

TAR HEEL SENATOR URGES SENATE TO RATIFY COVENANT

Senator Overman Shows Necessity of Having Peace at an Early Period. ASKS COLLEAGUES TO CONSIDER PROMISES No Actual Attention Will be Given Matter Until Next Week, Is Said.

(By The Associated Press.) Washington, Sept. 16.—Ratification of the peace treaty and its League of Nations covenant was urged today by Senator Overman, Democrat, of North Carolina, one of the administration spokesmen.

"Until this is done," he told the Senate, "there can be no peace, but unrest, revolution, starvation and anarchy will stalk up and down the world, bringing in its wake destruction of nations, social disorder, wretchedness and finally the extermination of the races of men."

Senator Overman said he had read the treaty, heard it discussed, studied it and thought it over, and determined "it is my duty to support its ratification to meet the great responsibility resting upon us and aid in the completion of the victory for which our boys fought and died."

"I do not believe the Senate will refuse to ratify it," he added. "The American people are behind it, and after all our promises and pledges and the prayers of our people for fifty years for peace, we cannot afford from the standpoint of honor to defeat it."

As to Shantung, the Senator said, "we can do absolutely nothing at this time; the time for us to protest was when Germany forced it from China 21 years ago. We can do nothing except trust in the solemn pledge made by Japan to President Wilson to turn back Shantung to China in a reasonable time." He denied that "the sovereignty, the integrity of our country and our vital honor" would be affected by ratification.

Regarding reservations, Senator Overman said, "I fear the adoption of any reservation or interpretation to the treaty would throw the whole matter back in conference. Other nations might ask for similar reservations or interpretations, especially Germany. The question is whether we can afford to take the risk."

The party left here for a six-weeks tour in California.

GREAT DAMAGE IS REPORTED RESULT STORM IN MEXICO

Tropical Hurricane Statements Says Center of Storm Was in the Gulf.

CORPUS CHRISTI, TEXAS STILL IN SERIOUS SHAPE

Customs House at Port Aransas Completely Demolished, It Is Said.

Port Aransas, Sept. 16.—Reports of serious damage caused by the tropical hurricane along the lower Texas gulf coast Sunday received today by wireless, indicating the center of the disturbance struck at or near Corpus Christi, Tex., which early this afternoon still was cut off from wire communication.

A wireless message picked up at Houston, believed to have been sent from a ship, reported that Port Aransas, which is about 25 miles from Corpus Christi had been "completely demolished" including the customs office. The message was signed by the deputy collector of customs for Port Aransas and Corpus Christi.

There were no definite reports of life loss in Port Aransas, and as no mention was made of Corpus Christi, the situation there still is in doubt. About six hundred persons live at Port Aransas, but it was thought most of them had made their way inland to places of greater safety.

SIR ROBERT HORNE IS BIG FEATURE IN BRITISH POLITICS

"Smiling Horne" of Some Consideration to the Man on the Outside.

London, Sept. 16.—In the opinion of the man in the street, the outstanding figure of Parliament are Sir Robert Horne, Labor Minister, and Lord Robert Cecil, who sits on one of the green leather benches in the house as an ordinary member.

Sir Robert Horne, whose character may best be described by the nickname his friends have given him, "Hall Smiling Horne," gave up a law practice worth \$40,000 a year at the Scottish bar to become a member of the government at \$10,000. He won the confidence of labor in numerous conferences, and recently has been responsible for the firm handling of the labor situation when the apostles of "direct action" gained the upper hand among organized workmen.

Lord Robert Cecil is described by his friends as an "old member in a new coat," and since his return from the Paris peace conference has been adding almost daily to his reputation. They call him the "mystery man" of Parliament. Once looked upon as the type of Tory aristocrat in politics he now seems ready to outdo the democrats in democracy. Among his followers is a large band of enthusiastic young Unionists, and the labor men hail him as one after their own heart. Everybody is asking what party will he lead, which way will he turn.

Two other men are pointed out as having added much to their reputations—Sir Donald Maclean and J. R. Clynes. Sir Donald led the lone little band of Independent Liberals through the trying times of the session. At times he showed such qualities of leadership that some of the correspondents are of the opinion that he has given hope to a party which no longer desires the return of Mr. Asquith to its leadership.

Mr. Clynes made a reputation as food controller before entering the house, and since that time has been looked upon by the labor party as their most reliable leader.

BURGLAR IS SHOT AND KILLED WHILE PLUNDERING HOME

Fayetteville Negro Killed in Home of William Johnson Sunday.

Fayetteville, Sept. 16.—Thought to be an escaped convict from Wilson county, a negro burglar was shot and killed by William Johnson, of this city, in Mr. Johnson's home on Robinson street, shortly after midnight this morning. The shot which caused the negro's death was fired after the burglar had opened fire on Mr. Johnson with a large calibre revolver.

The presence of the robber was discovered by Mr. Johnson's son, Vann, who, hearing the opening of a screen door on the second floor, went for his father. As they entered the second room in their search the negro started shooting from the dark. Johnson fired three times with a .32 calibre pistol. His son grappled with the burglar, and the two rolled down the stairs. When the struggle was over the negro was found to be dead.

TOBACCO BOARD OF TRADE HELD MEETING THIS MORNING

The Greenville Tobacco Board of Trade held a meeting this morning to discuss the closing of the tobacco market in this city, for the remainder of this week, so that the factories could catch up and get rid of some of the tobacco which they have on hand. It was decided that the market would remain open, and that the farmers would be urged to hold their common grades of tobacco and not rush it in. By the farmers complying with this request the market will be enabled to remain open.

Mr. C. F. Pretlow, of Pigeon Hill Farm in Nausemond county, Virginia, is here on his annual trip selling tobacco on the Greenville market. He has a large quantity of the weed on the sales.

ALBEMARLE HAS NOW BEEN PLACED UNDER STATE LAW

Three Companies of State Reserve Militia Sent to Scene of Strike.

POLICEMEN ATTEMPTED TO DISARM PICKETERS

Sheriff Blalock and Picketers Wounded in Trouble With the Strikers.

Albemarle, Sept. 16.—Albemarle is under martial law, with three companies of the reserve militia on guard, following a fight at the gates of the Wisconsin Mills early today, when policemen attempted to disarm union picketers. Sheriff J. D. Blalock and Dee Porter, a picketer, were wounded in the fighting.

Immediately after the disturbance, in fear of further trouble, Mayor Groves and Sheriff Blalock appealed to Governor Bickett for the troops, who arrived this afternoon. Batuomolw-ZB fired this afternoon. In the meantime, a large searchlight illumines the county jail, where are imprisoned a number of those engaged in the liberation as threatened today.

Sheriff Blalock lies in his home with a bullet imbedded in his thigh, while Dee Porter, his assailant, is also in his bed, under band, his knee-cap smashed. These, so far as is known, were the only casualties. Though considerable shooting is said to have taken place in both places.

TRAINING SCHOOL OPENED IN LOCAL BAPTIST CHURCH

School, in Interest \$75,000,000 Opened in Memorial Church Last Night

The training school in the interest of the Baptist \$75,000,000 campaign, opened here in Memorial Baptist church Monday evening, and will continue until noon tomorrow. This training school is for the purpose of instructing workers in the Neuse-Atlantic and Roanoke Associations for participation in the campaign, and representatives of many of the churches are in attendance.

Dr. Charles Anderson, pastor of Scotland Neck church, is dean of this training school, and his co-instructors are Rev. W. H. Moore, pastor of the local church, and Mrs. Battle, of New Bern. The session Monday evening began with an earnest intercessory service led by Prof. C. W. Wilson, followed with interesting talks by Dr. Anderson on "World Situation" and by Mr. Moore on "Forewarning for Objections." One could not listen to the presentation of these talks without catching an inspiration in the great campaign that is waging to win the world for Christ.

This training school in Memorial church will continue through four weeks with two days sessions each week, opening on Monday evenings and closing at noon Wednesday. Greenville cordially welcomes the visitors from other churches who are attending the school, and hopes they will find it indeed to be like Dr. Anderson says some one told him coming down on the train "the best town between the two oceans."

While the training school is in progress instruction to campaign workers, its sessions are open to all who desire to attend and all who do so will be benefited.

TREATY OF PEACE AMENDMENTS ARE GIVEN ATTENTIONS

Senator McCumber Says Provisions Are Selfish and Immoral Throughout.

ATTACKS MAJORITY OF REPORT MADE BY LODGE

Reservation to Article 10 Are Scored of League Nations Covenant.

Washington, Sept. 15.—Rejection of all proposed amendments to the German peace treaty and modification of the recommend "strong" reservations was urged in an individual minority report filed with the Senate today by Senator McCumber, Republican, North Dakota, next in rank on the foreign relations committee to Chairman Lodge. Senator McCumber, Republican, North Dakota, next in rank on the foreign relations committee to Chairman Lodge, voted with the Democrats on amendments and several reservations.

Attacking the majority report of Chairman Lodge, Senator McCumber denounced most of the majority amendments as "selfish, immoral and dishonorable," and charged that they seek to "isolate the United States from the rest of the world and abandon our allies."

"To the substance of some of the proposed reservations," Senator McCumber's report declared, "there can be no serious objection. But against the manner in which they are asserted I do most earnestly protest. They are couched in a defiant, discourteous and overbearing manner and seem intended to express a jingoistic spirit that ought to be eliminated from American statesmanship."

Scoring the committee reserving to article ten of the league of nations covenant, Senator McCumber said it really is an "amendment" pure and simple and designed to take the United States entirely out of the league.

Mr. Bert Moyer left this morning for Durham to attend school.

WORKERS GIVE UP IN MACON STRIKE IT IS NOW STATED

Fireman and Police Refuse to Withdraw From Union as Requested.

Macon, Ga., Sept. 16.—On the heels of the unconditional surrender of 2,000 textile workers and their agreement to return to work as soon as the mills re-open, police and firemen tonight have defied the order of the Civil Service Commissioners that their unions must be dissolved at once.

Chief of Police McWilliams, who was promoted Saturday when Chief Bowden resigned, declared at 9 o'clock tonight that the policemen who report off duty at midnight will be ordered to turn in their badges, or their union cards.

Former service men, many of whom were members of the Rainbow Division are ready to protect the city, it is announced. These men have been assembled at the different armories, sworn in as sheriffs' deputies.

It was reported tonight that Fire Chief L. M. Jones, who had been ordered to obtain the union cards of all firemen or resign, has refused to carry out the order. He is a member of the union. Chief Jones refused to make a statement.

The firemen are staffing firm, even holding the members of the Civil Service Commission, when the order was read at the different engine houses of the city.

"They'll have to put us out with guns," was the comment at the headquarters engine house.

AMBUSHED WOMAN KILLS MISSISSIPPI SENATOR, IS SAID

Well Known Woman of Starkville Crouches Behind Bushes for Purpose.

HUSBAND ARRESTED FOR COMPLICITY, RELEASED

Dying Man's Statement Will be Made Public at Preliminary Hearing.

(By The Associated Press.) Starkville, Miss., Sept. 16.—S. J. Wallace, candidate for state senator and former county superintendent of education, who, authorities say, was shot and mortally wounded by Mrs. O. L. Smith Saturday afternoon, died late Sunday, after an operation was performed in an effort to save his life. Mrs. Smith, well-known in the vicinity, is held pending a formal charge of murder.

According to local authorities, Wallace was on his way to kill some cows when he was ambushed and shot several times in the abdomen by Mrs. Smith without any warning. Mrs. Smith's husband was at first implicated but has since been cleared of any hand in the tragedy.

Wallace, officials say, made a statement just after the tragedy, which will not be made public until the preliminary hearing, to be held Tuesday or Wednesday.

The shot which caused the negro's death was fired at such close range that his shirt was set afire.

A boarder in the house shot through the fusillade of shots.

The negro was today identified by Fayetteville policemen as a man known to them as "Blue Baby," who they declare is wanted as an escaped convict in Wilson county. The police said today that twenty minutes before the shooting at Johnson's house "Blue Baby" walked into police headquarters and informed the officers there where they could get a number of negroes engaged in a "skin" gambling game. The police went to the place indicated and got the gamblers. They think the burglar's purpose in informing on the gamblers was to get the police out of his way.

"A NAUGHTY WIFE" PLEASES. At Least the Comedy of That Title Evoked the Laughter of a Big House.

A capably house witnessed and

laughed at the Selwyn & Co., farce-discovers the elopement plans and gets comedy, "The Naughty Wife," which his farewell note from his deserting opened the road show season at the wife in her presence. He grasps the Majestic last night and gave every situation and arranges to have the evidence of enjoyment of this satire elopers go to his bungalow at the on affinities, easy divorce and wife-swapping, which have become all too familiar in these latter days of social and sociological evolution or degeneracy, as one may prefer to characterize them. The farce-comedy, with a moral as well as an unmoral side, was admirably interpreted by a cast of eight persons, who without exception realized the possibilities of their roles and gave a rather natural and effective interpretation of them.

The plot is founded on the folly of a young wife, who is flattered by a philandering affinity and finally induced to elope with him, leaving a real man-husband who has been too absorbed in his work to realize how silly his wife actually is and takes her pledged love and loyalty too much for granted. The husband accidentally young thing into his protective arms.

Young Reserves Judgment.
Mr. P. W. Schenk was here from Greensboro as special agent for The Globe and Rutgers Fire Insurance Company, and conferred with the State Insurance Commissioner relative to violations of the North Carolina insurance laws by that company. One of the special violations that the company promises to explain is the use of other than the Standard policy prescribed by the state law. Commissioner Young has reserved his judgment in the case against the company to allow time for officials from the home office of the company to appear and present their case fully from their viewpoint.

No Hitch in Webb Matter.

Feathers constitute the strongest evidence against Mr. Barwick, who denies the allegation. Mr. Barwick is said to have been a frequent visitor at Helen Smith's house. The alleged feathers upon his person when he was arrested were not bed feathers, he declared, but "feathers" from broom straw, in a field of which he had been rambling.

Calvert in superior court here, as the result of a settlement by agreement, no more "jazz" dances will be held in the hall of the Pemberton building, rented by the Moose Club, until such times of season as to admit of the windows of the hall being closed so as not to disturb the patients of the Cumberland general hospital nearby.

Durham.—Durham is to have a Masonic Temple—one of the handsomest in the South. Arrangements for financing the proposed new building have been completed by the finance committee recently appointed for this purpose. The building will be located on the corner of Main and Roxboro streets.

Ferry for Wilmington.
Wilmington.—The New Hanover county commissioners will open bids for the construction of a large ferry boat to ply between Wilmington and the Brunswick side of the Cape Fear. Plans for the craft have been drawn by Kindlund and Drake, prominent marine engineers of New York. WHO HELPS BUILD YOUR TOWN?

And let us ask here if you take a thought that The Reflector is a home newspaper, is now and always has been owned and published by home folks? For nearly thirty-eight years this paper has been boosting home town, your business, your schools, your various enterprises, and doing everything in its power to develop industry and promote happiness of the people. Its employees spend their money right here with the home merchants and dealers, doing their bit to help along home industries, and after getting their pay envelopes Saturday afternoons do not strike the first train out for another town to leave their money there. A standing together and pulling together in the interest of each other is what makes a home town.

The home merchant. Who is he? He is the chap who gives you credit when you are financially broke, and carries your account until you are able to pay, says an exchange.

He is the chap who gives you back your money or makes exchanges when you are not satisfied with what you have bought.

He is the chap who meets you at the door with a handshake, and lets you out with a message to the "kids" and a real "come again" goodbye.

He is the chap whose clerks and bookkeepers and other employees live in Greenville and spend their money with you and with other local people.

He is the chap who helps support our churches and charitable organizations and talks for the home town, and boosts for it every day in the year.

He is the chap who visits you when you are sick, sends flowers to your family when you die, and follows your body out among the trees and tombs, as far as human feet may travel with the dead.

He is the home merchant—your neighbor—your friend—your helper in time of need.

Don't you think you ought to trade with him, and be his friend and his helper in the time of need?

Don't you know that every dollar you send out of our town for merchandise is sent to strangers—to men who never spend a dollar here; to men

who would not trust you for a box of matches; to men who would turn you over to the police if you should enter their offices?

And don't you know that the growth and prosperity of this town depends very largely upon the success and prosperity of the home merchant? 'Out of town people judge our city by the appearance of our stores and the degree of enterprise shown by our merchants. And our home merchants cannot succeed unless home folks give them loyal support.

This is both the most prosperous and the most extravagant era the country has known. Money seems to have but little value, and the larger the price of a thing the more eager the people seem to go after it. If the idea of frugality and saving could take hold along with the prosperity it would prove a great blessing.

We have heard of one town in North Carolina where the ban is placed on public dances, and no dance is allowed anywhere except in private homes. And the town where this prevails is not a dead town, either. Any other town wanting to can do likewise.

Instead of following the example of High Point and amicably settling the differences between the manufacturers and union laborers, over in Albemarle, where contentions were almost similar they tried to settle the differences through rioting and bloodshed. Such a course only tends to widen the breach.

All the farmers are urged to leave off grading and selling their common tobacco for awhile as the market is getting congested with this class of tobacco.

We had more farmers from the adjoining counties selling with us last week than ever before, and they all said they were coming back, claiming that some of the grades were selling \$20.00 higher at Greenville. There is no question about Greenville being the highest market in the East. You will make money by selling with us, it makes no difference what sale you strike. We want to emphasize leaving dead and green leaves out of your good tobacco.

WOULD INCORPORATE TWO NATIONAL HIGHWAY SYSTEM

Birmingham, Ala., Sept. 16.—Effort will be made to have the Bankhead National highway, incorporated in the Townsend-Bankhead Bill which is now pending in the United States Senate, according to the announcement made by J. R. Rountree, secretary of the Bankhead Highway Association, which has actively advocated for the past four years the building of this Transcontinental Highway, which starts at the stops of the capital in Washing, traversing twelve Southern and Western states on to the Pacific coast. This highway is the only Transcontinental Highway that can be traveled three hundred and sixty-five days in the year and is the only High way that links the North, the South, and west together for this all year travel. A majority of the senate and house of representatives of the United States congress live on the route or in the states which this highway traverses. It is the plan and desire of the Bankhead national highway association to secure an amendment to this bill which will insure the Bankhead national highway will be one of the first highways built under this bill which directs that highways will be linked from state to state. This has been done in the case of the Bankhead highway by the state Highway commission and the state legislatures officially adopting and linking this highway in nearly every state which it traverses.

The Townsend Bill provides for the establishment of a Federal Highway commission to have control of all highway work of the government. It calls for appropriations of \$425,000,000, of which \$50,000,000 becomes available upon the passage of the act, \$75,000,000 for the fiscal year beginning 1920, and \$100,000,000 for each of the succeeding fiscal years. Section five of this bill provides for a national system of highways at federal expense.

WILL ANSWER CALL OF WHOLE WORLD

THIS IS AIM OF SOUTHERN BAPTISTS IN THEIR PRESENT DRIVE FOR \$75,000,000.

ENLARGE PRESENT WORK

Forces in Field Today Are Far From Sufficient To Meet Needs of Situation, Leaders Declare—Europe Included On Program.

Now that the larger liberties enjoyed by peoples everywhere, following the close of the world war, have revealed as never before the need and the opportunity for the spread of the gospel to all the ends of the earth, the Baptists of the South have launched their program for \$75,000,000 to be raised in cash and five-year subscriptions between now and December 7th, in the hope of making a worthy beginning toward supplying this world need.

Of the total sum sought in this campaign, the actual drive for the funds

DR. J. F. LOVE,
Of Richmond, Va., Secretary of Foreign Missions for the Southern Baptist Convention.

to be made during Victory Week, November 30-December 7, \$43,000,000 will be devoted to missions, and \$20,000,000 of this sum will be devoted to enlarging the work on the ten important foreign fields occupied already and to opening up new fields where countless millions of peoples have not yet heard the story of Jesus Christ.

Asia, Africa, Latin America (including Mexico as well as South America), and Europe are the four continents in which the missionaries of Southern Baptists are operating today, but in all of the ten countries of these continents, Southern Baptists have only 318 missionaries, 787 native workers, 192 of whom are ordained, 12 foreign physicians, 6 foreign trained nurses, 21 native physicians and 23 native nurses.

"Our missionaries already on the field have wrought wonderfully for the Master, considering the difficulties they have had to confront," Dr. J. F. Love, secretary of foreign missions, declares, "but we at home have not supported them as we ought with helpers of all kinds and with schools, hospitals and other agencies to enable them to do a larger work in every way. The smallness of the work we have done already can be realized when we look at the vast number of people who have not been reached in the foreign fields we are occupying today. China, for instance, has a population four times that of the United States, or one-fourth the population of the entire world, and our force there consists of only 65 men, 62 married women, 49 unmarried women, 54 ordained natives and 420 unordained native helpers. Japan, which has half as many people as the United States, is being served by 9 men, 8 married women, 3 unmarried women, 11 ordained natives and 6 unordained native helpers. In Italy there are a third as many people as there are in the United States, yet we have there only 2 men, 2 married women, 35 ordained natives, and 8 unordained native helpers. Mexico has 15,000,000 people, and we have in that country and on the border a missionary force consisting of 11 men, 11 married women, 3 unmarried women, 24 ordained natives and 15 unordained native helpers. Argentina has a population of 8,000,000 and our missionary force there consists of 7 men, 7 married women, 14 ordained natives, and 7 unordained native helpers. In Africa we have entered only one state, that of Nigeria, but this state has a population of 20,000,000, and to serve those people we have only 7 men missionaries, 6 married women, 3 unmarried women, 3 ordained natives and 52 unordained native helpers. Brazil has a territory larger than all the United States and a population of 50,000,000. Serving those people we have a force of 54 men, 33 married women, 2 unmarried women, 69 ordained natives, and 52 unordained native helpers. Our work in Chile, where there are 3,000,000 people, is only two years old, but we have 12 churches, and 15 out-stations in which last year there were 123 baptisms. We need at least 200 more missionaries now and from the proceeds of this campaign we hope to employ them and then equip them and those on the field already for doing the largest work for the Master."

GREAT DAMAGE IS REPORTED RESULT STORM IN MEXICO

(Continued from page 1.) Tex., which had been cut off day, were allayed early this afternoon when the Associated Press received dispatch in army wireless in saying the damage there was slight and entirely to a high wind. The wireless dispatch to the associated Press, transmitted from Fort Brown to Southern department headquarters at Fort Sam Houston, San Antonio, was the only communication had today with Brownsville, and followed a similarly relayed dispatch last night. Brownsville also reported Point Isabel, near there, had not been seriously damaged.

Dallas, Sept. 16.—Last reports from Corpus Christi late yesterday reported the water six feet deep in the street of the city and three feet deep in the city's principal hotel.

Galveston, hit by the edge of the storm and saved from serious damage by its sea wall apparently had virtually recovered today from the effects of the hurricane, which sent the tide water backing into the business district to a depth of three feet. Except for suspension of street car service, the city's public utilities came through intact.

SELL AT GORMAN'S

It looks like the block will be sold off today except at Gorman's. We have the largest sale of the season. Prices on the common tobaccos have been easier, caused by the Independents who were buying it getting more than they can care for. It was the thought by some it would be best to close for the balance of the week, but the Board of Trade voted differently.

We believe it advisable to "slow up" on the selling of the common tobacco. However, the Imperial came on today for two or three of the lower grade tips which helped sustain the prices and in some grades they are higher than last week. The medium good and fine tobacco are full up.
