

MUTINEERS STILL HOLDING TIGHT TO FIUME TERRITORY

Time Limit for Italian Forces Has Expired Without Any Changes.

D'ANNUNZIO HOLDING ON TO CAPTURED PROVINCE

Wilson's Confirmation of Concession of Fiume to Italy Awaited.

(By The Associated Press.)
Rome, Sept. 20.—The time limit fixed by General Baddoglio, deputy chief of staff, for the Italian troops that left their posts in the armistice zone around Fiume and entered the city with Captain Gabriele D'Annunzio to return to their commands expired last night. Latest advices from the camp of Captain D'Annunzio's camp showed his forces were still in the control of the city. The food situation there is said to be serious.

There have been no advices as to the blockade of the place by Italian naval and military forces but there are reports that Jugoslav troops are concentrating on the frontier between Fiume and the hinterland. There are indications that people not essential to the defense of the place may be compelled to leave so that the armed forces may be able to hold out longer.

According to the Messagero an agreement had been reached between President Lloyd George, of Great Britain, and Clemenceau, of France, and Foreign Minister Tittoni which will ensure the Italian nationality of the town, but the assent of President Wilson to the plan is yet to be gained.

The inter-allied forces which left Fiume after the arrival of Captain D'Annunzio's troops are reported to be at Abazia, about two miles northwest of the city, where they are awaiting instructions.

SENATORS HOLD FINAL CONFERENCE REGARDING THE PEACE TREATY

Washington, Sept. 20.—The senators have held the final conference prior to the first test vote on the peace treaty which is expected next week. The Republicans are firm in their intention to force through the reservations, amendments and are confident of blocking two-thirds of the majority. The democrats predict victory in the final showdown.

DIVERS SEARCHING FOR THE LOST VALBERNEA EARLY TODAY

Key West, Sept. 20.—A wrecking crew and divers are examining the hull of a sunken steamer believed to be the Valbernea off the Rebecca Shore light-house, forty miles from here in hopes of establishing the report of the wreck. The Valbernea was bound from Spain to New Orleans and carried three hundred passengers besides the crew, and was believed to have been lost in the tropical storm.

STEEL PLANTS WILL BE CLOSED DOWN TONIGHT, SO IT IS SAID

Pittsburg, Sept. 20.—All plants of the steel corporation in this district where any employees are members of the union will be closed down tonight for an indefinite period, according to reports. It is estimated that 135,000 will quit work Monday. Few plants will continue but the management expects to shut down at any sign of trouble.

London, Sept. 19.—Prizes aggregating \$300,000 will be offered for efficiency in flying craft to be shown in the aircraft safety competition which the government will hold March 1 next. All entrants must be British.

The object is to ascertain the best types of airplanes in which it will be safe to travel and which, in particular, will be capable of rising from and alighting in a small space.

Two types of machines will be entered—small machines with a carrying capacity of two and large machines with a carrying capacity of 15, exclusive of crew.

LOCAL MARKET IS CLEARED FOR THE SALES NEXT WEEK

Tobacconists Succeed in Clearing all Floors of Bright Leaf Friday.

OVER \$928,323.03 PAID FOR LEAF DURING WEEK

The Market Disposed of 2,336,400 Pounds Throughout the Entire Week.

Contrary to all expectations tobacconists at the city yesterday afternoon succeeded in clearing up the floors of the various warehouses throughout the city of the enormous amount of bright leaf which has been coming in without slight interruption since the opening of the market last Monday morning, and while at the beginning of the break yesterday morning some little uncertainty was entertained regarding the outcome of the day's activities, unremitting labor on the part of warehousemen, buyers and sales forces terminated with every pile of tobacco being sold and everything completely opened for the beginning of the sales the approaching week.

There has been very slight difference between the sales on the market this week from those of the preceding week. In fact, the congestion has been possibly as great although the warehousemen have been more in position to cope with the situation than ever before owing to every facility being brought into play following the indications.

COME ALONG WILL BE PRESENTED AT WHITE'S SEPT. 24

Musical Comedy Company Scheduled for Appearance Here this Month

If you are one of the up-to-minute sort of people you need not be told that the writers who are at present making the great American public laugh over the footlights, are the newspaper writers who have been so successful in furnishing the books and lyrics of the most enjoyable musical comedies.

It's not to be wondered at as they know life from all its various angles and can spot a joke a mile away and with the keen insight of their craft coil it into a popular catch-line overnight. This is only one of the many reasons why the book of "Come Along" the musical comedy to be seen at White's Theatre, September 24, fairly sparkles with humor as the author, Bide Dudley, of the New York "Evening World," has long since qualified as one of the most capable and talented men in his profession.

No comedy, however well written, can sustain a musical show without real merit in the melodies and in this respect the music of "Come Along" contains enough hits to go fifty-fifty with Mr. Dudley's libretto. Add to this a well-balanced cast, a really good-looking and snappy dancing chorus, new and handsome costumes and set the whole amid colorful scenic surroundings and appropriate electrical effects and you have a combination pretty hard to beat.

It comes direct from a run at the Nora Bayes Theatre, Broadway and 44th St., New York, where no less a critic than Burns Mantle expressed as his opinion, "The comedy is good, the music agreeable and well scored, and "Come Along" is likely to grow in favor as it goes along."

Mr. J. Osborne Clemons, a native of the south, is presenting the production, and knowing that southern audiences are discriminating in their tastes for things theatrical, has left nothing undone to perfect an organization that will command serious consideration and put over the clever lines and catchy tunes to the very best advantage.

ENGLISH PUBLIC IS GROWING IN FAVOR OF AMERICAN IDEA

Thousands of People Crowd Consulate Trying to Come to United States.

ALIENS ANXIOUS FOR PERMIT TO EMIGRATE

Attraction of Laboring Conditions Bring About Increased Demands.

London, Sept. 20.—The United States consulate here has been veritable Tower of Babel this month. Cosmopolitan London has been pouring a varied array of nationals into the American gateway in England with the single hope that they be allowed to go to the United States. It's a case of many knocking and few entering however.

No one is allowed to go unless he or she has a good reason for being in the United States. The wealthy Britisher who wishes to escape after the war conditions here and see a country he has heard so much about recently is in the same category as the Italian or French waiter who wants to seek a job "out there." But if any one has anything to sell—those cases are in the great minority however as few people in England have anything now that is needed in the United States—or if they wish to go to purchase, they are given every facility.

Every morning an hour or so before the consulate opens a line of aliens forms. Often there are from seventy-five to a hundred in the queue and more keep coming. An average of nine out of ten will be disappointed.

A British woman evidently of means and not as evidently lacking diplomacy made no attempt to conceal her irritation at standing in line an hour.

ADMIT BIG PROFIT WAS REAPED THRU WAR GOODS SALES

Investigation Shows Occurrences Through Chicago Postoffice Lately.

Chicago, Sept. 20.—Huge quantities of government canned goods fell into the hands of packers, wholesale grocers and retailers and thereby prevented postoffice authorities from filling orders filed by consumers. William Mulvigli, attorney for the city bureau on foods, markets and farm products charged at the city's investigation into the high cost of living.

Approximately \$145,000 worth of food was sold through the Chicago postoffice and only part of two very small orders have been delivered to the postmaster, W. B. Carille, postmaster, stated today.

"The canned goods as being stored away until the public has forgotten there ever was a purchase of any goods at less than one-half of the present retail prices," Mr. Mulvigli asserted. "Then it will be placed on shelves and retailed at profits that are appalling."

That deliveries through the post-office were to commence September 3 was the only official information he had received on the whole matter, Mr. Carille said.

Three retail grocers at the hearing admitted that their stores had sold army canned goods at more than 100 per cent profit. Each asserted that clerks had acted without instructions in selling the goods.

WHITE STAR LINER REPORTED AGROUND NORTH RONALD SHAY

London, Sept. 20.—A dispatch from Kirwall reported a White Star liner aground north of Ronald Shay with thousands of troops from Russia aboard. A hope is expressed that the vessel will be refloated.

FOREIGN INTEREST HAS RESUMED OLD SYSTEM OF CODES

American and British Trade Interests Adopt Pre-War Code Methods.

VOLUMINOUS TRADE HAS DEMANDED QUICK ACTION

Sharpness of Competition Will Put Pep Into Future Intercourses

London, Sept. 20.—American and British foreign trade interests have resumed their accustomed pre-war code and the competition for the commercial conquest of Germany and other recently enemy countries is well under way.

This is freely admitted by representatives here of both American and British trade bodies. The London head of one American business men's organization said:

"The business man reasons it out this way: 'Eventually—perhaps in a year from now—we shall have resumed normal trade relations with those nations which were, until a few months ago, our enemies. Why not get busy now—if I don't someone else will.' So sentimental considerations are eliminated. The dollar and the pound once more are what business is seeking."

A sharpness of competition unapproached in pre-war days will characterize the conduct of foreign trade activities during the next few years, it is generally conceded. America's possession of raw materials, her facilities for quantity production and the fact that her industrial machinery is not so clogged with strikes and other labor disturbances which were so seriously impeding British trade, it is thought, ensures the United States a fair proportion of this business.

But it is pointed out that a voluminous foreign trade will be essentially a "new game" and British traders feel that lack of experience will offset, in a measure, the advantages indicated which now favor American trade bids.

DEATH TOLL FROM TROPICAL STORMS GROWING GREATER

List of Known Dead Reached 386 At An Early Hour During Morning.

Corpus Christi, Sept. 20.—The list of the known dead as a result of the tropical storm reached 386 today, and it is believed that the total will be double that number. Clothing and financial assistance are needed in the stricken area, but the food supplies are adequate. The city is slowly recovering from the storm. The search is being continued for additional victims.

DEPARTMENT OF JUSTICE MAKES REQUEST OF CONGRESS

Washington, Sept. 20.—The Department of Justice has requested the House agricultural committee to take an early action on the amendments of the food control act following the reports of profiteering in shoes and other wearing apparel and increased prices for the new sugar crop.

The Greenville public schools have started out upon one of the brightest sessions in the history of the institutions. Increased faculty, with several features for recreation included, will certainly mean very much in the long run, and it is to be hoped parents of the city will do everything possible to make the year of more than ordinary success for both teacher and student.

THE FIRST DIRECT WORD IS RECEIVED FROM CHIEF VILLA

Statement from Rebel Chief-tain Indicates That Everything Is Allright.

SAYS HE HAS PLENTY OF MONEY AND GUNS

Munitions Plentiful and no Fear Entertained for the Future, Said.

Washington, Sept. 20.—The first direct word from Francisco Villa since he was driven from Juarez by United States troops reached Washington today in a letter written on September 6th, from Villa's headquarters in Northern Durango. The letter has been placed at the disposal of officials of the State Department.

In the letter Villa said he had large quantities of ammunition and twice as many men under arms as at any time since 1915. The ammunition has been accumulated from caches in the state of Durango, the letter added, several wagon loads from Juarez, two carloads from Parral and Leyda, a town which he captured recently.

Villa also says he has plenty of money, having captured more than 1,000,000 pesos in gold and silver government coin and bullion from a train between Chihuahua and Durango recently.

Eight hundred deserters from the Carranzista forces recently have joined his forces, Villa wrote, bringing all their equipment and horses, and added that he had just sent General Felipe Angeles fifty miles south to meet General Banales the leading revolutionary chieftain of the State of Zacatecas who was marching north with 2000 mounted men well equipped and with abundance of ammunition and gold and silver bullion. Since leaving Juarez, Villa said delegations from General Gutierrez who controls the State of Coahuila, and from Nuevo Leon and Tamaulipas had from ally agreed to recognize him as general in chief of the revolution. He also said a committee of government, who will be intrusted with the civil administration of all territory occupied by the revolutionary forces will soon be named.

PALMER IS URGING LONG ARMISTICE IN LABOR PROBLEMS

Attorney-General Says Six Months' Should be Required in Solution.

Freeport, Pa., Sept. 20.—An industrial armistice for six months to permit the solution of economic problems arising from the war was urged by Attorney-General Palmer in a speech at the reunion of the veterans here. He deplored the strikes as blows at production which he said was necessary on a large scale in order to bring about better things for all. He admitted that justice of labor claims increased the wages, but declared that idleness will not reduce the cost of living.

CAROLINA SHIPBUILDING CORPORATION SHUT DOWN

Wilmington, Sept. 20.—The Carolina Shipbuilding Corporation shut down after one thousand workmen quit following alleged discrimination in favor of negroes.

UNIONS VOTE SUPPORT STRIKING POLICEMEN

Boston, Sept. 20.—Other unions have voted financial support to the striking policemen while the city continues to fill their places.

STEEL FACTORY IN LINE FOR TEST OF STRENGTH MONDAY

Workers Are Preparing for Test of Strength Slated for Next Week.

BOTH SIDES APPEAR TO BE CONFIDENT VICTORY

Indications Point to Readiness of Action Between the Two Factions.

(By The Associated Press.)
Pittsburgh, Pa., Sept. 20.—Preparations for the test of strength between organized labor and capital in the steel industry throughout the United States, to begin Monday, went forward today with both sides apparently confident of the outcome. There were no official statements forthcoming from either side, but informal talks indicated that they were ready for the contest.

Representatives of steel companies in the Pittsburgh district let it be known that they intend to operate their plants Monday and also let the impression go out that they do not look for as large a walk-out as the union leaders assert will take place. Organized labor expects a big turnout of men and predicted that the employers will receive a surprise.

All the national leaders of unions involved in the strike left the city tonight for their respective headquarters to make final plans for the strike, and much of the activity about the offices of the steel workers' national committee had to do with the preparations in the Pittsburgh district. While national headquarters are in this city, in charge of William Z. Foster, secretary of the national committee, it was learned that much of the work will be conducted by districts. These districts and the men in charge, Mr. Foster said.

London, Sept. 20.—British, Serbians and Russians are reported to have captured two villages from the Bolsheviks near lake Omega.

RETAIL STORES ABSORB AMERICAN TOBACCO COMPANY

New York, Sept. 20.—Negotiations are reported under way for the absorption of the American Tobacco Company by the United Retail Stores corporation the deal involving \$50,000,000.

HUMANIAN SITUATION SAID TO BE GROWING SERIOUS

Budapest, Sept. 20.—The situation is growing more serious as the Rumanians in retiring from the city require all food and other supplies that they can seize, and they are also demanding huge sums of money from the Hungarians.

VISCOUNT GREY HAS SAILED FOR AMERICA, IT IS STATED

London, Sept. 20.—Viscount Grey, the new British ambassador to the United States, has sailed for America.

SATURDAY, SEPT. 20, 1919.

The latest preparations among peace treaty opponents appear to indicate that leaders are fearful that the league of nations will receive the favorable vote unless such conspicuous and ardent opponents as Senators Borah and Johnson are called back to Washington to begin immediately such advances on the enemy as will prove most effective in the long run. It is true the opposing parties are going to present some mighty determined opposition when the matter comes up for a direct test, but from facts already made evident it is also true that the treaty is going to receive a fair and square deal. President Wilson's tour of the country is not in vain, in fact, it is already apparent that practically every locality is heartily in favor of accepting the issue without reservations such as those presented by the disgruntled and persistent opposition. All efforts to prove that the league is other than for what is really intended have proved ineffectual, and there is very little doubt that the opposing factions in Washington will find that they have played an unsuccessful game.

Greenville people can certainly brag about their tobacco market, for so far the sales have exceeded all others in this section of the country, while prices have even been tangoing the stars. Increased accommodations are certainly telling the story, and the fact that planters from adjoining counties are realizing the superiority of this market over all others is another thing worthy of great consideration. There have already been several thousand pounds of the bight leaf brought from other parts of the southern section of the state, which goes to show that Greenville as a tobacco market is fast gaining prominence as the leading market in this section of the country. And there's a reason, too.

Investigation by government inspectors in Chicago have revealed the fact that several of the grocers of that city have been selling food purchased from army supplies at a profit, and for that reason, the probe is proving of more than particular interest to the authorities and great discomfort for the dealers. It is possible that similar situations may be discovered in other cities sometime soon, but if there's not a big hurry investigation will prove useless.

The proposed food blockade of the Fiume territory now appears to be gaining in interest, and unless several changes occur to prevent further developments the situation is going to become of little more than usual seriousness. Italy, and Italy alone, is face to face with one of the greatest economic situations in the entirety of its history, and therefore, such occurrences of the kind now threatening does the nations very little good. It is to be hoped there will be an improvement at some early date, and that the conflicting parties may come to some definite agreement as early as possible.

It now seems almost impossible to prevent the strike of the steel workers of the country, and while every effort has been made by President Wilson to relieve the impending situation, there is very little chance that the workmen are going to listen to any arguments advanced in their interest. There is very little reason for the union leaders disregarding efforts which probably

Greenville is growing by leaps and bounds and the investor has never been afforded a greater opportunity for the erection of homes than at this time. There is an increasing demand for residences, and the person who expends his money in this direction is

certainly doing something which will be of more than direct value to him in the future. Houses are needed badly, and unless something is done to relieve the present situation if is an assured fact that the constant development will be decreased to no little extent.

Now that the Poles have succeeded in cutting communications between Petrograd and Kiev it is almost certain their objective will be gained, if this can be accomplished by such display determination on their part.

"Everybody has clamored for cheap food," says an official announcing "but when it is offered only a few people want to buy it."

All sales finished Friday. The block is over. We have never had so many farmers selling with us from other markets, and after seeing our sales they do not wonder at our having block sales. Greenville is the best equipped market in the State for handling tobacco. With the facilities we have, you absolutely take no chances in selling here—and this is a year you cannot afford to take chances. Close observers say Greenville is \$20 higher on some grades than anything they have seen.

MEETING HELD LAST NIGHT IN INTEREST OF YOUNG MEN

Last night in the office of Supt. H. G. Swanson, an interesting meeting was held. The meeting was in the interest of the boys and the young men of this city and was largely attended. Mr. Louis W. Dunn, of New York City, specialist in community problems, and a member of the International committee of the Y. M. C. A., and Mr. C. P. Rigler, district secretary of the State Y. M. C. A., were present and helped in the conference. They told of the wonderful work that a community Y. M. C. A. could do for the boys and young men.

After much discussion along different lines a provisional committee was elected to consider any further steps in the matter. The committee to be named at a later date.

Supt. Swanson is a live wire when it comes to the welfare of the boys and young men. Ever since coming to this city as the superintendent of the city graded schools he has been keenly interested in the welfare of the boys and now that interest has reached the point where something is to be done.

Every citizen of the town is interested in her young manhood and will be delighted to know that this movement is on foot in their behalf.

This committee will have the supervision of prices paid for food, wearing apparel and articles necessary for maintenance on the farm and all industrial enterprises. Any one desirous of doing so, may make statements to the Chairman of committee at Greenville, or any member of the committee as found any where in the county

which statements, if found justifiable, will be investigated and proper steps taken.

This committee is appointed under the authority of the United States Attorney General, is a legal committee, constituted and organized under the federal law and has full power to regulate prices and correct and punish unfair dealings.

It is to be hoped that the services of the committee will be accepted as an opportunity to establish a clearing house of any and all unfair dealings, it being protection to the buyers and consumers against exorbitant prices and a protection to the dealers against unjust charges and accusations.

The personnel of the committee cannot be surpassed as it is selected from some of the most business like and reasonable men and women of Pitt county.

LOCAL MARKET IS CLEARED FOR THE SALES NEXT WEEK

(Continued from page one.)
A notable fact that planters are not going to refrain from rushing their offerings on the market without consideration of the natural consequence of undue haste in disposition. However, there has been very slight change in the sales throughout the entirety of the week, and through constant attention to the product the warehousemen have been able to care for the offerings with results pleasing to all parties concerned.

The market at the closing of the sales yesterday evening had made direct disposition of practically 2,336,400 pounds of the bright leaf with approximately \$928,923.03 being paid out for the product. The sales were slightly lighter than during the preceding week, but there is evidence of better grades and more careful preparation by the farmers. There were 2,500,000 pounds sold the week before, but the average have varied very little, especially in price, with the exception that it is possible that prices have been climbing pleasingly from time to time.

Tobaccoists are looking for only a slight break in the heavy sales for the approaching week, for with continued high prices, there is very little doubt but what the farmers will rush their offerings to the city without any halt whatever. The Greenville market has established a record peculiarly confined to this locality, and all reports indicate that the market is leading them all in prices and pounds.

SELL AT GORMAN'S

We believe with so many picking cotton and the cooler weather which will retard the grading that the sales will be much lighter until we get a day or two of rain.

The market sold for the week 2,336,404 pounds. Gorman's did not get First sale at this week, and yet we sold 685,274 pounds at an average of \$34.06. We feel proud of this average for the largest part of our sales have been of the common and scalded black tobacco. We have had a scattering of good and fine tobacco and this has gone to the top as you will see by noting some of the averages published during the week.

When a house acknowledges they can't sell common tobacco and only asks for your "Good Tobacco" but crows over their average they are trying to fool you. Instead of bragging they should hang their head. Good and fine tobacco is so high you can get "satisfied" at any place, if you have not sold at Gorman's or seen their sales.

Gorman's leads both in prices and pounds. Bring us your next load of fine or good tobacco as well as your common and we will convince you as we have many during this week.
