NUMBER 61.

MAYOR D. M. CLARK REPLIES TO ARTICLE BY MR. MUNFORD

Sets Forth Petition Signed by
Property Owners on Caro-
lina Street.
SAYS BUILDING WOULD
BE OF TAXABLE VALUE
Thinks That by Selling Prop-
erty to Imperial Tobacco
Co. City Will Grow

Speaking for the Board of Aldermen of the town, I wish to say that we appreciate Mr. Munford's interest in the matter of closing what is supposed to be Carolina Street, for the use of the Imperial Tobacco Company, and we thank him for his expressions on the subject and the information contained therein. However, some of his statements necessitated further observations on our part.

Mr. Munford states that he wishes to avoid personalities as far as possible, and in this we are fully agreed, for this is not a personal matter, nor a time for personalities. In fact, the only thing personal that we have seen so far is Mr. Munford's claim to the street. On this point we quote verbatim from his article published yesterday, as follows: "If the property owners interested in the maintenance of this street are willing for it to be closed, then I contend that that portion of Carolina Street reverts to me and not to the Town of Greenville."

Mr. Munford must know the real attitude of the property owners in this section, for before any action was taken whatsoever, the following petition signed by every person owning property touching said proposed street, was presented to the Board of Aldermen:

"Greenville, N. C.,
December 22, 1919.

To the Mayor and Board of Aldermen of the City of Greenville, N. C.:

We, the undersigned adjoining property owners, respectfully request that you sell to the Imperial Tobacco Company that certain piece of property known as a part of Carolina Street, bounded on both sides by the property of said Company for the following reasons:

The property in question has never been opened or been in condition to be used as a street, and a sale by the City would not damage the property or the public convenience.

We all appreciate that there must be additional factory capacity if our tobacco market grows, by acquiring this space the above Company could enlarge their factory thereby increasing its capacity for handling tobacco, thus enabling it to increase its purchase of tobacco. A statement from the Company and a map showing in detail the proposed buildings you will find attached hereto which fully explains that the company could enlarge in no other way.

The proposed building to be placed on this property and the adjoining property now owned by the company would mean a greatly increased taxable value to the city.

This request is made for the reason that we believe that it means much to the city and to the community at large and we earnestly request that it be granted.

S. T. Hooker, Gentry & Gorman, Smith & Suggs, by B. B. S., Brinkley, Rice & Spain, by D. S. S., F. V. Johnson, W. H. Allen, E. G. Flanagan, Imperial Tobacco Company by W. I. S.

Further than this Mr. Munford, who does not own property touching or effected in any way by Carolina Street, is the only person in the entire town, who has interposed objection to this project, with the single exception of Mr. Askew of the Askew Lumber Company, and we are informed that Mr. Askew has now withdrawn all of his objections.

Therefore the question seems to resolve itself into the legal ownership of the small portion of Carolina Street lying between the Atlantic Coast Line railroad and Atlantic Avenue. By this we do not mean to impugn the motives actuating Mr. Munford's stand, for when he says that he is acting in the interest of those who purchased property from him with reference to Carolina Street, we accept his statement as
(Continued on page four)

A CONVENTION ON DRAINAGE TO MEET IN WASHINGTON

Beneficial Effect of Drainage is
Being Realized More Than
Ever Before.
MANY REPORTS WILL BE
MADE AT CONVENTION
One Thousand Delegates Have
Been Appointed to Attend
Feb. 25th and 26th.

For the Drainage Convention which is to be held at Washington next week, the 25th and 26th, a most interesting program has been arranged. Among those who will speak are Judge N. A. Morris, of Georgia, who resigned his seat on the superior court bench to devote all his time to the promotion of drainage projects in Georgia. He is connected with the Southern Drainage Journal which has been made the official organ of the National Drainage congress.

The Hon. A. F. Lever, a former member of congress and chairman of the committee on agriculture, now a member of the Federal Farm Loan Board, will address the convention on "The Financing of District and Farm Drainage Projects Through the Federal Farm Loan Board."

Mr. Clement S. Ucker of the Southern Settlement and Development Organization of Baltimore will discuss the settlement of these reclaimed and unused areas, and Prof. Thorndike Saville of the State University will discuss flood control as related to drainage.

The extremely beneficial effect of drainage upon health conditions in this general section is now being realized more than ever before, and in this connection there will be an illustrated lecture on malaria control by Dr. Chas. E. Low, superintendent of health of New Hanover county; and a report on experiments now being conducted by the United States Public Health Service will be made.

There will be reports on the large farms now being operated by the Southern Land Company; the Albemarle Farms; the Potter Farms; etc. The Drainage will be discussed in detail by F. O. Bartel of the State Department of agriculture.

Congressmen Small and Brinson will also deliver addresses on various phases of the Drainage work.

One thousand delegates have been appointed to this convention, and it is believed that it will be one of far-reaching value to eastern and Piedmont North Carolina.

EPIDEMIC SEEMS TO BE ON WANE IN NORTH CAROLINA

New Reports Fail to Increase
the Total of Cases in
The State.

Raleigh, Feb. 18.—With double the number of counties reporting, and many of them sending in the accumulation of several days' development of influenza, the totals given out at the State Board of Health yesterday reached but a few hundred beyond those of the previous day. Altogether yesterday there were 2,644 new cases of influenza, 96 cases of pneumonia and 16 deaths, reported from 47 counties as against 24 reporting the previous day.

From all sections of the State come reassuring statements from health officers as to the conditions existing in the counties and the expressed belief that the peak of the epidemic is several days past. Communities like Winston-Salem, Greensboro and Davidson county that have run from 300 to 600 new cases daily have dropped down to as low as three new cases, in Greensboro's case.

Mr. E. B. Ficklen who has been suffering from influenza-pneumonia has recovered and his many friends are glad to see him out again.

LOCAL BASKETBALL WILL PLAY THE NEW BERN TEAM TONIGHT

New Bern Has Good Team and
a Well Matched Game is
Expected.
GAME WILL TAKE PLACE
FORBES & MORTON'S W. H.
Greenville Team Has Made a
Wonderful Progress So
Far in Games.

The local basketball team will have for their opponents tonight the quint from the New Bern High School. The game will be played at Forbes and Morton's warehouse at 7:45.

New Bern has a good team. They had the misfortune to lose to Wilmington recently by a rather large score, but, barring that game they have an excellent record for their team. One of Greenville's first string men will be out of the game tonight. Bruce Bryan had the misfortune to have his eye hurt while practicing Tuesday. The injury is not serious, but will necessitate his being out of the game tonight. The position that he has been playing will probably be held down by Brown.

The local team has made a record this year which it is justly proud of. The record is as follows:

| | |
|---------------|-------------------|
| Greenville 22 | Wilson 44 |
| Greenville 35 | Washington 17 |
| Greenville 26 | Rocky Mount 13 |
| Greenville 34 | Washington 8 |
| Greenville 43 | Elizabeth City 21 |
| Greenville 21 | Edenton 10 |

Wilson is the only team that has been able to handle the locals this season, and there is very little doubt but that the locals can take care of themselves now in a contest with Wilson. The Wilson team was played at the beginning of the season when the local team was in poor shape physically.

Greenville, Wilson, Wilmington and Raleigh and Durham seem to be the chief contenders for the Eastern Carolina championship this year. The championship series will start sometime next week. If Greenville should happen to lose the game tonight there is a chance that she would be eliminated from the series. Therefore, the local team is today sending out a plea and call that all of her supporters rally to her aid tonight and be on hand at Forbes and Morton's warehouse for the purpose of lending help morally and financially which will go a long way towards winning the game.

The basketball game will be over in time for the skaters to have their fun also.

The local squad is composed of the following: White, Bryan, West, Brown, M. Brown, W. Gaskins, Parkerson, Lewis, Hadley, Barber and Taylor. Coach J. H. Rose, Kennedy will referee. And the local team wishes to express appreciation for the work of Mr. Kennedy. Absolute satisfaction has been given in every game to both sides.

M'ADOO SAYS HE IS NOT CANDIDATE FOR PRESIDENCY

He Declines to Permit the Use
of His Name on Pri-
mary Ballots.

New York, Feb. 18.—William Gibbs McAdoo announced today that he would not permit his name to be used on the presidential primary ballots in the various states, and that he advocated the sending of uninstructed delegates to the Democratic National Convention. The former secretary of the treasury said he believed the highest constructive leadership can best be obtained if the national interest "is not submerged in a contest of individual candidacies."

"Personally," Mr. McAdoo continued, "I would be delighted if the next national convention might actually be a great democratic conference where the utmost freedom of action should prevail and where the motive of high service alone should control."

RAILROAD WAGES CANNOT DECREASE UNTIL SEPTEMBER

Bill Revised by Conference
Committee Also Seeks to
Stabilize Rates.
REPORT WILL BE TAKEN UP
IN HOUSE SATURDAY
Appropriation of \$500,000,000
to be Used as Revolv-
ing Fund.

Washington, Feb. 18.—Wages established by the Railroad Administration during the war could not be decreased until September first, under the railroad re-organization bill, the conference report on which was submitted today to the house and senate.

The bill as revised by the conference committee also seeks to stabilize rates during the same six months period, providing that prior to September first no rates may be reduced unless approved by the Interstate Commerce Commission.

Alman Esch, of the House managers, announced today that the conference report would be taken up in the house Saturday and Chairman Cummins, of the senate managers, expects to call it up in the senate at a later date. Despite the expected opposition to the new wage section, Republican leaders of both the house and senate expressed belief that the conference report would be adopted and the bill sent to the President with little change.

The outstanding points of the measure finally agreed upon are: Compulsory submission of labor disputes to a permanent Federal board appointed by the President and composed of nine members equally divided between the employees, employers and the public. No provision is made for enforcing the board's decision.

Adjustment of rates by the Interstate Commerce Commission so as to yield to carriers a return of 5 1-2 per cent upon the aggregate value of their property with another half of one per cent for improvements.

Distribution of half the net railway operating income in excess of 6 per cent of the property value, equally between the carriers reserve fund and the federal railroad contingent fund which will be administered by the commission for the assistance of weaker roads.

Government guarantee to railroads against a deficit during the first six months after the roads are turned back.

Permissive consolidation of railroads in accordance with a general consolidation plan to be prepared by the Interstate commerce commission.

Appropriation of \$500,000,000 to be used as revolving funds from which to make loans to carriers and pay claims growing out of federal control. Unexpended funds now in the railroad administration's hands are also re-appropriated for that purpose and an appropriation of \$50,000,000 for the federal labor board, is provided.

50 NEW CASES OF INFLUENZA SINCE TUESDAY'S REPORT

Five Cases of Pneumonia and
Three Smallpox Cases
Also Reported.

The report of influenza cases to the Pitt county health officer yesterday showed quite a decrease compared to the Tuesday report. Fifty new cases with only five pneumonia cases were reported to the health officer yesterday. The smallpox epidemic has been checked but not completely stopped as three new cases were reported yesterday. The physicians from several parts of the country seem to be confident that the epidemic of influenza has about reached its highest point, and they expect the cases to begin falling off from now on. Several cases of pneumonia have developed in our city, during the epidemic, but according to reports they are doing nicely today. Some who have been so ill are out again.

MANY OPINIONS AS TO SELLING SHIPS BEING EXPRESSED

Chairman Stevens Says That
True Valuation Has Not
Been Worked Out.
PUBLIC SHOULD KNOW
ABOUT FLEET'S VALUE
Commissioner Stevens Will be
Heard Again by Commit-
tee on Tomorrow.

Washington, Feb. 18.—Conflicting opinions as to the advisability of immediate sale of the thirty former German passenger liners recently offered by the shipping board were presented to the Senate Commerce committee today by members of the board. Chairman Payne told the committee that the reconditioning of the vessels for passenger service would involve an expenditure of more than \$75,000,000, and offered a resolution approved by three of the four members of the board requesting authority to put the ships on the market. All bids recently received for the purchase of the liners have been rejected, he stated.

Vice Chairman Stevens, of the board, on the other hand, declared that the vessels should not be sold at this time as their true valuation had never been worked out. He urged that the vessels be reconditioned before their sale. Estimates of the value of the vessels received by the board, he said, had been made with a depreciation charge of five per cent while only 2 1-2 per cent should be thus charged off. He placed the value of the fleet at nearly \$75,000,000.

Opposing the immediate sale of the liners because of the uncertainty as to their valuation, Mr. Stevens said the public was entitled to know whether the fleet was being offered at fair prices. More than money was involved, he added, and the transfer of the ships could not be made until it was known that the best interests of the government were being served.

Commissioner Stevens will be heard again by the committee tomorrow, chairman Jones stating that in view of the rejection of the bids by the board the question of the sale did not call for immediate action by the committee.

MR E. G. FLANAGAN IS IMPROVING

The many friends of Mr. E. G. Flanagan, will be pleased to learn that he is improving from his attack of influenza-pneumonia. Great anxiety has been caused by his serious illness, but late yesterday afternoon he rallied, and has shown a rapid improvement ever since.

FARM WAGES WERE HIGHEST ON RECORD IN U. S. LAST YEAR

The Department of Agriculture
Announces That Were
Highest in History

Washington, Feb. 18.—Farm wages were the highest in the history of the United States last year, the department of agriculture announces. For labor hired, by the month with board, the average for the country as a whole was \$39.82, without board it was \$56.20. Harvest wages per day with board reached the top figure of \$4.48 in the North Central States west of the Mississippi river. The lowest farm wages were in the South Atlantic States, with the South Central States next lowest. Monthly wages with board were highest in the western states, including the mountain and Pacific states where the average was \$62.96 while without board it was \$87.12.

Farming operations of 1919 produced crops that had a value at the farm that was 11.8 per cent above 1918, and animal products 9.9 percent above, but the gain in wages of farm labor was relatively greater. Wages by the month with board increased 14 percent, without board 15.3 percent and day wages in harvest, 18.9 percent.
(Continued on page four.)

MR. ALLEN WRITES ABOUT THE SALE OF CAROLINA STREET

Feels It His Duty as a Public
Spirited Citizen to Say a
Few Words.
GREENVILLE INDEBTED
TO TOBACCO INDUSTRY
Says Tobacco Industry Greatest
Factor Upon Which Hope
Can Be Based.

It is not my purpose to engage in any newspaper controversy about the proposed closing of a portion of Carolina Street by the board of aldermen, but as one of the most concerned property owners on Carolina Street and in that vicinity and the person most vitally effected by the closing of Carolina Street, I feel it my duty as a public spirited citizen, more broad-minded than selfish, to say a few words in support of a great progressive movement the success of which in my humble opinion is necessary for the continued prosperity of Greenville and Pitt county.

It is a conceded fact by all men of intelligence that Pitt county and the town of Greenville in particular is indebted to the tobacco industry for the greater portion of whatever prosperity it enjoys today and there can be no question that it is the greatest factor upon which we can base any hope for the continued prosperity of our town and county. The town of Greenville is already handicapped as a tobacco market and is taking rank far below what it deserves and is entitled to because of the fact that it has not sufficient facilities to take care of the tobacco that should be sold here. Everyone knows the troubles and difficulties that existed on the Greenville market this year because of the inadequacy of the system of double sales and the lack of preparation on the part of the buyers to take care of the tobacco. It is now proposed to put the triple sale plan in effect next season, but, of course, this is predicated upon the condition that the people who buy the farmer's tobacco are able to enlarge their factories and plants sufficiently to take care of the increased volume of sales. It is further generally known that the Imperial Tobacco Company buys approximately forty per cent of the total amount of tobacco sold on the Greenville market.

So, I take it, no one will dispute the fact that it is necessary for the Imperial Tobacco Company to enlarge its capacity if it is to serve the people in the future as it has in the past and no one will deny that it is necessary to our prosperity that it do so. Now, the only practical way for the Imperial Tobacco Company to enlarge its factory, I am informed, is by using that portion of Carolina Street which the board of aldermen proposes to close and permit them to use.

This portion of Carolina Street lies between Atlantic Avenue and the Atlantic Coast Line railroad track and has never been actually opened for public travel and probably never will be even should it not be used by the Imperial as it is blocked up in both directions. Should the town ever deem it necessary which is an absurd proposition to all people who know the facts, to establish and open this street, it would cost thousands of dollars to condemn the right of way, and this would be an absolute useless expense and of no practical benefit to anybody for the reason that there now exists already three other streets running parallel with Carolina Street, to-wit: Virginia Street, South Alley and Bonner's Lane, which are sufficient to take care of all the traffic that leads or will lead that way for the next thousand years. Would it not be much better to improve the streets that we already have in that section that are amply able to take care of the traffic instead of dreaming of remote possibilities in the future which no practical man would suggest? Shall the board of aldermen spend thousands of dollars of the people's money in opening an unnecessary and worthless street and at the same time make it impossible for the Imperial Tobacco Company to enlarge its factory, or shall it close this useless portion of street which will not damage any person except five cents thereby permitting

THURSDAY, FEB. 19, 1920.

The bread loaf gets smaller while the price goes higher.

President Wilson is mentioned as shaving himself. Cutting down the high price of barberism, as it were.

Evidently Mr. Gompers has a better opinion of Russia than is held by the majority of people on this side of the water.

The corporation commission declined to let the Norfolk Southern railroad advance freight rates to Eastern North Carolina towns.

Only seven out of the hundred counties in the state are reported to be free from influenza. They are Avery, Yadkin, Alleghany, Henderson, Davie, Macon and Hoke. Fortunate counties.

The drainage convention to be held in Washington, N. C., next week is a matter in which every section of eastern North Carolina should be interested. We have enough swamp lands, if drained and redeemed, that would raise corn sufficient for the nation.

The hoarders are putting sugar in hiding again preparatory to putting it a little higher in price. It promised not to go above twenty cents, but when the people showed a willingness to pay that much there starts the movement to pull them for more.

Charles E. Hughes has declined to accept a suggestion that he be a candidate for the Republican nomination for the presidency. Guess he got enough of it four years ago.

And the legislature of Maryland refused to ratify the woman suffrage amendment to the constitution. Wonder what's the matter with Virginia and Maryland.

We would like to see the Imperial Tobacco Company get Carolina street so as to enlarge its plant, but the town does not have the shadow of a right to sell it. If the town wants to use the property as a street, its right to do so can be acquired either by gift, condemnation or purchase. But if the town does not want to use it as a street, it is not entitled to any benefit from it, and the title is vested in the former owner who alone has the right to sell it for private use. This seems to be a common sense solution of a muddled local question just at this time. If the property is not to be used for a street the rightful owner should be willing to sell it for as good a use as the Imperial Tobacco Company propose to make of it.

A MACON TEACHER'S DISCOVERY.

A young lady teacher of Macon, Ga., who went down into the mill district to help along with the uplift work by teaching in the night school, discovered that a 16-year-old, illiterate boy whom she was instructing was receiving considerably more pay in the mills than she received as a teacher in the public schools. Is teachers who make such discoveries as this grow discouraged and wonder what is the use for

education, can anyone blame them? If they lose faith in their mission and interest in their work and seek other employment where the remuneration is better, the public alone is to blame. Better pay for teachers or a wrecked public school system is the alternative.—The Houston Post.

A VOICE FOR WILSON.

Ople Read, author and lecturer, happened to be in Lumberton in fulfillment of an engagement at the time the Wilson-Lausing volcano broke forth, and the enterprising editor of The Robertsonian was not slow to get an interview with him. It is refreshing to know that Mr. Read made contentment that President Wilson "was right." He said that "if law and government be matters of precedent, the President was wholly in the right." His argument is that "while the average politician was making cross-roads speeches, paandering to the prejudice of the present, Mr. Wilson devoted himself to the work of delving into the very bosom of statesmanship. That he should have aroused antagonism is not in the least astonishing. Narrowness cannot comprehend breadth, and ignorance is always positive in its wisdom. It appears that Mr. Lausing, able international lawyer that he is, too often assumed the prerogatives of a judge. But the clerk of a court, during the illness of a judge, would go far were he to confer with the jury relative to a prospective decision. The President was within the sanctuary of the constitution. It seems that Mr. Lausing broke a window and looked out."

After awhile, perhaps, we may find others summoning courage to see the matter in a constitutional light and coming to defense of the President. It may turn out, as the sifting-down process is advanced, that President Wilson is not standing quite so severely alone in the view he has taken in the situation, as may have appeared.—Charlotte Observer.

JUSTICE UABLE TO MAKE

LIVING UNDER PROHIBITION

Mineola, N. Y., Feb. 18.—Police Justice George A. Little announced today that he had resigned because prohibition prevented him "making a living." Since the ban went into effect last month his revenues from the office dwindled more than fifty per cent, the justice stated, while there had been not a single case of intoxication and only a few minor assault cases to be tried.

TARGET RANGE SOON TO BE GIVEN TO AMERICANS

American Headquarters, Coblenz, Germany, Feb. 18.—An old target range where German army recruits were taught to shoot and where young Germans were drilled in the use of the bayonet is soon to be turned over to the Americans for agricultural purposes as part of a plan of the American forces in Germany to teach farming to soldieriers desiring to take up such a course. The old range is near Fort Alexander, on a hill overlooking Coblenz on the Rhine. Agricultural text books have been ordered from Washington.

A new educational program being worked out at army headquarters embraces opening of unit schools of instruction for every distinct organization of the American Forces in Germany. Thus the Motor Transport Corps is to have a school for automobile mechanics in Metterich, near Coblenz, the signal corps will have a school for the study of telegraphy and wireless, the quartermasters corps will have a school for cooks and bakers, and the engineers will have a school of their own at some point near Coblenz. It is planned to have unit schools at first and a great central school in Coblenz later.

The educational board in charge of this work is composed of Colonel F. S. Young, Lieutenant Colonel R. W. Holderness and Major C. S. Haight.

THE CANADIAN PREMIER SAILS FOR NEW YORK

London, Feb. 18.—Sir Robert Borden, the Canadian premier, sailed today for New York, where he is to meet Lad Borden. His health, it is stated, has much improved since he left Ottawa and he now intends going to the Southern states to continue his holiday.

RUPTURE EXPERT HERE

Seelye, Famous in This Specialty, Called to Washington.

F. H. Seelye of Chicago and Philadelphia, the noted truss expert, will personally be at the Louise Hotel and will remain Friday only, February 20. Mr. Seelye says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast improvement over all former methods—exemplifying instantaneous effects, immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seelye has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seelye.

13-18-19

ICE SKATING RACE BEING PLANNED FOR THE WINTER

New York, Feb. 18.—An international ice skating race meet in which the fastest skaters of northern Europe will compete against the leading United States and Canadian speed stars, is being planned for the winter of 1921. Details of the meet will be worked out at a conference to be held at Lake Placid, N. Y., on February 18 when skaters from all parts of the country will be present for the international championships of the present season.

Races at various distances will be scheduled for both amateur and professionals the latter to skate for the largest purses ever offered in this department of sport. The sum of \$25,000 suggested as the basis of these purses, may be increased to nearly twice that amount and it is hoped to have among the professional competitors such men as Bobby McLean, world's champion, Oscar Mathieson, Norval Bappte, Edmund Lamy and others. A special land rink with a quarter mile circuit and other features, in addition to present excellent accommodations, are proposed for the benefit of the professionals expected to spend a portion of the winter competing at Lake Placid.

The formation of a new organization to be known as the Adirondack skating Association will greatly facilitate the holding of the proposed international meet. With the consent of the International Skating Association the new body will take over full control of amateur skating in a portion of the territory of the Eastern Skating Association, including all that in New York State from Hudson to Erie and northern New York. Activities will center in the Adirondacks, particularly at Lake Placid, where the International amateur skating championships are to take place Feb. 18 and 19 and at Saranac Lake where the National amateur championship were recently held.

NOTICE

North Carolina, Pitt County.
Rosa King
vs.
Lawrence King.

In the Superior Court.

The defendant, Lawrence King, will take notice that an action entitled as above has been commenced against him in the Superior Court of Pitt County, N. C., for the purpose of procuring a divorce absolute.

And the said defendant will further take notice that he is required to appear before the Clerk of the Superior Court for Pitt County, N. C., on the 8th day of March, 1920 and answer the complaint which will be filed in the office of the said Clerk of the Superior Court on or before said date, or the plaintiff will apply to the court for the relief therein asked.

This Feb. 6th, 1920.

PERSONAL

LASSITER-CAUSEY.
The following announcement, which has been received by friends in this city, will be of interest to people throughout the county. Mrs. Lassiter is the sister of Mrs. L. P. Wayne, of this city, and a native of Craven county. She is an accomplished and attractive young lady and has taught in several parts of the county, where she has won a host of friends.

Mr. and Mrs. J. L. Causey announce the marriage of their daughter
Hollie Cornelia
to
Mr. William Elmon Lassiter
on Tuesday, February the seventeenth Nineteen hundred twenty
Grifton, North Carolina.

ST. PAUL'S CHURCH.
Thursday—Evening prayer and sermon 7:30 P. M. Special preacher, Rev. J. H. Gibboney.

CATHOLIC CHURCH.
The Devotion of the Way of the Cross will be held at the Catholic church every Wednesday and Friday afternoon, during Lent, at 4:30 o'clock.

Knights of Pythias meet tonight.

The local tobacco market closes for the season with tomorrow's sale.

CARD OF THANKS.

The family of Mr. S. A. Stocks, who died in Grifton Sunday, February 8th, wish to express to the people of that town and community, appreciation of their kindness, help and sympathy, during the sickness, death and burial of their husband and father. We had recently moved to Grifton and when this great sadness came into our home, they gave us all their help, care and sympathy and assistance that it was possible, for the very closest of friends, and we thank them.

MRS. S. A. STOCKS AND FAMILY.

KICKED BY CRANK.

Mr. Alva Jordan is wearing his right arm in a sling, due to rather close proximity to the kicking qualities of a Ford.

DEEDS OF TRANSFER.

L. V. Mebane to Mariah Baker, consideration \$95.

HOPE EXPRESSED THAT BRITISH SCHOLARS ATTEND SCHOOL HERE

London, Feb. 18.—Viscount Grey of Falloden told the American Rhodes scholars who crossed the ocean as fellow passengers with him on the Adriatic on his return from his post as Ambassador to Washington that he hoped in time British scholars would go to American and Canadian universities as they were going to Oxford.

"I believe the more association of this kind there is the more the countries will find points of agreement with each other," he declared.

"You belong to the generation," which is going to do the intellectual work and shape the thought and policy of the United States and Canada in the coming years. You will meet at Oxford some of those who are going to do the same for Great Britain. If you form some such friendships with British undergraduates and they with you, they will do something to help the countries on each side of the Atlantic to understand each other, to keep in touch and to like each other. It was the idea of Cecil Rhodes that they should work together. This he believed to be for their own interest and for that of the world. Many of us think that is true and believe that the thing most necessary is for the leading minds of each country to become acquainted with those of the others."

Never try to tan a dog's hide with his own bark.

A few weeks more and won will be kicking because it is too hot.

BERMUDA STILL HAS

LICENSE SAYS PLACARD

Hamilton, Bermuda, Feb. 18.—Posted conspicuously in the lobby of a big local hotel is a placard which reads: "Bermuda still has license. We expect our patrons to exercise common sense. We do not care how little they drink, excess will not be tolerated."

Some islanders affect to see a promise of a great future founded on the dollars of American tourists who, they believe, will flood hither as to an oasis. Others look with apprehension on the prospect. Meantime the conduct of the tourists is being watched with an unusual degree of interest. Some among the new arrivals do not hesitate to say that they made the trip largely in expectation of throwing off the restraint of their homeland.

"We come here to seek freedom, declared a new arrival as he planted his feet against the brass rail of a local bar. We have to seek liberty under the folds of the British flag; wherever the Union Jack waves one can take a drink unmolested."

A companion who ventured to call his attention to the state of affairs in Newfoundland and certain Canadian provinces where the British flag waves over bone-dry regions, was pooh-poohed.

ALEX. KERENSKY IS

NOW IN PRISON

London, Feb. 18.—Alexander Kerensky, the former Russian premier has been imprisoned in the Caucasus according to a Central News dispatch from Copenhagen quoting the Estonian newspaper Varaulias.

The message declares that Kerensky recently proceeded to the Caucasus on board a British steamer for the purpose of inducing the population to promise their support to the Russian Democratic center party. The Caucasus leaders however, gave him a cold reception, it is asserted and on his arrival at Bakin he was arrested and thrown into prison.

No, Nora, painting the cheeks red is not a cardinal virtue.

ARE AGAIN CONFERRING ON PACKERS' AGREEMENT

Washington, Feb. 18.—Attorneys for the five big packing companies met again today with department of justice officials to complete details of the agreed decree under which the packers will be required to discontinue handling of products unrelated to the meat business.

Before the conference ends Attorney General Palmer will announce the court into which the government will go to file the agreement and obtain an injunction carrying out its provisions.

WOLF PACK INVADES SUBURBS OF DULUTH

Duluth, Feb. 18.—For a week a wolf pack has invaded nightly the western end of Duluth and not until last night did trappers and scores of people "lying out" for the pack, succeed in killing one, wounding another, and trapping a third of the pack of twelve.

Two policemen fitted with snowshoes and rifles, prowled the district of Fortieth Avenue West and Eighth street for nearly a week and although they saw the pack drift up and down nearby streets, failed to get a shot at the wolves.

NOTICE.

State of North Carolina, County of Pitt In the Superior Court.
Stella v. Smith

H. C. Smith and the Greenville Banking & Trust Co.

The defendant H. C. Smith will take notice that an action entitled as above has been commenced in the superior court of Pitt county, N. C., by the plaintiff against the defendants, for the purpose of declaring the plaintiff the owner of certain funds deposited by the defendant, H. C. Smith in the Greenville Banking & Trust Co., and represented by Time Certificate No. 582, for \$1000.00. The said defendant H. C. Smith hereby take notice that he is required to appear at a term of the superior court of Pitt county to be held on the second Monday after the first day of March, 1920, at the court house of said county, in the town of Greenville, N. C., and answer or defend to the complaint filed in said action or the plaintiff will apply to the court for the relief demanded in said complaint.

This the 27th day of January, 1920.
J. F. HARRINGTON,
Clerk Superior Court Pitt County.

NOTICE.

As Chairman of the Republican County Executive Committee, I hereby call a convention of the Republicans of Pitt county to meet in the court house at 11 A. M.

TUESDAY, FEB. 24, 1920.
for the purpose of appointing delegates to the Congressional Convention, which meets at Plymouth, Feb. 25th, 1920, and to the State Convention which meets at Greensboro March 3rd, 1920.
G. W. PRESCOTT,
Chairman.

BULLETIN

Great activity in the Fallon Oil fields.

Hotels, rooming houses, apartment houses, cottages, all full, and even the jail full of roomers, but not jail-birds.

Seven carloads of oil drilling machinery shipped from the Texas oil fields to the Fallon Oil Fields, and experienced drilling crews in Reno awaiting this machinery.

Analysis of oil seepage from the Williams ranch well by Prof. L. A. Pringle proves it to be mineral oil. This knocks out the knockers.

A. L. Robinson reports on the characteristic markings in the Fallon field, which indicate that oil will be found there.

Four or five big drills now going down in the Fallon oil fields, and as many more on the ground being set up.

A. E. Wiley, geologist, reports on salt beds in the Fallon oil fields. This salt bed is reported to be one of the largest on the American continent, estimated to contain from 1,000,000 to 6,000,000 tons of salt. The salt is refined by nature 99 per cent pure rock salt.

Now 32 oil companies in the Fallon field.

Fallon Pioneer Oil Co., gets a standard drill.

Potash in commercial quantity developed in Fallon oil fields.

Churchill County Eagle, Jan. 17, 1920.

Nevada's Gold, Silver and other valuable metals has made many millionaires and many more thousands wealthy, practically built San Francisco, and paid the national debt in 1865. Nevada's oil now promises to become its next, and greatest industry. It will make more millionaires, and many more thousands wealthy. You have the opportunity to be one of them. Read about it. It is within the reach of everybody.

This company owns FOUR TRACTS of the best oil land in the Fallon Oil Fields—800 acres all told—and is going to drill to the OIL.

Among those reporting favorably on the Fallon field are: A. E. Wiley, E. P. Osgood, Orlando D. Bartow, Capt. L. W. Crehore and A. L. Robinson, all of unquestioned ability and prominence.

Mr. A. E. Wiley, one of the most competent geologists in the United States, in reporting on the Fallon field says, in part:

"The belts of shale and outcroppings in Township 17 and 18, range 30 and 31, townships 19 and 20, Range 31 and 32, all bear unmistakable evidence that the underlying formation should contain petroleum in commercial quality and quantity." This company owns lands in the above described locality as follows:

320 acres in Section 27, township 18, Range 30; 160 acres in Section 3, township 18, Range 31; 160 acres in Section 5, township 19, Range 32; 160 acres in Section 31, township 21, Range 32.

AN ALLOTMENT OF 250,000 SHARES IS OFFERED AT 10 CENTS A SHARE

Subject to advance without notice... This is bedrock price and the allotment will be sold within a few days.

The first oil well struck in the Fallon Field will make these shares worth many dollars each. Order has many shares as you can afford today. Remember, one good investment is worth a lifetime of poor.

WILEY PREDICTS GREAT OIL FIELDS IN THE STATE OF NEVADA

(New York Morning Telegram.)

November 5, 1919—A. W. Wiley, a well known geologist, who was one of those who made a report on the Inspiration Copper mine prior to its purchase by the Lewisohn interests, is credited with the following prediction about the future of the oil fields of Nevada:

"I'll reverse the old saying, 'He who fights and runs away may live to fight another day,' by making all Nevada fight for me after I demonstrate that this state can and will become one of the most important oil producers in the United States.

"The mines of Nevada furnished gold and silver to pay the interest on the public debt in 1864. I'll give a practical demonstration that this state of boundless resources can produce oil in sufficient quantities to pay a large proportion of the interest on the national debt in 1920 and for many long years thereafter.

"I stand behind my report that oil abounds in Nevada. I'll remain on the job until a producing well is brought in, and if the company with which I am associated does not sink wells and make a producer at Fallon I'll do it myself."

"I believe that every man in Nevada who is now investing in oil in California, Texas, Wyoming, Oklahoma or any place else outside of Nevada, is making the mistake of his life. I think the chances are infinitely greater to secure oil in Nevada, although the field is not half proven at this moment, than any other part of the United States. I wish to emphasize this point and say to Nevadans, 'Invest your money in Nevada oil fields and help bring an era of prosperity which is yours by heritage if you use only ordinary business judgment.'"

Oil seepage has again been encountered in the Fallon field, this time on the ranch of C. E. Smith, in the Stillwater district, and in a neighborhood where the Fallon Oil & Gas Company's big drill is operating. The seepage was encountered in a well being drilled for water and appeared on the water at a depth of 187 feet, about the same depth as it did in the well on the George Williams ranch.

WANTS

FOR SALE—3 HORSES, ONE MULE and lot farming implements. W. M. Moore. 11-1f

FOR SALE—FORD ROADSTER 1918 model. Excellent condition. \$400. Phone 526-J T. I. Moore, Greenville, N. C. 6-1f

MR. ALLEN WRITES ABOUT THE SALE OF CAROLINA STREET

(Continued from page one.)
The Imperial Tobacco Company to contribute its very much needed support in making Greenville the greatest tobacco market in North Carolina? It is not true that the Imperial Tobacco Company is forced to enlarge its factory at Greenville at any price. It can do its expanding at Kinston, Wilson, Ayden, Farmville and other towns just as well as in Greenville and it may do it. It seems to me that it is up to the people of the Town of Greenville to awake from their long slumbers lay aside their selfishness, prejudices, jealousies and other narrow minded things and support the board of aldermen in their effort to do something that means so much to the future prosperity of every man, woman and child in Pitt county as the tobacco industry in the main artery that carries the life blood to every commercial enterprise in our county and whatever effects the industry be it good or bad has its corresponding effect sooner or later upon the individual. Everybody should be interested and the Chamber of Commerce in particular should get behind the movement.

Mr. Munford appears to be the chief objector and obstructor of this proposition and he even bases his opposition on the ground of public interest. However, it appears to me that he has a great deal of personal interest in it and is engaging somewhat in personalities. To my mind whether the mayor has been here ten years or a thousand years does not in any way effect the merit of the proposition at all. It is a bigger thing than the mayor or the Imperial Tobacco Company either as far as its personal interest is concerned and I am not writing in the defense of either of them as they are amply able to take care of themselves. I am writing solely in the interest of the farmers, merchants and all other classes of business men in Pitt county who are vitally affected and should be greatly interested in whatever action is finally taken in this matter.

I appeal to the practical business sense of Mr. Munford and kindly beg permission to ask him a few questions: I would like to know that if expected by his selfish attitude in this matter to antagonize the farmers of the county upon whom he is largely dependent for his trade? How can he expect the farmer to pay for the goods he buys unless that farmer gets a good price for his tobacco? Does Mr. Munford think that the farmer ought to patronize him when he is opposing a thing that means so much to the farmer as nothing at all to Mr. Munford? If Mr.

FOR SENATE.

I hereby announce myself a candidate for the State Senate, subject to the action of the Democratic Primary. 17-1m J. J. LAUGHINGHOUSE.

Munford is so sincere in wanting Carolina Street open, when the town refused to accept a deed as he says, why did he not dedicate it and leave it open instead of placing a house in it? You then thought more of your selfish interest than you did the public interest and when did you change? It seems to me, Mr. Munford, that all your arguments have fallen flat and that after all it must not be so to much the public interest. You let the cat out of the bag when you say that if the street is closed, the land will revert to you. Now, I am not a lawyer and do not pretend to know what law is, but if you will consult a man of legal learning I shall not be surprised if you learn that in the event the street is closed, the land will revert to the present abutting owners and not to the original owner. However, it occurs to me that to whom the title to the land goes in the event the street is closed has nothing whatever to do with the question as to whether or not the street should be closed. I wonder if your attitude about the matter would have been the same if the town was not to receive any compensation whatsoever. In other words, Mr. Munford, you should state to the public exactly what you want. How can any man contend that the opening of Carolina Street at the cost of several thousands of dollars would be of greater public interest than the enlargement of the factory and plant of the Imperial Tobacco Company? If you have the public interest at heart and desire to do your duty for the uplift and rebuilding of your town and county you will do anything that will cause the Imperial Tobacco Company to abandon its plan to enlarge its factory thereby benefiting every man, woman and child in Pitt county.

There is nothing personal about this matter and I have no intention to cast my reflection on any person. I am merely expressing my views in regard to a matter that I conceive to be of the greatest importance to all of us. I regard Mr. Munford as my personal friend and I wish to urge him to look at the matter with a broader vision. It is for everybody's benefit to put this thing through. Greenville is centrally located in the best agricultural and right leaf tobacco section in the United States and with hard surfaced roads in sight and with triple sales and ample factory capacity, it will soon become the greatest tobacco market in the state which will give it a distinctive commercial prestige throughout the state and perhaps the nation. If we all lay aside our groanings, bickerings, contentions, etc., and unite our efforts and all together we can put Greenville on the map and our little town will flourish as the Cedar in Lebanon. This is no time for law suits and contentions. We must now either go forward or backward. Which way shall we go?
WILLIAM H. ALLEN.

(Continued from page one.)

MAYOR D. M. CLARK CLARK RE-PLIES TO ARTICLE BY MUNFORD rue. But it is possible that even Mr. Munford, the venerable progressive citizen that he be, is in error as to what is the best interest of his grantees. Certainly the grantees and those who hold under them entertain an entirely contrary view about the matter, according to the expressions contained in their petition.

However, aside from the interest of the property owners, there does arise the question of legal ownership, for both the Town of Greenville and the Imperial Tobacco Company have been served with notice by Col. Albion Dunn, Mr. Munford's attorney, that if any attempt is made to close said portion of another street is popularly known as Railroad Street and another as the Speed Way, etc. As an engineer I have surveyed nearly all of the streets of

the town and am fairly familiar with them both by name and location. Also I am a North Carolinian, although not a native of Pitt county.

Personally our interest in this matter is based on the proven fact that it will be impossible for the Imperial Tobacco Company to increase its capacity unless this property can be acquired, and therefore realizing the resultant loss to every business interest of the town as well as to the tobacco farmers, we have proceeded to close the said street, and we trust that Mr. Munford will reconsider and not injoin the future progress and development of Greenville.
Respectfully,
D. M. CLARK, Mayor.

When Mr. Munford caused a map to be made of his property known as "Clark's Old Field" dividing same into lots and showing Carolina Street thereon, an athen later sold lots with reference to said street; then and there said street was dedicated to the use of the town in as effective a manner as if a deed had actually been delivered therefor. And as the statute law of the state, upheld by the courts, authorizing the constituted officials of a town to open, alter, change, or close streets, we feel that we have and are acting within our official capacity and legal prerogatives in closing this street, especially as it has been proven beyond successful contradiction, to be for the best interest of the town. Certainly if Mr. Munford ever owned any reversionary interest in this street it was lost by his regrettable bankruptcy proceedings. Even if Mr. Munford were correct in his position that the street, if closed should revert to him, his creditors under said proceedings could step in and possess any interest which Mr. Munford might have in said property which originated prior to the said proceedings and sale thereunder. On this point we have been informed by those who represent the creditors that they are willing to and do waive any interest in said street so far as the town and the Imperial Tobacco Company is concerned.

Mr. reference to Pamlico Avenue as King's Row was for the purpose of public identification, for the street is popularly known as "King Row," just as

AN OLD CONFEDERATE SOLDIER 77 YEARS OF AGE VICTOR, AFTER 35 YEARS OF WAR

TO WHOM IT MAY CONCERN:

I am an old Confederate Soldier seventy-seven years old. Have suffered with Rupture for thirty-five years. Wore a truss most of this time. Could find nothing else to do until I heard of Dr. Dunn of New Bern, and his wonderful treatment. I decided to try his treatment, and to the astonishment of all, the treatment seems to be a success. I carried out his instructions to the letter, and when I put off the truss I began to feel like a different man. I really believe I am perfectly cured. It is wonderful.

Sell At Gorman's

The market on good and fine tobacco has been stiff, prices well up, all the week. The common and medium tobaccos have shown much weakness and the house has had to buy a large per cent of what we have sold. Gormans sold this week 309,945 pounds, average \$39.14 \$121,312.74 Other houses sold this week 245,422 pounds, average \$36.58 \$89,767.79 Market sold this week 555,367 pounds, average \$38.01 \$211,080.53

Although we averaged \$2.56 per hundred more than the other houses we sold during the week 91,161 pounds of scrap which brought \$5,620.78, averaging \$6.17. If you deduct this scrap from our sales it leaves 218,784 pounds sold for \$115,691.96, averaging \$52.88. IT PAYS TO SELL AT GORMANS! The market closes Feb. 20th.
