NUMBER 89.

PROMINENT SPEAKERS INCLUDED IN PROGRAM

Several Inspiring Features Were on the Program Yesterday Afternoon.

Greenville, S. C., Oct. 1.—The first annual reunion of the Old Hickory Association passed into history tonight as the most epochal event in the lives of thousands of brave men of Tennessee and the Carolina, who saw and conquered a vital part of the Hindenburg imperishable glory of the Fairchild Division.

A triumphant close it was with the glare of bands, a cheer and a cheering crowd of one hundred thousand, jostling the sidewalks and overflowing the streets. The whole atmosphere was a starry sky, teeming with a carnival spirit.

A most refreshing chapter in the history of the Fairchild Division has been the reunion, and, written in such a manner, adding new laurels to the service to mankind. The act association today paves the way for other chapters equally as interesting at Asheville, N. C., next year, having been selected today as of the next reunion, as was in the correspondence yesterday.

EVERYTHING IN READINESS FOR THE WORLD SERIES

Cincinnati, Oct. 1.—All arrangements for the world series have been completed. It is stated that Reuter, southpaw of the Reds will oppose Cicotte, for White Sox. Wingo will back Reauther and Ray Schalk will back Cicotte. Weather this morning is: There is no doubt that White Sox go in the game favorites. Little thing recorded showed odds from 5 to 7 to 5 in favor of the Chicago club. There is considerable White Sox money in evidence, but even money demanded with few takers. Tea took final practice yesterday and ended this morning.

CINCINNATI WINS IN OPENING GAME

The Cincinnati Reds won out from the Chicago White Sox this afternoon in the opening game of the world series at Cincinnati, by the score of nine to one. Cicotte started out on the mound for Chicago but was knocked out in the second inning, replaced by Wilkinson who was also pounded hard, being replaced by Londermilk. Reauther, for Cincinnati allowed Chicago only six hits throughout the game while 14 were secured off his opponents. One error was made by each team, with fast fielding featuring throughout every part of the contest.

Boasting of being honest doesn't prove it. A cheeky girl with painted cheeks is a cheeky. There are as many ways to win a woman's heart as there are women. Generally speaking, the shortest day is the day before payday.

PERSHING WILL BE FIRST SPEAKER IN BIG CHURCH EVENT

Admiral Simms Also Asked to Address Episcopal Convention in Detroit.

IMPORTANT QUESTIONS WILL BE CONSIDERED

Other Prominent Men Are Also Included in Program, So It Is Stated.

Detroit, Mich., Oct. 1.—General John J. Pershing, commander of the American Expeditionary Forces in France and Admiral William S. Sims, who had command of the American fleets in European waters during and after the war, are expected to address the delegates to the triennial general convention of the Episcopal church here on October 3.

The convention, which will open October 3, will be attended, it is anticipated, by 3,000 delegates and other prominent men who are expected to attend and address the convention include Bishop Charles H. Brent, chaplain general of the American expeditionary forces, Archbishop Platon, metropolitan of Siberia and Alaska, Russia; Judge Packard of Maryland, Bradford Plance of Texas, and other prominent men.

CARRIER BOYS ARE TO BE GUESTS OF CIRCUS TOMORROW

Reflector Carriers to be Special Guests at Performance Tomorrow Evening.

The carriers of this daily will invade the circus grounds on Thursday evening, as the special guests of the management, and will enjoy everything from the proverbial red lemonade to the wild animal show and other attractive features of the circus city, following extension of the courtesy to them this morning by officials of the shows. They will be under the care of an official of this paper and will be guided carefully from one end of the grounds to the other.

Concerning the newsies trip in Wisconsin-Salem, the Sentinel has the following to say: "The Rhoda Boyd show, heralded to exhibit at Piedmont Park today demonstrated its drawing propensities as well as pleasing a large and enthusiastic audience. "There is nothing so dear to the heart, and pleasing to the eye as the bewitching bewilderment that is transformed beneath a canopy of canvas in the saw dust ring, where the ponies, horses, dogs, and bronches all perform wonderful feats, under the crackle of the whip of the equestrian director. The performing elephants, and the famous Stickney family of riders were easily recognized as a feature extraordinary. Then there were a great many other arenic acts that rought forth rounds of unstinted applause."

One thing noticeable was that the entire program was well balanced so as to be presented to your heart's content.

IS STILL DRAWING GREAT ATTENTION

Sales for the Present Week Attracting Favorable Comment Locally.

PRICES CONTINUE HIGH AND GRADES EXCELLENT

Warehousemen Are Keeping Up With Sales in Excellent Form, Said.

Swarming every obstacle which has presented itself as an intimation to bright leaf sales on the market in this city since the opening date, tobacco consists today are meeting every eventuality in a way that is bringing pleasing results to each day's activities, and particularly to the farmer, who has been watching the constantly advancing prices with no little interest, satisfied that everything is being done to bring about circumstances both pleasing and profitable to everyone interested.

Every effort has been made to avoid congested sales since the resumption of sales following the two-day closing last week, and in this the warehousemen have so far been successful, bringing every facility in play with direct results every day. Much tobacco has been on the floors from day to day, the amounts ranging anywhere from 500,000 to 700,000 pounds per day, with prices remaining normal at all times. There has been very little change in the usual routine with the exception of advancing prices which never fail to bring attention among the farmers at such sale. This fact has been one of the government features at every sale for while normal on practically all grades, there are a few grades which are being held at a price considerably above normal, as high as the \$1.99 mark, brands holding fast.

No marked change in demand has been noticeable since the opening of the market, in fact, it is more than evident now that buying interests are as desirous of obtaining better grades.

SAYS THE PUBLIC SHOULD ASSIST IN HELPING RAILWAYS

Boston Railway Man Finds no Other Way to Restore Leases, Is Said.

Washington, Oct. 1.—Participation of the public in the financing and possibly in the ownership of street railways is the only policy which will bring a restoration of credit and satisfactory conditions in the industry, Hamer Loring, chairman of the trustees board of the Bay State Company of Boston, today told the Federal Electric Railways Commission. "The will here asserted that rising cost of materials and labor had ruined the financial standing of operating companies. With a few exceptions, I doubt if the companies can get their credit back under private management," he said, "and that is a most important argument for public ownership. The public state of mind is such that it means to grant the companies few if any favors. The companies cannot serve the people properly without credit. The only way the gap can be bridged over is through some form of public credit and if the public lends its credit, it must have a deciding hand in operating the properties during the period for which credit is extended. I am disinclined to see public ownership tried now."

SYMPATHY WITH D'ANNUNZIO INCREASING THROUGHOUT ITALY

Rome, Oct. 1.—Sympathy with D'Annunzio is spreading among regular Italian troops. Money and supplies continue to flow into Fiume.

BRITISH SCENTING NEW DANGERS FOR FUTURE ACTIVITIES

Government's Automobile Import Policy Arouses Sense of Personal Danger

UNRESTRICTED IMPORTS CREATES UNUSUAL TALK

Automobile Manufacturers Would Retaliate by Selling Cars Over Here.

London, Oct. 1.—Announcement of the government's import policy, by which it is possible for American automobile manufacturers to once more operate in British market, has aroused English manufacturers to what they term a "sense of their danger," with the probability that the Society of British Motor Manufacturers will make representations to the government. "If imports are unrestricted," said Mr. McCormick, one of the leading members of the society, "there is grave danger of the British market being flooded next season, and the effects of British manufacturers toward mass production will be frustrated. Those people who might have found employment in the motor industry will thus be idle, and British manufacturers will be compelled to revert to the pre-war practice of limited production and consequent high costs. It was American legislation that built up the American trade. Why can't British legislation build up the trade here?"

One motor car company announced it would retaliate by selling cars in the United States. It believes there is a good market there for high grade English cars, that shipping facilities would be available and that it will be able to sell them at a profit.

Mr. E. G. Kendrick, of New Bern, is here today on business.

MUCH INTEREST IS EVIDENT TOWARDS COTTON MEETINGS

Attention from Many Parts of County.

PROMINENT FARMERS REPORTED PRESENT

Well Informed Men Will Deliver Principal Addresses During Evening.

No little interest is centered on the meeting of farmers and business men which convened in this city at one o'clock, for the recent announcement regarding the proposal for organizing a branch of the American Cotton Association has attracted no little attention from many sections, making the occurrence of more than ordinary importance to those who have realized the great good to result from such an endeavor for the year.

There was everything in evidence at the opening of the session this afternoon to assure the men behind the movement of hearty co-operation in every way, as several prominent farmers and business men had promised their support in advance at the same time placing their services at the disposal of the organization in its future activities in this locality. The principal object which is conveyed in storing and financing cotton crops from year to year, met with strong personal approval when the matter was first called to the attention of the people in this part of the county, as all have realized the necessity for such co-operative efforts to bring about final success in the production hereabouts.

Prominent speakers, including business men and prominent farmers from the surrounding communities, will discuss the situation in the meeting this afternoon, explaining the plan of organization and the most direct methods of making it applicable to local conditions. The permanent branch organization will be found following the discussion.

TOBACCO MARKET IS TO CLOSE FOR CIRCUS TOMORROW

Local Tobacconists Decided to Close Houses on Account of Circus.

At a special session of the tobacco board of trade this morning it was decided to close the city tobacco market tomorrow on account of the circus to be here throughout the day. The decision came about following a discussion of the situation in which it was deemed advisable to close the houses in order to avoid any confusion likely to occur through congestion brought about by the crowds expected to be thronging the city even at an early hour tomorrow morning, and to give everyone an opportunity of attending the attraction. The market will reopen Friday morning with every energy directed in clearing the floors of all offerings coming in during the intervening time.

LONDON RAILWAY STRIKE IS REPORTED IMPROVING

London, Oct. 1.—While delegates of the transport federation are assembling today to decide whether more than three thousand workers which they represented should go out in sympathy with striking railroad men, the government official report regarding the situation announced continued improvement of conditions. Train service has been bettered, the communique asserted, with more than eight hundred trains being run yesterday. Additional railroad men have returned to work, it is declared.

LITTLE CHANGE IS EVIDENT IN GREAT RAILROAD STRIKES

No Extension Is Reported from Other Industries, It Is Now Stated.

THREATS ARE DIRECTED AT FUTURE ENDEAVORS

Unions Send Out Threats Regarding Intention of Men to Join Movement.

London, Oct. 1.—The fourth day of the railway strike closes with the position of the struggle unchanged. Neither side has made any approach toward the resumption of negotiations, and both are showing an equal determination not to yield.

There has been no extension of the strike to other industries, but James Henry Thomas, Secretary of the Union, has announced his readiness to accept help from other trades unions and a manifesto was issued from the Transport Federation tonight which shadows the probable decision to call a strike tomorrow on the ground that the government action is an attack on the principle of trade unionism, which it is imperative the workers should protect.

There is evidence of unrest and agitation among the electrical workers at the success of the ammunitions and volunteer workers working in the large power station in London, where part of the underground electric railway was ready to start operation and there is some apprehension that the electrical workers may be called out.

After a joint meeting of the executives of the National Union of Railway Men and Transport Workers Federation the latter organization issued an official statement to the effect that reports from other unions mentioned in the Federation show that 100,000 members of the Federation are already affected by the railroad strike and that therefore the position is rapidly becoming untenable.

SAYS MEXICANS WERE NOT ORDERED TO SHOOT FLYERS

Mexico City, Oct. 1.—It is not true that Mexican troops were ordered to fire upon American aviators flying over Mexican territory, said a statement tonight by Louis Cabrea, secretary of the treasury. He asserted that orders had simply been issued that movements of all aviators might be reported.

PITTSBURGH STEELWORKERS UNDERGONE LITTLE CHANGE

Pittsburgh, Oct. 1.—With labor leaders claiming all plants in Pittsburgh district crippled by the strike of steelworkers, employers are maintaining that men are returning to work daily and that mills are operating nearly at full time. The situation today is virtually unchanged, it is said.

WHOLE BOLSHEVIKI DIVISIONS ARE REPORTED SURRENDERED

Copenhagen, Oct. 1.—The breaking of Bolsheviki lines at Bulata by the Finnish troops is reported, says a Hel-singfors dispatch received here. Whole divisions of Bolsheviki are said to have surrendered.

FINE SALE AT THE LIBERTY

The Liberty made the best sale yesterday of the season averaging over \$55 on the entire break, including scrap and damaged. Tobacco is selling higher than ever before and if you want the best price for your load bring it here. Below is one of the sales we made which talks for itself and needs no explaining:

SUPERINTENDENT REPORTS
WAREHOUSES ORGANIZED
 West Raleigh, N. C., Oct. 1.—Farmers, bankers and other business men in at least eleven of the cotton growing counties of North Carolina are planning to build cooperative warehouses for the storage of cotton and other produce, reports Mr. W. R. Camp, State Warehouse Superintendent, and Chief of the North Carolina Division of Markets. Beginning in the northern section of the State, a cooperative organization is being formed under the direction of Mr. G. W. Falls, county agent for Pasquotank County. Nearby, in Hertford and Bertie counties, a company of farmers has already been organized with \$100,000 authorized capital, and with \$50,000 having been paid in. This warehouse company will be known as the Chowan Cooperative Warehouse Company. It will lease all existing warehouse space and will operate houses at Kelford, Aulander, and Ahsokle. It will build a new one at Tunis, as soon as materials can be obtained. Mr. Camp attended several meetings in these two counties, arranged by Messrs. E. W. Gaither and J. C. Anderson, county agents for the Extension service. In Northampton county, farmers, bankers and merchants, realizing the seriousness of the situation, are cooperating to organize a warehouse company to operate a chain at Jackson, Seaboard, and Rich Square. The whole chain will be under one company and a high priced man secured as manager. They now plan to pay this

manager a minimum salary of \$2,000 with a percentage of the net profits made by the houses. These will be used to market peanuts and cotton. The houses at Jackson and Seaboard will be made of cement, brick being unobtainable.

MARRIAGE LICENSE ISSUED
SINCE REPORTS YESTERDAY
 The following marriage licenses have been issued by the register of deeds for registration since the report of yesterday afternoon:
 White—Willie L. Baldree, Greenville, to Thelma Heath, Greenville.

Synoke "Virginia-Carolina" Straight

The South grows the best-liked cigarette tobacco

310 million pounds of sun-ripened, golden Virginia-Carolina tobacco were smoked in cigarettes last year, against 62 million pounds of Turkish tobacco. That's because men enjoy Virginia-Carolina more than any other tobacco. They enjoy that distinctive, lively taste and that matchless flavor.

If you want such a cigarette, just ask your dealer for a package of Piedmonts—made entirely of Virginia-Carolina tobacco.

FISRT SALE FRIDAY OCT. 3

We don't scrap as to who sells good tobacco or who sells common tobacco for we sell both higher than the rest. While the boys are arguing our sales are increasing. It was our pleasure to have represented on our floor Monday planters from five adjoining counties who stated that they never saw tobacco sell so high. A glance at the averages made Monday will convince you they were right.

WEDNESDAY, OCT. 1, 1919.

Whatever the motive prompting certain opponents of the league of nations to such persistent and determined action, we are at a loss at this time, fully divine just what they are expecting to gain in the long run. It is more than evident now, or it should be, that a majority of people throughout the country are intensely interested in the program of the league, and especially certain provisions having a direct bearing upon the more important nations of the world, and while it is true, as has been evinced very plainly, there also are thousands of people indirectly opposed to the project without exactly knowing why. Dependable statesmen in this country and in others, too, are in favor of incorporating certain details into the pact before it has been fully sanctioned by all nations, but so far there have been very few who have directly given the issue opposition through dislike for the provisions. President Wilson has seen the advisability of accepting the treaty, without reservation, and we believe that he has recognized in it principles absolutely essential for the success of the powers involved, therefore, the opposition has very little effect with the clear, calm minded people of this nation.

The supreme council in Paris, as it is stated, is considering the difficulties which might arise in the event of a renewal of relations following the signing of the peace treaty. There has nothing occurred so far to bring about the belief that such will transpire, but however, it is thought advisable to take every precaution in guarding against such. The blockade against Bolshevik Russia will be strengthened, and if a change in the present deplorable state of affairs does not occur very soon, it is only a matter of time before the blockade will bring about results.

Automobile drivers who take special pride in running at high speed should appreciate the endeavors of traffic cops directed in their behalf, for what we have seen, many a neck has been saved through the vigilance of city cops. Traffic laws should be stringent through every part of the city, and there should not be a single automobile driver to register a complaint against them.

As long as riots continue in this country and in Europe there is very little chance that the economic situation in either section will undergo a change for the better. In fact, conditions have become so serious that it is no longer necessary for the average thinking person remaining in the dark regarding the real causes for so many disorders. It is certainly a pity that something cannot be done to convince workmen that strikes are doing more to bring about a continuance of untried conditions than any other one thing, and while of course, it is possible that very few would listen to any persuasions the time must eventually come when things must change. The day is not far away, even at the longest, therefore, definite and decided action on the part of influential men is absolutely necessary to meet the test time fully determined to see a change for the better.

There appears to be very little change taking place in the railway strike in London with the exception of an attempt to derail trains which occurred during the beginning of the week. The government seems determined to bring the strikers to a complete realization of the seriousness of their efforts, and there is very little reason to expect that something will not happen shortly to bring about a change for the better. The situation is not as serious as the strikers thought it would be, for traffic has been resumed in many instances and citizens are acting in the capacity of constables in preserving order. The idea is an excellent one, for if it should be given serious consideration it is more than probable that much good in many sections will be noticeable.

It is plainly evident that the profiteer is up to his old game in many parts of the country since investigations have experienced a slight standstill for the time being. With the high cost of living and occasional fluctuations the public is ever an easy prey for such beings, and to say that they are getting their share would be expressing the matter mildly. Ignorance regarding fixed prices of necessities are probably responsible for excess profits in many localities, and long as this continues there is very little doubt that activities will be decreased along this line in some little time. Investigations should be continued, and unless they are, there is little change expected in the near future.

Farmers in this part of the country should take more than ordinary interest in the two meetings to be held in their interest in this city during the week, for it is the purpose of promoters to bring about a more direct spirit of co-operation among the planters in every part of the country and cause them to directly realize the great advantages coming about through close attention to organized effort. The meeting today and Saturday, too, are important ones as they have an indirect bearing upon both the social and economical welfare of the community, and eventually will bring about increased opportunities to every section.

People who have been listening interestedly to recent talk about a gas plant being established in this city would no doubt be more than glad to hear that the proposition has been made a reality. There are very few who do not realize the direct advantages that would be realized through such an establishment, and it is to be hoped that the men behind the movement will have something definite in the near future.

The Brady System is a guaranteed measure in buying gasoline. Greenville Auto Supply Co.

Every town throughout every part of the nation has its local boosting parties, but this is not so with Greenville, for favorable comments are of times heard from visitors after spending some little time here on business interests. It is indeed pleasing to note the favorable attitude of people from other sections because it goes to show the gaining popularity which the place is attracting through increased business facilities and expansion in industry. The chamber of commerce is doing much towards fostering renewed interest in the section for what it has done and intends will mean much in the constant development in many centers of trade.

State bankers who recently have been protesting against the great expense incurred in getting pennies sent to their individual localities are no doubt quite justified in the complaint, for when it becomes necessary for such institutions to be compelled to pay at the rate of \$1.62 to get a hundred dollars worth of the little copper-skinn, with

many of the banks using from \$200 to \$500 worth every week, naturally there is some room for complaint. Few people have had very little indeed of the great expense of the bank in exchanges, but this one small matter will go to a great extent towards showing necessary expenditures of details.

CIRCUS DAY NEAR

Thursday, October 2nd Rhoda Royal Trained Wild Animal Circus. Tomorrow, Thursday is only a few hours away and all young Greenville will be up and out early, preparing to watch the unloading of the paraphalia, animals, and the erection of the big tents, of the Rhoda Royal Big Circus. The enterprise is no small affair, and as well as the kiddies, Mama and Papa will be on hand to once more get the odor of the tan bark that recalls sweet memories of younger days, for who among us do not look back with joy and recall the time when we stole quietly away from home on circus morning and long before noon found

ourselves, if we were boys and girls, feeding the elephants peanuts, or if we were boys we were caught carrying water in the menagerie for a pass, or caught trying to get under the side walls.

Many novel features are carried this year, among which are the famous riding Stickneys, recently from Europe, but not entirely new to our local friends as for years they have been leading equestrians with the Forepaugh-Sells, Ringling and other big circuses. The famous Milman trio of tight wire artist the parents of the famous Bird Milman the mother was her teacher, they must be good. The Royal troop of white Liberty horses, and the only Rhoda Royal, in person conducting his highly educated quines in the gathering of the garlands.

The bucking Bronco, the funniest of all, by old circus together with many other space forbits fully, beneath tent for over by the cow here. Two performances will be given, at 2 and 8 p. m. Doors open earlier. On account of conditions but a series given on the grounds so tell all your friends and let's all be kiddies together on a day and mingle with each other at the circus grounds.

WANTED—MEN OF CHARACTER
to join the Maccabees. High class fraternity and unsurpassed insurance.

COTTON REPORT
LOWERS THAN THE PAST YEAR

Comparative reports of cotton sales on the Greenville market for September of last year and the past month were this morning presented to this office by city weigher, O. W. Harrington, who has been keeping an accurate record for the past several seasons. There were 184 bales sold during the month of September last year, with 132 for the past month, showing a decrease of 54 bales. There were 37 bales disposed of on the market yesterday at 30-12.

COLORED BAPTIST ASSOCIATION

The Old Eastern Baptist Association meets here tomorrow with the First Baptist church, colored, and will continue through Sunday. A large number of representatives from the churches of the association will be in attendance.

FIRST MEETING OF THE WOMAN'S CLUB

The first meeting for the coming year's work, and the regular monthly meeting of the Woman's Club will be held on tomorrow, Thursday afternoon in the High School auditorium at four o'clock. Many business matters of importance will come before the club, from which no member can afford to be absent. Also we are looking forward to an address from Mr. H. A. White, president of the Chamber of Commerce. Executive board will meet at 3:30.

WILSON DID LIKEWISE.

Greenville was not the only tobacco market that deemed it wise to close a few days to give the buyers an opportunity to catch up with their purchases. Wilson has done the same thing. When markets are congested that is the best thing to do.

ATTENTION MACCABEES

Greenville Tent No. 10, Knights of the Maccabees decided at their last Review to move the Tent to K. of P. Hall, over Key Brown's drug store, and to meet every Monday night at 8 o'clock, beginning next Monday night, October 6th. By order of the Sir Knight Commander. 29-61.

"PRETTY BABY"

Glorious Youth and Fresh Beauty Pre-dominates in "Pretty Baby". One of the essential things in musical comedy is the chorus and Jimmie Hodges who will present his new 1919 version of "Pretty Baby" at White's Theatre Wednesday night, October 8th, is very proud of his Dixie chorus with the big musical show. Many musical comedy producers mention in every form of advertising their so-called "Broadway chorus," but not with Jimmie Hodges. He claims there are just as good looking girls in the smaller towns and the country and with the proper training they are just as nimble in the dances, and their voices are just as sweet in song. After several seasons with temperamental New York chorus lades, he decided he would produce his own chorus, and as he was at the time plying through the cities of the south he there formed his famous "Dixie Chorus." Every girl in the Jimmie Hodges show was an amateur when starting with this show, but with care and patience has now a chorus that is the talk of musical comedy producers. He looked first for youth because the younger generation are more easily taught the intricate dancing steps. Only those possessing good looks were taken, and best trained chorus in the fields of musical comedy.

NEW VIENNA CABINET WILL NOT SIGN THE PEACE TREATY

Vienna, Oct. 1.—Bucharest dispatches have announced that General Vaitolanu has completed the new cabinet of which every member but one has been announced adherent to policy of former Premier Bratiano in refusing to sign peace treaty in its present form.

SHARP DISTINCTION IN MILITARY CIRCLES

With the American Forces in Ger-many, Oct. 1.—The old sharp distinc-tion between the German naval and German military forces is disappear-ing. As the navy has virtually no ships, the naval officers and men are largely available for shore duty. According to information reaching the American army headquarters in Coblenz at the present time such volun-teer naval units as exist serve practi-cally as troops along the coast, and transfers of naval men to and from the Reichswehr, or national army, are frequent. This is made easy by the fact that both the war and navy de-partments are under Defense Minister Noake.

By a recent German naval order a number of sea officers were transferred to the coast guard at Wilhelmshaven and a coast guard detachment at Cux-haven. On the other hand a number of officers on shore duty have been trans-ferred to the only forces of the Ger-man navy afloat, the three or four volunteer torpedo boat flotillas.

DENIES THAT STEEL STRIKERS HAVE BEEN MISTREATED, SAID

Washington, Oct. 1.—Denying that the United States steel corporation had mistreated its men as charged by union labor leaders, Jury Gary, chair-man of the corporation, told the senate committee investigating the steel strike today that in his opinion there was no basic industry in the world which had paid larger wages than his company.

About the only good things that can be said in some men's favor is that they are not society favorites.

Experience is a good teacher, but some men are conceited enough to think that they can give experience a few pointers.

Biliousness
Permanently relieved with-out sickening. One Pill at night will do the work.

RAMON'S LIVER PILLS

Women's Frocks for Fall

Expressive of Autumn are the rich copper tones, which are one reason why the new Frocks are so distinctive. Gaily contrasting and harmonizing embroilleries beautify Frocks that are emphatically Fall-like in line and fabric. Silks—those who are happily familiar with and some which now make their bow for the first time—appear in modes of delightful colorfulness. In equal profusion here are comfortable and modish woolen styles, Dresses that characterize their wearers as women of discrimination and taste \$15.00 \$75.00.

BLouses—SMART, NEW
Deviating from a semi-tailored path, which they no doubt, intended to pursue, a number of the very newest Blouses flaunt novel revers, edged daintily with imitation filet lace. They are developed—need we say it—of Georgette crepe and so are the countless overblouse novelties and Russian effects. And certainly on dreary Autumn days no one will scorn the cheering brightness of vivid reds, greens, orange and deep blues, which are shown in abundance here. Price \$5.50 to \$25.00.

NEW SEPARATE SKIRTS
That Fashion sponsors the vogue for Separate Skirts is confirmed by the great variety of smart new Skirts modes shown. If ever there was a day for sportive plaids, certainly this is it. But not for one associate them with the plaids of bygone days, for in tones and styling they are ever so different. Perhaps in the Silk Skirts will one find the most surprises and diversity \$1.00 to \$30.00

FURS

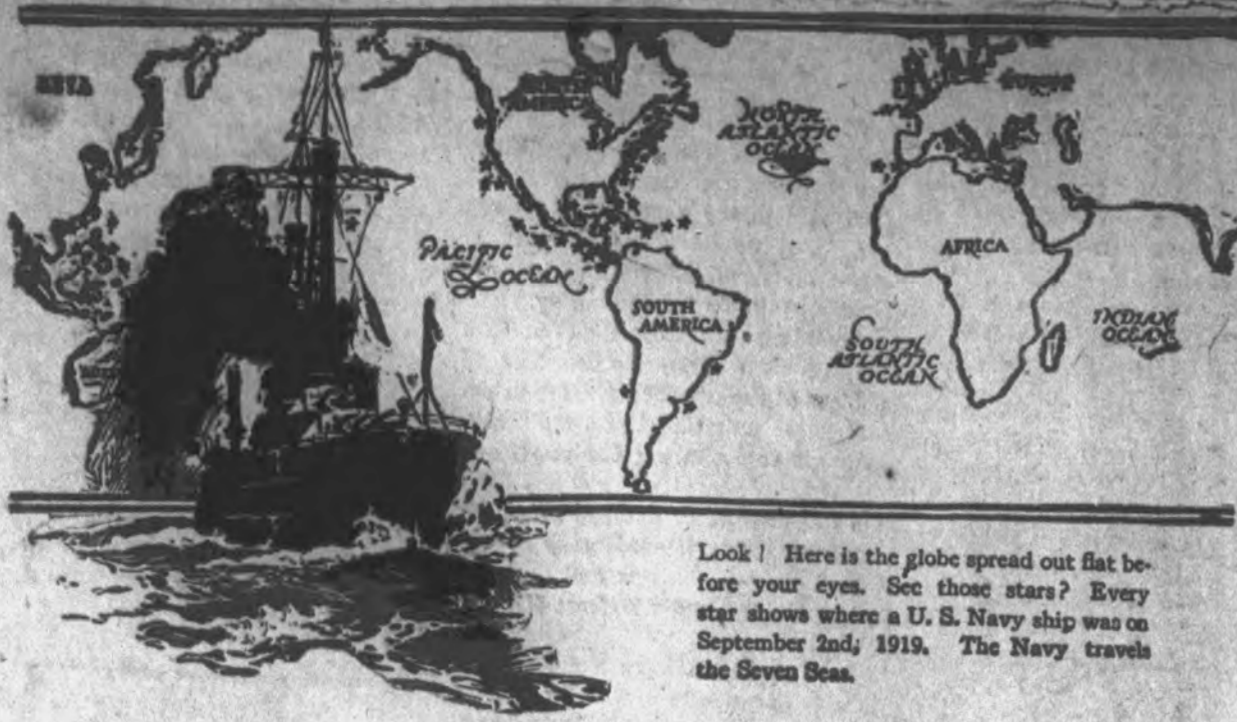

You can't afford to be without one of our desirable Fur Scarfs, Taupe Fox, Black Fox, Brown Fox, Manchurian Wolf, Biret Wolf, Skunk, Lynx, Civic, Cat, O'possum and various other varmints. Let us show you.

MONEY BACK IS A GOOD IDEA BUT WE HAVE A BETTER ONE: MONEY'S WORTH OR OVER.

SOME STORES ARE PROUD IF THEY HAND YOU BACK YOUR MONEY. WE ARE ASHAMED IF WE HAVE TO. WE SO VIGILANTLY GUARD THE QUALITY OF OUR MERCHANDISE, THAT WHO WANTS THEIR MONEY REFUNDED WHEN THEIR MONEY'S WORTH, AND OVER HAS BEEN RECEIVED? YET YOU MAY HAVE IT ON THE SPOT ON DEMAND. OUR WELL-KNOWN INSTITUTIONAL PRINCIPLE IS THIS—THE BEST, BUT NOT EXPENSIVE.

C. T. Munford
"THE SAME FOR LESS."
404 EVANS STREET.

Look! Here is the globe spread out flat before your eyes. See those stars? Every star shows where a U. S. Navy ship was on September 2nd, 1919. The Navy travels the Seven Seas.

Don't you want to see the World?

ROMANCE is calling to you! Strange and smiling foreign lands are beckoning to you. Shove off and see the world!

Learn to "parley-voov" in gay Patee. See the bull-fights in Panama. See surf-riding on the beach of Waikiki.

Learn the lure that comes with the swish and swirl of the good salt sea. Eat well—free; dress well—free; sleep clean—free; and look 'em all straight in the eye—British, French, Chinese, Japanese, Spaniards, Egyptians, Algerians and all manner of people.

Come! Be a real man of the world. See the world. See it with

the red-blooded, hard-working, hard-playing men of the U. S. Navy.

Pay begins the day you join. On board ship a man is always learning. Trade schools develop skill, industry and business ability. Thirty days care-free holiday each year with full pay. The food is good. First uniform outfit is furnished free. Promotion is unlimited for men of brains. You can enlist for two years and come out broader, stronger and abler.

Shove off—Join the U. S. Navy. If you're between 17 and 35 go to the nearest recruiting station for all the details. If you don't know where it is ask your postmaster.

Shove off! -Join the U. S. Navy

MAY BE A BIRD PARADISE

New Use for Island of Heligoland Suggested to Secretary Lansing.

London.—On the question of making Heligoland a bird paradise, L. Gardiner, secretary of the Royal Society for the protection of birds says: "The bird lovers' scheme for Heligoland was that the island should be an internal observation station and a bird's sanctuary. There was no suggestion whatever in this connection that it should be restored to Germany. A resolution to this effect was carried at the annual meeting of the Royal Society for the protection of birds and was forwarded to the British peace delegation."

Dr. W. J. Hornaday, of New York, a leader of the wild life protection movement in the states, cordially seconded the appeal and wrote Mr. Lansing urging that if Heligoland could not be given back to England it should be neutralized as a naval base and placed upon the map as an internal reservation for the protection of birds. The unique value of the rock for this purpose, situated as it is in mid-stream of migration, is well known to ornithologists and has been abundantly proved by the work of Gathe.

USE MEXICAN ARMY SHELLS

Bandits Reported to Have Used Ammunition Made at Federal Arsenal.

Mexico City.—Government authorities have discovered that, in a recent brush with bandits at the Desert of the Lions, near this city, the opponents of the government troops used ammunition manufactured at the federal arsenal. The military authorities have issued strict orders that the sale of ammunition by government troops shall be prevented at all costs. A large number of cartridges is said to have been discovered at the thieves' market, where dealers had purchased them from soldiers with the purpose of selling them at great profit to agents of Felix Diaz and other revolutionary leaders.

Pen Used to Print Book.

Saco, Me.—John Haley, a veteran of the Civil war, has just completed a book of 529 pages which he printed with a steel pen. The book contains 440,000 words and 25,000,000 distinct pen marks. While in the service, Mr. Haley kept a daily record, and he printed the book from material obtained from his diaries. The book contains his personal experiences from the day of his enlistment in the Seventeenth Maine regiment on August 2, 1862, until June 10, 1865.

Protects your beneficiary if you die; Supports you if you become disabled; Provides for your own old age.
