

## HAYS SAYS PARTY STANDS FOR GOOD OF ENTIRE NATION

Declares Republicans Are for Honest and Efficient Administration.

### PRINCIPAL ISSUES OF PARTY ARE OUTLINED

National Convention Told of Requisites Necessary for Big Campaign.

Roanoke, Va., March 17.—Declaring that the Republican party stands first for, "the honest, efficient, and economical business administration of the country's affairs," Will H. Hays, chairman of the Republican National Committee, in an address before the State Republican convention here today, pleaded for, "patriotism is peace as well as war," and asserted that, the country has, "slipped along under his democratic administration, without any adequate thought of the problems that would confront us until the shock of war was here, just as we did before we entered the war."

Outlining the principal things for which his party stands. Mr. Hays said:

"I suggest that above all things the Republican party stands first for honest, efficient, and economical business administration of the country's affairs. It was formerly said that, 'Honesty is the best policy' as a matter of business. Honesty is the best policy as a matter of morals. In like manner there is but one kind of successful politics, of faithful, efficient, honest, and economical administration. The only successful politics in the situation today is to find out what is best for the country and do it first. We want more men in politics for what they can give and not what they can get."

"I suggest the Republican party stands for the development and execution of a plan for the reduction of taxes, with the repeal of taxes which kill initiative, and the spreading of war debt over a large number of years."

"I believe there shall be developed a better relation between labor and capital, with justice to both and with justice to the public the third side of the triangle, which must not be forgotten."

"We feel that there shall be an administration of law and order everywhere in the nation."

"The party shall measure its steps forward by the new needs, of the nation with eyes always ahead, but with its feet always on solid ground."

Asserting that there are two natural inquiries from women new in politics, "What does the Republican party offer the women? and What does the Republican party stand for?"

### GERMAN SITUATION REPORTED WORSE N LAST SEVERAL HOURS

Paris, March 17.—German conditions have grown worse for the last 24 hours, dispatches say. There is little doubt that the Kapp movement will be flagged, but a general strike has casted the country in a state of confusion. Disorders in many sections are attributed to the Spartacists who see opportunity to create trouble. The mobs stormed the French headquarters and several French officers narrowly escaped lynching, the Berlin Dispatch says. Fifty-nine were killed in Treves, the American zone of occupation, the Dispatch says. A Frankfurt says that Kapp will retire unconditionally as the result of the threat of the armed workmen to attack new regime.

### ALLIED TROOPS NOW OCCUPY BOTH SIDES OF BOSPHORUS

Constantinople, March 17.—Allied troops have occupied Constantinople and guns of giant Allied warships have been cleared for allied command of both side of the Bosphorus. The arrival of the Allies caused no panic except in Stamboul. All Allied powers participated in the movement under the British command here.

Mr. John R. Slyder, representing Dodson Printers Supply Co., Atlanta, Ga., spent a short while here yesterday evening.

## ONLY FOUR CASES WERE DISPOSED OF IN COURT TUESDAY

Court Orders Mistrial in Case of Walter Barfield vs. M. L. and W. T. Cannon.

### TWO DIVORCE SUITS GET FAVORITE DISPOSITION

Case of Willoughby vs. N. & S. Railroad Compromised Before Hearing.

On account of the absence of witnesses in the land controversy case of Walter Barfield vs. M. L. Cannon and W. T. Cannon, Judge Connor in yesterday morning's session of the civil term of Pitt county superior court ordered a mistrial of the action, setting it for the third case on the calendar of the next term of superior court which will convene in this city April 12th. The action was taken up for consideration by the court Monday evening, and it was expected that it would be concluded by yesterday evening, but the failure of prominent witnesses to be present set aside any possibility of completing the issue as anticipated.

Three other cases occupied the attention of court officials following decision in the land controversy case, and altogether pretty good time was made, particularly during the evening session. Two divorces were granted in which the colored participants, in both cases, furnished the court with enough work for several hours. The two divorce actions receiving favorable action were: Thomas Hunter vs. Mary Hunter, Sam Moore vs. Ora Moore.

In the case of Lawrence Willoughby and Jennie Willoughby vs. Norfolk Southern railroad compromise proceedings were taken, eliminating the lengthy suit which in all probability would have resulted had not the issue been completed amicably before being considered by the court. The suit was precipitated, it is said, by the railroad damaging certain portions of a tract.

## NEW RESERVATION TO PEACE TREATY TO BE PRESENTED

Republican Senators Agree on Declaration of International Politics.

Washington, March 16.—A general declaration of international policy, under which the United States would view with "grave concern" any future upheaval threatening the peace and freedom of Europe was agreed on by Republican Senate leaders today and presented as a new reservation to the peace treaty.

Intended to replace the more definite pledges of Article Tn, the reservation is to be pressed in the senate as the farthest step the Republican leaders are willing to go toward abandonment of American isolation and participation in European conflicts. Its text follows:

"It shall be the declared policy of this government that the freedom and peace of Europe being again threatened by any power or combination of powers, the United States will regard such a situation with grave concern, and will consider what, if any, action it will take in the premises."

Senator Lenroot, of Wisconsin, drafted the reservation in consultation with other Republican leaders and introduced it in the senate at the end of a day of debate on the Irish question which delayed action and blocked the plan to set a day for a final vote on the treaty's ratification. It generally was predicted tonight, however, that discussion of the remaining issues of the treaty controversy soon would spend itself and that the ratification roll call would come Friday or Saturday.

## MANY NATIONS ARE BEING RECOGNIZED BY UNITED STATES

Forty-Two Countries Are Now Represented in Washington by Embassies.

### OTHER NATIONS SEEKING RECOGNITION AT CAPITOL

Diplomatic Relations With Bulgaria Have Not Been Severed Completely.

Washington, March 16.—More foreign governments are represented by embassies and legations in Washington than in any other capital in the world. In all 42 countries have accredited representatives here. Besides these there are many unofficial representatives of nationalities seeking recognition from the American government. Chief among these latter are representatives of the Irish, Ukrainians, Armenians, Lithuanians and Albanians. Only the states of Monaco and San Marino appear to remain unrepresented.

Albania, whose status is one of the principal points of controversy in the Adriatic problems, has as its "envoy," C. A. Chekreni, a graduate of Harvard University, on one of the first of his country ever to appear in America on a professed governmental mission. Another of the Balkan states, Montenegro, still maintains its legation despite the incorporation of Montenegro in the Serb-Croat-Slovene state and the deposition of former King Nicholas, whom the legation ostensibly represented. Bulgaria, a third Balkan state, occupied the position, during the war, of being the only country at war against the Allies, and yet represented here by a legation. Diplomatic relations between the United States and Bulgaria were never severed.

## ITALY HAS BARRED WOMEN FROM DUTY IN STATE OFFICES

Women Have Been Barred from Over Fifty Positions With Government.

Rome, March 16.—Italian women have been barred from 50 positions mostly in state employ by an official announcement just issued by the government. This order excludes women from appointment to the diplomatic and consular service and from becoming members of the council of state or of several courts.

No reason is given for the declaration of this ban but Italian observers point out that evidently the authorities believe it none to soon to raise a barrier against the possible aspirations of Italian women for public office.

Professor Teresa Labriola, daughter of the distinguished professor of Sociology, has lately obtained the right to practice law before the courts and, after a struggle of more than seven years, Dr. Adelfina Pertici has obtained permission to perform the functions of a notary. Those innovations have alarmed Italians who hold conservative views on the appearance of women in public life and to this is attributed in part the new bar against women set up by the government.

### GERMAN COMMUNISTS BEGIN AGITATION FOR THE SOVIET

London, March 17.—Independent socialists, communists of Germany have begun a violent agitation for Soviet government, the Exchange Telegraph dispatch says.

## EXPERTS TO URGE GREAT EXTENSIONS FOR SAVING SUGAR

Department Agriculture Urges Farmers to Develop Vast Resources.

### NORTH CAROLINA AMONG UNDEVELOPED REGIONS

Experts Say This Year's Sap Will Be More Satisfactory Than Formerly.

Washington, March 16.—The sugar shortage and the approach of "sugar weather" lead department of agriculture experts to make the statement that many thousands of American farmers throughout a region comprising more than a score of states, in the eastern and northeastern part of the United States, are overlooking opportunities to secure maple sugar and syrup for home use, as well as for sale, at very little cost.

While Americans commonly think of the maple sugar industry as confined largely to circumscribed areas in New England and New York, there are, as a matter of fact, many potential "sugar bushes" in the region extending as far south as North Carolina and Tennessee and westward to northern Missouri, Iowa and Minnesota as well as in Washington and Oregon. In a good season a tree fifteen inches in diameter will yield sufficient sap to make from one to six quarts of syrup, which in turn can be concentrated into two to ten pounds of sugar.

Discovery was made by government inspectors of many groves of sugar maples in North Carolina, one of which is probably larger than any now to be found in New England. The owners, being unaware of the value of the trees from the maple sugar standpoint, had begun cutting them for lumber at an average return of less than \$1.00 a tree. Last season, upon suggestion of government experts, these groves were tapped and yielded syrup that sold for \$4 a gallon. Revelation of the potential value of the groves induced the owners to plan more extensive operations for this spring.

The local rotarians are back from Greenville, S. C., where they attended the three states district meeting. They report a great trip.

Have you listed your taxes?

## FAIR AND WARMER TO BE PRESENTED HERE MARCH 23RD

The Avery Hopwood Farce Scheduled for One Night in White's Theatre

"Fair and Warmer," the Avery Hopwood farce which was talked of in New York till it was famous all over the country, will be presented by Spaeth & Company at White's Theatre on Tuesday, March 23rd with an excellent cast of farceurs.

This gale of merriment which taxed the vocabulary of every New York reviewer and every correspondent of the out-of-town press, and which was hailed as the fount of the season's greatest gaiety, made such a prompt success at the Harris Theatre in New York last season, that before the end of its first three months, it was in demand from North, East, South and West, for many months before Spaeth & Company were able to place it on tour. Its reputation is that it has had few equals and no superiors, in all the history of the American theatre. Spaeth, Spaeth & Company send it here with an admirable cast.

You are in mighty good company when you join the big family of Reflector readers.

## NEW SALES TICKET TO BE ADOPTED BY TOBACCO INDUSTRY

U. S. Tobacco Board Selects Triple Carbon Ticket for Entire Country.

### RICHMOND MEETING GETS SPLENDID ATTENDANCE

Local Men Return Reporting Pleasant Trip and Interest for Industry.

Messrs. W. I. Skinner and J. F. Brinkley, who represented the Greenville tobacco market at a meeting of the United States tobacco board of trade, which met in Richmond, Va., last Saturday, have returned to their homes in this city reporting an enjoyable trip and bright future for the tobacco industry as a result of the meeting in which representatives of practically every bright leaf district of the country attended. The purpose of the meeting was to establish a uniform sales ticket for use throughout the entire country, and after considering the matter from every angle and observing various forms in use in numerous districts selection centered upon the triple carbon ticket now in use in the burly sections.

The new ticket, which is to be adopted as a standard form for virtually every market of the country, is superior in many ways to the ones now in use on southern markets, and it is believed that it will supplant the old method without the slightest opposition, and help the industry in various ways. The Greenville market will adopt the new form for next season, it is understood, and the old ticket will be eliminated entirely.

Prominent tobaccoists in many territories have realized the superiority of the carbon ticket for some little time, and the successful meeting in Richmond came about after short but effective agitation in centers acquainted with conditions of the industry and requirements necessary for more extensive operations.

### FIVE PERSONS ARE FROZEN TO DEATH IN DAKOTA BLIZZARD

Bismark, N. D., March 17.—Five were frozen to death and thousands of dollars of damage due today to a blizzard which swept the state. It was the worst in thirty years. The fatalities occurred when persons were lost on the prairies.

## LOCAL COMMITTEE IS APPOINTED FOR CHURCH MOVEMENT

Movement to Be Completed in Forty Days.

The inter-church world movement, which is receiving wide attention, will if plans mature, meet here within the next forty days. The temporary committee has already been elected. Prof. June Rose, of the Methodist church will have charge of "Life Enlistment," Rev. S. K. Phillips, of the Presbyterian church, will have charge of "Stewardships," G. H. Cox, of the Episcopal church, will have charge of "Missionary Education," and Rev. W. P. Shamhart, of the Christian church, will have charge of "Spiritual Resources." It promises to be full of interest, and the churches which are to take part are very much concerned over the success of the meeting.

Mrs. Lucy Moyer and Miss Nanmie Johnson Rowlett left this morning for Blackstone, Va., to visit relatives of little Miss Rowlett. From Blackstone they will go to Petersburg to visit Mr. and Mrs. C. B. Rowlett.

Weather getting around to a spring feeling.

## GERMANY STILL TO RETAIN ITS POLICY OF FIXING PRICES

Government Has Decided to Continue Fixing Prices for Commodities.

### MINIMUM PRICE WILL BE INCREASED 100 PERCENT

Farmers Vigorously Opposed, and Urge Restoration of Free Trading.

Berlin, March 17.—The German government has decided to retain throughout the coming harvest year its policy of fixing prices for wheat, potatoes and other basic food commodities, despite strong opposition by the farmers. At the same time it has announced that the minimum prices which may be demanded for these food supplies will be increased by 100 per cent for wheat and 300 per cent for potatoes. These advances are intended as a partial concession to producers, to allow for the reduced purchasing power of German money and the increased cost of production.

Under the new scale of minimum prices wheat is fixed at not less than 1,000 marks a ton, potatoes at 500 marks a ton, rye 900 marks, barley and oats 800 marks. This fixing of a minimum price is a reversal from the former procedure where maximum prices were fixed. Producers had opposed the maximum price system on the ground that it failed to provide for the general increased cost of production.

Farmers also vigorously opposed continuance of the government's policy of fixing prices, and they attempted to have the free trading system restored. The government, acting through the Economic Council, insisted that the price fixing was necessary because the food situation continues precarious and because Germany is obliged to rely upon her own production until the country is placed in a better position for buying in foreign countries.

The government cited as evidence of probable disastrous results if control of prices were removed, the fact that when oats were released for free trading they sold in the open market at 4,400 marks a ton while wheat was fetching 500 marks a ton.

MARCH 17, 1920.

Equal suffrage probably will not have a tendency of equalizing house rent and grocery bills.

The popularity of revolutions in Germany are not offset by rioting occurring in other districts.

That embargo on foreign travel because there is no secretary of state to sign passports may bring congress to realization that any official at all is better than none.

Having two governments in Germany appears to be producing disquieting conditions in many territories, and sets aside that old adage about two heads being better than one.

The prospects of league base ball in Greenville this summer is so alluring that we are inclined to believe the hot rays of the hottest sun could not make us forsake the bleachers even for a moment.

It was not at all surprising that the senate adopted the Lodge reservation to Article Ten of the peace treaty, but it is a matter of much regret that definite action could not be reached earlier.

Easter hats are on display in various millinery stores of the state, and as customary, the poorly paid workman is looking at his weekly earnings, fearful that wife's ambition may overstep ordinary limitations.

Bill Hohenzollern certainly must feel gratified in knowing that he is among friends at last, altho it is possible Holland cannot feel the same in the face of her refusal to release the monarch.

Millerand, French premier, says his country is asking for friendship of the United States, and not for charity. However, if the spirit of charity had not been behind actions of this nation in the past, wonder where France would be now.

The summer and fall of this year will prove eventful periods to Greenville people. League baseball, a county fair and good horse racing are amusements appealing to everyone, therefore, the era will be one long remembered if present plans mature.

Those bee enthusiasts of the State agricultural department dwell with unmistakable pride on certain qualities of the busy bee, but they have failed to inform us just why the little fellow becomes so belligerent when in a sitting position.

If those other towns would come in and help Greenville as they should, league baseball will be a sure thing the approaching season. It is to be hoped a favorable response will be received by enthusiasts here, for then, we wouldn't have to worry over the matter any longer.

All phases of the prohibition question are being considered in practically every part of the United States, but the wets are getting very little consolation out of their endeavors, after all.

## TEACHER SHORTAGE GRAVE PROBLEM.

The teacher-shortage situation, while in some parts of the country slightly better than last October, when the National Education Association made its inquiry, is still a very grave problem, according to reports received by the Bureau of Education, department of the interior.

On February 13 the Commissioner of Education found, on the basis of returns from State school officers, that there are 18,279 schools closed because of lack of teachers, and 41,900 schools taught by teachers characterized as "below standard but taken on temporarily in the emergency." The largest shortages are as follows: Kentucky, 2,250; Texas, 2,055; Virginia, 2,000; Georgia, 1,500; North Carolina, 700; Iowa, 600.

Standard teachers are reported as follows: Texas, 4,000; Virginia, 3,500; Alabama, 3,500; Georgia, 3,000;

Tennessee, 3,000; Minnesota, 1,830; Illinois, 1,200; Kentucky, 1,100; New York, 1,100; South Carolina, 1,000.

In response to the question, "What provision is made for children in territories where schools are closed?" eighteen States report that children are transferred to other schools, three states report no provision, one state report requires "some," two states report that the majority of children are losing the grade.

In response to the question, "are people moving to centers of population?" six states report that no data are at hand; five states report "very little"; three states report a considerable movement, and four states report "none."

In response to the question "to what extent are taxpayers interesting themselves in paying better salaries for teachers?" 14 states report that the interest is general. One state reports "great interest," and one state reports very large interest; while another reports that they are "doing their best."

The senate might as well confirm the appointment of Bainbridge Colby as secretary of state, for after all, the president has not been so very unwise in his selection.

Now that Serbia has formally proclaimed its independence what would be more perfectly natural than to hear Ireland will do the same regardless of allied interference. The spirit of freedom is prevailing in virtually every section now, and it is only natural to expect that smaller countries are desirous of throwing off the protecting yoke of some larger power.

The general run of women display splendid taste in selecting reasonable wearing apparel, but some of them, as we are all cognizant, show mighty little sense in the selection of a shoe. Take the high-pitched heel now in evidence in every fashionable center, and you have enough to make one of the old-fashioned type of women faint for fear of calamity, could she see it.

## CHANDLER SIX Famous For Its Marvelous Motor

### Chandler Leads Because of Its Real Worth

It is easy to boast and make claims and to so magnify mere incidents that they may appear as mighty events. It is easy to paint in the colors of exaggeration.

Chandler advertising has never carried boasts or unfounded assertions to the public. It has never extolled some single performance as final evidence of superiority.

The Chandler Six is so distinctly the leader among medium-priced high-grade cars because of its own worthiness, which for sales purposes does not need the support of exaggeration.

Chandler worthiness comes primarily, of course, from its great chassis, light, strong and enduring, featured by the famous Chandler motor developed throughout seven years of constant manufacture with no change of type of design, but with refinements and developments which have kept it long strides ahead of any other six.

This isn't a claim. It's a fact, and over sixty thousand Chandler owners would tell you so if you could ask them.

Six handsome bodies, splendidly built and finished, are mounted on the one standard Chandler chassis.

We call attention not so much to the size of this average daily production as to the extent of the effort we put into the making of these 30x3-, 30x3½-, and 31x4-inch sizes.

The separate factory we have devoted to their manufacture is not only the largest of its kind in the world, but it makes fully effective that experience and resourcefulness which have produced the tires most popular on the higher-priced cars.

No tires bearing the Goodyear name contain a higher relative value than these tires for Ford, Chevrolet, Dort, Maxwell and other cars requiring the sizes mentioned.

If you own one of these cars, go to the nearest Goodyear Service Station Dealer for these tires and for Goodyear Heavy Tourist Tubes. He has them.

### FACT

**Local Evidence.**  
Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here's a Greenville fact. You can test it.  
J. Frank Brinkley, 1100 Chestnut street, says: "From a heavy strain and bending over so much many years ago my back and kidneys got in bad shape. My business requires me to stoop over a whole lot and there were times that if I would bend over, I could hardly straighten. I was in misery. My kidneys didn't act properly and I had to get up often at night on this account. I had no ambition to do anything. Finally I began taking Doan's Kidney Pills which I got at Bryan's Drug Store and am glad to say they put me in good shape again." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brinkley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

of woodland owned by the plaintiff, and failure to make immediate reparation for the loss incurred.  
There are several other matters of interest to be taken up during the two weeks session of civil court, and although the calendar may not be completely cleared in readiness for the April term, it is believed that all long drawn out issues will be ended by the expiration of this session and only a number of minor matters left on the docket to be taken up during the next term which will be featured by the usual one week civil and criminal sessions.

### DAUGHTERS' OF THE CONFEDERACY MEET.

The George B. Singletary Chapter of the U. D. C. was called to meet at the home of Mrs. James L. Fleming on Tuesday afternoon to re-organize. The meeting was full of interest and enthusiasm.

All old members who wish to be re-instated, and new ones who would like to join please phone the secretary, Mrs. Chas. Laughinghouse at once.

### OIL DARK LANTERN GIVES AWAY TO ELECTRIC LIGHT

London, March 13.—One of the most picturesque features of the varied outfit of the London policeman, the old-fashioned oil dark-lantern, is to give place to the electric flashlight.

The London "hobby" has been accustomed when darkness fell to light his lamp and attach it to this belt at the back slightly on the right side. It generated too much heat, was cumbersome and when a policeman engaged in a scuffle with a criminal his clothing was generously sprinkled with kerosene.

# EASTER!

That give a delightful expression to feminine beauty and charm. The grace of a rounded arm, the loveliness of the neck, the beautiful curves of the body, the trimness of a well shod foot—of what avail are all these charms of womanhood without a beautiful setting.

Our dresses are the sympathetic interpreters that every girl or woman need to enhance their charms

Neither young—girly nor mature, neither prim nor audacious. Our Frocks are just right. They cleverly combine the smartness of the most exclusive dress making with the bewitching charm of North Carolina womanhood.

Lustrous materials that give real wear; exquisite workmanship to the minutest detail; and extraordinary values are the distinctive traits of our stylish Easter Dresses for Spring wear. They are wonderful—you should see them—we beseech you.

**Suits, Coats, Blouses**

We realize that the final arbiter of style is

**Good Taste**

be it Suit, Coat or Dress, we feel assured that an Epicurean of style, would smack at the good taste shown in our selection of Spring costumes. We really believe, we have a beautiful showing. Easter only three weeks hence. Let us show you.
