MEXICANS RECEIVE WARNING

American Government Demands
That American Property
And Life be Protected

U. S. AWAITS ANSWER

WASHINGTON, April 15.—Warning was issued today by the United States to the Mexican government, as well as to General Pascual Orozco, chief of the Revolutionary forces that "it expects and must demand that American life and property, within the Republic of Mexico, be justly and adequately protected, and that this government must hold Mexico and the Mexican people responsible for all wanton or illegal acts sacrificing or endangering American life or damaging American interests.

Acting Secretary Huntington Wilson of the State Department, who today issued special instructions to Ambassador Henry Lane Wilson at Mexico City and Marion Letcher, American Consul at Chihuahua, authorized the statement that intervention was not contemplated by the United States.

Ambassador Wilson was ordered to communicate at once the views of the United States to the Mexican minister of Foreign affairs and a copy of Marion Letcher, American Consul at his instructions was likewise sent to Chihuahua, with special representations addressed to General Orozco.

HOSIERY MILL DESTROYED

PLANT AT KENNERSVILLE BURNS

EMPLOYEES ESCAPE UNHURT AS FIRE DESTROYS BIG PLANT DAMAGE IS ABOUT \$70,000.

KENNERSVILLE, April 15.—The American Hosiery mill owned by O. W. and J. G. Kerner, was destroyed here today by fire. The fire originated on the third floor from some unknown cause. It was discovered about 11 o'clock and within ten minutes the entire floor was in a blaze. All of the employees some 60 in number escaped unhurt. Something like 12 or 15 knitting machines, worth possibly \$250 each were removed from the building. A part of the wall on the east end of the factory fell, while all the other walls are standing they are so swayed from the intense heat that they are expected to fall any moment.

The loss will doubtless total \$65,000 or \$70,000 with very little insurance. Messrs. Kerner Brothers has just recently purchased the building from the estates of J. C. Roberts and J. W. Beard.

A row of six tenant houses situated near the factory belonging to Dr. C. C. Sapp, were saved by the use of a Chemical engine, the town purchased last fall.

Discharged Accident- ally Kills Negro

As a Result of a Tug of War Over a Pistol One Young Negro is Dead. Accident Took Place Near Washington. Hold Boy Who Had the Gun.

WASHINGTON, N. C., April 15.—News reached here this morning of a killing which took place near Cherry's Run bridge, this county, either late yesterday or last night. It seems that Arnick Blount, a fifteen year old negro boy and William Bryant, also black, are about the same age, were playing with a pistol and William Bryant tried to take the pistol away from Blount in the scuffle it was discharged, the ball entering the right eye of Arnick Blount and death resulting almost instantly. Dr. Jack Nicholson, the county coroner, went to the scene and viewed the body, but deemed an inquest unnecessary and ordered the boy buried.

Iceberg Struck Deadly Blow to Monster Ship Titanic and Terrible Loss of Human Life Results.

675 REPORTED SAFE FROM A TOTAL OF TWO THOUSAND

Hope Still Held That the Allen Liners Virginian and Parisian May Have Saved More Lives. Wireless Communication Intermittent. Titanic Sunk Within Four Hours of Being Struck. American Notables on Board.

(Special to Reflector)

NEW YORK, April 16, 2 o'clock.—It has been positively ascertained that 800 people were saved from wreck of Titanic.

First intimation of the tragedy of the Titanic off the New Foundland was received at The Reflector office shortly after five o'clock yesterday evening. The concise wire simply reported the accident and afforded no details whatever as to loss of human life. Later reports confirmed the accident and subsequent sinking of the Titanic, but led to believe that through her wireless apparatus she had been able to summon assistance from neighboring vessels and that the transfer of passengers and crew had been speedy and safe. Still later dispatches sent broadcast by the United Press reported that the loss of human life was the largest in the history of marine disaster, placing the figure of human toll at 1500. It is yet hoped that these numbers will prove incorrect and that several vessels which answered the Titanic's summons for help picked up a greater number of passengers and crews but that owing to the area covered it has not been possible to establish communication with all of them.

The Titanic, on her maiden voyage from Liverpool to New York had a safe passage until nearing the coasts of New Foundland where she met many icebergs. An unusual number of these dreaded floating mountains having been already reported by other steamers along the Atlantic ports. The colossal iceberg which struck the Titanic at 2:20 o'clock Monday morning emerged some 225 feet from the water. Scarcely four hours after being struck the Titanic sunk to the bottom. Immediately after the accident all life boats were manned and women and children lowered to them. Later these life boats were picked up by the Carpathia which was the first steamer to answer the frantic appeals for help sent out by the wireless of the Titanic.

The White Star Line officers at New York were unable to learn any definite details about the tragedy as wireless communication was imperfect. First news reached the vice president of the steamship company at 7 o'clock Monday morning, a wireless being relayed from Cape Race, New Foundland, about 400 miles from the place where the Titanic was sunk. The message was brief. "Titanic sunk off New Foundland Coast—Carpathia on way to New York with survivors." At first no fear of loss of life was entertained as the Titanic was fitted with every modern device to withstand sinking and even should this take place enough time could have been gained to allow ships at a great distance to reach her and save the passengers and crew. Later reports partially destroyed the hopes entertained by the White Star officials, as they reported that only 675 souls, mostly women and children had been picked up by the Carpathia on arriving at the scene of the disaster.

Last night Mr. Franklin, vice president of the company received a more detailed dispatch from Cape Race, but refused to give out information, admitting however, that "there had been a horrible loss of life."

Some of the well known Americans on board the Titanic were: Mr. and Mrs. John Jacob Astor, Major Archibald Butt, aide to President Taft; Charles M. Hayes, president of Grand Trunk Pacific of Canada, his wife and daughter; W. T. Stead, Benjamin Guggenheim, F. D. Millet, the artist, and J. G. Widener, of Philadelphia; Mr. and Mrs. Isidor Straus, J. B. Thayer, vice-president of the Pennsylvania Railroad; J. Bruce Ismay, Henry B. Harris, the theatrical manager, and Mrs. Harris, and Col. Washington Roebling, builder of the Brooklyn Bridge.

Farmers' Consolidated Tobacco Co., Meets

The ninth annual meeting of the stockholders of the Farmers Consolidated Tobacco Company was held today in the Star warehouse. Owing to the busy time with the farmers, the attendance at the meeting was not large.

The statements of the officers for the past year showed satisfactory progress of the business of the company, with its standing the best of any time in its history. In the nine years the company has been doing business the stockholders have been paid cash dividends amounting to 149 1-2 per cent, or an average of about 17 per cent per year. The board of directors decided not to pay a cash dividend this year, as some very extensive improvements are to be made to the property in enlarging the warehouses, and it was best to do this out of the net earnings of the past year, rather than pay out the earnings in dividends and make the improvements on a credit to be paid out of the earnings of the next

year's business. The stockholders present expressed their approval of this course.

It certainly shows a fine business that can pay cash dividends of 149 1-2 per cent in nine years, hence to pass the dividend for one year and use the earnings to make such improvements as will put the company in position to do even a larger business, was the wise thing to do. The officers of the company have conducted its affairs admirably and along strict business principles and it holds a high place in the estimation of the stockholders and the people and the financial institutions with which it does business.

The term of two directors having expired, R. J. Cobb was re-elected to succeed himself, and J. J. Elks was elected to succeed S. M. Jones.

The officers of the company are: O. L. Joyner, president. T. R. Hodges, vice president. W. H. Dail, Jr., secretary. R. J. Cobb, treasurer. B. B. Sugg, auditor. Directors—O. L. Joyner, T. R. Hodges, W. H. Dail, R. J. Cobb, J. Marshall Cox, J. J. Turnage, C. D. Smith, S. V. Joyner, E. E. Dail, A. A. Forbes and J. J. Elks.

Episcopal Church Congress.

ST. LOUIS, April 16.—With many of the leading bishops, rectors and laymen of the Episcopal church, present from all parts of the country, the annual national Episcopal Church Congress was opened in this city today with a service of holy communion. The congress will be in session four days.

The congress, which has no legislative function, is held principally to provide a forum for the free discussion of live topics by all classes of churchmanship. The principal subjects scheduled for discussion by the present congress are: The good and evil of trades unions, the sanctity of marriage, the possibility of unity in church government, official censorship in the interest of morals, conversion as a Christian experience, and music as an aid to religion.

Sun to Hide Her Face.

WASHINGTON, April 16.—Observers of the celestial spheres are today discussing the eclipse of the sun which will occur tomorrow. Theoretically, it is a total eclipse, and will be visible only in the eastern states and eastern Canada. Persons living west of a line drawn through Pembina, N. D., Sioux City, Memphis and Pensacola, will not be able to witness the phenomena. Washington astronomers are apathetic regarding the eclipse, for the reason that it will begin before sunrise in this section.

SALISBURY MEETING CLOSES

Great Enthusiasm Reigns at Closing of Sessions of the Baraca Philatheas

CHARLOTTE GETS NEXT

SALISBURY, April 15.—The state convention of the North Carolina Baraca and Philatheas closed its session here tonight amid scenes of wild enthusiasm on the part of 750 delegates present.

The Baracas had 325 delegates from 95 towns, with 150 classes, including 9 denominations. The 425 Philatheas represented 100 towns, 175 classes and 9 denominations.

The State officers for the Baracas elected tonight were: President, J. D. Berry, of Raleigh; first vice-president C. W. Tillet, of Charlotte; second vice-president, G. T. Stephenson, of Winston-Salem; third vice-president, E. J. Schantz of Durham; fourth vice-president, E. C. Greene of Asheville; secretary and Treasurer, W. M. Combs of Greensboro.

The Philatheas state officers were: President, Miss Hatie Lyon of Oxford; first vice-president, Miss Kathleen Ware of Asheville; second vice-president, Miss Winona Massey of Clayton; recording secretary, Miss Ruth Porter of Charlotte.

Miss Flossie Byrd of Asheville, was elected general secretary of both the Baraca and Philatheas organizations. Charlotte and New Bern each presented earnest invitations for the convention next year. The matter was left to the executive committee which decided in favor of Charlotte.

The closing address was by Dr. W. L. Potat of Wake Forest.

ALAMANCE FOR ROOSEVELT

DELEGATES INSTRUCTED FOR HIM

ROOSEVELT SUPPORTERS CONSTITUTED AT LEAST 95 PER CENT OF CONVENTION

BURLINGTON, April 15.—The Republican convention for Alamance county was held at Graham, Saturday, April 13, at 2 o'clock and the delegates elected to the state and congressional conventions were instructed for Theodore Roosevelt.

The Roosevelt supporters constituted at least 95 per cent of the convention and the resolution instructing the delegates to cast their votes for an instructed delegation of the national convention was greatly applauded and passed without dissenting vote. After the regular business of the convention was transacted, Erwin Holt, of Burlington, was called on for a speech and for fifteen or twenty minutes he entertained the convention with a most instructive talk in support of his candidacy of Mr. Roosevelt. In the course of his remarks he said that Mr. Roosevelt is in a class by himself, not only politically, but also physically, morally and spiritually and he said that he believed that an eminent divine in Baltimore was right when introducing Mr. Roosevelt, he said that Mr. Roosevelt was the gift of God. Mr. Holt's speech was very heartily applauded and the sentiment for Mr. Roosevelt in this county seems to be increasing with the days.

EASY MONEY FOR FARMERS.

The finance committee has reported favorably to the United States senate the Gronna resolution. It provides for a national commission on farm finance, to consist of three members and to be limited to one year. It is to investigate and report upon the systems of co-operative land-mortgage banking and co-operative rural credit unions, which have achieved such stupendous success in Europe.

If this class of institution can be enjoyed by American farmers, the result will be of profound importance, says an editorial in Farm and Home. The Nashville conference, which considered this problem, takes the same view. An official report of the British government says that these methods of co-operative rural credit are "a modern discovery which may be likened, as a factor in production, to the discovery of steam."

Some millions of farmers in different European countries are members of thousands of local and provincial credit unions that make a business of reasonable loans to farmers at reasonable rates. In Germany alone, these rural banks are doing a business of \$5,000,000,000 annually. Foreign co-operative land-mortgage banks do a still larger business, enabling farmers to borrow money on mortgage at 3 1-2 to 4 1-2 per cent and encouraging them to repay it by installments, so that in due time the farmers own his place free and clear of all incumbrance.

Abroad, these institutions are the outgrowth of over 150 year's experience. Their successful development in this country, declares Farm and Home, may be productive of more good than all the political reforms now agitating the public mind.

The national commission on farm finance should present all the facts, so that the farmers in the respective states may succeed in their financial co-operation. The report should suggest what state laws are needed and also whether any national legislation is called for to promote the most effective progress of co-operative farm finance.

Severe as was the winter, it did not kill out the tribe of flies and mosquitoes. Both have already begun to put in their work.

The first part of the year is putting enough good things on the way for Greenville for the town to afford to celebrate the 4th of July. What say you?

The reference to the tariff question in the speech which ex-Governor Aycock had written, is about as clear as could be expressed by any man.

The man who does not work nor talk of his town is not worth much to it.

This is My Birthday

Horace Porter.

General Horace Porter, who is to deliver the oration in Washington this week at the unveiling of the John Paul Jones memorial, was born in Huntingdon, Pa., April 15, 1837. His career has been eventful and interesting. He entered the West Point Academy in 1855 and was graduated in 1860. The next year he joined the expedition under Sherman and Dupont against Port Royal. He saw more service in the James Island expedition, as chief of ordnance under McCullen, at Harrison's Landing, at Antietam, Chattanooga, Chickamauga and other fields. In 1873 General Porter became vice president of the Pullman company. His ability in great business affairs is as marked as was his capacity as a soldier. He has been connected with many important railroads, financial concerns and commercial enterprises. From 1897 to 1905 he was American ambassador to France. He is an accomplished linguist, a fluent writer and an eloquent orator.

Northwestern League Starts.

SEATTLE, Wash., April 16.—The Northwestern League started the season of 1912 with all signs pointing to an interesting and spirited race for the championship pennant. Since the close of last season all of the teams have strengthened their weak spots with the possible exception of Spokane, which is minus several of its best hitters of last year. In the opening games today Tacoma plays at Vancouver, Victoria at Spokane and Portland in Seattle. The season's schedule calls for 170 games, with September 27 as the closing date.

WITH OTHER EDITORS

The Underwood interests and organs in Georgia joined Friday morning in scattering abroad an alleged interview with William F. McCombs, Governor Wilson's campaign manager in which Mr. McCombs was erroneously credited with having said that he would bolt the Democratic party, if Champ Clark should be nominated. The circumstances of the effort to foist this canard upon the public are worth nothing for the reason that they reflect the general methods employed by the anti-Wilson machine in this and other states.

The unwarranted interview appeared originally in a New York paper on the evening of April the tenth, Wednesday. Mr. McCombs promptly disavowed having made any such statement as was ascribed to him. On Thursday afternoon his denial was published and a few hours later was current in Washington. Indeed, the paper originally carried an editorial note, admitting that the statement in question had not been made by Mr. McCombs. Such was the status of the situation on Thursday when the Washington press agents of the Underwood campaign instigated, it is said, by Senator Bankhead, Mr. Underwood's manager, sent broadcast the unfounded story, which was read by Georgians Friday morning.

This is a sample of the tactics now being employed by the Underwood machine to hoax the people of this state into voting for a puppet candidate.

This fake interview, mark you, was dispatched and published after Mr. McCombs had emphatically disclaimed it and had declared: I am a strict party man and shall, of course, enthusiastically support whomsoever the Democratic party may nominate.

Nor did the anti-Wilson organ stop at printing the untrue statement after it had been positively denied and disproved. They went further and intimated that Governor Wilson himself shared part of the sentiment falsely imputed to Mr. McCombs.

When politicians resort to such tricks, the cause must, indeed, be desperate.

This particular canard is part and parcel and many others which the interests back of the Underwood can-

didacy in Georgia have attempted from the very outset of their campaign.

It matches their recent assertion, through an anonymous circular, that Governor Wilson did not vote for the Democratic nominee in 1908.

It is on par with their claim that Mr. Underwood is due credit for the free sugar bill in congress.

It pairs with their noisy predictions that Governor Wilson would fall to get the support of New Jersey for the national convention. The fact is these interests began their campaign as a colossal sham and they are continuing it as a series of petty deceptions.

They have been unable to offer the Democracy of this state one real reason why it should fling away its vote in the Baltimore convention to a candidate who has no chance of being nominated or elected and who has been put into the field solely for the purpose of serving the ends of a political clique.

The jesting Pilate, we are told, asked "What is truth?" and did not pause for answer. The interests behind the Underwood campaign in Georgia have not even conceived of such a question.

Regardless of the facts, regardless of the national situation which itself eliminates Mr. Underwood from any chance in the convention, they continue their effort to palm off upon the people all manner of deceptions. By their latest hoax in connection with the unwarranted McCombs interview, the entire fabric of their campaign may be judged.

But the Democrats of this state will not be misled. They have measured the candidates. They have found that of all the aspirants to the nomination Mr. Underwood is the weakest, that he is not even in the contest, save in a few states of this immediate territory and that in those he has been put forward by influences which are the party's worst foes. They found on the other hand that Woodrow Wilson is the one truly national leader, the one man who can be nominated and elected and they realize that by supporting him they can send to the White House a family of their own people.—Atlanta Journal.

TO DEBATE FRIDAY.

The Henry Clay debating Society of the graded school will hold a debate with Washington next Friday night at eight o'clock. The debate will be held in Greenville in the auditorium of the graded school. The public has a cordial invitation to attend the debate.

The query is, Resolved that United States senators should be elected by direct popular vote. The Greenville boys have the affirmative, which will be upheld by Messrs. Milton Pugh and David Whichard. These young men have their speeches prepared and they are spending a portion of each evening at the graded school in rehearsals.

It will be remembered that Greenville and Washington held a joint debate in Washington two years ago and that the Greenville boys carried off the palms. They are very hopeful of wearing the laurels again.

The committee will be composed of men who do not reside in either town. All three of them are highly educated gentlemen and we are confident that their decision will be a fair and impartial one.

The members of the debating society are very hopeful that a large number of people will come out to hear the discussion. Greenville vs. Washington always arouses much interest here and we hope the debate Friday night will not be an exception. The boys believe they are going to win and they want their friends to be present to witness the contest.

Beware of Ointments for Catarrh That Contain Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.
