PREPARATIONS FOR CONSERVING FUELS CONTINUED TODAY

Action Carried Forward Determinedly in Every Part of the Country.
SEVERAL LARGE CITIES ARE SUFFERING ACUTELY
State Executives Lending Every Effort to Remedy Serious Situation.

Chicago, Dec. 5.—Preparations for conserving fuel supplies went forward today over virtually the entire country as the dwindling coal reserves caused incidental discomfort and disruption of industry.

No immediate relief through a return to work of bituminous miners who went on strike thirty-four days ago was in sight, although the larger coal operators were ready today to submit a new wage scale which it was said would contain more liberal concessions to the miners than the 14 per cent increase proposed by Fuel Administrator Garfield.

Some of the larger cities today for the first time since the walkout were called felt the stress of the situation. From additional cities and towns of the West and Southwest, some of them entirely without fuel, came reports of actual suffering.

In three Nebraska towns fence posts and ear corn was being burned.

State executives continued to bend their energies toward immediately obtaining enough coal to prevent or reduce suffering, leaving solution of the greater question, ending of the strike to Washington officials. Governors of three states, Carey, of Wyoming; McKeivie, of Nebraska, and Shoupe, of Colorado, had as the purpose of a conference today of Denver working out "some plan for a satisfactory distribution of coal."

Despite labor trouble in the New River fields, West Virginia, today continued to be the nation's chief producer of soft coal. Miners in the Fairmont sub-district were expected to return to work immediately, operators saying they had accepted the 14 per cent increase.

In Kansas an appreciable amount of fuel was being brought from the surface mines by volunteers working under protection of state and federal troops. Similar mines in Missouri would be operated by the state, a statement by the governor said unless the miners returned to work under the terms offered them.

BANDITS RAID STORE ON BORDER AND MAKE THEIR ESCAPE

Houston, Tex., Dec. 5.—State officials today received a report of a raid by Mexican bandits on a store near the border in Zapata county. The report said that the owner was bound after which the place was looted, and bandits fled across the border. The report came from a Texas ranger officer.

JACK DEMPSEY TO MEET WINNER OF FAMOUS FIGHT

New Orleans, Dec. 5.—Jack Dempsey is already under a contract to meet in New Orleans the winner of the Deckert-Carpenter fight. The promoter of this city announced today. He added that Nate Lewis of Chicago was acting as his representative due in London today to sign the Carpenter.

REPORTS SAY THAT SUPREME COUNCIL THREATENS GERMANY

London, Dec. 5.—Persistent rumor in stock exchange this morning said that the supreme council of the peace conference had threatened Germany unless final peace terms are agreed to. The allied troops would occupy Essen and Frankfurt, according to official announcement. The fact that field Marshal Wilson has gone to Paris in response to urgent summons to consult Marshal Foch in connection with the peace treaty is "regarded by newspapers as a considerable significance."

STATE FARM SOLD IN AUCTION SALES DURING THURSDAY

State Prison Farm at Halifax Brings \$520,000 After Heavy Buying.
OVER 7000 ACRES OF LAND IN THE PROPERTY
Prominent Men From Many Parts of State Were Present During Sale.

Subdivided into smaller farms and put up at auction the State Prison farm at Tillery, Halifax county, was sold yesterday for a purchase price aggregating \$520,000 for the 7,000 acres of land. The highest price paid per acre was \$150 and the lowest \$40. With the exception of two buyers from Kentucky, all of the purchasers were North Carolinians.

The sale was conducted by Allen Brothers, real estate dealers of Raleigh, and was attended by Governor T. W. Hickett, who made the opening announcement of the sale, and by members of the State Prison board. The event was witnessed by a very large crowd of people, recruited from over the entire state, and was followed with interest. Lieut. Gov. Gardner and Supt. S. J. Collie, were also present.

Decision to sell the farm was brought about when it was determined to abandon agriculture to an extensive scale by State prisoners, and divert their energies to road building. Farm lands have been bought in Wake county that will be utilized for giving work to such prisoners as are unfit for work on roads. This property will be in readiness for occupancy some time during the coming year.

CITY ALDERMEN IN REGULAR MONTHLY SESSION THURSDAY

Number of Important Matters Taken Up at Regular Session Last Night.
The board of aldermen met in their regular monthly session last evening, with the mayor and six aldermen present. After the report of the different committees were read and approved other matters of importance were taken up. The first under consideration was the question of whether tractors, harrows and other sharp instruments shall be allowed to move over the streets of our city. An ordinance was passed which prohibits any person, corporation, or firm to run tractors, harrows or other sharp pointed implements that are sharp enough to cut or in any manner mar or disfigure the asphalt of said streets. If so, the violator will be fined \$10 and costs.

The matter of cloth signs was the next to receive attention. An ordinance was passed stating that it would be unlawful to place paper or cloth signs in front of places of business or on the streets, if they were over a foot square. If this law is violated the penalty shall be \$5 and costs.

It was further passed that it would be unlawful for any one to cut a hole in the pavement of this city, for any purpose, without permission from the mayor and aldermen. In case of emergency, like the bursting of a water pipe, etc., the mayor and street committee can give permission jointly.

A resolution in regards to moving the bodies from the Memorial Baptist church yard to the cemetery was referred to a committee with power to act.

After several other matters of minor importance the meeting adjourned to meet again the first Thursday night in January.

ARGENTINA REGION IS NOW AFFLICTED BY GREAT TRUSTS

Several Commodities of Country Are Under Control of Big Trusts.
COMMITTEE PRODUCES MANY VALUABLE FACTS
Commercial Practices of the Trusts Have Brought About Anxiety.

Buenos Aires, Dec. 5.—A committee of the Chamber of Deputies has discovered after more than a year's investigation that Argentina is afflicted with "trusts." Wine, flour, lime, potatoes, meat, and oil and naptha are described in a recent report of the committee as under the control of "trusts" which have been able to flourish and maintain high prices chiefly because of high protective tariffs or favorable railroad rates, it is charged.

The committee finds that the "most typical trust" in Argentina (the world "trust" is put in question, marks throughout the report) is the "wine trust" in the great grape-growing province of Mendoza on the slopes of the Andes. It is charged that this combination of wine producers is an "official trust" organized by the law of the province which is able to pay the cost of the greater part of its administrative out of "the local privilege created by the monopoly of wine."

Destruction of grapes and wine, exportation of wine at a low price, and maintenance of a high price in Argentina are alleged. The "trust" is able to exist, the report says, by virtue of high customs duties which discourage the importation of ordinary wines and the aid of the national banks. Perform in the administration of the banks.

JOHN D. WILLIAMS FARM TO BE SOLD ON DECEMBER 8TH

Splendid Property Near Grimesland to be Sold at Public Auction.
The John D. Williams farm has been subdivided and will be sold on Monday, Dec. 8th at 10:30 a. m., by the Atlantic Coast Realty Company. This property is located on Pitt county county, Clary and Grimesland Road, 3 1/2 miles of Grimesland, 6 1/2 miles of Pactolus and 7 miles of Washington, N. C. It is some of the most prolific soil in this section of the state. The farm is near good schools, churches, stores and has a good road frontage. The entire farm is practically level. The buildings consist of one main dwelling, 4 tenant houses, six tobacco barns, stables and all other out buildings. Each tract will have a road frontage. All crops such as tobacco, cotton, potatoes and corn can be easily grown in its fertile soil. The advertising campaign is being conducted now and it promises to be a most success sale. Ask Mr. Cobb.

PRESIDENT WILSON COFERS WITH FALL AND HITCHCOCK

Washington, Dec. 5.—President Wilson will see Senators Fall and Hitchcock at two thirty this afternoon to discuss the Mexican situation. Fall announced that immediately after the conference that he would make public the evidence on which he based his charges in the senate that Mexican ambassador and consuls in the United States were circulating "red" propaganda. Fall and Hitchcock were named as a committee yesterday by the senate of foreign relations committee to confer with the President and seek his views on the resolution of Fall requesting the President to sever diplomatic relations with the Mexican government.

INTERNAL REVENUE FUTURE EXPLAINED IN ANNUAL REPORT

Commissioner Roper Gives Estimates of Yields of Present Revenue Law.
SAYS \$6,000,000,000 TO BE RESULT FIRST YEAR
Tobacco Industry Develops into One of Greatest Sources of Revenue

Washington, Dec. 5.—Estimates of \$6,000,000,000 as the yield of the present revenue law for the first twelve months of its operation will be closely approached if not fully realized, Internal Revenue Commissioner Roper said today in his annual report.

Payments of the first two installments, March 15 and June 15, brought into the treasury a total of \$2,600,783,000, Mr. Roper said, while reports already in hand of the third installment payable Sept. 15th, fully support the bureau's estimate.

Commissioner Roper said the tobacco industry had developed into one of the greatest sources of federal revenue. The total receipts from this source alone for the fiscal year ending June 30, 1919, being \$206,000,000, an increase of \$48,500,000 over those of the preceding year.

An enormous increase in the number of cigarettes manufactured was shown by the reports, the total for the last year being approximately eight times larger than in 1911. In that year, 8,500,000,000 cigarettes and 8,000,000 cigars were manufactured, while in the last fiscal year the manufacture of cigarettes had increased to 45,500,000,000 while the number of cigars remained practically stationary.

SCHOLARSHIPS TO PRINCETON SCHOOL ARE MADE PUBLIC

Announcements Concerning Welfare Work of State Discussed in Meeting of Woman's Club of City.
Wilmington, N. C., Dec. 5.—One of the ten scholarships to be established at Princeton University as memorials to her sons killed during the war is to be named in honor of Arthur Blumenthal, 13, whose home was in Blumenthal, N. C. Blumenthal was killed while flying in France. When at Princeton he was a star in the football eleven and popular with his fellows. The scholarship which is to be named in honor of this southerner, with the other 9 to be granted by competitive examinations are open to men from all parts of the country. They will provide for the holder's tuition at Princeton, his traveling expenses and in special cases part of his living expenses. The funds will be accounted as a part of the endowment fund of \$14,325,000 which the university is raising according to an announcement made today by the Chairman Henry B. Thompson, of the Princeton Endowment Fund Committee.

Other heroes for whom scholarships will be named are: Arthur R. Taber, 1917 Princeton, N. J. killed flying in France. Galbraith Ward, 1915, New York, killed in France. Marquand Ward, 1917, New York, killed in action. Harold K. Buckley, 1918, Englewood, N. J. killed in an aeroplane accident in England in the early part of the war. Robert G. Benson, 1916, Passaic, N. J. killed in action. Samuel J. Beld, 1006 Brooklyn, killed in France. James D. Paull, 1917 Pittsburgh, Pa., Varsity crew men killed in an aeroplane accident in France early in the war. James J. Forster, 1911, New York, killed in action. Tingle W. Culbertson, 1911, Sewickley, Pa., killed in action.

AMERICANS THINK TURKEY HAS GOOD FUTURE OUTLOOKS

Plenty of Room for Agricultural Development in Various Districts.
COUNTRY BURDENED BY VAST QUANTITY OF MISINFORMATION MAKES POSITION INSECURE AT PRESENT.

Constantinople, Dec. 5.—Turkey is rarely pictured as a country of business possibilities but rather as the traditional home of graft, politics, massacres, and veiled women.

Yet, according to Americans of some vision who have long been here or others who have come since the close of the war, something may be done with the Turk and a lot with the country in the way of agricultural development, in exploiting marle deposits on the sea of Marmora, coal on the shores of the Black sea and in the Heraklee basin, and copper at Arghana, Maden, and in the interior mountains between Diabekhr and Kharput.

There has been a vast quantity of misinformation circulated about the value of Turkish concessions and members of the American mission headed by General Harbord came to the conclusion that Turkey's greatest wealth lies in her unirrigated, treeless soil, that it would be possible to make her wealthy if she had honest government.

General Harbord, an expert agricultural observer, believes that the American cottonwood would change the gaunt face of Turkey's mountains and valleys.

Turkey's greatest value, however, (Continued on page four.)

A most interesting meeting of the Woman's Club was held on Thursday afternoon in the auditorium of the High School, when Mrs. Clarence Johnson, of Raleigh, and Mr. Marvin Blount of Greenville told of the social and child welfare work of the state and county. North Carolina is one of the pioneer states in the passing of social welfare laws, and the result of those laws is being watched with interest by other states.

One of these laws provides that there shall be in every county of the state a board of public welfare, a superintendent of public welfare, and a juvenile board of public welfare, each of at least one woman. In this board is comprised of Mrs. L. B. Baker, of Greenville; Mr. J. A. Holmes, of Farmville and Mr. G. T. Gardner, of Grifton. The superintendent of public welfare is Mr. Marvin O. Blount, and he is also the chief probation officer of the juvenile court, whose judge is Mr. J. F. Harrington. The duties of the members of the board are to support and co-operate with the superintendent.

LANSING TALKS OF PRESENT RELATION IN MEXICAN CITIES

Strained Relations of United States and Mexico Discussed at Length.
FOREIGN COMMITTEE IS PRESENTED WITH VIEWS
American Ambassador to Mexico Also Presents Committee With Facts

Washington, Dec. 5.—The strained relations between the United States and Mexico were discussed by Secretary Lansing today before the Senate foreign relations committee at a conference which it was said might have an important bearing on the future policy of the American government toward the Carranza regime.

The secretary of state appeared at the request of the committee, which had before it a resolution by Senator Fall, Republican, New Mexico, requesting the President to sever diplomatic relations with Mexico, and a substitute by Senator Hitchcock of Nebraska, the acting administration leader, which would assure the President the support of congress should he decide to break with the Carranza government.

Earlier in the day Henry P. Fletcher, American ambassador to Mexico, had discussed the Mexican situation with the committee, particularly the case of William O. Jenkins, American consular agent at Puebla, who is held in the penitentiary awaiting trial on charges that he gave false evidence concerning his abduction by bandits who held him for \$150,000 ransom.

Members of the committee predicted that a proposal in some form regarding a break with Mexico would be given approval late today or tomorrow and would be brought into the senate for prompt action.

When Secretary Lansing appeared before the committee its members were prepared to ask him to what extent the President had been informed regarding the Mexican situation. At the first session of the committee today Senator Hitchcock had insisted that the President had been of the developments from time to time, quoting Secretary Lansing as his authority. Senator Fall was asked by the committee if he had gained that impression in his conferences with the secretary of state replied that he had not.

Congress will take a hand in the situation under a joint resolution introduced by Senator Fall, republican, New Mexico which today was before the senate foreign relations committee. The resolutions request President Wilson to sever diplomatic relations with Mexico. Senator Fall, in submitting it, declared that evidence against the Mexican government would "astound the world" has been discovered.

The state department has received notice of the official receipt by Carranza of its latest note in the Jenkins case and officials are awaiting a reply with a degree of impatience.

Under the Fall resolution the whole Mexican problem will be presented to congress, where there is considerable sentiment in favor of taking the initiative away from the state department and without waiting for further provocation from Mexico, urging the President to hand over passports to the Mexican ambassador and shut off further diplomatic purely.

What's Bone Dry — What's Not?

Not every storage battery that is called "bone dry" is really shipped and stored in bone-dry condition.

Some have solution put in at the factory, and poured out again before shipment.

Some are shipped with plates dry, and insulation wet.

These batteries are not *bone dry*.

Come in and get straight from us the story of Willard Threaded Rubber Insulation, the only form of insulation that permits of bone-dry shipment and storage of automobile starting, lighting and ignition batteries.

Chicod, N. C., Sept. 25th, 1919.

The John Flanagan Buggy Company,

Greenville, N. C.,

Gentlemen:—

I have your inquiry requesting me to advise you how I like the Fordson Tractor, McKay Disc Plow, Oliver No. 7 and Roderick Lean Harrow which I recently bought from you.

I am pleased to advise you that the Fordson Tractor is every thing you representd it to be. It was not my intention to plant any clover or vetch this fall, but after I bought the Tractor from you it took me such a short while to break up my land and harrow it, I decided to plant my land in winter cover crop.

I have broken up a considerable amount of land and planted some already in winter crop and the Fordson Tractor and equipment bought from you far exceeded my expectations. I have broken up land that has never been turned before, land that had a large amount of vegetation which would have been impossible to turn with any kind of plow drawn by mules.

I am well pleased with the Fordson Tractor and feel I have made a safe investment from a financial standpoint and I also expect to raise my crop with much less expense than I would if I had not bought this outfit.

My advice to every farmer who wants to properly prepare his land so it will be easier for him to attend his crop, is to buy a Fordson Tractor, Plows and Harrows that are sold for this Tractor.

With very kindest regards, I beg to remain,

Yours very truly,

(Signed) J. C. GALLOWAY.

MILLIONS ARE SAVED BY SMALL DEPOSITS

Banks of Country Have Twenty-Seven Hundred Thousand Accounts Figures Announced at Convention Show.

There are 27,000,000 savings bank depositors in the United States, according to figures published at the convention of the American Bankers' Association here. In compiling these figures due allowance was made for duplications. Investigation by the bankers has proved that these saving bank depositors are, with few exceptions, people of small means, but they are the people who absorbed in large measure the war issues of government securities, Thrift and War Savings Stamps, Savings Certificates and Liberty Bonds AND ARE KEEPING THEM.

Not only did they buy and hold government securities, but those investments led to additional savings, consolidated the habit of thrift and increased bank deposits throughout the entire nation. These 27,000,000 depositors now own \$10,573,971,000 of savings.

This is the money which has built up the railroads, municipalities, homes and industries of the nation. These savers financed the war successfully, and on their continuation of the production of new capital, through savings, rests the solution for financing reconstruction and for the increase of production necessary to check the high cost of living, bankers agree.

The government savings securities and Liberty Bonds offer ideal means for the production of this new capital. They are adapted for investment of all sums no matter how great or small. They are the safest security possible. They are profitable and readily convertible into cash should necessity arise.

CHARGE OF THE STAMP BRIGADE.

Just a stamp, just a stamp,
Just a stamp onward;
Into the valley of life
Go many hundred.

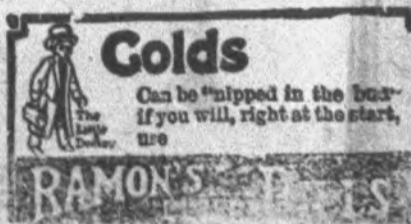

Stormed at by costs and bills,
Boldly they faced their ills,
Bravely cut out all frills,
And bought a hundred.

High cost to right of them, high cost
to left of them,
High cost behind them volleyed and
thundered,
But they kept saving on, just as they
had begun
Till they'd a hundred.

When will the high cost fade?
O, the wild charge they made!
All the world wondered.
So let us fight the scamps
With more War Savings Stamps,
Stamps by the hundred.

The armistice cleared the sea of U-boats but your financial craft can be just as effectively sunk without trace by foolish investment in wild-car stocks. Government securities, War Savings Stamps and Liberty Bonds are safe.

The armistice ended the war but like typhoid, the after effects must be given close care and attention. Wise financial physicians prescribe the strong tonic of thrift and the regular absorption of War Savings

FRIDAY, DEC. 5TH, 1919.

Coal strikes this kind of weather are nearly as severe as money panics in other parts of the year.

Curtailment of coal in Greenville is being realized to no little extent at this time.

Old John Barleycorn has taken a slide that will put him out of commission for the coming years.

If the coal shortage becomes too severe probably the striking miners may feel more like returning to work.

People who do their Christmas shopping now will have an advantage over those waiting later in the month.

News reports says that Argentina is afflicted with "frustrations." The country is not alone in its affliction either.

City merchants, at least many of them, are making a splendid effort in co-operating with orders of the regional coal committees.

When the peace treaty is ratified by the senate without proposed reservations of the Lodge order the American people will feel much better concerning the issue.

The way President Wilson has presented prevailing conditions to the senate suggests that he has been keeping well informed upon all national subjects during his illness.

The Greenville chamber of commerce has established a reputation at home that is very pleasing indeed to those who have watched its activities during the several past months.

Republican members of the senate appear to think their views of the peace treaty will be acceptable to all nations concerned. But, even then, they have a greater sentiment to be reckoned with.

The work of the American Red Cross is doing splendid work in the interest of suffering humanity in the near east. Other organizations of the kind have a mighty high record to perpetuate if they keep pace with the Red Cross workers.

ing of charity or not.
4. To act as chief probation officer. The juvenile court deals with children under 16 years of age who commit offenses against the laws. Hitherto children have been tried, sentenced and associated with adult criminals, and the result has not been a successful reformation. The work of the juvenile court is constructive and remedial. It deals with the neglected, delinquent or dependent child as one not entirely responsible for his actions, investigates home conditions and influences, and puts the child on probation, giving him another chance, under observation and direction of the probation officer to whom he reports, once a week.
(a) Probation does not let the child off lightly, but has power to inflict punishment if he does not "make good." During the first two months of juvenile courts in North Carolina over 400 children were handled in this way. Of 100 superintendents of public welfare in the state 6 are women.
An urgent appeal was made for special or manual training in the public schools for children who are not quite normal, and should not be closely associated with normal children.

AMERICANS THINK

TURKEY HAS GOOD

FUTURE OUTLOOKS

(Continued from page One)

lies in her geographical position, and it is believed that anyone operating on a large scale from Smyrna and Constantinople, in particular, will have three avenues for trade extension, one to the Balkans, one along the Bagdad railway, which the British now control and are investing in heavily, pushing its line beyond Bagdad to the oil fields of Mesopotamia, and on to the Indian Ocean, and a third avenue into the Black Sea countries including south Russia and the rich Caucasus.

G. Bie Ravndal, American commissioner and Consul-General in Constantinople, who has served in Turkey for some twenty years, is impressed with American opportunities in the near east. He says that no matter how the Turkish question be solved by the peace conference, the result is certain to afford sufficient freedom and stability for the economic development which has been so long arrested and which now is on the eve of obeying its momentum. He urges American business men to "be and doing" so that the new American merchant marine may prove it to have been built in vain. Mr. Ravndal also urges American shipping interests to consult American consuls and the American Chamber of Commerce for the Levant in picking agents for their steamship lines.

STATE FARM SOLD IN AUCTION SALES DURING THURSDAY

(Continued from page one.)

The farm was purchased by the State more than a quarter of a century ago, and has been developed into one of the finest plantations in the south. Originally it was owned by the Tillers, a leading family of eastern North Carolina. It lies nine miles along the Pamlico river, a part of it being lower than the river itself, and protected by dykes that were erected by slave hands before the Civil War.

The sale yesterday is said to have been the largest sale of farm property that was ever consummated in North Carolina, both from the point of acreage involved and purchase price paid.

There are 5500 acres under cultivation and the estate was divided into two sections, operated separately. More than 1,200 state prisoners were detained and worked there. The sections of the farm on which was located the home of Captain Christian, one of the superintendents, was sold for \$135,000, and that occupied by Captain Bean for \$120,000.

RURAL CARRIER EXAMINATION.

The United States Civil Service Commission has announced an examination for the county of Pitt, N. C., to be held at Greenville, on January 10, 1920, to fill the position of rural carrier at Ayden, Greenville, Grimesland, Winterville, and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 19177. Admission of women will be limited to the widows of U. S. soldiers, sailors, or marines, and to the wives of U. S. soldiers, sailors, or marines who are physically disqualified for examination by reason of injuries in the line of military duty. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

MUSIC HATH CHARMS FOR DISABLED VETERANS

Many of the disabled veterans who applied to the Federal Board for Vocational Education for retraining express a desire to be given a musical education.

If the applicant has had any previous experience, either instrumental or vocal, and has sufficient education to continue, an expert is called in who gives his opinion. If the expert's report is favorable the veteran gets his opportunity.

Some of the men who have already been granted this training have made some requests of the board which, if complied with, would soon bring financial ruin to the government. One veteran requested that he be furnished with a harp costing twelve hundred dollars, another wanted a grand piano costing fourteen hundred dol-

to furnish him with two hundred and fifty dollar violin.

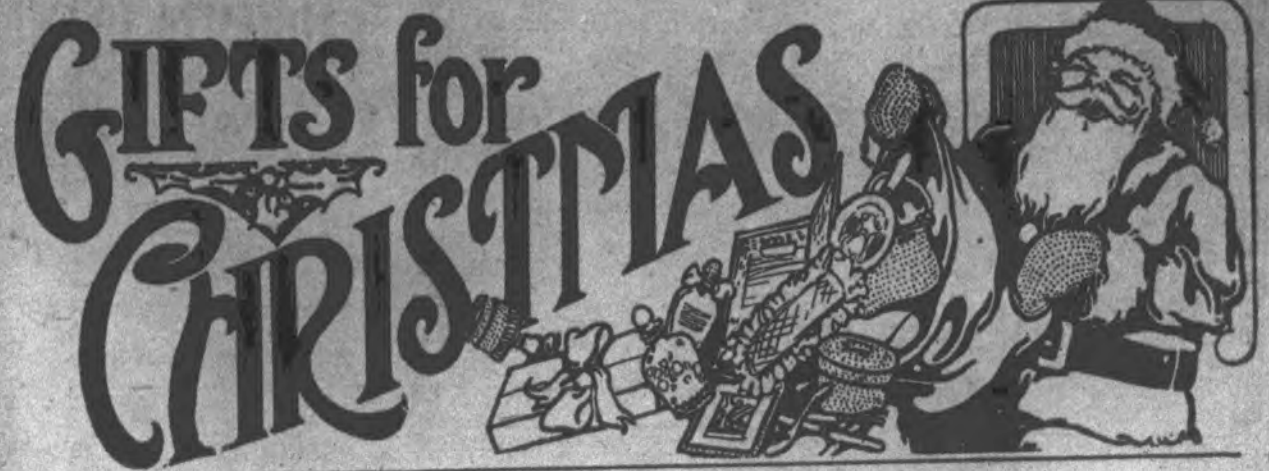

According to an act of congress, the Federal Board is permitted to furnish necessary instruments to complete a musical education but they find it impossible to meet demands for grand pianos, thousand dollar harps and two hundred and fifty dollar violins.

MONDAY, DECEMBER 8th

10:30 A. M.

DESCRIPTION OF THE PROPERTY TO BE OFFERED

John D. Williams farm, subdivided into small acreage tracts located on Pitt County, Clark and Grimesland road, 3 1-2 miles from Grimesland, N. C., & 1-2 miles from Pactolus, N. C., and 7 miles from Washington, N. C. This property is well located, graded schools within three quarter mile, churches within 2 miles, stores and a high school within 3 1-2 miles. Good neighbors close by. That part of the farm to be offered at this sale consists of about 331 acres with a considerable amount cleared and in cultivation. The soil of this farm is good, producing as much per acre as most of the land in this immediate section. The entire property is practically level, well drained, being watered by pumps. On the woods land there is a considerable amount of cord wood. The improvements consist of one main dwelling, four tenant houses, 6 tobacco barns, stables and other necessary outbuildings, all of which are in good condition. These buildings are situated on the public road which this farm faces for quite a distance and each tract to be offered on day of sale will have a road frontage.

Our representative who is advertising this sale and stopping in Grimesland, N. C., will be pleased to accompany you over this farm for a detailed inspection. Let him show you where it will be to your advantage to buy one or more of these tracts. Drop him a card or call him on the 'phone today. Your price will do the buying at the sale on extreme easy terms. By all means meet us on the property MONDAY, DECEMBER 8TH, at 10:30 A. M. and buy one of these small acreage tracts.

MEXICO ENTRUSTS CARRANZA TO END SERIOUS SITUATION

Senate in Secret Session Gives President Power for Forceful Action.

Mexico City, Dec. 4.—The solution of difficulties arising out of international affairs with the United States were entrusted to President Carranza without legislative intrusion by the Senate at a secret session.

Relations with the United States were declared during the session as being "very delicate."

Still Awaiting Word from Mexico.

Washington, Dec. 4.—State department officials were marking time today awaiting word from Mexico of the official delivery of the latest American note to the Mexican government

and the subsequent action inspired by it. The message was garbled in transmission and this delayed its presentation to President Carranza.

In some quarters it was believed that Carranza would order the release of Jenkins soon after receiving the message and prevent a complete break between his government and the United States.

Private advices from Mexico indicated that some of the Mexican officials were not taking the negotiations seriously and felt that it involved only an interchange of diplomatic notes and would result amicably.

Situation Considered Grave.

A different attitude was evident at the state department, however, where the situation was being considered gravely and should Carranza continue to hold out against the American government's request to release American Consul Agent Jenkins without delay, pressure was expected to be brought to bear which would force Mexico to accede to the demands.

SPLENDID SMALL FARMS, EAST SIDE OF WILEY BROWN FARM, SUBDIVIDED, LOCATED ON ROAD FROM GREENVILLE TO RED BANKS, N. C., 1-2 MILES FROM GREENVILLE, N. C.

Thursday, December 11th, 2:30 P. M.

BEAUTIFUL RESIDENTIAL LOTS OF THE B. B. SUGG PROPERTY, SUBDIVIDED, ON FIFTH STREET IN GREENVILLE, N. C.

DESCRIPTION OF THE PROPERTY TO BE OFFERED

On Thursday, December 11th, at 10:30 A. M., some splendid small farms will be offered of the east side of Wiley Brown farm subdivided on road from Greenville to Red Banks, N. C., 1-2 mile from Greenville. This property is well located, being on a good road within 1-2 miles from Greenville, N. C., one of the leading cities of the state and which furnishes all conveniences which the farmer may desire. This farm contains about 100 acres of which about 75 acres are cleared and in a high state of cultivation, the remainder in woods. The cleared portion of this land is especially productive, the soil being of a gray loam top soil with a clay subsoil which produces fine crops of corn, cotton, tobacco, peanuts, wheat, etc. The entire farm is practically level and well drained being watered by wells. Each and every tract to be offered on day of sale will have a road frontage. On the woods land is sufficient cord wood for all farming purposes. Go out and look over these small farms today. Our representative in Greenville, N. C., will be pleased to accompany you over them for a detailed inspection. Your price is going to do the buying at the sale on the extremely easy terms of one-fourth cash, balance 1, 2, 3 and 4 years, so do not hesitate to pick out that part of the property which you desire to purchase and meet us at the sale, THURSDAY, DECEMBER 11TH, AT 10:30 A. M.

At 2:30 P. M., on Thursday, December 11th, the best available residential lots in Greenville, N. C., will be offered. This property is known as the B. B. Sugg subdivision, located on Fifth Street just beyond the railroad, in front of E. B. Ficklen home place. This property is well located, being on one of the best residential streets in the city—only a few blocks to the business section, stores, schools, churches, banks, warehouses, railroad depots, etc. In fact, Greenville furnishes good markets from which to supply your table; excellent schools for your children and in fact, all conveniences which any city of its size affords. The B. B. Sugg property has been subdivided into several high class residential lots, high and dry, with the proper street frontage. Street and sidewalk paved, and these lots furnished by city electric lights, water and sewerage. Why hesitate about buying when you realize that residential lots of the class of these lots are almost unobtainable at any price in this city? Remember, please, every time high class residential property is offered in Greenville and you fail to make a purchase, your chances are lessened just that much of securing a good sight for that future home of yours. Go out and inspect this subdivision today. You will do well to pick out those lots which you like and avoid procrastination longer by purchasing at our sale THURSDAY, DECEMBER 11th, at 2:30 P. M. Easy terms place these splendid home sites within your reach.

ARGENTINA REGION IS NOW AFFLICTED BY GREAT TRUSTS

(Continued)
and in the tariff laws is demanded. The committee names the Standard Oil Company, of the United States, as the "trust" which controls kerosene and naphtha in Argentina. The report sets forth that this "trust" northerner, "can del petroleo" has in Argentina a "powerful subsidiary company, divided in its legal aspect into one section of production, another of marketing and transport."

"The commercial practices of this 'trust' says the report, 'are those of a monopoly which wishes to extend even more and consolidate. There is no proof that the 'trust' has determined upon increasing the price of kerosene and naphtha in the country, but it is certain that its prices represent a relative increase, that is to say, with relation to the cost of production."

Argentina's defense against "this international and almost world-wide monopoly" the committee says, consists of encouraging commerce in and production of all other materials capable of producing light and heat and developing the production of petroleum as a government enterprise "since every private enterprise will be annihilated or absorbed by the 'trust'."

INTERNAL REVENUE - FUTURE EXPLAINED IN ANNUAL REPORT

Mr. Roper, said that probably 50,000,000 gallons of spirituous liquors would remain in bonded warehouses when the constitutional amendment becomes effective January 16. During the year ended June 30, approximately 99,000,000 gallons of distilled liquor were produced from ma-

terials other than fruits, this figure representing a decrease of nearly 75,000,000 gallons from the previous years production.

"Under the law the discretion of the bureau is limited to extending the time for payment of these taxes seven months," Mr. Roper explained. "Serious embarrassment has resulted as to the course of action which should be taken in these cases to protect the interests of the government without imposing undue financial hardships on the taxpayers which presumably were not intended by congress."

The report revealed a menace in illegitimate traffic in drugs between this country and Canada and Mexico. Mr. Roper urged that some temporary arrangement be established which would put a stop to this smuggling.

SAM UNDERWOOD, JR. IN A CRITICAL CONDITION

According to a card which has been received from Supt. S. B. Underwood, his little son, Sam, Jr., who is in the Moore-Herring hospital in Wilson, is in a critical condition.

Several days ago the little fellow had an attack of appendicitis, and was rushed to the hospital, where an operation was performed. Since that time he has improved slowly, never reaching the point where he could be considered out of danger. Yesterday, due to his continued illness he underwent a second operation, and is now in a critical condition.

The statement which appeared yesterday, stating that he was improving was a mistake, as it was based on a misunderstanding.

The people of this city hope for the best, and a speedy recovery is certainly wished for.

Sell At Gorman's

The sales all finished by 3 p. m. Thursday. Today's sale about the same size. Prices were full up with us, several customers telling us they made the best sale of the year.

We sold Thursday..... 90,254 pounds for \$56,938.04, average \$63.09
Scrap and common 15,542 pounds for 1,523.58, average 9.86
Leaving 74,802 pounds for \$55,414.46, average 74.08

Note the scrap and common tobacco cuts our average over \$11.00 per hundred. With the market as at present, unless judgment is used in starting and then protecting the sale, a seller can lose \$10.00 or more a hundred. We "Daddy" all tobacco sold on our floor. Bring us your tobacco and you will go home happy with the top of the market.

We have 2nd sale Monday, 1st sale Tuesday, 3rd sale Wednesday, 2nd sale Thursday and 1st sale Friday.
