WILSON, CLARK DIVIDE HONORS IN OKLAHOMA

A Split Delegation is Selected in Oklahoma

NEUTRAL COMMITTEEMAN CHOSEN

The Twenty Delegates to The Large Baltimore Convention Instructed to Vote Half for Clark and Half for Wilson—Best Way to Settle Difficulty.

OKLAHOMA CITY, Okla., Feb. 24.—Oklahoma's Democratic State convention, which began yesterday afternoon with all indications pointing to a bitter factional fight, ended late today in a political live feast, the selection of a split delegation to the Baltimore convention and the election of Roger Galbreath, of Tulsa, (uncommitted as to his preference for presidential nominee, as national committeeman.

The compromise which brought about the harmonious conclusion was reached early today at a conference of leaders of the factions supporting Speaker Champ Clark and Governor Woodrow Wilson, of New Jersey, after the delegates, wearied by a stormy all-night session, had recessed for a few hours to recuperate for a renewal of the fight on the floor of the convention.

BUSINESS MEN MEET IN DURHAM

Banquet Biggest Celebration Yet Attempted

MANY NOTABLES PRESENT THERE

Banquet of Retail Merchants Association Held in Durham—Best Spirit Prevails Throughout—Many Men Notable in the Business World Are Present.

DURHAM, Feb. 24.—The deferred industrial banquet of the Retail Merchants' Association here last evening, took place under the sky-light of the new Duke building with 300 men as principals and guests.

The original plans of the association were to celebrate a commercial complacency following the famous dissolution decree and the subsequent reorganization of the great tobacco industry. Durham was miles in the air six or more months ago. Nobody knew what the courts would do, nor what the effect of their decisions would be. It came and the big business divided. Immediately the word went out that there would be no lessening of the tobacco business here so far as those companies now manufacturing and buying were concerned. The banks issued statements showing a literally unprecedented prosperity the merchants became happy under the assurance that the Bull City would be no smaller noise than before and at a sort of prayer meeting conference of the merchants, they set a date in December for the second great party given by this association.

Boy Scouts Hold Enthusiastic Mass Meeting

Local Organization of the "Scouts" is now an Assured Success. Lead by Rev. C. M. Rock Boys Make Good Speeches. Dr. Chas. O'H. Laughinghouse Rev. E. M. Hoyle Mr. F. C. Harding and Mayor F. M. Wooten Address the Boys

WHIRLWIND COLLECTION BRINGS RESULTS

That the boys of Greenville hold a place in the interest of the people was shown in the large audience that gathered in the court house Friday night, at the Boy Scouts mass meeting. Yet the fact that a large majority of this audience were women, shows that woman is the boy's best friend. Possibly those men who were not sufficiently interested to be present forgot that they were once boys and would have been helped by a little encouragement from their elders, also that the boys who need their encouragement today will be the ones to soon succeed them in the affairs of life.

It was an interesting meeting and gave the boys a real uplift in their work. The scouts met at their hall and after a short drill on the street marched to the court house. They were greeted with applause as they filed in their places within the bar.

After some opening words by Scout Master C. M. Rock, prayer was offered by Mr. C. W. Wilson. Assistant Scout Master W. T. Lipscomb, Jr., explained the organization of Boy Scouts, that it first started in England but had spread to all countries of the world until it numbers 2,000,000 among its members. "Be Prepared," is their motto, and the boys endeavor to live up to this. He called on several of the boys, each of whom spoke briefly on some principal of the organization. The talks of the boys showed how well they met their motto. These were as follows:

- Honor—D. J. Whichard, Jr.
- Obedience—R. L. Humber, Jr.
- Self-Respect—Chandler Zahnizer.
- Faithfulness—Ferral Burch.
- Loyalty—Richard King.

Mayor F. M. Wooten spoke on the importance of the Scout movement to Greenville and urged that every encouragement be given the boys in their development. It had filled him with pride to observe their manliness as they marched in, and he saw in their efforts a great future for Greenville.

"The Future of Our Boys" was the subject of a splendid short speech by Mr. F. C. Harding. He said the manhood and womanhood of a community

are the units that make the nation. The manhood of today was the childhood of yesterday, the boy of today is the man of tomorrow. The future of the boy of today is whatever we make it, and depends upon how we utilize the opportunities of today.

"The Needs of the Boys of Greenville," was a subject assigned to Rev. E. M. Hoyle. He said this meeting slipped up on him, as when he was asked to make a talk he thought it was intended to be only to the boys. His subject, however, was one that could easily be spoken upon. A prime need of the boys is to get a grip on themselves—have self-control. A crisis comes when we want to do one thing and feel that we ought to do another. There is danger in letting any habit master you and lose your self control. Other needs of the boys mentioned by Mr. Hoyle were to heed the cry of humanity, learn to work, and parental restraint. His speech was frequently applauded.

Dr. C. O'H. Laughinghouse was called for a talk, and allowed to take any subject he pleased. He said it reminded him of coming in to a big banquet just as the last course had been served, and there was nothing left. He felt that all had been said that could be said. But he talked just the same, and closed with an appeal for the boys that brought results. He said it was all right to give them "hot air" but they need something more substantial. One of their needs is a good gymnasium, and he would be one of ten to contribute ten dollars for this purpose, or he would be one and let the other nine be hunted for. This brought long applause.

Prof. H. E. Austin volunteered to give an illustrated lecture at some early date to help raise funds for the gymnasium, which was accepted with applause. Scout Master C. M. Rock then made a statement of what the boys had done unaided toward equipping their quarters, and that they were in need of help to equip as they should. Subscriptions were called for and the total amounted to some over a hundred dollars. The boys were delighted.

PARKTON FIRE SWEEP

BUSINESS HOUSES ARE DESTROYED

FIVE STORE BUILDINGS ARE CONSUMED BY THE FLAMES AND LARGE AMOUNT OF GOODS DESTROYED.

FAYETTEVILLE, Feb. 24.—Five store buildings were burned and a considerable quantity of merchandise consumed in a fire which swept the business center of Parkton, 14 miles south of here, last night. The progress of the fire was arrested by a large brick structure belonging to the Parkton Mercantile company. The buildings destroyed were the property of A. Perry, H. C. McMillan and a Mr. Smith, who kept a meat market. The other businesses burned out were T. W. Thompson's two general stores, with \$1,250 insurance on stock; Fisher's grocery, with \$250, and Marley's general store, with \$2,000. The buildings were insured. It is stated that the burned area will be rebuilt with brick structures.

Market Question May Carry.

Greensboro.—That there is grave danger of the establishment of the proposed municipal meat market in Greensboro was forecasted today by Commissioner of Public Works Foushee, who though against the proposition, says that indications are the proposition will carry on February 27 by reason of the apathy manifested on the part of the great majority of voters opposed to the measure. Efforts to arouse opponents of the market to a realization of the danger of the market carrying, have proven futile.

THIEVES SMASHED HEAVY PLATE WINDOW AND EFFECTED ENTRANCE AND DEPART WITH \$300 WORTH

CONCORD, Feb. 24.—The big 6x8 plate glass window in J. C. Williford's jewelry store was smashed this morning and jewelry amounting in value to between \$250 and \$300 was stolen. Two policemen, Simpson and Sloop, were in the chief of police's offices when the glass was broken and heard the crash, but, on account of the noise caused by the terrific wind, could not locate the direction from whence it came. They went out to find the place, thinking the wind had broken the glass out of a storefront, but went up the street on the wrong side. When they came back on the opposite side, the robbery was discovered, but the burglars had secured the jewelry and gone.

To Try Millionaire Moore's Slayer.

SAN FRANCISCO, Cal., Feb. 24.—A lively public interest is manifested in the trial of Samuel R. Timothy, the Hillsborough chauffeur, who shot and killed J. J. Moore, a millionaire club man, in San Mateo, January 27. A venire has been drawn and other preparations completed for beginning the trial in the Superior court at Redwood City next Monday. Mrs. Moore, widow of the slain man, is expected to be the chief witness for the defense.

Several months before the tragedy Moore had sued for divorce, charging cruelty and other things, but not specifically accusing his wife of misconduct. Mrs. Moore filed a cross-complaint, asking for divorce on the ground of cruelty. The court denied a divorce to either. Mrs. Moore was charged with many offenses and too much familiarity with servants and others, and serious counter-charges were made. Timothy, the chauffeur who is to be tried for murder, was one of the witnesses for Mrs. Moore. The divorce suit attracted unusual attention because the name of Rear Admiral Thomas S. Phelps, retired, brought into the case in Moore's cross-complaint.

TEXAS ASKS GOVERNMENT TO SEND TROOPS

To Preserve Order and Protect American Citizens

THE SITUATION IS GROWING WORSE

Old Diaz Partisan Comes to the Front Again—Had Lately Been Admitted to Madero's Regime—Mexican Matters Assume Alarming Conditions.

WASHINGTON, Feb. 24.—Two developments in the Mexican situation, each taken to be loaded with significance, were recorded here yesterday. A request for American intervention in Mexico was made upon the war department when Mayor Kelly and a delegation of citizens of El Paso urgently asked Secretary Stimson to send American troops into Juarez to preserve order and protect Americans. Secretary Stimson replied that it was impossible under present conditions.

In a dispatch from a government official on the border, one not in the diplomatic service, it was reported that General Geronimo Trevino, in Chihuahua, had turned to the aid of the insurgents. The dispatch reads: "Have reliable information that General Geronimo Trevino will join the revolutionary forces of General Orozco and has agreed to accept provisional presidency of Mexico."

This dispatch is the first indication that the staunch old Federal General who stood by Diaz when his reign was tottering and was later accepted by Madero had turned to the insurgents.

The Mexican embassy had no advice and no official there cared to make comment. The state department received no confirmation and was inclined to treat the dispatch as a report or rumor.

FISTIC BATTLE.

L. C. Hatch and B. Shehdan Have Another Encounter.

At about half past seven o'clock Friday night, L. C. Hatch and B. Shehdan met again in fields other than of friendship. As a result Shehdan is unable to attend court and press a charge of assault against Hatch.

It is not quite clear as to what led to Friday night's meeting. Rumor has it that some days back Shehdan went on a trip north. In his store window he had some silks that he was afraid the sun might damage and for this reason he let the awning down. When he came back his awning was up. His silk and beautiful fabrics unprotected, Demon gossip blew into Shehdan's ear: "Hatch did it." It is supposed that Shehdan then said some things uncomplimentary to Hatch. Therefore his dull headache this a. m. and p. m.

Murder Mystery Unsolved.

HAMILTON, Ont., Feb. 24.—It will be three years tomorrow since the murder of Ethel Kinrade furnished Hamilton with the greatest sensation of the kind in its history and added to the criminal annals a mystery that the best detective talent in America has failed to unravel.

Ethel Kinrade, the daughter of an eminently respectable family, was slain in broad daylight in her parent's home in the fashionable section of this city. Her sister, Florence, the only eye-witness of the tragedy, from the first declared that the murderer was a tramp. Though the act appeared incredibly brutal and audacious and the motive inadequate, that version was at first accepted by the authorities. Then discrepancies in Florence Kinrade's story appeared. The actions of her family were inexplicable. The tramp story was soon discredited and discarded.

The police inquiry, while it failed to find any trace of the murdered, brought to light a remarkable condition of affairs in the Kinrade family. The investigation showed that Florence Kinrade, of attractive appearance and fond of a gay life, was the pet of the household, while the other daughter, the slain one, was the family dreg. Florence was a concert hall singer and a frequenter of gay summer resorts, while Ethel remained at home and did the work.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Owing to the turn in Mexican affairs we take pleasure in printing the following letter sent us from Mexico City by a former Greenville resident:

MEXICO, D. F., Feb. 6, 1912.

Editor Reflector:
I will take time to give you just a word about the conditions down here, or rather in the city.

Now is the only time the foreigners in Mexico City have feared any trouble since I have been here, especially the Americans. Something is going to happen. We don't know what, but it is going to be soon. A foreigner can not get a gun here from the Mexican merchants for love nor money. All of our office employees are Mexicans, and through them I have secured arms for my personal use, in case they are needed. The fact is, if all the foreigners in this city could get together in a body they could whip every native in the city in 24 hours. In case of trouble, we feel very confident that we will be able to defend our selves. As long as Madero controls the army we are safe, but if he is overthrown, "Down with the Americans." The young natives, school boys and societies, parade the streets now in bodies, carrying flags, "No American Capital Wanted." "No Immigration." Some few weak-kneed Americans have already skipped out and others are going every day. I report went out to try to keep blind tiger hunters away from that neighborhood, but since the court a few days ago sent several of the blind fellows to the roads, it seems that those that are left have opened their eyes and have quit being so blind as they used to be. They want to see their captors before they get to their dens.

There may have been enough said about Mr. E. E. Hilliard, but I want to say just a few words. He was at the church three weeks before his funeral was preached. He was a great Sunday school worker. I was told that he had Bright's disease, but strange to say that he did not suffer as most of people do with it. And the same week that Mr. Hilliard died Mrs. Susan Edwards, a very good and highly respected widow lady, and a good neighbor of this place, died and was taken out in the country about ten miles, at Lawrence, the church at which she held her membership, and was buried in the cemetery there in the presence of a large and sorrowing congregation. She was a member of the Primitive Baptist church. She was about sixty years of age.

The Baptist people held a meeting in the Baptist church here last Wednesday and I not being present in the day service did not learn the program, but at the night service the Rev. C. W. Blanchard, pastor of the Wilson Baptist church, took the stand and announced his subject that he was appointed to lecture on. It was a financial plan for the Roanoke Baptist association and he handled it with perfection and laid the plans so smooth and so plain that there was no need for any one so misunderstand.

Then came the Rev. Mr. James, of Richmond, to fill the place of Dr. R. L. Willingham, and he filled it, too. His subject was "Missions," and he done his subject justice. He made it so plain that I looks like all ought to believe in missions.

We are having beautiful weather once more.

Our business has been very prosperous here and this little excitement has got my brother very much upset. We have many thousands of dollars scattered out in this country and a long revolution would ruin us, but as I see it, we can not have any long time of it, if it does start. These people now, many of them, expected the United States to come in here any day. It has been reported on the streets a number of times and one time published in our city paper, that the United States had sent their fleet to the coast of Mexico to invade this country. The crazy natives here, some of them don't know what they want, and there are not enough of the better class of people to hold them down. Some fellow with a good voice got out and ask for followers, they flock after him, go anywhere he leads them, and do anything he commands them do.

With kindest regards, and trusting that I may have a line from you occasionally, I am,
AN EX-GREENVILLE BOY.

Scotland Neck Happenings.
SCOTLAND NECK, N. C., Feb. 24.—As I have not written for The Reflector in some time, I will try to write you a little now.

We have been having it very cold the most of the time since the new year came in and like it is in Greenville, some of the families have been almost ready to suffer for the lack of wood, but the people here are kind enough to keep the poor from suffering when its anything that they can do to keep them from it.

The snow that fell on Saturday night, of the 9th inst., was the deepest of many winters. It was reported here that Washington and Kinston had an 18-inch snow; Ayden 15-inch; Greenville 12-inch, and had only an 8-inch snow and still we had the lowest temperature of any of those places, as we have heard from them. Weldon is farther north, but the report said there was not any snow there at all. The rain came Thursday and it being a little warmer melted nearly all of the snow here.

Well, I'll tell you something about a blind tiger story. It was reported not long ago that there was a bear in the northern suburbs of Scotland Neck, and we soon learned that the report went out to try to keep blind tiger hunters away from that neighborhood, but since the court a few days ago sent several of the blind fellows to the roads, it seems that those that are left have opened their eyes and have quit being so blind as they used to be. They want to see their captors before they get to their dens.

There may have been enough said about Mr. E. E. Hilliard, but I want to say just a few words. He was at the church three weeks before his funeral was preached. He was a great Sunday school worker. Stray Topics From Little Old New York.

NEW YORK, Feb. 24.—The president of the New York tax department has submitted his preliminary report to the Mayor. Upon the report the assessment rolls for the year 1912 will be based. The report deals in approximate figures only. It shows the increase in the assessed value of real estate, exclusive of special franchises: Manhattan, increase of \$44,300,000; Bronx, increase of \$14,940,000; Brooklyn, increase of \$450,000; Queens, increase of \$11,860,000; a total of \$71,550,000. Richmond Borough shows a decrease of \$1,350,000, making the net increase of the five boroughs \$70,200,000.

To offset this there is a special franchise reduction of \$67,869,301, bringing the total net increase of the city's assessment on buildings and real estate to \$4,330,799, which means an increase in the borrowing capacity of the city about \$400,000. Considering the enormous increase in the value of real estate in this city and the gigantic debt already carried by the city this increase seems rather paltry.

The absurdities of the Sullivan gun law, which has caused so much discussion and criticism already are clearly illustrated by two cases which were recorded here within the shift—were recorded here within a few days. In one case a woodman from Maine was arrested because he was found wandering through the streets with a revolver in his hand. In the magistrate's court the man said that he had been robbed by a stranger and that he was hunting for the thief when the police arrested him. The magistrate not only discharged the man but gave him enough money to reach Passaic, where the prisoner has

friends. (In the other case the foreman of a construction company in North Carolina, who had always been in the habit of carrying a pistol for self protection, had come to New York on business. When he learned upon his arrival in the city that the laws of the state prohibit the carrying of weapons, he went to the nearest police station and, explaining the circumstances, handed his revolver to the lieutenant in charge of the station. The lieutenant promptly arrested the law-abiding man from North Carolina and, being a stranger in the city, the man had to remain in a cell all night. It is true, he was discharged by the magistrate on the following morning, but he felt keenly the humiliation of being arrested and kept in a cell all night. Moreover, he was not permitted to take his trusty gun back to North Carolina with him, although he was assured that the police would send it to him by express.

It does not happen very often that a man falls head first down an elevator shaft from the eight floor of a building and lives to tell the tale. An Irish steel worker, employed in the erection of twenty-five story office on Maiden Lane had that rare and rather exciting experience the other day. While fixing the doors to the elevator shaft on the eight floor the man stepped on a loose plank and shot head first down the shaft, followed by several boards and a big pane of plate glass. Fortunately for him he became entangled in the cables suspended in the shaft which broke his fall and saved him from being dashed to pieces when he reached the top of one of the elevator cages on the ground floor. A few cuts and bruises were the extent of his injuries.

I carry only the best—prices are always right!

Horse Dies of Grief.
It is not entirely a new story as to the almost human traits found in some dogs and horses, but it is not often that their tenderness of heart and sympathetic natures are made manifest to such an extent as to be fully impressed on our finite minds. One striking illustration that such is the case occurred in Harrodsburg last week. "Charley" and "Jim" were a pair of big strong, stylish sorrel horses, the property of Mr. I. C. James, the liveryman. They were half-brothers, looked very much alike and had been together since colt-hood. In fact, the whole seven years of their lives had occupied the same stable and trotted side by side with scarcely an exception. On Saturday week "Charley" died suddenly. "Jim nickered all night and the next day, and, although fed the most tempting food, he ate but little and seemed to droop and pine for his partner. Last Thursday he began to show signs of stiffness, put his nose in the corner and stood pressing it against the walls. Finally he came to the front of the stall, put his head on the rail, nickered once or twice and fell over dead. Mr. James and his stable men are firmly of the opinion that poor "Jim" died of grief, pure and simple.—Harrodsburg, (Ky.) Leader.

The World's Most Perfect EAR of CORN

The Unique Story of its Discovery

PLANS FOR THE GREAT NATIONAL CORN SHOW IN 1913

"Just a countryman—that's all," So there's the story of the champion ear as Palin told it himself. And on the strength of it who will say that Fred C. Palin doesn't justly merit the title, "The Man who Knows Corn?" Mr. Palin's real experience as a farmer began about sixteen years ago. He had been on the road as a grocery specialty salesman, when he took a notion that he would rather be an agriculturist, so he took a few short courses at Purdue University and rented a portion of the farm he now occupies. Nine years ago he began carefully breeding this new variety of corn. For

The World's Greatest Ear of Corn

VARIETY—Palin's Corn Flake Yellow. (Named after winning the W. K. Kellogg Trophy).
A HYBRID—The seventh year production.
PARENT PLANTS:
Male—Reid's Yellow Dent.
Female—Alexander's Gold Standard.
DIMENSIONS—Length, 10 1-8 inches. Circumference, 7 3-4 inches. Number of rows, 20. Length of kernels, 3-4 of an inch. Width of kernels, about 3-8 of an inch. Thickness of kernels, 1-6 of an inch. Arrangement, very uniform, kernels running in rows the entire length of the ear without a misplaced grain, holding their length well to the ends of the ear, tip being well covered with dented grains. Weight, 20 ounces. Estimated proportions—corn, 92 per cent; cob, 8 per cent.

The champion ear of corn was not an accident. There can be no greater lesson in the value of careful study and painstaking selection of seed and breeding than the experience of this same Palin. The farmer who thinks he stands a chance to go into his corn field and by a piece of luck pick out an ear which Nature has fashioned even more perfectly and with it wrest the honors from this Indiana man, cannot do better to disabuse his mind of this fallacious notion than to read the story of Palin and his champion ear.

FRED C. PALIN.

In the first place, Palin knows corn. If there were no more proof of this fact than the bare story of the development and discovery of the champion ear, it would be enough. And in proof of this fact, here is the story as he told it himself:

"It was in November, 1910, and we were just harvesting our crop. The weather had been good, but we were a little late with the harvest. The men were going in the usual way gathering the corn, and the harvest was a promising one.

"We have a sort of corn show at my farm all the time, and there is always an award for exceptionally good ears of corn—ears sufficiently true to type to permit of their being exhibited. There is a small box on every corn wagon in which the most perfect ears are thrown. These, when properly selected, constitute the seed corn, and among these more perfect ears we occasionally find an ear that we are willing to exhibit in a contest.

"On the day the champion ear was found, I was at the house, and at dinner time one of the men brought it in and laid it, with a number of other ears, upon the window sill in the well room for me to take and put away in the seed house.

"Well, I said, 'do you think that you've got a good ear there?'

"It looks to me like a good ear," he said. "What do you think of it?"

"I picked it up and looked it over.

"Well, I said finally, 'I think it is the most perfect ear of corn I ever saw. It's good enough to win the A. W. Kellogg \$1,000 trophy this year at Omaha.'

two years he planted two rows of Reid's Yellow Dent, then two of Alexander's Gold Standard, detasseling the Gold Standard. From the detasseled rows he picked for seed only the ears carrying the characteristics he wanted to reproduce, planting these in breeding plots and maintaining careful selection, so that in nine year's time he had developed a well-settled type.

The Palin champion ear was the first winner of the W. K. Kellogg National Corn Trophy, a handsome silver and enamel cup made by Tiffany of New York at a cost of \$1,000. Mr. Kellogg as the originator and manufacturer of Toasted Corn Flakes naturally has a deep interest in the development of the higher grades of corn, for the company of which he is president, the Kellogg Toasted Corn Flake Co., requires ten thousand bushels of corn a day for the making of its product. The Kellogg trophy was offered to be awarded in annual competition for the best single ear of corn until won twice by the same producer. The fact that the Kellogg product is made only from selected white corn, while the winning ear was of a pronounced yellow type, was a peculiar feature.

The Kellogg trophy was won in 1910 at Columbus, Ohio, by R. A. James, of Charleston Ill., with a magnificent ear of Reid's Yellow Dent, but not so perfect an ear as that which originally won the trophy and which has become known as "the best ear of corn ever grown."
