MISS ROYSTER AT TRAINING SCHOOL

LECTURE TO STUDENT BODY. How To Enlist Community Interest In School Work.

Miss Edith Royster, the assistant superintendent of schools in Wake county, spent the day Friday in visiting the E. C. T. S. school. Miss Royster has been so intimately connected with the public school work of the state for the past eight or ten years that she is thoroughly acquainted with its needs. She has always been an enthusiastic worker and Wake county is showing the fruits of her work by making strides in educational progress that but few counties in the state are now making.

At the last period of the day for work in the Training school Friday the student body assembled in the auditorium and was addressed by Miss Royster. She spoke to them on "Community Work." Speaking first of the work of the teacher in trying to remove the dragon of ignorance from our state, she said that it was our duty to enlist every one in the community in the work. We need the help of the people. The great work of the teacher is to get the community to fight with her in this gigantic struggle. We must stand for the best and have others to stand with us. We must first do something ourselves and then have others assist. To work for the community means to forget self. This spirit always brings both help from others and happiness to us. She told of many instances in her own county where the teacher had exhibited the community spirit and in every case fine results had followed. She pointed out how this would result in having the community make voluntary contributions to extend the school term and better educational conditions, saying that in Wake these conditions had amounted to as much as one year's school fund in the past seven years. To do this work of enlisting the community and working with the community spirit, means sacrifice, but it pays in the end.

SAYS ITEM WAS WRONG.

Mr. Rapsy Everett Gives Correction of The Trouble.

The following item appeared in The Reflector on January 7th, last: "A telephone message to The Reflector tells of a serious trouble that occurred not far from House station. The message says that Mr. Tobe Fleming went to his father's, Thursday, to assist in killing hogs, and upon returning to the home found a man named Ropsy Everett there. Fleming ran Everett away with a gun but was prevented by Mrs. Fleming from using the gun. Friday night Fleming went to House, and he and Everett got into a difficulty in which Fleming was badly hurt. The trouble has led to the separation of Fleming and his wife, both of them returning to the home of their respective parents."

Heat Conditions Worse.

Chicago, July 8.—A new hot wave has sprung up in the middle west. There have been twenty-four deaths in the last twenty-four hours here. The total number of deaths here is now 260.

Chicago Millionaire Dead.

By Wire to The Reflector.

Chicago, July 8.—James Pettit, a millionaire, was found dead in two feet of water in Lake Michigan this morning. His death was caused by heart trouble while he was in swimming.

Negro Woman Kills White Man.

Roper, N. C., July 7.—Lillie McCannless, a middle-aged negro woman, shot and probably fatally wounded W. C. Liverman, at Gum Neck, in Tyrrell county, yesterday afternoon. The shooting took place on the wharf of one of the steamboat lines running from Elizabeth City to Hyde county. Liverman was the agent. A number of more or less drunken negroes had gathered to meet the steamer and, becoming disorderly, Liverman ordered them to be quiet or leave the place, whereupon the McCannless woman drew a thirty-two calibre revolver and proceeded to empty every chamber at Liverman at short range, three balls taking effect in his side and back, passing out on the opposite side.

Alaskan Gold.

Seattle, Wash.—Advices received by banks from their correspondents at Fairbanks, Alaska, say that the season's gold output of the Tanana district will be at least \$5,000,000 and may reach \$6,000,000, exceeding by \$1,500,000 the estimate made two months ago.

NEWS THAT IS OF INTEREST TO TAR HEELS

GATHERED FROM EXCHANGES.

And Briefly Told For The Reflector's Busy Readers.

Tobacco Crop 50 Per Cent. Short.

A report from the state agricultural department says the tobacco crop in North Carolina this year will hardly average 50 per cent. Reports to the department from every section of the state are to the effect that the drought has greatly curtailed the production, and the indications now are that forty per cent of a crop is about all that can be hoped for. With unusually good seasons from now on, however, the average may be made better, and it is hoped that this may be the case.

United States Deputy Collector J. E. Cameron, with Sheriff J. P. Nunn and Chief of Police, C. M. Beasley, captured a 100-gallon capacity still on the Desmond place, about two miles from the city, and arrested George Horner and had warrants issued for John Hughes and Jay Cade on the charge of illicit stilling of liquor. The still, cap and worm, were confiscated, brought to this city and cut up and about 400 gallons of beer poured out.—Kinston Free Press.

Greensboro.—Mr. W. H. Swift, of this city, has been chosen by the general council of the assembly of the State University alumni to be the state organizer for this body and he has entered upon his work. Mr. Swift is a member of the Greensboro bar and was for several years superintendent of the city's public school system. He is an alumnus of the University.

The Matamuskeet railroad people are having trouble to secure rights of way and terminal site here. It seems that the property owners in and near the city are about to block the road's coming here by charging too high price for rights of way and terminal site. This is a mistake our people are making. We understand that Belhaven has offered rights of way and a water site for the terminal free.—Washington Progress.

Mr. Alfred S. Miller and family, living a few miles south of Thomasville, were poisoned last week by food which had been put into a gvanized bucket and hung in the well overnight. The food had been prepared for breakfast the family ate of it heartily and soon had to call a physician. By heroic efforts the physician saved the family.

Near Clayton a few acres are planted in cotton every year very early to see how it will turn out. Last spring Mr. Porter T. Duncan planted one acre March 22nd. Two frosts came on it and it was reported killed but he says the cotton is doing well. A good stand was secured. A few other acres were planted in that section about the same time and is doing well.—Smithfield Herald.

The county commissioners of Buncombe have taken up in a serious manner the proposition to purchase two thoroughbred English man-trailers. The wisdom of the city and county owning a pair of bloodhounds was suggested to the commissioners and a resolution was adopted endorsing the proposition and requesting the city to co-operate with the county in the purchase of the hounds.

Raleigh.—That there is great money in the trucking business is shown by the high prices that are being obtained at present in this section for products. A farmer came to town today with two bushels of shelled old-field black-eyed peas, green, of course and sold the two bushels for \$16—the rate of \$8 per bushel. He also had a bushel of Okra which he sold for \$5.

Follows Bank Failure.

Raleigh, July 7.—In United States District court have been filed two bankruptcy petitions of Tarboro merchants whose failure is probably due to the failure of the Bank of Tarboro. One is filed by C. M. Dancy, who gives his liabilities at \$12,698.71, and assets at \$5,737. The other is filed by P. A. Lewis, whose liabilities are given at \$27,464.54, and assets at \$11,473.72.

Home and Philosophy.

Dr. Stone, the president of Purdue University, has obtained a divorce from his wife because she has adopted an East Indian religious cult, known as Yogi philosophy. She has been away from the doctor for four years now, enjoying Yogism among others of the cult in Coaleda, Germany. When a true wifely philosophy runs up against the Yogi Philosophy and gets knocked out, it is time for a divorce.

It is always a sad case when a wife's mind gets all tangled up with occultism and the strange philosophy of the Indies. It interferes with good bread, ordinary beds, flowers on the table, regular meals, nursing the baby, attending church and all those little habits and ways that make a sane and cheerful home. No true philosophy, no amount of intellectualism should drive a woman from her home. If it is not a home that corresponds to her intellectuality, then there is something the matter, with her intellectuality. If a woman does not fit a home like a song fits a canary's throat, then it is time to pause and consider.—Ohio State Journal.

Pittman Starts Early.

We understand that a farmer living not many miles from town was putting out soda in his crop a few days ago, and while passing to the field passed a mud hole in which he noticed a number of tad poles and he decided to see what effect a little soda would have on them, so he tossed a little soda into the hole and waited a few moments and to his surprise they were full grown frogs, it is said in fifteen minutes, and went hopping off.—Dunn Guide.

Short Weights and Measures.

The federal experts from the bureau of standards swooped down upon Columbia merchants several days ago and found of the total number of scales used in the stores of that city that 50 per cent. only were correct within 3 per cent., while 47.5 per cent. were doctored to cheat the purchaser, 10 per cent. were short weighing customers to the extent of 12 per cent or more. Nearly every store in the city was found to be measuring dry commodities by liquid measure. Of the few liquid measures in use "some quart measures were found which were more than 19 per cent. small". The practice of guessing at the quantity in measuring liquids is declared to be common. Of 11 butter prints investigated only one was found to be correct in weight. Tests made put up by local stores showed 69 per cent. of the packages to be short in weight.—Charleston, (S. C.) State.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles.

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theodor's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theodor's."

A Suggestive Wheat Yield.

The appearance of the boll weevil in Louisiana and its subsequent devastations caused cotton production in that state to fall from more than a million bales to about a quarter of that amount. Instead of impoverishing the planters, this charge is believed by many observers to have wrought benefit already. The land and the energy diverted from cotton to the crops has produced a net profit which exceeded that derived from the million-bale condition.

The tendency throughout the agricultural South today is undoubtedly to break away from the one-crop tradition in favor of a diversification of planting which shall enable the farmer to draw more of his actual sustenance from his fields and less from the nearest grocery store. An illustration may be found in Person county just now. We have mentioned heretofore that tobacco—the staple crop—in that section is considerably off this year. The Roxboro Courier tells of a man who raised an average of just under 30 bushels of wheat per acre on eight acres—the general average for the country does not exceed 16 bushels—and uses the item as a text to urge its readers to devote more attention to wheat, even if a few fields have to be taken from the tobacco acreage.

Tobacco is a profitable crop in good seasons, but wheat has this advantage, that if market conditions are not favorable it can be utilized on the farm where it is raised. We believe The Courier's suggestions are worth the attention of tobacco growers throughout the North Carolina belt. While there may not be an attractive profit in a crop which runs from eight to ten bushels to the acre, the person farmer's example and many other demonstrates that the soil of the state can be made to produce at least three times this yield—which would mean a very different story when expenses and receipts are balanced.—Charlotte Observer.

The St. Mary's Fall Lock.

The longest canal lock in the world is under construction by the Federal government at St. Mary's Falls at Sault Ste. Marie, Mich. This longest lock in the world is in process to measure 1,350 by 80 feet, with low water clearance of twenty-five feet.

This new canal, which is to parallel the old "Soo" canal from Lake Superior lies to the north of the old St. Mary's Falls canal which had its origin when the State of Michigan dug the first "Soo" canal in 1855. In the early 70's traffic through the Michigan built canal had increased to such an extent that the Federal government took it over, and in 1881 had completed its enlargement to 160 feet width and constructing the Wenzell lock—still in use—515 feet long at low water. On the Canadian side are the Dominion government's canal and lock, but by far the greater tonnage has been using the American side, where the later Poe lock has had a length of 800 feet, width of 100 feet and depth of 20 feet.

Now the greatest lock on the globe is nearing completion in the United States' new canal. Above the lock the new canal basin of 260 feet near the lock gates, widening away to a maximum of 500 feet with uniform depth of 25 feet. The lock gates are 108 feet wide, and canal and lock will go into commission this summer. The freight tonnage annually for the great lakes is 90,000,000, and is about one-sixth of the freight movement of the country. The significance of the canal lies in the statement that almost 70 per cent. of this great lake's commerce passes through the several "Soo" canals, effecting a saving estimated at \$250,000,000 over rail traffic.—Chicago Tribune.

New Pellagra Treatment.

An employe of the Beaumont Mills, Spartanburg, S. C., went into Irwan and Floyd's drug store the other day and bought some tincture of iodine. He said he had pellagra and was using the iodine as a remedy. He said he took one drop in water three times a day for a week, two drops three times a day the third week, and then went back to one drop again. He said he had had pellagra for a year, but since beginning this treatment had improved. The man asserted that a woman living at Saxon Mills had cured herself of pellagra with this treatment.

The more a young man admires a girl the surer she is not to be his sister.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circular, free. F. J. CHENEY, & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

The Blue and The Gray

By the flow of the inland river,
Whence the fleets of iron have fled,
Where the blades of the grave-grass
quiver,
Asleep are the ranks of the dead.
Under the sod and the dew,
Waiting the judgment day—
Under the other the Gray.

Those in the robing of glory,
These in the gloom of defeat,
All with the battle blood gory,
In the dusk of eternity meet.
Under the sod and the dew,
Waiting the judgment day—
Under the laurel the Blue,
Under the willow the Gray.

From the silence of sorrowful hours
The desolate mourners go
Lovingly laden with flowers
Alike for the friend and the foe.
Under the sod and the dew,
Waiting the judgment day—
Under the roses the Blue,
Under the willow the Gray.

No more shall the war cry sever,
Nor the winding river be red;
They banish our anger forever,
When they laurel the graves of our
dead.

Under the sod and the dew,
Waiting the judgment day—
Love and tears for the Blue,
Tears and love for the Gray.

Greenville Must Have a Contest.

If the boys in every town in North
Carolina would smite the flies as the
boys in Texas are smiting the germ-
breeding pests, we would soon have
no flies and very few, if any, cases
of typhoid fever. As the result of
a fly-killing contest at San Antonio,
Texas, yesterday, one and a quarter
million dead flies lay in heap, making
a pile three feet high and five
feet wide, which represented the
slaughter wrought by small boys.
The boy winning had a record of
484,220 dead flies.—Salsbury Post.

Growing Hardy Oranges.

Washington, D. C., July 7.—The
great thing in the fruit line now is
to get the orange to grow up north
the apple to grow down south.

Already an important start has
been made. The vast problem seems
certain of accomplishment. It will
take many long years but it will
come scientists say a hardy orange
and a tropical apple can be bred.

Today oranges can actually be
grown as far north as Pennsylvania.
They are not very valuable oranges,
but they are beginning. Apples are
today grown in Florida, not, perhaps
especially good apples, but at least
apples.

The idea is to be eventually able
to grow oranges in a Massachusetts
dooryard. Here is what a fruit
scientist, E. P. Powell, says:

"What the orchard will be 500 or
1,000 years hence who can tell? We
are almost certain to get the oranges,
by selection, hardy enough to fruit in
Massachusetts, while we are already
getting apples pretty well down to-
ward the tropics"

State Reunion.

The state reunion of the veterans
will be held this year at Wilmington,
N. C., on 2nd and 3rd of August. Our
Wilmington friends extend to every
veteran a hearty invitation and will
surely give us a royal welcome. In
order that they may have the infor-
mation as to how many to prepare
accommodations for it is absolutely
necessary that they should know the
number that expects to attend at least
two weeks before the meeting. So
I urge upon the veterans to let me
hear from them as soon as they
make up their minds, so that I may
send in the information as to the
number they may expect from this
Camp.

The railroad fair I suppose will
be about 1 cent per mile both ways
as usual.

Fooled the Office.

Talking about smart men, that
man Lutz, a prisoner being brought
back to North Carolina by a Win-
ston officer for passing bogus
checks, was about the best yet. He
was apprehended in Indianapolis and
the officer had no trouble with him
at all. "He was a model prisoner,"
said the policeman this morning.
And he was "model" for a cause. Ap-
proaching Greensboro last night he
took advantage of the rush of pas-
sengers for the platform to jump out
of a window and escape. No doubt
he had been baiting the officer all the
way.

Hatch Will Have New Store.

Hatch is to open another 5 and 10
cent store here at an early day. He
has leased from Mr. W. H. Harring-
ton the store at present occupied by
B. J. and J. R. Abe-Youms and the
one occupied by the Central Barber
Shop adjoining. These two are to
be thrown in to one with an entire
new front, and Hatch says it will
be the largest and best 5 and 10 cent
store in Eastern North Carolina. The
present occupants will vacate by the
first of August, and the work of re-
modeling will begin then. 7 12

A Female Raffles.

Colorado Springs, Colo.—A female
Raffles attired in men's clothes, the
police say, is perpetrating the many
burglaries that have occurred in the
north end district of Colorado Springs
during the last several weeks. That
the burglar is a woman was not
known until Tuesday morning. While
robbing the home of Mrs. Anna Wil-
liamson, the girl allowed a heavy
watch fob, which she was in the act
of removing from Mrs. Williamson's
dresser, to strike against the furni-
ture and awaken Mrs. Williamson.
When the latter awoke she saw the
girl burglar standing near a window,
a street light disclosing her form to
be that of a woman attired in men's
clothing. The burglar pointed a large
revolver at Mrs. Williamson, keeping
her covered while the female Raffles
carefully made her exit through the
open window.

The Sellsors.

We are always bright and sharp,
However dull the weather.
Whenever little Maide
Takes her workbox in her lap,
We are always up and ready
With our snip, snip, snap!
We cut the pretty patches
To piece the pretty quilt;
Each square the next one matches,
Their posies never wilt.
We trim the edges neatly
With never a mishap,
And what music sounds so sweetly
As our snip, snip, snap?
—Laura E. Richards.

THE HAPPENINGS AROUND WINTERVILLE

NEWS THAT INTEREST PEOPLE.

People Going to Different Parts On Summer Vacations.

Winterville, N. C., July 8.—Mr. W.
B. Wingate left Thursday for Fair
Haven, Mass., to visit two of his
daughters who are there.

For the cash and while they last,
Harrington, Barber and Company are
selling all their summer stock of
dress goods, such as lawns, batiste,
flaxons and poplins at about half of
the cost price, so they can have room
for the fall stock. It is a chance of
a lifetime to get a bargain.

Mr. J. S. Ross, of Ayden, was in
town Thursday.

Don't forget the price has been
made low on slippers at A. W. Ange
and Co.'s.

Mrs. J. H. C. Dixon returned Wed-
nesday from near Gardner's X Roads,
where she spent some time with her
father who is quite sick.

For cash and to give the trade a
wonderful bargain, Harrington, Bar-
ber and Company have marked their
hats 'way down and you can get a
good hat for a little money.

Messrs. G. R. Dixon and Willford
Buck left yesterday to spend a week
at Morehead.

Fruit jars and rubbers at A. W.
Ange and Co.'s.

Winterville has a fine opening for
a first-class barber shop.

Rev. M. A. Adams left Thursday
morning to attend the Sandy Bottom
Association, near Carthage.

Mr. and Mrs. A. G. Cox spent
Friday in Greenville.

See Harrington, Barber and Com-
pany for your requirements in lime
for repairing your tobacco barn furn-
aces and all other work when lime
is needed.

Mr. R. L. Abbott attended the base
ball game at Grifton yesterday.

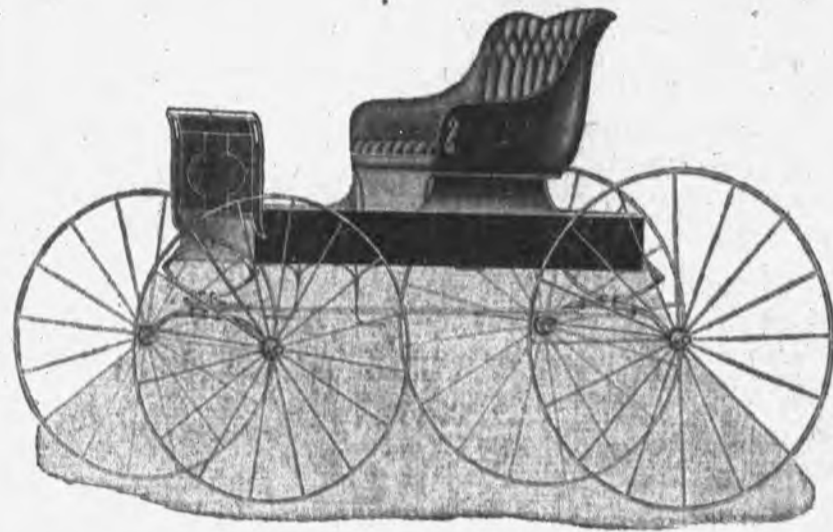

Misses Mimie and Dora Cox at-
tended the Sunday School Institute
in Greenville this week.

Mr. Eugene Cannon, better known
as "Pistol," went to Ayden yesterday
to see the boys get beat in a game of
ball.

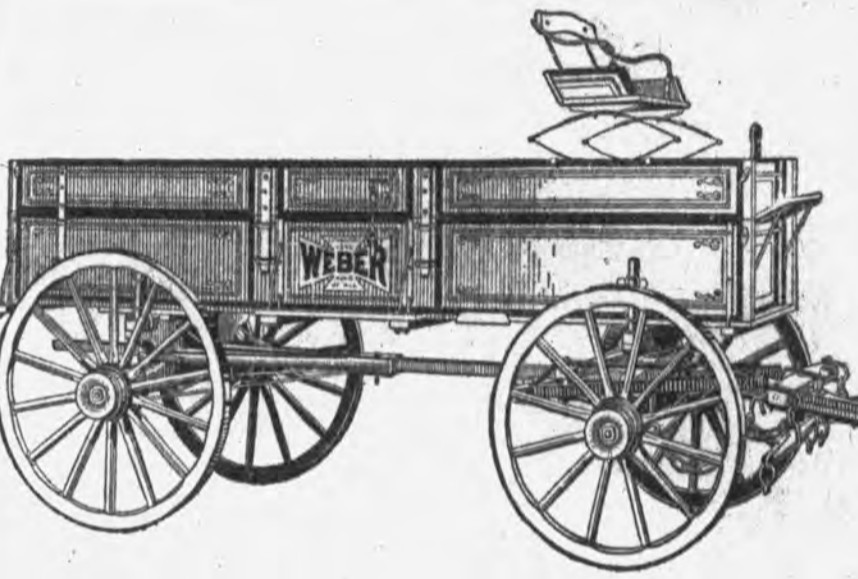

Get your pumps, piping and points
at Harrington, Barber and Co.'s.
They have a large stock on hand.

Mr. and Mrs. A. G. Cox left today
for the mountains in the western
part of the state, where they will
spend some time.

Misses Esther Johnson and Pearl
Hester went to Greenville today to
spend a few days with friends there.

The Twin Seat Hunsucker is a leader in style and quality.
The A. G. Cox Manufacturing Company are making other
good style buggies. Send in your order and get your choice.

"Weber"

King of all Farm Wagons.

The man who uses Weber wagons will use
no other. His judgment is good. Why not fol-
low his advice? We have a Weber wagon
awaiting your inspection. If you want to
save yourself money, investigate. For sixty-
six years the Weber has been the pride of
all users. Use one and let it be your pride.
We have literature concerning this wagon
that we want you to call for. Call to-day.
Let us talk over the wagon proposition. If
you don't buy, you will know the merits of
the Weber wagon and will be in position to
know a good wagon when you see it. Get a
Weber and you will get the best. We have
what you want. We will be glad to see you
any time.

King's Lineage.

Rev. William Hyde, rector of the Trinity Episcopal church of Weymouth, believes not only that the British are direct descendants of the Israelites but that King George V is a lineal descendant of a cousin of the house of David.

"The royal house of Britian," says Mr. Hyde, "traces its ancesery back to the line of David and of Judah.

"To be specific, Tea Tephi, daughter of Zedekish, the last king of David's line married Eochaide, the young king of the Doniaes, in the north of Ireland, in 583 B. C. They were married by the prophet Jeremiah and crowned on the Bethel stone.

"Eochaide himself was of the royal line of Judah, since he was a descendant of one of the twin sons of Judah, David being a descendant of the other twin son.

"The marriage was the beginning of the royal house of the Scots and this line in time, though the Bruces and Stuarts, became the royal line of the British empire.

"Georg V, therefore, is a descendant of David, and belongs to a dynasty which can never cease to exist, for it has the promise of God that it will never cease to have a descendant to reign over the people of Israel. The English-American people are this race; hence they are the people of God.

"Further, we can trace the lineage of the British rule back even as far as Adam. Anna, a cousin of Mary, the mother of Christ, married a prince of the royal house of Britian, and hence became an ancestor of that house.

"God said that He would establish the throne of Davil ferever, and that David would never cease to have a descendant. George T is a fulfillment of these words, for he is a descendant of David, and he sits upon the throne of Israel."

A Straight Hit.

The North Carolina bankers said in their recent meeting at Lake Canuga that the government has no right to enter the banking business. The printers have been saying for a long time that the government had no right to enter the printing business, and yet many bankers have persisted in using the envelopes printed by the government and thought nothing wrong about it.—Henderson Gold Leaf.

Hatch Will Have A New Store

HATCH is to open another 5 and 10c Store here at an early day. He has leased from Mr. W. H. Harrington the store at present occupied by B. G. and J. R. Abe-Younis, and one occupied by the Central Barber shop adjoining. These two are to be thrown in to one with an entire new front, and Hatch says it will be the largest and best 5 and 10c Store in Eastern North Carolina. The present occupants will vacate by the first of August, and the work of remodeling will begin.
