

TREATY EXCHANGE TO TAKE PLACE IN PARIS ON TUESDAY

Exchange of Ratifications Will be Without Ceremony, It is Announced.

GERMANS HAVE AGREED TO ACCEPT PROTOCOL

Allied Troops Will Proceed to All Territories Not Yet Evacuated.

Paris, Dec. 31.—Exchange of ratifications of the treaty of Versailles will take place January 6 at the Quai d'Orsay. Baron Von Lersner, head of the German delegation and Paul Dutasta, secretary of the peace conference, tonight settled all points in connection with the signature, except that relating to naval material, which is expected will be solved shortly.

The Germans will sign the protocol and at the same time the allies will send a letter to them agreeing to reduce their demands to 400,000 tons if the total available tonnage has been over-estimated of Germany is gravely menaced economically. In any case, after the signature, the allies will get 242,000 tons of material and the balance based on the reports of experts who are now checking up at Danzig, Hamburg and Bremen.

The British prime minister, David Lloyd George, will be present at the ceremony which will be carried out without any display. Diplomatic relations will be resumed the following day when the French charge d'Affaires will go to Berlin and French consuls will resume their posts.

Allied troops will proceed on January 12 to the territories which must be evacuated by the Germans or where plebiscites are to be held. It is estimated that one hundred trains will be needed for this purpose.

It is explained that the supreme Council will satisfy Germany's demand for a more specific declaration on the reduction of the tonnage asked for through affixing to the protocol the text of M. Rutasta's verbal declaration. Baron Von Lersner on the subject.

The Rhineland commission, on which the United States is not as yet represented officially, is expected to meet soon as practicable after the treaty is promulgated. This commission will have jurisdiction over the territory occupied by the allied troops in the Rhineland, including the American contingent.

The allied military mission dealing with the subject of transporting allied troops to the districts where plebiscites are to be held under the treaty reported to the council today that satisfactory arrangements had been made with the Germans for the movement of these forces. It is estimated that it will require two weeks to get into Silesia the number of troops it is proposed to send to that plebiscite area.

Ellis Loring Dressel, an American expert on German affairs, it is understood, will go to Berlin as soon as ratification is exchanged. He will be accompanied by a staff. His mission is here to be a temporary expedient until diplomatic relations with the United States are resumed. He was appointed acting commissioner and charge d'affaires in October.

INTERNATIONALIZATION PLAN TO MOVE SEAT TURK CAPTOL

Paris, Dec. 31.—Internationalization of Constantinople and Straits of Dardanelles probably will be decided upon along lines laid down by Lloyd George in recent speech, according to the Matin. It seems certain, newspapers say, that the seat of the Turkish government will be transferred to Asia Minor and will be located either at Itrous or Konieh. Details of form of international control which will be established over Constantinople has not yet become known.

PLANS PERFECTED FOR REORGANIZING CLUB IN THIS CITY

Members of Carolina Club form Constructive Plans in Meeting Last Night.

AMENDMENTS TO FORMER BY-LAWS ARE ADOPTED

Other Matters Looking to Successful Issue Taken Up During Meeting.

At a well attended and enthusiastic meeting of the Carolina Club last night, plans were perfected looking towards a complete reorganization of the club and the placing of this organization upon a sound financial basis. Many matters of interest to the club were disposed of, and the following amendments to the by-laws were adopted:

- 1. No one who has not reached the age of twenty years shall be eligible for membership in the club.
2. No one who is not a member of the club shall be allowed the privilege of the dance hall of the club, excepting visitors, and those who are not eligible for membership because of their age.
3. The assessment to be levied against each member shall be \$20.
4. The initiation fee shall be \$20.
5. The monthly dues shall be \$2.50.
6. No person not a member of the Carolina Club shall be granted the privilege of using the rooms of the club for the purpose of giving a reception or entertainment for private purposes, provided, that this does not apply to churches and other charitable organizations.

The club as now constituted is on its feet again after a period of uncertainty as to its future existence. From now on the rules of the club shall be strictly enforced, and no one not a member of the club will be allowed any of the privileges of the club. When the contemplated improvements are installed it will be a credit to Greenville.

IMPORTS TO CHILE INCREASING DAILY IN UNITED STATES

Loading of Imports Have Increased Enormously Within the Past Year.

Valparaiso, Dec. 31.—Loading of imports from the United States to Chile have increased enormously in the last four years as shown by figures made public here. In Chilean currency, they were valued in 1915 at 51,064,200 pesos and in 1916 at 203,451,891 pesos, (nominally a Chilean peso equals about 36 1/2 United States cents.)

The increase in imports in the United States has continued in 1919 and they are expected to exceed those of last year.

This growth in business between the two countries is attributed to improvement in banking facilities, better information concerning buyers and credit and the possibility of direct negotiation of drafts instead of by way of Europe.

The leading Chilean merchant states that in the past five years North American business men have adjusted their methods of doing business so as to comply with the requirements of Chilean buyers. At present he said, there are no difficulties worth mentioning in the way of this trade which was developing in a manner satisfactory to buyer and seller.

Buyers, he said, find the products sent to them are in fulfillment of their orders and sellers are satisfied with the dependability of Chilean merchants.

NOTED ORATOR TO SPEAK HERE NEXT THURSDAY EVENING

S. Shemaker, of Indiana, will Speak on Prohibition at Court House.

LAW ENFORCEMENT AND PROHIBITION DISCUSSED

Several Facts Regarding Work of World-Wide Movement Are Suggested.

Mr. E. S. Shemaker, of Indiana, an orator of great power and eloquence will speak at the court house Thursday night at 7:30 on law enforcement and world prohibition. This meeting is for all of Pitt county. No collection will be taken.

The eyes of the world are now turned toward the United States and our great experiment in National Prohibition.

There are seven strategic points on which dry forces expect to concentrate in the immediate future. These places are:

Scotland, Mexico, New Zealand, South America, the Scandinavian countries, Russia, China and Japan. W. E. Johnson is at work in Scotland.

Prohibition efforts already have been made there which the League believes may easily be fanned into flames. Two states in Mexico already are dry, and complete prohibition, in the minds of drys, would have tremendous effect on all the other Latin-American countries.

Scotland votes next year and the drys believe that if it adopts prohibition the whole British empire will follow.

In the Scandinavian countries there has been tremendous prohibition advance. Success of prohibition at the New Zealand polls is held to be assurance that Australia will go dry. Adoption of local option in South Africa would, dry leaders say, pave the way for prohibition all over the continent.

China is under prohibition, and its continuance and enforcement would set the Balkans favorably. A successful fight against the liquor traffic in Japan would, League men assert, set a standard shortly to be adopted by China and the entire Orient.

SAYS CHILDREN OF EUROPE STARVING BY THE THOUSAND

Former Consul to Saxony Gives Description of Situation in Section.

Philadelphia, Dec. 31.—Sidney Rich, formerly United States consul at Chemnitz, Saxony, who lately returned from a five months tour of Austria, Hungary and Germany, says children are starving by thousands in Europe.

What he had seen of the reconstruction and relief work done by Americans made him proud of being an American, Mr. Rich added. He urged that the United States give moral support to the German government in its effort to down the "red" element in that country.

"In German cities I have seen crowds about grocery store windows," said Mr. Rich, "where under glass cases American food was placed on view as a curiosity. People will obtain rations on food cards and get a quarter pound of rice or coffee once every two weeks."

VESTOR IS ARRESTED ON CHARGE MURDERING BROWN

GRAVE RECORDS IN FRANCE ARE BEING CAREFULLY LISTED

American Army Officers Re-checking Lists So Bodies Can be Identified.

EARLY 70,000 BOYS OF AMERICA INCLUDED

Enormous Loss of Nation shown by Thousands of Graves in Eleven Districts.

Paris, Dec. 31.—American army officers believe very few unidentified bodies will lie among America's soldiers dead in France when the army graves registration service completes thorough rechecking of records now in progress. Every grave record is being checked against the army's casualty list. Each little white cross or six pointed star over the Jews—is having an embossed aluminum strip placed on the back, duplicating the name, rank and organization already painted on the marker. This is being done as a precaution against the possibility of winter weather wearing away the pencilled information.

Nearly 70,000 American boys are buried in the eleven districts of France—the Belgian battlefields and the Duchy of Luxembourg. There are 38 cemeteries of 300 or more graves, cared for by discharged soldiers. The largest of these is Romagne, north of Verdun where lie 23,000 of our men. The next in size is that at Tricourt with 4,500 graves. Many of those who fell in battle are sleeping in British and French military or the French communal cemeteries. A few were left where they were first put in the ground as in the Vosges mountains.

All graves are under the care of the commanding Graves officer in the eleven districts and a care taken watches them. Officers make periodic inspection. Where practical, grass has been sown on the battle burying grounds and in the spring this work, previously hampered by the task of grouping the bodies, will be carried on.

When the present Graves Service Administration took over headquarters in Paris in August the records were found to contain a list of 12,000 names

OUTSIDER CHARGED WITH ASSISTING IN LYNCHING SCRAPE

Witnesses at Franklinton Implicate New York Traveling Salesman.

Louisburg, Dec. 31.—Invading the domain of Franklin county territory for the second time in an effort to learn the identity of the men who lynched Powell Green, slayer of R. H. Brown, at Franklinton last Saturday night, Solicitor Herbert E. Norris today secured the first real clue with which he expects to implicate members of the mob that figured in the crime.

As a result of the resumption of the coroner's inquest yesterday it developed that William Haynsworth, a New Yorker, who had been lingering in Franklinton several days, is now wanted by the officials. A search for the stranger was immediately ordered by Solicitor Norris for his appearance before the coroner's jury. That Haynsworth was active in securing the rope used by the mob after the negro's dead body was cut from the tree and, it is believed, can give more information on what took place on the road to Raleigh has not yet been divulged was brought to light in the examination of witnesses.

Besides being identified as the man who seized the rope and placed it in automobile, Haynsworth was connected with Green's garage in Franklinton, located near the mayor's office where Chief Winston and his deputies (Continued on page two.)

GLENN COMMENDS SPLENDID EFFORTS AGAINST WHISKEY

Governor Glenn Writes State Headquarters Regarding Prohibition.

WOULD LIKE TO ENTER SPEECH-MAKING DRIVE

Mass of State Shows that Only 59 Sheriffs Are Combatting Traffic.

Greensboro, N. C., Dec. 31.—Among the many letters being received here at headquarters of the North Carolina Home Law Enforcement Movement is one of Dec. 27, from Ex-Governor Robert Glenn, from his sick bed in Winston. He writes director, C. H. Mebane that he wished his physical condition would permit him to campaign the state for this cause, but since he could not take an active part now as in the campaign in 1908 in making the state dry, and later in the National campaign, he was gladly going to contribute to the cause when called upon. Concluding he says: "The more I read the papers and learn of the great number of blockade stills in North Carolina, and their deadly work with poisoned output, the more I am convinced that your movement is timely. I don't like to have my state held up by Commissioner of Internal Revenue Roper as the worst for blockading. It's bad advertising. Let us sweep around our own doors. Destroy the liquor business, root and branch and give to other nations a model. I want to see state laws made stronger and punishment adequate to stop the offense of peddling or manufacturing these now actually dangerous concoctions, as deadly as diluted strychnine."

Col. T. H. Vanderford, Federal Director in North Carolina of prohibition law enforcement, while here Saturday, imparted the information that a careful canvass of the 100 counties of the state resulted in establishing the fact 59 of them had sheriffs who were conscientiously trying to enforce the law, and were rendering cheerful aid to the federal agents. Among these 59, he said he was glad to include his own county, Rowan, and

HOUSING SITUATION GETTING CRITICAL THRU CHARLESTON

City is Facing One of the Most Acute Shortages Reported in Many Years.

Charleston, W. Va., Dec. 31.—Housing conditions in and around this city have become so acute that a corporation, with a capital of \$500,000 has been formed by the Chambers of Commerce of Charleston, South Charleston and St. Albans to provide homes for 1,500 additional federal employees. These men will be employed in the government ordnance factory, now under course of construction here, and will be in need of shelter in the early spring. Every house in the three communities is now occupied.

The St. Albans Chamber of Commerce has arranged to take \$100,000 of the stock. The announced purpose of the company is to buy materials in large quantities and to let contracts for houses in such number as to bring the cost to the minimum in order that they may be sold at reasonable prices.

PRESIDENT NOT TO CALL MEETING OF LEAGUE COUNCILS

United States Will Not Take Part in Meeting Because of Treaty Issue.

ASSEMBLY NOT TO MEET AS EXPECTED, IN FUTURE

Treaty Compromise has Reached More Formal Stage, So It is Believed.

Washington, Dec. 31.—President Wilson has not been invited to call the first meeting of the council of the league nations after ratification of the treaty of Versailles has been completed, State Department officials said today.

There was a suggestion some time ago that the invitation be extended to him, but the question was not determined at that time. Some administration officials believe he would acquiesce in the request from the allied powers, but the United States will have no part in the meeting of the council by reason of the fact that the treaty has not been ratified by the Senate.

The treaty provides that the first meeting of the assembly of the league shall be called by the President, but the assembly is not expected to meet in the immediate future. The council, however, must assemble within a fortnight after ratification is completed at Paris as the carrying out of some provisions of the treaty are entrusted to it.

Peace treaty compromise talk reached a more formal stage today when Senator McNairy, of Oregon, a leader of the mild reservation Republicans, discussed various compromise suggestions with Senator Hitchcock, of Nebraska, the acting Democratic leader.

It was said that although no agreement came out of the conference, the conversation took a hopeful turn. Afterward both Senators seemed confident that a middle ground could be found that would insure ratification in the year.

The reservation in the majority program dealing with Section Ten, Shantung and voting power in the League of Nations, it was said, were discussed.

During the day Senator Hitchcock, by a number of other Senators, and Senator Swanson, of Virginia, a Democrat of the Foreign Relations committee was present during a part of the talk with Senator McNairy. Later McNairy conferred with several of the Republican side.

STATE COLLEGE SUFFERS HEAVY LOSS BY FIRE

Raleigh, Dec. 31.—Fire starting in the southeast end of the Mechanical building at the State College in West Raleigh about 11 o'clock this morning caused damage to building and equipment estimated at seventy-five thousand dollars, partly covered by insurance. The wood shop and mechanical factory and one recreation hall were completely destroyed but machine shops, and foundry located at other end of the building were saved. The fire is believed to have started from shavings near the woodshop.

QUESTION NO. 10.

What Pitt county newspaper has for thirty-eight years, on the closing day of each year, admonished its readers to pause long enough in the race to "take stock" of themselves, count the many blessings the closing year had brought them by God's goodness; and forgetting the trials and difficulties that also had come in their way, turn to the new year with bright faces resolved to make it better than the past? Ask yourself.

Frequently repeated resolutions will come into being tomorrow.

If the former Kaiser of Germany wants a fence around his palace, that's his business.

No! pros proceedings in whiskey cases generally fill the judge's empty bottle for one more time.

Maybe some of the recently divorced females may have an opportunity of trying their fortunes next year.

Just as long as the Bolshevik confines his efforts to Russia we have no objections to his operations.

Lukewarm democrats who vote the Republican ticket claim to be a member of the party just the same.

That wood alcohol in whiskey evidently takes the "kick" out of the beverage for recent tetotal abstainers.

Many an old bachelor anticipates the coming of new year with dread, while old maids are preparing to take a leap.

People who have been playing with reconstruction problems may find it wise to get down to business beginning tomorrow.

If General Pershing had the American Legion behind him there would be little doubt about future prospects for the presidency.

Some men have asked how editors and newspaper managers eat without paying. Probably it would be advisable to ask the editor.

General Woods has established his presidential campaign headquarters in Chicago. Wonder when he contemplates evacuation.

Maj. Charles M. Morehead will be a candidate to succeed himself as congressman. Fine! — Raleigh Times. Wonder who the guy thinks he is talking about.

Those railroad machinists who threaten immediate walkout if the Cummins railroad bill passes successfully may yet find it to their advantage to reconsider.

The consumer who gets through the present season of high prices without selling his overcoat or pawning a cherished watch certainly will be one of fortune's blessed.

The county engineer and highway commission are making every effort to get Pitt county's hard surface roads under way as early as possible. While the recent bids for construction were rejected because they were deemed too high, it does not mean that the effort to get the work started soon has slackened at all. Pitt county is going to have good highways, and will bless the day that they come.

WHY NOT CHOWAN COLLEGE?

Now that authorities of Chowan College have definitely decided to move that institution to some city in this section of the state affording greater opportunities and possibilities than its present location in Murfreesboro, we believe it will be directly to the advantage of Greenville business men to immediately make some attractive offer to have the school established in this city before some other town wins out through greater liberality. The chamber of commerce brought the matter to the attention of the public some time ago, but for some reason or other, very little has been done so far that will have the slightest tendency of inducing the college to consider the city more than in a general, uninterested way.

Greenville for several past years has been gradually coming to the front as one of the leading educational centers of the state, and since the establishment of the East Carolina Teachers Training School its recognition as a city with great educational possibilities has been heralded in many parts of the country, and consequently, the schools are rapidly becoming some of the foremost of the state. These facts evidently have attracted officers of Chowan College, for shortly after it was announced the school would be moved, Greenville was among the first cities chosen for consideration, as a desirable location, although its offers to the school must favorably compare with other places under consideration.

Greenville can easily get Chowan College. But it is up to business and professional men interested in the city's future welfare before such will become possible. The town has everything necessary for making the institution a splendid success, and more than that, for there are hundreds of devoted members of the Baptist church in this immediate section who gladly could exert every influence for constant and uninterrupted development of the denominational school. Chowan College could be nothing more than everything hoped for by its officers if established here, but as reiterated and reiterated time and again, public-spirited citizens of the city and county must use their influence in providing offers that will compare favorably with any presented by other localities. Greenville needs the college and the college needs Greenville, therefore, it is indisputably plain that a favorable conclusion may be reached in the issue by representatives of school and city getting together and coming to some definite agreement.

Never has Greenville had a greater opportunity of increasing its educational facilities than is now offered it, and it is to be hoped public organizations such as the chamber of commerce and merchants association will lose little time in using their prestige in more fully convincing Chowan authorities that the town really wants the school and is ready and willing to offer every advantage within the bounds of business policy. Immediate action is necessary because other cities are anxious to have the school as this year and are going to do everything possible in getting it. The final issue now rests upon the shoulders of both business men and educators. Let's watch the outcome.

NEW YEAR GREETING

The Sunday school of the Jarvis Memorial Methodist church cordially invites and urges each and every member of the Sunday school to come to the Sunday school rooms, Thursday afternoon, 4:45 o'clock to greet the New Year, and have a good time. Come Baracas, Philatheas, members of the Home Department and Cradle Roll, Seniors, Intermediates, Juniors and members of the primary and beginners' departments! Come, join in the songs, listen to the stories, meet happy new year, welcome your new Sunday school superintendent and get your gift from the tree.

WOMAN'S CLUB.

The regular monthly meeting of the Woman's Club will not be held this Thursday, having been postponed in favor of the social meeting. The members of the Club will please watch the "where and when" of this meeting, as it is urged that every member be present and meet every other member, watch for the date.

POSTOFFICE WILL HAVE NEW YEAR HOLIDAY ON THURSDAY

The local postoffice has handled such immense mails during the holiday season that the employees had scarcely an opportunity for rest or recreation. While Christmas day was a legal holiday, they put in practically a full day's work in order that patrons might have their Christmas mail and parcels. On Thursday, new year's day, as many of the employees as can be spared will be given a full holiday. There will be no service that day on either the rural or city delivery routes but the general delivery window will be open from 11 A. M. to 1 P. M. so that patrons usually served by the carrier may call for their daily papers or other mail if desired. Incoming mails will be distributed in the lock boxes and dispatches made as usual, all other work being suspended for the day.

TWO GROUPS PACIFIC ISLANDS STUDIED BY ROUND TABLE CLUB

The last two meetings of the Round Table Club have been devoted to the study of two groups of islands in the Pacific Ocean, the Hawaiian and the Philippine groups. After the business of the meeting on December 18th, which was held at the home of Mrs. J. T. Moye, Mrs. Lina Baker told most interestingly of the climate, the unique flora, the long-standing Protestant faith of the people of the Hawaiian Islands. In the absence of Mrs. Fulford, she also told something of the history of the group, the whole having the effect of making all her hearers desire to visit that delightful spot at once. While Hawaiian music was played upon the Victrola a delicious salad course was served.

The fact that real estate values continue to advance without interruption in this city is set forth in a convincing manner through the sale of a lot of the Captain J. J. Laughinghouse property, which was recently purchased by Mr. Jesse Wingate for \$8,200 who yesterday sold the same lot to Mr. Fred Forbes for \$9,000, the sale netting Mr. Wingate the splendid gain of \$800. The sale of the Laughinghouse property was conducted by the Atlantic Coast Realty Company during the early part of this month, and since that time the prop-

erty has advanced to no little extent as set forth in the sale of this one lot.

NOTED ORATOR TO SPEAK HERE NEXT THURSDAY EVENING

(Continued from page 12e.) ready have spent and are spending millions of dollars in the construction of distilleries and breweries to delude the Chinese people, so recently saved from the opium blight. Missionaries in China declare that work will be nullified if this is to go on. Efforts are already being made to prevent the American traffic in China by invoking Federal laws governing exports, but a broader fight is being made to combat the millions being spent by the exiled American li- or sellers. I took a quarter of a century of organized effort to make the United States the wealthiest and greatest nation in the world, dry by law, but with impetus gained and now operating can make the world bone dry by 1930. But it means relentless, practical warfare on the liquor traffic, and that will require time and money. The Southeastern states, leaders in prohibition, will not fail to contribute share to this prohibition enforcement campaign fund.

HAVE RECORDS IN FRANCE ARE BEING CAREFULLY LISTED

(Continued from page one.) of men buried but without giving the exact location of the grave. The present check includes the compilation of a complete directory of every American grave. In the first 18,000 graves recorded a fourth of these unlocated ones were found and properly marked. Inspection of battlefield burying grounds have been the slowest but the American officers said they expected the work when finished would leave few of those tragic mounds where in would live American soldiers' names unknown.

DUNN COMMENDS SPLENDID EFFORTS AGAINST WHISKEY

(Continued from page 12e.) Guilford county. Speaking of Guilford's sheriff, David B. Stafford, he declared he was the finest sort of material for Federal supervisory work. Col. Vanderford did not mention any other county now, especially was he silent when certain counties were asked about. But he is going to publish an honor roll about January 16, the "great day," and in this way the derelict officers will become known inferentially, and it will be up to their constituency as to whether they intend to have laws enforced or not. He said the recent drive of Federal and county officials, before Christmas resulted in rounding up a large number of blockaders, and the destruction of many stills. "But" he says, "when you consider that from long experience revenue officials estimate that for every one found and destroyed, there are nine undiscovered, you can get the idea of the extent of lawlessness in this state. "Everybody should join a crusade against such conditions of lawlessness in this state," he declared. "It is due to general apathy on the part of the splendid forces, religious, social and civic which won the fight for prohibition ten years ago." "I have not yet rallied to my call, made a month ago, so far as I can see, to hold up the hands of officials, state or federal when they came in their communities to enforce the law, that is, any places have not done so, and I have given me the encouragement and hoped for."
