## DOESN'T LIKE WILSON'S PRINCIPLES

### STILL OLD TIME DEMOCRAT.

#### Former Governor Against Initiative, Referendum and Recall.

Hon. Thos. J. Jarvis, of Greenville, is not in favor of Dr. Woodrow Wilson, especially the initiative, referendum and recall. "Truth is truth, and democracy is democracy," said the ex-governor, "and I am for the simon-pure article. I don't know anything about standpat or progressive democracy. I know about the old-time democracy."

It is related by one of Governor Jarvis' friends that during the convention at Chicago in 1906 the North Carolina delegation was the only one who did not cheer Mr. Bryan's free silver speech. Governor Jarvis remarked then, it has been said, that Mr. Bryan would never bring victory to the Democratic ticket.

He thinks well of Dr. Wilson, he said today, but he does not think anything of the things the New Jersey governor advocates. Incidentally Governor Jarvis believes that Hon. C. B. Aycock will be elected to the senate and that Hon. Locke Craig will be chosen governor. These are "two things that are fixed in the political calendar," he declared.

Governor Jarvis was looking unusually well and many of his Raleigh friends remarked the fact. He leaves this afternoon for Durham to attend Trinity commencement. Mrs. Jarvis will remain in Raleigh.—Raleigh Evening Times.

### SAYS IT WILL BE AYCOCK.

#### To be The Great Southern Senator Says Ex-Governor Jarvis.

"Charles B. Aycock would make the great Southern Senator," said ex-Governor T. J. Jarvis who was in the city yesterday, while following up matters connected with the senatorial contest.

Ex-Governor Jarvis was here on his way to Trinity College commencement, and will attend the meeting of the board of education of the two conferences, remaining over Wednesday to hear the address of the Hon. Jacob Riis.

With reference to the senatorial contest ex-Governor Jarvis said: "Ex-Governor Aycock will be nominated for United States senator by an overwhelming majority. The folks are for him. After he goes to the United States senate and gets acquainted with the customs and procedure he will be the great Southern Senator."

"I heard him speak at Snow Hill in a case a few days ago. It was a great speech, and in it there was Governor Aycock's old-time fire and ring. No one would suppose he had been sick. He goes ahead with affairs and is in fine shape. He is going to be the next United States senator from North Carolina."—Raleigh News and Observer.

### GREENSBORO AUDITORIUM SOLD.

#### Brought \$16,000 at Public Auction—Will Be Moved to S. C.

Mortgages held on the Greensboro Auditorium were foreclosed and the property sold at auction at the court house door today at noon. The building and land on South Forbis and East Sycamore streets were sold to the only bidder, Mr. C. C. McLean, bidding for the Auditorium Company, for \$16,000. Mr. R. C. Hood acted as auctioneer.

The outstanding indebtedness of the company amounts close to \$20,000. The company has effected the sale of the building to the State Fair Association of South Carolina, and the big steel structure will be moved from Greensboro to the capital of that state. It is understood that the sale price was close to \$6,000 and the moving of the building will entail the expenditure of nearly \$9,000 more, which will have to be borrowed by the new owners. The land on which the building has stood for the past three years will be divided into lots and sold.

If you are going away for the summer, leave your address with The Daily Reflector, so the paper can go and give you the news from home during your absence.

Even the weather prophet is entitled to his opinion.

### PLEASED ADVERTISER.

#### Found It The Easiest Way To Sell.

In remitting for a small advertisement which he recently placed in The Reflector "Bargain Column," Mr. H. G. Mumford, of Ayden, writes: "You will find enclosed check for advertising four times in The Daily Reflector. I found this the easiest way to sell most anything."

### —WRIGHTSVILLE BEACH.

#### The Season Has Opened With A Rush.

Wilmington, N. C., June 7.—The season at Wrightsville Beach has opened with a rush. The hotel facilities have been largely increased and improved. No efforts are being spared for the comforts and entertainment of visitors at the beach this year. Lumina, the people's pleasure palace, will be the scene of many a state gathering during the summer season. One of the chief attractions at Lumina is the splendid 16-piece orchestra, which is composed of the finest musicians on the coast, who will furnish music for the evening dances and concerts which have become so generally popular at his famous resort.

The Seashore hotel has installed a complete electrical equipment in the kitchen, enlarged its dining room, built a covered concrete walk and station and made many other notable improvements, which with its splendid ocean pier, and the protection afforded its guests by a competent life saving service will make it, as of yore, the center of social life at Wrightsville Beach during the approaching summer. The Seashore hotel has also engaged an orchestra of five young ladies from Chicago, which has been playing at the Stratford and the Auditorium Annex in Chicago during the past season. The orchestra consists of Mrs. Harry Lendon, 1st violinist; Miss Angs Tully, 2nd violinist; Miss Katherine Neal, flute; Mrs. Julius Ferman, pianist; Miss Florence Mills, cello. As a violinist, Mrs. Lendon is without a peer among the musicians who have been engaged at this resort during the past year. Her interpretation and expression call for most enthusiastic applause of the audience. Miss Tully, the 2nd violinist, is also gifted with rare talent, and her solos are highly appreciated by the visitors at the beach, and have added greatly to the pleasure of the guests at the Seashore Hotel, as well as the residents on the beach.

## TODAYS DOINGS AT NATIONAL CAPITOL

### THE STEEL TRUST MATER.

#### Lisbon Legation is Recognized by U. S.—Resumed Testimony.

By Wire to The Reflector. Washington, June 7.—Judge Gary acknowledged that Frick interests affiliated with the steel trust froze out of business the Hostetter Coal Company, by cutting off its bank accommodations. Also the trust has recently acquired seventeen thousand acres of coal lands in the Pittsburg district.

The state department instructs that the Lisbon legation be recognized. The republic of Portugal will be formed after the national assembly ratifies the choice of the people. The government will be formed June 19th.

Washington, June 7.—Judge Gary resumed testimony before the Stanley committee this morning. He was cross-questioned by Representative Littleton.

### AFTER WHEAT CORNER.

#### United States District Attorney Investigating.

By Wire to The Reflector. Chicago, June 7.—The wheat corner engineered by J. Lechtenstein is being investigated by United States District Attorney Simms. Several indictments are expected. The board of trade has taken no action yet.

### Another Investigation.

By Wire to The Reflector. Charleston, W. Va., June 7.—Judge Keller instructs the United States district court to begin an investigation of the lumber trusts suspected of peonage.

## NEWS THAT IS OF INTEREST TO TAR HEELS

### GATHERED FROM EXCHANGES.

#### And Briefly Told for The Reflector's Busy Readers.

Statesville.—The whole city was shocked late this afternoon, when the news was received that Claude Laugenour was drowned at Morrison's mill pond, about four miles north of the city. A large crowd immediately went to the scene in automobiles and buggies and on bicycles. It was about 4:30 when the accident happened and the body was not recovered until about 6 o'clock.

Mr. T. R. Rouse, cashier of the Rouse Banking Company, of LaGrange, was last night appointed temporary receiver of the Bank of LaGrange by Judge Whedbee, before whom application was made at Goldsboro. The order is made returnable before Judge Peebles at Kinston June 15 to show cause why the receivership should not be made permanent. The Bank of LaGrange was closed yesterday by the corporation commission because the officers had been running it contrary to law.—Raleigh Times.

As the result of too much liquor and a disagreement with Will Weaver, a negro, Ed Pearce, a white man of the Zebulon section, is dead, and his assailant is in the Wake county jail to await trial in July for murder. The tragedy occurred at Mr. S. Z. Gill's saw mill, three and a half miles northeast of Zebulon, last evening about 4:45 o'clock. Pearce, according to the best information, began cursing the negro, who returned in kind and later struck the white man twice across the head with a pine limb, crushing the skull and causing death.—Raleigh Evening Times.

The State Optical society will meet in Asheville July 19 and 20. The State Optical and Retail Jewelers' association will meet here July 20 and 21. These meetings are held in the same place and in close succession, because of the fact that a majority of the members of the State Optical association are members of the other association. The meetings will be held at the Battery Park hotel. It is thought that about 150 members and delegates will be in attendance.

Tarboro.—Judge Ward suffered a severe attack of vertigo last night and was taken to Pittman Sanitarium where he has remained all day. Court has been adjourned. Dr. Julian Baker says he will not be able to hold court this week. The last heard from the judge is that he slept some today and is improving.

## BIG EARTHQUAKE IN MEXICO CITY

### SHOCK FELT IN NEW YORK.

#### Much Damage Was Done in Mexico City—Soldiers Killed.

By Wire to The Reflector. New York, June 7.—The heaviest earthquake shock in years registered on the seismograph of Fordham University this morning. The tremors lasted an hour. The distance from the United States was five thousand miles.

Mexico City, June 7.—The big earthquake today was in Mexico City. Two hundred soldiers asleep in the barracks, were killed by falling walls. The city is in a panic.

Mexico City, June 7.—Great carnation and destruction was caused here today by an earthquake. Tremors were felt for two hours, and the entire city fairly rocked. Many buildings collapsed and scores of persons are buried under ruins. Storm and lightning added terror to the frightened population. Many sought safety by fleeing to the fields. Mob and soldiers threw away arms and fled from the city; thousands seek refuge in churches.

Mexico City, June 7.—President Madero arrives in the city today and receives great crowds of the citizens, despite the great earthquake confusion and calamity that the people are now suffering under.

### Rioting, Brigandage, Murder, Pillage.

Mexico City, June 7.—The populace is eagerly awaiting the arrival of Madero. Meanwhile reports are coming from various parts of the republic that tell of rioting, brigandage, murders and pillage. There was much rioting last night in the suburbs of the capital.

### Trouble in Morocco.

By Wire to The Reflector. Tangiers, Morocco, June 7.—Col. Monier's column shelled native villages in Beemork district for attacking the expedition of Colonel Gourand, while marching to the relief of Fez last week. Many rebel tribesmen were killed.

### Other Aviators Arrive.

By Cable to The Reflector. Genoa, June 7.—Le Prince and other aviators have arrived in the Paris-Madrid race.

### The Call of the Nurse.

No calling has more rapidly advanced in public esteem the past few years than that of the trained nurse, and every movement looking to improving the efficiency, and widening the sphere of usefulness of those who adopt nursing as a life work should engage the attention and cordial approval of the public. The meeting next week of the American Society of Superintendents of Training Schools for Nurses in Boston promises to be a noteworthy occasion in the annals of the profession.

The trained nurse should be a nurse by instinct as well as by training. She should have that undefeatable something about her that calms, rather than excites, the patient. She must love her work, as the true physician loves his, having an instinct for relieving the suffering.

The white-garbed angels of the hospital wards are doing a noble work. They give an air of gentleness and quiet to the sick room that robs the hospital of much of its dread, and those who have once been under their ministrations are their friends for life. All honor to the noble young women who go forth from their homes to the relief of suffering humanity.—Richmond Virginian.

### Exempt.

"My title ought to be worth at least half a million to some American heiress, said Lord Luvvus. "Isn't it a shame," exclaimed the customs official, "that anything as valuable as a title should be permitted to come into this county without paying duty."—Washington Star.

### HIDE YOUR WORRIES.

A man should feel the obligation to bring gaiety into the lives of all those whom he loves. The fact that the routine of the day has been dull doesn't excuse him for being glum and silent at his evening meal.—Arthur S. Pier.

### COURT THREE YEARS BEHIND

#### Restriction of Appeal Suggested to Relieve Supreme Tribunal.

Something will certainly have to be done by congress, and it ought to be done soon, to relieve the extreme congestion of business in the Supreme court of the United States. The statement is made that during the term that closed the other day more than 1,100 new cases were entered on the docket. As during the term only about 350 cases were decided, it is easy to calculate how soon the last of those 1,100 new ones is likely to be reached. The estimate is that there is enough litigation now in sight to keep the court busy for the next three years, which is rather a discouraging outlook for those who are interested in pending suits.

Something was done a few years ago to lighten the strain, and for a while the situation was improved, but now the growth of business, much of it arising in our recently acquired island possessions, has caught up with and passed the additional facilities provided, and things are worse than ever. Conditions cannot be allowed to continue as at present. They amount to a denial of justice to thousands of our citizens and something will have to be undertaken for their amendment.

It looks as though the right of appeal to the Supreme court would have to be much more narrowly restricted than at present, and, as such a restriction would affect all alike, it would give not just occasion for complaint.—Philadelphia Inquirer.

### Whiskey and Life Insurance.

The life insurance companies have been keeping careful records of thousands and thousands of men beginning years and years before you were born, to find out just how drinking effects a man's health and length of life. It's their business, you know. Well, they started out before they began these records with the idea that a man was actually helped by drinking some whiskey, and in England 40 years ago they tried to make Robert Warren pay a higher premium because he was a teetotaler. So Warren started a society which has kept track of thousands and thousands of English insurance cases for over 40 years, the result proving that the death rate is over a third higher for moderate drinkers than for total abstainers.

In other words, in any given year, four men die among the drinkers for every three who die among an equal number of abstainers. Of every 100 drinkers the life insurance companies expect to die in a year, 94 of the 100 die, but every 100 expected deaths among abstainers only 71 die.

Again it has been proved that of every 100 persons thirty years old who drink, only 44 of the 100 will live to be seventy; but if you take 100 30-year-old persons who don't drink, 55 of the 100 will live to be seventy. Isn't it worth something to you (even if drinking paid in other ways, as it doesn't) to have a 25 per cent better chance to live out your "three score years and ten," as you do by not drinking.—Raleigh Progressive Farmer.

### Sprinkle Oil on Streets.

The aldermen of the city of Charlotte have made arrangements for experiments with oil sprinkling, the object of the sprinkling of course being to keep down the dust. Here is an instance where we can save much time and goodness knows how much discomfort, inconvenience and annoyance by profiting by the other fellow's experience. The enterprising and wide-awake city of Concord sprinkled two or three blocks of ordinary macadam street, with the usual amount of dust on the surface, six weeks ago. There has been no dust on that street since, while on either side on the section treated the dust is terrific. If Charlotte wants to lay the dust, why let's get busy and do the sprinkling now. If the oil lays Concord dust, it will probably just as successfully keep down Charlotte dust and germs.—Charlotte Chronicle.

### County Commissioners.

The board of county commissioners today held a recess session from Monday's meeting, for the purpose of revising the jury list and making final settlement for last fiscal year with the sheriff. They will also contract for furniture for the new court house.

## WASHINGTON DEFEATS GREENVILLE

### "BUCK" DARDEN WAS ALL ALONE

#### Rest Of Greenville Bunch Had Off Day Yesterday.

The Greenville base ball team went down to Washington Tuesday to play a game with the team of that town. A heavy rain that preceded the game caused it to be delayed until 5 o'clock to start, and then it had to be played on a very wet ground.

Darden, for Greenville, pitched a fine game with wet balls, allowing only four singles and one two-base hit, but had no support of the team. The boys know how to play ball, but this seemed to be an off day with them, and a succession of errors cost them the game. Lutterloh, as usual, lined out for a home run, but owing to the wet diamond, slipped and fell and only made three bases.

The batteries were, for Greenville, Darden and Riddick; Washington, Smith and Chadwick.

The score was as follows:

R. H. E.  
Greenville ..... 5 11 14  
Washington ..... 10 5 5  
This is Greenville's first defeat this season.

WEDNESDAY, JUNE 7, 1911.

It is hot enough to even make it hot for Lorimer.

It looks like the extra session of congress is to make a summer of it.

To call them joy rides sounds much like a misnomer, especially when so many of them have ended in death.

With two murders in two days, Wake County seems not to want the electric chair to get out of practice.

Humming machinery in factories is a mighty good sound. We wish more of it could be heard around Greenville.

We doubt if Mr. Bryan has as much control of the party as he thinks he has. But still he is a force that has to be reckoned with.

President Taft gives the idea that he is greater than congress, in refusing to let records be sent when asked for by investigating committees.

You can hardly scan a paper without reading of some one being drowned. Yet there is so much recklessness, especially among boys, about going in swimming.

Ex-Governor Jarvis' utterances in Raleigh, while en route to Trinity College commencement in Durham, show that the "grand old man" has lost neither his interest in things political nor the glad ear of the people to hear what he has to say.

Woman dresses as she pleases, wearing much or little as suits her fancy. She ought to have consideration for her brother, Man, and give him permission to go coatless on any and all occasions, in such weather as this.

The State Good Roads Association will meet in Winston-Salem next week, 13th and 14th, and every county in the state should be represented. Senator R. R. Cotten, of Pitt, is a member of the executive committee and will be present, and this county should have some other delegates to go along with him. Pitt was well represented in the meeting at Wrightsville last year.

One who keeps up with the doings of congress, sees that the country has turned its attention to the criminal courts of the land, seeking a means to restrain those who are seeking to unlawfully restrain the commerce of the land. We believe that

the cunning desinger will now look for his own safety, rather than seek to oppress his competitor.

Greenville proudly has in her midst at this time a few hundred teachers taking the summer course for teachers at E. C. T. T. School. The teachers importance and opportunities are second to none. We are fortunate in having this body of teachers with us, and we welcome them in our midst, and hope for them a most pleasant and beneficial summer in Greenville.

**In Re The Dog.**

Greenville, N. C., is not going to have any trouble from rabies this summer if The Reflector has influence to prevent it. Listen to our contemporary's advice to its constituents: "The town is full of dogs, and if there is one good reason for having them it is not apparent. Those who are inclined to humor their fancy by keeping a dog should lay aside that fancy for the greater safety of human beings, especially the children of the community. Get rid of your dogs—give them away, kill them or anything to get them out of the community. Your dog is a source of danger to you, to your family and to your neighbor. Get rid of the dogs; they are dangerous and needless."

This is about the most sweeping anti-dog pronouncement which has come to our knowledge. The Reflector has evidently sworn the extermination of the entire species as far as Greenville is concerned. Resembling trusts, there are good dogs and bad dogs, but at this time of the year the best of them need the closest watching; and needless reason to the contrary can be presented in each instance we are inclined to endorse our contemporary's mandate to "kill." With respect to getting them out of the community, we are by no means sure that this is not simply shouldering a menace upon other folks. With the mercury flirting with the century-mark, the dog situation demands attention in every community in the state, and we believe that this attention must be given to it if the people of North Carolina—or any part of them—are to continue to have dogs at heel. It is most annoying to have sheep slain by the untaxed canine, but when it comes to the matter of children being bitten "annoying" is not an adequate adjective.—Charlotte Observer.

**The Chinchilla.**

The tiny chinchilla, not more than twelve inches long, with a plump little body on short, stout legs, thrives only in the tropics. The little beasts have to be killed with the utmost precaution not to injure their fur, that grows on a skin nearly as tender and soft as a web of silk. A perfect skin not larger than a small pocket handkerchief is a revelation in fur work. The texture of every hair is finer than floss silk, the length of it nearly an inch and the coloring about that of the soft, undyed marabou feathers.

**CHILDREN'S HAIR**

**Keep It Free From Dandruff And It Will Grow Lovely.**

Being the best hair dressing for men and women, Parisian Sage is also best for children. Try it once and see how clean and healthy it keeps the scalp.

"My daughter used Parisian Sage on her children's hair, and it is as good as you recommend it to be."—Hannah Anderson, 1021 Divine St., Columbia, S. C.

Here is what a North Dakota woman says:

"Parisian Sage certainly has done my hair a lot of good, and will highly recommend it as a very good tonic for the hair. Have used various kinds of tonics and have found Parisian Sage the best. I have my head free from dandruff now, and it has a healthy luster and has an even color. It used to be streaky. Many of my friends are using it and they speak highly of it."—Mrs. Anna Rooney, 101 Second St., N. Fargo, N. D.

Always bear in mind that there is nothing for the hair that can compare with Parisian Sage. There are many imitations, but none of them are guaranteed to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back.

**The Union County Way.**

The Chronicle has on previous occasions referred to the custom of neighborly help that prevails in Union county. The Monroe Enquirer this week gives a picture showing a party of fifty-five farmers engaged in building a barn for a neighbor to take the place of one burned. "A day or two after the fire," says The Enquirer, "neighbors gathered at Mr. Keziah's place and went to hauling logs to the sawmill, sawing lumber and placing it preparatory to building him another barn. On Monday May 22, they gathered at his barn, and fifty-five strong went to work rebuilding the barn. They did not quite complete the building that day, but fifteen neighbors went back the next day, finished the barn and left it ready for the stock." The Enquirer says this is an ordinary occurrence. "It is just a way folks in this good county have. If a man's house is destroyed by fire or wind, his neighbors help him rebuild it. If he gets sick and is unable to work his crop, they gather and work it for him." As an instance, The Enquirer says: "Mr. W. E. Funderburk's son was almost killed by jumping off a train at Wingate about five weeks ago. The young man was taken to a hospital in Charlotte and his father had to go with him and stay by his bedside for days. It was cotton-planting time and farm labor was scarce and cold not be hired. Mr. Funderburk's neighbors went to his farm about four miles southeast of Monroe, finished preparing his land, planted the cotton, and when he returned from Charlotte he found that instead of being two weeks behind with his farm work, his field were prepared and planted just as well as if he had not been away at all, and it had been done in a day. They filled the field with willing plowmen and gladly did the work for a neighbor who had met with misfortune." Was there ever a more beautiful exemplification of the Golden Rule?—Charlotte Chronicle.

Better a pint of happiness than a peck of trouble.

**HAPPY RESULTS.**

**Have Made Many Greenville Residents Happy.**

No wonder scores of Greenville citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements; like the following are but truthful of the daily work done in Greenville by Doans Kidney Pills.

Mrs. L. Mangum, 416 Dickinson avenue, Greenville, N. C., says: "Doan's Kidney Pills are by no means a new remedy to me. I have used them on different occasions and have found that they are a preparation of great merit. Kidney complaint and backache made me miserable and it was not until I procured Doan's Kidney Pills from the John L. Wooten Drug Co., that I found relief. Recently I again got a supply of this remedy and it helped me as promptly and effectively as before."

### A Daughter of Dixie.

Her eyes are soft with dreams of love  
And dark as some lagoon  
In which through woven branches  
shines  
The glory of the moon.  
Her silver voice is sweet and long,  
Her brow is broad and meek,  
And pure as waxen orange flowers  
The oval of her cheek.

Her dusky tresses thick and fine  
In many a silken fold  
Are bound about her shapely head  
And filleted with gold.  
Her lips are like the dewy rose  
That finds a nesting place  
Upon her heart in filmy frills  
Of organdy and lace.

A knight of old who crossed the sea  
With nothing but his lance,  
Bequeathed to her that regal air,  
That dark and tender glance.  
Oh, daughter of the sunny South  
Where summer never dies,  
The North that never feared your  
guns  
Surrenders to your eyes!

### RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy For Dandruff, Falling, Faded Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking any first-class druggist for Wyth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Moye's Pharmacy.

### La Follette The Ambitious.

Mr. LaFollette's ultimate and avowed ambition, of course, is to be president of the United States. There is no secret about his. He was a candidate for the nomination in 1908, and was voted for in the convention, receiving the support of 25 delegates. He is a candidate now for the nomination next year, but without much present chance of success.

Meanwhile, he is not shirking opportunities for advancement in his present field. No public man who has been under observation in Washington in recent years has been noted in whose breast there burn so fiercely the fires of ambition and self-aggrandizement. He has a tremendous driving power. He works himself relentlessly, and he seeks insistently a seat at the head of the table. If he is to be interested in a movement, he must lead it. There is in his makeup nothing of the follower. If he has any talent or genius or capacity for compromise, he has never let it become known publicly as one of his attributes. So far as he has shown himself in the senate, he is essentially an irreconcilable. He is a trouble maker who can make trouble.—E. G. Lowry, in New York Evening Post.

### A Charming Woman

is one who is lovely in face, form, mind and temper. But its hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, and perfect health. Try them. 50c at all druggists.

### CAME FROM ENGLAND.

Wild Ponies Descended From Those of Lost Colony.

A novel sight is afforded visitors to Beaufort when the wild ponies come down to the shore and swim out to the island where they feed unmolested in full sight of the board walk and the boats passing up and down the harbor. These wild ponies have lived hereabouts as long as American history records. When Sir Walter Raleigh sent his first expedition over from England, which landed at Roanoke Island, a number of ponies were brought over; and it probably from those becoming wild when the colony was lost, that the native ponies of the present day descended. Though nomilly wild, there is an ownership recorded and semi-annually round-ups are held for the purpose of branding and taking up such as are desired to be used for driving or any other purpose.—Frank P. Fogg, in National Magazine.
