm or individual does not, it should be subjected to special taxation.

Another objection which was set aside was that the new law was unconstitutional in that it invades the reserved rights of states. Corporations doing intrastate business, chartered under the laws of a certain state, were answerable only to the state, not to the federal government, in the opinion of many, and any specially imposed tax by the government could only be interpreted in the light of a usurpation of rights held by the states alone.

This objection was overruled, as, in fact, were many others, and the emergency revenue bill is now stamped with the seal of approval of the government.—Charlotte News.

PERSONAL MENTION.

The People Who Come and Go on Our Trains.

Mrs. W. H. Dail returned Thursday evening from a visit in Washington.

Mr. O. L. Joyner returned Thursday evening from Wilson.

Mr. E. G. Couch has moved to the Smith house on Greene street.

Mr. T. E. Hooker, who was recently very sick with pneumonia, is out again.

Messrs. A. B. Minor and E. M. C. Quimbery, of Suffolk, spent yesterday here on business and left this morning.

Senator R. R. Cotten was in town today.

Mr. Joseph Rawls, of Norfolk, is in town.

Miss Lottie Barber left this afternoon for Ayden.

HOUSE DESTROYED BY FIRE.

Three Children Perish in Sight of Parents.

By Wire to The Reflector.
Freeland, Pa., March 17.—The home of John Gallas was burned last night. The father and mother and four children were asleep in the upper floors. Gallas reached the street carrying his baby and wife, but the flames made such headway he could not reach the other three children, and the three were literally wasted alive in sight of the parents.

Farm Machinery.

You want to give particular heed to the large advertisement of Hart & Hadley to be found on another page. They have a full line of farm machinery and implements of the very best makes.

Choir Practice.

The choir of the Baptist church will meet tonight for practice at the home of Miss Hennie Ragsdale.

MOVEMENT OF TRAINS.

The Weather:

Generally fair, except rain in extreme west portion tonight or Saturday; rising temperature; moderate east to south winds.

March 17 in American History.

1776—British army under General Howe evacuated Boston.

1777—Roger Brooke Taney, long chief justice of the United States, born; died 1804. Justice Taney pronounced the verdict in the famous "Dred Scott case"—that the negro, being of an inferior order, had no rights which the white man was bound to respect.

1808—Blanche K. Bruce, one of the most distinguished colored men of his era, died; born 1841.

1903—The Panama canal treaty ratified by the United States senate.

1908—Senator William Pinkney Whyte of Maryland died; born 1824.

ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.)
Sun sets 6:05, rises 6:02; moon rises 9:01 p. m.; moon at descending node, crossing sun's path downward.

LOCAL BRIEFS.

Little Items too Short for a Head, but Interesting.

Red Men meet tonight.

Don't look for snakes today.

Do not fail to attend the plays by the senior class at the Training school tonight.

The days and nights are nearing equality.

If you wish to thoroughly enjoy the evening, go to the plays by the senior class in the Training school auditorium tonight.

Rev. C. M. Rock has purchased the Whitehurst home in Greenville Heights.

St. Patrick had beautiful weather today.

It Pays to Advertise.

It is hardly necessary to cite instances in which it has been demonstrated beyond cavil that it pays to advertise; but for a nation to adopt it makes an interesting story. The Dominion of Canada spent \$380,000 last year in advertising its resources. A few years ago such a statement, founded upon fact, would have made people rub their eyes in amazement. The idea of a nation conducting an advertising campaign would have been regarded as preposterous. Now it is looked upon differently. Exhaustive advertising by American cities set the precedent and paved the way. Canada has merely taken the next logical step.

In the recent past a great deal has been done by cities through publicity to increase their population, attract capital and secure desirable industries. There is no reason why a nation that is anxious to bring in immigrants and develop its resources should not adopt the same methods. The experiment made by Canada last year was so satisfactory that the advertising appropriation has been enlarged, and this year an even more extensive campaign will be carried on. It is hoped in this way to add 100,000 people to the population. The immigrants must be of the desirable kind, too. The Dominion wants sturdy, industrious, thrifty, ambitious farmers. No other sort need apply.

Here is a pointer for the south. Few people in this land of fruits and flowers, of sunshine and mild climate, know that under the progressive policy of Canada thousands of people have moved from North Dakota and other border states over to Saskatchewan and other prairie provinces in Canada to make money in grass and cattle. Here in the south the inducements are far superior, but we have not made the proper effort to let the people of the frozen northwest know it.

Advertising pays—it pays nations, states, cities and towns, as well as individuals who have something worth while to offer.—Greensboro News.

FRIDAY, MARCH 17, 1911.

FARMERS WHO KNOW.

Mr. O. L. Joyner, of Lenoir county, has contributed to the Kineston Free Press an interesting and valuable article on how to grow better tobacco and more of it per acre. He points out the importance of scientific fertilization for tobacco plants and careful selection of seed, as elements necessary to a higher degree of success in cultivation of the weed. He decries "unintelligent methods of fertilizing the tobacco crop" and his article indeed is, one which should arouse tobacco growers to the fact that they can follow progressive lines if they will.

It is a hopeful sign when North Carolina has farmers who are intelligent and capable of making a study of plant life and its requirements as to fertilization, cultivation, and handling to the best advantage. The intelligent and educated farmer is what the country badly needs, for he understands both the theoretical and practical side of farming. For success, it is necessary for the farmer to know the deficiencies of his soil and understand the availability of plant food, and when we get our farmers to making a study of their business it will mark decided progress in agriculture. It marks for greater economy and more grain when we use our brains as well as our muscles in causing an acre to yield more in quantity and quality. Intelligence applied to farming, as well as to every other occupation, takes much of the strain off our muscles. That it pays has been demonstrated beyond all doubt.

North Carolina wants more men like Mr. Joyner, who will find in agriculture, horticulture, dairying and stock raising a field equally as important and inviting as any profession, occupation, or avocation which the average educated man adopts in preference to what they misconceive is druggery on the farm.

The day of the intelligent and modern farmer has arrived and some of our college graduates should recognize it.—Wilmington Star.

What the Star says is all right if it had put Mr. Joyner from Pitt county where he belongs. What it says about him as being a man who knows, when it comes to agriculture, is true. He not only knows, but he carries his ideas into execution. The fact has no better informed agriculturist than he, nor one who has done more for the betterment of farming interests. By principal and example, by word and pen, he endeavors to inculcate more advanced ideas both in cultivation and marketing crops, and to bring about such practices as will make farm life more prosperous and happy.

NOW FOR ELECTRIC ROADS.

The States of Ohio and Indiana are honeycombed with electric lines, and it is good news that work is to begin at once on the construction of such lines in North Carolina and South Carolina. Mr. J. B. Duke, the tobacco millionaire, who not only has plenty of money, but has big brains and a

Kills A Murderer.

Merciless murderer is Appendicitis with many victims, but Dr. King's New Life Pills kill it by prevention. They gently stimulate the stomach, liver and bowels, preventing that clogging that invites appendicitis, curing constipation, headache, biliousness, chills. 25c at all druggists.

master mind for big things, is the head of the new company that is to build these lines. Contracts have been made in South Carolina for lines between Greenville and Spartanburg and now the news comes that contracts have been let for the construction of a line between Charlotte and King's Mountain, a distance of thirty-four miles. The men who are behind this big movement are accustomed to do big things and now that they have undertaken the development of the waste power and its utilization in electric roads we may look forward to the time in the not far distant future when electric roads will be running all the way from Raleigh to Charlotte and then on to South Carolina towns and cities.

Interurban electric roads are of great convenience and are big developers of the country through which they run, and in the wake of these new lines will come large development that will do much to enrich the State.

Welcome to the electric roads.—Raleigh News and Observer.

What's that! The News and Observer saying a good word for Mr. Duke, the head of the American Tobacco Company! We can hardly believe our ears. Wonder if about the time he gets a few hundred thousand invested in electric roads around Raleigh to build up that section, the News and Observer will be calling for a "trust bill with teeth" to chew down on him.

It is getting on towards corn planting time, and we believe the farmers of Pitt county are preparing to make a bigger crop than they have ever made before. This is what they ought to do, and put a stop to corn being shipped into the county. Then they should do the same thing about raising meat. Too much money has been going out of the county for corn, meat and hay, and when a sufficiency of these is made at home the county will prosper as never before.

Greensboro has the credit of being the first North Carolina city to lead off with the commission form of government but Wilmington is a close second and Raleigh soon to follow. Charlotte should be getting ready to come on.

Nobody specially blames Lorimer for "detesting newspapers." The papers have been on him until he doubtless feels like he would be glad never to see another. Yet the papers were right.

In a hearing before the Federal court in Chattanooga, a government chemist declared that coca-cola contains caffeine, and that three glasses might produce death. Yet folks will go right on swilling it.

St. Patrick's Day, the ancients say, Comes on March seventeen; When every true Hibernian Is wearing of the green.

Cures Colds, Coughs and Catarrh.

If you, dear reader, could spend an hour looking over a few of the thousands of testimonials that we have on file, you would not go on suffering from catarrh, that disgusting disease that will surely sap your vitality and weaken your entire system if allowed to continue.

You would have just as much faith in HYOMEI as we have, and we have so much confidence in its wonderful curative virtue that it is sold the country over under a positive guarantee to cure catarrh, croup, sore throat, coughs and colds or money back.

No stomach dosing when you breathe HYOMEI. Just pour a few drops of the liquid into the inhaler, and breathe it in.

It is mighty pleasant to use; it opens up those stuffed-up nostrils in two minutes and makes your head feel as clear as a bell in a short time.

Breathe HYOMEI and kill the catarrh germs. It's the only way to cure catarrh. It's the only way to get rid of that constant hawking, snuffing and spitting.

A complete HYOMEI outfit, which includes a bottle of HYOMEI and a hard rubber pocket inhaler, costs \$1. If you already own a Hyomei inhaler you can get an extra bottle of HYOMEI for 50 cents. Sold by Coward & Wooten. 3 17,27 47

Grand Auction Sale!

The business lots of corner of 5th and Cotanch streets, right in the heart of the town of Greenville, as will be seen by the cut showing location of the property, one block from Main street and just across the street from the City Hall, and one block from the East Carolina Teachers' Training School. This property located as it is will no doubt increase in value very rapidly and anyone purchasing at this sale will make large profits out of their investments

This is Business Property to be Sold March 23rd, at 10 o'clock.

On the same day and just after this sale we will sell

21--VALUABLE LOTS--21

located around the Knitting Mill and 50 lots known as "Munford Park." The two latter pieces of property will be sold to either white or colored. This will be the opportunity of a lifetime for the colored man to own his home, on easy terms; and for anyone to make a safe investment. These properties have been consigned to us to sell regardless of price. Your price our prices let the owners make or lose. Don't fail to attend and hear Pruney Bros. The twin auctioneers sell lots at the rate of one a minute. We will have some good music and we will assure all who attend a good time.

The Sale Starts Promptly at 10:30 O'clock on the Corner of 5th and Cotanch Streets

Water Supply for the Country Home

No matter where you live, or how situated, you may have every convenience of a city water supply by the use of a

Leader

AIR PRESSURE WATER SYSTEM
Water under pressure for kitchen, laundry, bathroom, sprinkling lawns and garden, watering stock and for fire protection.

An air-tight steel tank in the basement, or in an out house, stores the water as it is pumped by hand or power and forces it through the pipes and faucets by compressed air in the upper portion of the tank. No elevated or attic tank to freeze and become stagnant. Water kept cool, clean and pure.

If you want anything of the kind, see me and I can make you low prices on the complete system installed in your home or farm.

L. H. PENDER

S. M. SCHULTZ
And the more advice you give the more likely you are to get in bad. Many a hotheaded man gets cold feet.

A Few Reasons Why It Is Best

Gives relief for all Nerve, Bone and Muscle Aches and Pains more quickly than any other remedy known.

Its peculiar penetrating properties are most effective—NOAH'S LINIMENT.

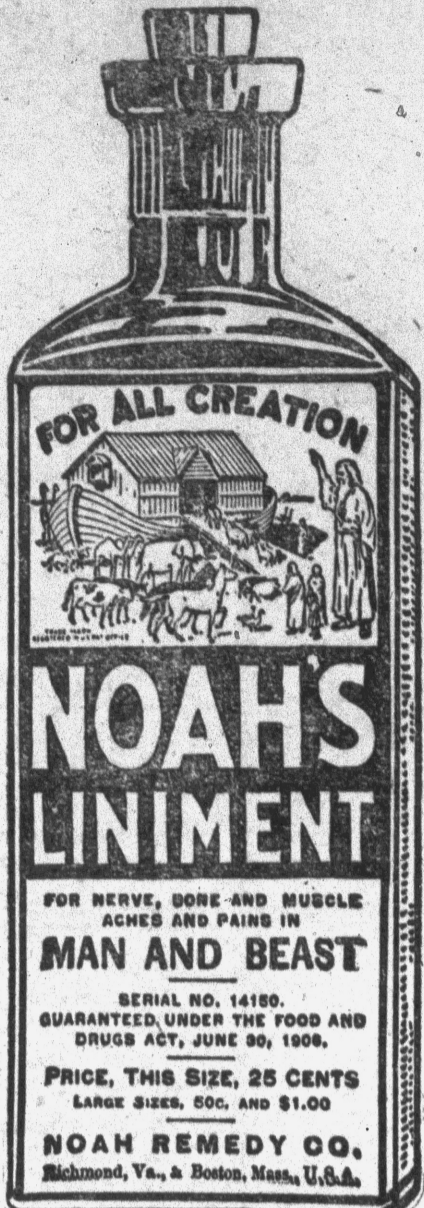

May be used with absolute confidence in its purity for Internal and External Uses.

It is Triple Strength. A powerful, speedy and sure Pain Remedy, therefore most effective in producing results.

Not only contains the old-fashioned ingredients, but also the latest and up-to-date discoveries—NOAH'S LINIMENT.

Recommended and sold under a guarantee for the following: Rheumatism in all forms, Sciatica, Lame Back, Stiff Joints and Muscles, Sore Throat, Colds, Strains, Sprains, Cuts, Burns, Bruises, Cramps, Colic, Toothache, and all Nerve, Bone and Muscle Aches and Pains.

Drug stores in cities and towns, general stores in the country, 25c, 50c and \$1.00 the bottle, and money back if not satisfied. Isn't this fair?

Important Notice

The genuine Noah's Liniment looks exactly like the above. Look for Noah's Ark on every package, our trade mark, registered in the U. S. Patent Office, for your protection. Noah's Liniment always appears in red ink on the original, both on the label and on outside container. Accept nothing but Noah's Liniment. It is the only Pain Remedy sold under a positive guarantee. If your dealer will not supply you, send 25c in stamps and we will mail you a bottle and refund money if not perfectly satisfied. Beware of fraud; accept no substitute.

Proof Positive

Cured of Bone Rheumatism.
"I had been suffering with bone rheumatism for three years. I have been using Noah's Liniment, and can say that it cured me completely. Can walk better than I have in two years. Noah's Liniment will do all you claim. Rev. S. E. Cyrus, Donald, S. C."

Pain in Side and Neuralgia.
"For five years I suffered with neuralgia and pain in side. Could not sleep. I tried Noah's Liniment, and the first application made me feel better. Mrs. Martha A. See, Richmond, Va."

Couldn't Raise Right Arm.
"I caught cold and had a severe attack of rheumatism in my right shoulder and could not raise my arm without much pain. I tried Noah's Liniment, and in less than a week was entirely free from pain. A. Crooker, Dorchester, Mass."

Stiff Joints and Backache.
"I have used Noah's Liniment for rheumatism, stiff joints and backache, and I can say it did me more good than any pain remedy. Rev. George W. Smith, Abbeville, S. C."

Sprained Ankle.
"I have been benefited greatly by Noah's Liniment, using it for a sprained ankle. Mrs. W. D. Robertson, West Somerville, Mass."

Pains in the Back.
"I suffered ten years with a dreadfully sore pain in my back, and tried different remedies. Less than half a bottle of Noah's Liniment made a perfect cure. Mrs. Rev. J. D. Billingsley, Point Eastern, Va."

Neuralgia and Toothache.
"My wife suffered for several years with neuralgia and toothache. She used about half a bottle of Noah's Liniment and got immediate relief. J. S. Fisher, Policeman, Hodges, S. C."

Rheumatism in the Neck.
"I received the bottle of Noah's Liniment, and think it has helped me greatly. I have rheumatism in my neck and it relieved it right quick. Mrs. Martha A. Lambert, Beaver Dam, Va."

For Horses.
"We have never used a liniment we consider the equal to Noah's Liniment for bruises, sprains, strained tendons and to use on throat, sides and chest for distemper, colds, etc. Richmond Transfer Co., Richmond, Va."

Better Than \$5.00 Remedies.
"We cheerfully recommend all stable men to give Noah's Liniment a trial and be convinced of its wonderful curative properties. We have obtained as good if not better results from its use than we did from remedies costing \$5.00 per bottle. Norfolk and Portsmouth Transfer Co., Norfolk, Va."

Breaking up Divorce.
Reforms of all sorts usually mature slowly. Many minds working independently contribute a little something to the great whole. Just now the restraint of the divorce evil is engaging much attention in church, in State and among private individuals. Trial marriages, marriages by lease and various other devices have been suggested. Notable among these tentative steps is the method employed by an Indiana farmer in a case which threatened his own domestic felicity. While at work in his fields he was informed that his wife had seen a lawyer with reference to the institution of proceedings. Calmly assuming his coat he returned home for an interview. In the course of the conversation he turned his wife over his knee, seized a stray slipper and vigorously applied a means of persuasion to which she had doubtless been a stranger since early childhood. At the conclusion of the conference the wife, much wiser if somewhat sadder, vowed that she wanted no divorce. If some means can be worked out whereby this obstacle to easy divorce may be applied indifferently whether the refractory partner be man or wife, we believe its usefulness will be great. We have reason to believe that there are numerous husbands in North Carolina whose wives would be admirably qualified to turn just this trick should the occasion demand and we have the best of authority for the assertion that the rule would apply well-nigh universally in the regions immediately to the south of us.—Charlotte Observer.

DO IT NOW.
Greenville People Should not Wait Until it is Too Late.
The appalling death rate from kidney disease is due in most cases to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms give place to chronic disorders and the sufferer goes gradually into the grasp of diabetes, dropsy, Bright's disease, gravel or some other serious form of kidney complaint.
If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.
Doan's Kidney Pills are especially for kidney disorders—they cure where others fail. Over one hundred thousand people have recommended them.
Here is one of the many cases in this vicinity:
R. S. Butler, 219 Harvey St., Washington, N. C., says: "I am well pleased with the results that followed the use of Doan's Kidney Pills in my case and can highly recommend them to other kidney sufferers. I was subject to dull pains in my back, accompanied by sharp twinges through my loins. Doan's Kidney Pills removed my trouble and benefited me in every way."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

NEWSPAPER PRESS FOR SALE.
Having placed an order for a new fast newspaper and book press, to be installed the middle of April, we have a newspaper press that will be sold at a bargain for delivery May 1st.
It is a Monona Leverless Press, large enough to print four 6-column pages, or two 9-column pages and has steam fixtures so that it can be run either by hand or power. Been in use six years.
It is a splendid press for a weekly paper and is in good condition to do many years good service. We used a press from the same factory for 17 years before installing this one, printing a daily paper with small circulation about 10 years of that time. Its speed, 800 an hour, is too slow for a daily paper with the present circulation of The Reflector, and for that reason we are having to displace it with a faster press.
Any one interested and wanting a good press for a weekly newspaper, can see this press at work every day in the Reflector building, before our new press is installed. Any one who cannot come to see it at work and examine it, can get particulars by addressing
The Reflector Company,

The Dog and The Pistol.
One of the most astonishing things is how flagrant abuses can continue to live against universal adverse criticism. For example, the sheep killing dogs seem to be one of the most useless things in the world, and the legislature ought to unanimously pass a law to kill them in favor of sheep husbandry. Yet it is never done.
Again, the matter of carrying concealed weapons is the basis of a great many murders and homicides. There is a law, of course, against carrying concealed weapons, but it is not effective. One way to make it effective would be to make it against the law to sell a pistol except to a man who takes out a license to buy one for use in the house, and another for carrying it in his pocket, and requiring a fee for each license. Yet nothing is ever done about it.
The crime at Whiteville seems to have been based upon the fact that there were two pistols lying around the house loose.—Charlotte Chronicle.
He is a wise dentist who can quiet his wife's jaw.

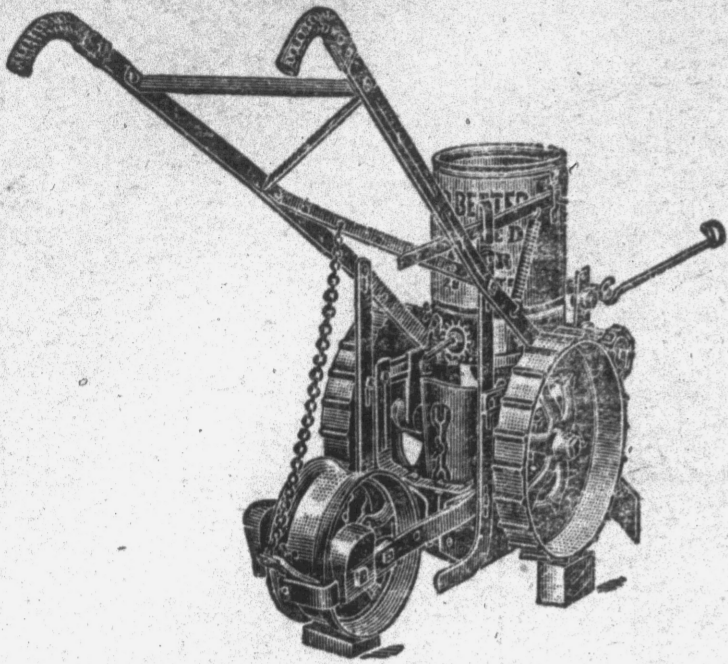

A Pious Night Alarm.
Is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., (R. R. No. 2.) for their four children were greatly subject to croup. "Sometimes in severe attacks" he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, hay fever, lagrippe, whooping cough, hemorrhages fly before it. 50c and \$1.00. Trial bottle free. Sold by all druggists.

He Bought The Dogs.
Obeying an act of the recent legislature, which requires the sheriff of Anson county to keep bloodhounds, the sheriff of that county, says the Wadesboro Messenger, has bought two bloodhounds in Vermont, which cost \$100, exclusive of the express. Think of paying \$100 in good money for a pair of Vermont hounds! If the Anson sheriff had gone out into the rural districts of his county and bought a pair of 'possum hounds for about \$2 each and called them bloodhounds they would have answered the purpose just as well. The Vermont dogs may not know how to chase rabbits and tree 'possums but the convicts on the Anson chain gang will "much" them and learn the game before many months.—Statesville Landmark.

Attacks School Principal.
A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness and for new health and vigor. Try them. Only 50c at all druggists.

Here is an observation from the Salisbury Post that is worth taking along: "So long as worthless dogs go untaxed and are allowed by law to kill the sheep, just so long may we expect the good name of the state to bear the stigma of fostering within her borders so large a number of pauper counties."—Greensboro Daily News.
Should you get the worst of it, try to make the best of it.
EGGS FOR SALE.
Brown Leghorn eggs for sale. The kind that lay. \$1.00 Per Setting.
MRS. C. WASHINGTON,
House, N. C.

The - Ledbetter Planter

Plants Cotton one seed at a time. No skips no bunching. Plants a peck or more to the acre one to six inches apart, always one seed at a time. Saves half the work and labor in chopping. Positive force feed means absolute regularity of drop without cracking or crushing the seed. Each plant has room to grow, though chopping be delayed.

Levels the bed, opens the furrow, plants seed any depth desired one seed at a time and presses earth over seed.

See every seed as it comes from the hopper to spout. Plants Corn one grain at a time, eight inches to forty-eight inches apart. Plants Pea Nuts any quantity desired. TRY THE LEDBETTER. SATISFACTION GUARANTEED

RECENT HAPPENINGS

AROUND AYDEN TOWN

PERSONALS, BUSINESS CHANGES.

Matters of Interest Picked Up By Our Correspondent.

Ayden, N. C., March 17.—J. C. Nobles, Esq., returned Wednesday from a trip to Baltimore and Washington, D. C.

The condition of Mr. J. J. Smith seems a little more hopeful, but still is critical.

Dr. Merriman McKinney and family arrived from Baltimore Thursday and are stopping with his father in Ghent. The doctor will open his pharmacy in a few days.

Mr. John Tickle and family arrived Thursday from South Carolina. They will make their home in Pitt county. Mrs. Tickle was Miss Minnie Turnage, daughter of Mr. Joyner Wingate.

If you need any repairing done, in either wood or iron, or any work done, bring it to us.—J. R. Smith Company.

Owing to high water, Jones & Humbles have taken out their seine at Pitch Kettle.

Remember the orphan concert next Thursday night, 23rd.

The clock at J. R. Smith Co.'s store was opened Thursday. Miss Edith Mumford won the first prize, the dishes; Miss Hattie Armstrong, the second, silver butter knife; Mrs. F. C. Turnage, the third, a can of Weston cooking oil. You get a ticket with each dollar purchase.

Mr. William Cox has purchased the livery business near the depot of O. L. Kittrell.

We heard that our community would have the stock law, but judging from the amount of wire fence sold here, it must be a mistake. We notice two cars have been unloaded in the last few days.

A full supply of hardware, mill supplies, building material, glass; a car each of lime and cement, paint and oils ready mixed.—J. R. Smith Company.

Capt. D. G. Berry brought in a bunch of oats that would measure 10 inches high; a very fine variety. He said he had six acres of them.

Glad to see Messrs. J. J. Hines and Elias Turnage out again, both having been sick several days.

Mr. E. E. Swain has sold his interest in the market business to Mr. Heber Sumrell, and has moved his family to Winterville.

Prof. Ragsdale was here Monday visiting the graded school.

Misses Mattie Johnson and Eva Hart are home again. Their school closed last week.

Rev. J. R. Tingle is confined to his room with carbuncles.

Mr. and Mrs. T. L. Willingham, of Kinston, are visiting Mrs. Jessie Cannon.

There is a new son stopping with Mr. and Mrs. J. A. Hatton.

The Ayden Odd Fellows expect a good time at Belhaven on April 6th, at the district meeting. Quite a crowd will go from here, by land to Greenville, then by water to Belhaven. Mr. J. R. Turnage is the orator of the occasion.

Mr. A. L. Harrington, of Kinston, was here Thursday looking after his real estate business.

Rev. Mr. Webb, who has completed the study of sacred history at the Seminary, left Friday for his home at Kinston.

Don't forget the orphan concert, Thursday night.

Something About Cut Glass.

"An accident to cut glass invariably plunges the owner of it into clouds of gloom, but often these clouds have silver linings. Before throwing the pieces away, examine each piece separately, and see if it could be cut down into anything smaller. Shops which deal in cut glass usually have a cutter on the premises," says Woman's Home Companion for March.

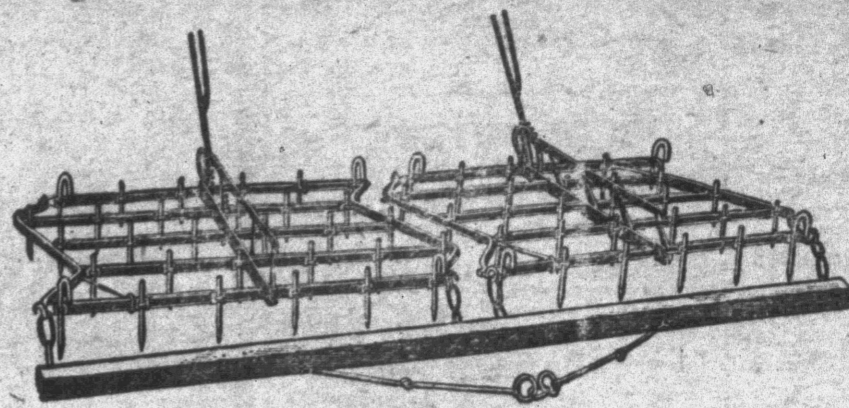

"A case is told of a bride who, upon entering the dining room, arrived in time to see, but not prevent, her maid from pulling, instead of pushing, the extension table, and as it separated in the middle several pieces of valuable cut glass, which had been placed there during the cleaning time, fell through with a crash to the floor. It seemed a hopeless accident, but a rose-bowl was cut down from a decanter, following the pattern near the neck which had broken off, a small violet holder was cut down from a tall vase, a tiny sugar bowl from a vinegar cruet, and a small bonbon dish was saved from a larger cut glass bowl."

Has Millions of Friends.

How would you like to number your friends by millions as Bucklen's Arnica Salve does? Its astounding cures in the past forty years made them. Its the best Salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, old sores. Has no equal for piles. 25c at all druggists.
