REPUBLICANS ARE TRYING VAINLY TO STOP WILSON TRIP

Representative Rodenberg Presents Resolution to Stop Speaking Tour.

ASKS CONGRESS TO TAKE ACTION TO DEFER VISIT Resolution Says Railroad and Labor Situation too Unsettled at Present.

(By The Associated Press.) Washington, Aug. 30.—Representative Rodenberg, Republican, Illinois, introduced a resolution today proposing that congress declare that "the President should postpone his proposed tour of the country at least until such time as we may know definitely the problems which confront us," growing out of the country's industrial situation and the cost of living problem.

The resolution said the railroad and labor situation generally indicate the necessity for immediate steps to bring capital and labor together for a better understanding, "that congress would soon adopt the President's suggestions to combat the cost of living" and that "renewed absence of the President at a time when his signature is required to place in effect measures adopted by congress to reduce the high cost of living would occasion serious delay in solving this vital problem."

The resolution went over without debate. A second resolution, by which the house alone would ask the President to remain in Washington, was offered by Representative Strong, Republican, Kansas, who in an address of support of his measure said domestic and international conditions were such that the absence of the President would be "fraught with very grave danger."

SEVERE FIGHTING REPORTED IN THE STREETS KRONSTADT

London, Aug. 30.—There is severe fighting in the streets of Kronstadt, the Bolshevik naval base, according to Copenhagen dispatches. Allied air-men are said to have seen the bodies lying in the city thoroughfares.

SUPREME COUNCIL DECIDES TO HAND TREATY TO AUSTRIA

Paris, Aug. 30.—The supreme council has decided to hand the peace treaty to the Austrian delegation next Tuesday. Five days will be given the Austrians in which to sign.

EIGHTEEN HUNDRED MEN HAVE ARRIVED FROM FRANCE

New York, Aug. 30.—Eighteen hundred officers and men of the First division have arrived from France. Plans are being made for the parade down Fifth Avenue, September 10th, with General Pershing heading the procession.

PROMINENT LAWYER KILLED NEAR CITY OF NASHVILLE

Nashville, Aug. 30.—Robin Cooper, a prominent lawyer who killed former Senator McCormick in 1908, was found dead in a creek near this city. It is reported that he was murdered.

GREAT GERMAN ARMIES ARE ASSEMBLED NEAR LITHUANIA

Paris, Aug. 30.—A German army of 40,000 with 300 airplanes are assembled in Lithuania and are preparing to march into Russia ostensibly to aid Kotechack, according to the Lithuanian advices.

REPUBLICANS PERFECT PLANS FOR THEIR SPEAKING TOURS

Washington, Aug. 30.—The Republican senators have perfected plans for sending opposition speakers on President Wilson's trail as soon as he leaves here on his country-wide tour in the interest of the league of nations and the peace treaty. In the meantime the president is completing arrangements for the tour.

CRIMINAL SESSION OF COURT CLOSES AFTER GOOD WORK

Several Important Cases Were Disposed of Throughout Week's Session.

WEBSTER GOSS IS GIVEN FIVE YEARS FOR MURDER Several Other Cases Disposed of in the Hearings During Yesterday.

While there were only a small number of cases disposed of in yesterday's session of criminal term of Pitt county superior court there were still two or three actions scheduled for hearing during the day which required little more than ordinary attention on the part of leading court officials, and as a consequence, it was at a late hour last night before the jury rendered a verdict in an automobile speeding case which had occupied the undivided attention of the court practically during the entirety of the evening session, precipitating several legal controversies before the matter was turned over to the jury a little after 6:30 o'clock, the verdict being returned at 10:30.

Judge Kerr displayed the same regard for the violator of the law that has been noticeable from the beginning of the week's session until the closing last night and regardless of persuasion from various sources he has maintained a certain inflexibility in purpose which has proven of more than unusual interest to the great masses of people throughout this section of the country watching apprehensively the gradually increasing wave of crime without the higher courts of law.

REPUBLICANS ARE PLANNING TO SEND SPEAKERS ON TRIP

Efforts Being Made to Send Opposition Speakers Behind President.

Washington, Aug. 30.—As the final itinerary for President Wilson's speaking tour in support of the peace treaty was announced today, Republican Senators began conferences to decide on plans for sending opposition speakers along behind him.

The President's plans call for speeches in the thirty cities throughout the West between the time he leaves here next Wednesday and his return to Washington, September 30th.

While resolutions were being offered in the House by Republican members calling upon the President to abandon his tour and engage himself in Washington with domestic affairs of the nation, Republican Senators who opposed the treaty met with Senator McCormick, of Illinois. Nothing was finally decided and another conference will be held tomorrow after which it is expected a definite program will be announced.

SAYS SALARIES GOVERNMENT EMPLOYEES SHOULD BE RAISED

Washington, Aug. 30.—An increase of 100 per cent in the pay of the president, vice-president and cabinet officers is proposed in a bill drawn by Admiral Cowie, former navy paymaster. Cowie says that the salary of all government employes should be increased immediately.

NATION TO DOUBLE TRAINING FOR THE DISABLED SOLDIER

Plans Have Just Been Completed for Fall Opening School and Colleges.

GREAT DELAY INCURRED IN PERFECTING PLANS Millions of Dollars Are Being Saved by Nation in New Method Training.

Washington, Aug. 30.—Plans to more than double the number of discharged soldiers, sailors and marines receiving rehabilitation training were announced today by the Federal Board of vocational education. The increase will be made at the fall opening of schools and colleges. More than seven thousand men now are receiving training.

There have been delays in carrying out the work of vocational rehabilitation said the board's statement "but most of them have been due to cause which were beyond the control of the board and which it has made unceasing effort to remove.

GERMAN SOLDIERS ATTACKED BY MEN OF THAT COUNTRY

Reports of Civilian Attack Reach This Nation Through Returning Troops.

With the American Forces in Germany, Aug. 30.—Details of civilian attacks on German soldiers in various parts of Germany have reached the headquarters of the American forces recently showing the bitterness of German civilians against the troops of Gustav Noske, the German minister of military affairs.

Several discharged German soldiers who entered the American area a few days ago asserted that patrols of the first battalion of the Twenty-second Reichswehr regiment stationed at Hanau were safe only when proceeding in force. These former soldiers were members of this unit and said that almost at any time when a soldier appeared in the streets of Hanau alone, or accompanied by one of two comrades, he was likely to be attacked by civilians and that many serious encounters between soldiers and civilians had occurred lately.

On the other hand, men of the railroad regiments at Hanau said that they never had any trouble and were on good terms with the people.

BOATS LIBELED FOR NOT SHOWING LIQUOR CARGOES

Tampa, Fla., Aug. 30.—Two Cuban fishing smacks, the Cuba and the Antonio Rodriguez have been libeled by federal officers of the department of justice for violating the customs act by not showing liquor cargoes on their manifests. The captain of one of them whose name is not known here is under arrest for disposing of the goods and will probably be brought here today for arraignment.

The open season for squirrel shooting begins Monday and hunters are getting their guns ready.

AMERICAN TROOPS ARE TO GET BEST QUARTERS OF HUN

Composition of Permanent American Guards Has Just Been Announced

EIGHTH INFANTRY WILL FORM COMBAT FORCES List of Units as Announced at Coblenz Headquarters Are Reported.

With the American Forces in Germany, Aug. 30.—Composition of the final permanent guard of American troops in Germany has just been announced. According to the terms of peace the Americans are to have the choice of the best barracks formerly occupied by the German army.

The Eighth Infantry, as has previously been announced, will form the main body of combat troops. A crack cavalry detachment of two troops has been organized and will be under command of Colonel J. M. Wainwright. This mounted unit will be used for the patrol of the American zone in the occupied territory and as a headquarters guard. The two companies of the Seventh machine-gun battalion, members of which claim the distinction of being the only American unit which ever fought in the city of Chateau-Thierry itself, will form part of the United States garrison on the Rhine. The Seventh machine-gun battalion was attached to the Third division which was instrumental in stopping along the Marne the last great German drive on Paris.

The list of units in the permanent garrison as announced at the Coblenz headquarters follows:

Commanding general, Major General Henry T. Allen and staff; headquarters filed clerks, one combined headquarters and military police company, the Eighth Infantry regiment, the Seventh motorized machine-gun battalion, two companies, one supply track train, one mobile ordnance repair shop, the first field signal battalion, Company A, first engineers, Quartermasters Corps and a bakery unit, ordnance detachment, the second battalion, Sixth Field artillery and a medical department.

BELIEVES CAPITAL AND LABOR REALLY TOO INCONSISTENT

Poindexter Would Have Them Get Together and Come to Agreement.

Washington, Aug. 30.—Charging both capital and labor with "inconsistency and narrowness" in their viewpoints and with ignoring the public welfare, Senator Poindexter, Republican, Washington urged in the senate today that the government take some steps to compel them to get together for the purpose of reaching an understanding.

Such a conference, he said, might effect a settlement of the labor controversies which now threaten "the peace and order and well being of the entire country."

Calling attention to a resolution he introduced recently authorizing the president to call a meeting "at an early date" the senator said he regretted that the senate labor committee had failed to take action on it. He said that after the resolution had been ordered he had received communications from President Gombers, of the American Federation of Labor, as well as from manufacturers, "expressing some resentment because the resolution was introduced without consulting them."

Chairman Kenyon, of the labor committee, said plans were being made for joint consideration of the resolution by house and senate committees.

PUSSYFEET PRESS WHISKY CAMPAIGN THRUOUT ENGLAND

Members of British Parliament Working Hard to Make Country Clean.

ANTI-SALOON WORKERS GIVING TIMELY LABOR Abundant Money Is Furnished to Carry Great Movement Through, Said.

London, Aug. 30.—"Pussyfooting" is the term the newspapers and British liquor interests have given the campaign to make England dry, and "pussy feet" is the title they have given those members of Parliament and American anti-saloon league workers who are pressing the movement.

It has been announced that there is abundant money behind the movement and the nucleus of a parliamentary prohibition party has been formed by nine members of the House of Commons to first fight for the retention of war time liquor regulations while forming their lines for more drastic action.

Harrogate, a health resort with some 80 mineral springs, was selected as the first object of attack, and a number of speakers were sent there to spread the "dry" doctrine. It was also decided to pay particular attention to Scotland where, under new regulations, local option is possible. Other plans, it was announced, are in the making, and within a year the campaign will be in full swing.

Most of the newspapers have done nothing but ridicule the movement, and urge that owing to the climate British men and women needed stimulants and would never voluntarily relinquish their alcohol.

Lady Henry Somerset, late president of the British Woman's Temperance Association, is quoted as expressing the opinion that the prohibition campaign will do positive mischief by making prohibition appear to be the sole alternative to a return to the pre-war position.

Tomorrow will be the last day of August.

MILITIA LEAVING CHARLOTTE AFTER GREAT PARLEYING

Mayor of City Recalls Protect Against Recall of the State Troops.

Charlotte, Aug. 30.—With Mayor Frank R. McNinch withdrawing his protest against the recall of six companies of reserve militia ordered here after the riot of Tuesday morning, Lieut.-Gov. O. Max Gardner, who arrived today, was relieved of deciding between the military and civil authorities and this afternoon the last of the militia entrained. Mr. Gardner stated his position in the present emergency with the explanation that "it was clearly not intended by Governor Bickett when he left the State that his administration should be interrupted unless emergency requiring instant attention should arise."

The day was without untoward developments, but was accompanied by a return of a true bill by the Mecklenburg grand jury against John Wilson, a strike sympathizer, present in the riot Tuesday morning, charging him with inciting a riot. Patrol of the streets by the militia ceased this morning and while the authorities are still apprehensive, the four hundred civilian officers are holding themselves in readiness for any emergency. The departing troops, it was announced, can be brought to Charlotte in sufficient numbers to quell any disturbance within two hours notice. Adjutant-General Royster has assured Mayor McNinch that upon notification from him such action will be taken.

KNOX BELIEVES IN MAKING SEPARATE PEACE TO GERMANS

Republican Senator from Pennsylvania Says Present Terms Hard and Cruel

THINKS TERMS SHOULD BE DENOUNCED READILY Believes that Participation in Membership of League Should be Given Up.

(By The Associated Press.)

Washington, Aug. 30.—Declaring that the peace treaty cannot be enforced but will lay the foundation "for centuries of blood letting," Senator Knox of Pennsylvania, a republican member of the foreign relations committee, and former secretary of state, told the senate today that the United States should decline to become a party to the settlement effected at Versailles and should negotiate a separate peace with Germany.

In its "hard and cruel" terms, he asserted, the treaty imposed on Germany penalties which violate international law and engender strife. He declared there was no reason why the United States should project itself into the dangers of such a situation.

"The more I consider this treaty," said Mr. Knox, "the more I am convinced that the only safe way for us to deal with it is to decline to be a party to it at all."

"I think we should renounce in favor of Germany any and all claims for indemnity because of the war, and see that she gets credit for what we renounce. We ought to renounce all participation or membership in commissions, committees, boards or otherwise provided for in the treaty in aid of its execution to which by its terms we are parties. We ought not to accept cessions of German territory. We ought to declare a general policy to regard with concern any threat of disturbance of general world peace, but at the same time we should reserve complete liberty of action either independently or in conjunction with other powers in taking such steps as we determine wise for preserving the peace."

SATURDAY, AUG. 30, 1919.

The members of the Greenville Chamber of Commerce are to be congratulated upon the fine spirit which they have displayed in bringing about the establishment of a cotton storage warehouse in this city, and while it is true, of course, that the building has not yet been constructed, it still is certain that there is not the least idea entertained at this time that the building will not be made a reality. The members of the organization who will look after the raising of stock for the project will no doubt receive close co-operation in practically every business house throughout the entire city for it is such class of men who realize the necessity of the storage house in order that the cotton of the section may be better cared for. Truly, the Chamber of Commerce is doing much in the interest of the city, and it is to be hoped that the same interest in public welfare will continue without interruption for many years to come, for if it should, the town has a future peculiarly promising in every way.

If Senator Knox and others of his type would for a single moment pause and consider how costly their peace treaty discussions are to the country, we honestly believe they would have pride enough to forget the certain points which they dislike and endeavor to bring about some talk that would assuredly be of more direct benefit to the people of the nation as a whole. The members of the senate have wasted many precious minutes in dealing with a problem which they pretend to know so much about, but if their advanced opinions of the matter are to be taken as an expression of the sentiment, there is nothing left for them to do but close up the deal and turn the matter over to a man who is certainly qualified for definite action throughout the entirety of the peace treaty discussion. If the situation continues to gain such great interest in every section, there is slight possibility of the matter being closed entirely.

When President Wilson completes the proposed speaking tour in many large cities throughout the country, it is an assured fact that hundreds of people will be in greater favor of the league of nations, although it is possible there are a number who are seriously

opposed to it. Mr. Wilson has a peculiar way of reaching the hearts of the people whom he has served so faithfully in the past great conflict against Germany, and there are very few now who haven't great confidence in him as an almost infallible guide to the right thing of both national and international interest.

Judge Kerr has possibly done more to reduce the manufacture of liquor than any other official ever before presiding over the courts in this part of the county. In fact the sentences which he has seen fit to deal out in a number of cases in this week's session of criminal courts were nothing more than just from every viewpoint, for when a person engages in the sale of liquor there is no punishment too severe for him. Surreptitious influences behind the traffic has done more to encourage the efforts of the distillers than any one thing, and the attitude which Judge Kerr displayed in the matter was nothing more than appropriate in this section for some time, and if the courts do not defend the public from such demoralizing influences, there is absolutely no other course to be pursued. It is to be hoped the same spirit will be ascendent in every term of court, for in this way Pitt county will be more fully protected from the degrading presence of the vile liquor manufacturers in the days to come.

Director Hines has taken a definite stand in preventing a recurrence of strike in various parts of the country, and while he has not yet been forced to put the railroads under government supervision, this will be done in event the operatives persist in striking. If the government should decide to take over the operation of the railroads anyone interfering with transportation will be prosecuted on charge of committing offenses against the United States. This fact should for the moment pause the strikers to consider the position, and continue their labors until something can be done in relieving the situation.

The Senate Foreign Relations committee is endeavoring to hurry up its reports on the peace treaty, and although it is expected this will be effected within a short time, no one really knows when the matter will at last be given the public, especially should there be any further interference from other well informed sources such as have been putting in an occasional word to delay work. Anyhow, all we can do is to wish the venture good luck, and that's about what the rest will do.

With a promise of a slight decline in the price of hog, there are undoubtedly thousands of people in this county who will grunt with satisfaction when they begin to see greater evidence of such. The truth is, things are so high now that it is almost impossible to note, the slightest drop in commodities unless we keep close tab on the fractions of a cent. A rapid drop of Bro. Hog, however, will be received with pleasure by everybody, for he has a number of admirers.

After all there is strong evidence of Mexico becoming quiet in a short time, and the United States also calming down after the recent capture of its two aviators. However, it is almost impossible for the Mexicans to remain still for long, because past experiences have taught people along the border to always be on guard.

In his life time the late Andrew Carnegie gave away all of his fortune except about \$30,000,000, which was not a bad sum to have lying around handy.

The middle of next week will find President Wilson off on his speaking tour in advocacy of the adoption of the League of Nations, and he is going to find plenty of willing listeners.

With coffee poisoning people in Chicago and others in Ohio dying from eating olives, they will have to get a bit shy on what they buy.

Whether the price of dance tickets add to the high cost of living, it certainly cuts a hole in the ordinary salary.

Charlotte turbulent street car strikers are about to get off the war path and come down to quiet.

The railroad strikers are getting back on the job none too soon.

CRIMINAL SESSION OF COURT CLOSES

AFTER GOOD WORK
(Continued from page one.)

fering adequate interference in bringing it to even a momentary standstill. The decisions of the court this week have been tinged with certain severity because the officials have awakened to the conditions facing this section in the rapidly increasing whiskey traffic in many parts of the country, and for that reason, each case has been handled with due regard for the law in its direct application for public safety instead of sentiment of those involved.

Several whiskey cases have been given attention during the week's session, and while they were given every argument which opposing attorneys could bring to bear against the overwhelming argument of the State in its defense of public rights, each individual liquor dealer or manufacturer was either given a road sentence or term in jail that will have much to do in bringing the traffic to a momentary standstill in this part of the country. There was little evidence of the court weakening in its decisions, and as a result the final hearing yesterday found the judge and jury immovable against pleas for mitigation and firm in their conviction that the law must be obeyed without respect for social standing or otherwise.

The following cases were disposed of in the session yesterday:

Daniel Webster Goss, colored, was given five years on the county road for manslaughter the charge resulting from the killing of another colored man whose name was unknown by either the defendant or the court, and therefore, brought about no little indecision until the man plead guilty. The killing occurred sometime ago during the engagement of a colored minstrel show in Bethel. Goss injured the showman in an altercation, the man later dying in Wilson. His name was never learned, and the action is recorded on the court docket without his name.

Alex Jones, rape. Not guilty. John King, charged with stealing an automobile, was given two years on the road.

In the cases against Jack Mazingo, Kirby Dall and Bill Jones, charged with reckless driving on the state highways, the jury required some time in rendering its decision, remaining in session for possibly four hours before the verdict was rendered. Kirby Dall was found guilty, but judgment was suspended upon payment of cost.

There were several cases remaining on the docket to be heard in the next term of court, as the work was incomplete at the conclusion of the August term yesterday.

Probably you never heard of the man who was killed with kindness—but if you did it was nothing but hearsay.

TESTIMONIAL LETTERS TO DR. DUNN ON HIS RUPTURE CURE.

Ruptured for 15 Years; Cured in One Treatment.

Dear Doctor:
I am writing to let you know about my rupture. I have been ruptured about 15 years. I tried two kinds of trusses, but they did me no good; I finally quit wearing them, when I saw your ad in the paper. I went up to see you and decided to take the treatment, and the time for wearing the truss expired I took it off, and went to work. I have not been bothered with my rupture since, and I sincerely believe your treatment has cured me. I would advise any person who is ruptured to take your treatment, as it is much cheaper and better than a surgical operation. Hoping soon the greatest of success, I remain,
Sincerely yours,
FRED GASKINS, Stonewall, N. C.

TWO YEAR OLD BABY CURED.
Our baby was two years old when you treated her, and she had been ruptured several months. After five treatments she was cured and she has been cured twenty-one months. I like your work much better than an operation.
Sincerely yours,
J. L. STOWE, Merritt, N. C.

MAN 68 YEARS OLD, CURED IN ONE TREATMENT.
Dear Doctor:
I am writing to let you know that I am well and feeling fine. I am sixty-eight years old, and I became ruptured in February 1917, and have been wearing a truss for two and a half years. You treated me August 1st and I have taken truss off and am feeling like a different man, and am perfectly solid and sound, and would recommend your treatment in preference to an operation to any one who is that way. Thanking you for what you have done for me, I remain,
Sincerely yours,

WORKING AND SAVING WILL REDUCE PRICES

Governor of Federal Reserve Board Tells How Living Expenses May Be Cut Down.—Why Everything Went Up.

What is the best way to reduce the high cost of living? "Work and save" is the answer given by the Federal Reserve Board in a letter written by its governor, W. F. O. Harding, to the Banking Committee of the United States senate. The committee had under consideration the proposal to reduce the volume of money in circulation. Governor Harding opposes this plan, holding that it will not afford the relief expected. "The Federal Reserve Board believes" says Governor Harding in his letter, "that any currency legislation at this time is unnecessary and undesirable, and would suggest that whether viewed from an economic or financial standpoint, the remedy for the present situation is the same, namely, to work and to save; to work regularly and efficiently in order to produce and distribute the largest possible volume of commodities, and to exercise reasonable economies in order that money, goods and services may be devoted primarily to the liquidation of debt and to the satisfaction to the demand for necessities, rather than to indulgence in extravagances or the gratification of the desire for luxuries."

During the last two years there has undoubtedly taken place a certain amount of credit expansion, Governor Harding shows, and this in the circumstances connected with the financing of the war was inevitable. But it will be corrected as the securities issued by the government for war purposes are gradually absorbed by investors. This expansion of credit is equal to the difference, Governor Harding says, between the total war expenditures of the government and the total amounts raised by the government through the medium of taxation and from the sale of its bonds and other obligations so far as they were paid for out of the savings of the people. He does not believe that any reliable estimate of this difference can be made, but he is positive that, whatever it is, it will be gradually absorbed through future savings for the reason that banks are lending and may always be expected to lend freely on the government bonds deposited as collateral.

The principal cause of price advances just before and during the period of the war was the need of the governments of the allied nations for all kinds of commodities and for immediate delivery in large volume, and the "competition of this buying by governments with purchases by private individuals who failed to contract their expenditures at a rate commensurate with the growing expenditures of these governments."

One of the features of the post-war period, through which the nation is now passing and which has been marked by rising prices, is the general relaxation of war-time practice of personal economy. This has resulted in an increased demand for food and clothing and other commodities by many persons who during the war practiced a more or less rigid economy in their personal purchases. Also, it must be borne in mind that they are not only buying at market prices but are buying in competition with the export demand. In addition, largely increased wages and incomes during the last five years have developed a demand for many commodities which are not of real necessity. This naturally has diverted labor and raw and manufactured materials from essentials to non-essentials, contributing no small part to the trend of increasing costs.

TELLS HOW OTHER PEOPLE GET AHEAD

Pamphlet issued by U. S. Treasury Answers Question "How Can I Save Money."

As an answer to the question, "Can I Save Money?" the Savings Division of the Treasury Department compiled an interesting and helpful pamphlet entitled "How Other People Get Ahead."

For individuals and families with incomes are less than \$5,000 a year this pamphlet offers a number of enlightening suggestions as to the bursement of incomes of various amounts from \$15 a week upward, only does the material furnish a answer to the problem of expense but it affords an authentic source of information as to living costs. Figures were compiled from records of official government investigations of the several subjects and may be regarded as up to date and accurate. This material makes possible a new attack in the movement to thrift a national characteristic and foster the habit of "Save First—Spend Afterward." It will interest people saving more money by showing how much other people find it possible to save and also by showing them they can cut down the cost of living by comparing their costs with average costs at the same income.

The Savings Division suggests an excellent way to drive home the truths of the budget system is to take the schedules discussed at school taken home by the children for consideration by the families. Another method is to organize a house-to-house canvass through committees of men who will bring the budget to the attention of families and secure their agreement to study their situation.

Saving and spending budgets have been prepared to meet local conditions at a number of points, and much interest in the application of the budgets to the campaign is being manifested in sections of the country where the National Thrift Campaign is being carried out successfully.

LEPERS SET SPLENDID EXAMPLE IN SAVING

Colony of Unfortunates in Faraway Hawaii Buys War Savings Stamps At \$42 Per Capita.

Recent reports from Honolulu contain an interesting and unusual instance in thrift which may be considered a record for the states to attempt. Sales of War Savings and Thrift Stamps among the inmates of the Peleke Island Leper Colony during July amounted to \$42 per capita. Altogether 32 purchasers of these securities took a total of \$1,384 of stamps.

When it is considered that the amount is far more than the per capita quota for the United States it is apparent that the optimism of the lepers, despite their station in life, is little less than remarkable.

Up to date the total sales of War Savings and Thrift Stamps in Hawaii is more than \$2,020,000, or more than \$30,000 in excess of its quota.

The faith that moves mountains is the faith that gets a steam shovel instead of an old hoe. Labor saving is what you want. It means money saving, too, for War Savings Stamps.

Spend a little less than you earn—it's a sure road to success. Put your savings in War Savings Stamps.

Thrift helped to win the war. It will enable us to enjoy the fruits of victory also.

Just Received

A SOLID CARLOAD OF FORDSON TRACTORS. READ WHAT MR. J. J. MAY, OF GREENVILLE, R. F. D. No 2 HAS TO SAY ABOUT HIS FORDSON TRACTOR.

TESTIMONIAL

This is to certify that I bought a Fordson Tractor, one Oliver Tractor Plow and one Disc Harrow for Tractor. I broke up and disced my farm with this Tractor. I have cut all my Oats, Wheat and Grain, ginned my Cotton and thrashed my wheat and oats. I think it is the nicest thing a farmer ever had on his farm.

It has saved me at least \$350.00 in labor alone. I have never had any trouble with the Tractor and it is now in perfect condition. I would not take twice what I paid for the Fordson Tractor if I could not get another

If you want to save money on your farm I advise you to go to John Flanagan Buggy Co., and buy a Fordson Tractor at once. I bought this Tractor in March, 1919.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadersville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape. I cannot say too much for Black-Draught for it is the finest laxative one can use." Theodor's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it. NC-135

AMERICAN TROOPS ARE TO GET BEST QUARTERS OF HUN

(Continued from page one.)

"Under the terms of the rehabilitation Act Federal board could put no disabled man in training until after he was declared 'compensable' by the war risk insurance bureau. The amendment curing this difficulty and allowing prompt action by the Federal board did not become law till July 11, 1919.

"The board has made excellent progress, for an August 1, it had established contact with 10,000 of the 100,000 men registered, had surveyed nearly 108,000 and had approved over 12,000 cases for training and had put 7-192 men in training.

"Those men, as of July 26, were in 440 public and private secondary schools, in 159 institutions of college grade and in 303 industrial and other plants. They are being trained for 1,363 different lines of activity and, by utilizing existing means of training rather than creating new schools for rehabilitation, the men are being better trained and millions of dollars have been saved to the United States. Since legislation giving the board a free hand did not pass until July, when most schools and colleges are closed, the full measure of training activity cannot be reached until the latter part of September. At that time the present number in training will be much more than doubled."

MODERN HUNTERS LURE SEALS TO DEATH WITH PHONOGRAPH

NOTICE!

San Francisco, Aug. 30.—Seal Hunters in the Pacific are meeting with great success through the use of the phonograph in luring the seals to their death. A large instrument is employed and is set up near the rendezvous of the seals. The music soon attracts the seals. They gather in the vicinity of the phonograph and remain with their heads out of the water, listening to the music, thus giving the hunters excellent opportunities to shoot them.

PLAN WELCOME

FOR PERSHING

Washington, Aug. 30.—Without debate the Senate today unanimously adopted a joint resolution providing for the appointment of a committee to arrange for a formal welcome by congress to Gen. Pershing upon his return to the United States.

The House bill authorizing the President to appoint Gen. Pershing to the permanent rank of general was ordered favorably reported today by the Senate military committee.
