

## JAPAN TO MENACE AMERICAN PEOPLE IN WORLD AFFAIRS

Senator Lodge Says Nation is  
Preparing to Use China's  
Manpower.

### ENTIRE WORLD FACED BY THREAT, IS STATED

Steeped in German Ideas and  
Regards War as an In-  
dustry; Nation Ready

Washington, Oct. 15.—Japan is building a Far Eastern Empire which will become "a peril to America" and threaten the safety of the world. Senator Lodge of Massachusetts, the Republican leader, declared today in the senate in urging adoption of his amendments to the peace treaty under which German rights in Shantung would be returned to China instead of being awarded to Japan.

Steadily and relentlessly, Japan is gaining control of China, Senator Lodge said, and he predicted that she would use China's vast manpower to endanger the safety of both America and Europe.

"It is impossible to see," said Senator Lodge "how any conscientious American can consent to any act or treaty that will extend the power of such a nation as Japan over a country like China, especially when the United States deliberately drew China into the war with at least an implied if not an express promise to give assistance and protection at the peace conference.

"The principal argument made by those who sustained the delivery of control of Shantung to Japan is that Japan has promised at different times to return it to China. Whatever promises she has made were all marked by one vital omission. In no instance I find that Japan ever fixed a time when she would actually return the province to its rightful owners. To determine what Japan is likely to do it is necessary to consider what she has done for 25 years."

Japan was charged by Senator Lodge with breaking innumerable pledges regarding her course in China and Korea; with violating the "open door" policy; destroying foreign commerce in Manchuria and Korea. Her fundamental policy, he said, had been "steady, relentless aiming to get ultimate control of the vast population and great territory of China."

"As it has been in the past, so it will be in the future in regard to Shantung," he continued. "Japan is steeped in German ideas and regards war as a industry. She means to exploit China and build herself up until she becomes a power formidable to all the world. She will use ultimately the practically unlimited man power of China for military purposes just as Germany and Austria used in their armies the man power of the 20,000,000 Slavs who were utterly opposed to German domination, to promote their schemes of conquest.

"Japan will be enabled to construct in that way a power which will threaten the safety of the world.

"She is already advancing in Siberia and with her control there and China developed as she means to develop it she will threaten Europe.

"But the country that she would menace most would be our own, and unless we carefully maintain a very superior navy in the Pacific the day will come when the United States will take the place of France in another great war to preserve civilization.

### PRINCE LEAPOLD JUST LIKE "BUCK PRIVATE"

In Fact, His Position in the

"It was just like going into the home of any other well-bred family. The King and Queen made us feel at ease, and in five minutes we were all chatting away just as we would if we were at the table of one of our old friends. To me it seemed that these royal people of little Belgium were cultured and refined and very human. I will remember that dinner as one of the most pleasant experiences of my military life."

One day on board an officer having been selected to dine with the King missed his invitation, and not knowing of the honor went as usual to the big mess room for his evening meal. He had just eaten his fill when the courier came to tell him the royal family was awaiting him in the dining room. He had dined sumptuously, but there was nothing else for it, and he had to go to another dinner.

## TOBACCO JOURNAL SPEAKS HIGHLY OF PROGRESS IN PITT

Southern Tobacco Journal Com-  
pliments Splendid Growth  
of Local Market.

Greenville is shouting mightily as to its high prestige as a tobacco market, and it has good right to make a big noise. Coming into tobacco in a very small way nearly thirty years ago, it gradually grew and attracted attention, but the days of its slow development passed long ago and for a good many years it has been one of the greatest and best markets in eastern North Carolina. Seven warehouses, one of which is claimed to be the largest brick warehouse for the sale of leaf tobacco in the State, handle the offerings of growers in Pitt and surrounding counties. Last year the sales of bright leaf amounted to 26,774,627 pounds, which—at an average of \$37.97 per hundred—put \$10,166,325.87 into the hands of the producers. And Greenville expects to surpass those figures in pounds and dollars and set a record this season. With the able and hustling tobacconists at the Pitt County capital it is quite likely that such an achievement will materialize.

Pitt county has the soil and the climate to produce fine tobacco, and the high prices paid at Greenville have stimulated farmers to put forth their efforts in cultivation of the weed—which leaves the success of the market in the hands of the warehousemen, and they are men who know how to attract the buyers and their high dollars.

The sales during September were 9,179,587 pounds at an average of very near \$42 a hundred, which is more than seven dollars ahead of the average paid during the corresponding month last year.

Everybody in this neck of the woods who has to do with tobacco is highly happy—but looking for even better things. It is estimated that Greenville will sell close to thirty million pounds this season and it is expected that about twelve million dollars will be paid for it.

## LAW TO PENALIZE RAILROAD STRIKE PASSED IN SENATE

Interstate Commerce Commis-  
sion Passed Law by Vote  
of 14 to 1, Said.

### DEFINITE LEGISLATION TO COPE WITH SITUATION

Protection of Country in the  
Future is One of Princi-  
pal Objects.

Washington, Oct. 15.—Inclusion in the permanent railroad legislation of a provision to penalize strikers of railroad employes was decided upon late today by the senate interstate commerce committee by a vote of 14 to 1.

The committee did not enter into the details of the anti-strike legislation at its meeting today, the vote being merely on the question of adopting the principle of penalizing railroad employes for striking. Senator Stanley Democrat of Kentucky cast the only opposing vote declaring he did not believe anti-strike provisions could be enforced.

The committee vote was regarded as making certain inclusion in the final railroad bill of an anti-strike clause somewhat similar to the clause of the Cummins bill proposing fines and imprisonment for concerted action of employes interfering with interstate commerce. The phraseology of the anti-strike bill is as follows:

## EFFORTS WILL BE MADE TO PREVENT STRIKE OF MINERS

Federal Government to Take  
Immediate Action in Coal  
Miners Situation.

### SEVERAL INAUSPICIOUS OCCURRENCES PROBABLE

Leaders Are Invited to Confer  
With Washington Au-  
thorities, Said.

Washington, Oct. 15.—Immediate steps to avert the threatened nationwide strike of Bituminous coal mine workers are to be taken by the Federal government. Arthur President Wilson's cabinet had discussed the situation at length today, Secretary Wilson, of the department of labor, announced that he would invite John L. Lewis, president of the United Mine Workers of America, and John L. Brewster, representing the operators, to confer with him here, probably Thursday.

While efforts of the miners and operators to reach an agreement on the demands of the workers, which include increased pay and shorter hours, have failed, Secretary Wilson is hopeful that some amicable adjustment of the controversy can be made. It is understood that he will impress upon both Mr. Lewis and Mr. Brewster, the importance of uninterrupted operation of the mines upon the life of the nation.

The possible effect of such a strike on the railroads is understood to be uppermost in the minds of government officials. A shutdown of the mines would result in a paralysis of the transportation system within a short time with consequent suffering over the country because of the shutting off of populous centers from food supplies. Industry also would be brought to a standstill with public utilities stopped and shipping tied up.

## WOMEN OF BRITAIN HOLD FIRST PLACE IN POLICE FORCES

After Ten Months of Trial, Osborne Nobles Farm, Near  
Women Come Into Their  
Own Is Stated.

London, Oct. 15.—After ten months of trial the higher authorities of the Metropolitan police have decided that women police officers have made good, and the 100 now on duty will be retained. They must be of good education, possessing tact, kindness and a sympathetic nature willing to work seven hours a day for \$10 a week and be ready at all times for duty.

The force was recruited from the patrol workers of the National Union of Women Workers employed by the commissioner in 1916 to aid in the protection of the city. They did excellent work, but last November it was felt that the pressing need for them had passed, and they were disbanded.

The cessation of hostilities, however, brought thousands of young officers from the fighting front to London, and the fear that an orgie of dissipation might follow the rigors of life in the trenches induced the police to retain 100 picked women for duty in the night life sections.

Their work was preventive in a large measure, particular attention being devoted to young girls who might be attracted to such places. So well did they carry out the plan that their permanent worth has now been recognized.

## WOMAN'S CLUB IN ITS FALL SESSION THURSDAY EVENING

Department Health and Edu-  
cation Met in Chamber

### SCHOOL SUPERINTENDENT OUTLINES DEFINITE WORK

Tells Women of Special Fea-  
tures Necessary for Fu-  
ture Success.

The department of Health and Education of the Woman's Club held its first fall meeting Thursday afternoon in the Chamber of Commerce rooms. After the regular business the chairman, Mrs. Hugh Ragsdale, introduced Mr. Swanson who in an impressive manner enumerated several definite things that this department might be thinking about. He suggested that educational plans he thought out in advance. Another thing he would like to see done is for the parents to get busy with what they have, teach their children how to study, and thereby, create a desire for study. The schools are in need of a library, therefore books or sets of books would be very acceptable. Mr. Swanson is also interested in the health of our boys and girls. He stated that he and Mr. Wright had visited the ravine that goes through our town and found it working with mosquitoes. This water runs almost under the windows of two schools and the third one very near. Now there are about 800 of Greenville's boys and girls near this ravine that receive the drainage from several stables. What are we going to do about it? Before closing his remarks Mr. Swanson thanked the Woman's Club for bringing the Lyceum course to our town and, thus, sowing the seed for educational entertainment.

The Woman's Club is thoroughly in sympathy with Mr. Swanson in his un-

## STRIKERS SAID TO BE FACING LOSSES IN FOOD SHORTAGE

Steel Strikers of Nation Threat-  
ened by Serious Shortage  
of Foods.

### LONGSHOREMEN HOPES MEN WILL BE AWAKENED

Serious Turn of Affairs Is Be-  
lieved Remedy for Awak-  
ening Strikers.

New York, Oct. 15.—With at least 220,000 workers either on strike or idle as the result of strikes, according to union estimates, New York today viewed with increasing concern the prospect of a serious food shortage rendered imminent by the refusal last night of the longshoremen to return to work and the continuance of the teamsters' strike.

The only ray of hope was the announcement by President T. V. O'Connor, of the International Longshoremen's Association, that the various locals would now take a referendum vote on the question of returning to work. O'Connor who was hooted down when he attempted to speak at last night's turbulent meeting said today:

"I still have hopes that the serious thinking men in the organization will see that a mistake has been made in trying to repudiate their word given to the government and to the people and that they will yet abide by the decision of the national adjustment commission."

The walkout of the 11,000 teamsters, chauffeurs and helpers has caused the American Railway Express company to place an embargo on all express packages entering and leaving the city. Virtually all of the fish, vegetables and other perishable food are shipped here by express. The strike of the longshoremen harbor and ferry workers has caused food to rot on the docks and in ships. No coal has reached here for several days. Some milk and vegetables have reached the city by circuitous routes.

The industrial unrest in the city is shown in a statement by Ernest Bohn, secretary of the Central Federated Union of Greater New York, in which he says 120,000 workers affiliated with the American Federation of Labor are on strike. In addition Mr. Bohn states that there are 50,000 "unclassified" strikers and 50,000 non-strikers thrown out of work. The principal strikes here and the number of men affected, according to Mr. Bohn are: Marine workers, 25,000; cigarmakers, 15,000; millinery workers, 7,000; shipbuilders, 3,000; printers, pressmen, etc., 5,000; piano workers, 10,000; buildings trades, 25,000; tailors, 3,000, and laundry workers, 20,000.

An interesting development in the strike of pressmen and other workers in book and job concerns was a letter sent to Samuel Gompers by the heads of three international unions affected by the strike, in which expulsion was demanded of the Central Federated Union of New York, from the American Federation of Labor, unless its "sympathy and moral support" was withdrawn immediately from the "outlawed" pressmen and press feeders' unions.

### PRESIDENT WILSON INFORMED OF INDUSTRIAL SITUATION

Washington, Oct. 15.—President Wilson will not sanction the adjournment of the National Industrial Conference here until it has exhausted every possible means of finding a solution of present industrial situation, White House officials said today. Despite the illness of the president it is understood that he has been informed of the tense situation in conference resulting from a controversy over labor's proposal for the arbitration of the Steel strike.

## NO INTERVENTION SEEMS LIKELY NOW

### Labor's Resolution Goes to Industrial Conference Will Out Prejudice.

Washington, Oct. 14.—Labor's resolution proposing intervention in the steel strike will come before the National Industrial Conference, without recommendation from the central committee as the first order of business tomorrow, it was learned tonight.

The committee devoted only a small portion of an all day session to consideration of the arbitration resolution. Owing to the opposition of a majority of the five members of the employers' group in the committee a favorable report could not be obtained, and the resolution will follow the only other possible course back to the main body of the conference.

Members of the conference expressed the opinion tonight that the proposal will meet the same fate at the hands of the conference tomorrow. A strong majority of the employers' group is known to oppose intervention in the strike, and action can be taken only with the approval of each of the three groups, voting separately. **Delt**

A scene from the Opera, "The Doll," which will be shown in this city Friday night, October 17th, under the auspices of the Woman's Club. Admission with reserved seats \$1.00.

THE OXFORD COMPANY.

A costumed opera, "The Doll," gives sixty full minutes of entertainment to the audiences of the Oxford Company. In addition to the opera the Oxford's give a program of miscellaneous musical selections.

"The Doll," by Adolph Adam, was originally produced in Paris in 1883, six years before Gounod's "Faust" was presented in the same city. C. H. Ogden, manager of the Oxford company, translated the opera and has revised it somewhat to adapt it to present-day conditions. The result of the revision is an excellent musical production of compelling interest. This is the only opera now given which introduces the mechanical doll feature.

The personnel of the Oxford Company is as follows: Stella Sebastian Ogden, soprano; Hazel Huntley, con-

tralto; Claude Hart Ogden, tenor; Harry Allen Leiter, baritone; Harrison W. Burch, pianist.

Mrs. Ogden, formerly of the "Bostonians," is a soprano of recognized worth. She has splendid dramatic ability.

Miss Huntley is a well-known artist, having won a reputation in Chicago as a concert and oratorio singer.

Mr. Ogden, for a number of years was first tenor of the Oriental Quartet. He is equally at home in oratorio, opera, concert music or ballad.

Mr. Leiter has been with the company six years and is known as an accomplished soloist and ensemble singer.

Mr. Burch is an unusually gifted and talented pianist. He is a conscientious student of music and occupies a high place among the younger pianists.

THURSDAY, OCT. 9 1919.

Greenville is busy enough these days to suit everybody. To see a man loafing is an oddity.

A bit of cleaning up and flue overhauling before putting stoves in use for the winter might be the means of saving some fire damage.

Certainly we talk about Greenville because Greenville is worth talking about. And after all that is said there is room to say more.

One thousand dollars a game for umpiring the world championship series was not a bad figure for pocket change.

In looking back over The Reflector of twenty years ago we find our condition mentioned that is pretty much as it is today. It was the scarcity of houses, there then not being enough residences to meet the demand. And in the two decades since houses have not been built fast enough for the people who come here or want to come, so that today the demand is greater than ever.

**DON'T BREAK HIS SPIRIT**

The man or woman who criticizes to the extent of damaging the future of a disabled soldier, sailor or marine deserving of but small consideration. Yet instances of such criticism are met with daily by the Federal Board for Vocational Education.

Such criticism is invariably due to one of two things; ignorance or misinformation. But in either case it tends to discourage some worthy veteran of the great war. Through such discouragement the very man this great government is seeking to reach, becomes morose, discontented and threatens to drift into a state where he will not only be a handicap to himself but to the community in which he lives.

Now it is as bad to criticize the blundering critic, without offering a practical remedy, as it is for the blundering critic to find fault with a great and wonderful institution, so to accomplish the purpose of this article a few practical suggestions are set down which it is hoped, will prove of some value.

Don't tell a handicapped soldier,

sailor or marine that the government is not trying to help him. You are possessed of a strong body, exert your strength to the extent of seeing that the handicapped man meets an officer of the Federal Board for Vocational Education.

Don't dismiss the matter with a wave of your hand. That handicapped man gave his all, sacrificed his future to help you retain your strength and vigor. Every citizen of this country who did not go to war should extend a helping hand to the man who did.

You know that the government has provided for the rehabilitation of our disabled men. You are a part of the great government which is providing such training, so every time you fail to help the disabled man to get in touch with the institution which has been established for his benefit, you are furthering the German cause and proving unworthy of the citizenship you so proudly boast of.

Remember that your criticism may destroy the faith of some man who suffered so that you might prosper, that a maimed and broken body produces a timid and warped spirit; that souls have perished through criticism which destroyed faith.

The cause is too great to allow petty jealousy and spite dominate. Be a booster for humanity. Examine yourself, see if you are without fault, before you attempt to find flaws. You are your brother's keeper. Unite, cooperate, and let's save souls.

Prince Leopold saw all there was to see about the ship. He is still a student at Eaton, but was given leave in order that he might accompany his parents to America. He is a quiet, bright-eyed boy of 18, with a pleasant smile and a perfect command of English. He is fond of athletics, but admitted one day, while chatting with the correspondents on deck, that he is an expert in none. His eyes sparkled when asked what he most desired to see in America, and he promptly answered the "Rocky Mountains and the delta of the Mississippi."

Prince Leopold has no position in

the army, other than that of a private soldier in the Twelfth Infantry, the uniform of which he wears. His name is cut to the regulations, and on his sleeve are the numerals "12." When he has completed his classical education in England, it is understood he will enter the Belgian military college, after which he will be eligible to a commission. The Boy Scouts should know that the Department of Health and Education is going to do everything possible for their encouragement.

**LAW TO PENALIZE RAILROAD STRIKE PASSED IN SENATE**

(Continued from page one.) A strike clause is expected to be agreed on late this week.

Other steps toward reporting out the railroad bill probably this week, were taken today by the committee in determining distribution of excess railroad earnings. In accordance with a recent vote in favor of a provision directing the interstate commerce commission to fix rates sufficient to insure railroads a return of five and one-half per cent upon the value of their property, as determined by the commission, plus one half of one per cent for maintenance, the committee today voted on disposition of earnings exceeding this six per cent return.

By a vote of 10 to 5, the committee decided that of earnings of railroads between six and seven per cent, one half of one cent may be retained by individual carriers toward maintenance of individual improvement funds

The public—please take notice that Mr. Ben Corey, a recently returned soldier who was injured while in the service of his country, has by reason of said injuries become temporarily deranged. The derangement is very slight and seems to effect the patient only with a desire to purchase everything in sight, especially automobiles, for which he freely gives worthless checks drawn at random on any bank. Ben is harmless and does not give trouble except in the particular way mentioned, and this notice is for the purpose of cautioning the public and especially the banks against dealing with him for which he is not responsible and for which his people cannot afford to assume responsibility. Mr. J. J. Corey the father of Ben and Mr. Sam Flake, his uncle have both requested that this notice be published, and further state that they will greatly appreciate the public tolerance of Ben in any dealings with him as well as any assistance in helping to restore him to his normal balance. It is especially requested that the affliction be not aggravated by teasing or pranks. The government authorities

are being communicated with, with a view to having Ben placed in a sanitarium for treatment, and until this can be done the tolerance and cooperation of the public is respectfully requested. D. M. CLARK, Mayor.

### END OF THE CENTURY CLUB

Mrs. Mark Quinerly was hostess to the End of the Century Club on Tuesday afternoon. The subject for the afternoon's program was "Roman Drama as a forerunner of Shakespearean Tragedy." Mrs. E. H. Wright read an interesting account of Roman Drama in the days of the Roman Empire and of the decline of Rome. She gave brief sketches of Plantus, Terence, and Seneca and read selections from each.

Miss Muffly gave the connecting links between Seneca and Shakespeare, showing how that the dry, uninteresting drama of Seneca had been glorified by Shakespeare. Mrs. E. B. Ficklen gave a synopsis of and readings from Julius Caesar, showing the influence of Seneca upon the Elizabethan Drama.

It was quite a pleasure to have as a guest at this meeting Miss Lizzie Jones, of Tampa, Fla., formerly a Greenville girl. Mrs. Quinerly's other guests were Mrs. Leon Tucker, Mrs. L. R. Meadows, Miss Maria Graham, Miss Hennie Whichard, Mrs. C. A. Bowen, Mrs. Hortense Moye, Miss Bertolet, Miss Lida Taylor, Mrs. George Hadley, Mrs. Hinton Best, Miss Mary Smith, Mrs. W. B. Lewis, Mrs. W. L. Best, Mrs. R. M. Garrett, and Mrs. Sam White. The members present were Mrs. Wright, Miss Muffly, Mrs. Lula Fleming, Mrs. R. Williams, Mrs. F. C. Harding, Mrs. L. C. Arthur, Mrs. Ficklen, Mrs. B. W. Moseley, Miss Kate Lewis, Mrs. John Hassell and Mrs. W. A. Bowen.

# The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimsously.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a meaning to you.

## Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next: I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

# CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . ."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

**HYPNOTISM CURES  
RELIGIOUS MANIA**

**Mysterious Young Woman Saved  
From Insane Asylum by  
Psychic Experiment.**

**IS TRANSFERRED TO ANOTHER**

**Young Artist Who Offers Self for Ex-  
periment is Later Relieved of  
Transferred Malady by Means  
of Hypnotism.**

Paris.—A strange cure, of a psychic nature, has just been achieved before a number of doctors and a few experimenters along the lines of psychiatry.

The patient was a young woman of hysterical tendency, who for seven years had been possessed with an anti-religious mania. During this time the sight of a priest, the act of passing near a church, the pronouncement of a religious formula all have brought on either attacks of violence or spells of dumbness. The association of ideas which precipitate these crises were of the most fantastic kind—a piece of white paper suggested the host, romaine salad turned her mind toward the Roman church, a glass of charreuse the brotherhood of Carthusian monks. At these suggestions she would tremble and faint. To nourish a patient under these conditions daily became more and more of a problem.

**Takes Extreme Measures.**

In Paris last autumn the doctors whom her husband consulted advised him to incarcerate her. Deciding to try everything else before resorting to this extreme measure, her husband, on the advice of an eminent chemist, finally put her under the treatment of a well-known specialist in psychotherapy, M. Mangin. Six months of treatment, consisting in psychic re-education, either in a state of waking or by superficial hypnosis, gave only results of short duration. The Easter festivities exasperated the patient to the point of frenzy. This decided Mr. Mangin to go to extreme measures. He began a tireless search for a subject suitable for the experiment of a transference of the malady, with all its anguish and strange manifestations. This was a difficult task, for the subject must be of such a delicate and perfect suggestibility as to be able later to be freed in turn from these same miseries.

Mme. Georgette Abel, a charming young artist, offered herself for this delicate experiment with as much charity as disinterestedness. On being put to sleep the subject's hand was placed in the hand of the afflicted woman. In a few moments the subject underwent an indescribable transformation. She was seized with agonizing convulsions. The patient, however, grasped the hand of the doctor, declaring with emotion that she was "liberated."

**Malady is Transferred.**

On the order of M. Mangin, the latter uttered a stream of words touching the church, words which for seven years she had refused to utter under all kinds of compulsion. In the meanwhile, the young artist threw herself on the floor and attempted to beat her head against the wall, crying out in the same manner in which the patient was wont to do. The latter, passing from words to acts, touched a holy medal, handled a crucifix and made a short prayer, all this quietly and without any hesitation, while the subject moaned and threw herself about more and more.

Being assured of the complete "liberation" of the former sufferer, M. Mangin let the subject sleep while he made suggestions of a soothing nature to her. Then he awakened her. Both women were in a perfectly tranquil state. Since this time the young wife goes every day to church. She had a long conversation with a friend of the writer who says that not a trace of her former malady was visible. It is two weeks since the cure was wrought and it has been perfectly maintained. As for Mme. Abel, she is happier and healthier than ever.

M. Mangin does not pretend to know by what force he has accomplished this marvelous cure. He does not attempt to interpret the facts, he only inquires into them carefully and impartially, which is a great deal.

**HEN HELPS LIQUOR SEARCH**

**Scratched Up a Bottle of Whisky at  
Bangor, Me., While De-  
puties Looked on.**

Bangor, Me.—Other towns have hens that lay big eggs, but Bangor has a few biddies that, it would seem, lay quart bottles of whisky.

Sheriff Fernandez and his deputies are trying to find out who owns these remarkable hens, but thus far all they know is that the hen has its habitat in a yard in Pine street. Deputies King and Noddin went up there browsing around for the staff and stood admiring the handsome biddies scratching in the straw of their inclosure.

There seemed to be an unusually liberal supply of straw. Rum hounds notice these little things. One hen was particularly active and energetic in her scratching, and presently she uncovered, right where one would look for eggs, a quart bottle of whisky worth in these dusty days at least \$10.

Then the deputies took a turn at scratching in the straw and uncovered 24 more bottles. They are whistling a new tune around the county jail now. They call it "Whisky in the Straw."

# FASHION GOSSIP

By the Fashionable Woman's Clothier

To the Woman who wants the most in style, most in value, most in workmanship, we commend our charming dresses—Winsome Suits, Handsome Coats, Saucy Coatees, Snappy Skirts  
Bewitching Gowns, Bewildering Blouses, Luxurious Furs, Smart Smocks.

**Coats**

There's a terrible scandal in Coatland this fall. Some of the smartest modes refuse to have pockets! And after we've become so accustomed to them, too.

But they are gorgeous enough to be forgiven. One exquisite mode of tin setone, for instance, falls straight and graceful, with a huge heavier collar and a wide belt that wraps round and round before it fastens. But never a sign of a pocket.

And those coats that wouldn't give up their pockets are flaunting them in diverse shapes and sizes—right in the face of their rivals.

Let us show you.

**Suits**

"To be or not to be"—that was the question that confronted several yards of exquisite tricotine. Whether 'twas smarter to be a dress and with the dresses bide, or whether a Fall suit stood more chance of winning favor.

The suit finally answered the question, and you'll find it's keeping company with dozens of other stunning Fall models of kordovan cloth, weaves akin to duvetyne, and our old comrade serge.

The many new shades add delightful zest to the entrancing modes.

Spend a leisure hour in their company, the many smart style themes will keep you interested. Let us show you.

**Furs**

If you're inclined "forward" these days, have a look at the newest caprices that we are showing.

Exquisite Scarfs of Fox, Wolf, Lynx and Coney and all the rest that have been "passed by the censor"—Dame Fashion.

Saucy coatees; perfect loves of shoulder capes and stoles—quaint collars to smuggle one's chin into.

Let me whisper it—prices are wonderfully moderate.

Let us show you.

**Dresses**

Right into the heart of Femininity flutter the new Fall dresses, and between me, you and the gatepost, we think they're going to prove most popular.

Stunning serges and tricotines; lavishly embroidered satins and exquisitely simple tricolettes. Girdles and sashes that play hide-and-seek; stopping in the back when you look for them on the side, fastening on the side when you have about made up your mind they should be in front.

"Individuality"—that is the dominant note of the charming Fall dresses.

Let us show you.

**Gowns**

"All's well that ends well"—so when a shimmering, glimmering satin dinner frock ends in a demurely short train, one finds it very well, indeed. Apricot satin it was—with a hint of rainbow blue at the girdle, and a youthful drapery of silken net to the side.

Dainty dance frocks of frail colors rubbed shoulders with creations in black satins and charmeuse, aglimmer with silver. Will 'o the wisp models, recklessly youthful and sedate ones of quiet elegance—one finds them all in the concourse of new evening frocks for Autumn "doings."

Let us show you.

Don't forget when you come to see us, to ask to see our Gingham House Dresses, Bungalow Aprons, Kiddy Dresses and Rompers, Serge Middy Suits and Twill Middy Blouses, and the thrifty minded will do well to see our Coat Suits and Coats specially priced \$19.95, \$24.95 and \$29.95—all wool and real values.

# SELL AT GORMANS

Our Tuesday's sale of 95,670 pounds was the highest sale the writer ever saw and this covers thirty-two years experience. If you are not selling in Greenville and with Gentry and Gorman, we advise you to come see our sale for you will then be convinced you are losing big money.

We have a house over half full today (am told it is fully half of what is in town.) All tobacco under 90c is higher now than at any time this season. We advised you in the papers and our letter before the market opened, that prices would be high and that the trade would take this crop at outside prices. Wonder how those who advised you to sell as fast as you could feel now? We have 3rd sale Friday, 2nd Monday, 1st Tuesday.
