## OUR WEEKLY LETTER FROM WASHINGTON

### EASY MONEY FOR STEEL TRUST.

Why They Are Trying to Oust Dr. Wiley.

(By Clyde H. Tavenner).  
WASHINGTON.—A remarkable series of facts which have come to light within the last twenty-four hours indicate that packers of embalmed beef are the influences that have been principally behind the plot to have Dr. Wiley ousted from public service.

Manufacturers of embalmed beef are at present, by virtue of an order issued by the department of agriculture, permitted to use benzoate of soda in whatever quantities they may desire. Dr. Wiley not only opposed the issuance of this order, maintaining that the preservative is decidedly harmful in its effects upon the human system, but has worked untiringly to educate the people to the danger lurking in packed meats in which benzoate is used. The result is that several states have passed legislation absolutely forbidding the use of the drug in any quantity whatever. Therefore, Dr. Wiley has become a standing menace to the embalmed beef industry. "This man Wiley has got to go," was the edict that went out from the embalmed meat manufacturers.

When Dr. Wiley held that benzoate of soda was harmful to the human system, the packers appealed to the Remsen referee board, especially packed with friends of the food dopers, which board very promptly and obligingly reversed Dr. Wiley. The board held that benzoate of soda in small quantities, specified as five-tenths of one gram per day, was not injurious to healthy persons. But when the order was issued legalizing the use of benzoate, no limitation whatever was made as to the amount of the drug the packers might use.

Remarkable circumstances attended the issuing of the order letting down the bars to the food dopers. The order was issued on March 3, 1909, and was placed in circulation March 4, the day President Taft went into office. It was signed by George B. Connelley, Oscar S. Straus and James Wilson, three cabinet officers, as required by law. Of the three men, two were to retire from office the next day and actually retired before the scope of their order became known.

This order giving government sanction to the use of the product of benzoic acid meat that we were going back 5000 years, for benzoic or its products had not been used in the preservation of flesh since the Egyptians stopped embalming their dead. Chemist Floyd W. Roberson, one of Dr. Wiley's prominent assistants, recently appeared as a witness against benzoate in an action brought by the state of Indiana to prevent the sale of foods containing benzoate, and before Dr. Wiley had a chance to intervene Roberson's dismissal "for the good of the service" followed.

Find the influence that was powerful enough to have the three cabinet officers issue the order legalizing the doping of foods, "say Dr. Wiley's friends," and you will learn the identity of the men who have ever since been plotting to have Dr. Wiley ousted.

**Taft Against Wiley.**  
Since Taft has been in the White House he has invariably opposed Dr. Wiley instead of having co-operation with him in the interests of pure food.

In his decision against Dr. Wiley, in the interests of adulterated whiskey, the president reversed the findings of ex-President Roosevelt, former Attorney General Bonaparte, Chief Government Chemist Dr. H. W. Wiley, Secretary of Agriculture Wilson, the Remsen board, the United States Pharmacopoeia, the internal revenue bureau of the treasury, the standards adopted by twenty-six states fifteen of the United States courts, and President Taft's father, the former attorney general of the United States.

**Incriminating Evidence Disappears.**  
Following the mysterious disappearance of the "Dick to Dick" letter from the files of the interior department comes the discovery that a full set of Controller Bay maps have been disappeared from the files of the war department.

The maps in question were seen not only by M. F. Abbott, but by Delegate Wickersham, of Alaska, Gifford Pinchot and by Secretary of War, Henry L. Stimson. Yet Major J. B. Cavanaugh, of the war department,

## FARMERS MEETING TO BE HELD IN AUGUST

GREENVILLE, TUESDAY AUG. 10th

County Good Roads Associations to Be Organized.

Editor Reflector:  
I am gratified to be able to announce that a Farmers' Educational Meeting will be held in the following counties on the south side of the sound:

Swan Quarter, Monday, August 7th.

Plymouth, Tuesday, August 8th.

Columbia, Wednesday, August 9th.

Greenville, Thursday, August 10th.

Washington, Friday, August 11th.

Williamston, Saturday, August 12th.

Three experts from the United States Department of Agriculture, who are among the best equipped lecturers on farm topics in the United States, will discuss subjects of vital interest to the farmers. It is also expected that Dr. Joseph Hyde Pratt will be present at most of the meetings to discuss good roads. An effort will be made at the afternoon session in each county about the hour of three o'clock to organize a county good roads association. At this hour business men and citizens other than farmers are earnestly invited to attend and co-operate in the good roads movement.

Very respectfully,  
JNO. H. SMALL.

### NOT VALUED IN MONEY.

Wake County Teachers Praise The Training School.

A Wake county teacher writing to Supt. Z. V. Judd, from the East Carolina Teachers Training School at Greenville, says:

"I certainly am glad that I came here. My eight weeks here will cost me \$27.50. Already I would not exchange what I have gained for a hundred dollars. To me it is not to be valued in money."

Another teacher, after her return home from Greenville, writes:

"I can never tell anyone how much good I got out of the training there."

These teachers attended the summer sessions of the Training school. —Raleigh Times.

This expectation makes a blessing dear; Heaven were not Heaven if we knew what it were.—Sir John Sucklin

testified before the Graham committee that the maps are not in the files now.

It is believed by members of the committee that the Ryan conspirators as soon as the present exposure was threatened took means to have moved from the government files all incriminating evidence.

"The files have been tampered with. This is obvious, and in fact, the only conclusion this committee can reach in the face of the evidence at hand," said Chairman Graham. "It would seem that the files are not to be relied upon to give us the truth."

Altering records is a serious offense and this committee will go to the bottom of it."

### Doctor Wiley's Offense.

Doctor Wiley took one-third of the time of a first-class man instead of all the time of a third-class man. That is the actual "offense" for which the great friend of the people is being harried by the Taft administration.

### The Same Old Cradle Howl.

That "the reduction of sugar duties would ruin the domestic production of sugar cane and that free sugar would annihilate both the cane and beet sugar industries of the country" is the cry from that lusty lunged infant—the sugar trust.

In the name of the small growers and producers the trust is whining and pulling for a high tariff—for protection. With protection the small, independent interest has the happy prospect of being absorbed, annihilated, wiped out, as soon as the tariff succored infant is ready to smite its go-between.

### Easy Money For The Steel Trust.

That the United States Steel Corporation force independent concerns to pay exorbitant prices for hauling ore over its roads is a point that the steel trust committee of inquiry will investigate. The committee is informed that the trust roads charge enough for hauling one load of ore for an independent company to pay for transporting two loads of its own.

## TODAY'S EVENTS IN NATIONAL CAPITOL

HINES PRODUCES A LETTER.

Also a Big Sensation at The Steel Hearing.

WASHINGTON.—Edward Hines, before the Lorimer investigating committee today, produced a letter alleged to be from former Congressman Boutell, who is now minister to Switzerland, in which Boutell said he wanted Lorimer to know that he, Boutell, asked President Taft if Lorimer would be O. K. as a senatorial candidate and obtained President Taft's promise that the president was favorable to Lorimer.

There was a sensation at the steel hearing today when Representative Stanley produced a copy of the pooling agreement entered into between the steel companies in 1909 to divide up all business, which is contrary to the Sherman law.

Attorney General Wickersham at the Controller Bay hearing declared in answer to Delegate Wickersham's charges, that he allowed the statute limitations to run in favor of Alaska companies, and that the alleged attempt to defraud the government in coal bids was a "falsehood." Delegate Wickersham retorted his statement was true and that he would prove it.

### Secretary Wilson Violated Law.

WASHINGTON.—The action of the department of agriculture in issuing a prediction as to the size of the cotton crop of this fall was a violation of law and has resulted in lowering the price in the cotton market, said Senator Smith, of South Carolina, in a speech in the senate.

Secretary Wilson admitted that this contention was right, Senator Smith told the senate, and promised that the matter complained of would not occur again. The South Carolinian was considerably wrought up over the matter, and had prepared a joint resolution to be introduced in congress if his interview with the Secretary of agriculture had not resulted satisfactory.

### Both Entitled to Statehood.

WASHINGTON.—Arizona and New Mexico, the two remaining territories within the boundaries of the United States, are destined to wait until another congress meets before they can expect statehood. Neither one of them will be admitted to the union during the present extra session.

### KINSTON BURGLARY

The Judge Lost 75 Cents—Frightened From Other House.

Upon awaking this morning Justice of the Peace H. C. V. Peebles discovered that his clothes were not in the place he put them when he retired to sleep Friday night. Investigation showed them to be in an adjoining room, and he found that they had been robbed of 75 cents, in cash and a fountain pen. A watch was removed from the trousers pocket and left, presumably because the thief thought it would lead to his identification. Mr. Peebles went at once to the pawn shop to see if the pen had been pawned and learned that it had, by a little boy who said he did it for a negro man. The police are now looking for this negro man.

Earlier in the night some one opened the window in the home of Mr. Douglass, next door to Mr. Peebles' residence, and entered, but was frightened off by Mrs. Douglass, who, with the nurse and two children was at home. Nothing was stolen at Mr. Douglass' home.—Kinston Free Press.

### Crabs Having A Feast.

It has been so dry that the salt water has gone up the creeks so, as to be killing out the fresh water fish. The creeks are full of dead cat fish and other fresh water fish can be found floating all up and down the creeks. Crabs are having a feast and are plentiful.—Bayboro Sentinel.

### Sharon Masonic Lodge Tonight.

Sharon Masonic Lodge meets tonight. Work in the first degree. All members requested to be present. Visitors cordially invited.

H. HARDING, W. M.  
E. E. GRIFFIN, Sec.

## PROF. BARNES DELIVERED LAST LECTURE

SUMMER TERM AT E. C. T. T. S.

He Has a Great Hold Upon the People Of North Carolina.

The last lecture for the present term was given in the auditorium of the Training school Saturday evening at 8:30 by Prof. Barnes. Mr. Barnes had lectured for the school one evening before this and also gave a short talk at one period of the opening exercises. Probably no man who has come to North Carolina to do educational work has so gotten hold of the people with whom he has come in contact as has Prof. Barnes at the summer term of the Training school. Thoroughly equipped for work as he is, apt and skillful in giving this work, thoughtful and practical in every utterance, genial and social in his nature, he has won the esteem of the student body as completely as any one we have ever known. Knowing him as they do the teachers expected to get something from Saturday evening's lecture. They were not disappointed. We have not heard a lecture fuller of wise thought and practical suggestion than this one. Prof. Barnes' subject was "Education for Efficiency" in his introductory remarks he said many kind things about the South, and expressed his great pleasure at having had the pleasure of being here during the summer.

Prof. Barnes gave first a strong, clear cut definition of efficiency. It is effective power for work and service during a healthy and active life. An efficient nation made up of efficient individuals. It is the business of schools to make efficient individuals. Education for efficiency does continue through adult years by means of summer schools, evening schools, etc.

Secondly, education includes two processes—the training of powers, and acquisition of knowledge. Children should be trained in a large variety of mental processes and in the establishing of as many mental habits as possible.

In the third place he said, education for efficiency must especially impart the habit of quick and concentrated attention. Young people must be taught to think. Prof. Barnes was especially strong and practical in his discussion of the necessity to think. He stated that there was too much hurry and trical activity in our daily life. We do not have time to think in this hurry. He was of the opinion that studies were made too easy in school, the pupils not doing enough hard thinking. Teachers encourage weakness and dependency by their methods. Any subjects that have a natural interest for the child will supply a motive for good thinking. Fourth, to inspire the motive for hard work at an early age and to train the power of consecutive thinking is the greatest problem in education for efficiency. This is a task for the teacher and yet it can be done and must be done to get the best results.

Fifth, the thoughtful home has great influence in developing the initiative in thinking. Mr. Barnes here gave a number of strong illustrations of the truthfulness of this statement.

Sixth, He next discussed the influence, the power, and the efficiency of the teacher who thinks and inspires thinking in those who are taught.

Seventh, Any subject may be used to teach the child to think hard. The idea is, that he is caused to weigh evidence, draw accurate inferences, make fair comparisons, invert solutions, form judgment, etc.

Eighth, The scientific spirit is the great development of the 19th century. Its characteristic is the passion for truth and for fact as is opposed to guess or imagination.

Ninth, Prof. Barnes here discussed the teacher, naming as requisite for successful work and results first, proportion and equipment, second, school room efficiency, and third, proper methods. Educational efficiency means the discarding of superstitions, prejudices, inflexibility of ideas, and it means the development of a tendency to receive and accept new thoughts and new ideas instead of the old. He gave strong illustrations of teachers hanging to one idea or method in school work, etc.

Old wornout ideas and methods should be thrown into the educational junk heap and new ones installed. Individuality, courtesy and good-

## NEWS THAT IS OF INTEREST TO TAR HEELS

GATHERED FROM EXCHANGES.

And Briefly Told for The Reflector's Busy Readers.

**DURHAM.**—John Alexander Vickers, a member of a well known Durham family, committed suicide Saturday afternoon by cutting his throat with a razor.

The Farm Life School election for the purpose of voting on an issue of \$25,000 bonds to establish a school in the eighth township, was held Friday. The vote was very light but was in favor of the bonds.—New Bern Journal.

About noon Saturday the alarm of fire was sounded and when the fire was located it was found to be at the residence of M. John, on East Fifth street. The building caught fire from a defective stove flue and but for prompt work of the fire department the entire building would have been destroyed.—Washington News.

A gentleman from Maysville, in town Thursday stated that there had been scarcely any rain in his section, and that crops were in great need of it. Further over in Onslow county, it is said that an abundance of rain has fallen and that crops are doing finely.—New Bern Journal.

Ex-Sheriff N. G. Grandy, one of Pasquotank's most progressive farmers, leads them all this year in the early shipment of sweet potatoes. Mr. Grandy made a shipment of several barrels from his farm near the city the first of the week. Mr. Grandy not only beat Pasquotank county, but he also beat Currituck county, the champion potato county of the state.—Elizabeth City Advance.

The statements of exports and imports handled through this point as compiled and given out from the United States engineer's office show a very gratifying increase. Judging from this index the commerce of Wilmington is undergoing a steady rise. The commerce of the Cape Fear river below Wilmington for the calendar year 1909 was \$72,426 tons valued at \$52,214,254; for 1910, 944,657 tons valued at \$59,601,687, netting the highly encouraging increase in one year of 72,231 tons and \$7,387,433.—Wilmington Dispatch.

### Bomb in Milkwagon.

NEW YORK.—A bomb exploded in the milk wagon of the Joseph Stragoun Company on the ferry boat, scattering the milk and chickens everywhere, and creating a panic among the passengers.

breeding are absolute essentials of the teacher.

Teaching of health and hygiene are positive demands upon the teacher in this age and time. Mr. Barnes here mentioned and discussed briefly medical and dental inspection of children, the uselessness of epidemics such as measles, mumps, etc., and emphasized strongly the importance of looking after adenoids, hookworms, etc.

Tenth, Education for efficiency includes education for citizenship. He dwelt strongly upon this point, getting the conclusion that the world expects every man to do his duty.

Eleventh, The development of seeing good in every thing. Prof. Barnes was exceedingly happy in his manner of presenting this division of his subject and convinced us all that this is a very important truth and means much for us as individuals and for the world at large.

On the twelfth and last place the speaker spoke strongly of "Individual Authority," showing that men are fast coming to think for themselves and not accept every dogma promulgated. At the conclusion of this address Prof. Barnes gave two readings from Riley as follows: "Hot Weather Talks" and "Knee Deep in June."

We have given only a brief synopsis of this splendid address. No report could do justice to any lecture so filled with thought and so forcibly and practically presented as this was. Prof. Barnes will always have an audience when he speaks here, because the student body knows what is in store for them. The school was exceedingly fortunate in having him as one of the faculty this year. He is equally as strong in the recitation room as he is on the platform, and his work here during this summer term will count for much in giving our schools more efficient teachers.

### SAY HEN LIGHTS HIS PIPE.

New Trick Accredited to the Westchester Leghorn.

Philadelphia, Pa.—The White Leghorn hen owned by John Grohan, of Greenville, Westchester, which was said recently to have helped him build a chicken coop by holding the nails in its beak after he had smashed his finger, is alleged now to have learned a new trick.

It is said that when Grohan gets home after his day's work and sits in his easy chair on the porch the hen goes into the house, gets his bag of tobacco and pipe and brings them to him. Then when Grohan has filled his pipe, it is added, he puts a match in the hen's beak and she scratches it across the floor, and then he lights his pipe.

Grohan declares he expects to teach the hen next to put out the match.

### Fountain Blea Burned.

PARIS.—Fire today wiped out 3,000 acres of the historic forest, Fountain Blea. Many soldiers were burned while fighting the fire.

### Anti-Prohibitionists Lead.

DALLAS, Tex.—The anti-prohibitionists are leading with 400 votes. 25,000 votes are yet to be counted. It is predicted that the matter will have to be fought out in the courts.

### After Train Wreckers.

NEW YORK.—Detectives, with bloodhounds, are hunting for the persons who tried to wreck the Long Island train Sunday night.

### Paris Aroused Over Cholera.

PARIS.—A general meeting is expected to be held here to prepare means for coping with the cholera situation.

MONDAY, JULY 24, 1911.

**GOVERNOR KITCHIN'S REPLY.**

Governor Kitchin in Sunday's News and Observer "came back" in reply to the recent Misenheimer-Lockhart letters in that paper and the editorial comment of the paper in regard to the governor's change of "trust busting" attitude before and after election. The coming of Gov. Kitchin's reply to these strictures was expected and had been heralded in advance, hence it was read eagerly on its appearance Sunday morning.

Governor Kitchin's reply occupied some over three columns in small type, and was given front page position in the News and Observer. He stood his ground squarely, said that Senator Lockhart's statements were mainly untrue, declared that he had been steadfast and consistent in his anti-trust attitude, and drubbed the News and Observer for holding to the contrary and trying to accomplish his defeat.

It was looking like the governor had taken care of himself all right, but alas, in the same paper was a nine column editorial that belauded the situation and upset every point Governor Kitchin had made before it was given time to stick. Really it shows the near futility of engaging in a controversy with a newspaper and the disadvantage when the newspaper can talk right back in the same issue, and have the last word, too.

The Henderson Gold Leaf draws the line and refuses to print accounts of dances, card parties, wine suppers, and the like. The editor of that paper says most people have their "cranky notions" and he is willing to be called a crank in that particular.

Poor old John D. Rockefeller has lodged a complaint with the county commissioners of his county because of the valuation for taxes placed upon his property. He is trying to get the value reduced.

Greenville's public library could be larger if it had more members or subscribers. Even though small, it is doing much good, but this could be increased.

They must have a lazy set in Kent, one of New York's suburbs. Up there they turn guinea pigs into the lawn to nibble down the grass instead of mowing it.

President Taft spoke for peace at the veteran's re-union on the Bull Run battlefield, but the government goes right on spending money for war ships and a standing army.

**Accused of Stealing.**

E. E. Chamberlain, of Clinton, Me., boldly accuses 'Buckien's' Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs, cuts, corns bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c, at all druggists.

Some non-subscribers to their home paper waste several times the price of the paper in time consumed in going to borrow from their neighbor.

It is not hard to imagine why the next nomination for governor is being mixed up with the senatorial contest.

Talk about the value of good roads, you cannot place a value on them. They are worth it all and then some.

That Richmond man who killed his wife is one more who ought to go to the electric chair.

As they have passed the reciprocity bill possibly congress can soon go home.

**No Chance to Fight Japan.**

Under the old treaty it was provided that in case of war between Japan and the United States, Great Britain should lend aid to Japan. Under the new treaty Great Britain is precluded from giving support to Japan in a conflict with the United States. This results from the terms of the general arbitration treaty made between Great Britain and the United States. The news papers in Japan have been discussing the new treaty that country has made with this. The government press is facilitating Japan upon this result, believing that the new treaty practically removes any possibility of war between Japan and the United States, while the minority newspapers criticize the treaty, because, in their opinion, it gives the United States all the better position and weakens the position of Japan.

Both countries are to be congratulated upon the treaty, as it makes for the peace of the world, and the prosperity of both Japan and the United States. If Captain Hobson shall not be able to find a Santiago channel through the treaty, we may smoothe the wrinkled front of war for the present at least, and seek by some pretext or other to pick a quarrel with some other country just for the purpose of keeping the martial spirit of our people on edge and the congress ready to make larger appropriations for forts and ships. It doesn't matter much what country it is, so long as it is not a fighting country. There is Portugal, for example, which would seem to require attention from some one of the powers, and it might be as well not to withdraw all the troops from the Mexican frontier, as there is talk now of impeaching the new president, and there is said to be much unrest because Madero appears to have been making a corner in oil.

If we can't fight Japan, isn't there some other country the Jingoos can find for our belligerency?—Richmond Times-Dispatch.

**WHAT THE KIDNEYS DO.**

**Their Unceasing Work Keeps Us Strong And Healthy.**

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

T. R. Moore 918 Evans street, Greenville, N. C., says: "I can recommend Doan's Kidney Pills, for I have used them with the greatest benefit. I was troubled by a lameness in my back and my kidneys did not do their work as they should. I got Doan's Kidney Pills from the John L. Wooten Drug Co. and I had not used them long before I received relief. I can say that this remedy acts just as represented."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The more questions a woman asks the fewer answers she remembers.

**FATHER WAS ANGRY**

**Zoo Anaconda Mother Prevents Him From Killing.**

Forty-eight babies were hatched by Big Annie, the anaconda in the Bronx Zoo a few days ago, and each baby measured three and one-half feet in length yesterday.

Big Annie is twenty-two feet long and thirty-six inches in diameter. As she turned her tremendous head and gazed at her family she met the gaze of the python, which is twenty four feet in length and the father of the forty-eight babies. The python was furious. He shot out his tongue in anger and gilded across the cage toward the forty-eight babies. Big Annie saw him coming, and she knew he was bent on murder and a hearty meal.

As he came close she struck and the python fell back. Then on he came again and again. Big Annie was equal to the attack. The baby snakes squirmed under their mother and all about her. The fight was becoming more and more furious when a keeper appeared. He yelled for all the other keepers in the snake house.

Not a man of them dared enter the cage. The python was lashing his tail until the bars of the cage seemed to bend every time it struck them. Big Annie was too wise to lash. One blow from her tail would have killed a dozen or two of her offspring. She only raised her head and warded off the attack of her husband and the children's jealous daddy.

One of the keepers got a prong through the top of the cage and jammed it down over the head of the python. A second prong fastened his squirming body a few feet down and gradually he was made a prisoner. Then Big Annie with a hiss drew her slimy self to a further end of the cage and her forty-eight children followed her.

While the python was held down a partition was arranged between him and his wife and children, and later he was persuaded into another cage and locked up.

Big Annie came here from Trinidad and was present to New York from R. R. Mole. She is one of the biggest snakes in captivity.—New York World

**A Whiter South.**

The Progressive Farmer rejoices to find from an analysis of census returns that the rural South is rapidly growing whiter and that the white population of the whole South is increasing almost exactly twice as fast as the negro population. "Even from a selfish standpoint," it comments, "we realize that the best interests of the whole South demand that the negro be made more intelligent, efficient and prosperous. But at best this process will be slow; and the proportion of negroes to whites in the South has been too large even for the negro's own good." In some parts of the South especially. Too large a proportion of negroes anywhere tends to make race relations tense, to deprive the white man of free action and the negro of that full measure of inspiration and example which contact with the white man should afford. Under such circumstances lawlessness thrives and all the standards of civic life are more or less debased.

Racial relations in North Carolina and Virginia are very much better than in most of the states farther South, and primarily for the reason that negroes are proportionately less numerous. We recognize that the South affords the negro his best opportunity, but from the larger standpoint it would be well if his numbers were spread out much more. It is his concentration in one section which has caused all that section's peculiar troubles, and his special concentration in certain states and counties has intensified these troubles there.—Charlotte Observer.

**Attack Like Tigers.**

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at all druggists.

The State's Industrial College  
Four-year courses in Agriculture; in Civil, Electric, and Mechanical Engineering, in Industrial Chemistry, in Cotton Manufacturing and Dyeing. Two-year courses in Mechanical Art and in Textile Art. One-year courses in Agriculture. These courses are both practical and scientific. Examinations for admission are held at all county seats on July 13. For Catalog address THE REGISTRAR, West Raleigh, N. C.

In the year 1626 Peter Minuit bought the whole island on which New York City—now worth four thousand million dollars is built. He paid \$24 for the island. Had he put out that \$24 at 4 per cent compound interest in 1626 it would now amount to as much as the present value of New York City.

## Social and Personal.

Dr. S. Hassell went to Baltimore Sunday.

Mr. D. J. Whichard went to Baltimore Sunday to see his daughter who is in the hospital there.

Mr. P. H. Jordan went to Rocky Mount Saturday evening.

Mr. Donnell Gilliam spent Sunday in Tarboro.

Mr. S. E. Gates left Saturday evening for Richmond.

Mr. E. W. Foster spent Sunday in Halifax.

Mrs. Hattie Skinner and Mrs. C. S. Carr returned Saturday evening from Virginia Beach.

Mr. S. J. Everett spent Sunday in Scotland Neck.

Mr. O. C. Gregory returned Saturday evening from Richmond.

Mr. Thos. Dupree, who left here several days ago for Beaufort, was taken sick with appendicitis there and was carried to Kinston, where he underwent an operation Sunday morning. His many friends here are grieved to hear of his illness and hope for his hasty recovery.

Miss Laura Oden, of Belhaven, is visiting her sister, Mrs. J. G. Latham. Mr. R. H. Outlaw, of Goldsboro, came in Sunday morning to visit his brother, Mr. N. W. Outlaw.

Mr. and Mrs. O. L. Joyner and little daughter, Miss Lillian, left this morning for Raleigh.

Misses Annie and Mamie Oden, of Washington, are visiting Mrs. J. G. Latham.

Mr. J. H. Shore left this morning for Roxboro.

Mr. and Mrs. B. F. McLemore spent Sunday in Hobgood.

Mrs. L. C. Skinner left this morning for Oxford to visit relatives.

Miss Minnie Stillel, of Washington, who has been attending the E. C. T. T. S., was taken sick with appendicitis a few days ago and was taken home today by her brother.

Mr. C. B. Mayo left this morning for Maysville.

Dr. C. O'H. Laughinghouse and Mr. Alvin Dupree left early Sunday morning for Kinston, where Dr. Laughinghouse assisted in the operation on Mr. Thomas Dupree for appendicitis.

Mrs. Lyman A. Cotten and child are visiting Senator and Mrs. R. R. Cotten at Cottendale.

Rev. C. M. Rock, pastor of Memorial Baptist church, left this morning to take his vacation. He will spend a few weeks in the mountains of North Carolina and Virginia.

Mr. W. M. Pugh left Sunday for Washington, at which place he has accepted a position in a large lumber plant. Mr. Pugh has lived in Greenville seven years and made many friends here who regret that he goes to make his home elsewhere.

Superintendent J. J. Laughinghouse of the state prison, came in Saturday evening to visit his family.

Miss Adah Komp returned Saturday evening from Tarboro, where she had been attending a house party.

Miss Laney Hardy, of Ormondsville, who has been visiting Miss Lena Denton, returned home Sunday evening.

Mr. William Darden, of Ayden, spent Sunday here.

Mr. O. F. Clark left Sunday morning for Hobgood.

Misses Emma Hardy and Ruebelle Evans left Sunday for a visit to Vanceboro.

Miss Mary Kennedy returned Saturday from Vanceboro.

Mr. R. D. Parrott, of Goldsboro, spent Sunday in Greenville, returning home today.

Mr. Donald Barnhill returned to Norfolk this morning after spending Sunday with his parents, Mr. and Mrs. J. H. Barnhill.

The Embroidery Club Wednesday Morning.

The Embroidery Club will meet with Miss Vernessa Smith, Wednesday morning, at 10 o'clock.

Greenville Athletic Association.

There will be a meeting of the Greenville Athletic Association in the city hall tonight at 8 o'clock. All who are interested in baseball be sure and come out. Business of importance.

### Off To State Union.

The state meeting of the Farmers' Union will be held in Salisbury this week. The delegates who left today to attend the meeting are Messrs. R. L. Little, J. Marshall Cox, M. O. Speight and T. L. Williams.

Some of the delegates expect to extend their trip to Asheville for a few days.

### LOCAL BRIEFS.

#### Pick Ups and Hand-me-Downs.

This is the last week of the summer term at the Training school. Some nice melons are coming to market.

There were quite a number of people here today to go before the board of tax equalization.

All over the county they are talking the fair to be held in November.

#### Killed By Train.

Mr. S. O. Frostick, one of our oldest and best citizens, was killed by a vegetable train on the A. C. L. railroad, which was coming in from Fayetteville. The accident occurred near the Maxton Manufacturing Company's veneering plant, where Mr. Frostick was employed. Mr. Frostick was deaf and could not hear the train approaching. Just as he stepped on the track the engine, which it is said was moving at the rate of about 20 miles an hour, struck him in the back and side, throwing him violently a distance of several yards. He was taken to the Maxton Hospital, where he died in a few minutes.—Maxton Scottish Chief.

#### Glendale Items.

GLENDALE, N. C., July 24.—Miss Juanita Manning, of Richmond, who has been visiting relatives here, returned to her home Monday. See if the boys health doesn't improve now.

Mr. and Mrs. E. S. Hardee, of Simpson, spent Saturday night at the home of Mr. T. B. Manning.

Our base ball team lost the game at Arthurs Saturday. Quite a number of people were present.

The roads were very lively Sunday.

Crops are fine.

#### Eva Tanguay's Song Free

By special arrangement with the publishers, the words and music of Eva Tanguay's famous song, "I Can't Help It," will go as a feature with every copy of next Sunday's New York World.

Hereafter the Peter Ruff Detective stories that are making such a hit will be published in the Sunday World's Magazine Section.

Another interesting feature of next Sunday's World will be "Interesting Court Decisions Which Declare That the Husband Ought to Be the Boss in His Own House."

Ask him to-day and your newspaper will save you a copy of the Sunday World.

#### A King Who Left Home.

Set the world to talking, but Paul Mathbulka, of Buffalo, N. Y., says he always keeps at home the king of laxatives—Dr. King's New Life Pills—and that they're a blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25 cents at all druggists.

## Good Printing

The character of your printed matter makes an indelible impression—good or bad—upon those who see it. More people gauge your standing—the character and quality of product—your up-to-datedness—by that, than by any other one thing. Therefore, the need for the right kind of printing.

Our hobby is good printing—no fancy, fussy printing—but good printing, with character, quality and finish—the right type, right stock, right illustrations—all blended into a strong, dignified whole—the kind that will make a good impression for you. Give us a chance on your next job.

## Reflector Company Printers

## Hatch's Ice Cream Factory

#### The Mysteries.

Once again scientific men are seeking ocular evidence of the existence of the human soul, as if it were a thing of definite substance capable of being isolated and catalogued like a bone or sinew, and still others, workers in the advanced school of biological research, are tapping the vials on the shelves of laboratories for a chemical touchstone to the secret of the creation of animal existence.

ning of life and of the phenomena attending dissolution, but it is not given to man to penetrate to finality the mysteries of nature. The geologist knows only part of the story of the earth and the astronomer offers only an imperfect chart of the worlds in unmeasured space. Science may in time find a light to dispel some of the darkness—it may even determine the existence of a "human aura," but it will not find the soul.—New York World.

## INSURANCE

It is better to have it and not need it, than to need it and not have it. We write every kind.

MOSELEY BROS.

### NEW YORK AND CHICAGO MARKETS

#### Cotton.

NEW YORK.—The cotton market broke after opening, declining five to nineteen points as a consequence of heavy liquidation and poor cables. Futures and spots were easy and quiet in Liverpool.

Opening—	
July ..	13.17
August ..	12.55
September ..	12.10
October ..	11.90

#### Stocks.

NEW YORK.—Union Pacific, the leader of the stock market at the ural list was strong. Steel, preferred, ural list was strong. Steel, preferred, 1-8; Southern Railway declined 3-8; Curb trading was heavy; American shares in London were narrow.

Closing—	
Wheat ..	88 1-4
September corn ..	62 1-2

#### Grain.

CHICAGO.—The opening of the grain market was as follows:

July ..	87
September ..	88 5-8
September corn ..	62 1-4
Closing—	
September ..	12.02
October ..	11.83
December ..	11.83
January ..	11.81

#### Pitt's Cotton Crop.

In Friday's Reflector the statement was made that last year the cotton crop of Pitt county was over 18,000 bales. The fact is that the ginners reports show over 24,000 bales. The first statement was made on the authority of a buyer.

Pitt county has made much more than last year's crop. In fact, the average is about 22,000 bales. That puts Pitt away up in the list of cotton counties.

#### Shot by Watermelon Thief.

HICKORY.—A very serious and fatal shooting scrape occurred two miles north of town Thursday night when Julius Fry was shot by an unknown party, who was stealing his watermelons. Mr. Fry heard someone in his melon patch which is near his residence, and proceeded to investigate. He discovered someone in the act of taking away some of his melons and fired a shotgun, which he had in his hand, to scare the thief away. Instead of being frightened away the rogue returned the fire with a pistol, the ball taking effect in Mr. Fry's side one-half inch below the heart. The wounded man is in a precarious condition and but little hope is entertained for his recovery. The identity of the guilty party or parties remains a mystery.

#### Two Convicted.

Dick Gause, colored, convicted at a special term of Pender Superior court at Burgaw this week of the murder in the first degree of Ned Gibson, colored, in this city, a few months ago and sentenced to be electrocuted August 25th, and J. E. Tisdale, a one-legged negro, who was convicted of being an accessory before the fact and sentenced to 15 years in the penitentiary, were brought to this city Saturday by Sheriff W. R. Atkinson, of Pender, and lodged in the county jail to await the result of the appeal of the cases to Supreme court, where the matter will be heard in September or October.—Wilmington Star.

#### Second Hand Suits Him!

Speaking of "un-kissed brides," what mother's son of us would want to marry a girl whom he knew no other fellow ever thought pretty enough and sweet enough to kiss?—Henderson Gold Leaf.

#### Notice.

We wish to announce that our land is posted and to warn people not to hunt on it. We have stock in the grounds and have had several cattle shot, supposed to have been shot by stray bullets fired by people shooting at marks. Unless this shooting on our property is stopped, we shall have to indict all persons we can catch on it carrying or using fire arms.

C. T. MUMFORD,  
S. I. DUDLEY.

#### Inoculation Checked Fever.

NORFOLK, Va.—Of forty-five typhoid fever patients transferred from the St. Helena Naval Reservation to the Portsmouth Naval Hospital only one fatality is recorded. The other patients are improving. Inoculation is extensive among the men. The authorities assert that this has checked the fever.

#### Wins the \$50,000 Prize.

EDINBURG, Scotland.—Stealing a march all competitors in the Daily Mail's \$50,000 aviation race, Vedrine was the winner in the Paris to Madrid flight. He speeded across the English borders, arriving safely here, having covered the most part of the 1010 mile circuit this morning.

#### Big Fire in Constantinople.

CONSTANTINOPLE.—After raging twelve hours, a big fire wiped out the Stamboul quarter of the city before it could be extinguished. Five thousand buildings were destroyed and ten thousand of the inhabitants are homeless. The damage done is estimated at five million dollars.

#### Would Die For Love's Sake.

RICHMOND, Va.—Beulah Binford says, "I would swear to anything to save Henry from execution. I love him more than anybody in the world." The grand jury will indict Beattie August 14th. The prisoner preserves a nonchalant attitude. Beattie is recovering his nerve.

#### Giant Ocean Greyhound.

GLASGOW.—The J. Brown Company, builders of the Lusitania, announced that the Cunards newest greyhound, Aquitania, will be 900 feet long. The Olympic, of the White Star line, is only 832 feet.

#### Negro Runs Amuck.

LA GRANGE, Ga.—Believed insane, Charley Reese, a negro, ran amuck today and killed three other negroes, wounded a fourth, blinded a white farmer with a load of shot and then committed suicide.

#### Dead Nineteen Days.

GENOA, Switzerland.—The body of Homer Dimon, nephew of Sidney Dimon, of New York, was found in a crevasse in the Alps today. He had been dead nineteen days.

#### After Murderers.

NEW YORK.—Three hundred and fifty detectives are seeking the murderers of Stanley produced a copy of the pool in the door of his uncle's jewelry store Saturday night.

#### There Now!

A lady was heard to remark the other day that she hoped Governor Kitchin would be elected senator because he had "such beautiful eyes."—Durham Sun.

#### Remarkable Longevity.

ASHEVILLE, N. C.—According to a good authority, a physician who is well acquainted with the country in question the Reem's Creek section of Buncombe county affords the most striking examples of longevity of any place in the state. Seven years ago this physician stated, there were 21 persons in this township who were over 80 years old. Within that time 16 have died leaving only 5 of the original number, but within that time two others have passed the 80 mark to the number of eight making 15 now past that age. This statement was brought about by the recent death of Capt. J. M. Davis, of this section, at the age of 87 years. The physician was able to give the names.

#### Do Or Don't Do!

Drink water and get typhoid fever. Drink milk and get tuberculosis. Drink whiskey and get jim-jams. Drink soup and get fat. Eat meat and encourage cancer, apoplexy and appendicitis. Eat oysters and absorb typhoid gastric poison germs. Eat vegetables and give the system Asiatic thin-blooded weakness. Eat dessert and die with paresis or something else. Smoke cigarettes and die too soon. Drink coffee and fall into insomnia and nervous prostration. Drink tea and get weak heart. Drink wine and so drink gout. Blame it all, if you want to keep well quit eating and drinking, smoking and loving and before breathing or touching anything see that the air and everything is perfectly sterilized.—Exchange.

5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c. 5 20—3m 8 20

ALL TAILOR MADE COAT SUITS greatly reduced. \$12 suits now \$6.90; \$7 suits now \$4.40, to close out. Other priced suits in proportion. Pulley & Bowen. 8 1-1tw

#### Lower Lemons.

If we have a new tariff the duty on lemons ought to be lowered or lopped off. Right now the California lemon growers are insisting that the lemon tariff be left alone, and urging that if the schedule is reduced American labor as well as American capital will be harmed. That has a familiar sound, but when it is remembered that the "American labor" consists chiefly of Japanese employed in the lemon groves of the Pacific coast, it is not hard to figure out who is being squeezed.

There is a duty of a cent and a half the pound on lemons now. There can be no doubt that the ultimate consumer pays this duty. California is unable to raise more than a third of the lemons required by this country but her growers were piling up good profits years ago before the Payne-Aldrich bill was enacted. Now the growers simply wish the American people to continue to make their coffers run over. We should, nevertheless, have cheaper lemons, and California can stand the competition with free lemons.—Richmond Times-Dispatch.

#### Two Ways to Increase Dairy Products

Why are our dairymen not making more profit out of their business? While few dairymen lose money, it must be admitted that the majority are not making the profits which the business should be made to yield. It seems to us that the reasons for this condition of affairs are not difficult to find. Two of these reasons stand out more prominently than the others:

First, they are not up-to-date dairy men. They are not employing the dairy knowledge which is well established and easy to acquire by those who seek it. They are not keeping the records necessary to enable them to know and dispose of the unprofitable cows; they are not building and using silos, and they are not putting on the market a high class product.

There is no longer any good excuse for this failure to avail one's self of this dairy information necessary to insure success in these lines. Any dairyman in the South can have the competent assistance of trained men to help him learn his business and conduct it on modern and profitable lines. Both National and State governments keep trained experts for this purpose, the services of whom may be had by any earnest dairyman at practically no direct cost.

The second reason why our dairymen fail to obtain adequate profits is that they buy too much high-priced feed, or if they produce feed, do it at too high cost. By giving sufficient intelligent attention to the production of feeds and by a study of feeding problems, the cost of production might be greatly reduced. Our markets are good, but our cost of production altogether too high, considering the opportunities which we possess. Better cows, more intelligently fed, and more feed produced at home at less cost, are the keys to better profits for the average Southern dairyman. Natural conditions are favorable and all that is needed in the application of dairy knowledge and good business methods.—Raleigh Progressive Farmer.

#### Twenty-five Cents.

Pays for the Carolina Democrat to January 1, 1912. This remarkably special offer is made to introduce the new Democratic periodical to the Democrats of the state. It is a strong party paper, run on broad Democratic lines, and appeals to good citizenship everywhere—"a journal of real Democracy and good citizenship," issued twice a month. It has the endorsement of leading Democrats everywhere, and its articles attract great attention everywhere. It fights the battles of the party with judgment and discretion, and appeals to the best in our citizenship. When in the hands of our people, it will be a lasting tower of strength to Democratic supremacy. Edited by Mr. R. F. Beasley, manager of the Democratic press bureau in the campaign of 1910. Send 25c for special offer till January, 1912. Agents wanted. Address the Carolina Democrat, Monroe, N. C.

#### Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. Its the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free.
