NUMBER 69

NEW EVIDENCE ON REPARATION WORK BEING CONSIDERED

Documents Discovered Revealing German Plots Against Belgians.

GERMAN GUN MEDALS TO BE GIVEN WORKERS

Medals Cut from German Guns to be Presented Liberty Loan Workers.

(By The Associated Press.)
WILL NOW PROPOSE GREAT NATIONAL LEAGUE CHURCHES

New York, March 7.—On a mission to promote an international league of Christian churches—Catholic together with Protestants—three bishops of the Protestant-Episcopal church of America sailed today on the steamship Aquitania.

STEEL MANUFACTURERS MEET TO DISCUSS FUTURE PLANS

New York, March 7.—Steel manufacturers from all parts of the country met here today to discuss the proposed plan of Secretary of Commerce Redfield for stabilizing prices at lower levels. The conference was called by the directors of the American Iron and Steel Institute as the result of the meeting here sometime ago, at which Secretary Redfield's proposal was considered informally.

NEW EVIDENCE DISCOVERED IN GERMAN RAID ON BELGIUM

London, March 7.—A Reuter Paris Dispatch says that additional evidence has been laid before the commission on reparation of the peace conference by a presentation of a full set of documents discovered by Belgian police, containing a detailed instruction to the German troops for carrying out work of destruction in Belgium.

MEDALS MADE FROM GERMAN GUNS TO BE GIVEN WORKERS

Washington, March 7.—Medals made from captured German guns, will be awarded by the treasury to all liberty loan workers who participated actively in the liberty loan campaign, the treasury announced today. The medals will be distributed to all members of local loan committees who do conspicuous work, such as serving on volunteer soliciting committees.

BOLSHEVIKI GOVERNMENT TO WORK PROFESSIONALS

Stockholm, March 7.—The Russian Bolsheviki government is preparing a law decreeing that all professionals and artists must work for the government, according to Petrograd advices. Even authors will be mobilized, it is said, and their works will be taken over as national property.

DISBURBANCES IN BERLIN CONTINUE TO BE SEVERE

Coblenz, March 7.—Disturbances in Berlin and other parts of unoccupied Germany resulted in such an increase in number of civilians eager to reach Bridgehead area where conditions are more normal that American forces in occupation were compelled to take steps to prevent the Germans from all parts of county overrunning occupied zone along the Rhine.

TANKS TO BE USED FOR BIG VICTORY LOAN ADVERTISING

Washington, March 7.—More than 200 fast American fighting "tanks" have been lent by the War Department to the liberty loan organization to be sent scurrying over city streets and country roads during the victory loan campaign as advertising features. Between twelve and twenty will be assigned to each federal reserve district, to be routed by district managers. Each of the five-ton tanks, manned by two soldiers and armed with machine guns, will carry loan orators in addition. These machines for the most part were in this country when the armistice was signed.

CITY ALDERMEN IN REGULAR SESSION FOR LATE DUTIES

Met Last Night With Majority Members Present and Much Work.

STREET IMPROVEMENT OF PRINCIPAL CONCERN

Various Sections of City Request Work in Improvement of Streets.

With every alderman and Clerk Tyson present, Mayor Albion Dunn called the meeting of the board to order at its regular monthly session last night. Although the board was in session for about two hours, very little except routine business was transacted. Reports of several standing committees were received.

Judge Whedbee appeared as counsel for the A. C. L. railroad and asked the board to pass a resolution to protect the railroad in allowing the city to lay a sewer pipe under the tracks. The resolution was unanimously adopted after Mayor Dunn explained that it was only for the protection of the railroad and was no more than fair.

The street committee reported that the thoroughfares were in as good a condition as they usually were at this season of the year. The committee also reported that work costing about \$500 had already been done on Fourth street since February 1, and that it would probably cost \$300 to \$400 more to complete this work.

Property owners of Chestnut and Manhattan streets requested the board to have those streets improved, and this matter was referred to the street committee.

Third street property owners also requested that tiling be placed and other work done on that street, and this was also referred to the street committee.

A large delegation of property owners from the tobacco district appeared.

JAPAN'S NATIONAL THOUGHT IS ABOUT UNBALANCED, SAID

Noted Speaker Believes People Have Lost Part of the Usual Thought.

Tokio, March 7.—National thought in Japan has become unbalanced of late years, asserts Dr. Sawayanagi, formerly Vice-President of Education and now president of the Imperial Education Society, and member of the House of Peers in an illuminating article he has published in the Osaka Mainichi.

For ages past, asserts Dr. Sawayanagi, Japan's thought was dominated by Buddhism and Confucianism, but now they have lost their control over the minds of thinking Japanese, and these persons have no further ground on which to stand. Since Japan was opened to foreign intercourse, he declares, new ideas have come in and disturbed the thought of the people, but a foreign thought has supplied no substitute for Confucianism and so has failed to unify Japan's foreign ideals.

The writer refers to Japan's two victories over China and Russia as having secured her admission to the circle of great powers and to have been the consummation of Japan's restoration. With the accomplishment of this restoration, Dr. Sawayanagi says, the problem of how to unify Japan's ideals again came to the front and now is demanding solution. This question, says the writer, calls for the greatest intelligent. Until some great leader arises who can inspire his countrymen with great ideas, such as are natural to them, and such as they will accept, the problem will not be satisfactorily solved.

REVIVAL IS STILL DRAWING UNUSUAL INTEREST LOCALLY

Series of Services at Methodist Church Continue to Draw Large Crowds.

SERMONS ON SIN ARE CONTINUING TO PLEASE

Rev. John E. Ayscue Spoke at Evening Services During Yesterday.

The inclement weather yesterday afternoon and last night interfered only slightly with the attendance on the meetings at Jarvis Memorial church. Those present heard two strong and helpful discourses. In the afternoon Rev. John E. Ayscue, pastor of Immanuel Baptist church spoke from the text "As Moses Lifted Up the Serpent in the Wilderness, Even So Must the Son of Man be Lifted Up." He spoke earnestly of the duty of Christian people to lift Jesus Christ up before a sin-cursed world.

At the evening service, Mr. Patten delivered the third of a series of sermons on Sin. He took for his theme last night: "The Losses of Sin," using as a basis for his remarks Peter's denial of his Lord. He spoke especially to church members and professing Christians who had allowed sin to come into their lives and rob them of the finer things of life. Under the head of the losses of sin he mentioned self-respect, the innocency and freedom of youth, friends, an alert conscience, the larger service and usefulness impossible to the man or woman who turns back from following God.

He said that there was a great need for a spiritual surgery to cut out of the life the cankers that retard growth and limit service. He took up some of the petty faults that people become addicted to that are out of place in the life of a Christian, such as crankiness, sourness, chronic complaining, temper grouchiness, quarrelsomeness, laziness, love for money. He made a strong appeal to his hearers to go under the spiritual knife and have these things cut out by the power of God. His

GERMAN OFFICERS MUST WEAR THEIR UNIFORMS IS SAID

Soldiers Appearing on Streets Must Conform to Late Rulings.

Coblenz, March 7.—All German officers and men on duty in the zone occupied by American troops must wear uniforms when they appear in the street, according to an order issued by General Dickman.

The order is a result of a tendency on the part of certain German senior officers to wear civilian clothes because of their dislike to being compelled by a general order issued some time ago to salute all American officers. The Germans claimed it was very distasteful for German officers of rank to have to salute American lieutenants.

In framing the order General Dickman took into consideration reports that the Germans were taking advantage of their positions in being able to appear in uniform or in civilian clothes at will. The new order also calls for a weekly registration of each German officer and soldier on duty in this area. There are several hundred of them attached to various missions and also acting as disbursing agents and in medical units caring for wounded German soldiers.

The Dusseldorf Nachrichten says the grain deficit in Germany for 1919 is two million tons and adds: "The crop for 1919 would never have been sufficient, but since Posen, which supplies one-tenth of the grain produced by Germany, has been added to Poland, the deficit becomes serious."

ARMENIAN-SYRIAN RELIEF FUND NOW GROWING SLOWLY

General Reports Hard to Get, but Funds Continue to Increase.

JUDGE WOOTEN URGES WORKERS TO REPORT

Necessary That All Reports Reach Office Before End of the Week.

Judge F. M. Wooten, chairman of the Armenian-Syrian relief campaign for this county, has just issued a request to the 300 members of his committee to make a report of the results of their work at the earliest possible moment, so that some definite idea can be obtained as to the general progress of the campaign in every community. The state chairman is also urging all sections to make their reports during the present week for the drive has gone far beyond its set date of expiration and must necessarily come to an end.

Judge Wooten states that many members of his committee who were allotted the amount of \$30.00 to raise as their apportionment have subscribed their amounts, and even gone beyond the figure. Others are rather slow in the work, but it is believed that before the week comes to an end that every territory will have been heard from and the full \$6000 as the county's apportionment, ready to be wired to state headquarters. As things stand now, even the most vague idea of general conditions are not available from the campaign headquarters in this city, and while Judge Wooten has made great effort to expedite the work in every section open to him the progress has nevertheless been rather slow, but, it is believed, for sure, as all Pitt county campaigns are conducted.

It is to be hoped that every member of the relief committee will endeavor to compile an accurate report of their work so that their names can be recorded for publication, with amounts raised, during this week, so the campaign headquarters and at least get a general idea of the progress, and whether it will be necessary for more strenuous efforts in the last lap of the drive. It is stated that some of the committeemen sent in the total amount of their apportionment immediately.

GOVERNORS FAVOR IMPROVEMENTS IN RAILWAY SYSTEM

Governors and Mayors Return Home in Favor of Proposed Questions.

Washington, March 7.—Governors and mayors returned today to their homes after the three-day conference here, called by direction of President Wilson to discuss labor and business conditions.

Before adjournment the conference went on record as favoring the carrying out by the railroads of a program of improvements not only as an aid to transportation but also to alleviate unemployment, the reduction of freight rates on building materials and the settlement of government contracts and the lifting of all restrictions on business and industry at an early date.

The conference condemned radical doctrines, sanctioned government approval of price schedules but opposed fixing of costs and decondemned continuation by the government of assistance to public utilities.

After a heated debate, the conference by a viva voce vote defeated a minority report of the committee on resolutions recommending that congress be called immediately in extra session.

Mayors attending the meeting laid plans for an association of mayors to meet in Washington annually.

PROHIBITION LAWS TO CAUSE BONDED HOUSES TO CEASE

July 1st Will Find Only 50,000,000 Gallons Liquor in Warehouses.

HARD TO FORSEE THE EFFECTS OF THE LAW

All Beverages to Be Kept Under Lock and Key, It Is Now Stated.

Washington, March 7.—National prohibition next July 1 will find only about 50,000,000 gallons of liquor in bonded warehouses, barred from disposition for beverage purposes, if the present demand for whiskey continues during intervening months. Officials who have observed the effect of high taxes in the past believe, however, that withdrawals from bond will decrease under the new revenue law, and that between 60,000,000 and 75,000,000 gallons will be left in warehouses July 1st.

It is conceded that it is impossible to foresee the effect of approaching prohibition on the demand for liquor to be stored away by consumers, and officials say a big movement of buying even under the increased tax, may develop and leave the quantity of liquor left in bond smaller than the advance estimates.

The estimates do not take into consideration liquor which may be stored in cellars of attics of prospective consumers. Nor do they include any stocks which wholesale or retail dealers may not sell before the prohibition wave catches them. These are not measurable by any official reports.

Revenue bureau officials calculate that at present bonded warehouses connected with distilleries, but under lock and key of government agents, hold less than 90,000,000 of the 200,000,000 gallons in stock when manufacture ceased September 9, 1917 under the food conservation act. Withdrawals in January and February have been less than the 10,000,000 or more gallons in December, according to indications based on preliminary reports from revenue agents.

On January first, 112,000,000 gallons of distilled spirits were reported in bond, including 6,000,000 gallons not available for beverage purposes. About 15 percent of those figures must be deducted as allowance for leakage and evaporation from barrels. On December 1, the latest date for which

WILL REJECT THE FUTURE DEMANDS IN MINOR NATIONS

Small Nations Will Not be Given Any Great Consideration Said.

Paris, March 7.—The supreme council after hearing a statement by Jules Cambon, decided unanimously yesterday to reject the demands of the minor powers with limited interests for greater representation on the financial and economic commissions which are about to be formed.

The minor powers, specially those from South America, followed Brazil in demanding earlier in the week that the minor powers have the same number of members on the commissions as the great powers.

After two days of futile unofficial conference, M. Cambon laid the matter before the supreme council Brazil was supported by Belgium while Greece and Serbia took the opposite view in the discussions. The supreme council asked the minor powers to name their five representatives on the commission today. The great powers will have ten representatives.

Some men succeed in spite of themselves. It is much easier to lay plans than it is to hatch them out.

GERMAN CITIZENS FAVOR PLANS FOR NATIONS ALLIANCE

President Wilson's Plan for League of Nations Favored by People.

HAS STIMULATED ALL FAITH IN THE FUTURE

German Shipping Interests Share Unanimously in Present Thought.

Berlin, March 7.—President Wilson's plan for a League of Nations has found quick response in the heart of the German nation and has stimulated their faith, according to Phillip Heinenken, director general of the North-German Lloyd Steamship company.

"German shipping interests unanimously share with the rest of the German people of all parties and callings the unwavering conviction that they did not put its money on the wrong card when in good faith it proposed the armistice based on the fourteen points of President Wilson's program, notwithstanding the humiliating and onerous conditions imposed in the operation of the truce," said Mr. Heinenken.

"The President's program not only proposes a just liquidation of this most terrible of all wars, but it endeavors to definitely remove all possible causes for fresh conflicts. Wilson's declaration the League of Nations must be the eye that will watch over the common interest of all nations' find quick response in the German nation, and has served to further stimulate its faith. To be sure the recent campaign conducted into by the German government contained some, rather uncomfortable surprises in respect to the temporary surrender of German tonnage. But the merchant is wont to look ahead—he calculates well in advance that the condition imposed by the armistice is but a passing condition while peace will be enduring."

GERMAN TROOPS SEVERELY DEFEAT THE BOLSHEVIKI

London, March 7.—German troops on the Baltic coast have been severely defeated by the Bolsheviki and the capture of Riga effected, according to reports received here.

REPRESENTATIVE CARLIN HAS RESIGNED FROM CONGRESS NOW

Alexandria, Va., March 7.—Representative Charles C. Carlin, Democrat, of the Eighth Virginia Congressional district announced last night that he had forwarded to Governor Davis his resignation, to take effect immediately. Mr. Carlin, who has been in congress since 1908 said he.

FORD PLANS TO MANUFACTURE A CHEAPER AUTOMOBILE, SAID

Los Angeles, Cal., March 7.—Henry Ford left for his home in Detroit after announcing that on his arrival there he would perfect plans for the manufacture, by a new corporation, of a cheaper automobile than any now marketed. Mr. Ford said he had designed the car while "resting" at Altadena near here.

SITUATION IN MONTENEGRO DESCRIBED AS DESPERATE

Rome, March 7.—The American commission sent to Montenegro to inquire into conditions there passed through Rome today towards Paris. The situation in Montenegro is described as desperate it is said. The population is actually dying from starvation.

FRIDAY, MARCH 7TH, 1919.

IN THE FUTURE DAYS.

With the great war at an end and the entire world in a fair way of becoming normal at an early date, people—especially the American people—are turning their thoughts to the problems confronting them as the leading nation of the world. The demands that will be placed upon its resources in the future will be almost amazing in their scope, and never before, not even during the progress of war, will our people have greater opportunity of lending out a hand to struggling civilization than at the present time and in the days to come when every available source of genius in mechanical arts, literature, science and industry in both national and international intercourse are going to be tested as they have never been tested before.

Nations that one time ranked first in the wonderful accomplishments effected by change of time and application of brilliant intellects will look to America to lead them back to that sublimated state of development and progress which was one of their prominent features in the beginning of the great war where everything was lost, except the recollection of culture and refinement. Countries that once dreamed that they would need the assistance of this rich land of ours to lead them back to the road of progress will be the first, and have been the first to request aid in the work of reconstruction of the lost and reparation of the destroyed.

What is going to be the natural outcome. The increased activity on the part of the American people answers the question in a comprehensive manner, and late developments are going to prove the kind of material they are built of. They must respond to the call of the suffering thousands on the other side of the water, and in every way possible endeavor to instill into the heart of the entire world the same spirit of democracy and freedom that led them victoriously through the severe engagements upon European battlefields, and finally freed the devastated lands from the rule of oppression and autocracy. The mission is a great one, and America, and America alone, will prove equal to the occasion.

Someone has made a remark about the large crowds of people daily congregating around the railway stations of the city and causing passengers no little anxiety and worry in boarding and leaving the trains. This particular individual should not be forgetful of the fact that Greenville is fast developing into a city and leaving behind the trail of the small town, therefore, crowds at the train are only a natural sequence to years of expansion. How about some larger cities—has the gentlemen found the depots desolate as those of the small town. If so, the entire population must have been at a funeral.

Railroads are sending out warning to the farmers that it will be wise for them to place their order for fertilizers as early as possible, for present indications seem to point to a congestion of freight traffic in the future, which will greatly inconvenience the planter in his spring planting. It would be well to heed this warning for deferred orders will necessarily cause an inevitable delay in shipments and place the entire south in a position really embarrassing.

Mr. William Piggott, of Seattle, Wash., believes that the cost of living in America can be reduced from 10 to 50 per cent without any reduction in wages. We like the way the gentleman talks, in fact, if he can make such a guarantee as that for the state of Washington, it is possible that he may be able to double the population in a mighty short time.

WHY NOT A HOSPITAL?

While the Pitt County Memorial Association that was organized some months ago has not definitely settled on what shall be done in the way of a suitable memorial to the Pitt county soldiers who served in the great world war, there have been several suggestions as to what will be most fitting. Perhaps progress toward the proposed memorial would be more rapid if there was unanimity of opinion and a moving together for the object decided upon. The Reflector believes that nothing would move readily concentrate the interest and enthusiasm of all people of the county than to build a hospital. A memorial hospital would not only fittingly honor our brave sons who entered the service and those whose lives were given for humanity, but also would prove to the present and future generations. Our soldiers gave themselves for service, and no more appropriate memorial to them could be suggested than an institution that will perpetuate the spirit of service. It would indeed be a movement of blessing to humanity.

This suggestion is referred to the Memorial Association with the belief that if they center upon building a memorial hospital in honor of the Pitt county soldiers they will receive a hearty co-operation from all people of the county.

Crime is reported on the increase in England since the signing of the armistice, and some been so prone as to endeavor direct the blame on the men from overseas. It is possible that some of them might have been responsible for a certain amount, but if one will just recall the reported crime in that same country quite a great while before the entrance of the allied troops, we believe there will be very little room for an extenuation from England's side of the question.

According to news dispatches, China's first woman lawyer will have the pleasure of representing the country's press at the peace conference. It is to be hoped that none of the correspondents will get the lady mixed up, and mistake her for a member of the masculine gender. Such a mistake would, indeed, be most inopportune and cause a distant relationship between the newspaper fraternity throughout the entire duration of the conference.

If all of the other allied nations should happen to present similar claims to those of Great Britain, Germany

will be a long time recovering from the effects of its participation in the war. Full reparation for loss of life, and compensation to families of mariners killed during the conflict will be two of the main points in the claims. France next, please, and—one or two more and Germany will be almost extinct in the coming ages.

Some nery little individual has had the audacity of proposing that Greenville get down to business and make arrangements for interesting the railroad authorities in a union station. The proposal sounds rather queer, but after all, we believe the time is not far off before some definite action is going to be taken in this direction, and this same little fellow have the pleasure of seeing his nerve back up his sleeve.

Persons who are embarrassed by large figures had better haul forth the arithmetic and begin immediate study, judging by the way the different nations and business organization are flinging billions and millions around in such reckless manner. And they are dollars, too, that's what we are talking about, therefore, the greater necessity for real accurate "figgering."

The late news reports coming to us from Germany say that the strike situation in Berlin is slightly unchanged, unless there was some change while the cablegram was on the way. It's strange how the people like to fight among themselves, and still more peculiar why they want to fight at all.

The way the southern cotton men are going after their organizations to assure themselves of good prices in the future might suggest the possibility of some of the market "bears" getting cornered.

It's mighty easy for a person to say something about saints hanging around in this territory, but it's a mighty hard matter to find one in case a search happens to be instituted, in an effort to round 'em up.

"France needs so many, many things that whatever you do will be of value, particularly in the devastated regions," replied Marshal Joffre, to a question by the religious leaders as to how the Methodist church in America could best serve France. "When people return to their former homes in the devastated areas and see the frightful destruction that has been accomplished there," he said, "they will need not

only material, but also moral assistance. A great tendency to immorality will follow the shock of their loss."

DURHAM DEALER DISCIPLINED

J. H. Berry Put Out of Business for by State Food Administrator. Raleigh, March 7.—State Food Administrator Henry A. Page has authorized J. H. Berry, a wholesaler at Durham, to resume business after having been closed for one week because of the violation of the Food Administration rules and regulations. Mr. Berry's violation consists of his disregard of fair price schedule and differentials on lard compound.

Restrictions have been removed from most food products but lard, lard compound and meat products are still subject to the restrictions which have been in force during the past several months. Food Administrator Page particularly is determined that the fair price schedule for lard compound shall be observed in North Carolina.

DISBANDED SOLDIERS NOW GETTING BEST ATTENTION

Washington, March 7.—Satisfactory progress in the work of re-educations and placing disabled soldiers, marines and sailors was reported today in a statement issued by the federal board of vocational education.

EFFORTS MADE TO ESTABLISH INTERNATIONAL AERIAL BOARD

Paris, March 7.—Members of the aerial advisory boards attached to the various peace delegations met today for the purpose of establishing an international aerial commission to deal with various problems concerned with the navigation of the aid in times of peace.

ISSUE FRIENDLY WARNING TO THOSE WHO MISUNDERSTAND

London, March 7.—Some persons, says the Manchester Guardian, may consider the resolution on the Irish question passed by the American house of representatives as "irrelevant even as an impertinence."

ANOTHER PITT COUNTY COME BACK HOME

A member of the hospital corps, Mr. Leland T. Stanch, who has for the past several months, been stationed at Camp McClellan, Anniston, Ala., has been mustered out of service and arrived home yesterday.

Fair and cool tonight and Saturday.

Bachelors are the only men who think they know it all. The best you can get is probably better than you desire.

SNAIL IS WELL PROTECTED

Withdraws into Shell at Hint of Danger and Tightly Closes the Only Opening.

Snails are most interesting creatures and are easily observed, especially if one has an aquarium. The big Japanese water snail, crawling up the side of the glass, shows all its parts, and they are virtually the same in all species.

"Above the flat, gray foot is a snout at the end of which we see a mouth opening and closing deliberately like a winking eye, except that it opens laterally instead of up and down. A ribbonlike tongue darts in and out to rasp away particles of plant by means of the tiny, horny points all over it.

"The foot and head of the snail are the only parts of the body we can see, for the rest of it is wound about spirally within the coils of the shell. Now if we tap on the glass of the aquarium the snail suddenly drops to the bottom of the tank, pulling in its tentacles, its mouth, and finally its foot, and tightly closes the opening to its shell by means of a round lid or operculum, of the same substance as the shell and fastened to the back of the foot.

BEST WAY TO OBTAIN MONEY

Inheriting it Has Many Advantages Over Getting it by Marriage, Experience Has Shown.

Perhaps the best way to get money is to inherit it. This usually requires no brains, skill, trouble or special aptitude on the part of the recipient.

Getting money by marriage is, of course, tremendously popular and most authorities unhesitatingly recommend it as the best method next to inheriting, but the fact remains that it involves many pitfalls.

This confronts one with the very difficult task of getting rid of the said husband or wife without at the same time getting rid of the said all-important money.

Another excellent way to get money is to have a piece of property, which has been a great burden to you, and which you have been unable to get rid of at any price, suddenly turn out to be immensely valuable because of a big public improvement in the vicinity or the movement of business in that direction.

Language of Flags.

There is no international language of flags established by law but by common consent flags of a certain color are used for certain purposes. All over the world a yellow flag is a signal of contagious disease.

Do "Good Turns."

Most of us can look back to a day when the kind word of some good friend made us forget how dark and cheerless was life's way.

The woman who waits for a "convenient" time to put her "good intentions" into effect will always have a long list of things to do tomorrow.

Saved.

It was a wedding of prominence, and the proofreader on a Columbus newspaper was watching for errors when the story came in from the composing room.

SERVICE BY PUBLICATION.

Delphia Forbes, vs. NOTICE. North Carolina, Pitt County. John E. Forbes. The defendant above named will take notice, that an action entitled as above, has been commenced in Superior Court of Pitt county, North Carolina, for the purpose of obtaining absolute divorce from the said defendant, and the said defendant will further take notice, that she is required to appear at the term of the superior court to be held in Greenville, N. C., on the third Monday of March, 1919, it being the 17th of March, at the court house of said county, and answer or demur to the complaint of the plaintiff in said action, or the plaintiff will apply to the court for the relief demanded in said complaint.

NOTICE OF THE ADMINISTRATION

Having qualified as administratrix of the estate of the late Raymond Woolard, late of the county of Pitt, this is to notify all persons having claims against the said estate to the undersigned administratrix, on or before February 18, 1920, or this notice will be plead in bar of their recovery.

WE REGRET

That Our Mr. Wiley Brown Is Still Ill and Confined in the Hospital

Mr. Brown's misfortune has prevented him from introducing many of his friends to us in our new store. However, we sincerely hope for Mr. Brown's speedy recovery, and in the meantime we are doing our best to render the best services possible while laboring under the serious handicap of his absence.
