

FACTS ABOUT NORTH CAROLINA

AND HER GREAT STATE FAIR.

Statistics of the State That Are Interesting.

We have received from the North Carolina Agricultural Society a striking little booklet that is a bright gem in its class. It is tiny, but full of facts and figures about North Carolina and her great state fair that will be held for the fifty-first time at Raleigh on October 17, 18, 19, 20, 1911. There are only eight small pages and a neat, very tasty cover, all of a size to fit in the ordinary envelope. Cuts show a birdseye view of the fair grounds while the fair is going on and Lincoln Beachy flying in his Curtiss aeroplane over Niagara Falls.

There is an appreciation of North Carolina that carries a point in every paragraph, a fact in every sentence, clothed in a style as attractive as the story tells, and all in one small page.

The marvelous progress of the state is told in a comparative table of crop figures for 1905 and 1910, and a similar alignment of statistics of the manufacturing industries. In addition there are comparative values of farm land and buildings, implements and machinery, labor and fertilizers.

In a brief review of the work of the state fair the booklet calls attention to the fact that it is chartered without capital stock, its real property being held in trust to secure a bonded debt, any profits made going into a surplus which is spent in improvements and increasing premiums. The construction of the reinforced concrete agricultural building at a cost of \$7,000, the new building for women, and other betterments last year are touched upon, as well as the modern poultry building to be ready for the coming fair. Figures show 83 solid carloads of exhibits last year against 42 in 1909; 3,501 separate entries against 1,201, and \$8,191.54 net premiums paid against \$6,598.97. As evidence that the fair is recognized as one of the greatest gathering points for pure-bred stock in the South, mention is made that the Percheron Society of America is this year offering its special prizes at the Raleigh fair, which is one of only four Southern fairs to be so honored. It is stated that by resolution of the executive committee all questionable shows and doubtful games have been forbidden the grounds.

On the amusement side there is borne the news that the fair has contracted with Glenn H. Curtiss Co. for aeroplane flights each day of the fair on a guarantee-to-fly basis, the aviator to be Lincoln Beachy or Hugh Robinson. Beachy is the birdman who flew under the bridge at Niagara, while Robinson did likewise at Cairo, Ill., under a railroad bridge over the Ohio. These two were the only flyers to finish in the cross-country race from New York to Philadelphia, and both were stars at the Chicago aviation meet, where Beachy made a new record for altitude—11,578 feet.

Another attraction mentioned is California Frank's Wild West show with its fifteen carloads and 200 people. Then there is The Great Calvert, star high-wire specialist. Special mention is made of the miraculous painting, "In the Shadow of the Cross," to be exhibited for the first time in the South. It has figured at the great world expositions and been a topic of discussion among clergymen and scientists.

But aside from all this little book is valuable for the information it contains, and is well worth preserving. Write for a copy to the State Fair, Jos. E. Pogue, Secretary, Raleigh, N. C.

BENEFIT SHOW.

End of Century Club Will Operate Gaiety Theatre Thursday Night.

The End of the Century Club are preparing a delightful program of pieces by home talent to be rendered in connection with the regular motion picture show at the Gaiety Theatre Thursday night for the benefit of the public library. Mrs. Cherry will recite some of her popular selection; Mrs. Hall will sing and others not definitely known will contribute to the entertainment. Everybody should go and help in one way or another to make this show a benefit, indeed.

TUBERCULOSIS.

For quite a while our state has been doing all it could to stamp out this dread disease. Among other things it has published and sent out free literature for the education of the people. Much has already been accomplished along this line, but, alas! how many have never been reached, how many have never been helped? Our state must have the cooperation of its people to ever accomplish the results desired. And no organization can do more than a band of united, determined women. Perhaps you are not interested, you say, "Oh, well, my people, or my family are well and strong; there is no need for me to do any thing." Think again, are you sure you can say that six months from now? And does not the health of your neighbors concern you?

The Civic League has been working for a year or more to arouse some interest in the cleanliness and general sanitation of our town. We have always had from our mayor and other town officials the heartiest cooperation, but we did not have as many women as we wanted, because we wanted every woman in town.

The league will meet for re-organization Thursday afternoon at 4:00 o'clock at the home of Mrs. L. C. Skinner. We ask every woman who is interested in the welfare of her town to come to this meeting. If your neighbor does not take this paper, won't you tell her of this meeting and bring her?

In addition to our local work, it is our aim to take up the study of tuberculosis; and at an early date we will have Dr. Rankin, of Raleigh, to address us. Won't you come and join us?

O. clubs. The organization, which was first formed in 1869 at Iowa Wesleyan University, is the largest woman's secret society in the world. No one except the members know what the letters P. E. O. mean. The initial session of the convention this afternoon was devoted to the exchange of greetings and the work of organization. Mrs. Winona E. Reeves, of Keokuk, Iowa, the national president, occupied the chair.

Oklahoma State Fair.

OKLAHOMA CITY, Sept. 26.—The Oklahoma state fair opened today with a large crowd and with practically every foot of available space in the fifty-eight buildings filled with exhibits. Horses, cattle and other live stock exceed in number and quality all of the displays of previous years, while in the agricultural, mechanics and domestic art halls the exhibits are unusually attractive. The fair will continue until October 7.

THE FARMERS WILL HOLD.

Dr. Alexander Expresses Belief That Farmers Will Hold for 15 Cents.

"Will the farmers of North Carolina hold their cotton for 15 cents?" Dr. H. Q. Alexander, president of the state division of the Farmers' union, was asked Saturday afternoon.

"That depends," Dr. Alexander responded. "Of course there are some who cannot hold. They have incurred obligations which have to be met and there is nothing for them to do but dispose of enough of their crop to get rid of pressing obligations. Of the remainder, however, I am confident that the great majority will hold their cotton for 15 cents. The organization is making a constant and I believe an effective campaign of education with the view to bettering the condition of the farmers, instructing them as to the production and marketing of their crops and otherwise looking after their best interests.

"I have received several inquiries, mostly from officials of county locals throughout the state, asking about the financing of the crop. My replies to all these is to have the county locals appoint influential committees to wait upon the local banks to see if funds cannot be secured at home for the financing of the crop, the securities being the warehouse receipts. I have added that if sufficient accommodations cannot be secured, then to communicate with me so that I can get in touch with others higher up."

Dr. Alexander is assured that the farmers of the South can realize, on their crop if they will only market it slowly and judiciously.—Charlotte Observer.

Practically Every Available Foot of Exhibition Space Occupied.

BISMARCK, N. D., Sept. 26.—Following months of preparation North Dakota's big industrial exposition was opened here today with practically every available foot of exhibition space occupied. TERRIBLE EXPLOSION ON FRENCH BATTLESHIP

THREE HUNDRED LIVES LOST.

Battleship is Torn Apart and Destroyed by Explosion.

TOULON, France, Sept. 26.—The battleship *Liberte* was torn apart and totally destroyed by an explosion of her magazines today. Three hundred officers and men were killed. The battleship *Republique* was badly damaged and the battleships *Democratie* and *Verite* also suffered severely from the masses of twisted iron and armor plate that were hurled upon their decks.

This is the greatest disaster that has ever fallen upon the French navy and in magnitude is almost without precedent in the annals of the world's fighting ships. The grief which prostrates the fleet and nation is made more intense by the memory of the recent review here, a notable display of France's naval greatness, in which the doomed ship was one of the finest figures.

BLUE AND GRAY REUNION.

National Reunion of Civil War Survivors Begins Tomorrow.

MEMPHIS, Tenn., Sept. 26.—A great national reunion of Civil war survivors is to be held in this city tomorrow in connection with the annual fall festival. It is to be a reunion of the blue and the gray and from as far south as Texas and as far north as the New England states the old warriors have journeyed to Memphis to mingle together in peace and extend fraternal greetings to each other, looking back at the past with reverence and resolving to leave a heritage of a united country. The city presents a breezy, gay appearance. On all of the principal streets masses of bright-colored bunting and great clusters of waving United States and Confederate flags can be seen. By agreement of the local members of the Confederate veterans and the Grand Army, the Stars and Stripes and the Stars and Bars are everywhere entwined and equal prominence given to both.

The campaign which closed today has been one of the most spirited in the history of the city. Both the advocates and opponents of the proposed change express confidence in the result of the election.

A GREYNA GREEN AFFAIR

Greene County Couple Marry in Kinston.

Preferring matrimony to a school session's interruption, Mr. G. M. Holden and Miss Virginia Wood Dail, of Snow Hill, surprised their friends this morning by stopping over in Kinston and being married, the ceremony being performed in the parlors of Hotel Tull by Rev. F. S. Love, pastor of the Methodist church of this city.

Miss Dail left home this morning on her way to the East Carolina Teachers Training school at Greenville. Mr. Holden arranged to come along with her, and, upon arriving in Kinston, the couple secured a license and were married in the hotel parlors, several of their Snow Hill friends being present and witnesses.

The groom is a young traveling man of Snow Hill, and handles goods for a Baltimore house. He is well known in this city, where he has many friends. The bride is the daughter of Mr. W. H. Dail, of Snow Hill, and is one of Snow Hill's most popular daughters. Mr. and Mrs. Holden spent the day in Kinston and returned to Snow Hill this evening for congratulations of their friends and relatives.—Kinston Free Press, 25th.

The bride is a sister of Mrs. Charles Laughinghouse and Messrs. W. H. and George Dail, of Greenville, and is well known here.

DISPENSE WITH MOURNING

Southern Physician Urges That Black Clothes Be Abandoned.

"A Southern physician of recognized skill and eminence urges that all outward symbols of mourning should be abandoned," says *Munsey's Magazine* editorially. "For many years he has expressed his views. He has won over a large number of people who see no reason why the heart should advertise its sorrow by the conspicuous insignia of gloom.

"There are, or have been, peoples wiser in their generation. The Romans of the days of the republic wore blue as a sign of mourning. It is the proper thing in Asia Minor now. The Turk mourns in violet, and the Persian in pale brown. Until a French queen set the present fashion in the latter half of the fifteenth century, white was the color of grief in Europe, as it is now in China."

TAFT AT HUTCHINSON.

A General Closing of Business Houses All Along The Route.

HUTCHINSON, Kas., Sept. 26.—All Hutchinson lent itself today to the reception of President Taft, who arrived in the city this morning for a visit of more than twenty-four hours. In honor of the occasion there was a general closing of all business houses and along the route of the procession from the centre of the city to the state fair grounds, where the president reviewed the procession and delivered an address, residences and stores were covered with decorations in the national colors. The president and several visiting governors, with a large military escort, headed the procession, which was nearly ten miles in length and comprised many elaborate floats illustrating the history of progress of Kansas since her admission to statehood, fifty years ago.

SPECIAL MENINGITIS CURABLE.

Rockefeller Institute Discovers Serum That Will Save Life.

"Let us take one of the best known examples of the Rockefeller Institute's work, Dr. Flexner's investigation of epidemic spinal meningitis, and his discovery of an antiserum for its cure," writes Walter Pritchard Eaton in *Munsey's*, for October. "That discovery alone has already saved, as the figures show, hundreds of human lives, and will go on saving thousands more. It was the result of long, patient, careful experiment with animals, chiefly monkeys, in the laboratory.

"Perhaps two hundred animals were sacrificed in all. Without such sacrifice the discovery could not have been made. Unless you consider, then, a monkey's life as valuable as that of your son or daughter, it is hard to see how you can argue against vivisection and animal experimentation.

"The mortality was as high as eighty per cent before Dr. Flexner's discovery. It was truly a deadly malady, and still remains so unless diagnosis is prompt and the antiserum injection made early."

MINNESOTA CLUB WOMEN.

Seventeenth Annual Convention of Women's Clubs.

SAUK CENTER, Minn., Sept. 26.—Sauk Center today is teeming with women from all over the state, who have come here to participate in the seventeenth annual convention of the Minnesota Federation of Women's Clubs. We hope the advance in price of wheat will lead Pitt county farmers to plant more of it. This county can raise wheat all right.

There needs to be a stronger public sentiment against the selling of whiskey. Blind tigers should be made to fear to do business.

Speculating in money is not doing the community the good that would come to it if the money was invested in manufacturing enterprises.

Beattie is promising to give out a statement soon that will create a sensation. Better cut it out. He has already had a chance to tell it to the judge.

If everybody else who ought to be doing so, tried as hard as the newspaper men to make business for Greenville, you would soon see more business coming here.

The game warden of Craven county had some hunters arrested for shooting squirrels out of the season. That is the way to go after them if the law is to be observed.

With two circuses, a tent minstrel show and a carnival, all inside of a month and a moving picture show every night, Greenville ought not to complain of having nothing to see.

Kansas was so glad to see the president that warring Republicans forgot their differences for the time and all joined in a big reception. That was just one of the things looked for in planning the trip.

Only a few days ago there was a boost that the large holdings of the Louisiana sugar planters would put a check on the way the sugar trust was advancing prices. Now it turns out that those same planters have sold out their holdings to the trust.

France has suffered a great disaster in a fire and explosion that destroyed one of her best battleships and caused the death of more than three hundred of the crew. It recalls what happened to the United States in the destruction of the Maine in Havana harbor.

A hearty welcome to the faculty and students of East Carolina Teachers Training school. May those who are returning, as well as those who are here for the first time, find this the best and happiest year of their school life. We are proud that there is such a school here to offer them, and we rejoice that they have come to help make the school a success.

Not long since it was told how the town of Hickory had raised a fund of \$200,000 to secure manufacturing enterprises. Now it is stated that photographs have been taken of the best farming scenes in the county, Catawba, and that these will be shown on moving picture slides at a land and irrigation convention to be held in New York. No wonder Hickory and Catawba county are going forward.

This way of Greenville getting three or four months good trade during the cotton and tobacco marketing season, is poor dependence from a business standpoint. This town needs and should have manufacturing enterprises with pay rolls that will make business for twelve months in the year. Until the people wake up to this situation Greenville is not going to have the business that ought to be here.

Farmers around Salisbury, states The Salisbury Watchman, have solved the cotton-picking problem by sending wagons into the colored settlements of the city early each morning to gather up such men, women and children as can be secured, returning them at supper time. This plan is said to have yielded excellent results, so we note it in accordance with our usual practice of passing good ideas along.—Charlotte Observer.

Nothing new about that. Down this way they have hauled pickers out to the cotton patches almost as long as there have been cotton patches and pickers.

At Sixes and Sevens.

An atom met a molecule
And things began to hum;
A microbe howled and tried to rule
A spry bacterium.
An animalcule up and fought
A micrococcus gay,
And when the germ the monad caught
There was the deuce to pay.

A devil knocked a spectre cold
By some demonic means;
A phantom pitched a goblin bold
Right into smithereens.
And you may well believe me when
I here declare with might
Of lobster I'll ne'er eat again

Complimentary to Misses Taylor, of Leaksville.

On Friday afternoon, September 22, Miss Vernessa Smith delightfully entertained a number of her friends at Progressive Rook, in honor of her visitors, Misses Martha and Annie Taylor, of Leaksville, N. C.

As the guests arrived they were met by the hostess, assisted by her sister, Miss Mary Smith, and were served with tea and sandwiches.

Score cards were given and at the close there were several to cut for the prize. Miss Martha Taylor being the lucky winner was presented a beautiful picture. As she received one of the visitor's prizes, she presented the picture to the next highest score, which was Miss Mattie Moye King. The visitor's prizes were dainty little handkerchiefs, the needle work of the hostess.

Ices were served at the close of the afternoon.

Big Sales Every Day.

Big sales are getting to be an every day thing on the tobacco market. It used to be that Thursdays and Fridays were the big days of the week, but now it is every day. More than 200,000 pounds were on the warehouse floors today. The high prices here are doing the work, for the farmers are going to take their tobacco where they can get most for it.

Prof. Arthur Stanley Mackenzie, who has been appointed president of Dalhousie University, at Halifax, N. S., was born in Pictou, N. C., September 26, 1865, and graduated from Dalhousie when he was twenty years old. His appointment to the presidency makes way for his third return to the university, for he was a tutor in mathematics there from 1887 to 1889, and, after an extended sojourn in the United States, he returned to Dalhousie as professor of physics, a position which he filled from 1905 until his appointment several years later as professor of physics at Stevens Institute of Technology. Prof. Mackenzie was both a scholar and fellow in physics at Johns Hopkins University, where he took his degree in 1894, and for fourteen years he was associate professor and professor of physics at Bryn Mawr College. He is the author of several books and has been a frequent contributor to the leading scientific reviews.

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Thedford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

Notice of Occupants of Lots

Weeds on side walks must be removed. Many complaints have been made to me because of side walks being grown up with rank weeds and grass. This condition must not continue to exist. Your consideration for your neighbors; your pride in your premises should compel you to remove such weeds and grass. This notice is given in the paper, that a reminder only, is needed. If more is needed, with just a little co-operation it will be given those who neglect this duty.

Law Benefits The Criminal.

The law in this state was made for the benefit of criminals; at least this is the way it looks. A defendant in a murder case has 23 challenges, when he can stand a juror aside without any excuse whatever. This privilege was given him years and years ago when the court, if the prisoner was unable to employ an attorney, had no power to assign counsel. These challenges in the first instances were allowed him in lieu of counsel, but when the law was changed, as at present, making it really incumbent on the court to assign counsel for his defense, he was still left with 23 challenges. Along in the seventies another change was made and the defendant is now permitted to testify in his own behalf, still he is left with the under hold in the fight.—Greensboro Record.

Coffee Goodness Proven by a Century of Use

There is something wonderfully satisfying and fascinating about this coffee blend that has been in daily use for over a century. Something far different from ordinary coffees. This is the coffee that was served in the quaint French Market, New Orleans, to society belles and beaux of the olden time. And that was so liked by Andrew Jackson, Henry Clay and other famous men. It is today the same identical, deliciously aromatic blend that was famous over a hundred years ago.

Then you could get this coffee with a history—the real

French Market Coffee

only at the French Market, New Orleans. But NOW you all may serve it daily at your own table. For the old French Market blend is perpetuated by

The Same Unique Hygienic Roasting Process

and delivered everywhere in perfect aroma and strength in hermetically sealed tins. Injurious elements are roasted out of French Market Coffee. In New Orleans, for hundreds of years, it has always been the custom to drink cup after cup, even at midnight. You may do the same today. Be sure you get the genuine. "There is only one real old French Market flavor."

MOSELEY BROTHERS

Record Breaker at The Gum.

Today we had on our floor nearly sixty thousand pounds of tobacco, which is about the largest sale made on the Greenville market this season, and the high prices paid to farmers exceed any that have been made this year. Every patron was highly pleased.

Our farmer friends, you can never tell what we can do for you unless you try us. Yesterday a farmer brought a small load of tobacco to the Gum, expecting, and would have been satisfied with \$100 for the load, whereas, the tobacco sold for over \$250. I care not what kind of sales are being for you at other places. All I ask of you is that you try me with your next load, and I will do for you what I have done today and every day this season for others, sending you away a friend to me, a patron to the Gum warehouse, with the highest dollar in your pocket for your tobacco.

I have one of the best auctioneers on any market. You don't make them any better than Biggs Cannon. He is never more pleased than when he is pleasing our patrons, in fact, we all appreciate any patronage that you give us, and you cannot afford to take any chances by not selling with me at the Gum.

To Adjust Cotton Claims. NEW YORK, Sept. 26.—An important conference was held at the New York Cotton Exchange today when representatives of the Southern Cotton Exchange and delegates from the Arkwright club, of Boston and the New England Cotton Buyers' Association. It is believed that the conference will result in a satisfactory settlement of the various differences that have long existed between the Southern cotton dealers and the buyers and spinners in the New England states, relating principally to weights, tare and claims.
