

BIGGEST BREAK YET IN MARKET

ABOUT 250,000 POUNDS AUCTIONED TO DAY AT 5 WAREHOUSES

The biggest break yet "came off" today in the Greenville Tobacco market when the five warehouses opened their doors to the army of buyers with something like 250,000 pounds of the fragrant weed to be bid for. The affluence of farmers to town last night gave a good sign of what today would bring, still throughout the early morning carts and wagons

streamed from all the roads and all added their mite to the big day. As has been the case since the opening day big prices prevailed at all the warehouses and many a farmer went home this afternoon with the price of his labor in cold cash. The market people are looking out for a big day tomorrow.

FIVE COMMISSIONS

WILL GET ON JOB

PARCELS POST TO BE ONE OF THEM

AS SOON AS PRESIDENTIAL CAMPAIGNING IS OVER INVESTIGATIONS WILL BEGIN

WASHINGTON, Aug. 28.—After the heat of the political campaign is over, five joint commissions of Senators and Representatives will begin investigations of special work allotted to them by Congress.

Still another commission, authorized by Congress to investigate the whole subject of industrial relations, to go into the conditions of labor and frame recommendations for comprehensive legislation to remedy what may be found to be evils, will be appointed by President Taft before long. This commission will have several years in which to conduct its work and report while the others are expected to report to the next session of Congress.

The commissions expected to meet in November, probably in this city are:

For investigation of conditions surrounding the sale of American grown tobacco to foreign markets; Senators Martin, Lodge and Brandegee; Representatives Flood, Stedman and McKinley. This inquiry grows out of the charges that five foreign governments have taken steps to discriminate against American tobacco.

Parcels Post; Senators Briggs, Brisson and Bryan; Representatives Finley, Lewis and Gardner (New Jersey). This commission will inquire into the whole subject of parcels post and express views as to the policy of enlarging the systems authorized under new postoffice appropriation law.

Pneumatic tube postal service; Senators Guggenheim and Smith (Georgia); Representatives Blackmon and Murdock. The commission will consider and make recommendations as to the feasibility of government ownership.

Railway mail pay re-adjustment and proposed changes on postage on second class mail; Senators Bourne, Richardson and Bankhead; Representatives Lloyd, Tuttle and Weeks.

Good roads; Senators Bourne, Penrose, Gronna, Swanson and Overman; Representatives Shackelford, Lee, McGillicuddy, Mann and Austin.

The feasibility of government aid in road construction in the various states, and parts of states, including the desirability of the Federal government establishing certain good roads of its own will be investigated and reported upon.

Toledo Gets Clover Leaf Offices

TOLEDO, O., Aug. 29.—Today saw the removal of the general offices of the Toledo, St. Louis and Western Railroad from Chicago to this city. The change, is one of the results of the separation of the Clover Leaf system from the Chicago and Alton, brings to Toledo about fifty of the road's principal executive officials and their subordinates. It is reported in railroad circles that the change in headquarters and the general shake up among the high officials will be followed at once by the beginning of a vigorous campaign to increase the traffic of the road.

STATE REPUBLICANS

HAVE TWO ELECTORS

DOUBLE CONVENTION FOR CHARLOTTE

ROOSEVELT AND TAFT FOLLOWERS HAVE IT OUT AND FURTHER SPLIT THE G. O. P.

ASHEVILLE, Aug. 28.—Measurably an accord has been reached between leaders of the Taft and Roosevelt forces whereby all hands will support the state and county tickets. The managers will then agree, very amicably, to disagree, whereupon a double header convention will be held at Charlotte with a view to placing in the field separate Taft and Roosevelt electoral tickets. Roosevelt adherents, it would seem, are not to be excommunicated after all, there having been appreciable softening of the state committee disfranchising edict, or bill, this latter term being used in the ecclesiastical rather than in the bouvine or moose sense.

The middle of the road Progressive supporters of Colonel Roosevelt have thus far taken little if any hand in these friendly negotiations which have reached the formal if not final stage and which for the present removes the danger of the Republican party breaking up in a hopeless row at Charlotte, but it is believed that the Progressives and the Roosevelt Republicans will have no trouble in agreeing upon the same set of electors.

Mr. Pearson, Republican national committeeman, said today that some highly important accessions had been made to the Roosevelt ranks in a number of eastern counties and that a serious fight would be made in the state to capture the electoral ticket.

Farmers at Raleigh Elect Officers

RALEIGH, Aug. 28.—At the business session tonight the farmers recommended that the legislature pass a state wide dog tax law, state wide stock law, the Torrens land system and convicts be worked on the roads. The convention memorialized the legislature not to divert revenues from fertilizers and feed taxes from the department of agriculture, indorsed the plan for a monument to Dr. Seaman Knapp and passed other resolutions. Officers were elected as follows:

President, I. W. Spruill, of Bertie county; first vice president, E. B. Moore, of Charlotte; second vice president, J. H. Currie, of Fayetteville; secretary-treasurer, I. O. Schaub, of Raleigh.

North Carolina Lady Killed By Auto

NEW BERN, Aug. 28.—A telegram received here today from New York stated that Miss Lillie Lette of this city had been instantly killed and Miss Ebling and Ralph McCausley, of New York, were seriously injured when a touring car in which they were riding were overturned. The party were returning from Rye beach and the car skidded on a freshly oiled roadway. William Metzger, the chauffeur, lost control of the machine which turned turtle. Miss Lette was caught beneath the car and her neck broken.

She came to New Bern several years ago from Chase City, Va., and had been conducting a fashionable millinery establishment here.

WILSON CONFERS ABOUT THE TRUSTS

Reconstructive Policy is to be Followed

LOOK AFTER SHERMAN LAW

Democratic Nominee for the Presidency Finds Staunch Following Amongst the Italians in This Country

SEA GIRT, N. J., Aug. 28.—Trust legislation, constructive rather than destructive and immigration were among the subjects to which Governor Woodrow Wilson gave his attention today. He talked about trusts with Louis D. Brandeis, of Boston, and expressed himself on immigration before a delegation of Italians from Essex county, N. J.

Mr. Brandeis had luncheon with the governor and was with him nearly two hours. Mr. Brandeis declared, as he left the executive's cottage, that he was a progressive in politics and that the governor was his idea of a progressive.

We discussed social and industrial problems, said Mr. Brandeis, and naturally the Sherman anti-trust law. We took up the La Follette-Lenroot bill, the Oldfield bill and other measures to amend the Sherman law, but concluded that none of these went far enough. Governor Wilson is a constructive statesman able to solve these problems and I found him in accord with my views on the trust question. We talked about the defects in the third party platform. It was a talk about the best interests of the workman.

Mr. Brandeis said he probably would make a number of speeches in behalf of Governor Wilson, discussing the trusts and tariff.

Both of us, said Governor Wilson tonight discussing his conference with Mr. Brandeis, have as an object to prevent monopoly. Monopoly is created by unregulated competition, by competition that overwhelms all other competitors and destroys them and the only way to enjoy industrial freedom is to destroy that condition.

With reference to the Sherman anti-trust law, the governor was asked whether Mr. Brandeis had proposed means of strengthening that law.

"Not so much to strengthen it," replied the governor, "as to supplement it. We want a law that will assist people in their business instead of tying them up."

The governor declared that Mr. Brandeis more than any other man whom he knew had studied corporate business from the efficiency to the political side.

I drew him out for my own benefit, remarked the governor.

Representative C. D. Carter, of Oklahoma, talked with the governor today about the possibility of an extra session in March if he were elected. Mr. Carter said that tariff legislation would proceed no further with a Republican senate in the next session beginning in December and that to put reforms into effect immediately the Democratic administration would have to call an extra session.

That's looking pretty far ahead, said the governor with a smile.

The delegation of Italians through their spokesman, Antonio Petroni, told the governor that those who had seen fit to criticize his views on immigration had made a mountain out of a mole hill. Intelligent Italians, said Mr. Petroni, prefer to have their own opinion in the matter and are willing to allow the historian the latitude that writing of impartial history requires. Intelligent men do not construe intelligent criticism as reproach.

The governor in his response said: In my history I referred to conditions which did exist when I wrote and which afterward were corrected by legislation. These abuses were brought about mainly by steamship companies attempting to force immigration and I believe in legislation that will correct all abuses. I am learning all the time and the chief benefit of my present occupation is that I am informing myself and enlarging my education. I hope to be at it long enough to learn from people like yourselves things that really are.

COLE BLEASE IS NOMINATED

Incumbent Wins By A Big Majority of Votes

1000 AHEAD OF JUDGE JONES

Governor Receives a Vote of 67,245 Whilst His Opponents, Jones and Duncan Get Together only 66,108 Votes

COLUMBIA, Aug. 28.—Practically complete returns from the Democratic primary held yesterday in South Carolina, indicate that Governor Cole L. Blease has a majority of over 1,100 votes in the race for the nomination for governor. Reports have not been received from 59 precincts. The figures are:

Governor Blease, 67,245; Ira B. Jones, 64,072; John T. Duncan, 2,036. The total vote reported is 133,353. The indications are that the vote for the state will total 136,000. The largest vote on record is approximately 110,000.

The returns received show that Senator Tillman has been reelected over his two opponents. There will be a second race between J. Fraser Lyon and Thomas H. Peebles for attorney general. S. T. Carter has been elected state treasurer. John G. Richards, Jr., very probably will be elected on the first ballot over two opponents as railroad commissioner. Representative Elerbee, in the Sixth congressional district, has come back strong and is running neck and neck with J. W. Ragsdale.

Successful Operation Performed in Charlotte

CHARLOTTE, Aug. 28.—By successfully performing an operation that has never before been attempted in the south, Dr. R. S. Cauthen, assisted by Dr. Owen Moore, today saved the life of William Ward, a three-year-old negro boy of Concord. The little negro had swallowed a watermelon seed and the seed had become imbedded in the winpipe an after staying there two days had sunk to a point at which the lungs branch off. Had it remained much longer pneumonia would have developed with fatal results.

The boy was brought here to the Good Samaritan hospital, where Drs. Cauthen and Moore made an incision in his throat, illuminating the farther extremity of the trachea with a tiny electric light, by which they located the seed and then proceeded to extract it. The child is doing well and will recover.

Appeal Stays the Hangman

LINCOLN, Neb., Aug. 29.—Albert Prince, convicted of the murder of Deputy State Prison Warden E. B. Davis, was one of the hapless inmates in the Nebraska penitentiary today. Prince was to have been hanged tomorrow, but an appeal to the supreme court has acted as a stay of execution and he is assured of at least six months more of life. His crime was committed last February and marked the beginning of a series of tragedies at the state penitentiary, in which four officials and three convicts were killed.

Development Association Meeting

SOUTH BEND, Wash., Aug. 29.—The construction of good roads, the improvement of transportation facilities and other plans for the attraction of desirable immigrants to aid in the industrial development of this section are to be exhaustively discussed by the Southwest Washington Development Association, which met in this city today for a three day's session. An organized publicity plan to aid the movement will be proposed for consideration.

Governor Wilson left here at 5:30 o'clock for Philadelphia where he planned to spend the night continuing early tomorrow to Harrisburg and Williams Grove, Pa. At the latter place he will deliver his first campaign speech outside of New Jersey and will deal especially with the tariff and the relation of the farmer to the government.

AMERICAN MARINES SUCCESSFUL AGAINST NICARAGUAN REBELS AT CORINTO

N. S. EXTENSION BEING PUSHED

Projected Line From Norfolk to Charlotte Progresses

NORWOOD, Aug. 28.—Work of completing surveys for the extending of the Norfolk Southern railroad to Charlotte continues without abatement and it is understood that actual construction work will start within about thirty days. This new line means a great deal to this section and the people are looking forward to its coming with a great deal of interest. With the Southern covering the territory to Salisbury, the Atlantic Coast Line from Florence, S. C., to Winston-Salem, the Norfolk Southern will complete the circuit by passing through a very fine undeveloped country to Charlotte. Norwood will be the center of all this development and the citizenship is naturally optimistic of the prospect of great improvements, increase in population and a general boom in every way.

E. C. Duncan, one of the leading spirits in the movement for making the Norfolk Southern a trunk line from Norfolk to Charlotte, via Raleigh, Washington, Elizabeth City and other cities of Eastern Carolina, was here Monday with a party of railroad officials. An informal meeting of the business men was held and Mr. Duncan made a talk on the situation. The question only now it seems, is the depot site and this week will probably see the close of all details or the beginning of work.

One Negro Lawyer Resigns Membership

MILWAUKEE, Wis., Aug. 28.—The race question again came up before the American Bar Association today. Wm. R. Morris, of Minneapolis, one of the three negro lawyers who had been unseated by the executive committee and this ruling reversed by the association, sent a telegram announcing his resignation, saying it was based on an entirely unselfish consideration of the best interests of the association.

On motion of Joseph Merrill, of Thomasville, Ga., the resignation was accepted.

"I am opposed to the admission of negroes to this association," said Mr. Merrill, "but I want to express our appreciation of his dignified attitude in resigning."

Morris was one of the negro members who had been unseated by the executive committee because of their race. One of the others was Wm. H. Lewis, an assistant United States Attorney General, who still retains his membership.

Better Telephone System for Scotland Neck

SCOTLAND NECK, Aug. 28.—C. A. Johnson, vice president; Geo. A. Holderness, secretary and treasurer; C. P. McClure, general manager, and D. E. Marray, superintendent of construction, of Tarboro, representing the Carolina Telephone and Telegraph Company, were here yesterday conferring with the local officials of the company regarding the contemplated improvements to be made in the Scotland Neck exchange. These gentlemen would give out no statement further than that they expected their plans to take definite shape within the next few days.

Fair Premium List

The premium list of the Pitt county fair to be held next November, 14th and 15th, are now ready to be sent out, and can be had upon application either to the president or secretary. The list of premiums is liberal and should attract a large number of exhibits. It is proposed to make the next fair even larger and better than the one last year.

Masters Charles and Sherwood Denmark of Kinston who have been visiting Master James Starkey, returned home Wednesday evening.

Taft Countermands Recent Order to Troops

BATTLESHIP REACHES REPUBLIC

From His Private Car in Rochester the President Wires That There is no Necessity for Sending Troops

CORINTO, Nicaragua, Tuesday, Aug. 27.—Commander Warren J. Terhune and a force of 200 American sailors and marines from the gunboat Annapolis and the collier Justin, now lying in Corinto harbor, today succeeded in forcing their way through territory controlled by the revolutionaries to Leon, the town midway between the Pacific coast and Lake Managua, where the liberals rose in arms August 19 and in the dead of night massacred the sleeping soldiers of the garrison.

The Americans found the liberals hostile to their advances and it became necessary for Commander Terhune to threaten to attack Leon before the insurgents would allow the train bearing his detachment to enter the town. Rioting had subsided and the Americans found the city resuming its normal appearance.

After conferring with the liberal leaders Commander Terhune withdrew his forces from the city, 100 marines proceeding to Managua, the capital and the remainder of the detachment returning to Corinto.

Corinto has been designated as a place of refuge for the foreigners residing in the surrounding country. An armed force landed from the gunboat Annapolis and is constantly patrolling the streets, and a number of six pounds guns have been taken from the warship and mounted on flat cars for the defense of the city.

The U. S. gunboat Denver, with reinforcements of marines and blue-jackets numbering about 350 has arrived here. The cruiser California with a further detachment of marines is expected to reach this port tomorrow.

The revolutionaries control Chinandega, a city with a population of 12,000 and the capital of a department of the same name, and it is one of the chief desires of the rebels to capture Corinto, which is Chinandega's port and with which is connected by rail.

All attempts of the insurgents to capture this seaport so far have been prevented by the armed force of the Annapolis, the officers of which are determined to protect the lives of the women residents.

Managua is the only large city in the northern department, with the exception of Corinto, to remain under the control of the government forces. Advice reaching here from the capital say all is quiet there.

Troop Order is Rescinded

On Board President Taft's Train, Rochester, N. Y., Aug. 28.—President Taft tonight rescinded his twelve hour old order directing the immediate dispatch from Panama to Nicaragua of the 10th Infantry. From his private car in the Rochester yards the President wired the acting secretary of war to recall the order. A sufficient force of marines, the president said tonight, would be in Managua, the Nicaraguan capital, and Corinto, its principal seaport, early next week to insure the safety of American lives and property.

The president's action tonight came at the close of a day spent largely in considering telegrams from state, war and navy department heads in Washington. The president expressed tonight to friends on his car, the belief that there would be more than 2,000 United States marines on Nicaraguan soil by Tuesday. A long telegram tonight from the commander of the United States gunboat Denver, in Nicaraguan waters, declared that the insurgent leaders had given assurances that they will open the lines of communication from Corinto to Managua. The Nicaraguan government itself asked for assistance from the United States and stands ready to aid in opening the railway line to the coast from the capital.

Mrs. Nan Tripp, of Raleigh, is visiting Mrs. C. O. Brown.

THE NATIONAL TICKET

Wilson Marshall

PASSING OF A WORLD LEADER

American life is rich and various. It takes a big event across the water to get headlines in our newspapers. The fall of a king may be dismissed in a paragraph.

But there is comparatively few living Americans whose death would get as much newspaper space as was given the story of Gen. William Booth, founder of the Salvation army who passed away Tuesday night.

The Salvation army would be called by some a body of imitation soldiers with women in grotesque poke bonnets who go about the streets making bad noises and scaring horses with their brass bands.

The writer was once invited by a young newspaper man in a large city to go with him on an evening assignment to cover a Salvation army gathering.

Looking for color, the reporter scanned the crowd, which contained every grade of rag clad misery. It was such a dull grey level of despair that it did not strike him as having elements of a picturesque story. He got away quickly and dismissed it all with the remark, "the very cinders and ashes of humanity".

So it strikes many. But in the United States last year 35,000 poor people were given Christmas dinners, and 200,000 got still more substantial aid from the Army. Gen. Booth is said to have reclaimed 50,000 "white slaves". These cinders from the hot furnace of defeat and despair may yet contain much live human fire. The work of Gen. Booth started is a shaft of sunlight amid the darkness of defeat of slum life.

Gen. Booth quit a comfortable work as an evangelist to make his home in the nearest approach to hell, the East Side of London.

It is incongruous to hear "Praise God from whom all blessings flow", sung to the tune of "Sally in our alley". Stately chords and dim religious lights appeal to persons of culture. They are gibberish to tramps and outcasts. The Salvation army speaks a language that the under-world can grasp, and others do not have to listen if they prefer not.

THE NEWS FROM THE STORES

There is a great deal of news in the newspaper besides what is found in the news columns.

The advertisements, too, tell their story of success, failures and opportunities. The people who neglect

lect this story are as poorly fitted to do the buying for a home, as the grocer who would never read a produce report.

Every merchant is often finding, through some error of judgment, or through seasonal conditions beyond human control, that he must turn his goods to cash.

No human mind can possibly estimate what kind of goods the public will take to. The over stock often consists of the most substantial articles, which did not sell because they were not showy enough. Notes must be paid, new goods must be put in. Low prices must be offered. The result is a profit for the wary trailer of bargains.

The life of the merchant is a long struggle to get a high range of values from importers, manufacturers and jobbers. When he does get particularly good values, he usually feels it better policy to give his customers the benefit.

It is out of these ups and downs of the day's work that the modern advertisement is created.

There are many dealers in the produce market who spend thousands and thousands of dollars annually for telephone and telegraph messages to New York and Chicago. to get the latest figures on grain prices. They believe it worth almost any price to know the market changes a few hours or minutes before their competitors.

The buyer for the home needs similar information about purchases, and she gets it for the price of a newspaper. All these fluctuations, all the exigencies of the merchant that constitute her opportunity, all the special finds picked up by skillful buyers and offered the public at low figures, are made known and described in the newspaper.

The information thus obtained gives you access to the most practical means for reducing the cost of living. The people who watch and follow up the bargains advertised in the newspapers are not much troubled by advancing prices.

Two or three negro lawyers have in the past slipped unawares into membership in the American Bar Association, but the association has drawn the line on any more being admitted hereafter.

Judge Whedbee is holding court in Durham and the Herald says, "if he could be sent there for three or four times in succession he would decrease the number of blind tigers or greatly increase the county road force."

The Durham Herald says Bryan was opposed to the nomination of Wilson in the Baltimore convention. "Wonder where it got any such idea as that?"

Now somebody up and says that the order discontinuing putting up Sunday mails, with the subsequent modification, was a move to scare more lock box renters.

Isn't it time some names down this way were being recorded among the contributors to the Wilson campaign fund?

While their initials are the same, the T. F. Ryan, killed by an automobile in New York was not the big magnate.

If that threatened strike takes place involving 150,000 trainmen throughout the South, it will be paralyzing to business.

If you cannot work for Greenville's progress, keep out of the way of somebody else working.

Wilson may not take the stump but he will clear up the field just the same.

When a man thinks everybody but himself is a liar and dishonest, he needs boring for the simples.

Why is Sunday mail like liquor? Because the fellows with lockers get theirs.

If you don't know a reason why you should be talking for Greenville, get out and find one. They are here.

The moon got full without being arrested.

Factory whistles make a noise, but Greenville needs more of them.

This Date in History

August 29

1779—Americans under Gen. John Sullivan defeated the Indians and Tories at Newtown, near Elmira, N. Y.

1782—More than 600 persons perished in the sinking of the British warship, Royal George, at Portsmouth.

1805—William G. Brownlow, governor of Tennessee and U. S. senator born in Virginia. Died in Knoxville, April 29, 1877.

1809—Oliver Wendell Holmes, famous author, born in Cambridge, Mass. Died in Boston Oct. 7, 1894.

1833—Twelve thousand houses in Constantinople destroyed by fire.

1862—General "Stonewall" Jackson turned the flank of Gen. Pope's army and attacked him at Groveton, Va. (Second battle of Bull Run).

1908—The American battleship fleet arrived at Melbourne, Australia.

1911—The Progressive party of Mexico adopted a platform promising many reforms.

This is My Birthday

Byron P. Harrison

Byron P. Harrison, who represents the Sixth district of Mississippi in the national house of representatives, was born in Crystal Springs, Miss., August 29, 1881. After graduating from Louisiana State University at Baton Rouge he was elected district attorney at the age of 24 and was serving in that capacity when elected to Congress two years ago. He is a product of the primaries, wherein he was nominated over two strong fellow Democrats. His coming to Congress before he reached his thirtieth year was considered all the more remarkable in that the far Southern states had always been noted for sending old and tired politicians to Congress. Mr. Harrison is very close to being the youngest member of the national house, being but nine days older than Representative Murray of Massachusetts, who is the "baby" member.

Congratulations to:

Rt. Rev. Sebastian G. Messmer, Roman Catholic archbishop of Milwaukee, 65 years old today.

Rt. Hon. Andrew Fisher, premier of Australia, 50 years old today.

John H. Small, representative in Congress of the First North Carolina district, 54 years old today.

NEGRESS TAKEN AS BRIDE

Colored Clergyman Officiates at Wedding of White Man

"There's no use making a fuss over it. I can't see anything out of the way about it."

With these words Rev. Wiley Westray, a colored clergyman, commented today on a wedding he solemnized yesterday afternoon for James A. Jackson, a fifty-three year old white widower of Greenville, N. C., and Lilla V. Wilkins, a negress, nineteen years old and declared to be a resident of Madison, Fla.

The clergyman said the nuptials were celebrated at the Southern Hotel at 311 Pennsylvania avenue and that following the ceremony Jackson and his bride left on a honeymoon, at the conclusion of which they will take up their residence in Washington. He declared that he had never seen the contracting parties until called upon to pronounce them man and wife and that he agreed to perform the ceremony at once.

"Yes, they were married yesterday afternoon, all right, and are now on their honeymoon," was the comment of F. A. Roman, proprietor of the Southern Hotel, made this afternoon when asked if the ceremony had taken place in his hostelry.

"Did you know the groom was white and the bride colored?" was the interrogation.

"Correct!" was the answer.—Washington (D. C.) Evening Star, Aug. 27.

The Reflector does not know a man anywhere in this section by the name of James A. Jackson and inquiry fails to find any one who knows a man of that name. The Washington paper must either have a false story or has got the wrong location of the man in the case.

In Session at South Bend

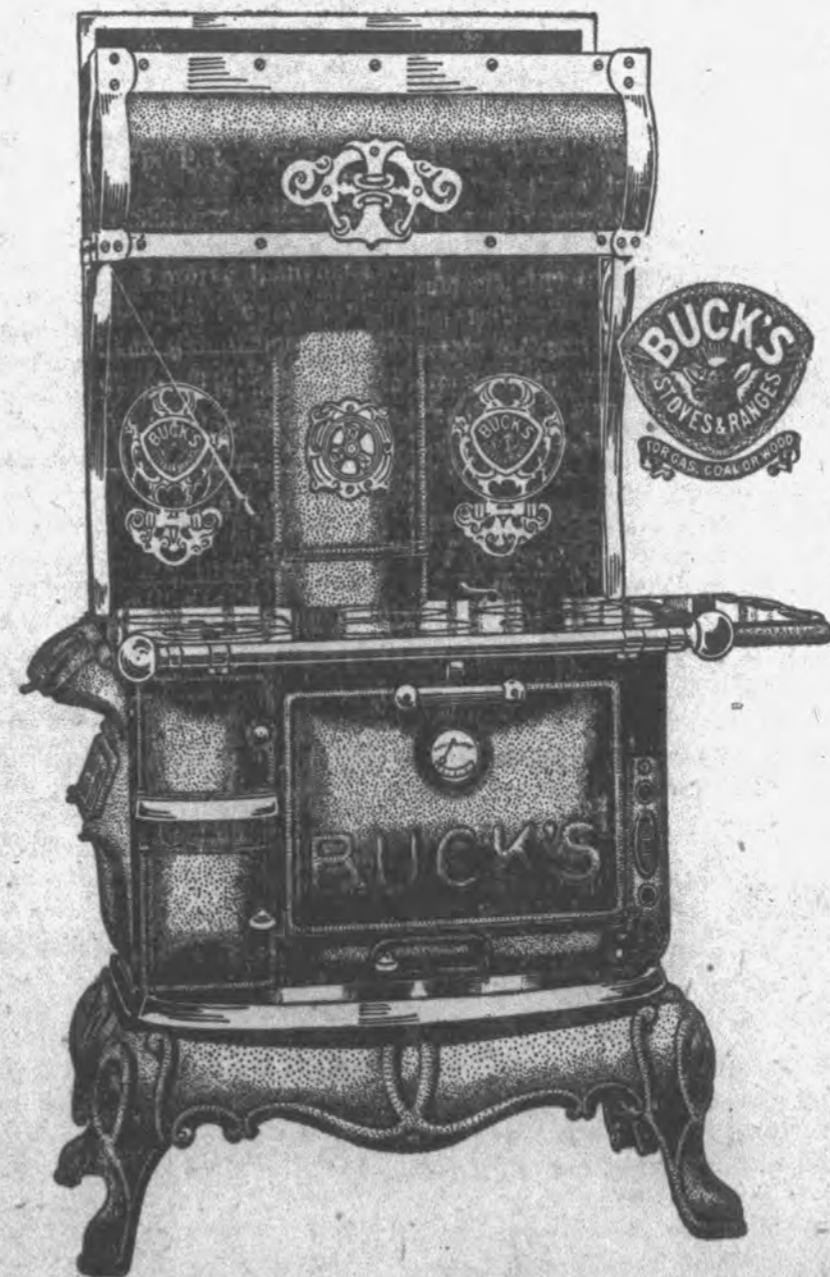

SOUTH BEND, Ind., Aug. 20.—The Central Electric Railway Association began its semi-annual meeting in this city today with a large attendance of interurban railway officials from Michigan, Ohio and Indiana. The meeting will continue over tomorrow.

FREE! FREE!

WE GUARANTEE a good position to every teacher who completes her preparation at Littleton College.

We have scholarships for young women desiring preparation to teach, who are without sufficient means.

Our scholastic year begins Sept. 18, 1912. For catalogue and further information address, J. M. RHODES, Littleton, N. C. 8 26 4td

WE GUARANTEE a good paying position to every young woman who finishes our course in stenography and typewriting as soon as her preparation has been completed and furnish instruction in English and Arithmetic without additional charge.

FOR CATALOGUE and further information address, REGISTRAR, Littleton College, Littleton, N. C. 8 26 4td

Would that we all had the faith of a little child—or a political candidate! Platonic love is something like perpetual motion—a beautiful theory that nobody has ever been able to work out.
