

COURTS ARE AGAIN ASKED TO HELP IN STOPPING STRIKES

Legal Assistance is Needed in Bringing Coal Strikes to Termination.

84 UNION LEADERS TO BE CALLED FOR TRIAL

Action Also Taken Against Members of International Organization.

Indianapolis, Ind., Dec. 4.—The United States government today again invoked the powers of the Federal courts in an effort to end the strike of 400,000 bituminous coal miners of the country.

Information charging criminal contempt of court was filed in the United States District Court here against 84 international and district officers of the United Mine Workers of America named in the court injunction issued immediately after the strike was called, and capases requiring their appearance to answer the charges were issued today.

Acting President John L. Lewis, Secretary-Treasurer William Green, Percy Tetlow, statistician, and Ellis Searles, editor of the United Mine Workers' Journal, the only officials of the organization in Indianapolis, were notified of the action and agreed to report in court tomorrow to furnish bond, fixed at \$10,000, by Federal Judge A. B. Anderson.

Other officials in the jurisdiction of the Federal Court here include Edward Stewart and William Mitchell, of Terre Haute, officials of district No. 11, of the mine workers, will be served as soon as possible, government officials stated, and all will be required to appear at 10 o'clock next Tuesday morning for hearing.

Dan W. Simms, of Lafayette, Ind., special United States District Attorney, in charge of enforcement of the injunction, stated today that the proceedings against the miners' representatives will be pushed and that removal proceedings to obtain the appearance in court here of officers who reside outside of Indiana will be instituted at once.

Mr. Simms announced that proceedings against officers of two local unions at Clinton, Ind., also would be instituted very soon, charging them specifically with violations of the injunction by payment of strike benefits to miners. Local No. 2,011 officials, he declared, had paid benefits by check, attempting to "camouflage" the real nature of the action by stating that they were for over-payments of dues. Local No. 39, he said, drew one check for \$800 and distributed currency among its members.

In connection with the issuance of strike benefits, Mr. Simms again declared that the injunction extends to any persons whether or not a miner, who in any way encourages the strike and said that banks which honored checks drawn against a strike benefit fund were liable to prosecution.

Mr. Simms stated that the citations against the men named today were only a start in the prosecutions against alleged violators of the injunction and that the action might be expected soon.

FRANK POLK PUTS FACTS BEFORE KURT VON LEDSNER

Paris, Dec. 4.—Frank Polk, the head of the United States delegation to the peace conference has summoned Kurt Von Ledsnor, chief German representative, at Versailles, Monday and told him that Germany should not interpret as being in her favor, any delay encountered in ratifying the Versailles treaty at Washington, according to newspapers here.

TRAINS BETWEEN NEW YORK, PALM BEACH RECEIVE ORDERS

Washington, Dec. 4.—On account of the coal situation the railroads which operate special trains between New York and Palm Beach during the winter have been ordered by the railroad administration not to inaugurate service for the present at least.

BUSINESS IS GIVEN MORE LIBERTY BY LATEST COAL ORDER

Regional Committees Slightly Modify Conditions of Original Order.

STORES AND INDUSTRIES MUST LIMIT USE OF COAL

Stores May Remain Open, But Heart Must Not be Deprived from Coal.

Atlanta, Ga., Dec. 4.—Public utilities and private plants operated solely by hydro-electric power were exempted from shortened hours by the Regional Coal Committee today and industries, stores and other places of business were authorized to remain open between 4 p. m. and 9 a. m. provided that during the latter hours they use no heat, light or power derived in any fashion from coal, wood or gas. Grocery, meat and milk stores, barber shops and places of public amusement may be operated out of their hours provided they comply with the same regulations.

Hydro-electric plants will be required to show that no coal, wood or gas is used in generation of their electricity and that no coal, wood or gas is used in any way outside the regular hours. Needs of such plants were asked to come to Atlanta and furnish such proof to the committee as soon as possible.

Certain business and organizations were added tonight by the committee to those classes that are permitted to be operated at any time. These are wholesale druggists, drug manufacturers, churches, fraternal organizations, social clubs, coal mines and coal mine commissaries and other necessary branches of coal mines. The committee added that gasoline filling stations may be operated until 9 p. m. and garages with the necessary safety lights at all hours.

LARGE LUMBER CO. SUFFERS BIG LOSS IN FLAMES TODAY

Two Wharves of Canton Lumber Company Wrecked; Many Persons Missing

Baltimore, Dec. 4.—Two wharves of the Canton Lumber Company, at Canton, a suburb, the state oyster steamer Governor McAuley, and five other vessels were destroyed and four steamers slightly damaged by fire early today.

One man is missing and a score of others had narrow escapes. The crew of nine on board the McAuley were obliged to jump overboard to escape the flames. Several of the men were taken to the hospital suffering from exposure.

A large quantity of lumber on the wharves also was burned. The cause of the fire is undetermined. It is said to have started under one of the docks. The steamers Governor McAuley and Major l'Fant of the United States army quartermasters' department, Bugeye Grotchen, tug T. J. Hooper, a floating welding machine, and a scow were destroyed and the United States Shipping board steamers Lake Duval and Nupoleis, the oil tanker Wilhelm Jensen and the excursion steamer Dreamland were slightly damaged.

All these vessels were at a shipyard. The Spedden plant narrowly escaped taking fire. Estimates of the loss could not be obtained early this morning.

REPORTS CONCERNING CAPTURE OF VILLA UNCONFIRMED

Juarez, Mexico, Dec. 4.—Mexican officials here today are still without confirmation of the reported capture of Francisco Villa by members of his own band who are said to be holding him at random.

ENGINEER DEVISES PLANS TO UTILIZE SEA IN HOLY LAND

Norwegian Engineer Proposes Use of Mediterranean Sea to Light Palestine

WATER WILL PASS UNDER JERUSALEM TO DEAD SEA

Great Tunnel Will be Cut Under City to Connect With Both Waters.

Christiania, Dec. 4.—A Norwegian engineer has devised a plan to provide water and electric power for Palestine at an initial cost of \$40,000,000. Albert Hjorth, of this city, proposes to utilize the variation of the level between the Mediterranean and the Dead Sea and, by means of a tunnel for water, provide electric power to be used for pumping stations, irrigation and general purposes.

Mr. Hjorth proposes to dig a tunnel 37 miles long, from the Mediterranean to the Dead Sea, passing under Jerusalem. This tunnel would carry water from the Mediterranean to the western slopes of the lower end of the Jordan Valley. Thence the water would pass through pipes down to the Dead Sea, where a power plant would transform the water power into electricity, to be distributed as light and power through the country. This power would be used to drive a pumping station at the southern end of the Sea of Galilee (Lake Gennesaret).

The surface of the Dead Sea is about 1,300 feet below sea level, that of the Sea of Galilee 550 feet below sea level.

Preliminary estimates Mr. Hjorth states, show that tens of thousands of horse-power might be developed in this way by means of a tunnel carrying 20 tons of water per second. He estimates the rise of the Dead Sea caused by this at not more than part of a yard per year. The surface of the sea which is new about 4,000 square miles would

VOGEL'S MINSTREL TO BE HERE NEXT TUESDAY EVENING

Noted Show Will Appear at White's Theatre for One Night Only.

John W. Vogel's Big City Minstrels will be seen at the White's Theatre, Tuesday, December 9th. The company is half a hundred strong and boasts of a roster second to none. Manager Vogel's reputation for being a standard bearer is enough to satisfy us that the performance will be in keeping with the heralding. The Radium Palace, a new and very elaborate first part setting, will be presented here for the first time, and it is said to be the most beautiful and costly affair ever used by any theatrical company in this or any other country.

An occasional visit of a minstrel show is a good thing for the theatre-goer. Wearing by a continuous course of problem plays, lurid melodramas and musical comedies, the stately presence and sparkling conversation of the interloctor appeals restfully to him, while the familiar quips of the end men are hailed as old friends returning from a long journey, and it is all very lovely. This statement is especially true of as good a minstrel show as John W. Vogel's Big City Minstrels are presenting which comes to White's Theatre. There is just enough newness about it to please, and just enough of the old-time flavor to relieve it from any charge of iconoclasm. And the fact that the past twenty years, demonstrated enthusiastic approval of every item of the bill, would indicate John W. Vogel's aggregation has made good.

Cupid is a great court favorite. It is easy to expect others to set a good example.

LATE REPORTS OF COMMISSION DEAL BRIEFLY IN FACTS

Annual Statement of Interstate Commerce Commission Presented Congress.

RECOMMENDS COURTS TO HANDLE REPARATION

Work Has Been Handicapped by Lack of Date from Holding Companies.

Washington, Dec. 4.—The annual report of the Interstate Commerce Commission, submitted to congress today, is comparatively brief and makes few recommendations.

Federal control of railways during the last year, having taken over many functions of the commission, the report renews mainly recommendations made in previous years.

It is recommended that the power to award reparation for unreasonable or unlawful charges be placed wholly in the courts; that the powers of the commission be extended to holding corporations as well as those which actually operate interstate transportation lines, and that railroad operating rules be standardized.

The commission reports again that in many cases its work has been obstructed because necessary records and data could only be obtained from holding companies.

From its investigation of train accidents the commission's investigators concluded that the failure of engineers to obey signals and failure to provide adequate flag protection for trains continued to be the principal causes of collisions. The use of automatic control was again recommended.

The investigators also found, the report says, that there was room for much improvement in the air brake equipment of trains.

BRAZIL HAS GREAT WEALTH IN FOREST OF ITS TERRITORY

Immense Woods Are of Little Value Owing to Lack of Big Saw-Mill.

Brosie, Dec. 4.—Although there are immense forests full of woods of many varieties, some of them of the greatest commercial value, it is surprising how few first-class saw-mills there are in the region, and there are none which might be said to compare in efficiency with those of our own north-west.

Owing to the maze of waterways which covers the entire surface of the valley, there can never be any large railroads paralleling the main Amazon River and all railroads will therefore be constructed to act as "feeders" to the main river and its principal tributaries, opening up the interior lack of ready the river banks. Concessions have recently been granted by the State congress for various short lines, one of which is intended to link the Amazon, from the town of Macapa near its mouth, with the Oyapock River which separates Brazil from French Guiana. This line will open up vast areas suitable for cattle raising, as also gold-bearing lands which were abandoned when the French ceded the northern part of the state of Para to Brazil twenty years ago.

Another line is to be constructed between the town of Obidos, 600 miles up river, and Dutch Guiana. A line is under construction on the bank of the Tocantins River from the first rapids, at Alcobaca, to the navigable water of the upper river, and about ninety miles of the lower end is now practically completed. Other railroad concessions are under discussion in the Chamber of Deputies as also wadry motor roads from the banks of some of the rivers to interior centers of population.

AMAZON REGION IS GAINING ATTENTION IN MANY CENTERS

Industrial Development of Amazon Valley is Embracing Wide Scope.

ENGLISH ENGINEERS ARE EXPEDITING ACTIVITIES

Congress Has Granted Certain Concessions of Industrial Interest.

Para, Mouth of Amazon River, Dec. 4.—The industrial development of the Amazon Valley is attracting the attention of European countries. British, German, Italian, Norwegian, Swedish and Dutch capitalist, engineers and importers are making investigations of the mineral and forest resources of the valley or have obtained concessions to establish industries here. So far American participation in this development work is conspicuous by its absence.

English engineers are up river at the present time investigating the possibilities of vegetable oils; English experts are here studying the practicability of extracting starch and industrial alcohol from the root of manioc; an English engineer has returned to this city from Iquitos for further equipment with which to extend the examination he is making in the mineral area of the Peruvian Amazon, on behalf of a British syndicate.

The Italian syndicate which has been operating a small experimental vegetable oil factory at the town of Cameta on the Tucantins River, about 100 miles from Para, has applied for a concession to open a large factory in Para for the extraction of lubricating, illuminating and edible oils from the nuts of palms and trees which abound in the forests. A similar concession has been given to a group of local capitalists for the establishment of oil factories in certain municipalities.

MEXICO ENTRUSTS CARRANZA TO END SERIOUS SITUATION

Senate in Secret Session Gives President Power for Forceful Action.

Mexico City, Dec. 4.—The solution of difficulties arising out of international affairs with the United States were entrusted to President Carranza without legislative intrusion by the Senate at a secret session.

Relations with the United States were declared during the session as being "very delicate."

Waiting Word from Mexico.

Dec. 4.—State department were marking time to waiting word from Mexico of the official delivery of the latest American note to the Mexican government and the subsequent action inspired by it. The message was garbled in transmission and this delayed its presentation to President Carranza.

In some quarters it was believed that Carranza would order the release of Jenkins soon after receiving the message and prevent a complete break between his government and the United States.

Private advices from Mexico indicated that some of the Mexican officials were not taking the negotiations seriously and felt that it involved only an interchange of diplomatic notes and would result amicably.

Situation Considered Grave.

A different attitude was evident at the state department, however, where the situation was being considered gravely and should Carranza continue to hold out against the American government's request to release American Consul Agent Jenkins without delay, pressure was expected to be brought to bear which would force Mexico to concede to the demands.

WILSON IS URGED TO END RELATIONS IN MEXICO AFFAIR

Resolution in Senate Urges President to Break Relations Immediately.

MEXICAN EMBASSY ON BOLSHEVISM CHARGE

Senator Fall Says that Evidence Ha Been Found to Astound the World.

Washington, Dec. 4.—President Wilson was requested in a resolution introduced today in the senate to sever diplomatic relations with Mexico.

The resolution was offered by Senator Fall, Republican, of New Mexico, who as chairman of a sub-committee investigating the Mexican situation, declared evidence had been found which "would astound the world." It also asked that the President withdraw recognition of the Carranza government.

Senator Fall boldly charged that the Mexican embassy, the consulate general in New York and San Francisco and the consulates along the border with the knowledge and consent of President Carranza, had been actively engaged in the spreading of Bolsheviki propaganda in the United States. Evidence, it was said, would be forthcoming to bear out the charge.

By this resolution, which was sent to the Foreign Relations Committee of the Senate for consideration tomorrow the whole Mexican problem admittedly grave in view of the refusal of the Carranza administration to release Consul Agent Jenkins from the jurisdiction at Puebla will be put before congress.

The latest note from the State Department calling for the immediate release of Jenkins was laid before the Mexican government on Monday. Word to this effect reached the department today, but there was no intimation as to when an answer might be expected.

An early report from the committee on the Fall resolution is expected, and this will put the question squarely before the senate, aroused to a high pitch by recent murders of Americans in Mexico and the treatment of the American consular agent.

While Senator Fall did not indicate the exact nature of his evidence, it was said that he had obtained photographic copies of correspondence which would clearly show secret operations of the Mexican president and his official representatives in this country.

There also was introduced in the Senate a resolution by Senator Ashburn, Democrat, of Arizona, authorizing the Secretary of War to use the nation's forces for protecting its people on their own side of the border. For eight years Senator Ashburn said he had been waiting for the army to protect American rights along the border, and he felt that the time had come for action.

ITALIAN TROOPS TO OCCUPY FIUME AND TERRITORY

London, Dec. 4.—The Italian regular troops will occupy Fiume and the territory included in the treaty of London signed in nineteen and fifteen by representatives of Italy, France, Great Britain and Russia, according to a Rome dispatch to the Exchange Telegraph. A company of D'Annunzio volunteers will withdraw from Fiume it is said unless the terms of an agreement reached as a result of negotiations between London and Paris.

AIRSHIP STATION TO BE ORGANIZED AT EL PASO

Washington, Dec. 4.—The first army airship station on the border is to be organized immediately at El Paso, Texas, by the eighth balloon company, the war department has announced. Soon as the hangar which is now under construction is completed one or two engine airships recently acquired by the army will be placed in service and experimented on the border.

THURSDAY, DEC. 4, 1919.

Do your Christmas shopping early.

Make the coal pile last longer by doing your Christmas shopping now.

William Hohenzollern will never be affected by coal shortage either now or in the future.

The capture of General Villa has been reported again. And we may hear the same report in the near future.

Owing to unforeseen circumstances, there will be no oyster supper at the Christian church tonight, as was announced.

Validity of the war-time prohibition measure has been defended by the government, so there's little room for further comment.

The government is now asking the assistance of federal courts in bringing about a conclusion of the coal strike. If this will do any real good, it is to be hoped action will begin immediately.

Republican senate leaders have struck a snag in their endeavor to declare the country in a state of peace by congressional resolution. That may sound reasonable to some, but not to thinkers.

The slight modification in the coal order no doubt will bring pleasure to many storekeepers, although it is hardly probable that the large business houses will depart from provisions of the first order.

Greenville business houses are observing the restrictive coal order issued by the regional coal committee, realizing the importance of prompt action of the kind. Such efforts in other localities will relieve the situation to no little extent and prolong the coal famine threatening the south at this time.

be allowed to increase to about 4,800 square miles.  
Two canals would be built running

parallel with the river Jordan and from these canals water could be distributed among the fields sloping toward the Jordan sufficient, it is claimed, for the irrigation of many hundreds of thousands of acres.

Mr. Hjorth claims it would be no more difficult to build this tunnel than the proposed railway tunnel under the English Channel and estimates the cost of a Dead Sea tunnel (double) with a minimum area of 135 square feet at \$40,000,000, to which must be added the cost of the power plants, factories, canals and irrigation works. It is pointed out that the estimated cost involved in this plan does not compare unfavorably with the irrigation works constructed in Asia and America during the past decade.

throughout the state.

Concessions have been granted recently by the State Congress for various factories to manufacture glass, hammocks and thread, salt and its products, paper of all grades, rubber goods, vegetable dyes and ink and buttons from vegetable ivory nut. These so-called "concessions" are not to be confounded with the exclusive monopolies so popular in other Latin-American countries which in the past have proved to be a hamper instead of an aid to industrial development. In Brazil a "concession" to establish a factory or industry is more in the nature of a "charter" with, in some cases, special tax exemptions for a number of years, or privileges in the matter of import dues on machinery and equipment.

trically driven plants follows:

"Industries, stores and other places of business may open before 9 a. m. and close later than 4 p. m., if outside of those hours they use no heat, light or power which was produced in any way with coal, wood or gas. This modification is made strictly upon the condition that those plants and places of business which use heat during the hours fixed by the committee will shut off their fuel consumption at the same time it would be shut off if they were closing their doors at 4 p. m., and that heat will be used no earlier in the morning than allowed by the original regulations. Grocery, meat and milk stores, barber shops, and places of public amusement, may operate outside of special hours fixed for them, if they comply with the above conditions.

## SANITARY INSPECTION OF SEWERAGE AND SANITARY PRIVIES.

The last legislature of the state passed a law providing that every house located within three hundred yards of any other house, and not located on the sewer line, should install therefore a sanitary privy not later than October 1st, 1919. This law became effective at once, so that same could be complied with by October 1st, 1919. In many instances the people of Greenville have complied with this law in spite of existing material and labor conditions, but it has been observed that some of our citizens, although they have been given an extension of time from October 1st to December 1st, have even yet failed to make any effort to install the regulation Pitt Type Sanitary Privy provided for in the law.

This law was passed by the state board of health, and the state board of health is now determined to see that it is strictly enforced. Therefore, Mr. Hugh E. Fritts has been sent to Green-

ville by the state body for the purpose of making a thorough inspection of Greenville, and has been directed to remain here for two weeks to see that every home is inspected and that the privies have been installed, or at least some work begun in an effort to install them. Mr. Fritts collects forty cents license tax from each party, which goes to the state to defray the expense of the enforcement of this law. If, within the next two weeks every person in Greenville, not having sewer connections or living on sewer lines, who has not received a license from Mr. Fritts will be prosecuted, and upon conviction fined from \$5 to \$50.

Information concerning the Pitt Type Sanitary Privy can be had at the office of Dr. Chester, county health officer, and Mr. Fritts will be glad to make engagements with any parties desiring to see him, so that the matter can be fully explained.

As stated above, this law should have been complied with October 1st, and the leniency granted has been for the purpose of giving the public ample opportunity to become enlightened upon the subject, in order to make necessary provisions to meet the requirements. The report made by Mr. Fritts will be final and no further leniency need be asked or expected.

Respectfully yours,

**REGISTERED CATTLE AND

Horse and cattle breeders owning "blooded" stock do not fail to have their animals "registered." It adds to their value and is therefore justly considered as highly desirable.

Contrasting this attitude with that of many careless parents, the public health service gives the following reasons why baby's birth should be registered.

1. To establish identity.
2. To prove nationality.
3. To prove legitimacy.
4. To show when the child has the right to enter school.
5. To show when the child has the right to seek employment under the child labor law.
6. To establish the right to inheritance to property.
7. To establish liability to military duty, as well as exemption therefrom.
8. To establish the right to vote.
9. To qualify to hold title to, and to buy or sell real estate.
10. To establish the right to hold public office.
11. To prove the age at which the marriage contract may be entered into.
12. To make possible statistical studies of health conditions.

**Rupture Specialist Here**

Dr. Dunn announces that he and his assistant will be in Greenville for the treatment and cure of Rupture Saturday, Dec. 6th, from 11 A. M. to 4 P. M. and be found at the Metropolitan Life Insurance Company's office at 522, Dickinson Avenue. Examination and information free of charge.

The Cure is painless, bloodless, without an operation, and done in one treatment. No case treated except for permanent cure. If further treatment is ever needed no other charge is ever made. Every one accepted for treatment is taken for a life CURE.

Every case treated in past year cured, not a single failure. Cases that the knife have failed to cure have been cured in ONE TREATMENT.

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were "National Biscuit," recalling pleasantly my own tasty Uneeda Luncheon. I liked her, and talked with her for a while. She spoke again, my pen and ears busy.

"Between the dark and daylight," she was quoting "there's always a bit of pause," and she seems waiting and listening—for the children. Since they were there, I've given that her name. First I had to get her to toddle, I had to get her to me in my arms. She was like a child, and I was like a parent.

The original, inherent goodness of Uneeda Biscuit is due to the superior materials and methods employed in the baking. The everlasting table-goodness of Uneeda Biscuit is due to security of the In-er-seal trade mark package.

**THE THEATRE AS MEDICINE.**

A writer in American Medicine—no doubt a physician sets down his belief that most persons suffering from insomnia, melancholia, brain fog and various other nervous disorders, should seek cures in the theatre. "You can't get the same benefit," he says "by sitting at home reading a funny book. You need the brilliant lights, the crowds of gaily dressed persons about you, the music of the orchestra and the continuous action of the stage to take you out of yourself and transport you to a world where worry is unknown. Reduce your doctor's bills by paying a few dollars in advance at the box office." This is a prescription—although it seems to be directed exclusively toward the comically amusing—which no actor and no manager will question. And most other persons would better try it before scoffing at it.

John W. Vogel's Big City Show will appear at the White's Theatre on Tuesday, December 9th and will render a program that will do one more good than a hundred doses of some medicine. There's no tiresome overture, but on the contrary the various novel feats gathered from all quarters of the globe commence, and ere the final has been reached you have, with your brother auditors, proclaimed minstrelsy the king of amusements. This organization will appear at the.

**COOPER-SMITH.**

**Beautiful Wedding Solemnized in the Christian Church.**

The Christian church, of this city, was the scene of a beautiful wedding last evening, when Miss Mary Smith, the daughter of Mr. and Mrs. R. L. Smith became the bride of Mr. Lewis G. Cooper, a prominent attorney of this city. The church was artistically decorated with chrysanthemums, potted plants, marine streamers and waxen tapers. Mrs. J. B. James presided at the organ and rendered a musical program while the audience was assembling. She played Lohengrin's as a processional, Mendelssohn's as a recessional and "A Necklace of Love," and "The Garden of your Heart," during the ceremony. Prior to the entrance of the bridal party Miss Ada Gray Dixon, of Farmville, gowned in a beautiful orchid velvet, with trimmings of blue and silver, sweetly sang, "Possession," and "Silent as the Night." The bridal party entered in the following order, first the ushers, Messrs. C. R. Townsend, of Farmville, W. H. Smith, a brother of the bride, C. O'H. Horne, James Ficklen, N. O. Warren and Henry Cooper, of Henderson. They entered down opposite aisles and crossing in front took their places on either side of the pulpit. Following these came the matrons of honor, Mesdames C. R. Townsend, of Farmville, a sister of the bride, and A. A. Zollicoffer, of Henderson, a sister of the groom. They wore gowns of orchid velvet, and carried large white chrysanthemums. The next to enter were the groomsmen, Messrs. A. A. Zollicoffer, of Henderson, and David Cooper, of Henderson. Miss Estelle Greene, as maid of honor, entered down the right aisle. She was beautifully gowned in a frock of robin egg blue made of silk net and silver lace, and carried orchid chrysanthemums. Little Neta Lee Townsend, of Farmville, a niece of the bride as ring bearer wore a lovely little dress of white organdie and satin ribbons, and carried the ring in a little basket of flowers. The bride entered on the arm of her father, Mr. R. L. Smith, who gave her in marriage. Always beautiful, she was doubly so in her wedding gown of white satin with court train. Her veil was made in cap effect and caught back with orange blossoms. She carried a bouquet of bride's roses and valley lilies. They were met at the altar by the groom and his best man, and brother, Mr. James W. Cooper, of Henderson. Rev. Lee Sadler, the bride's pastor performed the ceremony, using the impressive ring ceremony.

Miss Smith is the charming and attractive daughter of Mr. and Mrs. R. L. Smith. She is one of Greenville's most popular young ladies, and with her lovable disposition and charming manner has won a host of friends.

Mr. Cooper is a native of Henderson and a son of Mr. and Mrs. John D. Cooper, of that city. He is one of the State's most promising young attorneys. When this county entered the world war, he enlisted and served his country most efficiently. For the past several years he has practiced law in this city, and during the time he has won a host of friends.

They were the recipients of perhaps the most valuable and largest number of bridal presents ever received, in this city. After an extended tour of northern cities, Mr. and Mrs. Cooper will return to this city where they will make their home.

**The Reception.**  
Immediately after the wedding a

brilliant reception was given at the bride's home. The house was a scene of loveliness with the shaded lights, waxen tapers, cut flowers and potted plants. Upon arrival the guests were welcomed by Mr. and Mrs. H. L. Coward, and Col. and Mrs. Harry Skinner. From the front entrance the guests passed into the parlor where they were welcomed by Mr. and Mrs. C. R. Townsend, of Farmville, and Mr. and Mrs. W. H. Smith, and presented to the receiving line in which were Mr. and Mrs. L. G. Cooper, Mr. and Mrs. R. L. Smith, parents of the bride, Mr. and Mrs. John D. Cooper, Sr., of Henderson, the parents of the groom, Mrs. N. E. Smith, the bride's grandmother, Mr. and Mrs. A. A. Zollicoffer, of Henderson, Mr. and Mrs. Geo. B. Cooper, of London, Mr. and Mrs. John D. Cooper, Jr., of Henderson, Mrs. Alex Cooper, Mr. David Cooper, of Henderson, Miss Estelle Greene, Mr. James Cooper, Mr. James Ficklen, Miss Ada Gray Dixon, of Farmville, Messrs. Marshall Cooper, Henry Cooper, Mr. and Mrs. S. P. Cooper, Mr. and Mrs. W. B. Parham, Mr. and Mrs. J. P. Zollicoffer, of Henderson. From the receiving line the guests passed into the library where they were received by Mr. and Mrs. E. G. Flanagan, and Mr. and Mrs. P. T. Anthony. In this room delicious punch was served by Mr. and Mrs. E. B. Ficklen, Mr. and Mrs. N. O. Warren, Mr. and Mrs. J. B. James, Mr. and Mrs. C. L. Porter. The guests passed from the library into the rear hall and were received by Mr. and Mrs. James Hines and Mr. and Mrs. A. M. Moseley. The next room entered was the dining room. In this room the guests were welcomed by Mr. and Mrs. C. O'H. Horne, Mr. and Mrs. Carey Warren, Mr. and Mrs. Mark Quinerly and Mr. and Mrs. H. S. Ragsdale. An ice course was served by Misses Ernestine Forbes, Nell White, Iver Shelburn and Alice Howison. From the dining room the guests passed into the gift room, and were received by Mr. and Mrs. R. Williams, Mr. and Mrs. E. B. Ferguson and Mr. and Mrs. Earl Carter, and were welcomed by Mr. and Mrs. G. B. W. Hadley, Mr. and Mrs. Roy Batchelor and Miss Winnie Skinner. The gifts were beautiful and valuable and showed the popularity of Mr. and Mrs. Cooper. From the gift room the guests passed back into the hall and were shown out by Mr. and Mrs. S. T. White and Mr. and Mrs. Albion Dunn. It was a beautiful reception and one of the most enjoyable events of the season.

**MRS. E. B. FICKLEN ENTERTAINS**

Complimentary to Miss Mary Lee Smith.

Yesterday at her beautiful home on Fifth street, Mrs. E. B. Ficklen most delightfully entertained at a bridge luncheon, complimentary to Miss Mary Smith, who on last evening became the bride of Mr. L. G. Cooper. The house was decorated with potted plants, white roses, white cornations and smilax, carrying out the color scheme of white and green. Five tables for bridge were arranged in the library, parlor and drawing room, and appropriate place cards were used. Upon arrival Mrs. Ficklen, in her usual charming manner, received the guests, and gave them a most cordial welcome. Different little novelties all suggesting that a wedding was near, were given as table prizes, and Miss Smith, the bride-elect, was presented with a miniature bride's bouquet in the center of which she found a set of gold lingerie clasps. After several games were enjoyed a seven course luncheon was served. Each and every course carried out the white and green color scheme, in a most attractive manner. About 20

guests enjoyed the games, and six or eight after the game, guests called. It was indeed a most pleasant occasion and will long be remembered by all present. Before departing the hostess gave to each guest a small bride's slipper filled with rice, and after showering the bride-elect with rice and best wishes, she reluctantly departed.

## Sell At Gorman's

All sales were finished by dinner Wednesday.

Gormans sold until near 1 o'clock.

We sold ..... 114540 pounds for ..... \$81294.69, average \$70.09  
Scrap and com. tob. .... 14090 pounds for ..... 1692.31, average 12.00  
Leaving ..... 100450 pounds for ..... \$79602.38, average 79.24

Prices were strong but at times it took nerve as well as buying to get full values.

With the market as at present, unless judgment is used in starting and then protecting the sale, a seller can lose ten dollars (\$10.00) or more a hundred.

We daddy all tobacco sold on our floor. Bring us your tobacco and you will go home happy with the top of the market.
