

VOLUME 51

THE WORLD LEAGUE MEETS AMERICA IS NOT REPRESENTED

Balfour Presides Over First Session of the International Council.

ONLY EIGHT NATIONS WERE REPRESENTED

Opening Meeting More or Less of a Formal Nature to Deal With Programs

London, Feb. 11.—The council of the league of nations formally opened its meeting here at noon today.

Arthur Balfour, representing Great Britain, assumed the chair on the suggestion of Leon Bourgeois, representative of France.

In his speech of welcome to the delegates, Mr. Balfour said there was only blot on the meeting, and that was there were eight nations represented instead of nine.

M. Bourgeois in reply, added a word of regret that the nations represented were only eight in number.

The opening meeting at noon was of a more or less formal nature, to deal with the programs of the proceedings of the subsequent meetings, which will occupy Thursday as well as today, some sessions being public and others private.

The nations represented at the meeting were Belgium, Brazil, Great Britain, France, Greece, Italy, Japan and Spain.

Ambassador Davis at London will not be instructed to attend the meetings of the supreme council and the council of the league of nations, it was said today at the state department.

Ambassador Wallace attended the meetings of the supreme council at Paris during the discussion of the Fiume question and others remaining unsettled, but his functions were strictly limited to those of an observer and reporter.

Many questions of interest to the United States are to be decided by the league council, but since this country has not yet become a member of the league it will not be represented even informally in the council's sessions.

Because of the extensive American interests, financial and commercial, which will be affected by the work of the reparations commission operating under the league council, the state department will keep itself informed as to events at London. The council is expected at its early meetings to frame policies which will govern the admission of raw material into the late enemy countries and the distribution of German and Austrian products among the entente and associated powers.

As the international supreme court, which is to be created under the terms of the treaty, is a purely American conception, and so far has developed no opposition from any of the factions in the senate, it is expected that some soundings will be made by the council to ascertain the desires of the Washington government regarding the membership in this body.

PRES. WILSON HAVE PERSONAL TALK WITH REPRESENTATIVES

Washington, Feb. 12.—President Wilson will have a personal conference tomorrow with three representatives of the railroad brotherhoods to discuss the wage demands of two million employees which will be referred to him today by Hines. In making the announcement Tumulty said that it was not decided which of the brotherhood representatives will be invited. This will be left to Hines. The union leaders will see the President on the south lawn at the White where Wilson spends portion of his time each morning.

STOLE ONE MILLION PRISONER TELLS NEW YORK POLICE

\$5,000,000 Securities Theft Plot Nipped in the Bud the Police Claim.

SIX ARE NOW BEING HELD IN CUSTODY BY POLICE

All Six Were Arraigned and Held in \$100,000 Bonds Charged With Theft

New York, Feb. 11.—The arrests of two brothers, who were employed as brokers' messengers today made a total of six men held in connection with what the police declare was a plot to steal \$5,000,000 worth of securities in the financial district and take them to Canada, where it was expected a market would be found for them.

Herbert Burnora, 19 years old, was accused of stealing Crucible Steel securities valued at \$145,000, which were entrusted to him to deliver to another firm on hour after he obtained a job as a broker's messenger last November. Some of the securities were recovered in Washington and Philadelphia, and some in the office of David B. Sullivan, a New York broker, who is under indictment on a charge of obtaining loans on stolen securities.

Rudolph G. Bunora, 22 years old, was accused of receiving \$21,000 worth of securities stolen by Joseph Bluck, 23 years old, and his brother, Irving, 19 years old. The Blucks were arrested yesterday with Edward J. Purry, who is regarded by the police as the "master mind" of the conspiracy. Irving Bluck the police said confessed he had stolen \$2,000,000 worth of securities in a year and disposed of them with the aid of his brother.

Further arrests were expected today, and the detectives asked a number of brokers to appear in court to see if they could recognize any of the prisoners as former employees who vanished with securities.

The taffy-pulling girl may develop into a hair-pulling wife.

Yes, Alfred, love is too polite to look at the clock.

Don't believe the man who says he doesn't care what his neighbors say. Don't expect any man to have faith in your judgment if you call him a fool.

130 NEW CASES OF INFLUENZA IN COUNTY YESTERDAY

One Case of Smallpox and Two Cases of Measles Included Wednesday's Report

The number of influenza cases which were reported to the county health officer yesterday shows quite an increase over the reports made for the past week. The largest number were reported yesterday when 130 cases, all in a mild form, were reported. The smallpox epidemic seems to be on a decrease as only one case was reported yesterday. The measles epidemic worse in Farmville township, is improving and only two cases were included in yesterday's report. The people of our county are still being warned of the danger of being careless with the board of health are being headed. People with influenza in their homes should be careful not to go out unless it is absolutely necessary, as they may unintentionally carry the disease to others. The situation is still demanding the undivided attention of officials, and they will keep the people of the county informed concerning its spread.

IMMANUEL MISSIONARY SOCIETY TO MEET FRIDAY AFTERNOON

The Immanuel Baptist Missionary Society will meet Friday afternoon at 3 o'clock with Mrs. J. W. Bryan.

AMERICAN LEAGUE FIXES SCHEDULES FOR 1920 GAMES

Season Will Open April 14 and Close Oct. 3, According to the Schedule.

THE LISTING OF SUNDAY GAMES AN INNOVATION

Four Western Clubs Will Open in the West and Eastern Clubs in East.

Chicago, Feb. 12.—The American League baseball season will open April 14 and close October 3, according to the official 1920 schedule released tonight by B. B. Johnson, president of the league. The schedule shows a restoration of the 154 games chart, which was curtailed last season because of the world war. An innovation in this year's schedule is the listing of Sunday games at Washington and New York. This is the first time in the history of the league that this has been done at the time the schedule was drafted. The world war was responsible for this. Last season, games were permitted in Washington and New York but the schedule made no provision for these contests. As a result the schedule was revised and a number of games were advanced in order to play on the Sabbath.

The four western clubs will open in the west, while the clubs of the east will inaugurate the season at the Eastern end of the circuit.

Opening games are listed as follows: Detroit at Chicago; St. Louis at Cleveland; New York at Philadelphia; Washington at Boston.

PROPOSAL ORGANIZE INDIAN TROOPS IS PENDING CONGRESS

One or More Full Divisions Are Desired as a Part of the U. S. Army.

Washington, Feb. 12.—A proposal to organize one or more full divisions of Indian troops as a part of the re-organized army and to be known as the North American Indian division or divisions, is pending in congress as part of the army reorganization legislation.

Many instances of exploits of personal heroism on the western front, such as won for the Red Men in France the nickname of "squirrel hunters" because of the deadly accuracy of their rifles in sniping contests with Germans, were furnished the committee as evidence of valuable man power which it is contended would be wasted if the Indians are denied a place in the army scheme.

Expertness at scouting and patrolling particularly at night and in unknown territory; disregard for personal danger under fire, and unflinching loyalty, were among the soldierly qualities the Indian was described as possessing to an unusual degree. Specific cases are cited by Dr. Joseph Kossuth Dixon, secretary of the National American Indian Memorial Association, of which Rodman Wanamaker of New York, is founder and president. Dr. Dixon also read a letter from General Pershing giving his "hearty approval" to a plan to enlist Indian regiments.

A majority of the more than 17,000 Indians who saw military service during the war were members of the 90th Division, the Texas and Oklahoma National Army Division, the 36th Division, National Guardsmen from the same two states, and the 155th Infantry, or old 69th New York, which received heavy Indian replacements to fill the gaps produced in its ranks by fighting on the Marne. But the Redskins served in many other units and in practically all services.

Some people worry because they are unable to find out things that would worry them still more.

LODGE STARTS THE CLEARING OF DECK FOR TREATY FIGHT

Republican Senate Leaders Propose Formal Modification of Reservations

PROPOSAL PRESENTED WITHOUT ANY COMMENT

Progress on Article Ten is Also Reported Without Any Comment.

Washington, Feb. 11.—Steps to eliminate many collateral issues of the peace treaty fight were taken today on the senate floor while negotiations were being resumed privately for a compromise on the two principal points remaining in controversy Article Ten and the Monroe Doctrine.

Modification of eight of the fourteen Republican reservations on the basis of agreements by the bi-partisan conference and in a way said to be satisfactory to many Democrats was proposed formally by Senator Lodge, of Massachusetts, the Republican leader. Four of the remaining six are said to have been already accepted without change by the Democratic leaders, leaving those which relate to Article Ten and the Monroe Doctrine as the only subject of serious disagreement.

Progress also was claimed in the Article Ten negotiations, a new draft of the reservation being declared by the mild reservation Republicans to have received approval from Senator Lodge and from some Democratic friends of the treaty. This draft was denounced by Senator Hitchcock, of Nebraska, (Continued on page four.)

GOV. E. I. EDWARDS FIGHTS FOR RIGHTS ALONG TWO LINES

Making Effort to Induce Legislature to Allow New Jersey to Sell Beverages

Trenton, N. J. Feb. 12.—The battle in New Jersey, led by Governor Edward I. Edwards for state rights as against constitutional prohibition is being fought along two lines: A effort to induce the legislature to conest the validity of the 18th amendment in the United States supreme court and to enact a state law permitting the sale in New Jersey of beverages containing more than one-half of one percent of alcohol.

Steps necessary to fight the prohibition amendment in the supreme court have been considered in conferences between the new governor and the state attorney general. Two bills have been introduced in the legislature, one to permit the sale of beverages with four percent of alcohol content and the other five percent.

Governor Edwards was elected on an issue of "personal liberty." He gave a pledge in his campaign to insist the right of the people of New Jersey to say how they should live. His attempt to fulfill that pledge has made this state one of the few remaining battlegrounds for the right of a man to buy a drink and has attracted attention throughout the country.

The governor, in attempting to assert and maintain the sovereign rights of the state as against federal constitutional prohibition, must deal with a legislature controlled by the Republican party while he is a Democrat. New Jersey not only failed to ratify the federal prohibition amendment, together with Rhode Island and Connecticut, but went further than any other state in the Union and its legislature absolutely rejected the amendment. The governor has urged the legislature to refrain in its present session from now giving its ratification.

Although Governor Edwards holds liberal personal views concerning the use of intoxicants, his friends say that he has not taken a drink of intoxicating liquor in more than 30 years, upon advice of his physician.

DIRECTOR GENERAL HINES TO SUBMIT DEMANDS TO PRES.

A Resume of Conference to be Laid Before Wilson for Second Time.

SITUATION REGARDED AS CRITICAL TODAY

Palmer Says That He Has Been Made Acquainted With the Problems.

Washington, Feb. 11.—Director General Hines will make answer to the wage demands of the two million railroad workers on his own responsibility and from the standpoint of the railroad administration, and will then report to the President, it was said today at the white house. Mr. Wilson then will approve or disapprove the decision.

Heretofore the President generally has passed upon wage decisions before the railroad administration's answer was given to the union representatives. No reason was assigned for the departure from the usual custom in this case.

In the light of the urgent demands of the trainmen and the strike call issued by officers of the Brotherhood of Maintenance of Way Employees, both railroad administration and white house officials regard the situation as extremely grave. Mr. Hines has held a long conference with Secretary Tumulty who has submitted a memorandum on the subject to the President. Mr. Wilson still has this memorandum before him.

Conferences between Mr. Hines and the brotherhood officers were to have been resumed this morning, but at the appointed hour neither side was ready to go ahead and the meeting was postponed until 3:0 o'clock this afternoon.

A new statement of what the unions of operating employes regard as essential to their well-being has been presented to Mr. Hines, who announced that he would make answer today. W. G. Lee, president of the trainmen, continued to press the demands of his organization, which has served a thirty-day notice, effective February 23, of abrogation of the existing wage contract and has taken a strike vote, said to be largely in favor of cessation of work if the demands are not met.

MAYOR J. H. MOORE OF PHILADELPHIA STAY FROM FEASTS

Persistent Banquetter Has Decided to Stay from Feasts During Administration

Philadelphia, Feb. 12.—Mayor J. Hampton Moore, in times past one of Philadelphia's most persistent banquetters, has decided to keep away from feasts during the term of office he has just begun.

As Representative Moore he was much in demand as an after-dinner speaker. He was one of the organizers and the chief spirit of the Five O'clock Club, a famous dining organization. But since he became Mayor Moore the demand for his attendance at banquets has tumbled. One evening recently he attended five of these functions, remaining at each one long enough to make a speech. This experience led him to announce that "public business is increasing to such an extent that he is obliged to decline almost all invitations for speeches at night. They are kindly intended, but there is a limit to physical endurance," the mayor said.

We have 32 of Pitt county's best farms listed with us. We are in a position to sell these farms on very easy terms. All are well located. We have customers wanting city property, if you have anything to offer, see us. GREENVILLE PITT LAND CO. J. W. Cobb, Manager, Phone 113, Reflector Building.

EPIDEMIC SHOWS GAINS IN EVERY SECTION OF STATE

Pneumonia as Well as Deaths and Influenza Reach High Levels

130 DEATHS SINCE THE BEGINNING OF EPIDEMIC

It Is Believed That the Epidemic Has About Reached Highest Point.

Raleigh, Feb. 11.—The passing of the seventeenth day of the present epidemic of influenza in the State showed a marked increase in the number of new cases of influenza, in the number of new cases of pneumonia and in the number of deaths. Influenza for the day totaled 4,747, pneumonia 91 and deaths 30. The total number of cases of influenza reported in the past seventeen days is 30,184, with 130 fatalities.

So far the epidemic has not assumed the proportions of the epidemic in October, 1918, when during the 31 days in the month 103,000 cases were reported in the State, with 6,056 deaths. The disease is not so widespread and not so fatal as it was in the first outbreak. Then the death rate was about 60 per 1,000 cases, as against four per thousand in the present epidemic. The present rate is expected to be raised somewhat if the present ratio of pneumonia is maintained.

To combat the spread of pneumonia the State Laboratory of Hygiene announced yesterday that it had available a limited supply of pneumonia vaccine that could be secured gratis by county health officers and administered The vaccine is made by the Army medical school. No claims are made that it will prevent influenza, but it has been used effectively against pneumonia. Application for it should be made direct to the laboratory.

Dr. F. M. Register, State Epidemiologist, said yesterday that he regarded the epidemic as having about reached its peak and that hereafter there would be a decline in the number of cases, with occasional flares in sections of the State where the disease has not yet become widespread. Several cities reported improvement yesterday, including Greensboro, with only 30 new cases. Wilmington and Charlotte show considerable increases for the day over the figures for Tuesday.

Responses to the call of the State Board of Health for nurses and doctors has been gratifying, and yesterday there were more than enough listed for service to meet the demands that were made. More nurses are needed in some sections of the State, but in most towns it is said that local organizations are taking care of the situation. Reports by counties and cities yesterday are as follows:

Alamance, 3; Caldwell, 48; Caswell, 25; Chatham, 38; Cherokee, 8; Cleveland, 75; Craven, 35; Cumberland, 23; Davidson, 209; Duplin, 100; Durham, 67; Edgecombe, 46; Forsyth, 45; Franklin, 16; Gates, 150; Graham, 1; Granville, 63; Guilford, 420; Halifax, 17; Haywood, 10; Lee, 47; Lenoir, 128; Martin, 75; New Hanover, 2; Northampton, 138; Orange, 176; Pender, 50; Perquimans, 2; Pitt, 71; Randolph, 1,000; Robeson, 260; Rockingham, 20; Rowan, 149; Sampson, 23; Stanly, 62; Surry, 30; Union, 110; Wake, 6; Washington, 35; Wayne, 9; Wilson, 32; Yancey, 28.

Cities: Asheville, 145; Winston-Salem, 249; Greensboro, 30; Charlotte, 226; Wilmington, 41; Raleigh, 152; Goldsboro, 12. Total 4,747.

Pneumonia was reported as follows: Reidsville, 2; Greensboro, 4; Greenville, 2; Lexington, 9; Orange, 1; Hertford, 1; Warsaw, 4; Tarboro, 4; Asheville, 20; Forsyth, 1; Kinston, 4; Goldsboro, 2; Fayetteville, 2; Albemarle, 1; Wilson, 3; Wilmington, 1; Winston-Salem, 26; Waynesville, 2. Total, 91.

CROWN PRINCE WAS SERIOUS

The Hague, Feb. 12.—Declared in reliable quarters that the former German Crown Prince was serious in making the offer to surrender himself in place of the Germans on the extradition list and that he was inclined to believe that the allies would accept his plan. It was learned here that former Emperor William is strong in his disapproval of his son's action.

Sims says he didn't say it, and Byrners says he did. So there you are.

Those who cut out the extravagance in flush times will be in better shape to stand a pinch if one comes.

A Raleigh man supposed to be dead "came to" while friends were gathered around him discussing the funeral arrangements. He advised them they could postpone the funeral for the time being.

It is not always the safe thing to run over a cow, even with a train. One tried it near Asheville the other day, the result being that the locomotive was thrown off the tracks and the engineer nearly killed.

Looks like Raleigh is about at last to get rid of its eye sore, the old market house, that has for years been a source of controversy as to its disposal. The old building will soon be torn down and a large store erected on the site.

To say the least of it, this country is getting in a pretty mess, and the Republican party is largely responsible for it. Instead of trying to do things to better conditions they are simply making grand-stand political plays that prander to the worst element of our population.

Some folks will argue that a quarantine does no good, but East Carolina Teachers Training School gives an example to the contrary. At the first intimation of influenza being around, the pupils of the school were placed under a rigid quarantine, and so far there has not a single case appeared among the students or teachers.

Chickens, like automobiles, give no heed to laws passed with the view of curtailing their running privileges. The recent local ordinance prohibiting chickens running at large, might as well not have been enacted so far as the chickens are concerned. They continue to go out when and where they please.

PLAYGROUNDS.

Concerning the subject of playgrounds, The N. C. Orphans Friend says: "The West used to be thought of in terms of cowboys, fero, blizzards and alkali. The East long held it as uncivilized and on the movie screen the West is still presented in terms of bad men and dance saloons. But the West is no longer backward. In many respects it is ahead of "the effects" East, to mention one, playgrounds for children, as a part of education. This side of the Mississippi playgrounds grounds have been discussed for a number of years very freely, but the West has done something more than talk about them. More cities and communities than you can count have model grounds where children can be taught things in play that can not be put into their heads in the school room. The idea is growing slower than might have been expected. There is yet strong prejudice against spending money to show children how to play when, asseverates the old fogey, be

"didn't have nobody to show him how to play" when he was a boy. He looks upon money got out of him for the purpose as grand larceny, pure and simple. The pork barrel is nothing comparison. "The playground is a necessary adjunct to the schoolroom. In fact, what is taught in school is often counteracted outside school hours. Many people often forget that play is as much a mental process as physical. Money spent in directing the hours of recreation, when not placed at the disposal of fadists or theorists, is money just as wisely spent as that used in ramming geography and arithmetic into harem-scram and sickly heads. In time the playground will come into its own.

WAR GARDENS IN PEACE TIME.

The roar of cannon and shell, has ceased, but we are not yet at ourselves. The nations have ceased firing, but they have not all begun working. The United States has discharged most of her soldiers, but they have not yet beaten their swords into plowshares. The balance between production and consumption has not yet been established; we need more of everything, especially of the necessities of life.

In North Carolina, even in Davidson county, one of the most agricultural counties in an agricultural State, farmers produce little if any more foodstuffs than they consume, and we are not criticising them for this fact. There is much profit in growing cotton and tobacco, and very little in potatoes, beans, grain, and vegetables for the market. After the farmer has produced enough foodstuffs for his family consumption, he quite naturally turns to that which will bring him the most money.

The farmer, then, is going to take care of himself. But what about us

who live in town? What are we going to do for something to eat? We cannot feed our bodies on cotton nor on tobacco nor on money. The most logical answer to the question is that every family start now a garden—a War Garden, a garden which will make war on H. C. L. and perhaps on Giant Hunger. Peas and potatoes grow well in yards, and it makes very little difference whether the yard is in front of or behind the house. Vegetables in abundant quantities should be cultivated. There are in every town vacant lots available for those whose yards are too small for a garden or truck patch.

There may be some of use who prefer paying enormous prices or going hungry to spending a few hours a week stirring clods. Some, too, may be so fond of their flivver that they have no time for such commonplace things as hoes and rakes and gardens. However this may be, all had better pack this thought in their think-stand: No man can succeed without work.

War Gardens afford a fertile field for labor.—Lexington Dispatch.

NOTICE.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

THE DIFFERENCE BETWEEN GOOD SERVICE AND POOR SERVICE, IS THE DIFFERENCE BETWEEN SOMETHING AND NOTHING

When you have your Clothes Cleaned, Pressed or Dyed the time and materials used are approximately the same—whether it result into good service or poor service. The real reason for one over the other is that expert knowledge, and the skill of the workman. The larger volume of business off-sets the difference in the cost of this service, which makes expert service cost you no more than the other kind.

We are prepared to handle all your wants in our line, Cleaning, Pressing, Repairing, Hat Cleaning and Blocking.

Let us make that old hat new for the spring. It will pay you to try us.

Greenville Tailoring Co.

Spring Styles Suits-Dresses-Coats

There are charming new Frox in Graceful Tunic Styles. Some have the new extended hip pockets, others show the barrel sikonette. Many have the short sleeves, which promise to be so popular. Prices \$20 to \$120.

Many and varied are the styles in Suits, Etons, Norfolk, Belted and Plain. Embroidered and Braided. Serges, Velour, Tricotine, Gabordines, Gold Tone, Silvertone and Tinsel Tone. Colors mostly Navy, Beet, Tans, Browns and Greys can be had as well as other shades. Price \$40 to \$1.40.

Many charming models in Coats, both short and long, mostly short, in Silvertone, Tinseltone, Goldtone, Camels' Hair, Polo-Cloth and other fabrics. Prices \$25 to \$75. Come in, we want you to meet the new comers.

CHECK THAT COLD RIGHT AWAY

Dr. King's New Discovery has relieved colds and coughs for fifty years

It was an unusually high quality cold, cough, grippe, and croup remedy when introduced half a century ago. Not once in all the years since then has the quality been allowed to deteriorate. Its effectiveness in combating colds and coughs has been proved thousands of times in thousands of families. Taken by grownups and given to the little ones for the safe, sure treatment of colds and grippe, coughs and croup, it leaves absolutely no disagreeable after-effects. Get a bottle at your druggist's today. 60c. and \$1.20.

Bowels Act Human

function gently but firmly without the violence of purgatives—when you treat them with Dr. King's New Life Pills. A smooth-acting laxative that gets right down to business and gratifying results. All druggists—25c. a bottle.

COLDS breed and Spread INFLUENZA KILL THE COLD AT ONCE WITH

HILL'S

BULLETIN

Great activity in the Fallon Oil fields.

Hotels, rooming houses, apartment houses, cottages, all full, and even the jail full of roomers, but not jailbirds.

Seven carloads of oil drilling machinery shipped from the Texas oil fields to the Fallon Oil Fields, and experienced drilling crews in Reno awaiting this machinery.

Analysis of oil seepage from the Williams ranch well by Prof. L. A. Pringle proves it to be mineral oil. This knocks out the knockers.

A. L. Robinson reports on the characteristic markings in the Fallon field, which indicate that oil will be found there.

Four or five big drills now going down in the Fallon oil fields, and as many more on the ground being set up.

A. E. Wiley, geologist, reports on salt beds in the Fallon oil fields. This salt bed is reported to be one of the largest on the American continent, estimated to contain from 1,000,000 to 6,000,000 tons of salt. The salt is refined by nature 99 per cent pure rock salt.

Now 32 oil companies in the Fallon field.

Fallon Pioneer Oil Co., gets a standard drill.

Potash in commercial quantity developed in Fallon oil fields.

—Churchill County Eagle, Jan. 17, 1920.

Nevada's Gold, Silver and other valuable metals has made many millionaires and many more thousands wealthy, practically built San Francisco, and paid the national debt in 1865. Nevada's oil now promises to become its next, and greatest industry. It will make more millionaires, and many more thousands wealthy. You have the opportunity to be one of them. Read about it. It is within the reach of everybody.

This company owns FOUR TRACTS of the best oil land in the Fallon Oil Fields—800 acres all told—and is going to drill to the OIL.

Among those reporting favorably on the Fallon field are: A. E. Wiley, E. P. Osgood, Orlando D. Bartow, Capt. L. W. Crehore and A. L. Robinson, all of unquestioned ability and prominence.

Mr. A. E. Wiley, one of the most competent geologists in the United States, in reporting on the Fallon field says, in part:

"The belts of shale and outcroppings in Township 17 and 18, range 30 and 31, townships 19 and 20, Range 31 and 32, all bear unmistakable evidence that the underlying formation should contain petroleum in commercial quality and quantity." This company owns lands in the above described locality as follows:

320 acres in Section 27, township 18, Range 30; 160 acres in Section 3, township 18, Range 31; 160 acres in Section 5, township 19, Range 32; 160 acres in Section 31, township 21, Range 32.

AN ALLOTMENT OF 250,000 SHARES IS OFFERED AT 10 CENTS A SHARE

Subject to advance without notice... This is bedrock price and the allotment will be sold within a few days.

The first oil well struck in the Fallon Field will make these shares worth many dollars each. Order has many shares as you can afford today. Remember, one good investment is worth a lifetime of labor.

WILEY PREDICTS GREAT OIL FIELDS IN THE STATE OF NEVADA

(New York Morning Telegram.)

November 5, 1919—A. W. Wiley, a well known geologist, who was one of those who made a report on the Inspiration Copper mine prior to its purchase by the Lewisohn interests, is credited with the following prediction about the future of the oil fields of Nevada:

"I'll reverse the old saying, 'He who fights and runs away may live to fight another day,' by making all Nevada fight for me after I demonstrate that this state can and will become one of the most important oil producers in the United States.

"The mines of Nevada furnished gold and silver to pay the interest on the public debt in 1864. I'll give a practical demonstration that this state of boundless resources can produce oil in sufficient quantities to pay a large proportion of the interest on the national debt in 1920 and for many long years thereafter.

"I stand behind my report that oil abounds in Nevada. I'll remain on the job until a producing well is brought in, and if the company with which I am associated does not sink wells and make a producer at Fallon I'll do it myself.

"I believe that every man in Nevada who is now investing in oil in California, Texas, Wyoming, Oklahoma or any place else outside of Nevada, is making the mistake of his life. I think the chances are infinitely greater to secure oil in Nevada, although the field is not half proven at this moment, than any other part of the United States. I wish to emphasize this point and say to Nevadans, 'Invest your money in Nevada oil fields and help bring an era of prosperity which is yours by heritage if you use only ordinary business judgment.'

Oil seepage has again been encountered in the Fallon field, this time on the ranch of C. E. Kent, in the Stillwater district, and in the neighborhood where the Fallon Oil & Gas Co.'s big drill is operating. The seepage was encountered in a well being drilled for water and appeared on the water at a depth of 187 feet, about the same depth as it did in the well on the George Williams ranch.

WANTS

TAKEN UP—ONE SPOTTED HOG, with one little pig, weight 20 pounds and 120 pounds, owner can get same by paying all costs. Allen Vines, Greenville, N. C. 26-3t

HOUSE WANTED—GOOD LOCALITY east of railroad. Will buy and pay good price. Will buy from real estate dealer or owner. J. E. Lane, 17-2wks

END OF THE CENTURY CLUB

Mrs. James L. Little was hostess to the End of the Century Club on Tuesday afternoon. It was a pleasure to have Mrs. R. R. Cotton attend after an absence of several meetings. She always adds spice and pep to the meeting as well as dignity. The program was "Oscar Wilde." Mrs. Harry Skinner gave a resume of his life and read "A Reading from the Goal." Mrs. B. W. Moseley read selections from "Lady Windemere's Fan." Mrs. Little at the close of the meeting in a most charming way told why she especially enjoyed being a member of this club, then she presented Mrs. Harry Skinner with a lovely piece of China as a token of appreciation of a courtesy extended her twenty years ago. It was through the efforts of Mrs. Skinner that the End of the Century Club was organized. At that time Mrs. Little was away, probably on her honeymoon trip, and the organization was postponed for a few days until her return in order that she might be a charter member. The visitors present were Mrs. W. B. Lewis and Mrs. Tom Moore.

BRIDGE CLUB MEETS.

Mrs. James Hines was hostess to the Wednesday afternoon Bridge Club, yesterday. The home was attractively decorated with potted plants. Several games were enjoyed. Mrs. N. W. Outlaw making the highest score, was awarded a bridge set. At the conclusion of the games, a salad course was served. Mesdames C. W. Lea, of Danville, H. L. Carr and S. T. White were guests of the club.

It is difficult for parents to understand where their children get their bad traits.

GABY DESLYS DIES FROM TROUBLE IN HER THROAT

Paris, Feb. 11.—Gaby Deslys, the French actress and dancer, died today. Gaby Deslys had recently undergone several operations for an infection of the throat. Early in December she was considered to be in a grave condition and her relatives were summoned from America. The name of Gaby Deslys became known after former King Manuel, of Portugal, displayed his infatuation for her. That was ten years or more ago. In 1911 she arrived in America and made her appearance on the New York stage. She made a second visit to America in 1915 and returned to London and Paris the following year. The throat affection from which the actress suffered is said to have been a complication of influenza.

LODGE STARTS THE CLEARING OF DECK FOR TREATY FIGHT

(Continued from page one.) the Democratic leader, however, as constituting "not a compromise but a surrender," and much doubt remained as to its ultimate acceptance. There was no debate on the treaty during the day's session, Senator Lodge presenting his proposed modifications without comment except that he desired to have them printed for consideration when the treaty formally comes before the Senate again next week. He made no statement regarding the new Article Ten reservations, but the mild reservationists declared they were hopeful that later he would present it also. The text of this reservation follows:

"The United States assumes no obligation to preserve by the use of its military or naval forces, or by the economic boycott or by any other means, the territorial integrity or political independence of any other country or to interfere in controversies between nations—whether members of the league or not—under the provisions of Article Ten, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the congress, which under the constitution has the sole power to declare war, shall by act or joint resolution so provide."

The man who calls a spade a spade at all times has more enemies than friends.
