"BUCK" DUKE WILL RESIGN TO GO TO EUROPE

Head of American Tobacco Company Will Open Offices in London

LARGER FIELD PRESENTED ABROAD

British American Tobacco Company With Head Office in London Lures American—Percival S. Hill Long, Vice-President, to Become Head of American Tobacco Company in New York.

NEW YORK, Feb. 7.—James B. Duke very shortly will resign from the presidency of the American Tobacco Company and become chairman of the British-American Tobacco Company, Limited, with its chief office in London, it was announced late today at the American Tobacco Company offices. He will be succeeded as president by Percival S. Hill, long a vice-president.

Mr. Duke's desire in making this change, it was explained, was to devote himself to the extension of the business of the British-American Tobacco Company, Limited, which now lies principally in China, India, Australia, Canada, South Africa and Continental Europe.

Mr. Duke said that he felt that a larger field of activity and usefulness awaited him in the British-American Tobacco Company. He added that all the companies formed out of the American Tobacco Company and the other companies which were disintegrated under the decree of the Circuit Court were now fully organized and embarked on their separate careers. In explanation of the omission by the American Tobacco Company today to declare a dividend on its common stock, Mr. Duke said he had advised that, in view of the large payments in cash which the company had recently been compelled to make in the retirement of its bonds and for other purposes required by the court's decree, it would be wise to pay no dividend on its common stock at present, and that the directors had concurred in this opinion.

CHARLES NAGEL NEW JUSTICE

Secretary of Commerce and Labor to Succeed Harlan

TAFT HAS MADE APPOINTMENT

Nagel's Name Will be Sent to Senate Probably Before Close of Week—Question is Now Who Will Succeed Nagel in Cabinet—Judge Hook Out of It.

WASHINGTON, Feb. 8.—The existing vacancy on the Supreme court bench, the fifth that has occurred in the present administration, probably will be filled by the appointment of Secretary of Commerce and Labor Charles Nagel, of St. Louis.

President Taft is expected to send the nomination of Mr. Nagel to the senate within a few days. United States Judge Wm. C. Hook, of Kansas, who until last night was most prominently mentioned for the vacancy, is said to have been eliminated from further consideration at an hour's session of the cabinet today. All of the lawyers in the cabinet, except Mr. Nagel, were present and afterward it was learned that the president had made clear his intention of appointing his secretary of commerce and labor.

This report was so generally credited tonight that rumor was busy with a possible successor to Mr. Nagel in the cabinet. Louis Marshall, of New York, and Julius Rosenwald, of Chicago, were mentioned among those who would be considered by President Taft.

Some things seem more important before we have accomplished them, marriage, for example.

CONDENSED NEWS FROM ALL OVER THE OLD NORTH STATE

Extension of Southbound.

Winston-Salem, Feb. 7.—The proposed extension of the Winston-Salem Southbound Railroad from its south-side tracks up to and through the town of Salem was approved so far as applied to property outside the town by the county commissioners today. The petition had already been presented and approved regarding property rights-of-way in Salem itself. The approval of the county commissioners was conditioned on the approval of the county road supervisors but their consent will be forthcoming, it is expected. The project of extension will give the Southbound a terminal freight station in Salem closer to shippers and will mean much for the road and also for the accommodation of shippers.

Wilmington Women Hurt in a Runaway Accident.

Wilmington, Feb. 7.—Mrs. Van-R. C. King and Miss Cynthia Rountree, daughters of George Rountree, Esq., and two of the most prominent young society women in Wilmington were victims in a runaway accident today at noon when they were thrown from their buggy at the intersection of Third and Market streets, Mrs. King being badly bruised and shaken up and Miss Rountree sustaining serious injuries. Oliver Galloway, a brave negro youth who made an attempt to stop the runaway horse, was dragged a distance of nearly a block and is now in the hospital with serious injuries.

Raleigh Aroused Over Law Enforcement.

Raleigh, Feb. 7.—It is definitely decided to hold a big law enforcement rally of the citizenship of Raleigh Thursday night. A program of special interest is being planned. There seems to be some confusion about just what the aldermen of the city did last Friday night as to setting aside a fund for working up cases against blind tigers. What they did was to adopt a motion to the effect that the provision of a fund of \$500, asked for by the police commission, go over to the March meeting when the amount should be included in the 1912 budget to be made up in March.

Eye Blown Out by Dynamite.

Asheville, Feb. 7.—Information reached here yesterday of an accident that happened recently at Andrews in which Van Dean was seriously injured by the premature explosion of a dynamite charge. One eye was put out and the other injured, and it is reported that his face was terribly mangled. It is said that he was blasting out stone at Ranger to be shipped to Ducktown to be used in the reduction at the copper mines when the blast went off. The wounded man was given medical attention as soon as possible and it is reported that he is doing as well as could be expected.

Death of Former Husband of Bessie Clark.

Hendersonville, Feb. 7.—The coroner's jury which inquired into the sudden death of Balfess Guice, divorced husband of Bessie Clark, mentioned in connection with the Myrtle Hawkins mystery, returned the following verdict yesterday: "De find the deceased came to his death possibly from a gumma at the base of the brain, but we recommend a chemical examination of the stomach and its contents."

Baker Bryan Arraigned Today.

New Bern, Feb. 7.—At the opening of tomorrow's session of the Superior court Baker Bryan will be placed on trial for his life, charged with murdering young Wm. Avery, in this city on last Christmas night. A special venire of 200 men have been summoned, from which the jury will be chosen. The case attracts much interest in this section.

Many leading Democrats express the hope that in the presidential convention in Baltimore a resolution will be adopted which will be in the preliminary step to the abrogation of the two-thirds rule in the national convention in 1916.

Supporting Underwood, Answers Col. H. B. Varner

Further Says That Underwood Is The Man The Democrats Ought To Support In Coming Campaign

The Time For The South To Act Has Arrived -- If Underwood Is Nominated His Election Is Sure

DOORS OF WHITE HOUSE HAVE BEEN CLOSED TO SOUTHERNERS FOR 50 YEARS

Asserting That The White House Has Been Closed to Men of The South For Fifty Years Varner Asks Southern to Support Underwood In Coming Campaign—Feels Sure He Will Be Elected If Nominated.

LEXINGTON, N. C., Feb. 7.—Col. H. B. Varner this afternoon gave out a letter written to the News and Observer replying to an article in that paper this morning. The letter is in this language and explains itself:

"I see in your paper of today that your Washington correspondent says that I am for Mr. Underwood for the Democratic nomination for President, for the purpose of helping Governor Harmon. There is absolutely no foundation for this statement. I never in my life supported one candidate in the interest of some other candidate.

"It is true, that before I had given careful consideration to this question, and before I knew that a southern man had the real chance to secure the nomination, I was inclined to support Governor Harmon, but recently I became convinced that not only did Mr. Underwood have a good chance to secure the nomination, but that his nomination would give the party its best chance to elect a President and that his election would give the country its best possible executive. In this condition I determined to support him.

"Why is it necessary to the candidacy of the man whom your Washington correspondent is supporting that the motives of those who support other candidates should be impugned? Why is it that every man who changes from some other can-

didate to Wilson is a pure and lofty patriot, while every man who changes from an inclination for a northern candidate to an earnest support of an able, upright southerner is somewhat a rascal, or at least a hypocrite and trickster?

"Mr. Underwood is unquestionably the best qualified man for the presidency that has been proposed, because he has had 18 years experience in Congress. It is generally conceded that he knows more about the tariff than any other man in Congress and has led the Democratic majority as no other man has been able to lead it since the war. He is a consistent tariff reformer, standing for a tariff for revenue only. If the Democrats win the presidency, the tariff must be the paramount issue.

"If Mr. Underwood is nominated he will be elected, because he will command the support of all factions. He is progressive, yet he is conservative, and is not aligned with any faction of the party, therefore, he could sweep the country as no other candidate could possibly do.

"For 50 years the door of the White House has been closed to the men of the south. I have long felt that this was largely the fault of the Democrats of the south themselves. During these 50 years whenever a southern man has been spoken of for this high office, we have taken counsel with our fears and unanimously voted that our man would be unavailable. Of course, the other sections of the country have been willing to accept our own estimate of ourselves. This condition will go on just as long as we make no effort to change it.

Social and Personal

Tears.

When I consider Life and its few years—
A wisp of fog betwixt us and the sun!

A call to battle and the battle done
Ere the last echo dies within our ears;
A rose choked in the grass; an hour of fears.

The gusts that past a darkening shore to be!
The burst of music down an unlistening street—
I wonder at the idleness of tears.
Ye old, old dead, and ye of yesternight,
Chieftains and bards and keepers of the sheep.

By every cup of sorrow that you had,
Loose me from tears, and make me see aright!
How each hath, back what once he stayed to weep;
Homer his sight; Davis his little lad!

Capt. J. A. Clark, of Washington, was here today, and his host of friends were glad to see him. He does not seem to grow a bit older.

Dr. E. A. Moye, who has been sick for some time, was out for an automobile ride today. His many friends are glad to note his improvement and hope he will soon entirely regain his health.

Mr. W. H. Baxley and sister, Miss Lizzie Baxley, left yesterday afternoon for Whiteville, N. C. Pender has been appointed to represent the company in this section of the state, with office in what is popularly known as the Flat Iron building, on Dickinson avenue.

DARING AVIATOR SKIMS OVER HUDSON

Frank Coffyn and His Aquatic-Aeroplane Over Hudson

WAS IN DANGER MANY TIMES

Like Huge Duck Aquatic-Aeroplane Skims Surface of River and Flies Over It—Machine in Perfect Control Most of the Time.

NEW YORK, Feb. 8.—After his experience yesterday on the Hudson river, Frank Coffyn, a graduate of the Wright school, has earned the name of "The Polar Aviator." He flew out of ice and into ice and over ice, and as long as he was flying he was king of the Peary conditions. At an altitude of from five hundred to eight hundred feet he swooped over the North river from Washington Heights to a point about opposite the Singer tower five times, with and against a twenty-eight-mile wind, soaring over a flock of ferry boats, tugs, barges and steamships for the twenty minutes that he was in the air, and the craft that had whistles roared salutes.

His performance was the most remarkable ever achieved in aquatic aeroplaning. After three minutes in the air, in which erratic currents caused by the great skyscrapers made him shoot up and further up to get out of their influence, his machine rocking crazily the while, he reached a height of 800 feet.

GREAT WORK IS N. S. Schedule A LIBRARY ON CIVICS, HISTORY AND INDUSTRIAL PROGRESS OF THE UNITED STATES.

Messages and Papers of the Presidents Compiled in a Series of Eleven Volumes.

An Encyclopedic Index Sets Forth Important Questions of Government From the Foundation of the Republic.

INSTRUCTION FOR YOUNG AMERICANS.

The fundamental element of good citizenship in a republic is knowledge of the origin and development of the government, an understanding of the duties which devolve upon the electors and their representatives and a knowledge of the relations of the government to our industrial, financial and civic life. This is true knowledge of the history of the country in its best and most helpful phase.

Such a work is the "Messages and Papers of the Presidents," a series of eleven volumes, containing 8,643 large octavo pages.

It is believed that our readers will welcome a somewhat detailed review of this unusual American library. Such a review will of itself inspire greater interest in our institutions and awaken a renewed spirit of patriotism.

The first ten volumes embrace the messages and papers of the presidents, arranged in chronological order, from George Washington down to a recent date in President Taft's administration. In these messages every phase of the development of American progress from the laying of the foundation is discussed by the respective presidents. Each president in turn through his various official addresses, proclamations and messages reviews the past, depicts the present and forecasts the future of this country in a way that is most entertaining and most vital to the prosperity of the nation and the success and welfare of its individuals.

It will thus be seen that this work really constitutes a first hand authority history of the United States chronologically written in relays, each section by the particular man most suited to the task, to whom the information, public and secret, is most available and upon whom rests for the time being the most profound responsibility—namely, the president of the United States.

The presidents of the United States, in other words, have collaborated in writing the history of the country.

The eleventh volume is a historical encyclopedic treatise of the United States, besides being a complete cross reference index to the contents of the other ten volumes. We find on the subtitle page preceding each administration a statement which pretty well describes the eleventh volume, which we quote as follows:

SEE VOLUME II.
Volume II is not only an index to the other volumes, not only a key that unlocks the treasures of the entire publication, but it is in itself an alphabetically arranged brief history or story of the great controlling events constituting the history of the United States. Under its proper alphabetical classification the story is told of every subject referred to by any of the presidents in their official messages, and at the end of each story the official utterances of the presidents themselves are cited upon the subject, so that you may readily turn to the page in the body of the work itself for this original information. Next to the possession of knowledge is the ability to turn at will to where knowledge is to be found.

(To be Continued).

The Road Drag Did It.

All of us thought the roads were ruined when the freezes, snow, sleet and rain put in their work recently. Not so. Mr. D. W. Saunders who lives three miles southwest of Troy, put his mules to a split log drag and in a half a day converted what was an almost impassable road; between his place and town into the same admirable trunpike that it was before the bad weather set in. We had begun to despair of good roads, thinking them a feallure, but since Mr. Saunders has demonstrated that the most trying weather cannot deprive us of good roads long at a time, we are stronger than ever in favor of good roads.—Troy Montgomerian.

NEW YORK, Feb. 8.—Delegates representing the French societies of numerous cities throughout the country gathered in New York today to attend a dinner in commemoration of the signing of the first treaty of alliance between France and the United States in 1778 by Benjamin Franklin and the Count de Vergennes. Henry White, former ambassador to France, is announced to act as toastmaster, with Attorney General Wickersham as the chief speaker and M. Jusserand, the French ambassador the guest of honor.

COLUMBIA, S. C., Feb. 8.—The annual meeting of the South Carolina Live Stock association, which began a two days' session in this city today, has attracted an unusually large number of breeders from all parts of the state. HIS TROUBLE NOT OF HEART

Real Facts in Regard To F. R. Huffman's illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits." Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it. Insist on Thedford's. Price 25c.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
