Strain Breaks Americans.

The British consul general at New York, Mr. C. W. Bennett, in a report to the London board of trade, compares American and European labor, and the conclusion he comes to is that the American worker puts more energy into his work than the European laborer in his own country, but that at between 40 and 50 years of age, when the European workman is at his best, the American frequently breaks down. Physical exhaustion, dyspepsia or nervous prostration follow, and then the man's life as a worker is done.

New French Liner Coming.

HAVRE, Sept. 9.—The new steamship Rochambeau, of the French Transatlantic line, sailed from this port today on her maiden voyage to New York. The new steamship is more than 700 feet long and rivals the most modern of the transatlantic liners in luxurious appointments as well as in size.

Farmers' Union Picnic.

On next Friday, 15th, at Quinberry, in Swift Creek township, there will be a Farmers' Union picnic. Dr. H. Q. Alexander, president of the state organization, and Mr. J. Z. Green, state organizer, will be speakers of the occasion. A large crowd is expected to be present.

GOOD ADVICE TO FARMERS.

Handle Tobacco Carefully and Don't Let it Get in too High Order.

During the last few years there has not been very much need for tobacco farmers to exercise any extraordinary care in preventing tobacco from getting in too soft order, because our falls have been unusually dry. This year it seems natural to suppose that very probably we shall have more water in the atmosphere than usual, and, consequently, there is greater danger of tobacco damaging or running red in being handled while in such soft order. I remember several years ago, about this season of the year, we had a protracted spell of wet, soft weather, and farmers could not work at anything else except grade tobacco. They did this, and in about a week or ten days, threw the whole thing on the market and ran the prices down two or three cents a pound.

Buyers cannot be expected to pay the highest prices for tobacco in bad condition. The exercise of ordinary care and prudence in grading tobacco during the next twenty or thirty days will do away with this risk entirely. At this particular time, when the atmosphere is full of moisture, farmers had better do nothing than to grade their tobacco and then fill the warehouse full of it in too high order, to be sold at lower prices. Buyers who get it run the risk at the same time of having lots of it damaged on their hands, all of which tends to lower prices and keep them lower.

O. L. JOYNER.

BOY'S LEG LENGTHENED.

Norfolk Lad Probably Cured of Deformity by Operation.

NORFOLK, Va.—Samuel T. Hand, Jr., the little son of the late S. T. Hand, of this city, has just been subjected to a remarkable operation in a hospital in Baltimore, the object of which was to lengthen one of his legs. This the surgeons succeeded in doing, lengthening the limb to the extent of 2 3/4 inches.

The little patient is getting along finely in the hospital, and the operation, it is believed, will be entirely successful and his deformity, through the shortness of one of his limbs, will be almost totally eliminated.

Noted Speakers for Appalachian Fair.

KNOXVILLE, Tenn., Sept. 9.—The management of the Appalachian Exposition has everything in readiness for the opening of the annual exhibition next Monday. Governor Hooper and his staff will be here for the openings and a big parade will be a feature of the programme. President Taft is scheduled for an address at the exposition on September 18. Other noted speakers who will be heard during the three weeks of the show are William J. Bryan, Governor Harmon, of Ohio, and Champ Clark, of the house of representatives.

Busy Week For Rival Leaders.

OTTAWA, Ont., Sept. 8.—With but one full week to run before the day of election, the political campaign in the old Dominion will be carried forward with a rush during the ensuing seven days. Both parties have prepared to put every available speaker in the field. The Liberal standard bearer, Sir Wilfrid Laurier, will put in the week in Quebec. Mr. Borden, the opposition leader, will continue his campaign in Nova Scotia.

Milwaukee Bride to Live Abroad.

MILWAUKEE, Wis., Sept. 9.—Two thousand guests attended the wedding this afternoon of Miss Ruth Mitchell, daughter of the late United States Senator John L. Mitchell, and William van Rheinfelt van Breda of London. The wedding took place at Meadowmere, the country home of the bride's mother, on the outskirts of Milwaukee. The bridegroom is a practicing lawyer in London, where he and his bride will make their home.

Oregon Fair Opens at Salem.

SALEM, Ore., Sept. 11.—The marvelous products of the Oregon farm and orchard are displayed in dazzling profusion at the Oregon state fair, which opened today under most auspicious conditions. Every department of the exhibition is well filled. The speed programme was inaugurated this afternoon and will continue until the fair closes Saturday.

WAKE FOREST COLLEGE OPENING

THE ATTENDANCE VERY LARGE.

Changes in The Faculty—Plans for The Session's Athletics.

WAKE FOREST, N. C., Sept. 11.—Wake Forest College opened Tuesday, September 5th, with the largest total registration in the history of the college. There was quite a number of old and new men present in chapel on the first day.

The exercises on Tuesday morning at chapel, were conducted by the college Chaplain, Rev. Walter N. Johnson. He delivered a splendid address on "Knowing and Undertaking."

Dr. Poteat also spoke to the new men, explaining the ideals and purposes of the college.

There has been one change in the personnel of the faculty, Dr. Jay B. Hubbell has been elected associate professor of English language to succeed Dr. Edward Payson Morton. Dr. Hubbell is a graduate of Richmond College, having taught for one year in the University of North Carolina, and having taken special work at Columbia University. Wake Forest is fortunate in securing the services of Dr. Hubbell.

Miss Iola Temple, head nurse of the Morehead City hospital, has been elected to succeed Miss Halsey as head nurse of the college hospital, while Mr. E. B. Earnshaw, the bursar, has been made superintendent of the hospital.

Mr. Herbert Poteat, who has been recently elected to the chair of Latin in the college, as successor of the late Prof. J. B. Carlyle, has been spending the summer at Wake Forest. Prof. Poteat has been working on his entries for the degree of Ph. D. at Columbia University. He will leave shortly to resume his engagement with the Hotchkiss school. Having been granted a year's leave of absence by the board of trustees, he will not take up his work here until the beginning of the season 1912-'13. There is at present under construction here a fire proof vault adjoining the business office for the safe keeping of the college records and other valuable books and papers.

The college is repairing and putting in a better system of water works, which will add considerable improvement to the college.

Tuesday morning after chapel exercises, there was a call meeting of the student body for the purpose of stirring up interest and enthusiasm for foot ball this year. A number of speeches made by several old men, which set on fire the hearts of many of the fellows. With this spirit and the coaching of Thompson, who for the past five years has helped A. and M. to put out a winning team, Wake Forest is hoping to follow in the steps of A. and M. and show the colleges of the state what she has and what she can do. Coach Thompson had a large number of men on the athletic field this afternoon. He has gone into the work with his heart and he is also making the men get down to business at once—no play now, but hard work and training.

Up to this date some over three hundred and fifty students have registered, and they are still coming in on nearly every train. Indeed, the prospects are that Wake Forest will have a larger student body this year than any previous year.

Misses Dora and Louise Haynes, who have been visiting Mrs. Crozier, returned to their home in Augusta, Ga., today.

Managers Marton, of foot ball, Turner, of basket ball, Burton, of base ball, and Langston, of track, met tonight with the alumni athletic committee to make plans for this year's athletics. It will be announced later as to what these will be.

Miss Louise P. Hines, who is now at Philadelphia doing special study, was elected by the board of trustees today as librarian of the college.

Appalachian Exposition Opens.

KNOXVILLE, Tenn., Sept. 11.—The Appalachian Exposition, devoted to a display of the resources and industries of the entire Appalachian region, was opened in Knoxville today, to continue until the end of September. The opening was attended by Governor Hooper and his staff. President Taft, Governor Harmon, of Ohio, William J. Bryan and Champ Clark are scheduled to speak at the exposition later in the month.

NORTH CAROLINA GET MORE HONOR

THE FIRST GUN AT YORKTOWN.

Startling Gann, of Caswell, Fired the First Cannon at Yorktown.

RALEIGH.—Mr. J. H. Kerr, of Warrenton, solicitor of the Second Judicial district, has been in Raleigh this week attending the Supreme court. Upon the occasion of a visit to his native county, Caswell, a short time ago, Mr. Kerr went out to the home of LaFayette Murray, who lives three miles from Yanceyville and who married a cousin of President Poteat, of Wake Forest College. On Mr. Murray's plantation there is an old cemetery, which has been preserved in good condition since the War of the Revolution, and Mr. Murray took Mr. Kerr out to see this graveyard to show him a monument over the grave of a man whose remarkable deeds seem to have been overlooked in North Carolina. The inscription on the monument is as follows:

"Here lies the remains of Startling Gann,

(Then the place and time of his birth and death.)

Who fired the first cannon at Yorktown when Cornwallis surrendered to General Washington."

Mr. Kerr said that the Ganns were an old modest family who long lived in Caswell county. In the earlier days they were among the largest land owners in the county, and were connected with the Yanceys, Kerrs and other influential families and have descendants still living in the county. In those days Mr. Kerr said people were more modest than they are now, and this inscription would not have been put on the monument unless it had been true, and it shows that Caswell county, among its other great contributions North Carolina, produced a soldier who deserved to rank with Wyatt at Bethel, Bagley at Cardenas and the invincible North Carolinians who gave the State glory at Bethel, Gettysburg, Chancellorsville and Appomattox. In addition now to the claim that North Carolina makes of being "first at Bethel, furthest to the front at Gettysburg and last at Appomattox," we can also add "First at Yorktown," which gives North Carolina primacy in every great war in which the country has been engaged from the War of the Revolution to the Spanish-American War.

THE WYATT MONUMENT.

Will be Unveiled in November. The Model for Approval.

ROCKY MOUNT.—Confederacy monument to private Henry L. Wyatt of Edgecombe county, the first soldier on either side to fall in battle in "The Great War," will be erected in Capital Square, Raleigh, and unveiled some time in November. The model of the monument by Gutson Burglum, the famous sculptor of New York, left Rocky Mount for Raleigh today.

The plaster model was sent to Capt. John L. Thorpe, of this city, one of Wyatt's comrades-in-arms, and one of the members of the committee which has the work in charge. After being approved by him and other members of the committee living in Rocky Mount and its vicinity the model was sent to Raleigh, where the members of the various committees in charge will pass final judgment on it.

Pension Fund for Brewery Workers.

CINCINNATI, O., Sept. 11.—If plans discussed here today at a meeting of the executive committee of the United Brewery Workers of America are carried out, the near future will see the establishment of an accident and a pension system for the brewery workers of the entire country. The plan has been under consideration for several years and is said to have received the endorsement of the leading brewers of America. It is proposed to raise the fund through contributions of both employer and employe.

Exposition of Inventions.

ST. LOUIS, Sept. 11.—An International Exposition of Inventions, the first exhibition of its kind in America, opened in the Coliseum in this city today and will continue through the week. Railroad devices form the most important part of the exhibitions.

GREAT MEAT RATE INQUIRY.

One of Most Important Freight Investigations Ever Made.

OKLAHOMA CITY, Okla., Sept. 11.—What is regarded as one of the most important freight rate investigations ever conducted by the Interstate Commerce Commission was inaugurated here today with the initial hearing for the taking of evidence in regard to the rates on live stock, packing house products and fresh meats. The inquiry is to be a wide one, the purpose of the commission being not only to secure a parity of rates, but to establish by definite order rates which the commission shall regard as reasonable and not unjustly discriminatory. The investigation will affect directly not only the live stock and packing house product rates throughout the central west, but also those east of Chicago and west of Denver.

The investigation is based upon complaints of the rates filed with the Interstate Commerce Commission by the Railroad Commission of Oklahoma, the Texas Cattle Raisers' Association, the American National Live Stock Association and others interested in live stock and meat product shipments. Following the taking of evidence in this city the commission will hold hearings in other cities, including Fort Worth, Kansas City and Chicago. A final determination of the proceeding is not expected before next spring.

SEE THE COMET NOW.

Visible To Naked Eye Almost Directly Overhead.

CAMBRIDGE, Mass., Sept. 9.—Brooks' comet, on which the astronomers of the world are focussing their telescopes is now visible to the naked eye and is increasing in brightness. A bulletin just issued by the Harvard observatory states that the comet may be easily followed, notwithstanding its rapid motion, due to its proximity.

On September 17 the comet will be at its least distance from the earth, at which time it will be only 45,000,000 miles away.

FAIR OPENS AT SYRACUSE.

Value of Agricultural Education Chief Point to be Impressed.

SYRACUSE, N. Y., Sept. 11.—The value of agricultural education is the chief point to be impressed upon visitors to the New York state fair, which was opened to the public today. To stimulate a greater interest in improved agriculture one hundred boys from the principal agricultural counties will attend the fair at the expense of the state. In all of its numerous departments the fair this year is unusually attractive. President Taft is scheduled to deliver an address at the fair grounds next Saturday.

May Create National Park Bureau.

LIVINGSTON, Mont., Sept. 11.—The superintendents of the various national parks, with Secretary Fisher, Assistant Secretary Thompson and other officials of the department of the interior, have assembled in the Yellowstone National Park for 6 days' conference that is expected to result in important changes in the methods of administration of the national parks. The conference will be devoted to a thorough discussion of Secretary Fisher's plan to place the reservations in charge of a separate bureau, with a commission at its head.

Biplane Smashes Senator's Hat.

CHICAGO.—Senator William A. Lorimer had a narrow escape from death or severe injury Monday at a North Side picnic, when an unmanageable biplane skimmed through the air, grazed his head and demolished his hat. The biplane scattered the crowd and wrecked itself hopelessly against a tree. The aviator was slightly bruised.

Dynamite Plot Discovered.

BOSTON.—The police are investigating what appears to have been an attempt to blow up the Charleston Navy Yard with dynamite. Three large sticks of the explosive were found yesterday secreted near the frame work of a huge floating-derrick. The plot to wreck the plant might have caused two hundred deaths.

NORTH CAROLINA HAPPENINGS

GATHERED FROM EXCHANGES.

And Briefly Stated for The Reflectors Busy Readers.

The army worm has appeared in Nash and Edgecombe counties and in the territory the pest has covered the cotton which has been damaged fully 50 per cent, according to the reports received here today.—Rocky Mount Record.

Yesterday afternoon during the heavy rain and electrical storm, the lightning struck several telephone poles and a fence about two miles from Bridgeton, almost demolishing the poles and setting fire to the fence.—New Bern Sun.

The check flashers, W. H. Hodges Aldrid and Coon, had a hearing at court this week and were all found guilty. Hodges was sent to the penitentiary for five years and six months, while Aldrid and Coon get five years each in the penitentiary.—Dunn Guide.

Through Judge G. H. Hastings, president of the Winston-Salem Baseball Association, the local fans yesterday expressed their appreciation of the services of Pitcher Swindell in winning the pennant for the Twin-City in the season just past, the appreciation taking the form of a Howard watch of superior workmanship.—Winston Journal.

NEW BERN.—S. E. Sullivan's lumber plant, located just across the Trent river from this city, together with all the machinery and several thousand feet of lumber, was totally destroyed by fire last afternoon about 4 o'clock. The fire was of unknown origin. No insurance was carried on the building or its contents. The loss is estimated at \$10,000.

In the trial of Everett Justice and Neil Plemmons, two white chauffeurs, charged with assault upon two young colored chauffeurs, it was brought to light in police court yesterday that the white chauffeurs had formed a club for the purpose of putting all the colored chauffeurs out of business. The defendants were sentenced to the county jail for fifteen days each, from which sentence they appealed to the Superior court.—Asheville Citizen.

CHANGE IN COMMISSIONERS.

The personnel of the Greenville water and light commission underwent a change a few days ago. For the past three years the commission has been composed of Messrs. H. A. White, R. L. Humber and C. O'H. Laughinghouse. The term of the first two having expired, the board of aldermen recently elected Messrs. D. S. Spain and L. W. Tucker to succeed them, and the new members have entered upon their duties.

It can be said of the retiring members of the commission that they served well. Though but little remuneration came for their services they gave much personal attention to the conduct of the municipal plants placed in their charge. When they took charge, three years ago, the plant had not reached a paying basis, but in these three years its physical condition has been vastly improved, the service extended and made better all the time, and the net earnings for the time have been something over \$6,000. They turn over the plant to their successors in good condition. The thanks of the town is due them for their faithful administration.

The Greensboro Telegram which a few months ago was bought by Mr. Fain and changed from a morning to an evening paper, has now been purchased by The Daily News and will be merged into that paper.

Governor Kitchin on Saturday appointed Hon. H. A. Foushee, of Durham, as judge of the ninth district to succeed Judge J. Crawford Biggs, resigned. Nothing the matter with that appointment.

John Jacob and Madeline have at last been married, two preachers having been hired for a thousand dollars each to tie the knot. The girl sells herself and John is willing to pay a big price.

That Brooklyn confectioner whose name was O. H. Hell, did not like to be advertising "Go to Hell for your candy and peanuts," so he asked the court to change his name to Otto Hill.

We would like to be there but cannot, yet we are expecting to hear big things from the Charlotte meeting Tuesday to organize a bock home association.

Everybody feels sorry for Beattie's aged father, but a murderer should not be allowed to escape punishment through sympathy for others.

As the Beattie trial is over the papers are ready for something else that will furnish copy.

Not A Word Of Scandal.

W. P. Spangh, of Manville, Wyo., who marred the call of a neighbor on Mrs. said: "she told me Dr. King's New Life Pills had cured her of obstinate kidney trouble, and made her feel like a new woman." Easy, but sure remedy for stomach, liver and kidney troubles. Only 25c at all Druggists.

The recorder of Charlotte has it in mind to break up blind tigers in that city, judging from the way he slapped \$500 fines on some of them.

Road Building by Townships.

There is more good roads talk going on just now all over the country than ever before. It means that folks are thinking about better roads. Mr. J. M. Fairley, chairman of the Monroe township commissioners, and a man who puts a lot of good thought to road improvement, has been down in his native county, Scotland, where that roads used to consist of a streak of sand bed, over which the tolling animals crept, and a streak of axle-deep mud, but now where the roads are firm, smooth, well-bridged and a joy forever. Mr. Fairley naturally enquired about how the money was raised to build those good roads and he found that in Scotland county each township builds its own roads—no county affair about it—and his experience with chain gang and observation of county-wide and township system of building roads convince him that the township way is the best way, for by that system there is no quarrel about showing partiality to favorite sections in the county in working the roads. Let each township issue road bonds and work its own roads is Mr. Fairley's suggestion.—Monroe Enquirer.

Horse Markets Gaining.

Reports from the Western markets gives some highly interesting information about the condition of the horse industry throughout the country. It would seem that despite the motor truck and other self-propelled vehicles, the demand for the horse is not only holding its own, but actually increasing to an almost incredible extent.

The official semi-annual stock report sent out recently from St. Louis shows an enormous increase in the number of horses sold this year in comparison with 1910. During the first six months of 1911 receipts at St. Louis were 94,000 head as against 60,000 for the same period last year. At Chicago, 68,000 as against 52,000; at Kansas City, 48,000 as against 35,000, and at St. Joseph 23,000 as against 13,000. In the five leading markets in the country the total gain was 74,000 head or about 45 per cent. And still some people wonder why horses are so high in prices.—Exchange.

The Summerless Year.

The year 1816 was called the "Year without a Summer." Spring came that year, but in its faintest form. Snow, cold rains and winds were incessant. It was the first of June before the frost left the ground. The farmers planted their crops, but the seed would hardly sprout, and when they came to the surface there was not heat enough to make the frail plants grow. It is recorded that during the month of June birds froze to death in the fields and woods. Small fruits, such as there were, rotted on the stem, there being no birds to eat them. But little corn matured. Only in sheltered spots were good-sized roasting-ears to be found. Frosts prevailed every month in the year, and almost daily. The people, after repeated hopes of a change for the better, settled down almost in despair. The like of it was never known in the country before, and, fortunately, has never been repeated.—Exchange.

HAPPY RESULTS.

Have Made Many Greenville Residents Enthusiastic.

No wonder scores of Greenville citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Greenville by Doan's Kidney Pills.

Mrs. M. L. Mangum, 416 Dickinson ave., Greenville, N. C., says: "Doan's Kidney Pills are by no means a new remedy to me. I have used them on different occasions and have found that they are a preparation of great merit. Kidney complaint and back-ache made me miserable and it was not until I procured Doan's Kidney Pills from the John L. Wooten Drug Company, that I found relief. Recently I again got a supply of this remedy and it helped me as promptly and effectively as before."

Just Be Glad.

O heart of mine, we shouldn't worry so!
What we have missed of calm we couldn't
Have, you know!
What we've met of stormy pain,
And of sorrow's driving rain
We can better meet again,
It is blow.

We have erred in that dark hour,
We have known;
When the tears fell with the shower,
All alone—
Were not shine and shower meant
As the gracious Master meant?
Let us temper our content
With his own.

For we know not every morrow
Can be sad;
So, forgetting all the sorrow
We have had,
Let us fold away our fears,
And put up our foolish tears,
And through all the coming years
Just be glad.

Archbishop Ireland's Birthday.

ST. PAUL, Minn., Sept. 11.—Archbishop Ireland reached his seventy-third birthday anniversary today and was the recipient of messages of congratulation from friends and admirers in many parts of the world. No formal celebration of the anniversary was held. Later in the present year, however, the St. Paul prelate is to be the central figure in an elaborate celebration that will mark the golden jubilee of his ordination as a priest.

Race Pollution.

The gathering together of the ends of the earth in a Universal Races congress in London promises some interesting speculations on racial pedigrees. Sir Harry Johnson has declared war on the Celtic fringe by the appalling suggestion that Ireland, Wales and even Scotland betray the existence of negro and red Indian blood. And he seems to think it an excellent thing. But it is extremely doubtful whether there is an unpopulated race in the world. White have divided the brown and black strain during the last 10,000 years, and all across the continent of Europe the subpresence of the negro type is traceable. It may be that the dominance of the British Isles is the scene of things is due to ancient intermixtures of proto-Caucasian and Mongol.—London Chronicle.

NEWS AND BUSINESS NOTES.

Something of Interest Always Going On.

WINTERVILLE, N. C., Sept. 11.—Mr. D. S. Chapman, of North Wilkesboro, came in Wednesday to spend a few days with his parents, Mr. and Mrs. R. G. Chapman.

Farmers should keep a bank account, because their bank deposit book affords them a complete record of their cash receipts, while the stubs of their check books are a perfect record of expenses and payments. Paying any debt with a check is much safer than with the money. Bank of Winterville.

Messrs. J. F. Harrington and A. W. Ange attended the tobacco sales at Greenville Thursday and Friday.

Come to see Harrington, Barber & Co.'s line of dress goods. They are in a better position to suit you than ever before.

Mr. M. B. Bryan, of Kinston, spent Thursday here.

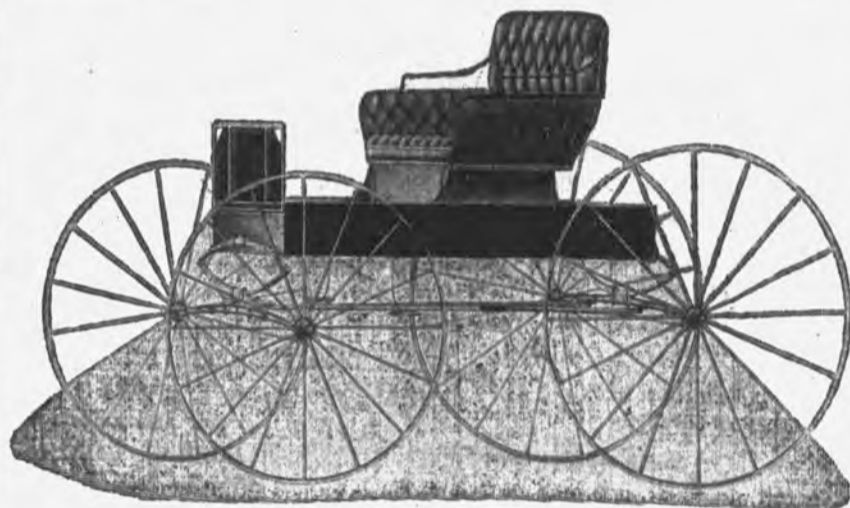

A new lot of shoes and boots have just arrived at A. W. Ange & Co.'s.

Mrs. J. L. Rollins returned Thursday from a visit near Kinston. All of the latest things in the new dress goods line at Harrington, Barber & Co.'s. They have the panama, broadcloth, suitings, voiles, and the danish poplar cloth.

Miss May Smith, of Ayden, is spending a few days with friends in town.

Taxed the Beards.

Peter the Great of Russia levied a tax on beards. Finding that his subjects were disposed to keep their beards at any expense of money, he ordered all those he found bearded to have the hair plucked out with pliers or shaved with a blunt razor. Russia then became a beardless nation.

NORTH CAROLINA HAPPENINGS

(Continued from 1st Page).

ELIZABETH CITY—The ruins of an Indian village have been found near Nag's Head and many queer relics have been unearthed. The most remarkable things found were a plate and saucer, upon which were English designs.

DURHAM—The latest on the court house situation, one that appears to have wrapped up in it the real issues of next year's campaign, is that instead of accepting the selection of the Parrish warehouse site for its location, the county commissioners will be asked to order an election to determine whether any at all shall be built.

STATESVILLE—The Iredell county Farmers' Union was in special session in Statesville Wednesday. Various matters of importance to the members of the organization were before the body, but little of interest to the general public was done. The Iredell union has cotton warehouses in Statesville and Mooresville, and the matter of enlarging the Statesville warehouse was considered at Wednesday's meeting and between 300 and 400 shares of stock, at \$5 a share, were subscribed to the fund with which it is expected to build the addition to the warehouse and aid more farmers in holding their crop until the markets suit them.

Consumption

Checked and in Early Stages, Cured by

MILAM

the great Reconstructive tonic and blood renovator

We do not set forth MILAM as a cure for consumption, but it has proven so beneficial to such patients that we believe, and are supported in our belief by a practicing physician, that MILAM will arrest incipient tuberculosis or consumption in its early stages. We know that it greatly benefits even those in the advanced stages.

Read the following

Scrofulitic Consumption

City of Danville, State of Virginia—To-wit: I, Edmund B. Meade, Notary Public in and for the City of Danville, State of Virginia, do hereby certify that Abram Word, of Danville, Va., to me well known, did appear before me, and being duly sworn, deposed and says as follows:

"For ten years prior to August, 1909, I was under the care of a regular physician. Last spring this doctor told me he could do me no good, and I tried another for four months without receiving any benefit from him.

In August, 1909, I began taking Milam, and am now able to do my work without difficulty, my appetite is good, and I can eat and digest any food.

My trouble was said to be Scrofulitic Consumption, and I was wasted away to a shadow. I was so weak that I could hardly walk when I commenced on MILAM. I regard MILAM as a truly valuable remedy in all cases of blood trouble, whether eruptive, or proceeding from a lack of full, free circulation.

I have recommended MILAM to about twenty of my friends, and so far as I have seen or heard from them, they all speak in the highest terms of it, and are recommending it to their friends.

It was particularly beneficial to me in aiding digestion and building up an appetite." (Signed) ABRAM WORD.

In witness to the above, I have hereunto set my hand and the seal of my office, this 23rd day of March, A. D., 1910. EDMUND B. MEADE, Notary Public. My commission expires Jan. 14, 1914.

FARMERS' UNION

Adopts Resolution Relative to Six Per cent. Tare.

Whereas, The cotton buyers in the great centers of trade, so fix the price on all cotton they buy that six per cent. of the gross weight is allowed for tare, and,

Whereas, an effort is being made by buyers and exporters to fix the maximum weight of bagging and ties at 22 pounds for a 500-pound bale, which is less than six per cent allowance, therefore,

Be It Resolved, That we, the members of Pitt county division of the Farmers' union, condemn this action as unjust to the cotton growers, and hereby pledge ourselves individually, and collectively, to use a sufficient quantity of bagging and ties to amount to the six per cent. tare.

J. C. GALLOWAY, J. L. EVANS, Committee.
