## FISH CONVENTION.

To Be Held in New Bern On Dec. 13 and 14.

CHAPEL HILL, N. C., Nov. 13.—In view of the continued depletion of the commercial fishes of North Carolina and the inadequate laws now on our statute books to meet the present conditions; and in view of the general indifference of one county toward the interests of another, or the state as a whole, it has been decided by the North Carolina geological and economic survey, the North Carolina fish commission, and the North Carolina oyster commission to call a convention of the fishermen and others interested in the fishing industry of North Carolina. The main purpose of this convention is to discuss the report submitted by the Fish Committee appointed by the legislature of 1909. This report, which was made to the legislature of 1911 in the form of a bill, was discussed by the joint fish committees of the house and the senate for nearly thirty days; and finally a substitute bill was reported by these committees and from the appropriation committee, which was approved by the legislative fish committee of 1909, passed by the house, but defeated in the senate on account of senatorial courtesy. This action of the senate shows that the senators had not considered the question from the standpoint of the state at large, and too many of them believed it to be purely a local question. The convention is to be held at New Bern, December 13 and 14; and it is hoped to have men as delegates representing the commercial fisheries of the seacoast and tide-water North Carolina, and that the convention will result in harmonizing the various individual interests along the coast so that the good of the state as a whole will be served rather than some particular section at the expense of other sections of the state.

## CITY OF NORFOLK.

Fine Chesapeake Liner On The Run Again.

The new steamer, City of Norfolk, of the Chesapeake Line, which was off a little more than a month for overhauling and improvement, has resumed her regular trips between Norfolk and Baltimore. It is the practice of the Chesapeake Line to keep their steamers in thorough condition and provide every comfort for travelers. During the brief stay of the City of Norfolk in the shipyards ten new bathrooms were installed in addition to those it already had. The steamer was also thoroughly overhauled from stem to stern and given a new coat of paint. The sister steamer, City of Baltimore, will soon undergo similar overhauling and improvement. Those who travel on the Chesapeake Line find every comfort and convenience on these palatial steamers.

## PROF. AUSTIN TALKS.

To Y. W. C. A. at Training School Sunday Night.

Prof. Herbert E. Austin addressed the Y. W. C. A. of the Training school on Sunday evening on the subject of "Practice What You Preach," reading as a lesson St. Mark XI.

The two important parts of his talk were How can I make my life of greater service to my fellowman? Are we willing to let what we practice preach for us?

In conclusion Mr. Austin said: "Let us square our lives now and see that we practice what we preach by giving expression to our practice through all the highest, noblest and purest thoughts that come to us."

The talk was of peculiar interest because of its direct appeal to every one present and because the illustrations were taken from every day life.

## Episcopalians at Knoxville.

KNOXVILLE, Tenn., Nov. 14.—Several hundred delegates representing the Southeastern states assembled in Knoxville today for the fifth annual convention of the Missionary Council of Sewanee, known as the fourth missionary department of the Episcopal church in the United States. Prominent among the speakers to be heard during the three days' sessions are Rev. William T. Capers, of Lexington, Rev. H. J. Mikkell, of Nashville; Rev. E. Sterling Gunn, of Natchez; Rev. E. E. Cobbs, of Montgomery, and Dr. J. H. Dillard, of New Orleans.

Even the pavements made of good intentions are more or less slippery.

## COMMERCIAL CONGRESS.

Nearly Every State in the Union is Represented.

KANSAS CITY, Mo., Nov. 14.—Nearly every State in the Union was represented in the vast audience that filled Convention Hall today at the opening of the annual meeting of the Trans-Mississippi Commercial Congress. The attendance was the most representative in the history of the congress, which was organized more than twenty years ago to aid in the commercial development of the West. Many of the delegations today were headed by the governors of their respective States. The governors and other distinguished visitors were given seats upon the platform and in the boxes, while the arena floor was reserved for the delegates, who were arranged by States.

The programme of the first day's proceedings included the annual address of Col. F. W. Fleming of Kansas City, president of the congress, who delivered his message at the opening session. The remainder of the session was taken up with the exchange of greetings, the roll call and the appointment of committees.

The session which began today will continue until Saturday. In recent years the congress has broadened the scope of its activities and many of the subjects scheduled for discussion at the present session are of live interest, not only to the Trans-Mississippi territory but to the country at large. Former Senator Aldrich of Rhode Island is here to address the congress on the subject of monetary reform. Arnold Shanklin, consul general to Mexico, will speak on the cultivation of trade relations with the southern republic, and Lieutenant Goethals, U. S. A., will tell of the progress of work on the Panama canal. Governor Hadley of Missouri, Governor Stubbs of Kansas, Governor Shafroth of Colorado, Secretary of War Stimson and other public men of national prominence will be heard on a wide range of topics connected more or less directly with the commercial development of the country. The reclamation of western lands, the transportation problem and the question of good roads are matters that have a foremost place on the agenda. Other matters that will receive attention are the development of the live stock industry, municipal government, technical and industrial education, insurance, the conservation of natural resources, public health, and the development and use of inland waterways.

## NORTHWESTERN STOCK SHOW.

Exhibition of Fine Cattle, Hogs, Etc., at St. Paul.

ST. PAUL, Minn., Nov. 14.—The fifth annual stock and grain show of the Northwestern Live Stock Association opened in South St. Paul today and will continue until the end of the week. The exhibition of cattle, hogs and sheep is the finest ever shown in this section of the country and is typical of the wonderful growth of the live stock industry throughout the Northwest. During the week a series of lectures on practical farming will be given by noted agricultural experts. At the close of the show \$10,000 in cash prizes and many special trophies will be distributed among the successful exhibitors.

## Southern Physicians Meet.

HATTIESBURG, Miss., Nov. 14.—Pellagra and the hookworm disease will be discussed by some of the most eminent of American physicians at the annual meeting of the Southern Medical Association, which met here today for a three days' session. The association embraces the States of Tennessee, Mississippi, Florida, Georgia and Alabama and constitutes the Southern district branch of the American Medical Association.

## United Benevolent Association.

DENISON, Texas, Nov. 14.—The supreme lodge of the United Benevolent Association, a fraternal organization with a considerable membership in Texas and the Southwest, began its annual convention here today with many delegates in attendance. E. S. Royal of Fort Worth, the supreme president, is presiding over the sessions, which will continue over tomorrow.

## COTTON PICKING MACHINE

Spectators Who Watched It Operate Declare Work Perfect.

The Charlotte News says: Here for the first time in the world's history is a thoroughly practical and successful mechanical cotton picker. It picks the cotton and it picks it clean and in better condition than the hand picker.

The machine is almost human in its selectiveness. Without injury to the plant, the green boll or the few scattering leaves the worms have overlooked, the picking fingers of this truly wonderful machine take the lint out of the open burs and leave them bare. After the machine has passed, the plant is there, erect, uninjured and only the cotton has disappeared. It is almost magic.

Think what this machine means to the cotton belt—yes, and to the world at large, far more than ever before in the world's history cotton is king. To have a cotton picker that will work six days in the week, every week; that will not get drunk or move over night to the other fellow's farm for 10 cents more a hundred, and that will even pick at night if you want to mount a searchlight in front of the driver's seat! It is a dream come true. It is marvelous, but is very real.

The machine was stopped as the crowd gathered around, and the castings of the picking mechanism operated. Within were tapering steel fingers—hundreds of them—each with very small teeth or barbs cut the full length of the finger on one of its sides, and all the fingers inserted in revolving steel tubes or castings. As the machine travels forward astride a row of cotton, these little fingers are thrust into the plant from either side, and, revolving rapidly, catch the open lock and wind it quickly with cotton, cease to revolve as they are drawn out of the plant and pass through the stationary stripping bars from which the cotton drops to the carrier belts, passes through the cleaning belts, passes through the cleaning chambers, where dirt and trash are blown out of it, and drops into baskets in the rear of the machine ready to start on its journey to the gin. And all this takes far less time to do than it does to tell about.

## GREENVILLE WAS SECOND.

In Tobacco Sales in The State For October.

In the sales of tobacco for the month of October as reported to the state department of agriculture, Winston-Salem led with 3,408,352 pounds, Greenville second, with 2,986,531 pounds, Wilson third with 2,969,686 pounds, Oxford fourth with 2,573,333 and Kinston fifth with 2,303,310 pounds. Nearly 20,000,000 pounds sold in the state, which was about 8,000,000 pounds less than for the same month last year.

## FIRE LOSSES IN OCTOBER.

The Figures in the United States and Canada Way up in the Millions.

The fire losses in the United States and in Canada, both by the month and the year, climb up into the millions, and the many millions at that.

For October, 1911, the fire losses were \$13,945,000; in October, 1910, they were \$37,188,300, and in October, 1909, they were \$17,765,200.

In the first ten months of 1911 the losses were \$192,933,800; in the same period in 1910 they were \$196,535,650 and the first ten months of 1909 they were \$168,865,100.

noon, November 27. When you consider that whilst you are making an effort to win this beautiful diamond ring, you are also boosting your total in the contest, you can't fail to realize what this will mean to you.

It is The Daily Reflector's Thanksgiving offer to the energetic young ladies who thought well enough of the prizes offered in the mammoth contest to go out and try to earn one. The ring offered as a special prize is as costly as all good diamonds are and although we had to send for it, we did it cheerfully, as we realize that nothing is too good for a gift of this kind. As a gem it would look its best in the fair hand of any of the contestants, whilst as a valuable object it reflects the handsome scale in which things have and are being done in the contest. On Monday, November 27 some energetic young contestant will possess a jewel of unquestionable value and rare beauty and she will have boosted her total considerably in the Daily Reflector, Big Contest.

## MEETING IN BAPTIST CHURCH.

Continues This Week With Large Attendance And Good Interest.

There were large congregations at the meeting in the Baptist church for both the afternoon and night services Monday. Rev. C. M. Rock gave excellent talks at both services. His earnest words are not without effect, for it is seen that his hearers, at least a great number of them, were deeply impressed and interested.

Prof. and Mrs. Blankenship sing at every service and delight all who are present. They really preach the gospel in song.

Two services each day this week—at 3:30 and 7:30 p. m. The meeting is already a great one, and much larger blessings are looked for.

## EVANGELIST WILL RETURN.

To Take Charge of The Meeting in The Baptist Church.

This morning Mr. Rock received a telegram from Evangelist Holcomb who was called home Saturday by the death of his child, stating that he could get back to Greenville Thursday to again take charge of the meeting if desired. Mr. Rock answered the message asking him to come on and Mr. Holcomb is expected to arrive in time for the service Thursday. This announcement brings great joy to the church and people of the town who are interested in the meeting. God's hand is recognized all through this and a great blessing to the town is being looked for.

**WE DEPEND ON YOU.**

If you like The Reflector and think it is a good thing for your town and community and want to see it bigger and better in every way, give it your support and encouragement by patronizing its advertisers when you are in the market for anything, and by bringing your advertisements and job work to us, asking your neighbors and friends to do the same. Then you will always have cause to be proud of the paper and its plant, for its progress is only enhanced by the patronage it receives. It is now only what our patrons have made it and can only advance further with the proper support and help to do so. If you do not like The Reflector you certainly can't help it improve by patronizing other printing offices, mail order houses and sending your business away from town in other ways. That's a cinch. The Reflector has reflected and always will reflect the support and patronage given it by the people of Greenville and community. This is not merely a play on words, but it is a fact. Give us your help if you want to see us grow and continue to be a factor in our community.

**THREE GOOD THINGS.**

Three things the Chronicle is going to put in its book for future reference are A real commission form of government for Charlotte; Torrens title law, and dog law legislators. And we believe we are going to get them.—Charlotte Chronicle.

These are three good things, too, and others should join in advocating them. The commission form of government is something that not only Charlotte, but also every town of consequence ought to have. And the Torrens title law and legislators that will pass an effective dog law are things that every county in the state should have. Like the Chronicle, we believe we are going to get them, and they should not be long coming.

Considering that American consuls throughout the world have estimated the number of 500-pound bales of cotton required to supply foreign countries, except Italy and England for manufacturing purposes before September 1, 1912, at 12,518,112 bales, to say nothing of what will be needed by manufacturers in America, the crop this year does not look any too large. There is some other influence keeping the price of cotton down beside the large crop estimate.

That the negro population of the United States is increasing less rapidly than it did in previous decades and much less rapidly than the white race is shown by census figures. In continental United States in 1910 there were 81,732,687 whites, or 88.9 per cent of the total population; 9,328,294 negroes, or 10.7 per cent, and 411,285 Indians, Chinese Japanese, etc., or 0.04 per cent. In 1880 the negroes constituted 13.1 per cent of the population.

D. J. Wichard, Jr. Reporter

Mr. and Mrs. A. W. Taylor and children, of Kinston, who have been visiting his mother, Mrs. Josephine Taylor, have returned home.

Miss Mary Edwards, of Kinston, arrived Monday afternoon to visit Mrs. Whit Hardy.

Mr. Fernando Ward, who lives about five miles from town, had a yellow chill Sunday and is very sick.

### One Way to Save.

You have heard the old saying time and again that "a dollar saved is a dollar made." Christmas will soon be here and surely everybody wants something ahead to spend then. A good way to start your Christmas saving is by going to the special sale now in progress at C. T. Munford's big store. A dollar spent here will go almost twice as far as if you had spent it elsewhere, that is you can get the same goods at almost half price and save the extra money that you would have to pay others, and have that much more to spend for Christmas. And talking about Christmas, Munford has a lot of things that will make nice presents for man, woman, boy or girl, and they are going right along with the low price of other things during this special sale. Any way you look at it, it is money saved to go to Munford's for your goods. Be wise and trade at the right place to save money.

### Hunters, Take Notice.

A subscriber calls attention to section 3480 of the Revisal, which is of interest to hunters. The section reads as follows:

"Without Permission.—If any person shall, without having first obtained permission of the owner, hunt with gun or dogs on the lands of another, or if he shall fish or attempt to catch fish from said lands after being forbidden, he shall be guilty of a misdemeanor, and be fined not exceeding fifty dollars or imprisoned not exceeding thirty days."

It will be noted from the above that it is not necessary for a property owner to post his land in order to keep off trespassers, but that he who hunts or fishes on land without first getting permission from the owner, is a trespasser, whether that land is posted or not posted.

### A LIBERAL OFFER.

We Guarantee to Relieve Dyspepsia. If We Fail the Medicine Costs Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal note. Three sizes, 25 cents, 50 cents and \$1.00. Remember, you obtain Rexall Remedies only from the Rexall Store.

#### How a Catawba County Farmer Works

Dr. Fred T. Ford, of Bundy's township, visited the city Tuesday and remembering about a promising piece of corn he had a News man asked him how it turned out. The doctor made 700 bushels on about 14 acres. He is putting this land in wheat this fall. From about 5 1-2 acres he has made 7 bales of cotton--the big boll kind, many stalks having 100 bolls. He made this by broadcasting a vast amount of manure last fall, and using 400 pounds of 10-4 fertilizer to the acre, 200 pounds before planting and 200 under the seed. The rows were 5 feet apart and the stalks 12 inches apart. Dr. Ford is one of the county's crack farmers, and he makes things hump on his place.--Catawba County News.

P. J. Boyle is now serving his fourteenth term as mayor of Newport, R. I., and is a candidate for re-election. Selfishness wears medals; sacrifice, mourning.

#### The Gambling Farmer.

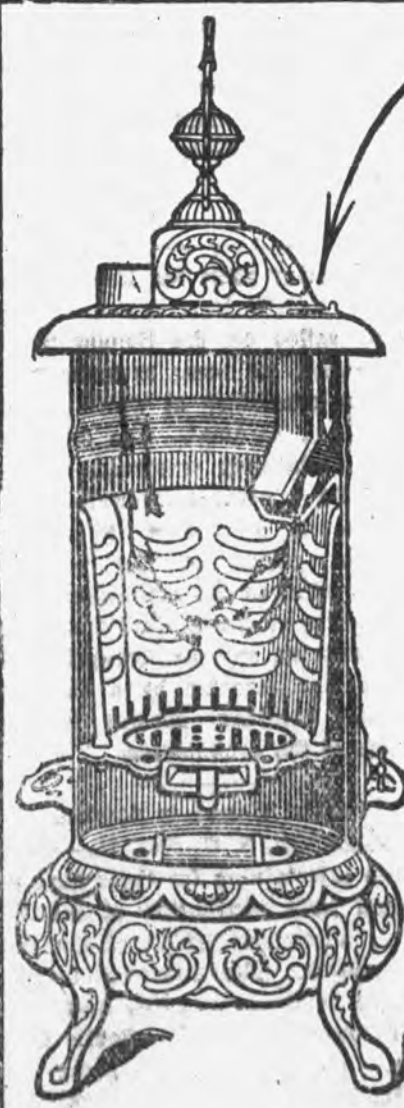

The farmer who has a family to support ought to be ashamed of himself at least three times a day, if he plunged himself in debt this year to speculate on cotton. The last man in the world that should place himself in the ridiculous and inconsistent attitude of "cussing out bear" speculators in cotton is the puny little short-sighted farmer that permitted himself to enter the gambling ring by planting a cotton crop to the neglect of a living at home! He now finds himself not only guilty of "putting up" his own labor and the labor of his wife and children to "bet" on cotton, but he actually bought fertilizer on time, at 20 per cent per annum interest, and put that up to "bet" and gamble on cotton, thus jeopardizing his own crop and standing in the community where he lives. And then

when these little hayseed cotton gamblers go on the market to buy western hay at \$30 a ton, which they can produce at home at \$5 per ton, western corn at \$1.00 per bushel, which they can produce at 20 cents a bushel, western meat at 10 cents which they can produce at home at 5 cents, they set up another tremendous howl about the robbery of the middlemen and speculators! These little country hayseed cotton gamblers are now getting it in the neck and they will continue to reap calamity and disaster until they quit gambling and go to farming. Union Farmer.

A girl who marries a man to reform him usually has to support his children as well.

A man seems to save money chiefly to help out his friends who don't.
