

## OUR WEEKLY WASHINGTON LETTER

### TAFT STANDS BY ALDRICH. Democrats Are Fulfilling Their Promise.

(By Clyde H. Tavener).  
Washington, July 3.—"The young members of the house are working like veterans. The present house is one that no Democrat, or any other American citizen for that matter, need apologize for. I believe that the country thoroughly appreciates this, too." Thus declared Speaker Champ Clark. He was hard at work in his private office at the time, sitting behind a desk piled high with correspondence, reports of investigating committees, and an assortment of books that would serve any ordinary man as an entire library. "The members of the house are fighting a good fight," said the speaker. "We are fulfilling as rapidly and as literally as possible every promise made to the people."

"We promised in the Denver platform to reform the rules of the house, and we have done it. That is an accomplished fact. "Our opponents declared that only under the old rules could the business of the house be transacted. It was predicted that if the committees were named by the house chaos would result."

"We have reformed and liberalized the rules and elected committees and we expedite business and bring joy to the hearts of all lovers of the republic. "We promised the people that we would submit a proposition to amend the constitution to permit the people to vote direct for United States senators. The house promptly passed such a measure."

"We promised to pass a bill compelling the publication of campaign expenses before the elections. That has been done. "We promised to admit New Mexico and Arizona. We have done our best to bring that about. It is up to the senate."

"We promised to cut down the disbursements of the government. We have already made a beginning by abolishing more than one hundred useless offices in and about the house of representatives, thereby saving \$182,000 annually. "This is only an earnest of what we will accomplish."

"We are living up to the Jeffersonian doctrine of 'economy in the public expense that labor may be lightly burdened.' No doubt we will be sneered at by spendthrifts as cheese-parers, but hard-headed sensible folk will indorse our action, because it deserves to be indorsed. "We promised to repeal the tariff on wood pulp, print paper, lumber, timber and logs and that those articles would be placed on the free list. So far as the Democratic house is concerned that pledge has been fulfilled in the reciprocity bill and the 'Farmers' free-list bill' which now sleeps in the Republican senate."

**Taft Still With Aldrich.**  
President Taft's recent statement that the adoption of ex-Senator Aldrich's currency system, designed to put the control of American money absolutely in the hands of Wall street bankers, is the most important legislation now pending, has resulted in the old issue being raised between himself and progressive Republicans. He has presented himself and his administration as a new menace to public interest and raised the Democrats and progressive Republicans to a higher plane of public usefulness, as the only effective force the public can rely upon to resist the aggressive money power of Morgan and the president's efforts to serve it.

Both Aldrich and Mr. Taft declare there is no intention of establishing anything like a central government bank. But nobody can read the Aldrich plan in detail without realizing that it is a central bank of issue that he proposes. His so-called "Reserve association of America" is to be the depository and fiscal agent of the national government. It is to have the sole issue power. It may receive deposits from those national banks that are stockholders in it. It shall establish branch banks, which just as under the central government bank scheme, will rush their local deposits to the central bank, thus taking money out of the community which would otherwise be loaned out for investments in home enterprises. It

## PROSTRATED AND DYING.

Chicago and New York Suffering From High Temperature.

By Wire to The Reflector.  
Chicago, July 3.—Seven persons were killed outright, four others indirectly, and hundreds are prostrated today from the terrific heat. Thousands slept in the parks last night. The thermometer registered as high as ninety-eight degrees.

**Hot in New York.**  
New York, July 3.—Eleven deaths have occurred and scores are prostrated from heat here today.

**Hot in New Orleans.**  
New Orleans, July 3.—Three persons were drowned here today trying to escape from the intense heat.

**Hot in Baltimore.**  
Baltimore, July 3.—This city is suffering from the most intense heat and humidity known to humanity. The thermometer registers ninety-one degrees in the shade.

## PRAYER LEAGUE HAS PATRIOTIC SUNDAY

### "RETALIATION" NEXT SUNDAY League Votes Down Proposition To Suspend For Two Months.

The timeliness of subjects discussed by the Men's Prayer League at the meetings each Sunday afternoon has been observed by those attending as well as those keeping up with the reports of the meetings. "Patriotism" as it relates to Christianity, was the subject for the past Sunday at the meeting in the Methodist church, and the talks by the leaders, Messrs. O. E. Warren, C. C. Pierce and R. M. Hearne, were in splendid keeping with the subject. The songs at this service also breathed the "Christian spirit of true patriotism."

Owing to the warm weather there was some discussion on the question of suspending the meetings of the league for two months, but a motion to that effect was voted down almost unanimously. This shows the spirit and interest of the men who are attending the meeting.

Next Sunday at 4:30 p. m., the meeting will be held in the Presbyterian church, when the subject will be "Bible View or Retaliation." Text, Romans 12:17-21, Matthew 5:39 and 18:21-22. Leaders, Messrs. Tom Dupree, J. C. Tyson and J. A. Lang.

may buy and sell government and state securities and gold coin or bullion. It may rediscount paper for banks depositing with it.

In short, the Aldrich reserve association is a bank with immense privileges and powers, but without the name of a bank. Wall street will control it. It is obvious that the words "central bank" were omitted because of the prejudice against such an institution by the country banks. Uncle Sam once tried a central bank. It was manned and manipulated by politicians and brought a panic on the entire country. Aldrich's flimsy misrepresentations even though endorsed by Mr. Taft, will accomplish but little. Remembering its last experience, this government will not stand for another central government bank.

**A Democratic Doctrine.**  
Election of senators by the direct vote of the people, which is now held up in congress by an amendment supported by Bristow, of Kansas, and the entire group of special privileges servers in the senate, is distinctly a Democratic proposition. The report of the proceedings of the Republican national convention of 1908 shows that the vote on, including in the platform a demand for the election of senators by the people was: Yeas 114, and nays 866.

**What Free List Means.**  
The Democratic free list bill in congress simply means that the farmer will get his vehicle, farm tools, wire fencing harness and shoes for less money. Is not that a good thing?

**Can You Figure This Out?**  
While the Republican trust-buster, Kellogg, was prosecuting the Standard Oil Company for the government, he was receiving regular and "extra" compensation from the steel trust. Directors of the concern that paid him these were stockholders in the concern he was prosecuting. What is the answer?

## SUNDAY SCHOOL INSTITUTE

IN GREENVILLE JULY 5-7, 1911.

Sessions Will Be Held in Memorial Baptist Church.

Beginning on Wednesday morning, 5th, and continuing three days, there will be held in Greenville a Sunday School Institute under the auspices of the North Carolina Baptist State Convention. The purpose of this institute is to train teachers in Sunday school. A service of twenty-four lectures will be delivered, and as many persons as attend twenty of these will be given the lecture course certificate of the Baptist Sunday School Board.

The speakers for this institute are Dr. I. J. Van Ness, of Nashville, Tenn.; Dr. W. R. Cullum and Dr. C. E. Brewer, of Wake Forest; and Mr. E. L. Middleton, of Raleigh. Greenville will provide entertainment for the out-of-town people who attend the institute and quite a number are expected.

All denominations of the community are urged to take part in the institute and get the benefit of the lectures, as they will be helpful to all.

The program is as follows:

**Wednesday, July 5**

8:15 p. m.—The Sunday School for Men and Men for the Sunday School.—I. J. Van Ness.  
9:00 p. m.—Recognition Service and Awarding of Certificates.

**Hour For Meeting Changed.**

Owing to the fact that probably a large number of citizens will want to take advantage of the opportunity of seeing the ball game to be played between the Greenville and Kinston teams at Kinston tomorrow afternoon, the hour for holding meeting in the town hall to organize a Good Roads Association for Greenville township has been changed from 2 p. m. to 12 m.

The purpose of the meeting is simply to organize and it will not take long, so you can attend both, the meeting and the ball game.

**Prisoners Break Jail.**

By Wire to The Reflector.  
Uniontown, Pa., July 3.—Three prisoners, one a murderer, broke jail here last night.

## AS TO EXPERIMENT FARMS.

In Regard to Their Establishment in Each County of the State.

Mr. J. L. Burgess state agronomist, has addressed a communication in regard to the value of establishing farm experimental stations in each county in the state and emphasizing at the same time the need that the press of the state aid in the work that has been started to inculcate more scientific farming principles into those engaged in this vocation. Farmers of Mecklenburg have received a copy of the following letter from him:

"We are aware that the local press takes great interest in the welfare of the farmers—indeed, that the interest of the two are at many points identical. The leading function of the North Carolina Department of Agriculture is not its police work but that of producing agricultural wealth among the farmers of the state. With this in view, we are establishing in each county a number of local experimental farms, one on each public road leading into the county seat, on which simple but vital experiments are conducted in plain view of every passer-by. This local experiment work is planned with a view to arousing interest on the part of the farmer in the study of his own local conditions of crop production. In this way we hope to aid the farmers in each county to increase their crop yields and thus enable the state to grow at home the millions of dollars worth of food supplies which are now annually shipped into the state from outside sources. We are enclosing a copy of our contract which will show the subject and indicate the scope of the work."

"From now on we shall desire to reach the farmers of your county through your paper and with your permission, will offer you, from time to time, for publication, short articles on our work as it progresses in your county and on other agricultural subjects of interest to your subscribers."

"Very truly yours,  
"J. L. BURGESS,  
"Agronomist."  
By direction of the commissioner.

## NEWS THAT IS OF INTEREST TO TAR HEELS

### GATHERED FROM EXCHANGES.

And Briefly Told for The Reflector's Busy Readers.

Winston-Salem, July 1.—The fiscal year of the United States internal revenue office here ended today and reports showed that 42,484,859 pounds of tobacco were shipped by local manufacturers during the period the sale of revenue stamps therefor yielding the government \$3,394,788.76, an increase over the former year.

Shelby, July 1.—Yesterday Louis Osborne, the little son of Dr. J. C. Osborne, of Lawndale, was carried to the hospital to be operated on for appendicitis. This makes three of Dr. Osborne's sons operated on for the same disease within two weeks. All of them are now in the hospital and are doing well. It is interesting also to note that before this time two of his other children have been operated on for appendicitis.

Raleigh, July 1.—Rev. James B. Taylor, D. D., of Richmond a well-known Baptist minister, who served several pastorates in this state, died there yesterday. Dr. Taylor was one of the prime movers for the establishment of the Thomasville Orphanage and has served pastorates in Wilmington in 1895 and later in Salem. He ranked high as a preacher. He was born in Richmond October 22, 1837.

**Bloody Fight at Church.**

By Wire to The Reflector.  
Williamsburg, N. Y., July 3.—A bloody battle occurred at Point Creek church Sunday service, in which Albert and Wart Galamare were fatally shot and William Swain seriously wounded. Feud between families was the cause of the trouble.

**Would Be Nice For Greenville.**  
During the past month the city of Charlotte turned down a proposition for the establishment of ornamental street lighting poles in the business section of the city. The city council of the progressive little city of Rock Hill has just awarded a contract for the installation of a similar system to make a "great white way" from the passenger depot to the principal part of the city. We are looking for other cities in this section to fall in line and

**Accused of Stealing.**  
E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs, cuts, corns bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c, at all druggists.

Charlotte cannot afford to appear backward in the company of cities of the Carolinas. As the Chronicle understands it, the plan that was suggested here was to install the ornamental posts with groups of Tungsten street lights, but did not contemplate the removal of the present arc lights in the territory that was to have been covered. The arc lights are unsightly and they form an unnecessary expense. The lights on the posts might just as well be put on two circuits and the top lamp be left burning after midnight, when the other four are turned off. In this way the unsightly arc lights and their poles could be removed and the costs of the arc lights applied to the maintenance of the artistic and effective Tungsten groups.—Charlotte Chronicle.

**And The Drinking Cup.**  
Like a person who locks down all the windows at night and forgets to latch the front door, people in exercising caution as to disease, in taking steps to keep from getting some malady, often leave a loop-hole. This comes as the result of just a little thoughtlessness, or, perhaps, of a weak spot in the armor of thoroughness, and it is this weak spot that the disease-shaft frequently hits. It is not an infrequent occurrence for people, when they go to public places, to make certain of the purity of the drinking water, before touching it, and yet give little heed to the receptacle that holds the water, or the drinking cup that is hanging nearby, or perhaps resting on some soggy spot. And the drinking cup probably holds more germs, more different kind of germs, running the gamut of disease, including consumption, diphtheria, and typhoid, than anything else. Hence, no much attention is being given to this menace. The attention is widespread, but it is going to be even wider, and of much greater force. Means now, such as paper cups, each cup suitable for but one usage, are being adopted, and many people go armed with their own drinking cups to public places. Just what will be the final reasonable and easiest working, solution remains to be seen, but it is a matter that should be given attention by the individual.

The following brief item from the New York Tribune is interesting and helpful in the consideration:  
"The city bacteriologists of Chicago have made a collection of public drinking cups from hotels, schools, stores and railway stations, and have, with a view to proving their uncleanliness, made bacterial cultures and microscopic examinations from them. They found germs of many varieties and specimens of diphtheria and pneumonia. Pigs were inoculated with these germs, and all those which were treated with the pus germs developed fatal abscesses. Many positive tests were also made with the diphtheria cultures. The secretary of the Illinois Board of Health, writing on the same subject, says: "The public drinking cup is as antiquated as the ducking stool and the inquisition; people never think of eating from public plates or wearing public clothes or smoking public cigars."—Wilmington Dispatch.

Cotton and corn can stay in the ground a long time without rain. The plants will be merely at a standstill—not growing—but will not be injured, and will come right along when the rain does fall. The Lumberton Robersonian notes that the Whiteville correspondent of the Wilmington Star of June 20, a citizen of Columbus county, Mr. James M. Shipman quoted to the effect that he has never known a failure of crops in that county from dry weather. This farmer says he remembers one year when on the 4th of June no cotton was up, but rain came and he made an excellent crop all the same. So long as cotton is not burned or shriveled, it will make good when the rain comes.—Charlotte Chronicle.

**Thirty Years Together.**  
Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. Its most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay fever, croup, quincy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

**Editors and Good Roads.**  
A resolution adopted at the press convention in Lenoir should be printed in every editorial page in the state, and become the keynote to the coming year's campaign for progress. The resolution was introduced by Editor Varner, of Southern Good Roads; received a chorus of seconds and was adopted by a unanimous vote. It reads as follows:  
Resolved, That it is the sense of this association that the best use that can be made of the state's convicts is in the construction and maintaining of public roads, provided their use does not interfere with the present system of working county convicts on the public roads.  
Resolved, That we most heartily endorse federal aid to the states in public road construction and do herewith urge our senators and members of congress to give their earnest and serious consideration to legislation, such as the Simmons bill, looking toward federal aid to states in the construction and maintenance of the public highways.  
Resolved, That it is the sense of this association that the state should appropriate out of the general treasury for the construction and maintenance of the public highways of the state the sum of \$1,000,000 annually.

The foregoing contains the germ of genuine reform. The people will have to speak in loud tones before the legislators can hear them. We believe a vast majority of those who have studied the situation will favor putting the state's convicts on the public roads instead of working them on farms in competition with honest labor; and we believe the returns would be far greater to the state in the end.

The politician and most of the office-seekers will tell you that the state penitentiary should not be molested in its farming operations—that it is a paying proposition, making a neat balance every year that goes into the treasury and that, to that extent, the taxpayers are relieved. But we believe that, if the state convicts were put to work constructing public highways through the counties, the results in actual cash would soon be far greater than the net, of gross, earnings from the state farms. There is nothing that creates and stimulates property values equal to good roads.

Then the value and importance of having competent engineering assistance in laying out roads in their construction is too apparent to admit of argument among men who have had experience in building roads.

The question of federal aid is beginning to loom quite large, but it is in the future. It can not be expected until the state is doing something substantial in the way of helping itself. Senator Simmons is working along the right lines, and is showing himself alert to every possibility for helping along the development of the state. He is in a position to get all that is "coming to us", and may be depended upon to do it.

We heartily favor the appropriation of as large a sum as is possible, by the state, for the construction of good roads, and levying of a special tax for the purpose, believing that no other investment can bring as large and quick results. We hope to see our brethren of the press get busy and push all along the line.—Greensboro News.

**REAPING BENEFIT.**  
From The Experience of Greenville People.  
We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Greenville residents on the following subject will interest and benefit thousands of our readers. Read this statement. No better proof can be had.  
Mrs. Jane L. Godwin, 416 Dickinson avenue, Greenville, N. C., says: "I feel justified in recommending Doan's Kidney Pills in return for the benefit I received from them. For a long time my back ached and I had dizzy spells and headaches. The kidney secretions also annoyed me and I had pains through my loins. When I read of Doan's Kidney Pills, I got a box from the John L. Wooten Drug Company, and their use as directed relieved me. I can now rest much better at night and my condition has improved in every way."  
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.  
Remember the name—Doan's—and take no other.

**This Is My Duty.**  
 "To use what gifts I have as best I may;  
 To help some weaker brother where I can  
 To be as blameless at the close of day  
 As when the duties of the day began;  
 To do without complaint what must be done;  
 To grant my rival all that may be just;  
 To win through kindness all that may be won,  
 To fight with knightly valor when I must."  
 —S. E. Kaiser.

**AMUZU THEATRE**  
 Installs Electric Exhaust Fans—Three Reel Service.  
 Dr. L. G. Schaffer has taken charge of the Amuzu theatre again and has installed two first-class exhaust fans, which will make the house a great deal cooler than heretofore. He has also engaged a three reel service, which means a show of about 20 minutes longer duration. The orchestra music will be restored, too, and this little show promises to be better than ever before in every way. See ad. on fourth page.

**Winterville High School Catalogues**  
 The Reflector printery has recently turned out the catalogue of Winterville High School. It is a piece of work the office can refer to with pride, as it shows what can be done with the new equipment of the plant. The catalogue calls attention to the excellent advantages offered by this school, and parties interested can get a copy by addressing the principal, Prof. F. C. Nye, Winterville, N. C.

**Teacher at Training School.**  
 Miss Daisey B. Waitt, of Raleigh, has been elected teacher of Latin at East Carolina Teachers' Training School, to succeed Miss Birdie McKinney, who resigned. Miss Waitt is a graduate of Peace Institute, the State Normal and Industrial College, and took a degree from Cornell this spring. She has taught in the graded schools of Wilmington and Raleigh, and is highly recommended.

**Trinity College.**  
 Attention is called to the advertisement of Trinity College and Trinity Park School, at Durham. These schools stand at the head of educational institutions and offer superior advantages. Catalogues sent on application.

**Attack Like Tigers.**  
 In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at all druggists.  
 Excuses may butter no parsnips, but they hold down the divorce record.

### FOR A PARCEL POST.

**The Fallacy of Some of the Arguments Brought Against It.**  
The passage by the senate last week of Mr. Bourne's resolution authorizing an investigation of the postal system may be the first step toward a parcel post—that is, a parcel post such as the people of nearly all civilized lands except the United States enjoy. The denial of this great modern appliance to the American people is, perhaps, the most flagrant illustration of the power of selfish and sinister interests in the country. Just as soon as a parcel post is suggested the rich express companies and those that are interested in their stocks and bonds and railroad stocks and bonds push forward the poor country merchant as the victim of the parcels post. They do this as the trust that are opposing Canadian reciprocity are putting forward the farmer and supplying money to send "grange agents" to Washington. These trusts do not care for the farmers and more than the express companies and their stockholders care for the country merchant. They use both to impress the rural congressman.

The fear is, or the pretense is, that a parcels post would enable the people in the country to get their goods cheaper than they can buy them from the country merchant, and so injure the latter or compel him to sell cheaper. If the parcels post would enable country people to get their supplies cheaper, or enable city to get food cheaper, are they to be denied this advantage? If it is to be the policy of the government to support the country merchant, why not levy a general tax for that purpose? Why put their support on the country people alone?

Forty years ago there were shoe-makers in every village. The big shoe factories have driven them out of business. There were wagon makers, plough makers, carriage makers. All of them have been put out of business by the big manufacturers. Farmers will not buy a home-made plough or a home-made wagon or home-made shoes, because they can buy better ones from the factories for less money. All these merchants were an advantage to the communities in which they lived. But the government did nothing to protect them. All of them have found other employment, and the farmers are prospering, and have the advantage of better machinery, ploughs and vehicles than they had in the olden times.

The arguments we hear from the ignorant or interested opponents of the parcels post are old and familiar. It was protested that the railroads would injure the rural communities because they would put the stage coaches out of business and take the trade away from numberless wayside taverns, and would destroy the breeder's market for his horses. The railroads came, however, and the country still lives. In England riots took place when labor-saving machinery was put in the cotton mills. In Maryland violence was threatened when binding reapers were first employed. Every advance in civilization is opposed by those employed in the old methods and by those individuals who think they will lose money by it.

In point of fact, the parcels post will not hurt the country merchant. The country merchant is hurt now by inefficient railroad service. It will not hurt him to give him better transportation at cheaper rates. His trade is mainly in heavy articles, such as the postal service could not handle, or in articles which he gets by railroad freight in great bulk. The parcels post would not be any innovation. It would be only the enlargement upon a reasonable basis of the present parcels post system. That is, it would merely increase the

## MASS MEETING OF CITIZENS CALLED

TO BE HELD JUL FOURTH.

For Organizing Good Roads Association for Greenville Township.

Greenville, N. C., June 28, 1911.  
At a recent meeting of citizens at which several matters concerning the welfare of the community were discussed, the undersigned was appointed for the purpose of calling together the citizens of Greenville township, at some future date for the purpose of organizing a township good roads association. The object of the association being to promote the building of good roads generally and especially throughout Greenville township, and to awaken the interest of the people in this work. The particular work to be undertaken by the association is to conduct and to carry to a successful conclusion an election as is provided for under a recent act of the legislature pertaining to the public roads of Greenville township. Now, therefore, we the committee, have considered and concluded that the most appropriate date for the holding of such meeting will be July Fourth, 1911. This day having already been designated "Good Roads Day" throughout the state.

We, therefore, call upon the citizens of Greenville township, to meet in the town hall at 12 o'clock, noon, on July the Fourth, 1911, at which time and place such association will be organized.

Respectfully,  
FRANK M. WOOTEN, Chm.

size of the package which would be received in the mails, from four pounds, the present limit, and make a reasonable reduction from the present rate of 16 cents a pound. Even after the parcels post is established, there will be plenty of business for the express companies. The bulk of their business, such, for instance, as transporting oysters and fruit by the carload or goods and produce in large quantities, would be untouched. The postoffice would compete with them in less bulky packages, and a large part of the postal business would be in carrying packages to points which the express companies do not reach and in bringing to the cities packages of food which is now wasted on the farms for lack of transportation.—Baltimore Sun.
