PLANS FORMED TO HURRY UP REPORT ON PEACE TREATY

Committee Plans to Extend Schedule for Today to Consider Amendments

WILLIAMS CRITICISES THE LATEST HEARINGS

Several Objections Are Forwarded as to Features of the Covenant.

(By The Associated Press.)
Washington, Aug. 29.—Coupling its public hearings with consideration of proposed amendments to the peace treaty, the Senate Foreign Relations committee plans an extended session tomorrow to hasten work on its report to the Senate.

After completion of its open meeting during the morning, the committee will close its doors and take up pending amendments. It is likely that the first to be considered will propose elimination of the international labor section and reduction of the representation of British dominions in the League of Nations assembly.

Today the committee heard several negro delegations who proposed amendments guaranteeing race equality and providing for an American mandatory over Germany's African colonies. The case of several mid-European nationalities will be presented at tomorrow's hearing.

In the Senate during the day Senator Williams, Democrat, Mississippi, a member of the committee, criticized the committee's course in its hearings which had to do, he said, not so much with settlement of the war as with "proposals to dismember the countries which were our Allies." He referred to the hearings granted Egyptian, Irish and Indian representatives and predicted that the French colonies next would ask to be heard.

TWO TOWNS HAVE BEEN TAKEN BY THE BOLSHEVIKI FORCES

London, Aug. 29.—The towns of Kupiansk and Pavlovsk, on the Don river, have been captured by the Bolsheviks, according to a statement by the Russian Soviet government today. The statements also claim an advance of ten miles after the capture of the towns.

ELEVEN MORE POLICEMEN ON TRIAL IN BOSTON, MASS.

Boston, Aug. 29.—Eleven more policemen have been placed on trial with charges of the violation of the department rules by joining the union. Eight have already been tried but no findings have been announced. The city faces a complete tie-up if the policemen strike to enforce the claim of three of the eight to organize as other unions offered to go out on strikes in sympathy.

SENATOR KNOX DENOUNCES VERSAILLES DOCUMENT UNJUST

Washington, Aug. 29.—Senator Knox in plea rejection of peace treaty by the United States denounced Versailles document as unjust unfair and impossible of fulfillment by Germany and declared that America should make a separate peace with Germany and not undertake to enforce terms of the treaty in which she has no national interest. He also objected to representation of the United States on commissions for reconstruction in Europe and flayed "mandatory" agreements which he said would result in oppression of the small nations by great powers.

VIRGINIA ANTI-TRUST LAWS ENACTED TODAY

Richmond, Va., Aug. 29.—Virginia's first legislation aimed at the high cost of living and profiteering was enacted today when the house of delegates passed what are known as the anti-trust and cold storage laws. Penalties for violation are discretionary with trial judges, as to whether offenders shall be fined or suffer jail sentences. Both measures were amended after lengthy hearings.

SEVERAL CASES IN SESSION OF COURT DURING THURSDAY

True Bills Are Returned by Jury in Three Different Murder Charges.

HEAVY SENTENCES ARE IMPOSED IN MANY CASES

Wright and Edward Mayo Given Long Terms on Road for Manslaughter.

Yesterday was an unusually busy day in the criminal term of Pitt county superior court which convened in this city last Monday morning with Judge J. H. Kerr, of Warrenton, presiding, as a result several cases were disposed of and other matters taken up which are of more than general interest to people in every part of the county. The session yesterday was undoubtedly nothing more than one filled with work from beginning to end, and although there were no liquor cases coming up for hearings on the preceding day, the court was well entertained with murder cases and the returning of several true bills of murder by the jury following some little time spent in consideration.

Judge Kerr continues to make a splendid impression with the county in fact the admirable fact which he has displayed from time to time in dealing with cases more or less complicated through technicalities of the law, and as a consequence, the various actions which have come up from time to time since the opening session last Monday morning, have been rapidly disposed of. All work has been carried on with well applied efforts on the part of both the judge and jury, and

SAYS STRIKES ARE POPULARIZED ONLY ON PEOPLE'S PART

Strikes Characterized as Two-Edged Weapon by James Henry Thomas.

London, Aug. 29.—The strike was characterized as "a two-edged weapon" which should be used only as a last resort in enforcing workers' demands by James Henry Thomas, a member of Parliament for Derby and in his first public address after returning from a visit to the United States where he studied the labor situation.

America had strengthened her economic situation during the war and controlled or produced everything that the rest of the world required, Mr. Thomas declared. Unless England at once repaired the losses of the past four years, he said, disaster would stare the country in the face.

The speaker said he believed that the government itself did much to popularize the strike by refusing at the conciliation table today what they would concede tomorrow merely on the threat of a strike.

"The first essential is that confidence immediately be restored to the working classes," Mr. Thomas stated. "Employers must realize that the men and women who were responsible for saving the country expected fair and square dealing while workers, on their part, must not be carried away by the mistaken notion that wealth consisted in mere paper money—but must remember that the nation had to regain not only self-confidence, but the confidence of the world."

TO INVESTIGATE WAR RISK INSURANCE BUREAU

Washington, Aug. 29.—Investigation by the Senate finance committee of the War Risk Insurance Bureau with a view to changes in the law governing the bureau was authorized today by the Senate.

SEVERAL MATTERS TAKEN UP BY CITY CHAMBER WORKERS

Officers of Chamber of Commerce Discussed Important Matters Last Night.

COTTON STORAGE HOUSE TO BE BUILT IN TOWN

Gas Plant Matter Also Discussed With Animation During Meeting.

At a meeting of the Directors of the Chamber of Commerce last night the committee that had been appointed to secure options on suitable locations for a cotton storage warehouse submitted their report which was enthusiastically received. A committee composed of Messrs. G. B. W. Hadley, J. E. Winslow, B. W. Moseley and B. B. Sugg were authorized to solicit stock subscriptions and Judge H. W. Whedbee was employed to prepare articles of incorporation. Only a limited amount of stock can be taken by any one person or firm, the idea being to give just as many citizens as possible an opportunity to have an interest in the enterprise. Subscription lists will be in the hands of each member of the committee for a period of ten days. If you are interested call on any member of the committee. Twenty-five per cent of the amount of stock necessary to commence operations was subscribed by the end of the meeting.

The use of an up-to-date Gas Plant for Greenville was also discussed and since the town already has an investment of something like \$30,000 in pipe lines that were laid in the streets before they were paved it was decided to confer with the Mayor and Board of Aldermen through a special committee.

CRIMINAL IS NOW PRESIDENT OF THE JUGO-SLAVIA FOLK

Shola, Held Here for Assassination, Become Man of Power and Influence.

Sarajevo, Aug. 29.—One of the men who were arrested by Austrian authorities after the assassination of Archduke Ferdinand in 1914, is now President of the Provincial government of Bosnia-Herzegovina and is recognized as one of the leaders in the new kingdom of Jugo-Slavia. He is Atanasije Shola. He was kept in prison at hard labor during the war.

Today, in his office in what was formerly part of an Austrian palace, Mr. Shola described his years in prison and subsequent rise to power. He is a Herzegovian, forty-two years old and considered to be a man of exceptional ability.

"One hundred and fifty-six of us were placed under arrest in July, 1914," he said. "There was no proof that I was in sympathy with the Jugo-Slav propaganda, but the authorities suspected what was in my heart. Sixteen of the men arrested at that time were condemned to death. The death penalties were not executed, because of the remonstrance by the King of Spain, but the prison sentences were all made effective."

"I went to prison on July 26th, 1914. My cell was a small one—a mere cage, and I was kept at hard labor. In October of 1918, the people of Bosnia-Herzegovina, as in other Jugo-Slav provinces of the Austrian Empire, anticipated the debacle of the empire, and organized a National Council for the conduct of affairs. As soon as the Austrian army fled this council came into full executive power and the men wrongly imprisoned were liberated. I was released from prison on November 1, 1918, and almost immediately was chosen by the National Council as president of the government of Bosnia-Herzegovina."

PRICES OF LIVING DECLINING SLOWLY IN MANY SECTIONS

Attorney General Palmer Promises Tangible Results if Fair Chance Given

Washington, Aug. 29.—Belief that definite progress is being made in the government's campaign against the high cost of living is expressed by Attorney General Palmer in announcing last night that the department of justice is meeting with success in obtaining from shoe manufacturers' promises as to fixing a maximum price on shoes.

With reports to the department indicating that a slight downward trend in prices already has set in, although it is not yet sufficient to be reflected in spot purchases on the retail market, Mr. Palmer declared that given a fair chance efforts of the government to squeeze the inflation out of prices soon will show substantial results. Expressing satisfaction with the success so far attained, the attorney general said he believed cumulative results will follow enactment by congress of amendments to the food control law providing criminal penalties for profiteers and hoarders.

Efforts of retail merchants to stimulate buying by predicting higher prices next season on clothing and other non-perishable articles were condemned by Mr. Palmer, who warned the public not to be stampeded by this propaganda into a "buying hysteria." Extensive purchasing now, he said, would make such predictions come true.

CARNEGIE ESTATE VALUED OVER THE \$30,000,000 MARK

Report of Immense Wealth of Steel Magnate is Given to the Public.

OVER \$35,000,000 WAS GIVEN OVER TO CHARITY

Remainder of Property Is Left in the Name of Mrs. Morgan, Is Said.

New York, Aug. 29.—The will of Andrew Carnegie made public today estimates the value of the ironmaster's estate at between \$25,000,000 and \$30,000,000.

The will leaves the real estate and all the works of art and household goods to Mrs. Carnegie. The financial provision for Mrs. Carnegie and her daughter, Mrs. Miller, was made during Mr. Carnegie's lifetime.

A statement issued by Elihu Root, Jr., says that Mr. Carnegie's public gifts and charities during his life time exceeded \$35,000,000.

The fourth article of the will contains a series of legacies to charitable institutions, while the fifth article contains annuities to relatives and friends. The Carnegie Corporation of New York is the residuary legatee.

An annuity of \$10,000 was bequeathed to former President Taft and annuities of \$5,000 each to Mrs. Grover Cleveland and now Mrs. Thos. J. Preston and Mrs. Theodore Roosevelt, widows of former presidents.

An annuity of \$10,000 is made to Premier Lloyd George of England.

Public bequests include Cooper Union, New York, \$60,000; Pittsburgh University, \$200,000; relief fund of the Authors' Club of New York, \$200,000; Hampton Institute (Virginia) \$300,000; Stevens Institute, Hoboken, N. J., \$100,000; St. Andrews' Society of New York, \$200,000.

TROLLEY SERVICE IS RESUMED IN PITTSBURGH, IT IS STATED

Pittsburg, Aug. 29.—Trolley service was resumed here today after a two weeks' strike. Three thousand men returned to work, accepting the five cent per hour wage increase granted by the war board.

POLITICAL STRIKE IN FRANCE IS NOW THING OF HISTORY

Recent Collapse of Movement Brought About by the Socialist Party.

Paris, Aug. 29.—The recent collapse of the movement for a general strike is explained in some quarters by the saying that, while the extremists were getting control of the Socialist party, they were losing their hold on the labor unions, which, 300,000 strong before the war, now have a membership of more than 1,500,000. The 300,000 were well in hand, it is said but the 1,200,000 have brought with them a certain independence of thought and action. The consequence is that the vast majority of union men are not ready to accept such radical measures as a general political strike.

The national committee of the Labor Federation has issued a sort of platform declaring that production should be stimulated and increased by all possible means, and demanding customs barriers be broken down, that inflated paper circulation be suppressed, that a national economic council be organized together with a national organization to control the provisioning of the country.

THEATRE CLOSED AS RESULT OF STRIKE IN WASHINGTON

Washington, Aug. 29.—One playhouse was closed when stage hands struck in sympathy with the New York union.

FOUR BIG FACTORS BACKED UP TO THE TABLES OF NATION

Secretary Lane Demands that Conference be Called by the President.

INDUSTRIAL MEN WILL BE INCLUDED, IS SAID

There Are Others in the Game Beside Capital and Labor, Lane Thinks.

(By The Associated Press.)

Washington, Aug. 29.—President Wilson should call a conference of representatives of capital, labor, industrial managers and the public to meet in Washington, in the near future to discuss perplexing economic problems confronting the nation, Secretary of the Interior Lane declared in a statement made today. Heretofore only capital and labor have been considered in discussions of vital economic questions, Mr. Lane asserted, but the time has come when the public must be given a voice as well as the business managers and executives who are "the brains of modern industrial organizations."

"There are four sides to the table," said Mr. Lane, "and it is time that the public was given a seat in the council chamber and a voice in the proceedings. The problems confronting the United States today vitally threaten the welfare of the nation and the situation is growing worse daily."

I believe that the President should call immediately a conference of representatives of the four great factors involved in the present economic situation—labor, capital, business executives and the public. Such a conference would go far toward solving the perplexing and dangerous problems the nation today faces."

The proposed conference, the Secretary held, should take up the questions of relations between employer and employee, of labor's proportion of earnings and of improving industrial conditions by calling in executive who have solved these problems successfully in their organizations.

PROVIDES TRANSPORTATION FOR TRANSPORTING DARKEYS

Chicago, Aug. 29.—Harry Wilson, the Louisiana commissioner of agriculture, with a committee of Southern planters and business men, is providing transportation for all the negroes who want to return to the south. He states that the south wants plantation hands who left during the war to come back.

WILSON WILL VISIT THIRTY CITIES IN SPEECH-MAKING

Washington, Aug. 29.—President Wilson will visit thirty cities in his speech-making tour to begin next Wednesday, and will be absent from the capital until September the 3rd. The itinerary given out at the White House today shows that the first speech will be made at Columbus, other cities to be visited including St. Louis, Kansas City, Denver, Salt Lake City, Portland, Oregon and San Francisco, where the president plans to review the Pacific fleet, although the object of the trip is to explain the peace treaty. The president also has announced that he will discuss the high cost of living and other domestic problems.

HINES PREPARING TO BEGIN OPERATION OF THE RAILROADS

Washington, Aug. 29.—Hines is preparing plans to operate railroads in event that the union men refuse to return to work. If the government takes over the operation of the roads anyone interfering with the transportation will be prosecuted on charges with committing offenses against the United States.

FRIDAY, AUGUST 29, 1919.

The county is certainly experiencing greater damage as a result of strikes than any other one thing. In fact, the strikers clamoring for higher wages with which to meet the high cost of living are possibly doing more to decrease their chance in this direction than they are in gaining their object in the long run. The situation is becoming thoroughly disgusting in many sections, and especially is this so, among the well-paid men where are living up to their very last cent, and would continue, to do so if they made twice the amount. There is no change probably until the economic condition of the entire country becomes normal, and this cannot possibly be brought about until every organization co-operates with the other in effecting the desired end in view.

Palmer appears to anticipate lower prices soon, and warns the public to refrain from extensive buying in the few months at least, saying that it would needlessly reduce the supply and cause the demand to be greater. The advice is timely, and people should do everything possible to abide by the warning. Palmer is probably better acquainted with the high price situation than any other man in the county, and his efforts so far should cause everybody to have great faith in ability of carrying the job through to the end.

If you don't believe the opening of the Greenville tobacco market is going to be all that tobaccoists have been anticipating, attend the opening sales of September 2nd. Everything is getting in better shape every day now, and when the opening date comes around the principal activity of the section will begin in full swing. Farmers will be here from miles around, and even if they don't bring their tobacco for the opening sales there will be enough inspiration in the occasion to bring them back again in a short time.

Now that Attorney-General Palmer is preparing a crusade against the liquor dealers of the country, we may expect to hear of some more exciting incidents in a short time. There are of them.

some who find great pleasure in criticising the profiteer's enemy, but the way we have seen it he is throwing terror into the camps of hundreds of men who would have gone in the straight path had not the opportunities to hog things been so great within the past year, and his chance to gain great fortunes so decidedly inducing.

Germany says that only long term term-credits can help it recover from the present deficiency in food, and is doing everything in its power of getting in line with some nation ready and willing for lending money to help repair the great damage done by its own inordinate desire to rule the world. Again the people are confronted with facts showing them the folly of their efforts, and while apparently they are far from realizing it in every serious trend of thought, eventually the lesson will come home with all of its true force.

Belgium has purchased practically \$11,000,000 dollars worth of the food-stuff which the American government shipped over to that part of the world for the army of occupation. There is no doubt but what Belgium needed the food, but where in the world did they raise that much money with which to buy it. Verily, every nation appears to have plenty although there is the constant complaint coming in every day that people are starving everywhere.

With martial law declared throughout Hungary chances appear very slight at this time for a renewal of anything tending to put the country back in the line of commercial activity. The Hungarians have been undecided and practically demoralized for several months, and there is only slight change in view if Premier Freidrich does not get down to business and let the new government walk in.

Reports say that Carranza has ordered a general census of Mexico. No doubt the old gentlemen is beginning to fear that too many of his men are missing as a result of mountain-pass fights, and therefore, is desirous of ascertaining just how many fellows could be swung on the front lines in the case of war. Mexico can't be guessed, and Carranza is still a more difficult problem.

Belgium has arranged for credits American and English houses, and consequently, it is said great factories are beginning to take on new activity, making the entire country assume a different atmosphere. It is to be hoped the little county will soon recover from its great loss and regain its place in the ranks of prosperous nations of the world.

POST OFFICE WILL HAVE HOLIDAY DAY ON LABOR DAY

Monday, September 1st, being a legal holiday, the usual holiday hours will be observed by the local post office. The city carriers will make the usual morning delivery and collection but perform no service in the afternoon. The rural carriers will not serve their patrons. The general delivery and stamp window will be open from 10.30 to 11.30 a. m. and 1.30 to 2.00 p. m., during which hours city patrons usually served by carriers can call for their daily papers at the window. The money order department will be closed all day. All dispatches of mail will be made.

Family quarrels would not be so bad if other families would keep out.

SEVERAL CASES IN SESSION OF COURT DURING THURSDAY

(Continued from page one.) while, of course, there have been times when a standstill in routine appeared almost inevitable, some new feature introduced by the judge kept things moving smoothly, even under difficulty on some occasions. The first action coming up before the attention of the court at the opening session yesterday morning was the manslaughter case against Wright Mayo and Edward Mayo, colored men of Pactois section, who sometime ago killed another darkey by the name of Henry Harrington in an altercation occurring between the parties. The case has been pending in court for several months, but when the matter was taken up yesterday it was rapidly disposed of with the jury returning a verdict of guilty after the matter had been threshed out from beginning to end. Wright Mayo was sentenced to three years on the roads and Ed Mayo was given five years, to be served on county roads.

The next cases was that against James Dixon Preston Brown, Julius Boss and Clifton Williams, charged with larceny. The defendants were found guilty but judgment was suspended upon payment of cost of action.

The next two matters were connected with murder cases, the jury returning a true bill of murder against Moses Dew, a colored man of Ayden, for killing his father during the latter part of the spring this year.

In the case of R. D. Harrington for killing Jim Harrington, colored man, who was in the employ of the defendant at the time of the killing, the jury did not find sufficient cause for murder charges, therefore true bill was not returned.

James Jackson and Arthur Kelley, charged with larceny, were each given four months' confinement in the county jail, to be assigned work on the county roads.

A true bill was returned against Della and Silas Nobles, charged with bigamy.

Hardy Myzelle, manufacturing liquor. Defendant was placed under \$200 bond. A true bill of murder was returned against Daniel Webster Goss, although as yet the name of the person murdered is not known to the court.

SAN FRANCISCO STRIKE IS CRUMBLING TODAY, IS SAID

San Francisco, Aug. 29.—The strike of the railroad men is crumbling today, following a warning from Elmes that if they did not return to work by 7 o'clock Saturday morning, that the railroad administration would operate the trains. The desert towns which are dependent upon railroad transportation for water and food are reported to be hard hit by the strike and the suffering is acute. The mails are also delayed and motor trucks are being used by postal authorities.

MIGHTY BRAVE MAN BUT WANTS NO POLITICS

Lockport, N. Y., Aug. 29. — Frank Gaffney, called by General McHale the "second bravest man in the war," wants nothing of politics. He has declined designation by the Democrats for member of the New York State Legislature. Gaffney is chief of police at a local manufacturing plant, employing 1,200 men, and says he is satisfied with his job. His greatest exploit in the war was the capture, single-handed, of 84 Germans.

The Woman's Club wishes to announce that Mrs. R. E. Ranson, who was to tell stories to the children this afternoon, has been called out of town and that Mrs. W. C. Harriess will entertain the little people in her place. The Woman's Club did not wish to disappoint the children so Mrs. Harriess has consented kindly to tell the stories. She was before her marriage, a teacher of expression, and there is a treat in store for the little ones.

SAN MARINO IS HAPPY IN A HANGING BASKET

The little fifty-bed hospital in the "via del Trieste," above which kindly has flown a white and blue flag with its three gold towers—is closed, making the end of the chapter in San Marino's Red Cross epic.

San Marino is the smallest republic in the world. If we might hover in a great plane, over a point about fourteen miles inland from the city of Rimini, lying on the edge of the Adriatic, it would lie below us, a little handful of life, caught in the hollow of the hills, snug in its isolation and security. Early in the ninth century, St. Marinus, fleeing from the persecution of the Emperor Diocletian, found refuge there. San Marino has never grown very large; it has never earned great fame, but it is sturdy, peaceful and self-reliant. The city clings to the edge of a precipitous rock, as if in effort to climb as far as possible from the turbulent world below. Of citizens, there are scarce 10,000 in the entire extent of the republic.

A chapter of the Italian Red Cross has been active in San Marino since 1912, and during the war the women of the Lilliputian republic turned out dressing and comforts for the fighters along the Italian front. There was also a miniature bureau for the relief of prisoners of war and interned civilians. The "ospedale del Aidussina" was opened in September 1916.

Mrs. J. J. Stroud and little daughter who have been visiting relatives left this morning for their home in Southern Pines. Little Miss Nannie Evans accompanied them home.

SEVERAL MATTERS TAKEN UP BY CITY CHAMBER WORKE.

Continued from page one:
 tee composed of Judge Whedbee, E. G. Flanagan and B. W. Moseley relative to this much needed convience for housewives.

The budget system inaugurated by the board of aldermen and the proposed increase in the tax rate came up for quite a bit of discussion and a committee from the Chamber composed of Messrs. T. M. Hooker, G. E. Harris and J. N. Hart was appointed to confer with the finance committee of the city concerning same.

A communication was ordered addressed to Post Master D. J. Whichard requesting that the post office be kept open all night, so that patrons could have access to their boxes and an opportunity to post their mail at all hours.

The next regular meeting of the entire membership of the Chamber will be held Thursday September 25th around a festive board set in some appropriate place for such a gathering.

THE GERMANS TAKE THE FRENCH IDEAS

Paris, July 29.—The gas turbine, which a large German company is reported to be manufacturing, is, it is claimed here, a practical application by Germans of French discoveries. The principle of this turbine was worked out by French inventors but the trials and experiments were interrupted by the war.
