NUMBER 6083

WILLIAM M. RUSS EXPIRES SUDDENLY

FOR TWELVE YEARS CLERK OF
WAKE COURT

THE FORMER MAYOR OF RALEIGH

End Came at 12:15 This Morning
When Mr. Russ Became Sick in
Bed—He Was Nauseated and Arose
in a Few Minutes He Died Just
As a Physician Arrived.

William M. Russ, mayor of Raleigh for six years, and clerk of the Superior court of Wake county for 12 years, died suddenly at his home this morning at 12:15. In apparent excellent health yesterday on the streets talking with friends, his sudden death will come as a great shock to his many friends, and there will be the greatest sympathy for his bereaved family.

Mr. Russ retired last night at his usual hour and was feeling particularly well. Shortly before midnight he began coughing and a feeling of nausea came on him. He told his wife of this and got out of bed, relieving his nausea. In doing this he coughed greatly and he took a seat in a chair. In a few minutes his condition became alarming and physicians were summoned. But before they arrived Mr. Russ had died, the physicians pronouncing his death due to dilatation of the heart.

Mr. Russ was a man who had made many friends, for he was a genial man his good nature and jollity being features of his life. He was the center of any crowd in which he happened to be, and was among the most popular of men, having a large acquaintance throughout the state. For years before he entered into politics he was a traveling salesman, having great success in this line and in life insurance work.

In 1894 Mr. Russ was elected mayor of Raleigh and proved a most efficient official. At that time the mayor presided over the city police court, and the remarks of Mayor Russ in the hearing of cases and trials became celebrated throughout the state. During his term as mayor he took great interest in the schools of the city.

Elected for three terms as mayor, Mr. Russ was in 1898 elected as the clerk of the Superior court of Wake county, and in December, 1898, resigned his position as mayor to accept the county office. He was re-elected in 1902 and again in 1906, holding the position for three terms, twelve years, and proving one of the best and most efficient clerks of the court in the state. In 1910 he was not nominated for re-election and retired from office last December, entering this year into the insurance business with Mr. W. R. Crawford.

In the inception of the movement to erect a monument to the memory of Ensign Worth Bagley, Mr. Russ was selected as the chairman of the committee having this in charge. He gave his hearty co-operation in the work and at the unveiling of the monument in the Capitol Square was in charge of the exercises of the day, which he conducted most admirably.

The death of Mr. Russ, occurring at an early hour this morning, made it impossible to arrange the details for the funeral. These will be announced later.

Mr. Russ was born in Wake county on June the 6th, 1857, and was the son of the late Hajor J. P. H. Russ, who was at one time secretary of state, and Adeline Elizabeth Hutchins Russ. On March 31, 1891, he was married to Miss Henrietta Williams, of Greenville.

During his early manhood Mr. Russ was a commercial traveler, and was very prominent throughout the state. He later went into the insurance business. In 1894 he was elected mayor of the city of Raleigh. He was re-elected in 1896 and again in 1898. In the fall of 1898 he was elected clerk of the Superior court of Wake county and resigned as mayor in December of that year. To the office of clerk of the court he was re-elected in 1902 and again in 1906, retiring from office in 1910.

At the time of his death he was engaged in the insurance business with Mr. W. R. Crawford in this city. He was a member of the Church of the Good Shepherd, being one of the vestrymen.

Mr. Russ is survived by his widow and four children—Misses Bettie and

SOMETHING NEW.

Reel Net Operated Like a Water Wheel Catches Fish.

Mr. R. L. Johnson has built a reel net which does all the work of catching fish. While the idea is not original with Mr. Johnson, there being a number of the machines in Roanoke river and elsewhere, it is new on Tar river and is a curiosity to most of our people. The reel when placed in the water is compelled to revolve by water pressure and with each revolution four nets about 10 feet long by 5 feet wide are lowered into and raised out of the water. The trap of the reel is so arranged that it catches the fish that will fall from the net and throws it into the boat, which leaves nothing for the fisherman to do but to string and fetch it to market. It is reported that Mr. Johnson is catching quite a number of shad, hickorys and herrings, with this ingenious device.

CHEMICAL CAUSED CANCER.

Even Now Curable If Disease is Discovered Early Enough.

Dr. Howard A. Kelly, professor of gynecology in the James Hopkins University Medical School and one of the most prominent surgeons in the country, says physicians are on the eve of defining exactly the cause of cancer and of placing it among the absolutely curable diseases. He believes that it is even now curable, if the signs of its presence are discovered early enough and if surgery is used at once. Dr. Kelly said recently:

"The researches of George Crile, of Cleveland; Victor Vaughan, of Ann Arbor; Ross, of Liverpool; Flexner, of New York, and others, by careful animal experimentation and the most refined methods of scientific investigation, have demonstrated almost to a certainty that cancer is not, like many other diseases, due to the invasion of minute organisms into the cells of the body, but is due to the overactivity of the cells themselves, which run riot in their growth stimulated and charged by some chemical substance, probably caused by the irritation of the cells.

"This fact being established, narrows the investigation and brings the goal, the cause of cancer, almost in sight, and direct all the energy and ability of our ablest scientists toward the discovery of some chemical substance which will neutralize that produced by the activity of the cells, and so destroy the growth.

"Pending this great discovery, which seems not distant, it is important for every human being to remember that cancer is a curable disease if taken in its early stages and treated surgically."—Baltimore Dispatch.

A man who thinks he's smart enough to do somebody else thinks he's smart enough not to be done by anybody else, but he isn't.

OLD NORTH STATE

NEWSY HAPPENINGS

GATHERED FROM EXCHANGES.

And Briefly Stated for Our Busy Readers.

Gastonia, March 21.—As a result of a mysterious shooting affair at the home of Spake Elmore, on East Franklin avenue, tonight about 9:30 o'clock, George A. Jenkins, a well-known business man of Gastonia, now lies in the hospital with a full load of gun shot in his lower left stomach and Spake Elmore is in jail awaiting developments in the condition of the wounded man. There were no eye-witnesses to the shooting and the facts are hard to get at, although all sorts of wild rumors are afloat.

Selma, March 20.—A sad accident occurred near Selma yesterday morning. Mr. Ira Hatcher, son of Mr. Charley Hatcher, had started to Selma to meet his brother Joe, of Dunn, when his mule became frightened and ran away. Mr. Hatcher was thrown from his buggy, striking a tree and his back was broken, causing his death in a few minutes.

Julia and Masters Richard and William Russ, Jr. To all of these there goes the deepest sympathy of this entire community, in which Mr. Russ was held in great esteem.—Raleigh News and Observer.

NINE MINERS KILLED BY A FALLING ROOF

CAR KNOCKED OUT SUPPORTS

The Mine Was Shut Down After the Accident.

By Wire to The Reflector.
Pittsburg, March 22.—Nine miners were crushed to death by the falling of a slate roof in the Hazel mine at Canonsburg today. Eight of the men were foreigners. There were eight hundred men at work in the mine and it was shut down at once. The men were riding in a coal car when it jumped the track and knocked down a number of poles supporting the roof of the mine and the roof fell on them.

AROUND THE CAMPUS.

East Carolina Teachers' Training School Notes.

Supt. Chas. L. Coon, of Wilson schools, gives instruction in writing at the Training school each Saturday. Miss Davis read an excellent paper at the March meeting of the Pitt County Teachers' Association on "The Gathering of Local Historical Material."

Mr. Austin of the science department, addressed the Edgecombe County Teachers' Association at their March meeting.

Dr. Kent, a member of the general assembly from Caldwell county, visited the school and made an interesting and helpful talk on the relation of the teacher to the health of the community.

Mr. Ragsdale spoke to the teachers of Martin county on March 18th. The spring term for teachers opened March 14th. Almost double the number that could be accommodated applied for admission.

Mr. F. C. Nye, of Winterville High school, on a recent Sunday evening, made a most interesting talk to the Y. W. C. A., on "Home Missions in Eastern North Carolina." He showed thorough knowledge of conditions.

Mr. Ragsdale made a talk to the Y. W. C. A., on last Sunday evening. The students have derived a great deal of pleasure and profit from selections from grand opera given by the vast singers on a Victor talking machine. Only the red seal records have been used. Miss Muffy has given delightful running comments on the singers and operas. She realizes the value of bringing the students in contact with the best in music.

Statistics on Tobacco Average.

The legislature voted down the measure authorizing the agricultural department to collect statistics concerning the acreage and condition of the tobacco crop during the season, that the trade might use this information to establish prices, which usually, because of lack of information, start low at the opening of the market and the small farmer sells his crop at a disadvantage.

The cost of gathering this information would be a mere bagatelle and, as Mr. O. L. Joyner, a prominent tobaccoist of Eastern North Carolina, who was here yesterday suggested, the tax lists could easily secure the acreage of last year and the present year. Of course the condition would depend upon the season, but with the number of acres, which information the above plan would certainly reveal, the probable yield would be very accurately announced before the opening of the market.

The Southern Tobacco Journal was in favor of the idea to provide some way of securing accurate statistics as to acreage, etc., if such a plan would be adopted throughout the tobacco growing sections, it would be of inestimable value to the trade. We think Mr. Joyner's plan is a good one.—Wilson Times.

Good Corn Yield.

Floyd Gayer, the Oklahoma boy who won a trip to Washington by growing 95 bushels of corn to the acre, says he did it as follows: "Broke land in November 12 inches deep. Harrowed land thoroughly, planted it in rows three feet apart and 14 inches in the drill. Cultivated it on the level; used harrow and cultivator very freely. Cultivated it seven times; worked late in season in order to hold moisture. Had very dry weather. Carried water and put it on corn to keep it from suffering."—The Sun, Baltimore.

When slander is denied is the time it really gets busy.

PERSONAL MENTION.

The People Who Come and Go on Our Trains.

Mr. C. J. Smith and daughter, Miss Julia, of Ayden, who had been visiting the family of Mr. J. H. Kittrell, returned home Monday. Miss Mary Kittrell accompanied them.

Mrs. J. W. Higgs went to Rocky Mount, this morning.

Mr. C. M. Warren went to Wendell today.

Mr. J. B. Peed, of Washington, was here today.

Mr. W. I. Peel has accepted a position in Elizabeth City.

Editor Z. T. Broughton, of the Farmville Enterprise, was here today.

Mr. J. B. Latham, of Washington, was here Tuesday evening.

Mr. T. A. Worthington, of Richmond, district commercial agent of the Western Union Telegraph company, spent last night here.

Mrs. B. J. Pulley and little son went to Zebulon Tuesday evening.

Messrs. R. L. Smith and M. H. Quinerly went to Richmond Tuesday evening.

Mr. L. L. Moore, of New Bern, is here at court.

Mr. R. Williams and Mrs. Elizabeth Swindell went to Raleigh this morning to attend the funeral of Mr. W. M. Russ.

Dr. Schaffer, the show man, went to Kinston this afternoon.

Talking Machine Concert.

A. D. Ellington & Company gave a free concert with the Victor talking machine Tuesday night from 7:30 to 9:30 o'clock, and quite a number of people dropped in at one time or another during these hours to hear some fine records splendidly reproduced. Mr. Ellington says he is thinking of giving weekly concerts on Monday nights. It will be a great treat to lovers of fine music and comedy.

Well Known Here.

The news of the sudden death of Mr. W. M. Russ, of Raleigh, which occurred last night, caused some sad hearts in Greenville where he was well known and had a host of friends. He married a Greenville lady, Miss Henrietta Williams, and all hearts go out to her and the children in their great sorrow.

Kinston Hospital.

Attention is called to the advertisement of the Robert Bruce McDaniel Memorial Hospital at Kinston. This institution contains home-like comforts and the highest grade of hospital advantages. It is convenient to the people of Greenville and Pitt county, and offers its advantages at reasonable rates.

Small Fire.

This afternoon a house belonging to Sam Humphrey, near the corner of Evans and First streets, caught fire in the roof. It was put out without any damage of consequence.

SCENES OF DISORDER IN ITALIAN COURT

PRISONERS ATTEMPTED ESCAPE

Soldiers Called Into Court to Quell and Restore Order.

Viterbo, Italy, March 22.—Rioting caused by opposing lawyers during the Camorrist trial today caused a hasty adjournment of the case and soldiers were called in to clear the court room. The Carabineer guard found themselves unable to cope with the situation and a company of regular infantry was compelled to batter the contestants into submission. The prisoners attempted to escape from the cage but were finally whipped. A riot was precipitated when Cavalier Santo, crown advocate, made a motion to place the gold ring mentioned in Salvis' testimony in evidence. No sooner had the motion been made than opposing counsel began hurling taunts and insults at the lawyer representing Gennaro Abeternaggo, the betrayer of Camorra. The court tried in vain to restore order, spectators joining in the tumult. Camorrist battered the door of the cage, attempting to force the lock, but were beaten back by Carabineers. Finally soldiers were called in and order restored. The judge then suspended court and reprimanded the lawyers.

The softer the whisper that tells a secret, the louder its echo.

THERE WILL BE WAR IF THIS THING GOES ON

INSURRECTORS INVADE TEXAS

Mexican Detective Seize Arms and Ammunition in San Antonio.

By Wire to The Reflector.

Washington, March 22.—The seizure of arms and ammunition by alleged agents of the Mexican government at San Antonio and the invasion of Texas by Mexican insurrectors, brought the Mexican situation forcibly to the attention of President

Taft again today. Appeals have come from Brewster county, Texas, for protection against further invasions. This and the action of private detectives in the employ of the Mexican government in seizing a munition in San Antonio has given the situation a serious aspect.

FARM LIFE SCHOOL LAW.

With Explanation of Its Workings Being Issued in Booklets.

The county farm life law and explanations by State Superintendent of Public Instruction J. Y. Joyner, is just issued from the state department of education and is being distributed into every county in the state with a view to stirring up movements for the establishment of such schools which are especially designed to prepare boys for agricultural pursuits and girls for home making and house keeping on the farm; conduct agricultural and farm demonstration work and demonstration and extension work for the advancement of farm life conditions in the localities, this to be done in cooperation with the state and national departments of agriculture, with meetings for the farmers and farmers' wives and daughters at the school from time to time. Only ten of these schools can be established with state aid any one year. The locality securing one must issue \$25,000 bonds for the school plant and \$2,500 annually toward maintenance. Then the state adds \$2,500 annually toward support. The indications are that there will be a rush by a number of enterprising counties for the ten schools which will be available for this year.

SAYS LAURA JEAN LIBBY

"A Husband is a Woman's Best Friend."

"A husband is a woman's best friend!" exclaims Laura Jean Libby, the eminent authoress and expert on matters of the heart. How true it is! Though he may be neglectful and forgotten for weeks, when the bill collector comes around the husband is called to the front. Whatever minor position he may occupy at other times, just after the first of the month he becomes important. He must face the grocer, meet the milliner and answer the missive of the dry goods man.

Whether the suffragists will admit it or not, a husband is a very handy thing to have around the house. He can fix the furnace, bring up the coal, talk back to the hired man, and some exceptionally brave and hardy ones have been known to go to the extent of taking their lives in their hands and discharging the cook. They save a lot of trouble when ladies want to go to the theatre and are extremely used as companions in going to bridge parties and returning from the same.

A sad and silent figure he may be, and his name appears in the blaze of social lights only as "among those present," but when he gets away even the busiest club woman of a wife soon finds that something is missing. In a theatre or at a reception he makes the finest fur-holders and wrap carriers, and nothing else forms so excellent a background for brilliant costumes as a row of them standing up at the back of an opera box.

Laura Jean is right. A woman has no better friend than a well-trained husband. And the women realize it. Whenever the supply of husbands runs short in any community there is sadness and sorrow. Bachelors are all right in their way, but the only genuine is the man who marries. He fights the world's battles, keeps up its fires, moves its furniture, looks after its children, and pays the bills. Though he seldom gets a monument until he has passed away from this vale of tears, he is a hero, too.—Baltimore Sun.

The eyes needed dust protectors today.

COULD SEE THE PREACHER.

Man Picked Certain Seat to Avoid Big Hats.

In one of the town churches a man was noticed occupying the same seat at every service, and he went in time to make sure of getting that particular seat. He was spoken to about it and asked if he would not prefer a seat nearer the front. "This seat suits me exactly," he said, and pointing to the pulpit he added: "See the advantage I have in not being cut off by big hats."

Sure enough he had an unobstructed view of the pulpit from his seat.

CABINET MEETING.

Reciprocity, Mexican Situation and Tariff Discussed.

By Wire to The Reflector.

Washington, March 22.—The cabinet met today for the first time since the president went on his Southern trip. Reciprocity with Canada, the Mexican situation and the tariff commission were considered. His message to the special session of congress was gone over in detail. It is understood the message will deal only with reciprocity and the tariff commission.

Easter Post Cards.

The ladies of the Episcopal church have on sale a beautiful line of Easter post cards at the store formerly occupied by C. E. Bradley. See them before buying. 3 23

BUSINESS.
"Perpetual devotion to what a man calls his business," says Stevenson, "is only to be sustained by perpetual neglect of many other things, and it is not by any means certain that a man's business is the most important thing he has to do." The man who makes business a continual excuse for not being public spirited, neighborly and godly is merely a shirker.

All notices of entertainments for profit, whether for schools, churches, lodges or any other institution, will be charged for at the rate of one-half cent a word.

Entered at the post office at Greenville, N. C., as second class mail matter.

WEDNESDAY, MARCH 22, 1911.

LET'S CELEBRATE THE DAY.

The Reflector stated a few days ago that it hoped arrangements could be made for an exchange of courts so that Judge Harry W. Whedbee can preside over the first court held in Pitt county's new court house. We are glad to say that this arrangement can be made, Judge J. S. Adams, who is assigned to the fall courts of this district, having consented, with the approval of Governor Kitchin, to an exchange with Judge Whedbee for the first term in our new court house.

The workmen on the court house expect it completed ready for use in time for the August term of court, but in case any interruptions prevent this, one of the fall terms can be held in it.

Another thing The Reflector wants to say in this connection, is that the first day of that first term in the new court house should be made a notable day for Pitt county. Let all the people of the county come together then and celebrate the day by fittingly dedicating the new temple of justice. We refer this to Chairman J. P. Quinerly and the board of county commissioners, who, with the building committee, would naturally have charge of the matter, to take it under consideration and arrange for the county to have a big day when the court house is used for the first time.

With the advent of woman suffrage will the rooster, long the emblem of a political victory, be succeeded by the cackling hen?—Durham Sun.

We imagine that the first page of a newspaper decorated with a bunch of hens the morning after election, would be a tame looking affair and hardly raise a cackle.

Hardly more could have been expected of Raleigh than to defeat the commission government. That city likes crooked ways.

After all Booker T. is just a negro, and it might have been expected to show Roosevelt's dinner started him to spoiling.

The Raleigh Times worked hard for the commission form of government in that city, and takes the defeat gracefully.

You cannot help the town by pushing the wrong way.

It makes us feel just like going a-fishing.

A Dime's Worth of Peanuts.

A man once made the munificent donation of ten cents to Miss Martha Berry's school for mountain boys

Kills A Murderer.

Merciless murderer is Appendicitis with many victims, but Dr. King's New Life Pills kill it by prevention. They gently stimulate the stomach, liver and bowels, preventing that clogging that invites appendicitis, curing constipation, headache, biliousness, chills. 25c at all druggists.

near Rome. Miss Berry accepted the gift as graciously as though it had been ten thousand dollars and resolved, as usual, to despite not the day of small things. She told the boys of the gentleman who had so generously aided them, held up the dime and then urged them one and all to strive valantly to make all they possibly could out of their coin. It was invested in peanuts. These were carefully planted, the whole taking part. And how the boys worked thenceforth to make that patch grow! The result was, that at the end of the season the dime's worth of ground peas netted the school forty-nine dollars and sixty cents.

Of all the rich truths that lie within this story, none is more practical than that the peanut is one of the highly profitable, yet neglected, crops of our southern soil. The United States department of agriculture has recently issued a bulletin calling attention to the fact that the value of the country's peanut crop for 1908 was twelve million dollars.

As an article of food, peanuts are in constantly increasing demand. They are sold now not only by street-venders, but also in the form of sandwiches at refreshment stands in every city. Peanut butter has become one of the most popular of our luncheon delicacies. The United States consumes each year such quantities of peanut oil that it has to be imported from other countries.

There are thousands of acres of waste land in Georgia and other southern states that could be made to yield rich returns from this hardy crop. In places where the boll weevil has rendered it almost impossible to grow cotton, peanuts will thrive. While we are discussing diversified farming and the importance of utilizing minute opportunities on the farm, it will be well to bear these facts in mind.—Atlanta Journal.

Potatoes on Swamp Land.

On black swamp land a reader wants to know what will make his land grow potatoes, as it makes too large vines and small potatoes. Wants to know if lime will help. Lime will sweeten the soil, doubtless, but if there is any scab fungus in the soil it will be helped, too, and the sweetening of the soil may make scabby potatoes. Better grow the potatoes and then harrow in lime for a legume crop on the land for hay. Land of that nature has an abundance of potential nitrogen, but is especially deficient in potash and phosphoric acid, and these plant foods are what make the potatoes, the potash being necessary for the making of starch and the phosphoric acid for storing it in the tubers. Still, if making early potatoes on such land, I would use a little readily available nitrogen. I would mix 100 pounds of nitrate of soda, 1,500 pounds of acid phosphate and 400 pounds of muriate of potash to make a ton, and would use of this 1,000 pounds an acre for early potatoes. The organic nitrogen in your soil will answer instead of any application of fish or cotton seed meal.—W. F. Massey, in Progressive Farmer.

HAIR DROPS OUT.

Many People Have a Simple Way of Stopping It.

It was Dr. Sangebund, of Paris, who first discovered that dandruff and falling hair was caused by microbes.

And now that Parisian Sage, the remedy that kills the dandruff germ is sold in every town in America, the clean people of this country have awakened to the fact that dandruff is unnecessary; that falling hair and itching scalp can be quickly stopped, and that people who use Parisian Sage will never grow bald.

To every reader of the Reflector who wishes to eradicate disgusting dandruff, stop falling hair, and have an immaculately clean scalp, free from itchiness, we make this offer: Coward & Wooten will return your money, without red tape, if Parisian Sage does not banish dandruff, stop falling hair and itching scalp in two weeks.

Parisian Sage is sold by Coward & Wooten, and druggists everywhere, for 50 cents a large bottle. It is an ideal, daintly perfumed hair dressing, free from grease and stickiness, and will cause hair to grow lustrous and luxuriant. Mail orders filled, charges prepaid, by Giroux Mfg. Co., Buffalo, N. Y.

3 22, 41.12

The hotbed is well enough in its place, but few people would care to sleep in it.

ROYAL Baking Powder Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the ingredients.

You need never carry another pail of water or even go out of the house on stormy days. Put running water in your home—in the kitchen—bathroom—toilet—and have an adequate supply in the barn for watering stock—washing carriages, harness—for the lawn, garden—or for protection against fire—besides, a

Leader Water System

makes this possible. It eliminates the unsightly elevated water tank that freezes in Winter—or dries out in Summer. The compressed air in a Leader Steel tank does all the work. In your cellar or buried in the ground it cannot freeze, and it solves the water problem forever. A complete system costs \$45.00 upwards and you can install it yourself, if you like.

Let us show you how a Leader Water System in your home will save you money—in doctor's bills, and add to your own comfort and satisfaction at the same time.
A Leader Water System suited to the needs of your home will never get out of order or need repairs. A few minutes attention each day is all that the apparatus requires.

CRYING FOR HELP.

Lots of it in Greenville, But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. It is the kidney's cry for help. Heed it. Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Mrs. Disco Pittman, Walnut St., Tarboro, N. C., says: "For some time I had not been feeling well and thought that my kidneys might be disordered, as my back was very weak and the kidney secretions annoying. My husband got me a box of Doan's Kidney Pills and since using them, my back has become stronger and my kidneys have been normal. I am now feeling much better in every way and therefore am willing to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Senatorial Deadlocks.

The legislatures of New York, Colorado and Iowa, have not yet elected United States senators, though they have been in session since January. The New York contest has cost \$100,000 in money, and it may cost the Democratic party control of the state if Murphy succeeds in forcing the election of Sheehan or some other man of that type. In Iowa the Republican insurgents and regulars are still wrangling. In Colorado it is the Democrats who are unable to agree on a senator. These deadlocks are strong arguments for the election of senators by direct vote.—Baltimore Sun.

A Fierce Night Alarm.

Is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., (R. R. No. 2.) for their four children were greatly subject to croup. "Sometimes in severe attacks" he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it, for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, hay fever, lagrippe, whooping cough, hemorrhages fly before it. 50c and \$1.00. Trial bottle free. Sold by all druggists.

Record Bridge Construction.

A record in small bridge reconstruction was made recently on one of the divisions of the Pennsylvania railroad. The reinforced concrete slabs which were to form the new spans were placed in accessible positions along the tracks and when all was in readiness, two powerful wrecking cranes tore up one side of the bridge, tracks, spans and all. Within 30 minutes the concrete slabs were placed on this side and tracks laid, after which the other side was treated in the same manner. Not a single train was delayed or thrown off schedule, notwithstanding the fact that the bridge is on the main line between Washington and Buffalo.—Popular Mechanics.

What two letters aptly describe the condition of the man who is taken in by sharpers? E. Z.

THE SOIL.

What Constitutes Soil Fertility? What Does the Term Mean to You?

What is soil fertility? What does the term mean to you? What is your standard of measurement? What are the conditions or factors which control or constitute soil fertility? It appears that, to some, the quantity of the so-called plant foods, nitrogen, potash and phosphoric acid, which are applied to or contained in the land, is the most important factor in measuring the fertility of productive power of a soil. To others the proper amount of humus, or decaying organic matter in a soil, is the measure of its fertility, or at least, is the first essential of soil fertility. Still others believe that tillage determines more largely than any other factor the productive capacity of soils. And still others, even certain scientists and investigators have claimed that soil fertility is almost entirely a question of a proper supply of moisture in the soil, independent of its chemical composition, except as this chemical composition effects its power to furnish a proper water supply.

That all soils contain sufficient plant foods for the production of large crops, or that the supply of water is the sole measure of soil fertility, will be accepted by few; but if any one factor could be singled out as the most important in determining the fertility of any soil, it would certainly be the one of a proper supply of water. The lesson which must first be learned is, that soil fertility is dependent upon many different factors, and that if we neglect any one of the factors, or if we greatly exaggerate another, we shall most likely fall short of that grasp of the subject necessary to the best soil management.

If we admit that good tillage, sufficient plant foods, organic decay and bacterial life and a properly regulated supply of moisture are all essential to large crop production, or maximum soil fertility, it is not quite proper or accurate to state that any one of these is, in the true sense, the most important; but since all others of these are more or less dependent upon one, water, it may be placed first in consideration.

Most soils contain much more plant foods than would be required to produce scores of maximum crops; but these are useless for crop production until dissolved in the soil water. Organic matter decays through bacterial activities, which break down and render soluble plant foods in the soil; but one equally important function of decaying organic matter in the soils is its value in preserving a proper water supply. If, then, sufficient plant foods in the soil, decaying organic matter and a proper water supply are the three most important factors in soil fertility, it is entirely proper to place the water supply as first in importance. Organic matter would be placed second because its decay tends to render the plant foods already in the soil available to crops and to regulate the water supply in which the plant foods are dissolved and carried to the growing plants.

These, then, are our problems: (1) To control the water supply by drainage and the introduction of organic matter, and (2) to furnish soluble plant foods by introducing organic matter which in its decay will supply substances to dissolve the plant foods already in the soil, and by the addition of other supplies of plant foods in commercial fertilizers.—Raleigh Progressive Farmer.

THE CAUSE OF COLDS.

Good Advice Regarding the Prevention of Coughs and Colds. If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation of thirty years of cures gained through the use of this formula. We promise to make no charge for the medicine should it fail to do as we claim. We urge everybody who has need of such a medicine to try Rexall Mucu-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove the reasonableness of our claim in every particular, and we see no reason why any one should hesitate to accept our offer and try it. We have two sizes of Rexall Mucu-Tone, prices 50 cents and \$1.00. Sometimes a 50-cent bottle is sufficient to give marked relief. As a general thing the most chronic case is relieved with an average of three large bottles. You can obtain Rexall Remedies only at our store—The Rexall Store, Moye's Pharmacy, Greenville, N. C.

NEWSPAPER PRESS FOR SALE.

Having placed an order for a new fast newspaper and book press, to be installed the middle of April, we have a newspaper press that will be sold at a bargain for delivery May 1st.

It is a Monona Leverless Press, large enough to print four 6-column pages, or two 9-column pages and has steam fixtures so that it can be run either by hand or power. Been in use six years.

It is a splendid press for a weekly paper and is in good condition to do many years good service. We used a press from the same factory for 17 years before installing this one, printing a daily paper with small circulation about 10 years of that time. Its speed, 800 an hour, is too slow for a daily paper with the present circulation of The Reflector, and for that reason we are having to displace it with a faster press.

Any one interested and wanting a good press for a weekly newspaper, can see this press at work every day in the Reflector building, before our new press is installed. Any one who cannot come to see it at work and examine it, can get particulars by addressing

The Reflector Company,

The Ledbetter Planter

Plants Cotton one seed at a time. No skips no bunching. Plants a peck or more to the acre one to six inches apart, always one seed at a time. Saves half the work and labor in chopping. Positive force feed means absolute regularity of drop without cracking or crushing the seed. Each plant has room to grow, though chopping be delayed.

Levels the bed, opens the furrow, plants seed any depth desired one seed at a time and presses earth over seed.

See every seed as it comes from the hopper to spout. Plants Corn one grain at a time, eight inches to forty-eight inches apart. Plants Pea Nuts any quantity desired. TRY THE LEDBETTER. SATISFACTION GUARANTEED

NEW YORK AND CHICAGO MARKETS

Cotton.

New York, March 22.—Cotton opened steady with prices almost unchanged, ranging from one point higher to two points lower. Liverpool futures were steady and spots quiet.

Opening—	
March.....	14.43
May.....	14.46
July.....	14.31
August.....	13.83
September.....	13.02

Stocks.

New York, March 22.—The stock market opened firm with a general fractional upturn. Canadian Pacific was a leader, opening with an advance of 3-4. National railways of Mexico second preferred was firm up 1-4. Other advances were Union Pacific 1-8; Reading 1-8; Consolidated Gas 3-8; Missouri Pacific 3-8; Steel 1-8; Atchison 1-4; St. Paul was unchanged. In the absence of trading the tone soon grew dull. Traders are of the opinion that the market will remain in a lethargic condition until the anti-trust case decisions are handed down by the Supreme court.

Grain.

Chicago, March 22.—Weak cables, bearish foreign news and rains in the southwest caused a little lower market in wheat today, with prices off 1-8 to 3-8c, corn and oats were lower, provisions easier.

Opening—	
May wheat.....	89 3-4
Corn.....	48 1-2
Oats.....	30 7-8
Pork.....	16.25

Attacks School Principal.

A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness and for new health and vigor. Try them. Only 50c at all druggists.

Roll The Winter Wheat

Rolling winter wheat in spring has a tendency to increase the yield. Four years' tests at the Nebraska experiment station show an average increase of over five bushels per acre. The rolling is given early in the spring, soon after frost is out, and about the time growth starts. This preserves the earth firmly about the plant roots and produces good results. When the frost comes out in the spring it is very apt to leave the soil filled with small cracks, especially around the plants. A large number of roots are thus exposed, and if the weather continues dry they are killed, or at least injured. If the soil is not wet at the time of rolling, and it should never be rolled when wet, the rolling aids in no small degree to form a surface mulch, which retains moisture. It does this rather than compacts the surface.—The Sun, Baltimore.

RECEIVER'S SALE.

On Saturday, March 25th, 1911, at 12 o'clock, m., I will offer for sale, at public auction, in the town of Vanceboro, N. C., to the highest bidder, all the stock of goods, wares, merchandise, store fixtures, etc., formerly belonging to the Vanceboro Supply Company. This stock of goods will inventory \$3,300.00. One 35 H. P. Atlas boiler and one 25 H. P. Atlas engine, one Lummus System gin outfit, 2-60 saw gins, steam press, wagon, scales, pulleys and belts. One town lot 250 feet front and fronting 250 feet on navigable stream, also the standing timber on 467 acres of land. This timber will be sold for periods of 9 to 14 years. Also several notes, secured by real estate mortgage, amounting to \$2000. If interested write.

J. B. HARVEY, Receiver.
w&s mch 22 Vanceboro, N. C.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR

Who does not know of the value of sage and sulphur for keeping the hair dark soft glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind called Wyeth's Sage and Sulphur Hair Remedy and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by Moyer's Pharmacy, Greenville, N. C.

NEWSY HAPPENINGS AROUND WINTERVILLE

Things That Are Going on in Our Neighbor Town.

Winterville, N. C., March 22.—Mr. Heber Hamilton, of Ayden, was in town Sunday.

Miss Annie McGlohora, of Renston, entertained a host of friends Saturday night at her home. Ice cream was served and all present seemed to enjoy themselves.

Harrington, Barber & Company will pay you the highest market price for your chickens and eggs.

Mr. F. A. Edmondson, of Stantonsburg, was in town Sunday.

Dr. W. R. Cullom, of Wake Forest, made five excellent lectures on the book of Matthew in the Baptist church, Friday night, Sunday, and Sunday night. He had large congregations every service from the city and country. We are to be congratulated on being able to hear such a speaker.

The singing class from the Oxford orphan asylum will give their entertainment here next Friday night in the W. H. S. auditorium. Let everybody come out.

Harrington, Barber & Company have received a nice line of spring and summer hats, for young men and old men.

Mr. C. T. Cox, went to Greenville Tuesday evening.

Miss Lizzie Harold spent Saturday and Sunday at her home in Oak City.

Mrs. H. F. Brinson went to Greenville Tuesday evening.

Rev. R. E. Stanfield is assisting Rev. R. L. Caraway in a meeting here in the Methodist church this week. We are having some very good preaching here, so all be sure and come out to hear him.

Gardnerville Items.

Gardnerville, N. C., March 21.—The rain Saturday night stopped the farmers of this section from planting corn for a while.

Miss Marie Lancaster, of Vanceboro spent Saturday night and Sunday with Miss Faye E. Corey.

Mr. L. H. Moore spent Saturday night with Mr. E. W. Causey, on Wall street.

The school commencement at Buck school house, Thursday night, was a decided success. The children acted their pieces with credit, both to the community and to the splendid teachers of that school.

Misses Rachel Coward and Winnie Moore, of Grifton, attended the exercises at Buck school house Thursday night.

Miss Minnie Belle Witherington, who has been visiting Misses Lena and Bertha Holaway, of Gum Swamp, returned Sunday.

Miss Velma Kirkman is spending the week with her sister, Mrs. Joe Rouse, at Maple Cypress.

Miss Bertha Holaway, of Gum Swamp, is spending the week with Miss Minnie Belle Witherington.

Miss Jessie Coward spent Saturday and Sunday with her parents at Grifton.

Mr. H. R. Kirkman finished planting corn last week.

Mr. E. E. Moore spent Saturday night with Mr. G. L. Moore, at Fort Barnwell.

Misses Susie and Minkey Batchelor were the guests of Miss Velma Kirkman Sunday.

Smithtown Items.

Smithtown, N. C., March 21.—Mrs. T. B. Stokes has been quite sick for the past few days, but is improving. Our farmers are busy hauling fertilizers.

Quite a number of our people attended the commencement at Clay Root Neck Thursday night.

Mrs. H. M. Stokes spent Saturday night and Sunday at Coxville.

Mr. and Mrs. George Venters spent Sunday with L. H. Stokes.

Two of our boys took quite a walk Saturday night. Just for their health, we presume.

Misses Velma and Mamie Venters spent Sunday with Miss Bertha Stokes.

The road hands have made quite an improvement on our roads recently.

Coxville Items.

Coxville, N. C., March 21.—Quite a number of our young people attended the entertainment at Buck school house Thursday night.

Miss Carrie Chapman, who has been teaching near Winterville, closed her school Friday. We are glad to have Miss Chapman with us again.

Mr. Fred Crawford, of Smithtown, was in this section last week.

Mr. Claude Burney, Misses Marie Lancaster and Faye E. Corey went to Greenville Saturday.

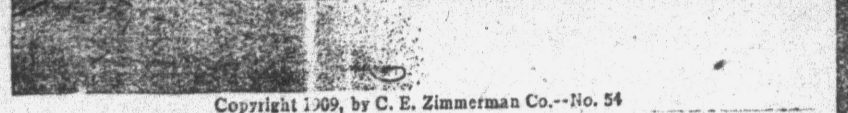

Mr. Cleteus Lancaster, of Vanceboro, spent Sunday at Mr. N. R. Corey's.

We are very glad to see Miss Sallie Chapman out again.

Wedding bells will soon be ringing in this section.

We are glad to know Master Joe Ray Burney is improving.

THE PERSON SUGGESTING THE most suitable names for the two pieces of residential property we are going to sell in Greenville, N. C., March 23rd, will receive \$5 in gold. Write your answers and seal them and send to Mr. George W. Kelley, our representative, at the Bertha hotel. On the day of the sale, we will select two citizens of Greenville, N. C., to decide who is to receive the \$5 in gold for the best names. Suburban Realty & Auction Co., Raleigh, N. C. 3 17 tdf

WANTED—YOUNG MAN, TO INVEST one thousand dollars in mercantile business near Norfolk, business small at present, but with additional capital and active man can be built up to fifty thousand dollars a year. No competition, low rent and at least four thousand people to draw from; good neighborhood, and good class of trade to sell; 20 minutes ride from ports; 45 minutes to Norfolk. This is not a soft snap, not a boom; I mean business. Don't answer unless you are interested. References exchanged. Address W. C. Thurston, Port Norfolk, Va. 3 23

Has Millions of Friends. How would you like to number your friends by millions as Bucklen's Arnica Salve does? Its astounding cures in the past forty years made them. Its best Salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, old sores. Has no equal for piles, 25c at all druggists.

AMUZU

OUR VAUDEVILLE
Double act tonight. The last appearance of Mr. James Rose in complete change of dancing, singing, and talking, assisted by local talent. This is your last chance to see a double act of vaudeville and 2,000 feet of film for the exceedingly small consideration of 10c.

REMEMBER THE BUFFALO BILL PICTURES THIS FRIDAY NIGHT

There will be a matinee and a souvenir given Monday 3:30 to 5:00. Admission 5 Cents.
