Another 188 vessels were engaged in the South American trade; 73 plying to Brazil, 92 to La Plata and 23 to the West Coast of South America.

The total gross revenues for the year were approximately \$500,000,000 as compared with \$80,000,000 for 1918.

Loans to utility companies on housing projects aggregated over \$955,000.

When the armistice was signed the United States had become the leading ship-building nation of the world in tonnage capacity and rapidity of construction.

NOTED PHYSICIANS LEND APPROVAL IN HOSPITAL SUPPORT

George W. Watts, of Durham Writes Secretary of Ad-visibility of Issue.

Mr. Geo. W. Watts, who built Watts Hospital and gave it to Durham County in a recent letter to the chairman of the Hospital Campaign wrote the following paragraph: "I am glad to know that the people of Pitt County contemplate establishing a hospital, and I trust that they will not let up until it is completed."

Dr. James M. Parrott, who is on the staff of the Payrott Memorial Hospital at Kinston, wrote the following paragraph in a letter to the chairman: "I understand that you are endeavoring to build and equip a hospital as a Memorial to Pitt County soldiers. The idea is certainly a fine one and I sincerely trust you will succeed."

Dr. Woodard, surgeon at Moore-Herling Hospital at Wilson, in a conversation with the chairman said: "The Memorial Hospital Idea is fine. It is just the thing that Pitt County needs. I hope the people will build it."

Some of the leaders in the Memorial Community House of Wilson County are eagerly watching the progress of the Memorial Hospital proposition of Pitt.

SPLENDID PLAY IS GIVEN BY TRAINING SCHOOL STUDENTS

"A Christmas Masque" Presented to Faculty and Students Saturday.

COSTUME AND SCENERY PROVED VERY EFFECTIVE

Glittering Christmas Tree Enhanced Brilliance of Various Scenes.

On Saturday evening at the Training School the Lanier Literary Society presented "A Christmas Masque" by Constance Mackay. The guests of the evening were the members of the Poe society and the faculty. This beautiful play is placed in a pleasant home in Denmark, and the costumes on Saturday night were those of the European present. The spirits of Giving, who turn out to be the spirit of Christmas Joy, of Getting, Gluttony, Greed and selfishness added life and variety to the scenes. The glittering Christmas tree and the brightness of the garments of the spirits helped make an attractive scene.

The cast of characters was as follows: Erik, a Danish youth, looking for the spirit of Christmas Joy, Miss Myrtle Rice; Gerda and Karen, his little sisters, Misses Miram Burbage and Lucie Carlton; Preben, the little brother, Miss Kathleen Jones; The mother, Miss Harriett Thomasson; The spirit of Giving, and later the Spirit of Christmas Joy, Miss Irene Dean; Spirit of Getting, Miss Ollie Moore; Spirit of Gluttony, Miss Ozzie Mae; Spirit of Greed, Miss Sarah; Spirit of Selfishness, Miss Sarah; The Voice of the People, Miss Allen Jones; Neighbors, Misses Grizelle Watson, Nannie Lee Eas, Helen Watson, Alice Best, Nora Westmoreland and Aubrey Parker. YANKEE DOODLE IN BERLIN WILL PLAY HERE DURING WEEK

Popular Production to be at White's Theatre Thursday and Friday.

"I will take Europe; the crown prince the Orient and my other boys can use America for golf links," says the All Highest, the Kaiser, in Mack Sennett's delightful satirical comedy, "Yankee Doodle in Berlin," coming to White's Theatre Thursday, Dec. 18 and Friday 19th.

Never before have the pompous ambitions of the Hohenzollerns been so well described as in this five reel comedy satire.

COAL RESTRICTIONS ARE REMOVED IN ALL SECTIONS

Chicago, Dec. 15.—Restrictions on the use of coal were removed today and industry throughout the country approached a normal basis. From nearly all coal fields came reports that fully ninety percent of miners were at work today. Operators said that nothing like normal output will be expected in several days, as it will be necessary to clear away debris which accumulated during the strike. Shipments of newly mined coal started from a few mines and is expected to be in hands of distributors soon.

DINNER TO BE SERVED PROMPTLY AT SIX-THIRTY

Community Spirit Expected to be in Evidence Throughout Occasion.

Promptly at 6:30—dinner will be served and every member who is not there on the minute will miss the first part of the program.

Hon. Robt. N. Page, of Biscoe, an eloquent speaker and a statesman will make an address on this occasion. Mr. Page delivered the commencement address to the graduating class of the Greenville High School two years ago, and all the citizens who heard him then will be exceedingly glad to know that he will be in our town and allow them the privilege of listening to oratory and sound logic once again.

It will be a pleasure to the members of the chamber of commerce to become more closely acquainted with accomplishments of this organization during the last few months. Every member remembers with pleasure the fine community spirit which was displayed at the last quarterly meeting of the chamber. So many fine suggestions were made on that occasion that the men felt like going out and doing some real work for Greenville. As a result of this excellent spirit many things which have been needed here are well enough developed so that our citizens may soon see a few more of their ideas changed into realities.

WAR TIME PROHIBITION HELD CONSTITUTIONAL BY COURT

Washington, Dec. 15.—War time prohibition was held constitutional today by supreme court in a unanimous decision, thus vanishing hopes of many for a wet holiday time. NO EARLY RELIEF FROM HIGH PRICES ARE YET IN VIEW

No Relief Can be Expected Until Social Unrest Becomes Settled.

ECONOMIC MACHINERY MUST BEGIN OPERATION

British Parliamentary Secretary Gives His Opinion on World Situation.

London, Dec. 15.—The world can expect no relief from the present high cost of living and the shortage of commodities until the widespread social and industrial unrest has disappeared and the war shattered economic machinery has been put in order, according to Charles A. McCurdy, Parliamentary Secretary to the Ministry of Food. Mr. McCurdy expressed this view during an interview with a correspondent of the Associated Press, and added that he was not particularly optimistic over the chance of any marked betterment of the situation in the near future.

"We have Bolshevism at one end of the world and widespread strikes at the other," said Mr. McCurdy, "and not until society resumes its normal course can we right economic conditions."

"It is very difficult to prophesy regarding the food situation of the future in view of the fact that the whole economic structure of the world has been so badly dislocated. There is hardly any factor of business that is stable, and we do not know what wages are to be. As a result of these conditions the regular channels of distribution are disorganized and until they are reformed it will be impossible to tell what effective supplies there are as compared with the world stocks."

"While it is true that America, England and some other countries are sufficiently supplied now so that there is no distress among the people, yet this comparative abundance is in reality a fictitious one, and may not last. Great sections of the world are actually hungry because of the impossibility of distributing supplies properly. If the channels of distribution were open and the economic conditions were such that foodstuffs could be purchased by those countries with a shortage in many things.

"For example, if the peoples of Central Europe should be in position next year to purchase the meat they need there would be a world shortage of several million tons. It is improbable that they will be able to buy but it is impossible to predict so far in advance. I believe in a year from now things will have been brought to a head and that the world will be facing its most critical time."

PREPARATIONS UNDER WAY FOR EVACUATION OF FUME

Fume, Dec. 15.—Preparations are under way for the evacuation of Fume by D'Annunzio and occupation of the city by regular Italian troops. Italy is to have complete sovereignty over Fume and all provisions of the treaty of London will be carried out under terms of compact signed by Premier Nitti and D'Annunzio, according to a statement of D'Annunzio's press representative, D'Annunzio, it is declared considers all his ambition which resulted in the capture of Fume to be attained.

FEDERAL ELECTION TO BE HELD DURING DECEMBER

Melbourne, Australia, Dec. 13.—Federal elections will be held in Australia on December 13. No only will a new Commonwealth Parliament be chosen, but the people will pass upon proposed amendments to the constitution empowering the government to deal with monopolies, profiteering and Bolshevism.

The opponents at the polls will be the Nationalists and the Labor Party. The Nationalists are now in power. Their leader is the Prime Minister, William M. Hughes. He is seeking reelection to the house of representatives by his electorate, Bendigo, Victoria.

The campaign has been enlivened by the entry into federal politics of Thos. J. Ryan, until lately Labor premier of the state of Queensland, who is a candidate for election to the house of representatives from a Sydney electorate. If elected it is surmised that ultimately he will become the leader of his party. He is noted in Australia for his sympathy with Ireland, and for efforts by his administration in Queensland to provide cheap meat for the people. These efforts took the form of state butcher shops and state cattle ranches.

Should the Nationalists be kept in power their policy, according to Mr. Hughes, will consist of increased benefits for returned soldiers, anti-profiteering legislation; improved arbitration of industrial disputes; unemployment insurance and tariff revision.

QUINN-MILLER & CO

HON. FRANK LEVER TO ADDRESS COTTON ASSOCIATION

Raleigh, Dec. 13.—Hon. Frank Lever, former congressman from South Carolina, now one of the members of the Farm Loan Board, has wired a confirmation of his tentative acceptance of the invitation to make a speech before the Cotton Association Organization meeting on Wednesday, December 17. Campaign Director S. C. Rubinow has asked Mr. Lever to make the same kind of a speech before the North Carolina meeting that he made in South Carolina on December 2, substituting, of course, the North Carolina figures for those of South Carolina.

Mr. Lever is well known to North Carolina farmers, for he was here last spring, speaking before the farmers convention at the State College. He has also visited North Carolina on numerous other occasions. Few men in the country have more figures and facts at their finger tips, and Mr. Lever is particularly well posted on the economic and social conditions of the Southern farms. Some of the things he has to say in these speeches are not particularly gratifying, nor do they tend to make the average Southern man feel particularly proud of the record of his section economic and social development. But he always has the figures to back up his statements, and the speeches he makes are calculated to make an audience to more real hard thinking than it has been accustomed to doing.

A letter from President J. S. Wannamaker to State Headquarters today brought the information that Mr. Wannamaker had invited Governor Dorsey of Georgia, and Commissioner Brown, of the Department of Agriculture of that State, to also be present for the State meeting. Few Governors in the Southern States have taken the lead in many progressive measures for the economic uplift of the section, than has the governor of Georgia. He has been particularly interested in the organization of the American Cotton Association, and so has the Commissioner of Agriculture of that State. Just as soon as it is found that they can attend the meeting, accepting the invitation of President Wannamaker, places will be arranged in the program for them.

There will be three sessions of the Cotton Association on December 17. The meeting will convene at 10 o'clock in the morning. Post card returns are already coming in from people in all sections of the cotton belt in North Carolina, saying the writers will be present.

THE FORCE IN COTTON PRICES.

Cotton planters and business men throughout the eastern and central districts of North Carolina, as well as the entire south, cannot possibly fail to realize the direct advantage of becoming members of the American Cotton Association which has been waging such an active campaign in this section of the country for the past several months, for its potency and influence in advancing the interest of cotton values under circumstances anything but inviting have been so indisputably in evidence for the past year that even a person unacquainted with conditions of the market, its abnormal state, unlimited latitude for appalling fluctuations and declines, can readily see what the association has accomplished and the splendid future before it with proper support from localities realizing necessity for such operations.

Pitt county, among others of the state, fortunately has taken active interest in the organized movement, and as a consequence, township organizations have been formed with prominent men intensely interested and giving the issue their hearty support. It through such branch organizations each locality that the national division will be enabled to arrange definitely for the ultimate success of cotton production and particularly maintaining equitable price all parts of the year. To do this, however, the state has been called upon to raise a definite sum of money to organize and carry on the work of the institution after it becomes actively engaged in an extension and development of its energies on a much larger scale than formerly, and while naturally some time is going to be required in competition of present plans under consideration, it is only naturally to expect that immediate results will be felt, as has already been displayed.

In referring to its operations in the south and the success which has already been achieved in its early stages this year, the following authenticated article tells in an interesting manner just what will be required of individual business men and farmers in its eventual success. The article follows: "In asking the farmers and business men of the state for approximately \$200,000 to support and carry on the movement and work, the American Cot-

ton Association has asked for only one cent out of every \$1.75 of the fifty million dollars increase in the value of the cotton crop as a result of the Association's efforts during the past year. The \$200,000 asked for North Carolina represents just one cent out of every \$6.12 on the total value of the cotton crop in the State.

"And these figures are extremely conservative, for they are arrived at on a basis of a seven hundred thousand bale crop for the State this year, at a value of only 35 cents per pound. When the Association began work about a year ago, cotton was selling for 25c. Now it is selling for around 40c, leaving a margin of 15c, while the figures were based on a calculation of only ten cents increase, or a saving of only \$35,000,000 to the cotton farmers of the State. As a matter of fact, at the present price of cotton, the saving to the farmers, as a result of the efforts of the Cotton Association, is nearly fifty million dollars. So it will be seen the figures of the first paragraph represent an under estimate rather than an exaggeration.

"There will be those in every community, of course, who will say the Cotton Association had nothing to do with the increase in the price of cotton. The attention of this class is called to the fact that more than a year ago, when the Association began work, cotton was slipping down the scale like a streak of lubricated lightning, and farmers were thinking of the days when folks would have to be begged to buy cotton for ten cents a pound. Since the organization of the Association cotton has been steadily climbing until today it is selling for more than it has ever sold for since the days of the civil war. Even the most skeptical will have to admit that some unusual force has caused this increase in price."

The senate has decided to investigate the Cummins railroad bill as a result of reports suggesting that vast sums of money had been spent in helping to get the measure through. Senator Norris, Republican, called for the probe so there is nothing to expect but some more valuable time thrown away.

The announcement that many women employed by industries during the war have become more efficient than men who formerly held the jobs will make many of the fellows sit up and take notice, and try to give better service when they go to work again.

Senator Knox, of Pennsylvania, has suggested immediate ratification of the peace treaty without acting on the league of nations. It's a pit the league and treaty are inseparable, otherwise the proposal might meet favorable consideration.

Hiram Johnson, Republican Senator from California, has announced his intention of becoming a candidate for Republican nomination for the presidency. This is one time that Hiram has gotten in a race requiring much running.

High prices and bills of small denomination never can agree. Both are ill-favored under such circumstances.

The sugar dish in many homes exists now only as an ornament to the table.

Governor Bickett has just made a ring appeal to people of Burke county in support of Hoey, Ninth district nominee for congress, and of course, he got results for the candidates.

Mexican rebels certainly have a weakness for ransoms. They hold another American citizen with expectation of receiving \$10,000 for his release just as if it were only a custom.

That naturalist who has just predicted a hard winter in this country appears to know what he's talking about, judging by the way the weather man is handling his offerings now.

It's mighty late now for Germany to propose the arrest of the former emperor. The nation would have been better off if this decision had been reached before the war.

Dr. Garfield is of the impression that the principle of the strike settlement is entirely wrong. It may be so, but President Wilson evidently is satisfied just the same.

Presidents of labor unions are advising workmen to use political pressuring appeal to people Burke county just as if political force can be applied in every phase of industry.

If the price of eggs should take a slight decline between now and Christmas many folks would consider it a personal favor.

When congress completes its investigation of the present news print shortage, it may have another publication all its own.

The quick way in which the coal restrictions were removed brought many a smile to unnaturally long faces Saturday morning.

The state's inheritance of the inheritance tax has made many fellows feel perfectly poor.

asked to carry their contributions to school next Thursday or Friday morning. If any parent feels unable to send a nickel apiece, let him send a penny apiece; and others who feel disposed may send dimes or quarters. But the hope is to have every child in North Carolina feel that he has had a part, even if only a penny gift, in the erection of a beautiful memorial to a great man. In after-life, when a boy or girl of today goes to Raleigh and sees the beautiful Aycock memorial, he will be glad to think, "I gave a dime toward it," and even if he never goes to Raleigh he will be a better citizen for having expressed his gratitude to the memory of one who so loved and served the school-children of North Carolina.
It is hoped that no school in the county will fail to observe "Aycock School Improvement Day" next Friday.

Miss Helen Bonson, told the story of "The Christ Child's Birth". Miss Louise Whichard read the story of "Baluska," and Miss Eloise Tarlington told the story of "Little Costella" taken from "Les Miserables". FUEL RESTRICTION IS ORDERED TO BE SUSPENDED TODAY

Suspension of all Restriction in South Ordered by Administration.

Atlanta, Ga., Dec. 13.—Suspension of all restrictions on the use of fuel and reinstatement of train service curtailed during the nation-wide strike of bituminous coal miners was announced here tonight by the Southern regional coal committee acting on authority received from Washington. Bunkering of vessels will be resumed, inland flying vessels being given preference, then coastwise shipping, ships flying the American flag in overseas service and last ships flying foreign flags.

The order suspending fuel restrictions is effective immediately, and trains will be restored at 12:01 a. m. Monday. In cases where resumption of certain passenger train schedules would interfere with movement of coal the trains will not be put back until the situation clears up.

The orders mean that thousands of industries throughout the South which have been shut down because of lack of coal will be in operation in a short time and that stores which had to observe short hours where their light, heat or power came from consumption of coal, wood, or gas may return to normal hours in time to take care of the Christmas shopping. The railroads, too, will be put in a position to take care of the rush of holiday travel.

In issuing its announcement of suspension of fuel restrictions the committee thanked the "people of the south who have observed so loyally" the regulations and at the same time asked that coal still be conserved as much as possible. As a result of the strike the country lost production of between thirty and thirty-five million tons of coal.

One touch of nature keeps the whole world on the lookout for new sensations.

IRISH CLAIMS ARE EARNESTLY URGED BEFORE CONGRESS

Claim of Irish Republic to Recognition as an Independent Considered.

Washington, Dec. 13.—The claim of the Irish republic to recognition as an independent government was brought to congress again today and was debated in militant fashion through an all-day session of the House Committee on Foreign Affairs.

A crowd which jammed the committee room and blocked adjoining corridors punctuated the proceedings with cheers and with hoots of disapproval as the opposing speakers presented their arguments, and many times threw the session into disorder by yelling gratuitous insults to witnesses.

Its supporters declared it presented a opportunity for congress to do all it could constitutionally toward a full diplomatic recognition and its opponents condemned it as an effort to involve the United States in a dangerous foreign situation.

Late in the session charges of pro-Germanism on the part of the country threw the meeting into a furoe which the committee quieted with difficulty after the chairman had warned against insults to any of the witnesses. Interruptions so prolonged the hearing that the committee's plan of concluding today was abandoned, and the arguments will be resumed tomorrow.

Justice Daniel F. Cohalan, of the New York Supreme Court, and Frank P. Walsh, who headed the Irish-American delegation sent to Paris during the peace negotiations, appeared to espouse the cause of Irish freedom and ask for passage of the bill. The arguments in opposition were made by George T. Lemon, of Troy, N. Y., president of the National Federation of Presbyterian Patriotic Societies, and others.

Eamonn de Valera, president of the Irish republican government, who came to Washington yesterday to confer with Irish-American leaders, did not appear at the meeting, but Harry Boland, secretary of the republic's "parliament," sat with Justice Cohalan and Mr. Walsh and frequently advised them in the presentation of their case.

The different church choirs of the town are rehearsing special music program for the coming Christmas tide.
