## LEADERS IN LABOR OPPOSE CUMMINS ON RAILROAD BILL

### Members Declare that Proposed Bill Would Not Prevent Any Strikes.

## GOMPERS CLAIMS THAT IT CAN'T BE ENFORCED

### Plumb Believes That Strikes Will be Beneficial to Labor in Long Run.

(By The Associated Press.)

Washington, Sept. 24.—Three of the foremost leaders of organized labor, before the senate Interstate Commerce Committee today, denounced in unqualified terms sections of the Cummins railroad re-organization bill, which would prevent railroad workers from striking.

Samuel Gompers, president of the American Federation of Labor; Warren S. Stone, chief of the Engineers' Brotherhood; and Glenn E. Plumb, author of organized labor's solution of the railroad problem and general counsel for railroad brotherhoods, in turn presented varying arguments, but all emphasizing the single point that in their view no power could constitutionally prevent men leaving work at their will.

"I do not wish to live a single day after that right has been taken away from workmen," Mr. Gompers said, with more than a touch of indignation. He served notice on the committee the anti-strike provision, if enacted as law, would not be obeyed.

"With a full sense of my responsibility," he told Senators, "I say that I should have no more hesitancy about participating in a strike after its passage than I do now. It wouldn't stop strikes; it would just make law-breakers."

## DISCOUNT THE REPUBLICAN MAJORITY VOTE

Washington, Sept. 24.—The democrats discounted the three vote victory of the Republicans in the first test vote on the peace treaty yesterday, declaring that it was no indication of a final lineup. Fall's amendments are to be taken up next.

## RIOT DISORDERS REPORTED IN CLEVELAND TERRITORY

Cleveland, Sept. 24.—Four men have been stabbed and two may die and two others were beaten up at the entrance of the American Steel Wire companies plant in connection of the steel strike. Trouble started when three negroes tried to enter the plant and were stopped by the strike sympathizers.

## TWENTY-SEVEN ALBEMARLE STRIKERS ARE IN COURTS

Albemarle, Sept. 24.—Twenty-seven textile workers faces court here today on charges of inciting to riot, in connection with strike disorders at Wiscasset cotton mills ten days ago.

## TEXAS TOWN IS REPORTED NEARLY SURROUNDED BY WATER

Brownsville, Sept. 24.—Hildago, Texas, and Brownsville, Mexico, are reported to be completely surrounded by water with all trains held up indefinitely.

## MAJORITY OF MILLS CLOSE IN THE PITTSBURGH REGION

Pittsburg, Sept. 24.—With reports from Youngstown and Chicago district, it is indicated that a majority of the mills have closed down. The success of the steel strike seemed confined to those districts this morning. A meeting of the national strike committee was called for today by William Z. Foster, the national organizer, who said that the peace would not be considered. A committee will consider financing the strike, and probably make a protest against the use of state troopers in the strike districts. The union leaders indicated this morning that it was a fight to the bitter end. The company officials seem satisfied that the nation-wide walkout would fail.

## SEVERAL MATTERS RECEIVED ACTIONS IN COURT TUESDAY

### Judgments Rendered in Number of Cases Settled on the Outside.

## LAND CONTROVERSY IN FULL SWAY OF SESSION

### Work Conducted Rapidly and Without Slight Interruption During Day.

(By The Associated Press.)

Owing to unusual activity on the part of attorneys of this city having cases in this session of the civil term of Pitt county superior court it is probable that more work was accomplished in yesterday's session than any other day since the opening of the court several weeks ago. There was no actual legal controversies or usual technicalities of law necessary in bringing about the final consideration in the actions, either, for without hardly more than entering the court rooms some of the matters were discharged completely, with nothing more than getting the signature of the presiding officer, Judge J. C. Kerr, necessary in completing the cases. Judgments were rendered in several instances, and the work on the part of active attorneys has received no little commendation from officials of the court who have

## FAIR PRICES WILL BE LOOKED AFTER IN THIS LOCALITY

### Definite Plans Arranged at the Meeting of Committee Here Yesterday.

The Fair Price Committee recently appointed in this county for the purpose of regulating the sales of food and wearing apparel and to bring about the punishment of persons charging illegitimate profits on their goods, met for the first time since its appointment in the court house in this city yesterday afternoon to definitely formulate plans for future activities in this territory. Mr. S. I. Dudley, of this city, who was appointed chairman with the remainder of the members, presided over the meeting with the following representatives of various communities being present and actively participating: M. O. Blount, Bethel; W. J. Holmes, Farmville; W. H. Hardy, Greenville; Mrs. R. L. Carr, Greenville; Fountain Cox, Winterville and J. J. Stokes representing the Ayden territory.

The meeting was of more than ordinary interest as the high cost of living in this section, as well as everywhere, has been an ascendant topic of conversation and interest for the past several months, and the fact that the time has come when prices must necessarily be regulated in the interest of the people, the work was entered into with no little enthusiasm. Each of the community representatives were instructed regarding the work which they are expected to do in connection with regulating prices, and after this had been accomplished, the punishment of profiteers was taken up.

Every person found guilty of charging excess profits in any community must be reported to the local representative or to the chairman in order that action may be taken in the matter. The buyers as well as the consumer will be protected in every instance, establishing a direct clearing house of all exorbitant prices and unfair dealing. Each member of the committee was given instructions to work in close conjunction with the chairman, eventually bringing about more concerted action in every section of the county. The committee appointed under the supervision of the United States Attorney-General, is legally constituted, and will have a direct influence in effecting the restoration of normal conditions in this section.

## TOBACCO MARKET WILL OPEN AGAIN ON COMING FRIDAY

### Sales Will be Resumed With Renewed Spirit Approaching Friday Morning.

## FACTORIES RECOVERING QUICKLY, IT IS STATED

### Everything Will Be in Readiness for Resumption of Activities, Said.

(By The Associated Press.)

Regardless of the closing of the tobacco market in this city for the bulk of this week planters from surrounding territory are routing a bright leaf on the market at a very rapid rate today getting in readiness for the re-opening of the market Friday morning. The fact that the market has been necessarily forced to close today and tomorrow on account of the congested factories has attracted no attention from many parts of the territory and instead of causing disappointment as some thought it would, the movement evidently has met with more or less approval among a majority of the planters who have analyzed all along that this would be inevitable sooner or later.

It seems to be an established fact that sales will continue heavily from now until Christmas, and the week

## CITY PASTORS ARE URGED TO HELP IN GETTING HOSPITAL

### Ministerial Association Will Assist in Establishing Memorial to Boys.

At a meeting of the Greenville Ministerial Association the suggestion was made that the churches of Pitt county promote and carry to a successful conclusion the building of a Memorial Hospital in Pitt county. The ministers heartily accepted the suggestion. To this end the Greenville Ministerial is calling a conference of all the ministers (white and colored) and a representative of each church in Pitt county, to be held at the Jarvis Memorial Methodist church, Greenville, Monday, September 29th, 2:30 P. M.

The people of the county are ready for this movement. It is a supreme opportunity for the Christian forces of the county to minister in His Name to the sick for years to come. May every church in the county have a representative to discuss this proposition and to complete an organization to carry this important work to a successful conclusion.

## KENYON SAYS FOSTER WILL BE FORCED TO TAKE STAND

Washington, Sept. 24.—Chairman Kenyon, of the senate labor committee, said today that William Z. Foster, would be summoned as witness in the steel strike to begin tomorrow. John Fitzpatrick, chairman of the strikers' committee, telegraphed that he would be on hand to testify tomorrow. Gary is to testify next Wednesday. The union leaders are to answer charges made in the house that the strike was forced by the radical labor element.

## MR. O. C. HODGES THINKS GREENVILLE FINE MARKET

Mr. O. C. Hodges who lives in Old Ford Section, Beaufort county is convinced that Greenville is the place to sell tobacco for more dollars. He sold a load on his home market a few days ago and not being satisfied that he was getting the full worth of his tobacco decided to bring it to the Star warehouse which he did. His load at Washington brought \$479.38, at the Star it brought \$688.28 a difference of \$208.70. It pays to sell at Greenville, it pays to sell at the Star when you come to Greenville.

## KNOX SAYS STEEL STRIKERS ARE ALL OF FOREIGN BIRTH

### Tells Senate Committee That Majority of Men Are all Foreigners.

## SAYS INDUSTRIES ARE IN TICKLISH POSITION

### Everything Steadying Influence is Needed for the Future, is Said.

(By The Associated Press.)

Washington, Sept. 24.—Senator Knox discussing in the senate today the Kenyon resolution providing for an investigation of the steel strike said that if reports that steel workers on strike were largely foreign-born were true, there should be an investigation by congress to determine the basis of the government's policy in the future.

Senator Thomas said the refusal of Judge Gary to receive representatives of the workers was "unjustified and unwise," and that the strike was "one of the developments that will put American institutions to their supreme test." He added that the Senate investigation would require too much time to be of service.

Senator Kenyon said industry was in a "rather ticklish" situation and needed every steadying influence. If reports that 30,000 men are on strike are true, he added, congress should "not sit idly by and do nothing."

The senate investigation of the Paist steel strike was stopped by the disturbance of the strike and representatives of the steel properly owners, he said in conclusion, can be brought into before the committee and present and on just what the matter is. The day is gone by when either

## CHAMP CLARK FOR QUICK SOLUTION IN LABOR DISSENSION

### Believes Profit-Sharing Would Have Much to Do in Relieving Condition.

New Orleans, Sept. 24.—The solution of the differences between labor and capital lies in the scheme for profit-sharing, Champ Clark of Missouri, congressman and former Speaker of the House of Representatives, told the delegates here today at the fifteenth annual convention of the Associated Advertising Clubs of the World. Congressman Clark was speaking for the consumer in the triangular discussion of capital, labor and the consumer.

"The plan for profit-sharing," said the speaker, "so far as I know was first preached and put into practice by N. O. Nelson, of St. Louis, and New Orleans. It will require much pains and thought to work out the details of the plan and bring it to perfection, but it certainly is not beyond our ability for doing things. Labor capital and consumer should be friend not enemies. They are necessary to each other. Labor without capital would be futile. Capital without labor would be as useless as a painted ship upon a painted ocean. Without consumers capital and labor would be without occupation.

The thoughts and efforts of all good citizens should be directed to fair play for all three. The high class of American labor is a matter for national congratulation and should be universally cherished. On the other hand nobody should have any prejudice against a man because he has acquired capital provided he secured it honestly. What people really and reasonably object to is being skinned within an inch of their lives." Don't forget the First Sale at the Liberty Friday. Prayer meetings in the churches tonight.

## EPPTS URGES RACE TO HIGHER IDEALS IN DAYS TO COME

### Superintendent of the Colored Schools Writes Letter Urging Co-operation.

## SAYS RACIAL FEELING SHOULD BE ABANDONED

### Thoughts Should be Turned Away from Things Detrimental to Progress.

(By The Associated Press.)

The following letter from C. M. Epps, superintendent of the city colored schools, mailed out to hundreds of members of his race in this part of the country, will no doubt prove of more than general interest to our people, as it graphically portrays the active part which the school teacher is taking in promoting the interest of the colored people and inspiring them to higher planes of civilization. The work of the superintendent has been deserving of much commendation since his connection with the city schools and this step, taken as it is when every race needs guidance from leading members, is one of interest to everyone. The letter follows:

To the Negro Citizens of North Carolina:

You will accept a word from an humble member of the race in the interest of the children, who are to be beneficiaries of the good or ill will of other races. The present is a critical hour in our history, where our people in North Carolina have every reason to give thanks to Him who has spared us from riot and racial unrest. No one will say that we have met every racial desire but we are securing gradually the things which constitute a better life.

## REPUBLICANS ARE IN FULL CONTROL OF SENATE FIGHTS

### Lodge Precipitates First Test in Proposal to Postpone Amendment.

## OPPONENTS OF LEAGUE WIN BY CLOSE MARGIN

### Democrats Claim that Vote Means Very Little in the Final Outcome.

(By The Associated Press.)

Washington, Sept. 24.—Republicans took actual control of peace treaty procedure in the senate today by a three vote margin.

The first test in the fight now being waged about the pact with its League of Nations covenant came on a motion by Chairman Lodge of the Foreign Relations committee to postpone for one week consideration of some forty-old amendments which would relieve the United States from service as commissions created under the treaty. The formal motion, with a fixed date, was put before the senate after the vice president had sustained a point of order by Senator Hitchcock, leader of the administration forces for indefinite consideration, and it was adopted, 43 to 40.

The motion, not of itself important, was attacked tonight by opponents of the league as the best possible sign of the feeling and attitude of the senate toward the treaty and the covenant. Tennessee leaders declared it meant nothing.

Except in three instances the vote on which the eyes and ears were riveted, Senator Lodge, Republican, defeated the amendments. In the first instance, the amendments were paired and three—Gore, Oklahoma; King, Utah; Shields, Tennessee—absent and no voting, were not paired.

El Paso, Sept. 24.—A courier from Villa is reported on his way to Washington after visiting various banks with a view to consolidating factions opposed to Carranza.

## LONDON RAILWAY WORKMEN REJECT STANDARDIZATIONS

London, Sept. 24.—Railway union executives have sent an ultimatum to the government rejecting the standardization offer and intimating that unless favorable reply was received by noon Thursday the strike would be ordered.

## PRESIDENT WILSON TO SPEAK IN DENVER NEXT THURSDAY

Cheyenne, Sept. 24.—President Wilson has planned an address here this afternoon, and will leave tonight for Denver where he will speak the coming Thursday morning.

If the right thing is done the country roads will be dragged after this rain so as to level their surface.

## SMITH AND SUGG MARKET REPORT

Through error Forbes and Marton advertised yesterday, First second sale for Friday. The Star has first second sale that day. We have never had a higher sale than Tuesday and look for strong stiff market from now on. Greenville has never sold so much tobacco in the same period, and instead of prices weakening, as has been the case on other markets, Greenville has gotten stronger. There is no place in the state where the buyers take more personal interest in the market as those on the Greenville market, and no market can exceed Greenville's facilities for handling the weed. Up to date the Star has sold a larger per cent of tobacco than ever before. Important to keep your tobacco dry. We have first second sale Friday, first sale Monday. SMITH & SUGG.

WINTERVILLE HIGH SCHOOL  
MAKING MANY IMPROVEMENTS

Judge John H. Kerr, who is holding court in this city, went down to Winterville yesterday. He states that the Winterville High school is going forward by leaps and bounds. The wooden dormitory, which was burned some time ago, has been replaced with a large brick building. They are having a gymnasium put in also concrete floors, steam heat, power plant, shower baths, and every other equipment that will make it an up-to-date school. A large foot ball field has also been fired.

The dormitories are running a 40 per cent increase in enrollment.

The Winterville High School is a Baptist institution and one of which the Baptists are proud. It is one of the best high schools in Eastern Carolina, and at the present outlook, with its splendid faculty great things are being expected. Prof. Gillies will be the new principal this year.

COTTON ASSOCIATION TO HOLD MASS MEETING HERE OCT. 1.

A county-wide mass meeting in the interest of the American Cotton Association will be held in this city Wednesday, October 1st, at 11 o'clock. Mr. S. J. Everett of this city, will be the principle speaker and will present the objects and purposes of the American Cotton Association and the plan of organization.

This organization last year saved the farmers a large amount of money by advising them to hold their cotton. Mr. L. H. Worthington one of Pitt's most progressive farmers, stated that it caused the farmers to make anywhere from 7c up by taking the advice of the organization. Several others have also stated that it meant money to them by holding their cotton.

It is expected that a large number of farmers, merchants, bankers and business men will participate in the meeting.

JUDGE KERR TO SPEAK BEFORE CHAMBER COMMERCE

The regular quarterly meeting of the Chamber of Commerce will be held at 8:30 o'clock Thursday evening in the dining room of the Princeton Hotel.

The feature of the occasion will be an address by Judge J. H. Kerr. He has a wonderful fund of information concerning the great possibilities of this section and a treat is in store for those who hear him.

After the Judge's address the meeting will be thrown open for the discussion of timely topics relating to the advantages of Greenville and Pitt county.

Letters have been addressed to every member urging them to be present and it is expected that this will be the largest meeting since the organization was perfected.

Owing to the limited capacity of the dining room, only members are expected to attend.

Arrangements have been made with the ladies of St. Paul's Episcopal church to serve an appetizing supper.

Every member is requested to be in his place promptly at 8:30 so that there may be no interruption after the program has been started.

"THE SAME FOR LESS."  
404 EVANS STREET.

A capacity audience should greet the "Come Along" company tonight when they present the first musical show of the season on the local stage and which is interpreted by a cast of 16 and chorus of 20 of Broadway's prettiest girls and for one of the leading song hits.

Could a more appropriate or really truthful title be secured than "They Get by When They're Beautiful?" The song writers on "Melody Lane," in New York, couldn't think of one and after hearing the lyrics it's no wonder and being prominently featured by the big, good-natured, likeable comedian, Charles B. McKinney, in the musical comedy "Come Along," which comes along tonight at the White Theatre.

Picture this 238-pound comic surrounded by a quintette of the prettiest girls in the "Come Along" chorus and each vying with the other in making her own particular pretty face, shapely figure and stunning costume appeal to this heavy-weight Romeo, add the brightest of catch lines for good measure, a tune that will be whistled when the show is over and you have melody, mirth and a striking picture all in one.

The production comes to us epic and span, new costumes and scenery having been provided by Manager Clemson especially for the southern tour. From all accounts "Come Along" should win favor in this city, and alone for its book and music, but because it is interpreted by a capable company, distinctive for its youth beauty and vivacity.

While the seat sale has been the largest of any attraction that plays at the scale of prices which "Come Along" commands there are still a few to be had and wise theatre goers will not delay until curtain time if they expect to secure last minute reservations for it is the theatrical treat of the season, just starting and will set the pace for all future attractions with its special settings, nifty costumes and the best looking group of girls that Greenville will see this season.

Delco-Light

**More Than 75,000 Satisfied Users**

DELCO-LIGHT was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They were the same men whose engineering talent had made DELCO Starting, Lighting and Ignition Equipment for automobiles the standard of the world—

They knew electricity—and they knew the needs and limitations of farm life—

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It must be easily operated and require little attention—

It must be very economical in operation—

It must be built to stand hard usage and it must last indefinitely—

It required five years to develop a plant that would measure up to these specifications.

There were five years of hard engineering effort back of DELCO-LIGHT before the first plant was put on the market three and a half years ago.

Today DELCO-LIGHT is furnishing the conveniences and comforts of electricity to more than Seventy-five Thousand farm homes.

It is providing an abundance of clean, bright, economical electric light for these homes. It is furnishing power to pump water, operate washing machine, churn, separator, vacuum cleaner, electric iron, milking machine, and other small machinery.

And everywhere it is demonstrating its wonderful efficiency—and actually paying for itself in time and labor saved.

WEDNESDAY, SEPT. 24, 1919

Although there are very few people of the county who do not realize the important part which the league of nations will play in the future intercourse of the nations of the world, there are but very few indeed who are not growing weary of the long drawn out controversies occurring from time to time in opposing the measure. Never before have the American people so thoroughly wrought up over one single matter, and the fact that the president of this county played a prominent part in framing the pact is one thing that makes it more than generally interesting to our great masses. The opposing parties, however, have been precipitating controversies which have been repulsive to everyone, and the longer the matter is held over for settlement the greater the opportunity for continued attacks. The treaty should go through without reservations or amendments, and if the expectations of democratic leaders count for anything, it's going to do just that, too.

The reading public readily recognizes the superiority of the Reflector news and advertising service over all others throughout this part of the state. The paper has been going into hundred Pitt county homes for the past forty odd years, and there are many folks who would rather do without the evening meal than the Reflector. Service and unremitting efforts on our part to serve the public as a newspaper should have inspired every endeavor to be greater than the former, and for that reason, we are today making improvements in every department that will enable us to serve our readers even more efficiently than ever before. We appreciate the kind expressions coming in from every source, and in our efforts for the future as in the past will be found a true acknowledgement of our sincere thanks.

The great number of divorce suits coming up for consideration at practically every term of superior court of this county are producing a certain fixed nausea from which there is very little chance of recovering at any time soon. It is perfectly satisfying for persons to be separated when there is just evidence for such, but there is a certain reason to believe there are di-

vorces granted that could otherwise have been withheld until the conflicting parties found some way of reconciling the differences. There is little reason to suspect that every person applying for a divorce does so on his or her own accord, for at times there are instances available, which, if detected by the presiding official at the time of the hearing, might eventually lead the couples back to more tranquil married life. It is far too easy to secure a divorce these days, in fact, in some cases, it is just about as easy as getting married—and everyone knows how easy that is—sometimes.

Greenville People take especial pride in their splendid schools, and especially the training school which has produced some of the most efficient teachers of the state. There are very few institutions that have attained such recognition through the entire state in such a short time as the local school, and while naturally this has been due principally to the diligence and desire of the students of preparing themselves for life's work, the inspiration which they have ever received from the teachers has probably been one of the most dominant factors in the constant growth and development of the institution. With the city schools and the training school combined assuredly there is little room to believe that children reared in Pitt county will not have the advantages so necessary in the business life of today.

Demobilized officers are having a rather difficult time in securing suitable employment throughout England since the ending of the war, so it is stated in recent articles written by prominent journalists of that country, and while of course, their services to the nation in the time of war have been greatly appreciated by the war department this fact has had very little effect with the public business man when the officer puts in his appearance for a position. Men well trained and competent in every way have received very little encouragement in finding lucrative situations, and for that reason many are coming to this country where the opportunities for the shrewd business man are unlimited.

The supreme council, so it is stated, has issued orders for the transportation of practically fifty thousand Czech-Slovakia troops into Russia and while, naturally, there are very few people who have the slightest idea what they are going to do with so many fighting men, unless they are to be employed in reconstruction work, some, however, have an idea that a big "rumpus" may occur at almost any time. The nations, it appears, has had enough of belligerency for the time being, and if there is the slightest chance for peace it is to be hoped that the opportunity will be accepted at once.

The government will surely accomplish much good in the proposed exhibits to be placed in every county fair throughout the nation, for if there is one or two things the American people are absolutely in need of, it is real lessons in savings. The government publicity bureau is doing much towards increasing the saving habit of the nation, and where there is constant application of the examples which have been given out from time to time, good results have been sure. The exhibits at the fairs will be both interesting and instructive, and there is very little reason why the juvenile American will be more than forcefully impressed by the lessons set forth with each individual demonstration.

King Albert and Queen Elizabeth, accompanied by Prince Leopold, have sailed for the United States, and will

no doubt arrive within the next week or so. The visit of the royal family will no doubt be greeted with pleasure by the American people, especially after the splendid work which they have accomplished in the name of the country. King Albert is held in high esteem in many parts of the country, and therefore, it is a sure fact that he will get a good reception over here.

It is certainly gratifying to note that the city officials are co-operating so freely with county officers in their endeavor to clean out the monkey rum dens in every part of the county. Sheriff Dudley and his deputies are doing everything possible to bring about a change for the better, and with close co-operation of influential business men there is not the slightest reason why Greenville, if no other, should not be completely cleaned of such vile influences. Here's good luck to every endeavor.

The day of the mosquitos is fast drawing to a close, while that of the overcoat and ear muff will soon be coming into its own. The multitudes who have been annoyed by the nocturnal songs of the mosquito will no doubt be glad to note the change, but the thin-blooded individual apparently doesn't care which way the wind blows. Both seasons of the year are pleasant, but as to brother "skeeter" desertion of his kingdom is truly desired.

TOBACCO MARKET WILL OPEN AGAIN ON COMING FRIDAY

Continued from page one. The closing of the market will give planters and factories ample time to get everything in readiness for a resumption of activities. The factories, it is believed, will be relieved to such an extent that not the slightest trouble will be experienced during the remainder of the year in handling even the most congested sales which the market might offer. There is very little doubt but what this will prove true, as Greenville has accommodations and facilities along this line which will surpass any other city in this section of the state and is far more able to take care of its enormous sales than ever before in the history of the market, so it is stated.

At the first suggestion advocating the closing of the market the idea was met with disapproval from many sources, but as congestion continued and the heavy sales did not appear very likely to be interrupted for several weeks to come, the tobacco board of trade, in view of the urgency of complaints coming from some of the factories, completely filled to the utmost capacity. The idea finally received hearty approval of warehousemen, and today every interest constituting the vital forces of the industry is making every possible effort to be completely in readiness for sales when they re-open in full blast the approaching Friday morning.

There is every indication that high prices will continue during the remainder of the season on the Greenville tobacco market, in fact, it is possible the better grades will command a higher figure from time to time, although it cannot be definitely predicted owing to the fact that prices here now are somewhat higher, in final averages, than any other market throughout this part of the state. This fact has been made indisputable through printed statements showing comparisons, therefore, there is little reason to expect that the remainder of the season will be other than a prosperous one for the bright leaf grower of this immediate territory. There appears to be an unlimited demand for superior grades,

and there is not the slightest indication that this will be decreased in the future. Inferior grades, while not bringing any handsome figure, are nevertheless being along with the remainder of the offerings. Tobacco well prepared, without any green or dead leaves mixed in with the good grades, invariably brings everything that the producer could possibly desire, and this fact should cause the farmer to make greater efforts than ever before to carefully house and prepare the leaf before placing it for direct disposition.

KNOX SAYS STEEL STRIKES ARE ALL OF FOREIGN BIRTH

(Continued from page one.) capital or labor has the right to precipitate such conditions on the country." Senator Kenyon, who is chairman of the investigating committee, said a quick inquiry was planned so that

a report could be made to the senate without delay.

While the senate was ordering its inquiry, Representative Cooper, Republican, of Youngstown, O., a steel center, sharply criticized William Z. Foster, secretary of the labor organization committee as an I. W. W. extremist and charged that "both the American Federation of Labor and other similar organizations were being dominated not by law abiding citizens, but by the radical so-called labor leaders who would overthrow our government."

Budapest, Sept. 24. — All Central Europe seems on the move. In a railway journey from the eastern Swiss boundary across German Austria, parts of Czech-Slovakia and as far into Poland as Warsaw and Lemberg, back into Austria proper and thence to this city, an Associated Press correspondent saw dozens of long trains crowded even beyond the capacity of the cars and with every platform filled with men, women and children and the non-

descript baggage of the European peasant. Bundles and chests and cloth bags and paper packages, straw and wicker baskets, rope tied, were strapped on every available space.

Where the people are going or why no one seems to know. It is apparently a general shifting and milling about of the population.

The trains themselves are wretched enough. There is not a passenger car in Europe that has not been used for troops transport. They are filthy beyond words, nearly all the glass gone and the windows filled with rough boards or rusty sheets of iron or tin. The paint has long since gone, and some still bear the faded lines of early war camouflage. Lubricating oil is one of the scarcest of commodities in these regions and the cars creak along over rusted rails, drawn by shabby engines.

Travel is a hazard. Schedules are virtually non-existent and these uncertain trains creep along as the fuel supply permits. Strongly advised

CHANDLER SIX Famous For Its Marvelous Motor. A Truly Charming Car, This New Chandler Coupe. SEARCH the whole market of motor cars, you will find no more satisfying closed car of the coupe or victoria type than the new series Chandler coupe. Closed or open, as you desire or the weather dictate, it is clean and cozy and luxuriously comfortable. Upholstered in fine, quality silk-plush and with dull silver finish fittings designed in the best of style, there is distinctive character in this car. The Chandler coupe seats four in perfect comfort, or three when the auxiliary chair is not in use. Chandler closed cars, because they so clearly express the very best of the coach-maker's art and skill and because they are so fairly priced, will be over-sold throughout the Fall Season. Despite the largest production in the history of the Chandler Company, the demand for the new series coupe will quickly consume the production for weeks to come. ### MEMORY OF AMERICANS WILL BE PERPETUATED

Paris, Sept. 23.—The memory of the American soldiers who fell at Cantigny is to be perpetuated at Montdidier by the establishment of a municipal hospital constructed from American Red Cross barracks. Over the entrance to the administration building will be an inscription reading: "Gulf of the American Red Cross to the Town of Montdidier. In Memory of the American Soldiers Who Fell at Cantigny."

Cantigny, in the valley below Montdidier, was the first American battlefield in France. In the beginning of the Allied advance last summer, the Americans captured Cantigny against tremendous odds, advancing further than any other troops in taking it.

Many Americans lie buried on the hillside about the town. The French country people are keeping the graves green, many of the families having "adopted" American graves.

In the country surrounding Montdidier, the soldier-peasant is returning to the soil. Crops are growing where in January there were hundreds of shell holes, dugouts and trenches. Nearly half of the devastated field in the district have been reclaimed. But while this has been going on the villages have in a large measure been neglected. Social life, however, is being rapidly restored. Churches and schools are springing up everywhere and in many cases Red Cross barracks are serving for this purpose.

Despite the fact that their homes are dark cellars and dugouts, the people are cheerful and never fail to express their gratitude and appreciation for what America has done for them.

### A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Greenville people.

Mrs. Edward Fixter, Chestnut St., Greenville, says: "I used Doan's Kidney Pills in England and found them to be the best kidney remedy on the market. I would often have a dull pain through my kidneys and my back would feel weak. Doan's always

brought me quick relief and I would not be without this remedy. Others in the family also used Doan's with the same fine results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fixter had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## These Tires Are a Revelation

The Brunswick is frankly a combination of the best in tire building.

There is one tread that's supreme beyond question. And that is now on Brunswicks.

There is one side-wall construction, which, by every test, holds the summit place for endurance. And that one was adapted for Brunswicks.

Fabrics differ — up to 30 per cent — in their strength tests. On Brunswicks the maximum long-fiber is the standard.

There are certain additions, each one expensive, which add vastly to tire mileage. The Brunswick embodies all these extras.

There are no patents, no secret formulas to prevent any maker from building the best. It is simply a question of knowledge and skill—cost plus care.

Brunswick standards are known the world over. The very name certifies an extraordinary tire. Yet Brunswicks cost no more than like-type tires.

Buy ONE Brunswick. It will prove that a better tire cannot be bought, regardless of price.

## SEVERAL MATTERS RECEIVED ACTIONS IN COURT TUESDAY

(Continued from page 6ae.)  
been watching their efforts with no little interest for the past several days. Judge Kerr continues with the same determination of clearing the calendar as soon as possible, without the usual interruptions occurring from various sources to bring about delay, and therefore, the regular routine throughout the entire session has been marked by certain precision in action that has been almost remarkable in its accuracy. The session yesterday was not the slightest departure from the usual customs of the court room, with the exception of changing around in representation in various cases, and for that reason the hearing of a land controversy cases which occupied practically the entirety of the day, being continued over to the session today, was conducted smoothly and without molestation from any source bringing about deferment.

The one sole action requiring the attention of the court yesterday was that of W. A. Stocks and wife vs. F. A. Haddock, uncle of the wife of the plaintiff, who precipitated the suit against the defendant involving 156 acres of land in the vicinity of Haddock's X Roads, in which it is claimed that the plaintiff is due one fifth share of the estate. The piece of land was purchased several years ago by the Haddock family and was held in trust by Mr. Haddock, with the understanding that he was to assist with the rest of the family, in caring for Mrs. Stocks' parents. Later, in the division of the estate, the defendant offered the plaintiff 20 acres of woodland, but she wouldn't accept it, demanding a more equal division. Claiming that she did not assist the remainder of the family in providing for the parents during the course of their lives, Mr. Haddock remained determined in his decision, precipitating the action that is now attracting no little attention.

It is probable that attorneys for the defense will complete argument sometime during the hearing today, but

owing to the technicalities of the cases, some little uncertainty is expressed as to completion before late in the day. Both sides are representative by influential law firms of this city, and the case, therefore, has been filled with little more than ordinary interest.

## EPPS URGES RACE TO HIGHER IDEALS IN DAYS TO COME

Continued from Page

if our own men and women of "Intelligence" in our State will counsel for peace and harmony, and agitate less, ours will be a gain for racial betterment.

Let us appreciate the efforts of officials, press and prominent white leaders who are determined that the North Carolina Negro shall have the best that the State can give.

Let us note the fact that in our state that whatever success that has come to denominational and public schools our white friends have been the chief promoters.

Shaw, St. Augustine, Kittrell College without the silent support of local men of the white races in other days would have gone to the wall. The mortgages on church associational schools are held by them; they could foreclose if they so desired. But, may they grant time to the strugglers. May we not appreciate such friends. Can Negro Baptists forget the Thomas H. Briggs of old, or the Methodists forget the Julian S. Carr and Dukes?

No teacher or preacher is worthy of the name, that overlooks the great work accomplished by Dr. Joyner, Profs. Sams, Newbold and today being ably carried forward by Dr. Brooks, Profs. Allen and Highsmith. Thousands of Negroes under the leadership of Col. Jas. H. Young, R. B. McRary and John W. Jones, of Winston have let it be known that they want an improvement all along the line, but not with abuse and arrogance without anything substantial behind them.

The Negroes of Pitt County, Beaufort, Lenoir, Edgecombe, Halifax, Nash have thousands of dollars in the banks of Eastern Carolina, and we are certain

that other counties are equally as well off and nothing should occur in our State that would destroy the present status of the race, already rabid. Thoughtless leaders inside, and outside the State have checked our friends. The spirit of Price and Washington bid us spurn radicalism and pray for Divine Love.

Right about face! Let us only twelve millions develop friendship for the one hundred millions. Take a lesson from the Japanese at the peace table, are they abusing England and the United States? No. Let us win our spurs by continued devotion to our State. C. M. EPPES.
