GREAT THROG GATHERS ABOUT HOSPITAL

Condition Hopeful is Statement Made by Physicians
Chicago, Oct. 15.—The following official statement was issued by the surgeons attending Colonel Roosevelt:
"Colonel Roosevelt's hurt is a deep wound in the chest. The wound was not probed. The point of entrance was to the right of an inch below the level of the right nipple. The range of the bullet was upward and inward, distance of four inches deeply in the chest wall. There was no evidence of the bullet penetrating the chest wall. Pulse 90; temperature 99.2; respiration 20; leucocyte count .82 at 10 a. m. No operation to remove bullet is indicated at present time. Condition hopeful but wound so important as to demand absolute rest for a number of days.
(Signed)
"DR. JOHN B. MURPHY,
"DR. SCURRY L. TERRELL,
"DR. ARTHUR B. BEVAN,
"DR. R. J. SAYLOR."

to leave the hospital within 12 or 15 days. With the bullet removed they said, the Colonel would require absolute rest for that period to insure recovery.
The hero of the attempted assassination, the man who is given credit for having prevented Schrank from firing the second shot for which his finger was straining at the trigger, is Elbert E. Martin, the Colonel's stenographer. All through the present tour Martin was at the Colonel's elbow.
More than once Colonel Roosevelt has reproved him for being "too rough." In Saginaw Mich., when Martin threw himself against a man who was pushing forward and shoved him into a gutter he was rebuked by Colonel Roosevelt. Martin declared that the man at Saginaw and Schrank are the same. Last night in Milwaukee, Martin was at the Colonel's elbow. "You get into the car first," said Martin. "No, you go first," replied the Colonel.
Schrank was within seven feet of the Colonel when he raised his hand with the gun in it and leveled at Col. Roosevelt's breast. He fired and in an instant Martin leaped on him and hurled him to the ground with one of his arms twisted around the assassin's neck.
"I saw Martin leap on the man like a wild animal," said Cochems, who was also with Col. Roosevelt and Martin.
"HE GRASPED THE REVOLVER AROUND THE HAMMER SO THE WEAPON COULD NOT BE FIRED."
Martin is a former foot ball player and Schrank was no match for him. He tried desperately to pull the trigger of his weapon but could not and Martin held the barrel pointed harmlessly toward the sky. Cochems and a special policeman wrenched the gun away from Schrank and then the crowd surged forward murderously bent on having the man's life. Martin and Cochems joined in dragging the man to safety under Col. Roosevelt's protection.
"Don't hurt the man; don't let any one hurt him," insisted the Colonel and his orders were respected.

Medical men when shown the official statement issued by the surgeons attending Colonel Roosevelt seemed to think conditions most favorable.

CHICAGO, Oct. 15.—Col. Roosevelt's wound is not a mere flesh wound, but is a serious wound in the chest said the bulletin issued this afternoon by physicians at Mercy Hospital.
Chicago, Oct. 15.—Colonel Roosevelt, shot by John Schrank, an assassin, in Milwaukee, last night, lies today in Mercy Hospital, "resting easy."
Half a dozen of the most noted and skilled surgeons in Chicago led by Dr. John B. Murphy, made X-ray examinations of the Colonel's wound and announced that the bullet did not pierce the lung, but had lodged in the chest. They have not planned to operate today.
Schrank was taken to the District Court in Milwaukee this morning for preliminary examination.
The action was taken on recommendation of District Attorney Zabol, who issued a warrant charging Schrank with shooting Colonel Roosevelt with intent to kill.
Judge N. B. Neelen, of the Milwaukee District Court, immediately after the arraignment of Schrank, ordered Professors E. W. Somer, head of the Chemical Department of Marquette University, to make a chemical examination of the bullets remaining in the would-be slayer's revolver.
Judge Neelen announced that this action was taken to determine immediately if the bullet which entered Colonel Roosevelt's body had been poisoned. The judge said that his action was prompted by memories of the bullet which killed President McKinley and also by a personal desire to give the surgeons at Chicago ever personal aid in treating Colonel Roosevelt's wound.
Eager for news of the Colonel's condition a large crowd gathered in front of the hospital soon after the presidential candidate entered. In spite of its size the throng was quiet.

Managers for Colonel Roosevelt announced early in the day that all plans for continuing his campaign had been cancelled. Even his private car, which he has used since the start of his trip has been released.
Medical men after reading the official statements issued by surgeons attending the former president were of the opinion that he would be able

Value of Late Col. Astor's Real Estate in N. Y. \$77,800,000

NEW YORK, Oct. 15.—The total estate of the late Colonel John Jacob Astor will appraise at many millions less than has been supposed. This was indicated when a messenger from the office of Carter, Ledyard and Milburn, attorneys for the executors, went to the State Comptroller's office at Albany with a check for \$3,150,000 representing the transfer tax as computed on the present estimate of the value of the estate by the executors.
This amount of tax indicates that the executors have computed the net value of the estate, after all debts, commissions of executors and other deductions have been eliminated, at \$77,826,000. Previous estimates of the value of the estate have ranged from \$75,000,000 to \$150,000,000, with the Astor real estate frequently appraised at \$100,000,000.

**LABOR**

(By WOODROW WILSON)

To look at the politics of the day from the viewpoint of the laboring man is not to suggest that there is one view proper to him, another to the employer, another to the capitalist, another to the professional man; but merely that the life of the country as a whole may be looked at from various points of view and yet be viewed as a whole. The whole business of politics is to bring classes together upon a platform of accommodation and common interest.

In a political campaign the voters are called upon to choose between parties and leaders. Parties and platforms and candidates should be frankly put under examination to see what they will yield us by way of progress and there are a great many questions which the working man may legitimately ask and press until he gets a definite answer.

The predictions of the leaders of the new party are as alarming as the predictions of the veriest stand-patter. He declares that he is not troubled by the fact that a very large amount of money is taken out of the pocket of the general taxpayer and put into the pockets of particular classes of protected manufacturers, but that his concern is that so little of his money gets into the pocket of the laboring man and so large a portion of it into the pockets of the employers. I have searched his program very thoroughly for an indication of what he expects to do in order to see to it that a larger portion of this "prize" money gets into the pay envelope and I have found only one suggestion. There is a plan in the program which speaks of establishing a minimum, or living, wage for women workers and I suppose that we may assume that the principle is not in the long run meant to be confined in its application to women only. Perhaps we are justified in assuming that the third party looks forward to the general establishment by law of a minimum wage. It is very likely. I take it for granted, that if a minimum wage were established by law the great majority of employers would take occasion to bring their wage scale as nearly as might be down to the level of that workingman to resist that process successfully, because it would be dangerous to strike against the authority of the Federal government.

Moreover, most of his employers—at any rate, practically all of the most powerful of his employers—would be wards and proteges of that very government, which is the master of us all; for no part of this program can be discussed intelligently without remembering that monopoly, as handled by it, is not to be prevented but accepted and regulated.

When you have thought the whole thing out, therefore, you will find that the program of the new party legalizes monopolies and systematically subordinates workingmen to them and to plans made by the government both with regard to employment and with regard to wages. Take the thing as a whole, and it looks strangely like economic mastery over the very lives and fortunes of those who do the daily work of the nation; and all this under the overwhelming power and sovereignty of the national government. What most of us are fighting for is to break up this very partnership between big business and the government.

**BE A PARTNER WITH THE HOME MORE!**

When you trade and do business with home folks we are more or less partners together. You help the other fellow with your patronage, and the other fellow helps you with his patronage. Thus the money stays here and keeps turning over and over and working for the community and everybody in it. Not so when you do your trading elsewhere, by mail for example. You send your money away and get what you can for it. And the money sent from home never comes back, but goes to work for, and helps build up some other community in which you have no part.

"Rizo" gets off some terse sayings in the Raleigh Times. Here's one of them that is as good as if he had said it for Greenville:

"Some people don't help their home towns no moren green persimmons help whistlin. Pon my soul, fi couldnt see anything atall good in my little village, Id move—even move a-roun town an stir up supn."

While America will get the censure for the attempted assassination of ex-President Roosevelt, the act was not committed by a native. The lines should be closer drawn about foreign immigration so as to shut out any who are undesirable.

All right thinking people deplore the attempted assassination of Col. Roosevelt. It is a lamentable fact that the lives of public men the world over are subjected to such dangers.

There are quite a number of Pitt county farmers who will average \$200 per acre on their tobacco crop. In some other years they have been lucky to average \$100.

Congressman John H. Small has gone to Connecticut to make several political speeches. The "Nutmeggers" are going to hear something good.

The entire country feels good that the wound inflicted upon ex-President Roosevelt by the would-be assassin was not of a serious nature.

Adds Healthful Qualities to the Food

*Prof. Prescott, of the University of Michigan, explains why Royal Baking Powder adds healthful qualities to the food.*

Testifying before the Pure Food Committee of Congress, the Professor stated that fruit acids were excellent articles of food and that of these cream of tartar, the acid of grapes, held rank with the highest both in itself and its effect in the process of leavening and baking. He regarded the results from cream of tartar baking powder as favorable to health. Scientists and hygienists are in accord with this opinion.

*Royal is the only Baking Powder made from Royal Grape Cream of Tartar.*

To get on a bunch of unpronounceable names, you can try those in the reports of the Balkan war names.

There will be all kinds of betting on the final game today, and some folks will go broke.

After today the attention of the country can drift back from base ball to politics.

Greenville is a good town, but are you doing your part to let other people know it?

There is yet room and need for contributions to the Wilson Campaign fund.

If you get caught by a "skin" game, blame yourself for getting in it.

Mr. Oouterbridge being 87 years old and his wife 77, and they have been married 62 years. Both of them are well preserved and look much younger than their years. Mr. Oouterbridge was a school teacher for half a century and accomplished more for the educational advancement of his section than any other individual. At one time, not long after the war, he left North Carolina and spent a year in Arkansas, but love for his native state brought him back to his old home.

We hope Mr. and Mrs. Oouterbridge will live to celebrate their diamond marriage anniversary.

### Appeared Through Error

In publishing the proceedings of the last meeting of the board of county commissioners one item got in through error. It was in reference to Dr. J. E. Nobles being appointed special smallpox physician. The reporter found the sheet about it in the minute book at the foot of the minutes for last meeting and it being undated, thought it a part of the minutes and made note of it, when it was an old matter and did not belong with the current proceedings.

### W. M. S. Meeting

The Womens' Missionary Society of the Baptist Church will have a meeting tonight in place of the prayer meeting.

The members are requested to bring in their offerings for state missions.

### At the Training School

Miss Porter, the Y. M. C. A. student, who has been spending several days at the Teachers Training School left this morning.

Her attractive personality and earnest manner made a strong impression upon the young women of the school. Through the helpful suggestions, sympathetic understanding of their problems and her timely encouragement, she has been a source of inspiration to the Association.

Dr. W. O. Bodell, pastor of the Universalist church, conducted assembly exercises at the Training School this morning. He made an interesting short talk on the value of overcoming difficulties in school life.

### Black Jack Items.

Oct. 13.—At this time we are having a very hot and dry spell.

Some of the farmers through this section are most through selling tobacco. They all seem to be satisfied at their sales.

All that we can hear is picking cotton.

We have some good pickers through our section.

Mr. W. V. Clarke went to Greenville last week.

We are having a nice Sunday School at this time. We cordially invite you to attend and help us out in the good work.

Mr. and Mrs. A. V. Clark of Grimesland came to our section Sunday morning.

Mrs. G. W. Cox attended the Fair at Richmond last week. She reports a pleasant trip.

M. M. Williams went to Richmond last week.

The farmers are saving some nice hay now. They have plenty of sunshine and dry weather.

Three of the Black Jack boys were out hunting one night last week. They came upon a hog and they had to run about two hundred yards. The hog and the boys were pretty good runners.

But one of the boys was real fast.

Several of our people are arranging to attend the State Fair.

The Farmers Union held its regular meeting Friday night.

Mr. J. H. Clark has purchased him a farm near Ayden.

### Our Citizens Demand

Fully Complied With.—A Greenville Resident Furnished It.

There are a few items which appear in this paper more important to Greenville people than the statement published below. In the first place, it is from a citizen of Greenville and can be thoroughly relied upon. In the second place, it indisputably proves that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully:

Mrs. E. G. Worthington, Washington street, Greenville, N. C., says: "I have been so greatly benefited by Doan's Kidney Pills that I am glad to recommend them. My back ached nearly all the time and I could not rest well. The kidney secretions caused me annoyance and it was plain to see that I was suffering from kidney trouble. Doan's Kidney Pills, which I got from the John L. Wooten Drug Company, relieved my aches and pains and improved my condition greatly. I cannot praise this remedy too strongly."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doans—and take no other.

The continual paying of rent has tied many a good man down. It will get the best of you if you don't watch out. We can help you own your own home and you can pay for it just the way you pay your rent. In a short time the home is yours and the rent bugaboo is forever stopped. We'll be pleased to explain.

### Judge for Yourself

Which is better—try an Experiment or Profit by a Greenville Citizens Experience.

Something new is an experiment. Must be proved to be as represented.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now supposing you had a backache. A lame, weak or aching one. Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from far-off places.

Its different when the endorsement comes from home.

Easy to prove local testimony.

Read this case:

James Long, Dickinson Avenue, Greenville, N. C., says:—I am certain that Doan's kidney pills are a remedy of merit and I do not hesitate to recommend them. When I was suffering from backache, pain in my kidneys, and other symptoms of kidney and bladder trouble, I got a supply of Doan's Kidney Pills from the Jno. L. Wooten Drug Co. It did not take them long to bring me relief.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Bucalo, New York, sole agents for the United States.

## YOUR BANK IS YOUR MOST CONFIDENTIAL FRIEND

—The relation of a Bank to its depositors is most confidential and based upon implicit confidence. When you are thinking of a banking connection consider the prominent character and clientele of this Bank, with its history of six and one half years of practically the same management.

—Then think a little further and consider the standing directorate and its assets of \$450,000, and the fact that this is the only National Bank in Pitt County.

—Then think of its various kinds of Savings Accounts—its Trust Department—its Safe Deposit Department—and you are bound to realize that its equipment to serve is complete in every detail.

—Then the Conclusion: It is the Bank for you, the institution in which you are justified in placing your funds with the satisfaction that every confidence sacredly safeguarded.

—We have not mentioned our service. You will have to be personally acquainted with this to appreciate it.
