

PRESIDENT EBERT AGAIN IN CONTROL OF HUN DISTRICTS

Chancellor Schiffer and Minister Noske Restoring Order in Berlin.

TROOPS GUARD STREETS IN NATION'S CAPITOL Reactionaries Fire Parting Shots on Leaving City, Wounding Many.

Berlin, March 18.—The Ebert government is again in control in Berlin. Vice Chancellor Schiffer, in whose hands the sudden retirement of Dr. Wolfgang Kapp, temporarily placed the administrative power and Gustav Noske, minister of defense, are engaged in bringing about order in the city and restoring activities to their normal basis.

Regular troops loyal to the Ebert regime are guarding the streets, and detachments of them spent part of the day in tearing down wire entanglements and barricades which the revolutionary soldiers had erected in profusion. In this connection there was an unfortunate accident, the firing of a mine to destroy a barricade at Kottbuser, in Southeastern Berlin, killing 12 persons and injuring 28.

The Baltic troops, leaders of the insurgent bands that marched into Berlin Saturday morning, took vengeance on the people who hooted and jeered them in Wilhelmstrasse and Unter Den Linden. They were lined up for their departure out of the city, and after withstanding the jeers for a short time more or less impatiently, they opened fire, wounding several. The crowd rushed to take refuge in the Adlon hotel, where the wounded were treated.

After the troops had passed Brandenburger gate, they fired a parting volley with machine guns, wounding a score or more, and the terrified mob again rushed to the hotel, the gates of which were torn down in the ensuing panic.

Dr. Kapp's descent upon Berlin and his subsequent retreat has precipitated parliamentary chaos, which promises indefinitely to clog the legislative machine and the activities of the national assembly. Coalition parties must construct a new cabinet, which is expected to reveal at least half a dozen new faces, with the prospect of further ministerial changes as a result of the June elections.

The assembly will not be dissolved immediately because it must first approve the budget, dispose of further taxation measures and the law decreeing the nationalization of the railways and pass a new election law.

There are conflicting reports concerning amnesty for the rebels, and this matter promises stormy scenes in the coming meeting of the assembly as late popular feeling in Berlin now favors severe punishment for Kapp and his adherents.

The French charge d'affaires called on Vice Chancellor Schiffer and under Secretary Von Haniel today and complimented them and their government upon the happy and rapid solution of the crisis. He expressed the opinion that it would undoubtedly contribute toward strengthening Liberal and democratic thought in Germany.

TERRIFIC DUST STORMS ARE REPORTED IN THE SOUTHWEST

Chicago, March 19.—Terrific dust storms continue in the southwest blizzard. Northwest dust clouds and Hudson dust clouds in northwest Colorado lasted for many hours, and the Colorado southern railroad tracks were so buried that trains had to be derailed. Great damage is reported to the wheat crop in Kansas.

GENERAL PERSHING INDORSES ACTIVITY IN SALVATION ARMY

Writes Letter to Mrs. Booth Commending Great Work of Her Followers.

SPLENDID SERVICE WAS RENDERED AT THE FRONT Incidents of Special Interest Are Recalled in Letter of Thanks.

Atlanta, Ga., March 19.—Speaking from personal knowledge of the work of the Salvation Army overseas General John J. Pershing has written a letter to Commander Evangeline C. Booth commending the service rendered by the American soldiers by this organization and indorsing the second home service fund appeal scheduled for May 10 to 20.

General Pershing is intimately acquainted with the work done by the Salvation Army abroad and his letter is written, he says, so the country generally may be more fully informed of the splendid services performed by the representatives of this organization during the war. His letter to Miss Booth follows:

"It has been brought to my attention that the Salvation Army will shortly conduct a campaign for the extension and endowment of the organization. That the country may be more fully informed of something of the splendid services performed by the representatives of the Salvation Army abroad during the war, please permit me to add a word of appreciation in addition to that already accorded by the men of the American expeditionary forces.

FAIR AND WARMER TO PLAY IN LOCAL THEATRE TUESDAY

Late Comedy and Farce to be Presented Here for one Night Performance.

"Fair and Warmer" is the piquant title of Avery Hopwood's latest and finest farce, which ran for one year at the Eltinge and Harris theatres, New York, and for six months at the Cort Theatre, Chicago, and which Spauth & Company, having put it on tour in response to universal demand, will present at White's Theatre on Tuesday, March 22nd.

Mr. Hopwood's farce tells a merry tale of how two highly respectable and more than averagely domesticated persons, discovering that their respective errand spouses had taxed their patience till it ceased to be a virtue, rose in their righteous wrath and tried to be wicked.

Having little or no experience in wickedness and being hindered rather than helped by what they knew of it by hearsay, they involved themselves in terrible calamities, while the former naughty members of their families had the righteous indignation all to themselves.

The innocent, meanwhile, having even less knowledge of how to get out of trouble than how to get into it, saw their plight increase till it all but obliterated them. It is precisely the sort of idea which Avery Hopwood knows best how to put thru its paces, getting its finest farcical flavor, and giving it his deftest characterization and satirical comedy. One scene, now famous as the "Cocktail Scene," was described by the reviewers as the best in the whole history of farce.

DRAINAGE MEETING WILL NOT BE HELD UNTIL MARCH 31ST

Washington Convention Postponed on Account of Recent "Flu" Epidemic.

DELEGATES NOTIFIED IN EVERY PART OF STATE Convention Was to Have Been Held During Middle of Present Month.

J. F. Harrington, clerk of Pitt county superior court, this morning received a letter from the North Carolina Drainage Association announcing the postponement of the drainage convention which was to have been conducted in Washington, N. C., during this month. A new date, however, was immediately decided upon after postponement was found necessary, it being March 31 to April 1st.

The letter stated that the recent influenza epidemic in this section of the state made it advisable that the meeting be deferred to the latter date, so as to give all delegates an opportunity of being present and participating in activities of the two day session. The association is taking every step possible towards informing interested parties of the change in date so little confusion will be in evidence concerning the event.

Much interest has been exhibited in the convention in this part of the state, particularly by persons who have been interested in reclamation of farm lands and it is believed that a good representative of citizens from this place will be in attendance at the opening session. Subjects of vital interest will be discussed throughout the entire session, and it is highly probable that this section of the state will derive great benefit from influences coming about as a sequence to the meeting.

TO WAGE FIGHT IN GIVING PRODUCTION GREATER INTEREST

United States Chamber Commence to Begin Campaign for Big Production

Washington, March 18.—Seeing in increased production a means of restoring normal business and price conditions, the Chamber of Commerce of the United States, it is announced, will inaugurate its eighth annual meeting, to be held in Atlantic City April 27 to 29, an Increased Production Convention.

Every topic will be considered from that viewpoint. The relation of government to production will be first taken up and under that heading will be considered anti-trust legislation and taxation. Business of every kind is declared to be keenly interested in taxation, especially excess profits taxes.

Another phase of the problem to be discussed will be the part of the government, the farmer and the business man in increasing farm production. Secretary of Agriculture Meredith will speak for the government. The relation of labor to production will be approached from both sides, the employer's viewpoint to be presented by a representative of the American Federation of Labor and the employer's by a business man. There will be group meetings for each of several great divisions of industry.

When we think pretty weather has set in for keep, rain comes and spoils it.

INCREASE OF PAY OF NAVY OFFICERS HAS BEEN DELAYED

Enlisted Men and Jretty Officers Must Wait Until Demands Are Fulfilled

FINAL ACTION MUST BE THROUGH CONFERENCES Democratic Leaders in the Senate Watching Movement With Interest.

Washington, March 18.—Increased pay for petty and warrant officers of the navy as well as for the enlisted men must wait until the commissioned officers abandon their demand for additional compensation.

This was the substance of a statement made by Representative Frank W. Mondell, Republican floor leader, who replied to the assertions that the navy is being demoralized by the failure of congress to agree upon increased compensation measures.

Final action on the proposed increase must come through the appointment of a conference committee of the house and senate to consider the provisions of bills adopted by the two houses some time ago.

The senate conference committee has been appointed. The house committee has not and, according to Mr. Mondell, the appointments will be held up indefinitely, or so long as the commissioned officers continue to demand an increase in their pay.

In the meanwhile, according to reports which reach the house and senate, a very serious situation confronts the entire naval service. Men are seeking places outside the service and are getting them. Many have gone into the service of the Shipping Board and others are going entirely outside the government service. The coast guard is "shot to pieces," according to these reports, and other branches are almost in as bad shape.

We are excavating for enlargement of our warehouse and will give dirt to any one if hauled away at once. FORBES & MORTON.

NANTUCKET FACES GRIM FIGHT WITH INFLUENZA DEATH

Short Fuel, Waging Grim Battle With Sickness, People in Dire Distress.

Nantucket, Mass., March 18.—Short of fuel and having waged a grim battle with sickness and death from influenza while isolated by 30 miles of impassable ice, the people of Nantucket are emerging from what they call the hardest winter they ever experienced.

They are used to isolation by ice but this year the shortage of fuel coupled with the influenza caused hardship and suffering. A fleet of schooners chartered to bring to the island its winter supplies was storm-bound in Long Island sound port in December and by the middle of February the coal in the hands of dealers on the island was exhausted. Thereafter coal was loaned by the hopeful from one family to another and supplies of it in summer cottages were taken by permission of the owners. Thus the people kept from freezing until, early in March, a coast guard cutter broke a passage through the ice and towed a coal-laden schooner to Nantucket.

The fishing fleet was frozen in the harbor for two months beginning at Christmas.

ONE CIVIL ACTION GIVEN HEARING IN COURT YESTERDAY

Jury Returns Verdict in Favor of Defense in Case James vs. Whitfield.

DEFENDANT NOT ORDERED PAY HUNDRED DOLLARS Sum Owed by Note for Horse That Died After Purchased Not Required.

Yesterday morning after completing the case of Emma Hardy vs. Phoenix Life Insurance Co., Pitt county superior court entered upon the case of J. H. James vs. R. L. Whitfield, which consumed the remainder of the day's session, the action being completed late in the afternoon when the jury rendered a verdict in favor of the defense. The decision of the court provided that the plaintiff should not recover the sum of \$100 resulting from the sale of a horse to the defendant, who gave his note and defused payment of same, claiming that the animal was in an unsound condition when purchased, and died shortly afterwards.

A number of witnesses were examined on both sides, but those appearing in interest of the defense were convincing in testimony, stating their knowledge of the transaction in clear, forceful way. It appears from facts in the case that Mr. Whitfield purchased the horse from Mr. James for \$150, paying \$50 cash, and giving his note for the remaining hundred dollars. Shortly after the purchase the horse died, and investigation showed that the animal was in an unsound condition when sold, having what is known as the pink eye.

The plaintiff contended that the horse was in splendid condition while in his possession, and when the note matured called upon the defendant for settlement. This was refused, precipitating strained relations between parties involved and precipitating the suit. Contentions of the sound condition of the horse were reiterated time and again during the trial, but testimony (Continued on page two.)

TEXAS GAS PLANT TO BE COMPLETED AT EARLY SEASON

Great Helium Plant for Non-Inflammable Gas Costs About \$5,000,000.

Fort Worth, Texas, March 18.—A great helium plant from which the United States government hopes to obtain non-inflammable gas in sufficient quantities to supply its military balloons to near completion here. Installation of machinery has begun and it is expected the plant will be in operation by August 1, unless congress should fail to further support the undertaking. Helium is extracted from natural gas by a secret process.

Construction of the plant, the only one of its kind in the world and at a cost of approximately \$5,000,000, was started during the world war following a series of experiments conducted by army and navy experts here and at Petrolia, Texas. Beyond the fact that a non-inflammable, non-explosive, gas had been developed, the results of the experiments have remained a secret. The helium plant, since its construction started, has been under military guard. A naval lieutenant is in command.

AMERICAN SENATE FAVORS PLAN FOR IRISH HOME RULE

Senate Breaks from Republican Control Presenting New Declaration.

TREATY DEBAT REACHES FAR INTO MIDNIGHT HOUR Senator Simmons Attempts to Secure Substitute for Article Ten.

Washington, March 18.—Proceeding under forced draft to reach a final ratification vote in the peace treaty tomorrow the Senate broke from control of the Republican leaders today and unexpectedly swept into the Republican reservation program, a declaration of sympathy for self-government in Ireland.

The proposal won out in committee of the whole by a vote of 8 to 36, after an all day debate. On a necessary second vote this action was confirmed later 45 to 38.

During the debate Democratic leaders supported the reservation and the managers on the Republican side opposed it because it included a general declaration that this nation adheres to the principle of self-determination of peoples. On the first roll-call, 21 Democrats and 17 Republicans, including the irreconcilable foes of the treaty, voted for adoption, while 20 Republicans and 16 Democrats were recorded in the negative.

Revival of the Irish question prolonged into the night the Senate's task of putting into final form the resolution of ratification, on which it is planned to bring a vote tomorrow. One after another, a long list of miscellaneous reservations were voted down with the leaders bent on completing their task before adjournment.

The outcome of the ratification vote was not generally regarded as having been influenced by the day's developments though a number of Republicans counted on to vote to ratify, including Senator Lodge, of Massachusetts, the party leader, expressed bitter disapproval of the Irish reservation in its final form. On all hands the prediction was that the treaty would fail to receive the necessary two-thirds, though some Senators thought that on a second roll call, which probable will be taken before the attempt to ratify is given up, enough Democrats to put it through would join its majority.

The text of the Irish reservation as introduced by Senator Gerry, Democrat, of Rhode Island, and adopted by the senate follows:

"In consenting to the ratification of the treaty with Germany the United States adheres to the principle of self-determination and to the resolution of sympathy with the aspirations of the Irish people for a government of their own choice, adopted by the Senate June 6, 1919, and declares that when such government is attained by Ireland, a consummation it is hoped is at hand, it should promptly be admitted as a member of the League of Nations."

After a final attempt to modify the Republican reservation to Article Ten, had failed the Senate late tonight reaffirmed by a vote of 54 to 26 its adoption of the reservation.

NEGRO KILLED BY MOBS ON STREETS OF BALTIMORE

Baltimore, March 19.—Riddled with bullets and mortally wounded, an unidentified negro was taken from a barricaded house after three hours battle in which two policemen were wounded and another negro, mistaken for the man wanted, was shot by the policemen and beaten by the mob. The negro defied the arrest for engaging in a fist fight in the theatrical district. Police shot holes in the houses and emptied their shot guns into the negro.

FRIDAY, MARCH 19, 1920.

Those fellows in this country who have entered the hog raising industry must feel perfectly at home.

The weather man appears content to leave us with evidences of spring-time, and his decision is assuredly pleasing.

Allied troops say they have no intention of depriving the Sultan of Turkey of his dominion over the harem, and for that the old boy certainly must be thankful.

The way blind tigers and illicit whiskey distillers are hunting the woods suggests the possibility of effective prohibition, at least, until the present scare is over.

Peru has asked the American government's protection against an invasion of Chilean troops, and as other countries which have done the same, we suppose it will get it in due time.

Proposed reservations may cut the heart out of the peace treaty, as President Wilson says, but then that apparently doesn't cut any ice with Republican majorities in the senate.

If some of those perplexing German names get lost during the present upheaval in Germany Kapp certainly will have done the reading public a great favor.

Poisoned whiskey apparently doesn't set very well in the minds of old John's followers, but possibly it sets better on the mind than in the stomach, as recent evidence depicted.

Chancellor Kapp has retired as German dictator after being in office five days. His retirement, so it is stated, is the result of a desire to establish internal peace in the nation. Which, by the way, is certainly generous.

The peace treaty surely will be ratified now that William Jennings Bryan has gone to Washington to urge immediate action in this interest. It may be remembered that the gentleman from Nebraska sometime ago took a similar step and startled the country with an unique, radical view of the situation as he presented it.

Former Emperor William has assured the Holland government that he will refrain from any political activity which would likely prove detrimental and involve the nation in international difficulty. Of course the Dutch accepted the statement, but it may be easily surmised that they will not let "Bill" get out of "hollering" distance.

Planters of this county should make every effort to grow splendid crops this year so they may have an opportunity of competing for prizes in agricultural exhibits at the Pitt county fair to be held during the month of September. There will be on display many things of interest to the farmer, and those expecting to compete for prizes, should not forget that intensive cultivation will mean much when the public is given a chance of rendering a decision in interest of their products.

RUSSIAN TRADE POSSIBILITIES.

If Russia comes back into the trade world, what will she have to sell and what will she want to buy?

Of course nobody can answer this in view of the lack of information regarding the present producing and purchasing power of Russia. But we can at least, says a statement by The National City Bank of New York, determine what Russia produced for exportation in normal times and what she took in exchange, also the countries to which she sold and from which she bought, and especially the trade of the United States with that country in the years immediately preceding the war.

The year 1913 was a fairly representative trade year with Russia. Her exports, which amounted to \$380,000,000 in 1890, and \$369,000,000 in 1900, had crossed the \$500,000,000 line in 1907 and averaged a little over that sum down to 1909, when they jumped to \$170,000,000, and averaged nearly \$800,000,000 a year in the three years 1911, 1912, and 1913, her official figures of exports for 1913 being 1,520,000,000 rubles, equal to \$783,000,000 (United States currency at the pre-war value of the ruble). Her imports in that year were 1,374,000,000 rubles, equal to \$706,000,000, the largest in her history. She had always "lived with her income," her imports being almost in-

variably slightly less than her exports. What did she export in this latest normal year 1913? Chiefly wheat, barley, wood in various forms, flax, eggs, butter, and petroleum, stated in the relative order of their value. These seven articles formed considerably more than one-half of her total exports in the preceding year. Wheat exported amounted to about 120,000,000 bushels, though in 1910 it exceeded 200,000,000 bushels.

What were her chief imports in 1913, the year of her highest purchases abroad? Raw cotton, coal, manufactures of iron and steel, wool, rubber, agricultural machinery, and miscellaneous manufactures. Cotton amounted to over \$50,000,000; coal about \$40,000,000; iron and steel manufactures about \$35,000,000; and agricultural machinery \$25,000,000.

Where did she buy and where did she sell? Forty-seven percent of her imports were from Germany; 13 percent from the United Kingdom; and 6 percent from the United States. Where did she sell her products? Thirty percent to Germany; 17 percent to the United Kingdom; 11 percent to the Netherlands; 7 percent to France; and 7 percent to the United States.

Russian official figures on her commerce with the United States differ

radically from United States official figures on her trade with Russia. Russian figures of imports in 1913 show a total of \$40,000,000 from the United States, while our figures of exports to that country in the same year are but \$27,000,000. Her figures of exports to the United States in 1913 are but \$7,000,000, while our own figures show \$24,000,000 worth of merchandise imported from Russia.

William Jennings Bryan tells members of the national farmers organization that he will not be a candidate for the presidency, just as if he expected them to believe it. President Wilson alone is given the privilege of establishing precedents, and Bryan's failure to enter race would be springing something really new and interesting.

With so many candidates for the presidency out in the open it doesn't seem natural that Herbert Hoover should continue to play hide and seek with admirers on both sides of the ring. Some say he is too bashful to push matters of personal interest, but then there is lots of difference in being bashful and shrewd.

Elizabeth city announces its intention of going before Chowan College officials in May with a offer of \$150,000 and a site for establishing the institution in that place. It is not known what other cities are going to do about the matter no what it has been permitted to drag along this far, but it is presumed Elizabeth City eventually will get the school if it continues to make offers above the one announced.

ONE CIVIL ACTION GIVEN HEARING IN COURT YESTERDAY

(Continued from page one.)
of the defense was so overwhelming that all argument was counteracted, bringing the case to earlier conclusion than had been expected.

PROCLAMATION ISSUED IN BERLIN SAYS GOV. HAS CEASED

Paris, March 13.—A proclamation issued in Berlin declares the government has ceased to exist and the power of state has passed into the hands of general director Von Kapp, who becomes chancellor and has appointed Gen. Von Luettwitz, as commander in chief of the military forces. Havas Berlin advises state the proclamation declares the national assembly dissolved and new government is being formed. Socialist parties have declared a general strike.

Candidate For State Senator

S. J. Everett

MR. EVERETT ANNOUNCES FOR SENATE.

To the Democratic voters of Pitt County:

Subject to your action in the primary held on the first Saturday in June, I hereby announce myself candidate for the State Senate from Pitt county.

If elected, it is my purpose to propose and advocate a law, which with reasonable adjustments, would reduce the tax rate in an inverse ratio to the increase in the valuation of property through the new tax law. In other words, if property has been increased four times the old total valuation through the new act, with necessary adjustment, I should favor fixing a rate of one-fourth of the old rate. It is both unjust and unwise to increase property valuations without similarly decreasing the rate and thereby encourage honest listing, enlarged volume and a still lower rate.

I would favor such laws as would tend to stabilize our great cotton interest. Cotton is a Southern monopoly and we are unable to get certain national laws protecting it, but by joint action of the several Southern States, we could establish laws necessary to protect rules and charges in its sale,

storage and transportation. There is nothing so essential to the whole business prosperity of our section of the State as a profitable price for cotton.

It would be equally my purpose to promote by just legislation, the interest of our tobacco and agricultural enterprises.

The proper development of our people and resources, depend largely upon good schools and a just and serviceable road system, and I would favor such legislation as would properly encourage these but would not favor plans for large expenditures as we must look forward to a fair ratio of service for the amount paid labor and a more reasonable charge for building materials.

Our State has made wonderful strides during the last few years, especially our own county, and if honored by the people of Pitt county, it will be my purpose, so far as I am able, to promote our entire interest and especially Pitt county, which has matchless possibilities.

Beyond adjustments to changed conditions and what is necessary to our growth and permanent progress, I would not favor new laws, especially experiments and radical politics.

S. J. EVERETT.

Bremen, Germany, March 18.—President Craemer of the Bremen cotton exchange says he believes the time is not far distant when it will be utterly impossible for Germans to buy commodities abroad with German marks. In a conference with Berlin government officials here he said: "Until recently we have been able to buy American cotton with American dollars that we picked up in nearby neutral countries at the best possible rate of exchange. We must not cease buying cotton so long as the means remain at our disposal, for the German cotton industry is at present operating to the extent of 30 percent of its capacity. Of every two bales of cotton we import, only one must be used to clothe our people, the other must be converted into finished products, the sale of which abroad will provide us with means of pay for both bales."

CIVIC CLUB OF CITY HOLDS INTERESTING MEETING

The Civic and Social Service Department had a very enthusiastic meeting Thursday afternoon in the Chamber of Commerce rooms. The program was a talk "Boy Scout Work" by Prof. Rose, principal of the Greenville High School, which was very interesting.

Mrs. Richard Williams read a splendid paper on Civic Pride, a subject we wish every citizen of Greenville could have heard.

If we would but follow plans and suggestions would have a "City Beautiful."

The business session was then held. After roll call and reading of minutes the secretary read a letter from the President of North Carolina conference of Social Service asking to send delegates to Goldsboro Wednesday, March 24 to 26 to the conference to be held at that time. An interesting program has been arranged and a good delegation from Greenville will be expected. Miss Maude Lee asked the department to co-operate with the Chamber of Commerce in their clean up campaign. Appointments of committees were announced. A committee on inspection of unattractive places has been made and the owners will be asked to co-operate with the department. An invitation from the Woman's Club asking the Mandolin and Guitar Club to play at the next Lyceum entertainment, April 8th, was given and they have kindly consented to play on that occasion. No other business, the meeting adjourned.

AUTOMOBILE SALE.

By virtue of a mechanic's lien for labor performed and material furnished on one Olympia Touring Car, Model 45, the property of L. J. Thopson, in the amount of \$27.06, and storage in the amount of \$22.50, I shall sell to the highest bidder for cash, on Saturday, the 3rd day of April, at 2 P. M. in front of my garage in Winterville that said Olympia Touring Car, Model No. 45, to satisfy said lien. Those interested in the purchase of a car should attend the sale and bid thereupon.

This March 19th, 1920.

--CLOTHES SPEAK

CLOTHES have a language of their own. They speak silently, yet often more audibly than vocal sounds. No class is unaware of their message, of their importance; no one—man or woman is free of their influence.

Kuppenheimer Good Clothes

are the handiwork of men who recognize human clothes-instincts.

Kuppenheimer good clothes have a definite place in the demands of men because they are good clothes.

The business man, the banker, the professional, the salaried man, the young man; all, find in them thorough clothes-satisfaction.

This store has Kuppenheimer good clothes that fit you.

CEMETERY MEMORIALS

When it is something that can be done but once, be it great or small, the best alone is sufficient.

What we do we do well—What we sell we Guarantee.

There is no line of trade in which the purchaser is more dependent upon the judgment, experience and honor of the dealer, than the monument business. It is of primary importance that the work be entrusted to a dealer of responsibility and reputation, and know integrity.

Our sixteen years of experience is at your service.
