

## TREATY SENT BACK TO SENATE FLOOR FOR MORE TALKING

Irreconcilables Win Out in Clash With Senator Lodge for Reservations.

NO AGREEMENTS APPEAR POSSIBLE AT PRESENT

Democrats Are Going to Accept Gauntlet Thrown Down by Lodge Party.

Washington, Jan. 27.—The irreconcilables won in their clash with Senator Lodge over the peace treaty, and the Senator, through an ultimatum delivered to the Democratic conferees this morning, put a dampener on the hopes of the mild reservationists of his political faith. There is no agreement possible on the reservation to article Ten or on the one affecting the Monroe doctrine, the Republican leader says.

The Democrats are going to accept the gauntlet he throws down and, according to plans that were considered this afternoon, offer the reservations to the Senate tomorrow, which had been virtually agreed upon in the bipartisan conference. One of these reservations was drafted by Senator Simmons, dealing with Article Ten, and leaves to congress the preservation of "territorial integrity" so far as this guarantee requires American troops.

Senator Simmons believes there is yet hope for the treaty. He is a little disappointed that the irreconcilables kept Senator Lodge from the compromise which was almost in the hands of the Democrats. His prediction tonight is that the friends of the treaty on both sides will be able to carry a set of reservations through that will mean ratification.

"Senator Lodge informed us at the conference this morning that he would be unable to agree on anything that involved a change in the reservation to Article Ten or the Monroe doctrine," Senator Simmons said. "We had practically reached an agreement on everything else. Both these reservations, Senator Lodge said, must go as written by him.

"We had just about reached a conclusion on Article Ten when the conference adjourned Friday evening, based on a reservation drawn by myself. Under the terms of this reservation the United States would preserve the guarantees to the other nations, but would assume no obligation to employ its armed or naval forces without the consent of congress."

Senator Simmons does not feel that the ultimatum delivered to the conference committee this morning is necessarily the end of the treaty fight.

"The fate of the treaty is in the hands of the Senators who want a treaty of some kind," he said, "negotiating that the Lodge ultimatum is a reflection of the sentiment of the irreconcilables and not of the mild reservationists. Senators Borah, Johnson and Reed are not willing to have the reservation otasncughtavesetofgnoofdm reservations changed in any way that might lead to ratification."

Asked as to the next move of the conference, Senator Simmons said:

"We are going to have another meeting tomorrow morning. Senator Lodge does not think the mild reservationists will agree to the modification of Article Ten. We think they will and shall test it out by submitting to the friends of the treaty on both sides the treaty with such reservations as we had about agreed upon in conference."

## BANDIT PAYS FULL PRICE IN ELECTRIC CHAIR DURING DAY

Gordon Hamby, New York Bandit, Executed in New York City Today

WAS EXTRADITED FROM WASHINGTON RECENTLY

Foiled Police in California for Several Months, According to Statement.

Ossining, N. Y., Jan. 27.—Gordon Fawcett Hamby, the bandit who today expiated his crimes in the death chair, was arrested in Tacoma, Wash., last June under the name of "Jay B. Allen," after killing a man there in a revolver fight. He was later identified as one of the two robbers who, on December 23, 1918, held up the East Brooklyn Savings Bank and, after killing two of its employees, escaped in an automobile with \$13,000.

Extradited to New York and tried for this crime Hamby stood revealed as a self-confessed participant in the robbery of thirteen banks and two trains and many killings. He steadily refused to tell anything about his family. He said he preferred to be known as "Alan" and that he was born in 1892 in Alberta, Canada. He declared his parents were dead and that he had two brothers whom he had not seen for five years. He said he was a college graduate and had specialized in psychology.

After Hamby's conviction here, his attorney, against the prisoner's wishes, appealed his case. He obtained the

## COMMITTEE WANTS TO COMPEL YOUTH TO TAKE TRAINING

Senate Military Committee Approves Provisions for Compulsory Service.

Washington, Jan. 27.—By a vote of 9 to 5, the senate military committee today approved provisions providing for compulsory military training for boys between 18 and 21 years inclusive and ordered a favorable report on the army reorganization bill.

The compulsory military training provision which fixes the training period at four months, was opposed in the committee by Senators Lenroot, Wisconsin, and Capper, Kansas, Republicans, and Senators McKellar, of Tennessee; Sheppard of Texas, and Kirby of Arkansas, Democrats. Senators Wadsworth, New York, Warren, Wyoming, Sutherland, West Virginia, New, Indiana, Frelinghuysen, New Jersey, Knox, Pennsylvania, and Spencer, Missouri, Republicans and Chamberlain, Oregon, and Thomas, Colorado, Democrats, supported it. Senator McKellar announced that he would submit a minority report in which a number of the Senators who opposed the plan are expected to concur.

As finally agreed upon, the bill is virtually the same as reported by the sub-committee, but is radically different from the reorganization bill submitted by the War Department to Congress. In addition to establishing a compulsory military training, the bill provides for one army to be divided into a citizen army composed of men who have received the compulsory training, a standing army consisting of 280,000 enlisted men and 18,000 officers, and a National Guard.

Specific provision is made in the bill that the citizen army cannot be called to the colors except in case of a declaration of war. To accommodate the reserve force built up under the system of military training, provision is made in the bill for an annual reduction of five per cent in the enlisted strength of the regular army and two per cent in the number of enlisted officers for the first five years.

## BICKETT PARDONS SURRY COUNTY MAN DURING THIS WEEK

Zel Phillips Pardoned for Criminal Assault Which he Didn't Commit.

CHARGED WITH ILLICIT RELATIONS WITH WOMAN

Case Has Been Considered for Past Two Years Before Innocence Known.

Raleigh, Jan. 27.—After almost a year's imprisonment for a crime he did not commit, Zel Phillips, of Surry county, was pardoned by Governor Bickett yesterday. Phillips was convicted in February, 1919, of illicit relations with a young woman and was sentenced to two years on the public roads of Rockingham county.

Since the trial, according to the reasons given by Governor Bickett for the pardon, two competent physicians have certified to the governor that the woman in the case is entirely virtuous.

"All the evidence in the case tend to show," said the governor, "that this was a case based on malice and that a perfectly good man and a virtuous woman have been greatly wronged. I may add that practically every honest, decent person in the neighborhood where this offense is alleged to have taken place have written me that in their opinion these parties are absolutely innocent. A full and unconditional pardon is therefore granted Zel Phillips."

## NEW RAILROAD TO BE CONSTRUCTED IN NEW YORK SECTION

Officials Propose Construction of \$20,000,000 Road in the Future.

RAILWAY TO BE USED AS CLEARING HOUSE

Railroad Line Will Extend from New York State to Parts New Jersey.

New York, Jan. 27.—A \$20,000,000 connecting railroad, to act as a clearing house for the freight cars of half a dozen roads entering or passing through the port of New York from both sides of the Hudson river, is proposed by the New York and New Jersey Port Commission. The road is to link up trunk lines terminating on the New Jersey shore and those on the New York side of the Hudson at Piermont, N. Y.

The scheme is said to be part of a general plan of changes to enable the port of New York to hold and facilitate the handling of commerce passing through here, for which Boston, Philadelphia and southern ports are reaching. Railroad men are said to be agreed that the connection will save the trunk lines money far in excess of interest on its cost and operating expenses.

The proposed railroad will extend from Piermont, near Nyack, N. Y., to Elizabeth, N. J., on Newark Bay. It will intercept six branches of the Erie Railroad, the West Shore Railroad, the Delaware, Lackawanna and Western and its subsidiary the Morris and Essex Railroad, the Lehigh Valley Railroad, the Pennsylvania Railroad, the Central Railroad of New Jersey and Baltimore and Ohio Railroad.

It will be 45 miles in length, double tracked and at each junction with an existing railroad will be a railroad yard for the exchange of freight cars. It is proposed that each existing railroad take a proportionate share of the capital stock of the proposed connecting road.

## FOREIGN VESSELS ARE NOT TO SEAL SHIPPED LIQUORS

Orders Requiring Vessels to Seal Whiskeys Have Been Suspended.

Washington, Jan. 27.—Orders requiring liquors on foreign vessels to be sealed while the ships are in United States ports have been suspended pending a ruling by the Attorney General, Assistant Secretary of the Treasury Shouse announced today.

While the Attorney General has not yet rendered an opinion, the action of Assistant Secretary Shouse was regarded here as indicating that the export ban on liquors on foreign ships will be lifted permanently.

The treasury decision rendered some weeks ago under which it was held that when a foreign vessel reached the three mile limit all liquors aboard should be sealed and remain sealed until leaving port was based on an opinion by the solicitor of the treasury department, department by the Italian government. A formal protest was made to the state it being stated, among other representations that wine was a part of the regular ration of the ship's crew. Other governments are understood to have made informal protests and the matter was then referred to the Attorney General.

## WHISKEY TRAFFIC CLAIMS ATTENTION IN WEST VIRGINIA

Manufacture and Sale of Moonshine Liquor Continues Extensively.

PROHIBITION OFFICERS WATCHING TERRITORIES

Officers in Many Sections Have Met With Determined Resistance from Men.

Charlestown, W. Va., Jan. 27.—The manufacture and sale of moonshine whiskey in the mountains of Southern West Virginia is claiming the close attention of W. S. Hallaman, prohibition commissioner, who with a large force of deputies continues to raid and arrest almost weekly.

There have been times in the last few weeks when the officers have met determined resistance, and already two men, Preston Mullens, an alleged moonshiner, and John D. Kennedy, a deputy sheriff, have lost their lives in the campaign.

This fight, the most serious in recent years, occurred in the Panther Creek section of McDowell county, on the Virginia border. Panther Creek, the prohibition authorities say, is one of the most active moonshining districts in state. There, according to Mr. Hallaman, have been gathered some of the most famous manufacturers of moonshine from Buchanan county, Virginia. They know all that is to be known about the industry, and some of them are famed for the qualities of their "corn liquors." Usually their stills are extremely difficult to locate, but gradually the prohibition officers are hunting them out and destroying them.

There is another kind of moonshiner in that section who is giving the officers much trouble. He makes his moonshine as quickly as possible, markets it with the least delay, and then moves his still to some other place.

The country is mountainous and rough with many fertile valleys. These valleys, the commissioner has discovered, were this year used to a large extent for the growing of sugar cane.

## DR. R. T. VANN IN SERVICES IN CITY THE PAST SUNDAY

Vesper Services at Training School Conducted by Visitor During Evening

The Y. W. C. A. at the Training School was very fortunate in having Dr. R. T. Vann to conduct their Vesper services last Sunday evening. He read part of Christ's sermon on the Mount as a scripture lesson. His subject was: "Taking Care of Your Eyes." He called Christ the great optician and gave his prescription for taking care of the spiritual eye, conscience. He gave conscience as the one point of contact between God and Man, and conscience he defined as the power to discern right from wrong. As the human eye is destroyed by neglect and abuse, so is the spiritual eye. He showed how the seeing mind and spirit see through the human eye. One sees the beauty in things around him, while another sees the hideous or sees nothing. He spoke of the wonderful power God has given normal human beings to be used, and developed. Among these none is greater than the sense of sight, but it is frequently not fully appreciated. He gave Helen Keller as an example of one who, though lacking the two senses that mean most to people, has learned to make for the loss, because she learned to see with the spiritual eye.

He begged the young women to care for the spiritual eye, and learn to see with the heart and cultivate the inner eye.

The special music was, "Oh Lord Most Holy," sung by the choir.

## DEMOCRATS AGAIN BLOCK EFFORT TO GET GOOD COUNSEL

Secretary Daniels Will Appear Friday Before Senate Sub-Committee.

SENDS LIST OF AWARDS TO HEAD OF COMMITTEE

Enlisted Men of Service Are Awarded by Secretary for Fine Efforts

Washington, Jan. 27.—Democratic opposition blocked action today on the resolution introduced by Senator Hale, Republican, of Maine, authorizing employment of counsel and clerical assistance for the sub-committee investigating naval awards and the navy's conduct of the war. Senator Hale, who is chairman of the sub-committee, late today brought the resolution before the Senate for the third time, with a request for immediate consideration. Threatened Democratic filibuster, led by Senators Pittman, of Nevada, and Walsh, of Montana, caused him to withdraw the request with the announcement that he would make it again tomorrow.

Secretary Daniels, who had been expected to appear before the committee Thursday, notified Chairman Hale today that it would be more convenient for him to begin testimony on Friday, and the next session was set for that day.

Secretary Daniels made public tonight letter to Chairman Hale, of the senate sub-committee investigating Naval war decoration awards, transmitting a list of awards made to enlisted men of the service by the Secretary without reference to the Knight medal award board. It consists of twelve awards of distinguished service medals, the only instances Secretary Daniels explained, of such awards to enlisted men and 444 navy cross awards.

Chairman Hale was informed, also that a list of awards to officers made by direction of the Board "without the action of the Board" was being compiled and would be transmitted when completed a the Senator had requested.

Mr. Daniels recalled his order calling upon the entire service personnel to report instances of courage or unusual service within their knowledge and added:

"Many men whose deeds are yet unreported will be rewarded. No final action would be just without the information and recommendations requested from all officers and men in the service."

Citations accompanying his list of awards transmitted show that the medals have been awarded not only to men on ships in the war zone, but also to several members of the naval hospital unit which served with the Marine brigade in France. One award is to Joseph B. McCrisaken, Washington, Indiana, pharmacist's mate on the gunboat Marietta, who stuck to his post in sick bay during the influenza epidemic in 1918 until he succumbed to the disease himself; another to Osmond K. Ingram, Pratt City, Ala., gunners' mate aboard the destroyer Cassin, who was blown to pieces while trying to dispose of depth charges when the vessel was struck by an enemy torpedo.

### ATTENTION!

We call your attention to the two page adds in our today's issue. Read them carefully and see what the Atlantic Coast Realty Company and the Greenville Pitt Land Company will have to offer Monday and Tuesday, January 2nd and 3rd.

Just as well face the fact and be on the lookout for it. With influenza reaching the epidemic stage in many localities, it may strike this section any time. The best thing is to take every precaution against it.

HON. W. McDONALD LEE OF VIRGINIA, National Director for the Campaign for National and World Wide Prohibition

SHOWS NEED FOR "DRY" CAMPAIGN

INTERVIEW WITH DIRECTOR W. McDONALD LEE.

LAW ENFORCEMENT FIRST

\$9,000,000 To Be Spent in Fighting Bolshevism By Americanizing Foreigners.

W. McDonald Lee, National Director of the great campaign launched by the Anti-Saloon League of America, has made the following statement showing the objects of the campaign, why it is necessary, and to what purposes the funds raised will be devoted.

"We have three great aims in this campaign," declared Mr. Lee, "all of which will appeal to every patriotic American who has the welfare of his own country at heart and any regard for the moral and spiritual welfare and progress of our neighboring nations. These aims are as follows:

- (1) To aid home Law Enforcement (requiring about nine million). (2) To Americanize the Foreigner (requiring about nine million). (3) A Dry World by 1930 (including Mexico and West Indies).

"A fourth of the money raised in the campaign is to be left in the State for object one, 'Law Enforcement,' which means creating public sentiment for observance of law, and demand for officers who will enforce the law. Internal Revenue Commissioner Daniel Roper and Federal and State officers nearly everywhere invite such co-operation by our organization and similar ones. Liquor interests have organized—it is said with \$400,000,000 fund—twenty-four States, in effort to elect a Congress that will increase alcoholic contents from one-fourth of one per cent. to ten, or even forty per cent., and thus defeat the aims of Prohibition and nullify the Eighteenth amendment.

"Another fourth of the money, for object two, goes to the Anti-Saloon League of America for work among aliens in this country. We must make good and law-abiding citizens of those foreigners who stay with us, through education, literature and speakers in the only language they may know. While harangued by anarchists and booze-advocates they remain a menace to our institutions. These scattered colonies within our borders can be reached only through the systematic and studied propaganda of the National League.

"Such of the remainder of the funds as may be determined by the State and National Leagues is to be devoted to object three. All the world is now our neighbor. Five critical years have demonstrated that we are vitally affected by conditions elsewhere on the globe. One dollar's worth of liquor will counteract a hundred dollars of the money so generously given to missions by Baptists, Methodists, Presbyterians, Episcopalians and others. Let's help make effective these missionary gifts. The missionary pleads for our help against the emigrating liquor dealer and his wares that are hurrying to other shores.

"Under objects one and two the Anti-Saloon League seeks to remove the cause that Y. M. C. A., Red Cross, Salvation Army and other noble bodies are earnestly striving to remedy. With law enforcement, proper education and removal of temptation there will be less poverty, fewer dens of vice, a redemption from misery to women and children, and the work of those great organizations will be made easier and the quicker accomplished.

"Under object three it will be possible to 'clean up' Cuba and the Bahamas from the liquor and vice contagion that is already affecting our shores. Mexico also, because of which probably a hundred million dollars a year is spent by our American Government to keep the peace, would be less a disturbing element if drink were abolished and this can be accomplished. As an aid in preventing Bolshevism from spreading to our shores, some countries of the Old World should be made acquainted with our customs and laws and their citizens taught to respect such before emigrating here."

PILE UP YOUR DOLLARS SO THAT NO ONE CAN KNOCK THEM DOWN.

Many a tired lad has slipped his coat on when the whistle blew and said derisively: "Another day, another dollar. A million days, a millionaire." He has said a mouthful in bitter jest and without knowing it. For the dollars do pile up if the stack is not knocked over.

Some financial sharpshooters are always gunning for dollars. They can pick them off at a mile like Annie Oakley cracking clay pipes in a shooting gallery. But if you put some of your dollars under cover before any one can draw a bead on them, you leave a safe score for the profiteer and the grafter.

The safest protection from those sharpshooters is War Savings Stamps bought every pay-day. If you give them your whole bank roll to shoot at they will hit it for a perfect score. Make them waste a little ammunition.

War Savings Stamps are absolutely safe. They pay a high rate of interest and you can get your money in full when you need it. When they pile up, nobody can knock the stack over.

## QUESTION NO. 31

What Pitt county newspaper thirty-eight years ago began telling that Greenville was going to become the best town in Eastern North Carolina, and has kept up that talk as the town progressed until now you hear everybody everywhere singing Greenville's praise? Ask R. C. Flanagan.

enjoyed their day of rest. And naturally we are wondering how they managed it.

The influenza appears to be on a general increase in this section of the country. And in Chicago, it's raging.

Prospects and problems of the new year have never been tested yet. The time is going when an initial test is going to be demanded.

A news report says that the insurance bureau has a heavy correspondence—and so has the bureau of vital statistics.

Holland doesn't want to give up the kaiser. Probably Holland may be getting something on the side—you can never tell.

"The mould of a man" is one of the most popular passages of parlance quoted these days, but you seldom find an appropriate subject.

When that splendid jury gets through indicting all of those radicals it is to be hoped it will distinguish the difference from a "Red."

When Brother Bryan gets through telling us about the peace treaty we are going to pause and find out just what he does like about it.

Lots of people talk about Germany's condition, but very few have known the exact conditions in ascendancy in that section.

Think of prominent personages sailing through the air for the purpose of transacting business. Who said we had nerves.

Congress is going to begin another week of important work, so late news reports indicate. And why shouldn't it, so many have been lost recently.

Some folks call Mitchell Palmer "The Fighting Quaker," and of course people who have never been convinced otherwise will accept the statement as perfectly alright.

Garfield seems to think the recent coal strike settlement is going to cause a regular upheaval in this country if its present principles are not changed. We used to think Mr. Garfield knew exactly what he was talking about until he gave up the coal strike for the president to settle.

## INCREASED CURRENCY.

World paper currency has increased 600 per cent since the beginning of the war while the gold reserve behind it has increased but 40 per cent. The face value of the paper currency of 30 principal countries of the world \$720,000,000 in 1914, \$40,000,000.00 at the date of the armistice, and \$5000,000,000 in December 1919, these figures being exclusive of the \$34,000,000,000 of paper issued by the Bolshevik government. Meantime the bank deposits and consequent use of checks as a circulating medium have correspondingly increased and the world national debts have grown from \$40,000,000,000 in 1914 to \$260,000,000,000.

This is a summarization of a study of world currency and indebtedness appearing in the January number of the "Americas" issued by the National City Bank of New York. It shows in detail the note circulation and gold reserve in each of the 30 principal countries of the world in July 1914, November 1918 and December 1919, utilizing the official figures of the State Banks of the European countries, and in the case of the United States figures supplied by the Treasury Department, all figures of foreign currency being transformed into the United States dollars as at the pre-war face value of the respective currencies.

The four central powers, Germany, Austria-Hungary, Turkey and Bulgaria, show an advance in note circulation from \$1,200,000,000 in 1914 to \$12,300,000,000 at the close of the war, and \$18,770,000,000 in December, 1919, the gold reserve falling from \$600,000,000,000 in 1914 to \$327,000,000 in 1919, the ratio of gold to notes declining from 49.7 per cent in 1914 to 5.5 per cent in November, 1918, and 1.7 in December 1919. The Allied group of 18 countries (including Russia up to October 1917) shows notes aggregating \$4,900,000,000 in 1914, \$2500,000,000 in November, 1918, and \$30,000,000,000 in December 1919, their gold reserve \$3,763,000,000, in 1914 and \$5,700,000,000 in 1919, the ratio of gold to notes declining from 76 per cent in 1914 to 2.8 per cent in November 1918; and December 1919.

If Holland will not surrender the Kaiser, we fail to see how Berlin is going to effect the delivery when demand is made on that quarter.

Raleigh keeps reaching out for the notables, and gets them. Mrs. Emelene Pankhurst, noted English militant suffragist, is scheduled to speak in that city February 17th.

Steps are to be taken to help the Ukranian government fight the cholera and typhus. It is to be hoped the belligerency will be confined to this epidemic and not in combatting human life.

The Greenville Chamber of Commerce has brought about some mighty fine changes in Greenville, and will be in a position to do more if it received the hearty support of the public and the press.

Holland may not like the idea of giving up the honorable William Hohenzollern, but then you know Holland hasn't considered the matter what detention of such a distinguished person is going to mean to her.

Hiram Johnson has started out on his campaign against the league of nations. Hiram should know better than that from past experiences, and because the issue is an American issue in the interest of American people.

J. Hampton Moore evidently decided that there were a few changes necessary for the future good of Philadelphia. And as a result, he has stepped into mayor's office with an idea of doing something. It's to be hoped he gets by safely, with every policy in action.

Labor organizations in Paris are doing everything possible to bring about a little in harmony in that country. But if it should be something like that America the president can do much in bringing it to a rapid conclusion. Even before the strike begins to assume form.

We had much rather have the close to spring weather of last week than what is coming along this week. At

the same time there is cause for congratulation that down this way it is not a circumstance for severity to what the northern and western states are experiencing.

## WHISKEY TRAFFIC CLAIMS ATTENTION IN WEST VIRGINIA

(Continued from page one.)  
The high prices of sugar having driven some of the old time moonshiners to producing what they needed for domestic and moonshine purposes.  
Shanghai, Dec. 27.—Abolition of spheres of influence in China was recommended in a resolution adopted at a recent meeting here of the association of British Chambers of Commerce in China and Hong Kong. This association includes representatives of most

important British commercial interests in the far east.

Its action is regarded here as significant because it has long been claimed that Great Britain has been able to obtain a dominant position in trade in China chiefly by reason of the vast extent of British spheres of influence, which is said to overshadow those of all other countries. The conference resolved that the time had come to reaffirm the abolition of the "open door" as an essential commercial principle and that abolition of spheres of influence should be accomplished by international agreement.

The British government was asked by the association to remit a portion of the Boxer indemnity and devote it to the education of Chinese along the British lines.

The Association expressed the sympathy with the desire of the Chinese to abolish the plan of extra-territoriality. But declared a stable government should first be established, a satisfactory code of laws enacted and that the Chinese judicial system should be reformed.

It asked also that the British government should put into immediate effect the measures adopted by the international opium convention in 1912 restricting traffic with Chinese in narcotic drugs. It demanded that piracy on Chinese rivers should be suppressed.

Those who are satisfied with what they have accomplished will never become famous for what they might accomplish.
