## EXPERIMENTAL FARMS IN EASTERN CAROLINA

### TO SPECIALIZE FORAGE CROPS.

The Norfolk Southern Railroad Establishing Experimental Farms.

Believing that there are many valuable agricultural possibilities in the tidewater section of North Carolina that are not yet properly developed, the Norfolk Southern Railroad has set about demonstrating the foundation facts for such belief. Early last fall that railroad took up with the secretary of the North Carolina board of agriculture the matter of establishing experimental farms in various representative districts in the eastern part of the state. The proposed plan was to make these experimental farms joint operating propositions between the state board of agriculture, the Norfolk Southern Railroad and the enterprising farmers of Eastern North Carolina.

As a result of these negotiations, the Norfolk Southern has already established several experimental farms, which will begin demonstration operations this spring. One of these is, located on the farm of J. L. DeCormis, two miles north of Shawboro; another on the farm of S. W. Wilkinson, at Wilkinson station, about seven miles from Belhaven; and another on the farm of Chas. Briggs, one-half mile north of Pinetown and another on the farm of J. A. Miller, about five miles southeast from New Bern and near Thurman station.

They expect to establish still other farms yet this season, and plans are that several more will be added during the second year after these first farms get under way.

The work taken up this first year will mainly be the demonstration of possibilities in growing forage crops, and the experiments will be the testing out of the many different grasses and other rough feed crops. Among these will be tests in the following: Alfalfa, fall sown, and alfalfa spring sown; alsike clover; sapling clover and red clover; mixed grasses and clovers; timothy; soja beans, cow peas; teosinte; pearl millet and German millet. Plots of one-tenth acre each will be sown representing these different forage crops. Besides these, one-half acre will be used in variety tests of cotton, and one-half acre in variety tests of corn.

The working plan for these experimental farms is that the state department of agriculture furnishes the seed and fertilizer for the experiments, the farmer will furnish the labor and the land for conducting same, and as a remuneration for his services he receives the entire crop proceeds.

The Land and Industrial Department of the Norfolk Southern Railroad will have entire supervision of this work, lay out the plots and keep close observation of the different tests. Accurate records of costs and crop yields will also be kept and published in the railroad literature that will be issued from time to time.

One condition that the railroad company exacts is that all these experimental farms must be located facing the railroad, where they can be seen from passing trains, and they must also be located upon public roads that they may serve the purpose of observation by all the people in the local counties.

Valuable information calculations will undoubtedly result from these experimental farms and the Norfolk Southern Railroad company is to be commended for their enterprise in establishing this kind of work in the state. They are surely the leaders in the locating of these experimental farms as a part of the railroad demonstration work and it is expected that other railroads will follow the good example set by the Norfolk Southern.

### An Attractive Window.

A display window of unusual beauty and attractiveness is seen at the store of the Gornto Shoe Company, Greenville's exclusive shoe establishment. The window is characteristic of the stock carried in this store.

### Easter Services.

The several churches of the town will have appropriate Easter services next Sunday. The Reflector will publish a program of the services in Saturday's paper, and the ministers are requested to give us the copy as early that day as is convenient.

## THE PUBLIC LIBRARY.

### It Needs The Encouragement of The People.

The Sans Souci Club has recently turned over to the library the sum of \$40, which its members generously agreed to donate to aid in maintaining a library in the town of Greenville.

This club has always been heartily interested in this work, giving their books each year to the library, and also presenting several handsome sets of books to the one burned last year.

The library committee desires to return thanks for this timely aid, that of the Masons, the Civic League, and the generous individuals, who helped make it possible, to re-establish a library after the fire. If the other clubs and organizations in Greenville would co-operate and each send a representative who would form a part of the library committee helping to control its affairs, and if the people generally would subscribe to it at only \$1 per year, we could soon have a library here of which every citizen would be proud.

The Masons have not only given a room to be used for this purpose, but have also furnished it attractively.

The library committee endeavors to get some of the best of the modern fictions each month, and is adding gradually to the number of standard works, histories, and reference books generally, but to run a library successfully there must be a settled fund to draw from each year. Until we have this, it must perform be a thing of very gradual growth, unless the other organizations and the citizens generally will help us.

We know Greenville people need and want a public library and, if they will only want it enough to feel they would like to have a part in helping to maintain one, we should soon have a free public library, open every day, a reading room, the best of the magazines and newspapers and everything needful.

We have made the start by the help of the organizations mentioned. Come to our assistance and help us to have a library worthy of the growing town of Greenville. Take an interest in this matter; come up and see what we are trying to do and lend a helping hand. All suggestions for the improvement of the library will be thankfully received.

It is situated up stairs in the front of the Winslow building, corner of Fifth and Washington streets, and is open at present for two hours on each Monday, Wednesday and Friday, from 3:30 to 5:30 p. m.

### NEWSY HAPPENINGS

#### GATHERED FROM EXCHANGES.

### And Briefly Stated for Our Busy Readers.

Chapel Hill, April 11.—Henry Jones who was shot by Ernest Ray last Thursday night during an affray, died last night at his home at Venable, near Chapel Hill. The coroner's inquest, held this afternoon, found that Jones came to his death at the hands of Ernest Ray. Ray was carried to the county jail at Hillsboro last night.

Winston-Salem, April 11.—Dr. J. M. Hollingsworth, one of Mt. Airy's leading physicians was found dead in his stable early this morning. He had just returned from a professional visit and was putting his two horses in their stalls when the summons came. Dr. Hollingsworth was 45 years old. Heart disease was the cause of his death.

Tarboro, April 11.—The police were advised Monday night that a negro, Ed. Wilkins, in Princeton, had severely beaten a negro woman, named Mariette Lawrence. Policeman Sorey went over to arrest him, taking with him Thos. Farrar. When the nippers were put on him he resisted frantically. He struck Mr. Farrar, who then shot the man in the hip.

### Mr. Pearce Better.

A telegram from Sanford today announces that Mr. B. C. Pearce, who suffered a slight stroke of paralysis Monday, is some better and resting more comfortably.

### Speaks for Itself.

You can make a note of this, that no paper in this section of the state is giving its readers more news than The Reflector.

## TWO MARRIAGES OF SCOTLAND NECK COUPLES

### ONE OCCURRED ON THE TRAIN.

#### "Uncle Tommy" Tells of Things Around His New Home.

Scotland Neck, N. C., April 12.—A few days ago there were two marriages in Halifax county, one of which took place in the Baptist church in Scotland Neck. This was Mr. Charlie Shields to Miss Pauline Tillery, both of Scotland Neck. They were married at 9 o'clock by Rev. Mr. Powers and left on the 9:38 train amid showers of rice and congratulations for the northern cities to spend their honeymoon. I can't do justice in trying to describe the decorations of the church, but suffice it to say that everything was beautiful.

Now, I will tell you of one of the most novel marriages that took place the same day (or night rather) in the same county, that we ever heard of. Mr. Paul Vaughan and Miss Laura Bell, of Scotland Neck, left on the evening train for Halifax to get married there and before they reached Spring Hill there was a slight wreck of the train and it looked like they would have to stay there all night. Some of the crowd procured a hand car and went to Spring Hill and woke up a justice of the peace, took him to the scene and he married the couple on the train while standing between two seats. When the wreck was repaired they went on their way rejoicing. It is said they went to Richmond to spend their honeymoon. The cotton seed oil mill and guano factory are doing an extensive business here, which makes it very convenient for the farmers in this section.

I think the humbugs, such as the fortune teller, the monkey and his boss and the unknown tongue people, have disbanded and left. Mr. Madry's large brick store that is going up on Main street reminds us from a distance of a new court house.

My work is gardening. I have two gardens to cultivate and enjoy the work fine. I was late planting but guess I will have gardens to boast of after a while.

## ANOTHER RECIPROCITY BILL.

### Introduced in Congress by Representative Underwood.

By Wire to The Reflector.  
Washington, April 12.—Representative Underwood, the Democratic leader, as soon as the house met today, introduced a Canadian reciprocity bill which is, with minor exceptions, the same as the McCall bill introduced at the last session. At the same time he introduced a bill placing various articles on the free list. The only change from the McCall bill is a clause asking the president to negotiate with Canada if possible for further concessions.

## FOUND THREE CHECKS.

### They Are Part of the Lorimer "Slush" Fund.

By Wire to The Reflector.  
Springfield, Ill., April 12.—Three checks totalling nearly \$50,000 are said to have been found for investigators for the Helm committee and they have been proved to be part of the collections of \$100,000 in the Lorimer co-operative fund. While none of the committee would discuss this new phase of case, it was reported that the checks were of vital importance to the inquiry. The committee meets again tomorrow.

## WINE ALWAYS GIVES TROUBLE.

### Causing Riot and Destruction of Property in France.

By Cable to The Reflector.  
Paris, April 12.—Additional troops were today sent to the Valley of Marne to reinforce dragoons there following a wild night of rioting by discontented wine growers who have destroyed over \$1,000,000 worth of champagne. The trouble is caused by the French parliament restricting the territory whose product of wine might be labelled champagne. The streets of several towns were literally rivers of wine today.

### Look for Anything.

Possibly it will not snow, but if it did there would be little occasion for surprise.

## PERSONAL MENTION.

### The People Who Come and Go on Our Trains.

Mrs. Ada Cherry left Tuesday evening for Sanford to see her father, Mr. B. C. Pearce.

Mr. J. B. Moore came home Tuesday evening from Fortress Monroe.

Mr. O. F. Clark went to Tarboro Tuesday evening.

Mrs. W. M. Moore and Mrs. Dora Brickell went to House Tuesday evening.

Miss Brightste Savage, who was teaching near House, has closed her school.

Mrs. Mary Lang, of Farmville, is visiting Mrs. R. L. Smith.

Mr. J. S. Norman has been laid up the last week or two with rheumatism that kept him from his work on the road as traveling salesman.

Mr. A. J. Outterbridge has been on the sick list for the past few days.

### Bishop Strange to be in Greenville

Bishop Robert Strange, of the Eastern Diocese of North Carolina, will reach Greenville Thursday afternoon, and will hold service with sermon and Holy Communion that night and will hold the following services: Friday morning, 7:30 a. m., 11 a. m. and 8:00 p. m. Saturday morning at 7:30 a. m., and Easter Sunday at 11 a. m.

It is a great privilege to hear Bishop Strange, and it is hoped that everyone will avail himself of hearing him.

### Grimes-Keel.

The following card has been issued:

Mr. and Mrs. James Oliver Keel invite you to be present at the marriage of their daughter,

Ruth

to

Mr. Sylvester George Grimes on the afternoon of Wednesday, April the twenty-sixth, at two-thirty o'clock

nineteen hundred and eleven near Robersonville, North Carolina.

### Miss Nunn to Speak.

Instead of the usual prayer meeting in the Christian church tonight, Miss Etta Nunn, of New Bern, will give a talk on Missions. The public is invited to hear her.

### Representative to Grand Lodge.

Covenant Lodge, No. 17, I. O. O. F., has elected Mr. E. A. Moye representative to the grand lodge which meets in Winston-Salem on the second Tuesday in May.

### Committees to Meet.

The committees of the boys' corn contest will meet Friday morning in the city hall.

### MIDDLE-CLASS KING.

### George of England Shows Great Regard For Opinion of Masses.

England, or at any rate, London, has dubbed George V "the middle-class king." This designation is meant to be complimentary. The king's ways are democratic and his interests "prosaic." He invites "plain people" to dinner; he takes an interest in housing and town planning, particularly inquiring into the accommodations planned for the poorest of the inhabitants; he has visited the post office and watched the clerks and carriers at their routine. Sports and display have little attraction for him, and aristocracy fears that he unduly insists on "respectability" and "bourgeois morality." His libel suit to establish the falsity of the bigamy charge that had been peddled against him for many years was a striking illustration of his regard for the opinion of "average humanity." To the royal "superman" such a charge would have mattered little.

It will be recalled that at the time of the king's accession many of the progressives gloomily talked about this "tory millitations and tory sympathies." It was even said that he would side with the peers in their struggle to maintain their political privileges in spite of advancing democracy and urgent constitutional changes. These fears and doubts appear to have been dispelled. A "middle-class king" is exactly the kind of king Great Britain needs today. Such a king will not stand in the way of reforms decreed by the people. Such a king will act "constitutionally" and give no encouragement to the bourgeois in the upper house.—Chicago Record-Herald.

## AYDEN CARRIES ELECTION FOR GRADED SCHOOL BONDS

### THAT TOWN GOING FORWARD.

#### Will Erect a \$12,000 Brick Graded School Building.

On Tuesday an election was held in Ayden, on the question of issuing bonds in the sum of \$12,000 to erect a modern brick graded school building in that town. In the election 80 votes were cast for the bond issue and 53 against, carrying the matter by a safe majority. The town is rejoiced at the outcome of the election and the prospect of soon having a handsome graded school building.

### A BOY WANTED.

#### Diploma and Prize Money Awaiting Him.

Among the boys of Pitt county to whom diplomas were issued by the state in the corn growing contest last year was Herbert Owens, and the prize committee also made a cash award to him, his yield being the third largest in the county. He was not present the day the diplomas and cash prizes were delivered to the other boys and his diploma and money were placed in charge of The Reflector to be delivered to him when he calls.

Though we have made some inquiry personally for him he has not yet been located. If any one knowing Herbert Owens will get this announcement in his hands they will be doing the boy a favor. His diploma and money can be had by his calling at The Reflector office.

### Tap Line Rates.

By Wire to The Reflector.  
Washington, April 12.—The interstate commerce commission today heard arguments concerning cancellation of through rates over various railroads operating in the South and southwestern freight territory with tap line connections. The question at issue is divisional proportion of rates to be allowed tap line roads.

### Will Argue Rates.

By Wire to The Reflector.  
Washington, April 12.—Arguments will begin tomorrow before the interstate commerce commission in behalf of the Atlantic Coast Line, Carolina, Clinchfield and Ohio, and other roads for relief from the long and short haul clause regarding coal, commodity and class rates.

## THE PUBLIC SCHOOLS WILL GET THE MONEY

### POLL TAX INCREASES ITSELF.

### The Supreme Court Unanimously Holds to This Opinion.

By Wire to The Reflector.  
Raleigh, April 12.—The Supreme court today held unanimously with Governor Kitchin and against State Auditor Wood in the school tax matter. It held that the constitution is mandatory and that the poll tax must automatically increase itself so as to maintain the constitutional rate between the property tax and poll tax. This is a complete reversal of a former opinion. It means that the schools will get the money.

### MACHINE DROPS IN SEA.

### French Aviator Comes to Grief Trying New Machine.

By Cable to The Reflector.  
Nice France, April 12.—M. Begue, inventor and aviator, came to grief today in a trial flight in his new hydro aeroplane. The machine dropped in the Mediterranean Sea near Merroeo, while Begue was making his flight and was destroyed. The aviator was rescued by a torpedo boat.

### SUING FOR PEACE.

### Diaz Government Sends Commission to Insurgents.

By Wire to The Reflector.  
Laredo, Texas, April 12.—A peace commission reached General Madero's camp in the State of Chihuahua today bearing terms of the Diaz government. The insurgent commander in chief called a council of his officers to consider the peace pact.

### LOCAL BRIEFS.

### Little Items too Short for a Head, but Interesting.

It is cotton planting time. Prayer meetings in the churches tonight.

Results follow an advertisement in The Reflector.

Possibly we can count on having warm weather in July.

A large crowd visited Ellington's last night to hear the music.

April's weather fickleness is certainly something out of the ordinary.

Congressman Webb has introduced a bill in congress making it unlawful to ship intoxicants of any kind into a prohibition state. That is a bill that ought to be passed, and such a law will be enacted sooner or later. No state can enforce prohibition strictly until the shipping in of liquor is stopped.

**Robbed the Dishpan.**

A Cleveland man hid \$2,400 in a dishpan in the kitchen. What was in the dishpan looked good to somebody, but he left the dishpan for future deposits. As a competitor with the savings bank, which pays four per cent. interest compounded quarterly, the dishpan is a loser.—Wilmington Star.

**A Word For The Other Side.**

We may be wrong, but we are of the opinion that it does no good for a court to criticise the verdict of a jury, because a court, as a court, occupies a different position from citizens who may criticise. Our opinion is based on the fact, as we understand it, that jury duty is compulsory, the law makes the jurors "sole judges" of the facts, and the law gives them the privilege of returning one of a certain number of verdicts. So when they exercise this right, go according to a privilege allowed by law, it is not the best thing to criticise them, it seems to us. If the law does not want to permit a certain kind of verdict, it errs in having a court give a jury the right to render such a verdict. No doubt, there are outrageous verdicts, but unless there is a fraud jurors stand on their rights. "Two wrongs cannot make a right." If the jury system is wrong abolish the jury system, if the calibre of the jury list in any county is off color, purify it, but the law is at error that allows you to do something wrong; gives you the privilege of such. We do not by any means agree with the verdict rendered in the Stephens case, but we do believe in upholding the rights of citizenship.—Wilmington Dispatch.

**HAIR DROPS OUT.**

**Many People Have a Simple Way of Stopping It.**

It was Dr. Sangebund, of Paris, who first discovered that dandruff and falling hair was caused by microbes.

And now that Parisian Sage, the remedy that kills the dandruff germ is sold in every town in America, the clean people of this country have awakened to the fact that dandruff is unnecessary; that falling hair and itching scalp can be quickly stopped, and that people who use Parisian Sage will never grow bald.

To every reader of the Reflector who wishes to eradicate disgusting dandruff, stop falling hair, and have an immaculately clean scalp, free from itchiness, we make this offer:

Coward & Wooten will return your money, without red tape, if Parisian Sage does not banish dandruff, stop falling hair and itching scalp in two weeks.

Parisian Sage is sold by Coward & Wooten, and druggists everywhere, for 50 cents a large bottle. It is an ideal, daintily perfumed hair dressing, free from grease and stickiness, and will cause hair to grow lustrous and luxuriant. Mail orders filled, charges prepaid, by Giroux Mfg. ### To Hang Train Wreckers.

The sole crime punishable by death in the state is deliberated and premeditated murder or the killing of a human being in the perpetration or attempt to perpetuate any arson, rape robbery of burglary. The killing of any number of human beings by deliberately throwing a moving train off the track will not cause the man convicted of this offense to lose his life. The House at Harrisburg thinks evidently this is a mistake, for it has passed on second reading, without a dissenting vote, a bill making trainwrecking which results in loss of life punishable by death.

Though the general tendency of the present day is to restrict rather than extend the application of the death penalty, no valid objection can be made to including killing caused by train wrecking in the list of homicides for which life is to be forfeited. So long as we have capital punishment for willful murder the train wrecker who destroys life should receive the penalty. A grave crime can hardly be conceived than the deliberate wrecking of a rapidly moving train carrying human beings. The slaughter is usually wholesale, while the maiming and suffering caused are unmeasured. A man capable of such a crime is too wicked to live.—Philadelphia Press.

### Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gaines, of Avoca, La., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health strength and vigor. They're guaranteed to satisfy or money refunded. Only 50 cents at all druggists.

## THE FILIPINO PEOPLE.

The Only Asiatics Who have Accepted Christianity.

These seven million native Filipinos represent all stages of human progress. The lowest of them are head-hunters and hang the skulls of their human enemies outside their huts as an American hunter would the head of an elk or bear. The great majority, however, have long been Christians and have attained a fair degree of civilization. Even among the savage tribes, a high moral code is often enforced. The Irrogotes, for example, though some of their number make it a condition of marriage that the young brave shall have taken a head, shall have killed his man, yet have remarkable standards of honor and virtue in some respects, and formally visit the death penalty as the punishment for adultery. Because roads or means of communication have been poor the people have mingled but little, and there are three dozen different dialects. In the course of a half day's journey by rail I found three different languages spoken by the people along the route. The original inhabitants were Negritos, a race of pygmy blacks, of whom only a remnant remains, but the Filipino proper is a Malayan.

The natives are unique in that they alone among all the peoples of Asia have accepted Christianity. Fortunate in being without the gold of Mexico or Peru, the Philippines did not attract the more brutal Spanish adventurers who about the time of Magellan's discovery, were harrying weather peoples with fire and sword. The priest, his soul aflame with love for his church, came to the Philippines, and the impression made by his virtues was not negated by the bloody crimes of fellow-Spaniards mad with lust of treasure. The result is, that to this day probably 90 per cent. of the Filipinos are Catholics. Before the priests came the people worshipped their ancestors, as do other people in the Far East.

The only Asiatics who have accepted Christianity, the Filipinos are also the only Asiatics among whom women are not regarded as degraded and inferior beings. "If the Spaniards had done nothing else here," as a high official in Manila said to me, "though we are beginning to recognize that they did a great deal, they would deserve well of history for what they have accomplished for the elevation of woman through the introduction of Christianity. No other religion regards woman as man's equal." The testimony I heard in the Philippines indicated that the female partner in the household is, if anything, superior in authority to the man. She is active in all the little business affairs of the family, and white people some times arrange with wives for the employment of their husbands.—Clarence Poe, in Progressive Farmer.

### What's The News?

The alert newspaper publisher pays large sums of money for news to print because it sells his papers. The live merchant pays good money for space to furnish the news from his store because it sells his goods. And it is a proper, legitimate game. It is more than that—it is a necessary game. A contemporary has well expressed it: "The relation of the merchant to his public is much like that of the newspaper man to his audience."

Every newspaper has a clientele that daily looks for the "store news." The enterprising woman who has goods to buy picks up the newspaper with as much eagerness to learn the news of bargains and styles as the men do to see the stock quotations or what congress is doing about the reciprocity agreement. The merchant who does not respond to the demand with a good story about his offerings and values meets the same fate as the newspaper man who does not know a good piece of live news when he sees it, or who fails to see it when it is right before his eyes.

News is what the people want and they pay for the privilege of reading it. When advertising—and there's no more important news—fails to attract it is usually because the writer failed to make it newsy. In this spring season there is a human interest story in every retail business, a story of attractive bargains for the benefit of the customers. The public is not blind—it has its eyes on the paper. Are you in it? Let the eager and waiting and listening people have the news from the stores and shops and factories.—Greensboro News.

### Kicked By A Mad Horse.

Samuel Birch, of Beetown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. Its greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold sores, bruises and piles on earth. Try it. 25 cents at all druggists.

Among the men of letters the postman is the most popular.

### The Resources of Panama.

A party of naturalists from the Smithsonian institute are now engaged in making a biological survey of the Panama canal zone. This expedition, though primarily of interest to scientists, serves also to call attention to the importance of the country itself, aside from the great canal.

The reports thus far sent in by the explorers indicate that this slender region, where Europe civilization planted its first town on this continent, abounds in a wonderful wealth and variety of vegetation as well as animal life. It is to determine precisely the extent and distribution of these plant and animal families that the naturalists are at work. Some of the streams of the Panama country flow into the Atlantic and others into the Pacific ocean. On the opposite sides of this continental divide there now exists great distinctions which will doubtless be merged or completely wiped out by the opening of the canal and by the fresh water lake that will be formed by the Gatun dam. It is particularly important to science that such distinctions be noted before they are erased forever, since it was through this very isthmus territory that many forms of animal and vegetable life in ages long ago migrated from South America to North America and from North to South America.

What will most interest the general public, however, is the proof that Panama is a land of rich natural resources from which prosperity will flow as soon as they are once brought under development. There are liberal tracts of fertile land and, in the west, great plains suited to cattle raising. Mahogany and other valuable woods, about mineral deposits, though yet unexploited, are considerable. Gold, copper and manganese have all been found and the coal deposits appear to be particularly extensive and easy of access. The banana and coffee plantations now cultivated near the Costa Rica frontier are evidently but the beginning of agricultural enterprises that will become truly vast.

The people of the United States have thus far been so engrossed with their internal development that they have overlooked the latent riches of Central and South America. But with the opening of the canal and the need for an expanding commerce, these neighboring regions will claim a larger and larger share of our attention.—Atlanta Journal.

"I'm feeling right smart, Br'er Jackson. How's yo'self? But my name ain't Simmons no mo'."  
"Dat so?"  
"No, sir. Ain't yo' done hear dat sence I came to Chatham county? I done call myself Caesar Robinson 'cause I done become involved wid another wife yere?"—Savannah News.

**Mexican Mescal.**  
From the unappreciated aloe the Mexicans derive an insidious decoction they call mescal, which tastes like a liquefied conflagration and inspires its drinker with an immediate desire to kill some one, no matter whom, so long as it is done soon.

### GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back The Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Weyth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Weyth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappears.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, MOYE'S PHARMACY.

#### Around the Texas Camp.

Avenue after avenue and division square besides square, the khaki tents, housing an army of Uncle Sam's soldiers, rise like mounds of yellow desert sand out of a broad field of Texas blue-bonnets. To the South a veil of gray haze softly masks the red tile roofs of the post buildings at Fort Sam Houston, and raggedly behind it the church spires of San Antonio pierce the sky line. Westward and eastward roll unemptied grey prairies, with here and there a low-roofed dwelling breaking the monotony of mesquite and cactus, and over all arches the vivid blue sky of South Texas.—Harper's Weekly.

#### Strayed.

One female hog, close built, dark red color, weight about 125 pounds, marked swallow fork in both ears. Suitable reward for information leading to recovery. OSCAR HARRIS, R. F. D. 3, Winterville, N. C. 4-12-11td itw

#### THE GAMES THIS YEAR

President Lynch on the Coming Baseball Season.

I look for the coming season to be one of the most successful that the game has had. There is nothing very original in that statement, but it shows I am an optimist as far as the diamond is concerned. Certainly everything points to a fulfillment of the usual forecast. There is every reason why the coming campaign should break records. The country is prosperous; so is baseball. Interest in the game was stimulated by high class play last season. Teams that had been in the ruck, climbed out and in their rush to the front played sensational ball. The fans of such cities were pleased. This year these fans will turn out in even greater numbers. Their teams may do even better. And in 1910 there were clubs that fell off somewhat. It follows that the supporters of such teams are in a state of uncertainty this spring. They want to see their favorites regain lost honors. They, too, will have all the rust clobbered off the turnstiles within a few weeks of championship play. There promises to be an element of great uncertainty regarding the races in both the National and American Leagues. Of course this argues well for unflagging and widespread interest from mid April to early October.—Thomas J. Lynch, in May Columbia.

I HAVE MOVED MY STOCK OF dry goods and groceries next door to Bryan's Drug Store, in the Higgs building on Dickinson avenue. Will handle feed stuff at my old stand. L. M. Savage. 4 12

#### Midnight in The Ozarks.

And yet sleepless Hiram Seranton, of Clay City, Ill., coughed and coughed. He was in the mountains on the advice of five doctors, who said he had consumption, but found no help in the climate, and started home, hearing of Dr. King's New Discovery, he began to use it. "I believe it saved my life," he writes. "for it made a new man of me, so that I can now do good work again." For all lung diseases, coughs, colds la grippe, asthma, croup, whoopingcough, hay fever, hemorrhages, hoarseness or quinsy, it's the best known remedy. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

A trusted employee should be known by the company that keeps him.
