"Fighting Bob" Victim of Acute
Indigestion

Famous Naval Commander Was in
Very Best Spirits Morning of Death
—Suddenly Taken Ill With Acute
Indigestion and Expires Within two
Hours—Family at His Bedside.

WASHINGTON, Jan. 5.—Rear-Admiral Robley D. Evans, "Fighting Bob" to an admiring nation, died suddenly at his home, 324 Indiana avenue, about 4:30 o'clock yesterday afternoon. Acute indigestion ended the career of one of the most popular officers in the navy. He was ill less than two hours.

Admiral Evans, born 65 years ago in Floyd county, Va., arose yesterday apparently in better health and spirits than he had enjoyed in some time. For years a sufferer from old wounds sustained in the Civil war, and from recurrent attacks of rheumatic gout, the aged fighter seemed to have shaken off the burden of his advancing days. He displayed high spirits at breakfast and ate a hearty luncheon at noon.

While in his library at 2 o'clock the admiral was stricken. Instantly his family sent for Dr. S. S. Adams, who, on his arrival, found the patient in great pain. After treatment Admiral Evans fell into a restless sleep, and it was thought that the danger had passed.

Shortly after 4 o'clock, however, he awakened, and, raising himself with difficulty, announced that he was choking.

"I cannot get my breath," he said, and sank back. At 4:45 o'clock he died, conscious to the end.

At his bedside at the time of his death were his wife, his daughter, Mrs. H. L. Sewell, and his daughter-in-law, Mrs. Frank T. Evans, wife of the admiral's only son, a lieutenant commander in the navy, now on duty on the torpedo boat destroyer Monahan, at Boston. The only other member of his immediate family who was present was Mrs. Marsh, wife of Capt. Charles C. Marsh, commanding the armed cruiser North Carolina.

SHANGHAI, Jan. 5.—Yuan Shi Kai's tardy repudiation of his plenipotentiary, Tang Shao Yi, almost unanimously denounced in Shanghai and Nanking. President Sun Yat Sun has instructed Secretary Wu Ting-fang to telegraph Yuan Shi Kai to come to Shanghai and personally negotiate with the president of the new republic. Unless Yuan changes his present attitude the rebels will certainly move on Peking. Reports from every section in South China show that there is a complete unanimity of sentiment.

To Attack Mutineers.

Peking, Jan. 4.—Three thousand Manchu imperial troops, drawn from the garrisons of Pao-ting-fu and Sih-wang-toa, have been ordered to Chin-wang-tao and Luchow to attack the mutineers there if they do not submit.

Gen. Li Yuen-hung, commander-in-chief of the rebel troops, who has been made vice-president of the provisional republic has apologized to the imperial authorities for the violation of the armistice at Hankow and has dismissed two colonies who were responsible.

THEY WILL WALK OUT IF IGNORED

Object to Time Slips in Which They
See "An Advance Agent" of the
Taylor System — Machinists in
Washington Demand Higher Pay
—Keeping Time on Each Job.

WASHINGTON, Jan. 5.—President Taft and Director Willets, of the navy yard, will today view the ultimatum of 2,000 machinists employed at the Washington navy yard, that the wages of the machine shop employes must be increased, and that the Taylor system of scientific management be eliminated, or a general strike and walk-out of the men will follow.

The decision was reached last night at one of the most heated meetings ever held by Columbia Lodge International Association of Machinists, in the Naval Lodge building. The meeting was participated in by the members of the executive board of the organization now in session here.

Five hundred men walked out at the Norfolk navy yard yesterday when told to sign slips keeping tab on their work. Last night the strikers held a meeting and decided to remain out until assured that all attempts to introduce the Taylor system were abandoned. The walk out, it was declared at the meeting, would be extended to every department of the Norfolk navy yard today unless the objectionable slips were withdrawn.

Not Taylor System Slips.

At the Navy Department yesterday it was said that the cards in use at the Norfolk yard were in no way connected with the Taylor system, but merely the following out of a practice of keeping time on each job. It was explained that the department has not installed the system, nor has it any intention of inaugurating anything like it at the Norfolk yard.

TAFT TO STAY IN COMING RACE

Death Will Only Keep Him Out of the
Fight

SO SAY PRESIDENTS' FRIENDS

White House Friends Hear Taft on
Presidential Race—Will Meet At-
tacks—In Race To Stay—Will Fight
From Now On.

WASHINGTON, Jan. 5.—William Howard Taft is in the fight for reelection as president of the United States until the finish. Regardless of what others may do, what rumors are circulated, or the identity of the candidate who opposes him in the convention, President Taft is in the fight to stay.

"Nothing but death can keep me out of the fight now," is the statement that the president made to several of his callers yesterday, and he is understood to have added that he had no objection to the announcement being made. So much deception has been practiced, so many rumors have been circulated to the effect that at the psychological moment, he would withdraw, leaving the way clear for Roosevelt, that his friends have been urging him for some time to announce his position definitely.

Will Fight From Now On.

It is understood that some of the president's friends have even gone so far as to urge him to break openly with Roosevelt, and to challenge the latter to make plain his intentions. The president has refused to do this, however. Mr. Taft has listened to all such advice with a smile and has gone on his way, unheeding all political reports. It has been impressed upon him, however, that many might believe that he was letting the nomination go by default, and it is understood that from this time on he will fight, and give as much as he receives.

Democratic Booms To Be On Display.

WASHINGTON, D. C., Jan. 5.—The booms of the several aspirants for the Democratic presidential nomination will be much in evidence in Washington during the next few days. A Woodrow Wilson headquarters opened for business today in anticipation of the meeting of the national committee next Monday and the gathering of the party leaders for the Jackson Day banquet. Governor Wilson will be here in person Monday. The Harmon headquarters already in running order and Senator Pomerene is relied upon to keep the Harmon boom well to the front, even though the Ohio governor should not put in an appearance for the banquet Monday night. Speaker Clark and Congressman Underwood, who make up the quartette of the leading aspirants for the Democratic nomination, will keep open house during the stay of the national committee men. Each of the four candidates naturally desires to make a good impression on the committee members.

Ohio Candidate Will be Entertained

NEW YORK, Jan. 5.—Governor Harmon of Ohio whose candidacy for the Democratic presidential nomination is regarded with favor by many of the old-time Democrats in this section, is coming to New York tomorrow to be the chief guest at a reception and dinner to be given by the Lotos Club. The Club is distinctly a non-partisan political organization. In the fifty years of its existence it has entertained presidents, senators and other prominent men in public life without regards as to whether they were Republicans or Democrats. It is expected that Governor Harmon will go from this city to Washington to attend the Jackson Day banquet in the capital next Monday night. The reception with which the Ohio executive meets in these two important centers will interest the politicians as a possible indication of the strength of the Harmon sentiment in the east.

Reward Increased.

RALEIGH, N. C., Jan. 4.—The reward of \$200, offered October 9 for the capture of Will McIntyre, a white man, wanted in Rutherford county for murder was yesterday increased by Governor Kitchin to \$300.

This was though advisable on account of the fact that the previous reward offered has so far failed to get the man who is very badly wanted by the authorities.

It will be remembered that McIntyre was indicted some time last spring for the atrocious murder of three prominent citizens, and then throwing their bodies into the furnace of his blockade still. His first victim was John H. Melton, who was killed September 6, 1906. Next J. D. Atchley mysteriously disappeared on November 4th of the same year.

Greensboro Drug Company Buys

GREENSBORO, Jan. 4.—The Greensboro Drug Company has purchased the Wynne building, now occupied by the drug store, at the corner of Elm and Market streets, directly opposite the court house. This is the most valuable piece of dirt in the city. Mr. A. J. Klutz is the principal stockholder of the Greensboro Drug Company, which is doing a splendid business. The property was purchased from J. R. Thomas, who bought it a few months ago from J. S. Wynne, of Raleigh, who erected the three-story building on the lot. The consideration was not learned.

NEW ORLEANS, Jan. 5.—Evidence indicating a more widespread revolutionary plot against Mexico than has heretofore been attributed to the opponents of the Madero administration has come to light in the discovery of the shipment of at least eight car loads of ammunition and explosives from points in Pennsylvania and New Jersey to New Orleans within the past 50 days.

The fact that these shipments were detoured at points north of New Orleans, is said to have been clearly established, leading to the suspicion that the real destination was one of the gulf ports between this city and Mobile, from which filibustering expeditions have cleared unobserved in the past.

Rifles Shipped to Texas.

In addition to these eight car loads, with an estimated total of more than 200,000 pounds of munitions of war, agents of the Mexican government assert that one firm in New Orleans has shipped 150 rifles a week for the past five weeks to points in Texas, near the Mexican border.

Secret agents of the Mexican government are working with the agents of the United States, and for the past few days have been keeping several steamers, as well as the gulf ports, under close surveillance. Four Mexicans in this city, who are said to have been associated with Gen. Bernardo Reyes in his revolutionary plans, the being shadowed, and it is not improbable that arrests may be made within the next few days.

Boosters For Roosevelt Well Under
Way—Fight For and Against Taft
Is on With Great Intensity.—New
York Herald.

NEW YORK, Jan. 5.—The New York Herald tomorrow will say, in part:

The fight for and against Taft is on with great intensity.

With the president throwing down the gauntlet to Theodore Roosevelt by declaring that only death can take him, Mr. Taft, out of the presidential race; and with a sharp clash between the La Follette and Roosevelt movements in the middle West, causing an almost complete collapse of the La Follette boom, and with complete silence on the part of the leading citizen of Oyster Bay, despite heroic efforts to "smoke him out," the Republican situation, six months before the convention, has reached a highly interesting and perhaps vital stage.

Statement Causes Surprise.

Most important of all recent developments was the president's ringing and positive declaration that only death can take him out of the race. That this caused a sensation in political circles is putting it mildly. It caused surprise—in some cases amused surprise—wherever friends of Col. Roosevelt gathered, and exultation wherever the champions of the president were found.

MAYOR OF INDIANAPOLIS KEPT MUM

Says Burns

STARTED, DROPPED INVESTIGATION

William J. Burns, Famous Detective,
Accuses Indianapolis Mayor of
Dropping McNamara Case After
Starting Investigation — Interested
in Not Prosecuting Brothers.

INDIANAPOLIS, Ind., Jan. 5.—Detective William J. Burns, before starting late today for Philadelphia, openly charged former Mayor Charles A. Bookwalter, of this city, with negligence in not having prosecuted Jno. J. McNamara two years ago on evidence in his possession indicating that officials of the International Association of Bridge and Structural Iron Workers had caused the dynamite explosions here.

Burns declared that the former mayor dropped the investigation and not long afterward was invited to become a member of a printing firm doing such work for national labor unions, and in which Samuel Gompers, president of the American Federation, is reported to him to have been interested.

Denies Gompers' Interest.

Bookwalter, in an interview today, denied that Gompers at any time had been concerned in the printing firm, or that he knew him immediately, but said that partners in the firm were Leo M. Rappaport, counsel for the International Association of Bridge and Structural Iron Workers and Hugo Thorsch, a longtime friend of Gompers.

Bookwalter admitted that two years ago he had told a score of prominent national labor leaders that he was convinced of the guilt of John J. McNamara and the iron workers' union in connection with four explosions on property of Albert Von Spreckelsen, in October, 1909.

Dr. Caldwell Coming.

Wisconsin Senator Makes Clear His

Admits That He is a Boss.

CHICAGO, Jan. 5.—Asserting that over-capitalization of corporations was the primary cause of the high cost of living, Senator Robert M. La Follette, in a speech tonight, marking his first appearance in Illinois on his present campaign tour, declared it was impossible for the government longer not subject great money interests to reform.

"The problem of the beef, the hardware, and the steel trusts has to be worked out scientifically," he said. "It will be worked out scientifically, if I have anything to do with it, and I expect to have a good deal to do with it."

Senator La Follette was interrupted here by prolonged cheering. The assertion was taken as dispelling any doubt as to his intention of remaining in the race for the presidential nomination. While he spoke Senator La Follette pushed tables and chairs from side to side of the platform. "You see I always have my own way. I'm a boss," he said. "But up in Wisconsin the people have come to believe that in so far as I have been a boss it has been in their interests solely."

"FIGHTING BOB" DEAD.

Among the many brilliant and dashing commanding officers of the American navy in the last quarter of a century there was none more brave more reliable and more idolized than "Fighting Bob" Evans, as he was affectionately called by his men. He was born at Floyd Court House, Va., August 18, 1846, the son of Samuel Andrew Jackson and Sally Ann (Jackson) Evans. His father was a native of Virginia and a graduate of the University of Virginia Medical College. He located in Floyd county where, until his death in 1856, he combined the calling of physician and farmer. His mother was a daughter of John Jackson of Fairfax county, Va., and a sister of James Jackson who shot Col. Ephraim E. Ellsworth of the famous Zouave regiment for tearing the Confederate flag from the roof of his hotel, the Marshal House, at Alexandria, Va. Their son was named Robley Dunglison after a celebrated physician of Philadelphia, who was a close friend of the family.

Robley D. Evans was educated in the schools of his native county and later at the Gonzaga Classical School at Washington, D. C. It was his ambition to enter the naval service and he enlisted the support of Wm. H. Hooper, congressional delegate from Utah territory, who obtained for him on September 20, 1860, an appointment as cadet of the U. S. Naval Academy. On October 1, 1863, young Evans was promoted to the rank of ensign and ordered to the steam frigate Pohatan of the West India squadron and in 1865 he was engaged in both attacks on Fort Fisher where he saw the first serious fighting and received two severe rifle shot wounds. These wounds came dangerously near putting an end to his career in the navy. The doctors, after a consultation, decided that it was necessary to amputate both legs of the young officer. But "Fighting Bob" did not agree with them. He drew his pistol and colley informed the doctors that he would blow off the head of the first man who approached him. The doctors held another consultation and decided not to amputate Evan's legs. He was eventually cured, but retained a slight limp as a memento of this injury.

In 1866 Evans was on duty in the navy yard at Philadelphia and on July 25, 1866, was commissioned lieutenant. He was on ordance duty in the Washington Navy Yard in 1867 and thereafter, until 1869 on board the flagship Piscataqua, cruising on the Asiatic station. On March 12, 1868, he was commissioned lieutenant commander. After several years of service at the Washington navy yard and the naval academy at Annapolis young Evans cruised on the Shenandoah and the Congress in European waters. From 1877 to 1881 he was in command of the training ship Saratoga, having been promoted commander in July 1878. During the following years he held various commissions including lighthouse inspector, chief inspector of steel for new cruisers, secretary of the lighthouse board, etc.

In 1891 he was sent to Chili in command of the gunboat Yorktown and during the troubles in Valparaiso he distinguished himself by his firm and tactful conduct under the most difficult conditions. Later he was sent to the Behring sea in command of one of the American ships to suppress sealing. He made several important captures. On June 27,

The Robeson Plan.

The farmers of Robeson county held a meeting Saturday at which they agreed not to plant more than 60 per cent of their land in cotton. A feature of the meeting was a speech by Mr. A. W. McLean. As reported in the Robsonian, he declared that "if a man could control the time merchants of the south he could control the cotton acreage. The landlord may tell his tenant that he wants him to plant so and so and everybody else may preach reduction of cotton acreage, but if the merchant to whom he looks for supplies tells him he must plant so much cotton or he gets nothing from him—there you are; in the cotton goes just as much as the merchant says. The lien law is responsible, too, for labor conditions, said Mr. McLean, and everybody knows he was right again. A negro with a housefull of children and no land can get more credit than a man who owns a thousand acres of land and as long as this condition stands you can't do anything with them." The matter having been put to the merchants they agreed to organize the Cotton States Merchants and Business Mens' Association, to be composed of all the merchants of Robeson county. The association will not sell credit supplies to farmers who will not agree to plant forty per cent of their land in crops other than cotton. If two things happen Robeson will have a smaller cotton crop next year. These two things are—if the farmers will stick to their 60 per cent and the merchants to their 40 per cent. The plan may succeed in part, but we fear it will fail as a whole.—Charlotte Evening Chronicle.

Cost of Living.

At last there are indications that the cost of living is coming down. A jury in Missouri has decided that the value of a stolen kiss is 50 cents.—Cleveland Leader.

1893, he was promoted captain and in the following year at the opening ceremonies of the North Sea Canal he commanded the cruiser New York afterward the flagship of the North Atlantic squadron. From this, he was transferred to the Indiana, the first battleship commissioned by the United States. In 1896 he was again attached to the lighthouse board.

During the Spanish-American war Capt. Evans was in command of the battleship Iowa, which distinguished itself during the battle off Santiago, when Cervera's fleet made an attempt to run past the blockade squadron. The outlook of the Iowa was the first to discover the Spanish ships coming and signaled the fleet. The Iowa rushed forward to meet the enemy, keeping up an incessant and deliberate fire from her 8-inch starboard battery. At one time the Iowa was engaged with every ship of the Spanish fleet. When the Viscaya ran aground Evans sent boats to rescue the crew and saved 276, including Capt. Eulate, who surrendered to Evans.

After his appointment as Rear Admiral, Feb. 11, 1901, Evans held several commissions, the last in 1908, when he commanded the Atlantic fleet on its fruiise from Hampton Roads to San Francisco, where, owing to illness he transferred the command for the rest of the cruise to Rear Admiral Sperry. His retirement followed on August 18, 1908.

New Barber Shop

NATHAN ISLER'S NEW BARBER SHOP is now ready for business. It was opened today, and hereafter, all customers will be waited on in the new shop.

IT'S NAME WILL BE THE "CRYSTAL." The furniture and fixtures are new and second to none in Eastern North Carolina. Isler deserves much credit in putting in such expensive fixtures and such a first-class shop should be well patronized.

THE "CRYSTAL'S" FIVE COMMANDMENTS:

- (1). Thou shall not shave thyself, neither shall thou let thy wife cut thy hair.
- (2). Thou shall not chew tobacco and spit upon the "CRYSTAL'S" floor or stove.
- (3). Thou shall not shave and ask the "CRYSTAL" to charge it.
- (4). Thou shall not go two weeks without shaving, lest the "CRYSTAL" charge thee double price.
- (5). And when thou art in need of clean towels, good work—GO TO THE "CRYSTAL."

We want to thank our customers and friends for their patronage of 1911 and we wish you a happy New Year.

Very truly,
TAFT & VANDYKE.

"Our Greenville; Yours if You Come"

Social and Personal

God's Love.

Like a cradle, rocking, rocking,
Silent, peaceful, to and fro,
Like a mother's sweet looks dropping,
On the little face below,
Hangs the green earth swinging, turning,
Jarless, noiseless, safe and slow;
Falls the light of God's face bending
Down and watching us below.

And as feeble babes that suffer
Toss and cry and will not rest,
Are the ones the tender mother
Holds the closest, loves the best—
So when we are weak and wretched,
By our sins weighed down, distressed,
Then it is that God's great patience
Holds us closest, loves us best.

O great heart of God, whose loving
Cannot hindered be nor closed;
Will not weary, will not even
In our death itself be lost—
Love divine of such great loving
Only mothers know the cost—
Cost of love which, all love passing,
Gave a Son to save the lost.

Notes From the W. C. T. U. At Bethel.

BETHEL, N. C., Jan. 5.—We are glad to report Mrs. E. M. Lambert with us yesterday. After visiting the graded school here, where she was received with manifest interest, and delivering an illustrated lecture which was instructive, she met with us in the ladies' meeting at 3 p. m., in the M. E. church, and gave us good hints as how to increase our membership. This meeting was well attended by the ladies of our town, some of whom were not members. Several took pledges and joined our union here, after Mrs. Lambert's lecture. At 8 p. m. Mrs. Lambert was greeted at the

M. E. church by a large and appreciative audience for whom she delivered a very strong appeal for a united effort upon the part of local unions.

Among the many things worthy of mention in connection with our program last evening were a vocal solo by Mr. Judson Blount, and the renderings of a male quartette, composed of Messrs. M. O. Blount, S. T. Carson, Judson Blount and Jesse Bullock.

We feel very much in debt to Mrs. H. V. Stator for assistance in rendering our musical program.

We are also glad to report an increase of eight members, which, we feel is the result of Mrs. Lambert's visit to us.

We bid her God speed with the hope that she will visit us again in the near future.

LOCAL BRIEFS.

Pick Ups And Hand-Me-Downs.

Red Men meet tonight. Moving is yet going on. It did not snow.

Either today or tomorrow is Old Christmas day, we are not prepared to say which.

Tobacco Market Opens Tuesday.

The Greenville tobacco market which closed December 22nd for the Christmas holidays, will reopen on Tuesday, 9th. It is not thought there is very much more tobacco of the last crop to be sold, but those farmers who have any can rest assured that the best place to sell it is on the Greenville market.

No Danger of Overcrowding.

Do not be afraid of overcrowding us if you come in to pay your subscription to The Reflector, as we can write receipts much faster than they are being called for these days. You ought to look at the date after your name on the paper, and get a receipt if it says you are behind.

A Hero In A Lighthouse.

For years J. S. Donahus, So. Haven, Mich., a civil war captain, as a lighthousekeeper, averted awful wrecks but a queer fact is, he might have been a wreck, himself, if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so close for years, without benefit and they also improved my sight. Now, at seventy, I am feeling fine." For dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50c at all druggists.

MONTHLY MEETING BOARD OF ALDERMEN

HAS VERY BUSY SESSION.

Horse And Rubber Suits to be Provided For Fire Department.

The board of aldermen met in monthly session, Thursday night, with five members present.

Mr. J. Benjamin Higgs appeared before the board in regard to leasing the town commons on the river for a term of years, and stated that he could guarantee the town a boat line. A committee consisting of Aldermen Hardee and Tyson was appointed to investigate the matter.

A request was also made for the use of the city hall to hold public receptions on February 7th, 8th and 9th, during the state meeting of the Federation of Women's clubs to be held in Greenville on those dates. The request was not granted.

It was ordered on motion that the town furnish lights for the clock tower in the court house to light the dials at night.

Mr. D. D. Overton, chief of the fire department, appeared before the board in regard to the purchase of a horse for the use of the department, stating that Hope Fire Company would pay \$100 on the horse, provided the horse be used only in connection with the fire department; also that the company would pay \$48 toward the purchase of rubber suits needed if the town would pay the balance. The proposition was accepted by the board and a committee was appointed to purchase the horse and rubber suits. A suggestion to fit up sleeping rooms in the municipal building for certain members of the fire company was referred to a committee for consideration.

There was nothing of special interest in the reports of standing committees.

Some corrections were made in the tax list, and bills approved by the finance committee were ordered paid.

STALK CUTTER

The Parlin & Orendorf Co., Canton, Ill., made the first Stalk Cutter ever built, over 50 years ago; today they are building the best Stalk Cutter on the market

You need weight in a Stalk Cutter to do good work. You get it in this one—and with weight you get strength. The P. & O. is practically indestructible. Beware of light, flimsy stalk cutters—you will rue the day you buy one. This one will last a life-time. What do the manufacturers themselves think of it? "Back it up with an unqualified guarantee." That is putting it pretty strong—what more can you ask?

MRS. LARAMORE TELLS TROUBLES

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned. I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Thedford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

Don't judge a manure spreader by looks

Every Manure Spreader is not a Cloverleaf that looks like one. You can't judge a Manure Spreader by its looks because there are many features which are found in the construction of one machine that are not found in others. Cloverleaf Manure Spreaders are the most easily operated, the strongest and best machines on the market. If you will examine one critically you will agree with us that the

Cloverleaf

is the best machine you ever looked at. Drop in. Let us discuss the manure spreader proposition. Let us explain the many meritorious features found in Cloverleaf construction. Better still, buy one, then you will be in a better position to know why you can't judge a manure spreader by its looks. If you are not ready to buy, call and get a catalogue.
