

## PRESIDENT TELLS SENATORS OF THE TREATY OF PEACE

Wilson Tells Foreign Relations Committee Several Things Today.

### MONROE DOCTRINE NOT AFFECTED BY LEAGUE

Says There Is Nothing in It Having Direct Bearing Upon the Nation.

(By The Associated Press.)

Washington, Aug. 19.—President Wilson told the Foreign Relations committee that he could see no reasonable objection to the interpretation of how the United States accepts the league of nations provided such interpretations did not form part of the former ratification, in a two thousand word statement at the opening of the conference at the White House today.

If the interpretations were a part of the former ratification the President says that long delays would follow, as the other governments would have to accept the language of the statute as a language of the treaty before ratification would be complete. He also stated that Article 10 is not obscured if read in connection with the whole document, and that the affirmative vote of the United States would be necessary in any question affecting it under Article 16.

The President said the question affecting the individual members of the league alone were left to their own settlement, such as tariffs, immigration, etc. He said that the Monroe doctrine would in no way be impaired or interfered with by the league of nations pledged for early ratification to settle unrest of members of the Foreign committee who attended the conference.

President Wilson received the Senators in the east room and invited them to lunch. They will continue the conference this afternoon.

The President said that his plan for the league was built up from the plan drawn by a British committee including the ideas of Gen. Smuts and his own ideas. He said his own private redraft of the original plan was now submitted to the American peace mission and he had seen Lansing's proposals only informally. He declared that he suggested that the United States not participate in the German indemnity as he wished this nation to gain moral asset, but said that he did not refer to pre war claims such as sinking of the Lusitania. He said that the league counsel would have nothing to do with deciding whether the United States had fulfilled its obligations in case of withdrawal.

### ARCHDUKE JOSEPH AGREES TO RESIGN AS DICTATOR

Budapest, Aug. 19.—Archduke Joseph has agreed to resign as temporary dictator but has consented to remain in office temporarily at a request of the peasants reactionaries.

### RUMANIANS PRESENT LATER ARMISTICE TO HUNGARIANS

Paris, Aug. 19.—It is reported that the Rumanians have presented new armistice conditions to the Hungarian government.

### HOSTILITIES HAVE BEGUN BETWEEN GERMANS AND POLES

Warsaw, Aug. 19.—Hostilities broke out between the Germans and Poles on a southern Silesian frontier. The Germans are occupying two villages. The Polish population in retreating droye the Germans out and occupied the two villages on the German side of the border.

### BANDITS ATTACK TRUCK TRAIN IN PART JIMNEZ

Washington, Aug. 19.—Mexican bandits operating in the vicinity of Jimenez recently attacked a truck train of the Alverado Mining and Milling Company en route to Parral. Dispatches to the state department today telling of the attack said that Leslie Webb, an American employe of the company, was injured slightly.

## LONDON FOLK ARE TAKEN BY STORMS OF GLAD SAILORS

City People Practically Swept Off Their Feet in Victory Day Celebration.

### HUNDREDS OF SAILORS PARTICIPATING TODAY

Street Dancing Takes Place With Other Special Features for the Day.

(By The Associated Press.)

London, Aug. 19.—Londoners were swept off their feet by the enthusiastic joyousness of some hundreds of sailors from the fleet anchored at the mouth of the Thames and joined so heartily in the Victory Day demonstration last night that there was dancing and singing in the wet, slippery streets of the West End within an hour of daylight today.

So many thousands had gathered for a night of merrymaking in the hotels and restaurants of the West End that when closing time came transportation systems were unable to take them home. As all tube trains stopped soon after midnight, there was nothing left for thousands but to spend the night in the street. Great crowds gathered in the vicinity of Piccadilly, Leicester Square and Covent Garden stations, and as it was raining gently the prospect was dismal.

"Are we downhearted," shouted a leather unged sailor, and instantly came a thunderous response from scores of his comrades in the crowd, which was increased by answering shouts from soldiers and civilians.

There were many women in the streets, some of them in the dancing costumes they had worn in the dancing. (Continued on page four.)

## AMERICAN ARMEN QUICKLY RESCUED FROM THE BANDITS

Young Officer Pays Mexicans Half of Ransom and Escapes With Captives.

### MEN ARE NOW REPORTED SAFELY ACROSS BORDER

(By The Associated Press.)

Marfa, Aug. 19.—Lieutenants H. G. Peterson and Paul H. Davis, the American aviators, who were being held for a \$15,000 ransom by Mexican bandits were rescued today by Captain Matlack, of the Eighth cavalry, who paid half the money to the bandits and escaped with the two captives across the border.

The aviators declared they were confused in directions after being forced to land by engine trouble and were one third way back to headquarters when seized by the bandits.

### CANADIAN WHEAT BOARD TO PURCHASE \$2.25 A BUSHEL

Ottawa, Aug. 19.—An initial payment of \$2.25 per bushel to farmers for wheat on the basis of No. 1 Northern, Fort William, has been recommended by the wheat board of control and approved by the government, according to an announcement this afternoon by Sir George Foster, acting prime minister.

### BOLSHEVIKI BATTLESHIP IS REPORTED TO BE SUNK TODAY

Hollingsforks, Aug. 19.—The Bolsheviiki battleship Andrea Pervosnas, the cruiser Petropaulovsk, one transport and one guard ship are reported as being sunk in an engagement with the British fleet off the Gulf of Finland. The British are said to have lost three motor boats, eight officers and three men killed.

## BUSINESS AGAINST FEDERAL CONTROL OF THE RAILWAYS

Business Sentiment is Unanimously Against Government Ownership.

### POST TELLS OF ATTITUDE OF PEOPLE OF THE NATION

Constructive Proposals Call for Return of Lines to the Owners.

(By The Associated Press.)

Washington, Aug. 19.—Business sentiment in the United States is unanimous that government ownership of railroads must not prevail, Chas. A. Post, chairman of the railroad committee of the United States Chamber of Commerce, told the House interstate commerce committee today. Sentiment as shown by tests made by the chamber, is strongly, even overwhelmingly against proposals of the kind, he declared, because of the experience with government operation during the war. Other reasons against it, he continued, were heavy costs and the necessity thereafter of financing government extensions through congressional appropriations with consequent subjection to political influence.

"The consensus of opinion of the national chamber," Mr. Post said, "is that unless the government adopted the policy of fixing low rates and fares with the intention that any resulting deficit from operations should be placed as an increased burden of taxes upon the general public, rates and fares would be higher under government than under private operation."

Likewise, the organizations of railroad employes might easily exercise a controlling influence upon national politics, he said. (Continued on page three.)

## HISTORIC MEETING TO DISCUSS PEACE WILL BEGIN TODAY

President Wilson to Bring Out Many Points Before Committee.

### EXTRAORDINARY SESSION IS ANTICIPATED, IS SAID

(By The Associated Press.)

Washington, Aug. 19.—At a conference in some respects unparalleled in American history, President Wilson will talk over the peace negotiations and the treaty with the Senate Foreign Relations Committee tomorrow at the White House.

By virtue of extraordinary plans to inform the public of every word that is spoken, the meeting will have the aspect of an open forum discussion at which the whole nation can look on.

As head of the American peace delegation and one of the inner circle which formulated the world settlement at Versailles, the President is to be asked the meaning and purpose of provisions of the League of Nations covenant, the reasons behind the decision to give Japan control in the Shantung Province, just what part the United States is to take in reconstruction, and many other questions raised in Senate consideration of the treaty.

Whether Mr. Wilson will answer fully in so public a manner all the questions put to him, or will consider that some of the information received at the peace table should be held in confidence as a matter of national policy, remains conjectural. But the committee members mean to give him the opportunity if he choose, to tell the whole of the inside story behind the treaty.

Today the committee heard its first direct account of the Shantung negotiations from Thomas F. Millard, an American writer who acted as adviser to the Chinese peace delegation.

Charity's argument is short, but it has a long reach.

## SOUTH OFFERS BIG THINGS TO NEGROS IN NORTHERN CITY

Better Wages and Improved Living Conditions Await Southern Darkey

### SOUTH DOES NOT WANT NORTHERN-BORN DARKEY

Farmers in Favor of Employing Those Ready Return and Accept Condition

(By The Associated Press.)

Memphis, Tenn., Aug. 19.—Plenty of ram and mill work, better wages than ever before paid and improved living conditions await Southern negroes who have gone to the North and who now are said to be clamoring to return to the South, according to employers here.

Southern farmers and plantation owners want the southern negroes back. If there were method of getting in touch with them it is declared the expense of their return to Dixie would be willingly borne. This will hold especially true for the next few weeks, because there is need of negroes who know how to take care of the cotton crop.

But these employers say they do not want northern-born and reared negroes. They would prefer to be in foreign labor, they assert.

"We would not hesitate to pay the expenses of a hundred or more negroes from Chicago or other northern cities to our place if we can get southern negroes, particularly negroes who have gone from Mississippi, Arkansas and Tennessee," said A. C. Lange, vice president and general manager of the Chicago Mill & Lumber Company, which owns more than 70,000 acres of timber and agricultural lands in (Continued on page three.)

## COLORED FIREMEN OF STATE GATHER IN SESSION TODAY

Twenty-five Companies Meet in Regular Annual Session This Morning.

Practically twenty-five companies of the North Carolina Volunteer Firemen's association (colored) are represented here today in the 29th annual session of the association which convened at the court house in this city this morning, and while there are many of the members who had not reached the city at the opening hour today, it is expected that possible several other towns and cities will be represented in the annual session before the concluding features tomorrow.

The firemen are anticipating an unusually interesting session this year, as interest in every section of the state has received additional stimulus in the work from time to time, and for that reason, it is more than probable that the several features, including the races tomorrow afternoon, will prove of more than ordinary inspiration to those who have followed the work of the organization from year to year.

The following towns were represented at the opening session this morning: Salamando, Washington; The Fulton, Tarboro; Red Bob, Wilson; The De finance, Statesville; The Hose Regl; Warrenton; Rough and Ready; Greenville; Hook and Ladder, Monroe; Enterprise; Henderson, Gregory Rescue, Oxford; White Cap, Princeville; Gas Engine, Enfield; Swift Foot, Oxford; Hook and Ladder, Concord; Hook and Ladder, Farmville; Hook and Ladder, Fayetteville; Dibble, Washington; White Rose, East Spencer.

Mayor Clark welcomed the visiting firemen in an appropriate manner at the opening today, and during the afternoon several talks will be made by various members of the organization upon subjects dealing with questions of future importance in making the association a greater success.

## PITT SHERIFF HAS MADE FINE RECORD IN GETTING STILLS

Sheriff Dudley Has Captured 36 Stills and 50 Men in Last Eight Months.

### HAS DEFIED BLOCKADERS IN EVERY STAGE OF GAME

Deputies Have Displayed No Little Courage in Eight Months' Work.

(By The Associated Press.)

Although there are sheriffs and public officials in many counties claiming to have eclipsed all records in the capture of illicit whiskey stills during the past few months, it is generally conceded in this part of the country that Sheriff Dudley can safely lay claim to the disputed honor for since the beginning of his administration last December until the first of this month he has captured practically 36 complete stills and fifty distillers thrown in for good measure. These figures do not include the several still and men which have fallen into the hands of the sheriff's crew during this month, for with these included the record would average around fifty stills and probably six or ten more blockaders.

The work of Sheriff Dudley and his men has elicited words of commendation from every section of the country, for in effecting the capture of the distillers they have been faced by innumerable dangers from which they have always emerged safely, although occasionally having narrow escapes from death at the hand of some lawless individual crazed from association with the liquor traffic, and with only one thought—and that to get the men bringing about the slightest interference. The officers have been faithfully (Continued on page four.)

## CITY ALDERMEN IN SPECIAL SESSIONS ON MONDAY NIGHT

Several Matters of Public Interest Are Discussed During Session.

(By The Associated Press.)

The Board of Aldermen met last night in special session with the mayor and seven aldermen present.

Several matters of importance were taken up and discussed to some length. The most importance were as follows: Earl Carter was given right to post signs.

J. I. Baker was given the right to re-open his barber shop on Dickinson avenue, providing that he could get proof from people living near the shop, to the effect that it did not disturb them. The building belongs to C. T. Mumford, and after May 1, 1920, he is to move it within 30 days from that date, at which time Baker's license will expire.

It was decided that the vice dealers of this city be notified that scales and hooks must be placed on each wagon, and that all ice must be weighed.

The aldermen are to see the managers of the Home Telephone Co., and have three call boxes placed on the streets. These are to be at the corner of 12th and Clark streets, one near Atlantic Coast Line depot and the other at corner of Cotanch and 1st.

Two bicycles are to be purchased for the policemen.

The next matter taken up was the printing of the bonds, and it was decided that the bonds would be printed at the expense of the town.

The following side walks are to be paved: Evans street, between 2nd and 3rd, and South Side of 2nd street, between Evans and Washington streets.

J. L. Whitehard was made assistant chief. All policemen with assistant chief included, are to be paid \$110 per month after September 1. The question of bringing the food offered by the government was next taken up and as only a few orders have reached the aldermen, it was decided that matter be dropped.

## QUICK ACTION FOR REDUCING COST OF LIVING NOW URGED

Senator Walsh Says That High Prices Are at Bottom of Social Unrest.

### SAYS CONGRESS WASTING TIME INSTEAD OF ACTING

Mayors of New Jersey Ask for Immediate Action in Matter, Said.

(By The Associated Press.)

Washington, Aug. 19.—Quicker action by congress in the campaign to reduce the cost living was urged today in Senate and House. Senator Walsh declared high prices were at the bottom of all the unrest and charged that congress was wasting time when something should have been done already in response to President Wilson's recommendations.

Mayors of New Jersey cities appearing before the House Agricultural Committee said action was needed at once to stop the rising scale of prices. Regulations of imports was one means suggested. The amendment broadening the food control act will be considered tomorrow by the committee and probably reported to the House.

Sale of surplus army food began today at storage centers throughout the country. Definite reports were not available, but it was believed that orders had been received for many millions of pounds of canned meats, beans and other staples, to be sent out by parcel post.

Debate in congress was occupied to a great extent by living cost problems.

Absence of a quorum in the House delayed until tomorrow final action on a resolution calling for the Federal Trade Commission to begin immediate inquiry into the "increase in the price of shoes."

Representative Siegel, Republican, of New York, submitted figures which he said were obtained by New York clothing manufacturers and showed that "in most cases the retailer makes 50 per cent profit and in some places 100 per cent." The manufacturer's cost, he said, was due to the cost of labor. He presented figures to show that an overcoat costing the manufacturer \$10.85 in 1917 advanced to \$17.57 in 1918, and to \$22.62 by last week. He urged that dealers be required to mark the cost prices on all commodities.

### LAWN TENNIS TOURNAMENT PLAYED UNDER DIFFICULTY

Newton, Mass., Aug. 19.—Unfavorable weather made play in the challenge round of the national lawn tennis doubles championship tournament at the Longwood Cricket Club uncertain today. The Australian pair, Norman E. Brooks and Gerald Patterson, who came through the preliminary rounds last week without losing a set, were scheduled to meet the titleholders, Wm. T. Tilden, 2nd, of Philadelphia, and Vincent Richards, of Brooklyn, N. Y.

### EXPLOSION BURIES FOSTY PERSONS NEAR TRINIDAD

Trinidad, Col., Aug. 19.—Forty coal miners are entombed by an explosion in the Oakview mine of the Oakview Coal Company, near Laveta, Col., in Huerfano county, according to reports reaching here. Calls for helmet men and rescue gangs have been sent out to mines in the Walsenburg and Trinidad districts.

### LABOR ORGANIZATIONS TO START NEWSPAPERS, SAID

Chicago, Aug. 19.—Representatives of labor organizations and non-partisan leagues from a number of states in a conference held here today decided to organize a national labor party. The first step will be to call a national convention to be held in Chicago in November to adopt a constitution and platform, it was announced.

Mr. Earl Forbes returned last night from Kentucky.

### MEXICO'S ATTITUDE.

It should not be altogether surprising to the American people that the Mexican bandits have gone so far as to demand a ransom for the lives of two American aviators whom they are holding in detention until the specified sum of money is paid by this government. For if the nature of the man directing the affairs of the government is given careful consideration, we do not believe there is little room for surprise. It matters not how greatly out of the ordinary the act of the bandits may be nor the extreme seriousness which the violation of this breach of international law may appear at this particular moment. Of course, now, it is not our intention to say that Carranza is entirely responsible for the detention of the citizens of the United States, because we do not, but however, it can be plainly seen that should he be respected the certain prerogatives of this government something assured would have been done to protect the interests of a nation which has shown a friendly attitude, and has been favorably disposed towards that nation under extreme and even humiliating circumstances. Through many insults and surreptitious circumstances, this nation has shown a certain respect for Mexico which has appeared almost of the course for ordinary human

ings, but it came from a direct understanding of the deplorable situation which the people of that nation have been up against for many years, and particularly the state of belligerency which has done so much towards demoralizing the forces of what might have been a respected set of people.

Carranza has played the part for his government poorly, even pitifully, and while it is true that he has been opposed by certain factions representing power practically as capable and efficient as his own, this reason alone is not sufficient in justifying him in permitting insults to be heaped upon a nation that has stood by his people under the most trying circumstances which human mortals could endure. It is no longer a matter of speculation as to whether or not Mexico is going to recognize the inestimable privileges accorded other nations of the world, for it has directly violated certain fixed laws of commercial intercourse for which certainly there must be some explanation.

This is no time for disturbance, and Carranza should realize that fact as much as other nations. But, apparently, he cares very little for the actions of the people supposedly under his rule and directly responsible to that government for their action. His course is clear, and has been indisputably clear from the beginning of the border trouble until the present time, but, however, he has failed to recognize the fact, and has permitted an infringement upon American rights which only direct reparation and satisfactory explanations will have any tendency of relieving the indignation of the American people.

No one would possibly entertain the slightest idea of going to war with Mexico at this time, in fact it would be the height of indiscretion on the part of the government to even contemplate such a thinking, but it is generally conceded that something must be done, and done immediately, to bring about a more complete understanding with Mexico as to what American residents in that country are to expect when they are placed there supposedly under the protection of every law and force which the nation is capable of giving. There must be no further recurrence such as the one which has just transpired to test the endurance of this nation, for if the bounds should be overstepped again, there is nothing more to expect than the beginning of a war in which the rights of a liberty loving people will be sustained.

Carranza should immediately awaken to the stern reality of the situation facing him at this particular moment, for as head of the Mexican government, naturally, he must be the first source to which this country will apply for complete justification of the wrongs committed against representa-

tives of the government. There is no other course, and the quicker definite action is taken in convincing the United States that Mexico is entirely irresponsible for the action of the bandits and outlaws of the lawless regions of that country, the quicker an adjustment of the uncertain situation will take place. Carranza alone can bring this about, therefore, the matter now is solely in his hands, and his decision will be our decision.

### ELEVEN CENT SUGAR.

Now that the government has removed the possibility of the profiteering increasing his profits by placing sugar at a fixed price of eleven cents per pound, we believe that the authorities of this city should see to it that the action is not violated under any circumstances or condition, and that when a person is detected in exceeding the average price, he should be prosecuted in a way which will leave very little desire for a continuance of the excessive price charging again.

There are no doubt numbers of merchants throughout this section of the county who have gone much above the eleven cent mark within the last few months, in fact, we are confident that grocers in this city have gone as high

as 15 cents within the last week, although they may have been entirely exonerated of any intention of profiteering in their endeavor of keeping step with the constant increase in price of common labor and the price demanded for other commodities. That fact, however, holds little place in conditions of the present moment, for the government has fixed a fair price for sugar, and it is certainly to the interest of everyone in seeing that the eleven cent mark is not exceeded, even in the event of a momentary shortage, for in this way those who have entertained the idea of reaping slight profits will be held in a direct course, and prevented from diverting attention in some other source while sugar again experiences a rise above the legitimate average.

There must be no repetition of profiteering in Greenville or in any part of the county. People are sick of it, in fact, the very expression carries with it a certain nauseating influence which is both repulsive and obnoxious to those who have experienced the effects of extortionate prices in every line within the past few months, and who at this moment, trouble unless the deplorable situation continues along the same line instead of being diverted into other channels. To prevent this abnormality

in prices, there must be fixed determination among the people that they will not pay over a certain amount for required necessities, and wherever profiteering is in evidence, a decrease will naturally become immediately apparent, giving the consumer a fair and impartial chance of buying at legitimate prices.

The authorities of Greenville, we believe, should institute an investigation into localized conditions to show the people that they are interested in them if for nothing more, but, however, it is reasonably certain that such a step would bring out certain facts that would prove pleasing in every way, as the action in itself would be expressive of a certain amount of regard for public sentiment that will be appreciated to no little extent by those in doubt as to the actual conditions in sway in this locality.

### BUSINESS AGAINST FEDERAL CONTROL OF THE RAILWAYS

(Continued from page one.)  
Constructive proposals in relation to the railroad situation, Mr. Post argued called for return of the lines to private ownership and management, with consolidation of the numerous lines now existing into a limited number of strong competing systems. Such groups, he said, should be built up by enlarging the present large systems, and not by combining roads on a geographical basis. Federal incorporation for these roads, with a federal transportation board to control them, and stronger interstate commerce commission powers to regulate rates and service, as proposed by the national transportation conference, he said, had been endorsed by vote of the chamber's membership.

## The tobacco that is honestly "different"

Virginia-Carolina tobacco has every quality that a good cigarette tobacco should possess—flavor, fragrance and body plus a certain "liveliness of taste" that other tobaccos do not have.

That is why Virginia-Carolina does not need to be mixed with other tobaccos, but tastes best smoked straight, in a cigarette made entirely of Virginia-Carolina.

If you want all of that rich flavor and that lively, different taste, smoke Piedmonts. These cigarettes are made entirely from Virginia-Carolina and from the choicest selections of the Virginia-Carolina crops.

**SOUTH OFFERS BIG THINGS TO NEGROS IN NORTHERN CITY**

(Continued from page one.) Northeastern Arkansas. "I think it is safe to say that every southern negro in the north would be brought back without expense to him if southern farmers and plantation owners knew where and how to get in touch with the southern-born. We don't want and will not have northern negroes."

The question of how to get in touch with negroes who have gone north was discussed at the Memphis meeting of the Southern Alluvial Land Association several days ago and the subject will be a special order of business at the next meeting. The Association is an organization of bankers, land owners, chambers of commerce, planters and lumbermen of the lower Mississippi Valley formed to serve, in a measure, the same purposes for the delta country as the chamber of commerce serves the town or city. At the last meeting it was said that there is great need for more labor in the lower Mis-

issippi Valley and especially for negro labor acquainted with southern agricultural methods and with cotton growing and handling.

**LOYD GEORGE ON DOMESTIC AFFAIRS THRUOUT ENGLAND**

Tells House of Commons Several Things of Public Importance to Nation.

London, Aug. 19.—In a three hours' speech in the house of commons in which he dealt with Great Britain's domestic affairs generally, David Lloyd George, the British prime minister, today discussed three important decisions of the government.

One of these was that the post-war plan of protection under which imports were limited to those granted special licenses by the board of trade, will be abandoned September 1st, and the putting into effect of measures to prevent "bunting."

The second decision was the rejection of the majority report of Dr. Sankey's coal commission, which provided for a gradual nationalization of coal mines, and in its stead launching a plan for partial government control, by which the government will buy out the owners of coal mines or receive royalties from mining companies, give the miners a share in the control of the mines, organize the mines into districts and establish a fund for improving the living conditions of miners.

Under the third decision the government will embody in a bill recommendations for a joint industrial council of employers and employees and a forty-eight hour week and a living wage applying to nearly all industries.

earlier in the day. Introductions were not necessary in that atmosphere and at that time of night. Neither was music as long as the crowd could sing. So the dance was soon in full swing. Sailors produced mouth organs, thereafter there was music a plenty.

The dancing was in the roadways, all the way from Piccadilly to Leicester Square, for the sidewalks were thronged with other belated persons who watched the dance and cheered the dancers. Sailors everywhere were the leaders, although many demobilized soldiers joined in the festivities. Some Americans were in the crowd. And all the time it rained.

Toward morning the people began to tire. Some of them sought resting places, in the doorways of shops and office buildings, while others simply sat on the sidewalks, leaned up against the buildings, to get such protection as the eaves afford, and went to sleep. At some of the more important business houses along Regent street, to which many of the merry-makers drifted, even

seven o'clock saw large members fast asleep.

**LAND SALE.**

By virtue of the power of sale contained in a certain mortgage, executed and delivered by Katie Crandall to F. G. James on the 13th day of March, 1917, which mortgage was duly recorded in the office of the register of deeds of Pitt county, in book D-12, page 294, the undersigned will sell, for cash, at public auction before the court house in Greenville, North Carolina, on Monday August 4th, 1919, the following described piece or parcel of land, situated in the county of Pitt and Carolina township, and in the town of Stokes, more accurately described as follows:

Beginning on Berkshire street at the corner of lots Nos. 14 and 15, running South 100 feet with lot No. 14, thence west 50 feet to lot No. 18, thence north 100 feet to Berkshire street, thence 50 feet to said street to the beginning, an iron stake, same being lot No. 16, sold to L. B. Clements by the Atlantic Coast Realty Company and being the same conveyed to Katie Crandall by S. R. Page and wife, June 18th, 1914, which is recorded in book R-10 at page 572.

Said land sold to satisfy said mortgage.  
This July 2nd, 1919.  
F. G. JAMES,  
Mortgagee.

**PITT SHERIFF HAS MADE FINE RECORD IN GETTING STILLS**

(Continued from page one.)

alert and vigilant at all times, and the fact that they seldom appear to have any trouble in locating a still when they go after it, has thrown error in the hearts of the many blockaders and no doubt caused a suspension of the traffic by many men who would otherwise gladly pursue the traffic if they could do so with safety.

While the whiskey traffic has undoubtedly decreased to no little extent in this immediate locality, the blockaders are continuing to pursue their illegitimate practice in many of the rural districts and low grounds where they feel more secure from the law, but even then, there are very few of them who take any unnecessary chances owing to the sheriff's long range for anything not exactly on the square. This fact has been accountable for the decrease in the distillation of the beverage in this immediate section, and although there are many traffic participants who still persist in defying the law, there is little doubt but what they will be brought to account sometime soon. Sheriff Dudley's record has been accomplished by constant, unremitting application.

Sheriff Dudley has established his enviable record by constant, unremitting application of certain knowledge of the character and customs of the men with whom he has necessarily been forced to come in contact in his effort of reducing the traffic, and although he has not been as successful as he might have been otherwise had it not been for ill health during the early part of his administration, he has without a doubt done more in eliminating the sale and dispensation of the vile liquid than any other man in this section of the country. His officials have rendered capable and efficient service in every raid into the dangerous rendezvous of the distillers, and in every case they have displayed matchless courage and experience in handling even the most dangerous members of the gangs.

There is little to be said concerning the future prospects of the sheriff and his men, but there is one thing sure—they are going to do much in bringing the remaining members of the whiskey traffic to account before the end of the present year.

**DREAMS OF AUTOMOBILE AND AIRSHIP COLLISION, SAID**

San Francisco, Cal., Aug. 14.—Mrs. C. M. Fuller of San Jose, a guest at the Clift hotel, purchased an automobile a few days ago. Later she drove through the city at lightning speed. Reaching Third and Market streets, an airplane, flying overhead, suddenly swooped down and crashed into the car. The impact demolished both machines.
